Fuel consumption data and CO<sub>2</sub> emission data are determined according to Regulation (EC) No. 715/2007, taking into consideration the vehicle mass in running order, as specified by the regulation. Additional equipment may lead to slightly higher results than the stated fuel consumption and CO<sub>2</sub> figures. The figures for fuel consumption and CO<sub>2</sub> emissions do not relate to a specific vehicle and are not part of an offer. They are provided only for the purpose of comparison between different vehicle types. Average CO<sub>2</sub> emission of all new cars sold in Switzerland: 148g/km.

Kerb weight (kg): The specified value accounts for a 90 per cent filled fuel tank as well as 68 kg for the driver and 7 kg for luggage. The kerb weight applies to vehicles with standard equipment. Optional equipment may increase this value. Rated power output: For petrol engines, Cadillac recommends using Super unleaded 95 RON. Fuel qualities unleaded with RON 95 and above as well as a maximum ethanol volume of 10 per cent (E10) are permissible. Information on power and consumption relates to operation with RON-98 fuel.

PLEASE NOTE: The vehicles shown in this brochure are for illustration purposes only. European specifications may vary. Some illustrations feature special equipment that is not included in standard delivery. The information contained in this brochure was accurate at the time of going to press. We reserve the right to make changes in design and equipment. The colours printed in the brochure only approximate actual colours. Illustrated optional equipment is available at extra charge. Availability, technical features and equipment provided on our vehicles can vary from one market to another and may change without prior notice.
