REAR CAMERA MIRROR

Cadillac's innovative Rear Camera Mirror allows you to use either a traditional inside mirror or a rearview camera mirror display that provides a wider, unobstructed view to check for traffic. HANDS-FREE POWER LIFTGATE

When your hands are full and you approach the liftgate with the key fob, simply apply a swiping motion underneath the left rear side of the XT4 between the vehicle and the LED logo projected onto the ground, and the hands-free power liftgate will open for you.

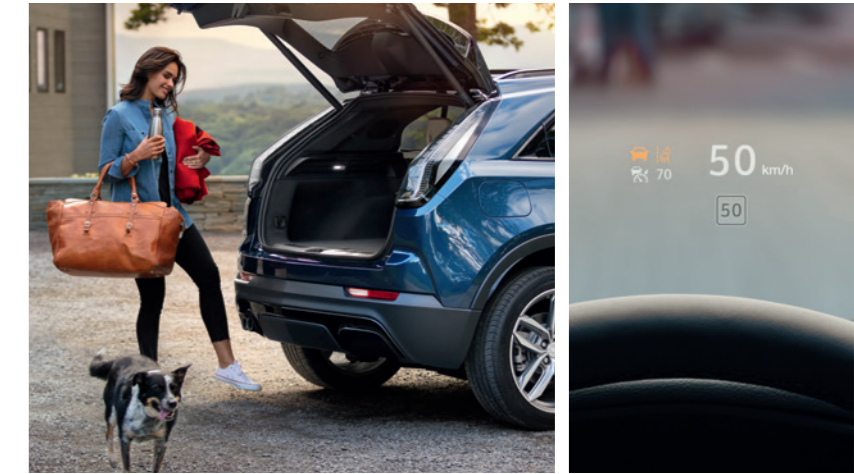

HEAD-UP DISPLAY

Full-color and with selectable modes, the Head-Up Display helps you keep your eyes on the road by projecting useful information onto the windshield.¹

ACTIVE SPORT SUSPENSION

The Active Sport Suspension uses Continuous Damping Real-Time Control to adjust the chassis tuning at each wheel every two milliseconds, for exceptional ride and handling.¹
