

These specification details do not apply to any particular product which is supplied or offered for sale. Manufacturers reserve the right to vary their specifications, including colours, with or without notice and at such times in such manner as they think fit. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. This publication shall not constitute in any circumstances whatsoever an offer by the Company to any person. All sales are made by the Distributor or Dealer concerned subject to and with the benefit of the standard Conditions of Sale and Warranty given by the Distributor or Dealer, copies of which may be obtained from them on request. This publicity material applies to the UK only Trade Descriptions Act (1968). Whilst efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specification details with the supplying Dealer especially if your model selection is dependent upon one of the features advertised. Any indication of top speed and acceleration should not be inferred as encouragement to exceed legal speed limits or to drive the car in a manner that is unsafe for the prevailing conditions or beyond the capability of the driver.

A RACE CAR FOR THE ROAD

It's the Type R you've been waiting for. Harder, faster, stronger. Constructed with all Honda's racing know-how, it's a pure sports machine that gives you the maximum performance whether you're hitting the track or the road. The athletically poised new body shape is enough to get the pulse racing but it's when you look closely at the figures that you'll really feel the blood start to pump. At 0-62mph in 5.7 seconds it's the fastest accelerating front-wheel drive hatchback around, making it a car that has to be experienced to be believed. It's ready. Are you?

Model shown is Civic Type R in Championship White.
Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Type R will be a right hand drive vehicle.

Aggressively aerodynamic in design, the Type R has been shaped to maximise two things: incredible agility and raw speed. Every curve, line and angle is designed to promote high-speed stability and impressive levels of down force. With 310PS to tame, it doesn't just look good on the road, it grips it and won't let go. The outcome is a uniquely styled hot hatch but with the recognisable DNA that makes it a true Honda Type R.

TAKE A CLOSER LOOK

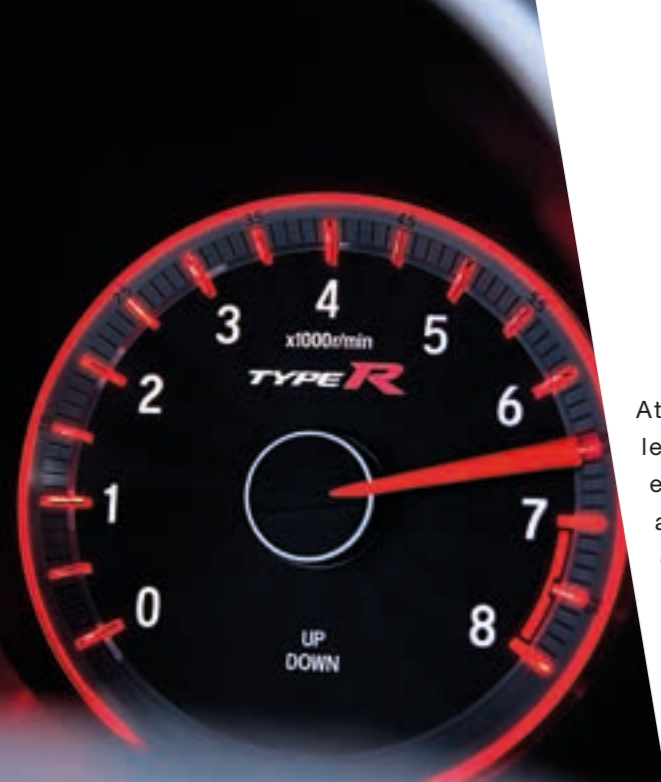

At the heart of the new Type R is an all-new direct-injected 2.0 litre VTEC TURBO engine, delivering outstanding power, torque and performance in the hot hatch sector. Its 167mph top speed has helped it set a class record lap time of 7 minutes 50 seconds at the world-famous Nürburgring, but it will only take you a few seconds to realise the power you wield. With 310PS on tap, a peak power of 6,500rpm and an amazing 400Nm max torque, you'll experience performance figures greater than any previous Type R.

THE POWER IS IN YOUR HANDS

Model shown is Civic Type R in Championship White. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Type R will be a right hand drive vehicle.

05:06

At Honda, we've never stood still. We've learned from the past, we've pushed engines to their limits and then pushed again. We constantly evolve to create engineering that doesn't just toe the line, but crosses it, giving you power and a sensory rush like no other hot hatchback. This is the first Type R to have a turbo. If you think it sounds good on paper, wait till you hear how it sounds on the open road. The turbocharged, 2-litre engine makes the driving seat a truly intoxicating place to be, combining rapid acceleration with blistering performance.

ALWAYS PUSH FOR BETTER **R**

Model shown is Civic Type R in Championship White. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Type R will be a right hand drive vehicle.

07:08

The Type R is designed to look good from all angles. But those angles have been meticulously designed, honed and engineered so that it can cut through the air at speed. The unique vents, grilles and skirts work together with the rear tailgate spoiler and diffuser to minimise drag, optimise airflow and boost downforce, providing improved handling and control at speed.

DESIGNED WITH PERFORMANCE IN MIND

Model shown is Civic Type R in Championship White. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Type R will be a right hand drive vehicle.

09:10

The Type R hands you all the power, but it also gives you full control. It has animal performance on the track, but it's very easy to tame out on the road. Innovations in the suspension systems, unique to the Type R, give razor sharp handling and help maximise power transfer to the road. The power really is in your hands, with Dual Pinion Electric Power Steering delivering rapid steering response and superb feel.

If the idea of control really pushes your button, well now there's one more. Press the '+R' button and discover a more

intense driving experience that you can really feel, as dynamic response is activated from the chassis and drive train. The interior space changes too, as dials glow red and the i-MID displays specific Type R screens. If you're a genuine sports-driving enthusiast it's good to know that instant thrills are right at your fingertips.

POWER AND CONTROL

Model shown is Civic Type R in Championship White. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Type R will be a right hand drive vehicle.

THE DRIVER

THE MOST IMPORTANT COMPONENT

The low driving position, combined with clear, sporty dials, means you can quickly and safely see essential information without taking your eyes off the road or track.

The cockpit of the Type R has been crafted to put you in the perfect position for a thrilling drive. Every feature is positioned just where you need it, so you're in full control at all times.

Model shown is Civic Type R in Championship White. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Type R will be a right hand drive vehicle and will show its speed in miles per hour.

The Type R cockpit is designed to promote a driving experience that engages the senses. After all, raw power shouldn't mean a raw deal when it comes to refinement. From unique sports seats, trimmed in red suede-effect fabric with double stitching and side supports, to the aluminium gear lever knob, the Type R has all the details covered. There is even a plaque affixed to the transmission tunnel showing your car's individual serial number.

RAW YET REFINED

Model shown is Civic Type R.
Images are shown for illustration purposes only and show a left hand drive vehicle.
In the UK, the Type R will be a right hand drive vehicle.

FULLY ENGAGED

The new Civic Type R packs a lot into the interior, especially with the Honda CONNECT touch-screen infotainment system. An optional GT grade adds even more features such as front and rear parking sensors*, dusk sensing headlamps*, rain sensing automatic wipers* and electric folding door mirrors*.

There's also an integrated satellite navigation system*, so while you may get lost in the moment through sheer driving pleasure, you won't lose your way home. And if the throaty roar of the engine didn't sound attractive enough, there's a premium eight-speaker, 320 watt stereo system upgrade*. Now you can choose the perfect soundtrack for your favourite drive.

*Available on the GT grade only.

SPECIFICATIONS

ENGINE

Type **2.0 i-VTEC**
Displacement (cc) **1996**
Emission standard **EURO 6**
Fuel required **UNLEADED(95)**

PERFORMANCE

Engine maximum power (kW @ rpm) **228 @ 6500**
Engine maximum power (PS @ rpm) **310 @ 6500**
Engine maximum torque (Nm @ rpm) **400 @ 2500-4500**
0 - 62 mph (seconds) **5.7**
Maximum speed (mph) **167**

FUEL ECONOMY AND EMISSIONS†

Urban cycle (mpg) **30.1**
Extra urban (mpg) **46.3**
Combined (mpg) **38.7**
Combined CO₂ (g/km) **170**

DIMENSIONS

Overall length (mm) **4390**
Overall width (mm) **1878**
Overall width including door mirrors (mm) **2065**
Overall height - unladen (mm) **1466**
Wheelbase (mm) **2594**
Tread front (mm) **1605**
Tread rear (mm) **1528**
Ground clearance - with driver (mm) **118**
Maximum seating capacity (persons) **4**
Turning circle - at body (m) **12.6**
Steering wheel lock to lock (wheel turns) **2.25**

CAPACITY

Boot capacity - rear seat up
(litres, VDA method) **498**
Boot capacity - rear seat down,
load to window (litres, VDA method) **1214**
Maximum boot capacity - rear seat down,
load to roof (litres, VDA method) **1427**
Fuel tank (litres) **50**

WEIGHT

Kerb weight (kg) **1382-1397**
Maximum permissible weight (kg) **1700**
Payload (kg) **303**
Maximum permissible axle weight
- front/rear (kg) **1010/750**
Maximum roof load (kg) **75**

SAFETY

- Driver i-SRS airbag (Dual Stage inflation)
- Passenger SRS airbag with cut off switch
- Side airbags (front)
- Side curtain airbags (front and rear)
- Front brake 18" vented & drilled disk
- Rear brake 16" solid disk
- ABS (Anti-lock Braking System)
- Electronic Brakeforce Distribution
- Hill Start Assist
- Vehicle Stability Assist
- Deflation Warning System
- City-Brake Active System
- Front seat belts with 2-stage emergency locking retractor
- Rear seatbelts with emergency locking retractor
- ISO Fix Points (outer rear seats)

SECURITY

- Immobilizer system
- Security alarm system
- Ultrasonic sensor
- Super locking
- Selectable door unlock
- Remote central locking with 2 jack-knife keys
- Smart Entry and Start

INTERIOR - TRIM

- Fabric interior
- Sports seats with integrated headrest and red suede type fabric
- Leather steering wheel
- Alloy gear knob
- Alloy pedals
- Black roof lining

FUNCTION AND TECHNOLOGY

- +R Mode
- intelligent-Multi Information Display (i-MID)
- Shift indicator light
- Electric power steering
- Idle stop
- Adaptive Damper System (ADS)

COMFORT AND CONVENIENCE

- Climate control auto air conditioning
- Cruise control with speed limiter
- Power windows (front and rear)
- Driver and passenger one touch power window (up/down)
- Tilt and telescopic steering wheel
- Electric adjustable and heated door mirrors
- Sunvisor vanity mirrors with illumination
- Accessory socket (front)
- Accessory socket (centre console)
- Boot cargo hook
- Driver seat manual height adjustment

INTERIOR LIGHTS

- Multiplex meter red illumination
- Map light (front)
- Boot light
- Courtesy light (front and rear)

AUDIO AND COMMUNICATIONS

- Honda CONNECT (7" touchscreen, AM/FM/DAB, internet radio, Aha™ app integration, internet browsing)*
- 2x USB Jack / HDMI Jack
- 6 speakers
- Steering wheel remote audio controls
- Bluetooth™ Hands Free Telephone (HFT)
- Rear parking camera

EXTERIOR

- Shark fin antenna
- Privacy glass (rear doors and tailgate windows tinted)
- Front lower mesh grille
- Rear tailgate spoiler
- Underskirts, door mirrors and front door handles in black
- Type R emblem (front & rear)
- LED headlights
- Front fog lights
- LED daytime running lights
- High mount brake light
- Headlight auto on/off timer (coming home/leaving home function)

WHEELS

- 19" alloy wheels
- Tyres 235/35 R19
- Tyre repair kit

†Fuel consumption, CO₂ and weight figures are measured according to EC directive procedures and are for comparison purposes. As a result of driving behaviour, road, traffic and weather conditions, general state and equipment level of the vehicle, real life fuel consumption and CO₂ figures may differ from these official values. In case of weight (defined as mass in running order) it applies to vehicles with standard equipment. Optional equipment may increase this figure and decrease the payload. The VDA method is a standardised method of measuring space and capacity.

*Connectivity for Aha™ app (including internet radio) and for internet browsing is through Wi-Fi tethering or Mobile Wi-Fi Router. Data usage and roaming charges may result from using applications on Honda CONNECT. We recommend you check your mobile phone subscribed package. Internet browsing function can only be used when the car is stationary. Note: Honda CONNECT is also Mirrorlink® enabled (this feature is only available where user's smartphone is compatible with Honda CONNECT Mirrorlink®).

GT SPECIFICATIONS

In addition to the standard features, the GT grade also includes the following:

SAFETY

- Forward Collision Warning
- Traffic Sign Recognition System
- Lane Departure Warning
- Blind Spot Information (BSI) incl. Cross Traffic Monitor
- Highbeam Support System

COMFORT AND CONVENIENCE

- Climate control dual auto air conditioning
- Rain sensing auto wipers
- Dusk sensing auto lights
- Auto dim rear view mirror
- Parking sensors (4 x front and 4 x rear)
- Rear one touch power window (up/down)
- Remote power window (key fob operation)
- Electrically retractable door mirrors
- Remote retractable door mirrors (key fob operation)
- Sub boot

INTERIOR LIGHTS

- Ambient light
- Interior red ambient lighting (front door lining)

AUDIO AND COMMUNICATIONS

- Honda CONNECT with GARMIN Navigation & CD player (7" touchscreen, AM/FM/DAB, internet radio, Aha™ app integration, internet browsing)*
- 8 speakers (high power audio, 320 watt)

EXTERIOR

- Red styling line on front and rear skirts

TOGETHER WE MAKE A GREAT TEAM

In addition to Type R, the Civic family consists of the elegant and refined 5 door hatchback, the spacious and practical Tourer and the new Sport version.

FOLLOW YOUR **R** DREAMS

Dreams can be powerful, they push you to achieve more, to explore new ideas, new technologies and uncover new ways of solving problems. They can be the inspiration to design and build a true supercar like the dramatic new NSX, or the desire to create the technologically advanced new CR-V.

Dreaming of a better world for people to enjoy has given life to a humanoid robot called ASIMO, taken flight with HondaJet and created some of the most popular motorbikes on the planet. The knowledge we gain from all the things we do and all the things we learn, goes into everything we make, just like the Type R.

The Type R was originally designed for race conditions. It was all about minimising weight and maximising performance. Today, the basic principles still hold true - to create a road car with real track capability. In fact, the red Honda badge and Championship White paint option is a tribute to our first Formula 1 winning car from way back in 1965 at the Mexico Grand Prix. By taking your seat in a new Type R, you're taking your place in automotive history. What happens next is up to you.
