*Available as part of the Essential Armour Pack. †Available as an Independent option.

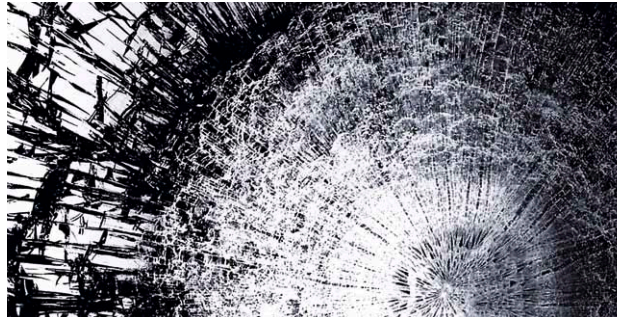

Discovery Armoured is the most capable of all the vehicles in the Jaguar Land Rover Armoured range. It offers an outstanding breadth of off-road capability while providing the same levels of B6 protection for occupants as the Range Rover Armoured. This is the state-of-the-art, multi-purpose vehicle from Land Rover and, unlike many rivals, has integrated B6 protection. Almost indistinguishable from the non-armoured Discovery, it is certified by QinetiQ®. Ideal for both VIP protection and support/escort roles, the new Discovery Armoured is the perfect platform for police and security organisations.

Reassurance

The Discovery Armoured undergoes a thorough and painstaking engineering development and construction process and is a fully type approved armoured vehicle when it leaves Land Rover. Its B6 ballistic capability is defined in accordance with European Standard EN1063 BR6 (glazing) and EN1522 and is certified by QiniteQ®, a leading, independent, globally recognised international security and defence, design and certification organisation. As a factory supplied product the vehicle comes with a Land Rover three year or 50,000 miles (80,000km) warranty, the support of Land Rover's worldwide dealer network and a comprehensive range of additional aftersales packages.

Protection

Discreetly armoured with its first level protection delivered through its anonymity, the Discovery Armoured is a fully integrated product with B6 levels of ballistic protection and additional blast resistance. Optimum occupant protection is assured thanks to, amongst other components, bullet resistant glazing, ballistic steel armouring and Kevlar® floor protection. The Discovery Armoured retains functionality of the driver and front passenger facia airbags. Seat belts comply with EC whole vehicle type approval for anchorage strength and installation. These features help optimise passenger protection to the highest level. Discovery Armoured offers a flexible seating layout with accommodation for five people.

Capability

The Discovery is a vehicle designed to take on the more difficult surfaces with confidence and improved safety. The additional weight of armoured protection on Discovery Armoured does not compromise this performance. Air springs and anti-roll bars are upgraded, while dampers are tuned to optimise ride and handling. Stability Control System software ensures confident handling under all envisaged driving conditions. Refined power and smooth torque distribution are supplied by the advanced sequential 3.0L turbo diesel engine with an eight-speed drive select. The 3.0L diesel engine achieves a top (electronically restricted) speed of 100mph (160km/h). Larger brake discs and multi piston callipers ensure outstanding brake performance. On the road, four corner independent air suspension gives car-like ride and handling as well as an upgraded braking system.

Driver training package

Armoured vehicle Driver Training is a tailor-made package available on request. Please contact a member of the Land Rover Armoured team for further information.

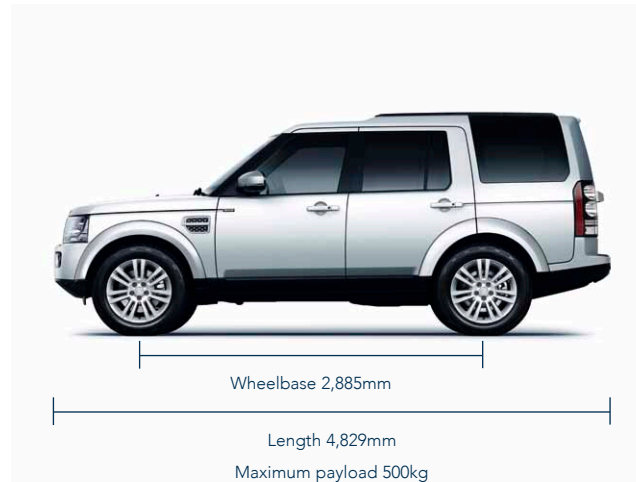

Specialist service package

Supplementary Global Aftersales Support is available, on request, to suit customers' every need with Gold, Silver and Bronze packages. These packages are developed for the specific demands of geographical zones with servicing performed by dedicated factory-trained technicians. Please contact a member of the Land Rover Armoured team for further information.

Bespoke Armoured options

For customers with specific threat levels and for which the customer wishes to specify a ballistic protection, above or below that offered on the standard armoured Discovery, Jaguar Land Rover offers bespoke armouring solutions tailored to individual contract requirements.

IMPORTANT NOTICE: All Land Rover Armoured vehicles are subject to international export control legislation. Please contact the Armoured team at Land Rover for further information.

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Dealers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Dealer.

To maintain the vehicle's discreet appearance, this brochure contains images of both armoured and non-armoured vehicles. For details of all armoured features please contact the Armoured team at Land Rover: armoured@landrover.com
