Meticulously Designed and Engineered

Land Rover accessories are engineered by the same team who designed your vehicle. They are the experts who understand every inch of your Land Rover and its capabilities. Their expertise allows them to create accessories that complement the overall design of your vehicle, while optimising performance.

Tested to the Highest Standards

All Land Rover accessories are rigorously tested and inspected to ensure they meet the exacting standards you expect from Land Rover. This ensures they always work in harmony with your vehicle.

Accessories are tested in extreme hot and cold temperatures to ensure they will perform in all conditions, year round.

Corrosion resistance testing ensures accessories can withstand demanding climates such as coastal conditions, while a series of tests ensures seamless integration with your Land Rover's existing safety

features.

Bespoke testing ensures that accessories are put through their paces in a series of tests that suit their design, function and the materials from which they're made. Exterior accessory testing, for example, includes:

- Exposure to up to two years of direct sunlight known as 'Florida Weathering'.

- Heat Ageing Test for 500 hours.

- Extreme Heat Test ranging from -40°C to 80°C.

- Heat Shock Testing during which parts are cooled to -40°C for 16 hours, then heated to 70°C for 5 minutes.

- Humidity Resistance Test where accessories are subjected to 168 hours at 48°C in 95-100% humidity.

- Accelerated Environmental Cycle Testing comprising a relentless barrage of salt, dirt and dust to simulate real world driving.

Quality Assured

For additional peace of mind, all Land Rover accessories come with a minimum 24 month warranty or can be covered under your vehicle's existing warranty if they're purchased within the first month of ownership or 1,000 miles (whichever comes first).
