

ZAFIRA TOURER

2012 Models Edition 1

Proud Sponsor of Home Nations Football

GET MORE OUT OF LIFE

Want more out of life? Then check out the all-new Zafira Tourer from Vauxhall. The Zafira Tourer combines the dramatic looks and personality of a premium MPV with the versatility of a seven-seat people carrier – with leisure storage and luggage space to spare. The Tourer's terrific to drive. Supremely comfortable. And full of innovative features. So take a look at the stylish and flexible new Zafira Tourer. It's perfect for your family's active lifestyle.

This brochure covers Zafira Tourer ES, Exclusiv, SRi, SE and Elite models only. Some of the vehicles shown in this brochure include options and accessories available at extra cost. And not all of the features described are available on every model. We may also offer alternative Zafira Tourer models such as Special Editions. So for all current model or equipment details visit the Vauxhall website: www.vauxhall.co.uk

PERSONALITY AND STYLE FROM ANY ANGLE

Some cars look sporty from any angle, and the Zafira Tourer has a distinctly dynamic feel. With a strong, broad stance it's reassuringly solid, while bold design details – like the boomerang headlights and chrome accents – add to the premium look and are bound to create an impression. No matter where you go.

Watch the new Zafira Tourer design video and let yourself be inspired by its attractive exterior design. All you have to do is scan a picture of the QR code using a smartphone with QR code reader installed.

THE POWER OF SELF EXPRESSION

If you thought all people carriers drove the same think again. With bespoke steering settings specifically tuned to the tough demands of UK roads and a Watt's link rear suspension set-up for a smoother, more stable ride, the Zafira Tourer combines exemplary grip with serious agility – no matter how many passengers are on board.

Optional FlexRide with Continuous Damping Control lets you change the whole driving dynamic at the mere touch of a button. In 'Sport' mode, FlexRide sharpens the dampers and hones the steering and throttle response. In 'Tour' mode, it selects the best settings for gentler, long-distance cruising. The result: a driving experience to suit your every mood.

WELCOME TO THE CONTROL CENTRE

The best cars are designed around the driver. Slip behind the wheel of the new Zafira Tourer and you'll have the immediate impression that everything's been taken care of. Strikingly styled and comfortably trimmed with premium materials throughout, the Tourer provides conclusive proof that we wholeheartedly support an active family's needs, but always have the driver's interests firmly in mind.

Thanks to the super-slim A-pillar design, visibility in the Zafira Tourer is outstanding – particularly with the impressive panoramic windscreen. The cabin is well-organised, thanks to the customisable FlexRail® centre console storage system. And everything falls readily to hand. In short: the Zafira Tourer leaves the driver comfortably in control – and passengers safely provided for.

CLIMB IN CHILL OUT

Don't think of it as a travelling compartment. Think of it as a comfort zone. With Vauxhall's innovative Lounge Seating system, rear passengers have never felt more relaxed. The system converts in seconds from three individual second row seats, by sliding them rearward and inward to create two welcoming, captain-style chairs. At the same time, the centre seat converts to an armrest, providing added comfort. A clever rethinking of Vauxhall's legendary Flex7® seating system adds to the travelling experience. It means greater fore and aft adjustment. Easy-entry third row seats. Plus a completely flat load floor once the rear seats have been folded.

TRAVEL IN STYLE

When it comes to car seats, the Zafira Tourer is the benchmark. Driver and passengers are surrounded by space and light, with those in the second-row sitting pretty in the Lounge Seating. When you know that there are no compromises on the quality of materials used, the workmanship, or the levels of comfort required, then you really can sit back and relax.

VIP LOUNGE TO CARRY-ALL IN TEN SECONDS – FLAT

Multi-tasking doesn't get any easier than this. The Zafira Tourer has all the versatility you need to breeze through your day. For those big, awkward loads, you can fold all the rear seats flat to give you 1,860 litres of load space. Or simply fold single seats out of the way to make room for your passengers' bulky luggage. Whatever combination you need, quick-release straps ensure you're ready in no time at all.

PARK AND RIDE ZAFIRA-STYLE

Looking for the ideal partner for your sporting or leisure activity? The Zafira Tourer carries it off – in style. Inside, the Tourer’s load-carrying potential is exceptional, with functional storage features and acres of space for all your kit. Outside, the optional Flex-Fix® carrier – fully integrated into the rear bumper – makes light work of transporting a couple of bikes. Need to carry an extra set of wheels or two? Simply attach the accessory Flex-Fix® extension and hey presto: the ideal platform for your impromptu cycling expedition, with space for up to four bikes.

➤ MORE FLEXIBILITY FOR LASTING COMFORT

Vauxhall is famous for its flexible seating, and over the last two decades we've honed seven-seat solutions to perfection. Our benchmark Flex7® technology allows you to fold single seats flat or tip them up to get in and out. And now on SE and Elite models Lounge Seating takes Flex7® to a new level of luxury – by letting you turn the three individual second-row seats into two welcoming captain-style chairs with an armrest and extra space.

1. Third-row seating. All models come with a practical third row of seats to make the Zafira Tourer a full-on seven-seater*. Both outside second-row seats slide forward and tilt up – so you can easily get in and out of the back.

2. Turn three seats into two. Lounge Seating is a great way of really spoiling second-row passengers – or of keeping squabbling kids apart. The centre seat of the second row flips down to make an armrest, and the two outside seats slide back and away from the doors, giving you even more elbow- and legroom with the minimum of fuss.

Please note, for illustrative purposes only. The lounge seating system is not available in the UK with the seat trim illustrated.
*When all seats are occupied within the Zafira Tourer the passenger side third-row seat is only useable by a passenger up to a maximum height of 150cm.

3

3. Flat-folding seats. Loads come in all shapes and sizes, and so does the luggage area in the Zafira Tourer. Each individual rear passenger seat folds totally flat so you can carry passengers and bulky loads at one and the same time.

4

4. Extra-large load space. Switch from limousine-like comfort to all-purpose carrying ability in a matter of seconds – so you can transport that furniture, DIY kit or leisure equipment with ease. With rear seats folded flat, the Zafira Tourer boasts a useful 1,860 litres of luggage space.

➤ SAFEGUARD YOUR INTERESTS

Whether you're driving alone or with your family, it's comforting to know the Zafira Tourer protects you all, with a full complement of state-of-the-art active and passive safety features.

Select the innovative front camera system option available on SE and Elite models and the Zafira Tourer will read the speed limit signs and display a reminder on the fascia, helping you keep safe and legal. Leave your lane without a signal and it can also warn you – just in case you're tired or distracted. The system also constantly indicates the distance to the vehicle ahead, and alerts the driver if a collision is imminent. It will even slow you down automatically should the need arise, giving you time to apply the brakes.

The steel safety frame and airbag protection system.

It's good to know you're surrounded by quality safety components. Every Zafira Tourer is built around an energy-absorbing, high-strength steel frame, and is fitted with front-, side- and curtain-mounted airbags that cushion your head, pelvis and upper body in the event of an accident.

Traffic Sign Recognition (TSR).

Utilising the front camera function, this clever system makes sure you're constantly made aware of speed limits, even when temporary signs are put up. TSR continually monitors road signs, and gives you a warning if you unintentionally stray over the limit. It can even read and display motorway electronic signs related to speed limits like rain or snow warnings.

Lane Departure Warning (LDW).

LDW uses the front camera system to recognise lane marking lines, and emits an audible warning if your vehicle leaves its lane unintentionally (i.e. without you signalling), preventing potential accidents and reminding you of inattention or tiredness. The LDW system can be deactivated via a facia switch.

Adaptive Cruise Control (ACC) with Forward Collision Alert (FCA).

ACC uses a radar sensor to automatically maintain a gap from the vehicle in front. It incorporates Following Distance Indication (FDI) which constantly shows the distance to the leading vehicle in the instrument panel, helping you to maintain a safe distance. In addition, FCA – active when the car is moving faster than 20mph – gives visual and audible warnings if you approach a slower-moving vehicle too fast and uses Automatic Brake Intervention technology to apply the brakes, slowing the car to as little as 10mph if required.

Side Blind Spot Alert. Available as part of the Park and Go Technology Pack on SRi, SE and Elite models, this ultrasonic-based system helps prevent a potential collision with a vehicle in the neighbouring lane by continuously screening the blind spots on both sides of the car and provides an audible and visual warning if the indicator is set to change to a lane where another car is detected.

➤ INTELLIGENT LIGHTING FOR EVERY ENVIRONMENT

Vauxhall's intelligent Adaptive Forward Lighting (AFL) technology is an invaluable optional addition to your Zafira Tourer, especially if you do a lot of driving at night. The headlights change their pattern to suit the location and the weather. Sensing where you need the light most, they help you see around corners and even dip automatically when something is coming the other way. You can also adjust the system for European driving.

Intelligent Light Ranging (ILR). Available in conjunction with AFL as part of the Premium Forward Lighting Pack when the Front Camera System is specified, ILR extends the range of both headlights up to about 350 metres at speeds over 30mph. ILR also automatically adjusts the spread to avoid dazzling oncoming drivers. And if you're approaching an upward gradient, it'll even raise the beam to give you a better view of the road.

Advanced Adaptive Forward Lighting.

Motorway light (over 70mph).

140 metre range. higher and brighter than normal low beam, without dazzle.

Country road light (35-70mph).

Wider spread and brighter light than normal low beam. 70 metre range without dazzle.

Town light (20-35mph).

Wider and lower spread of light. Activated by vehicle speed together with street lighting.

Pedestrian area light (up to 20mph).

Wider spread of light (an extra eight degrees left and right) illuminates potential hazards.

Static cornering light (up to 25mph, also when reversing).

Throws light 90 degrees left or right for enhanced lateral vision.

Dynamic curve light (any speed).

Activated by steering angle and speed, the headlights swivel up to 15 degrees into the curve.

High beam with assist (over 25mph).

Automatically switches from high to low beam as it detects oncoming or proceeding vehicles.

Adverse weather light (up to 45mph).

Wiper or rain sensor activated for better vision in bad weather conditions.

➤ ASSISTANCE WHEN YOU NEED IT MOST

Wherever you're heading it's good to know that Zafira Tourer will make getting there as stress free as possible.

1. Hill Start Assist. Standard on the Zafira Tourer SE, Elite and all automatic models – Hill Start Assist stops you rolling back unintentionally on steep hills, by automatically releasing the brake at just the right moment when pulling away on a gradient.

2. Rear View Camera (RVC) and display. Mounted on the tailgate handle, the RVC gives you a clear view of the area behind the car, displaying your rear bumper as a useful point of reference. The picture shows up on your infotainment screen, with horizontal lines overlaid as a scale so you can easily judge the distance to objects and other cars. Working in conjunction with the front and rear parking distance sensors, you quickly appreciate just how easy it is to reverse the car safely. Available as part of the Park and Go Technology Pack it's an option on SRi, SE and Elite models.

3. Advanced Park Assist. Parallel parking will never be the same again. This smart option not only tells you when you drive by a suitably-sized parking space **4.** but also – while you're actually parking – shows you exactly how far to turn the steering wheel and how far you can drive backwards and forwards without an unwanted bump **5.** Like the RVC, this feature is available as part of the optional Park and Go Technology Pack.

➤ SMOOTH OR SPORTY – YOU DECIDE

The Zafira Tourer doesn't look like a run-of-the-mill people carrier and it doesn't drive like one either. The ride is smooth, composed and incredibly responsive – thanks to the Watt's link rear suspension system combined with a long wheelbase and wide track. The optional FlexRide Adaptive Stability Technology, further enhances the driving experience by automatically adjusting ride settings to suit your driving style.

1. Superior suspension. For maximum grip and a comfortable ride, the Zafira Tourer features a Watt's link rear axle design, first used on the latest Astra range. The system provides greater lateral control, improving the car's composure in corners and delivering similar performance to more complex multilink systems.

2. FlexRide chassis settings. With a mere touch of a button the optional FlexRide system allows you to change the Zafira Tourer's whole driving dynamics – from 'Sport' to 'Tour' and back again. Using Continuous Damping Control technology, FlexRide automatically adjusts the dampers for excellent grip. In 'Tour' mode, it chooses the best settings for gentler straight-line driving. Switch to 'Sport' mode and it instantly provides stiffer damping and swifter throttle response for more dynamic driving, sharpens the speed-sensitive steering and raises the shift-up points of the automatic transmission (if fitted) to a higher rpm. It also changes the colour of the ambient instrument lighting – from a cool white to a more dynamic red effect.

Zafira Tourer

➤ PROTECT OUR FUTURE

Embracing life means taking responsibility for it too. That's why Vauxhall has always been at the forefront of green automotive initiatives.

We are always looking to reduce vehicle CO₂ emissions, and our ecoFLEX models – like the Zafira Tourer 2.0CDTi 16v (130PS) ecoFLEX Start/Stop – producing as little as 119g/km of CO₂, further underline our commitment to the environment.

Most recently, we have been researching ways of developing new cars that are more efficient than ever before. The forthcoming Vauxhall Ampera* is an Extended-Range Electric Vehicle (E-REV) that can drive up to 50 miles on battery power alone and up to 360 miles utilising an on-board electric generator system.

But our commitment to preserving the environment goes even further. We have dramatically reduced manufacturing emissions, for example, and our new vehicles use more recycled materials and more recyclable parts than ever before.

We also offer free and easily accessible, environmentally friendly, end-of-life vehicle disposal through our partners, Autogreen Ltd.

That way, we reduce our environmental impact in every phase of every Vauxhall vehicle's life cycle. We all share the same world. Let's embrace it.

*For more information on Vauxhall Ampera please visit www.vauxhallampera.co.uk

➤ **STYLISH, WITH POWER TO MATCH**

The Zafira Tourer is great to drive and matches genuine environmental credibility with serious driver appeal. A range of powerful yet economical and tax-efficient engines underlines its dynamic potential.

Zafira Tourer drivers can select from seven powerful yet efficient units. A highly flexible 140PS 1.8 litre petrol unit. Free-revving 140PS 1.4 litre turbo petrol engines, including a special low emissions version. Plus three fuel-efficient 2.0 litre turbo diesel engines, producing 110PS, 130PS or 165PS. The 130PS unit can be specified with Vauxhall's market-leading ecoFLEX technology, for outstandingly low emissions and excellent fuel economy. Indeed with CO₂ emissions of just 119g/km it provides conclusive proof that diesel performance can go hand-in-hand with the most stringent levels of environmental control without compromising performance and driveability. In addition, all engines comply with the rigorous Euro 5 emissions standard. In some cases drivers can

choose between manual and automatic options. The Zafira Tourer also features Vauxhall's cutting edge Start/Stop fuel-saving and emissions reduction technology. Available with the 1.4 litre (140PS) petrol unit alongside the 2.0 litre (130PS) ecoFLEX and 165PS turbo diesels, this innovative system switches the engine off when you stop at the lights or in traffic, then restarts it automatically once the clutch is depressed. A huge range of built-in checks ensures passenger and vehicle safety at all times, of course. Engine stop is indicated by the rev counter needle in the AUTOSTOP position and the system can be deactivated manually simply by pressing the ECO button. The model pages identify the availability throughout the Zafira Tourer range.

➤ INNOVATIVE FEATURES

If you appreciate the good things in life, the Zafira Tourer has some special features you'll love. From a panoramic windscreen and sunroof to luxury leather trim, our range of options and packs lets you tailor your car until it's the perfect fit.

1. 2. Panoramic windscreen and sunroof. Standard on Elite and optional on SRi and SE models, the panoramic windscreen and sunroof combination opens up your view to the outside world, whilst on the inside everything's lighter and brighter. The panoramic windscreen with heat-absorbing glass is more than just a windscreen – it's a window to the world, extending way back over the front seats. The effect is like nothing you've ever experienced. There's also a full-length shading system with twin pull-out sun blinds should you need them. And the panoramic sunroof extends right over the second-row of seats.

3. Ergonomic sports front seats. Zafira Tourer's orthopaedic ergonomic sports front driver's seat adjusts to suit the driver's posture, by letting you fine-tune the lumbar cushion separately in four directions, to give your upper body extra support where you need it most. The driver's seat is adjustable in six different ways, and the front of the cushion extends forward to take the load off tired legs on long trips. Standard on Elite models with leather seat facings and optional on SRI as part of the Leather Pack, the option is also available on SE models trimmed in Lace cloth.

4. Electronic Climate Control (ECC). Vauxhall's ECC sets new standards for air conditioning. It's sensitive to some 200 parameters instead of the usual 20 in rival units. Despite the complex technology, the ECC couldn't be simpler to use. It has dual zone settings so you can set a different temperature for each side of the car. It also comes with an advanced compressor that reduces fuel consumption by cooling only when it has to. The filter system catches pollen, dust and unpleasant odours.

➤ MORE ROOM LESS MESS

We know how good it feels to take a trip in a tidy car. That's why the Zafira Tourer has a place for everyone and everything has its place. Depending on trim and equipment levels, there are up to 34 separate compartments – storage has never been so versatile.

1. Generous storage features. In some cars the glove compartment ends up shrinking to make way for the airbags. In the Zafira Tourer, you'll be pleased to know, that's not the case. Safety still comes first, but in addition to an open storage compartment there are two closed glove compartments. And that's just on the passenger side. In addition most models also feature a front passenger's underseat storage facility.

2. The king of the consoles. Standard on SE and Elite models, the FlexRail® centre console system is a modular, multi-level storage system featuring different-shaped compartments and cup holders that you can move around, depending on what you need the most. Cup holders up front in the morning, CDs in the evening, along with the loose change and ticket tray for when you're parking the car and a rear 12 volt auxiliary power socket. There's also a hidden compartment large enough for your handbag or tablet PC.

3. The built-in bike carrier. Optional Flex-Fix® slides in and out of the rear bumper, making it easy to transport two adult bikes. No lifting, pushing and shoving inside the load area – and no mud or oil on the seats either. If you need to carry four bikes instead of two, simply attach the handy extension that's available as an accessory

4. FlexOrganiser® Pack. The optional FlexOrganiser® Pack comprises four side rails plus restraint net with two bars, a small side net pocket **4.** and four adaptors. The system makes it easy to keep things neat and tidy in the back and can also be added to with a range of accessories including load straps, a useful storage box and side rail hooks **5.**

➤ IMPROVE YOUR DRIVETIME

Keep your passengers happy and steer clear of congestion, with some multi-talented multi-media gear. From sound systems to sat navs and phone connection, your Zafira Tourer offers all the kit you would expect on a premium MPV.

High-end hi-fi is a must. When the interior of your car feels like a living room, you're going to want in-car audio with the quality of your stereo at home. The CD 400 audio unit fits the bill with DAB digital radio as standard on every model. This means digital quality sound, a broader range of stations, easier to find by name and improved track display info on some stations. It also features 20 Watts per channel output with seven speakers and a Graphic Information Display, plus an aux-in socket for external portable music players. However fast you're going, it has the power and precision to fill the car with fantastic sound.

You can also specify a fully integrated Bluetooth® mobile phone system. There's even a back-seat power socket as standard – for smartphone users large and small. There's also a choice of top-of-the-line navigation systems to get round the traffic, both of which will even work out the most economically sound route.

Plug-and-play USB. Most models feature USB connection so you can plug in your own personal MP3 player, smartphone or USB stick to the sound system and access the contents via the fascia or steering wheel remote controls. All models feature a standard aux-in socket too.

Steering wheel remote controls. Control your multi-media devices and keep your hands where you need them. The steering wheel mounted audio controls let you adjust the volume and skip tracks and radio stations – all with just a touch of your thumb. With the optional Bluetooth® mobile phone system fitted you can even take and make phone calls.

Satellite navigation. The Navi 600 is a state-of-the-art navigation system that features a seven-inch, high-resolution colour display that's on a level with your line of sight. The navigation map data and Points of Interest (POI) are stored on a fast-access SD card. Besides fastest and shortest route, the most economical journey can even be selected. You can also connect external devices via USB or an aux-in socket so you can listen to music and still know where you're heading. Seven speakers and 20 watts per channel output also ensure crystal clarity sound.

The Navi 900 unit (illustrated above) adds even more features such as bird's eye view mapping and map-data for more than 30 European countries. It also has a log book function for each trip with USB download, the possibility to show individual pictures on the display and voice recognition for the navigation system. The system will even automatically announce stored POI's via a message on the display as you approach.

Standard features include:

- Electronic Stability Programme (ESP)
- Drivers and front passenger's airbags
- Front seat side-impact airbags
- Full-size curtain airbags
- Daytime running lights
- 17-inch steel wheels with flush covers*
- Air conditioning
- CD player with MP3 format/stereo radio
- DAB digital radio
- Aux-in socket
- Steering wheel mounted audio controls
- Cruise control
- 12-volt auxiliary power sockets located in front and rear centre console and luggage compartment
- Remote control central deadlocking
- 35/30/35 split-folding second row seats
- Two individual fold-flat third-row seats
- Electrically operated front windows
- Electrically adjustable/heated door mirrors
- Luggage compartment cover
- Black roof rails

OPTIONAL WHEELS**

EXCLUSIV

17-inch 10-spoke alloy wheels with 225/50 R 17 tyres.

SRI

19-inch 5-spoke bi-colour alloy wheels with 235/40 R 19 tyres.

SE

18-inch 10-spoke alloy wheels with 235/45 R 18 tyres.†

ELITE

19-inch 5-spoke alloy wheels with 235/40 R 19 tyres.

Please note: A space-saver spare wheel is available at extra cost in lieu of the emergency tyre inflation kit.

*1.8i 16v VVT (140PS) models feature 16-inch steel wheels with 215/60 R 16 tyres. **Optional at extra cost. †Not available on 2.0CDTi 16v (130PS) ecoFLEX model. Please note: Optional wheels can result in higher fuel consumption and CO₂ emissions. Please refer to the specification section for more information.

➤ VXR STYLING

VXR styling products allow you to connect with the performance and excitement at the heart of the VXR brand. Inspired by those same values, we have created a definitive line-up of VXR styling products that will add a degree of individuality to any Zafira Tourer.

Lower, longer and meaner – the VXR Styling Pack really makes the most of those optional 19-inch alloy wheels. The VXR-designed sleek spoiler, side sills and skirts you see here blend seamlessly with the Zafira Tourer's aerodynamic contours.

Of course, you don't have to order the full pack. These items are also available from your Vauxhall retailer as individual accessories. Why not fit the sporty roof spoiler on its own, for a simple addition that makes an instant impression?

➤ TAILORED SOLUTIONS

With its versatile, all-you-can-store interior, there's very little the Zafira Tourer can't handle. But if there is something special you need, we have the ideal accessory.

Whether you're starting a family or a road trip, there's certain to be a Genuine Vauxhall Accessory with your name on it, ready to be fitted by trained Vauxhall professionals. We've featured here just a small selection of what's available, so please check with your Vauxhall retailer for Zafira Tourer accessory information, or visit our website at www.vauxhall.co.uk/accessories.

1. Child seats. The rear-facing Baby-Safe (up to 13kg) and KID (15-36kg) seats are fixed with a standard lap and diagonal seatbelt. The DUO ISOFIX (9-18kg – right) can also be attached using the ISOFIX child seat restraint fittings.

2

3

2. Thule roof box and roof base carrier. A wide range of Thule roof boxes are available to fit the base carrier system.

3. Rigid cargo liner. When you have lots of little items to load, this made-to-measure liner is a must. It lets you lift everything in and out in one go, and the edge has a lip which helps keep the load space stain-free even if liquids accidentally spill.

4. Velour floor mats. Extra protection that keeps your fitted carpets as clean as the day you brought your car home.

4

EXTERIOR COLOURS AND TRIMS

A car as accomplished as the Zafira Tourer demands the perfect finish. Take your pick from a range of striking colours. Add smart interior colour matches, premium materials and you have a winning combination that's every bit as individual as the car itself.

*Optional at extra cost.

Due to the limitations of the printing process, the colours reproduced may vary slightly from the actual paint colour. As a result, they should be used as a guide only. Your Vauxhall retailer has a comprehensive display of our paint samples.

CATANIA/ATLANTIS TRIM

Standard on ES models. Catania seat inserts in Jet Black / Atlantis bolsters in Jet Black. Available with all exterior colours.

MANDO/ATLANTIS TRIM

Standard on Exclusiv models. Mando seat inserts in Jet Black / Atlantis bolsters in Jet Black. Available with all exterior colours.

LACE/ATLANTIS TRIM

Standard on SRi models. Lace seat inserts in Jet Black / Atlantis bolsters in Jet Black. Available with all exterior colours.

SALERNO/MORROCANA TRIM

Standard on SE models. Salerno seat inserts in Dark Galvanised / Morrocana bolsters in Jet Black. Available with all exterior colours.

SALERNO/MORROCANA TRIM

Optional on SE models. Salerno seat inserts in Choccachino / Morrocana bolsters in Cocoa. Available with Carbon Flash, Waterworld and Macadamia exterior colours.

LEATHER MONDIAL TRIM

Standard on Elite models. Leather seat inserts in Dark Galvanised / Leather bolsters in Jet Black. Available with all exterior colours.

Due to the limitations of the printing process, the colours reproduced may vary slightly from the actual trim material. As a result, they should be used as a guide only. Your Vauxhall retailer has a comprehensive display of our trim swatches.

Personalise your Zafira Tourer

All Zafira Tourer models have a number of features which can be activated or deactivated to suit the driver's preference, and some can be memorised for each individual vehicle key. Depending on equipment level, whenever the key is removed from the ignition lock the following settings can be automatically remembered by the key – lighting, infotainment system, central locking system, sport mode and comfort settings. Please refer to the handbook for further details.

Safety

Standard features

Airbags: • Driver's airbag • Front passenger's airbag • Front seat side-impact airbags • Full-size curtain airbags • Deactivation switch for front passenger's front and side-impact airbags – Ensures front passenger airbags do not inflate when a child seat is fitted to the front passenger's seat

Seating: • Active-safety front seat head restraints • Height-adjustable front and outer rear seat head restraints • Five lap and diagonal inertia-reel seatbelts (height-adjustable front) • Third-row lap and diagonal inertia-reel seatbelts (height restrictions apply*) • Front body-lock diagonal seatbelt pretensioner system – Tightens the seatbelt during the early stages of a frontal impact • Drivers and front passenger's lap belt pretensioner system • Front seatbelt force limiters – Reduces potential upper body injuries during a frontal impact • Anti-submerging ramps in front seats – Help prevent occupants sliding underneath the lap belt during a collision • ISOFIX child seat restraint system for outer rear seats incorporating top tether (does not include child seat) – Secures specially designed ISOFIX child safety seats to the vehicle itself, virtually eliminating the dangers that can result from improper installation

Electronic: • Electronic Stability Programme-plus (ESP-plus) – Reduces the possibility of losing control of the vehicle • Anti-lock Braking System (ABS) • Electronic Brakeforce Distribution (EBD) • Cornering Brake Control (CBC) • Hydraulic Brake Fade Assist – Automatically raises braking pressure to compensate for brake fade under repeated applications of heavy braking • Emergency Brake Assist – Increases brake force applied in emergency braking situations • Straight Line Stability control • Traction control • Adaptive brake lights – If the driver brakes hard enough to activate the ABS function the brake lights flash on and off at a frequency of four times per second, warning following vehicles that heavy braking is in progress

Body: • Energy-absorbing steering column • Pedal release system – Reduces potential injury to the driver's legs and feet during a severe frontal impact • Laminated windscreen • Side-impact protection beams • Reinforced passenger safety cell • Deformation zones front and rear • Burst-proof door locks and anti-jam door design

Pedestrian: • Multi-pivot bonnet hinges – Allows the bonnet to move downwards cushioning any impact • Collapsible windscreen wiper system – Reduces the risk of head injury • Low density foam near front bumper crossmember – Reduces lower leg injuries • Plastic lower front bumper stiffener – Reduces knee injuries

DAB digital radio

Now widely available in the UK, digital audio broadcasts offer the user a variety of advantages over traditional FM, starting with the digital quality sound which is immune to any hiss or crackle.

You'll often find a broader range of stations on offer too, many of which are not available on FM, and listening to them couldn't be easier – you simply select the station, by name, from the displayed list, thus removing the need to retune or look for stations when travelling around. Some stations will even display the artists' names and song titles on the car's graphic display, while they're played.

Satellite navigation

The optional satellite navigation systems offer dynamic route guidance via RDS-TMC (Traffic Message Channel) with directions given audibly and via the 7-inch colour monitor. TMC is a specific application of RDS used for broadcasting real-time traffic information. It alerts the driver to a problem on the planned route and calculates an alternative route to avoid the incident.

In addition to route planning criteria such as 'shortest distance' or 'avoiding toll roads', you can now select an energy-optimised 'green route'. Here you can specify parameters such as if you are towing a caravan or have a roof box fitted. The system will use this information in conjunction with known factors including your vehicle's weight and engine type, to calculate the most fuel-efficient route.

The SD card supplied with the system covers all major link roads and streets in towns and cities across mainland Britain and Ireland, plus trunk and main roads across more than 30 European countries. Additional country-specific maps with street level detail are available to download. The navigation data is loaded onto the unit's internal flash memory for fast access.

Satellite navigation (Navi 900).

Steering wheel mounted audio controls.

- = Standard equipment.
- = Optional at extra cost.

- 1 = Not available in conjunction with 1.8i 16v VVT (140PS) models.
- 7 = Deletes driver's and front passenger's underseat storage facilities.
- 8 = Only available in conjunction with Sight and Light Pack.
- 9 = Only available on 2.0CDTi 16v (165PS) manual and automatic models, and 1.4i 16v VVT Turbo manual models.
- 10 = Not available in conjunction with Flex-Fix® integrated carrier system, 1.8i 16v VVT (140PS), 1.4i 16v VVT Turbo Start/Stop, 2.0CDTi 16v (130PS) ecoFLEX Start/Stop models or Royal Blue and Silky Shadow exterior colours.

Vauxhall supporting

Smarter driving tips

- Drive at an appropriate speed:** Staying within the speed limit increases driver safety, reduces CO₂ emissions and saves fuel. At 70mph you could be using up to 9% more fuel than at 60mph and up to 15% more fuel than at 50mph
- Drive smoothly at all times:** Anticipate the ebb and flow of the traffic to avoid harsh acceleration and braking
- Reduce your revs:** Change gear earlier to help reduce fuel consumption – try 2500rpm with petrol engines and 2000rpm with diesel
- Idling is wasting fuel:** If you're likely to be at a standstill for more than three minutes, switch off the engine to save fuel
- Regularly check your tyre pressures:** Under inflated tyres increase CO₂ emissions whilst incorrectly inflated tyres can be unsafe. Always check your handbook for the correct tyre pressure. This will also help to increase the life of your tyres
- Remove unnecessary items from the car:** Extra weight increases the engine's workload, whilst roof racks and bike carriers increase wind resistance. All burn more fuel and increase CO₂ emissions

**VED = Vehicle Excise Duty. Correct at time of publication (March 2012).

Fuel consumption and CO₂ emission data complies with the relevant EU testing regulations used by vehicle manufacturers to enable comparisons between different models. **Important:** Please note fuel consumption can be affected by many factors including driving style, road and traffic conditions, vehicle mileage and standard of maintenance. In addition these results relate to the particular vehicle tested, inevitably there will be differences between individual vehicles of the same model.

Start/Stop technology

Zafira Tourer's Start/Stop system offers real benefits by improving fuel economy and reducing CO₂ emissions, particularly when driving around town. It does this by automatically stopping the engine when you come to a standstill, and then restarting as you prepare to move off.

To operate the system, the driver must depress the clutch pedal, shift in to neutral, and then release the clutch pedal.

If all of these conditions are satisfied then the vehicle will Auto Stop. When you are ready to pull away from standstill, Auto Restart is

activated by depressing the clutch pedal.

Whilst at a standstill the vehicle is continually monitored, and if necessary, the engine will automatically be restarted.

The system monitors many different criteria to ensure effective operation:

- Battery charge
- Outside air temperature and engine temperature
- Demand from auxiliary components such as climate control (when fitted)

Exterior dimensions millimetres (inches)

Luggage capacities (measured using the ECIE method)

	litres	cu.ft

1.4i 16v VVT Turbo (140PS)	2310	1250 (750)
1.4i 16v VVT Turbo (140PS) Start/Stop	2320	1250 (750)
1.4i 16v VVT Turbo (140PS) automatic	2340	1250 (750)
2.0CDTi 16v (110PS)	2415	1300 (750)
2.0CDTi 16v (130PS) ecoFLEX Start/Stop	2340	1150 (750)
2.0CDTi 16v (130PS)	2410	1300 (750)
2.0CDTi 16v (165PS) Start/Stop	2430	1450 (750)
2.0CDTi 16v (165PS) automatic	2445	1400 (750)

Gross vehicle weight is the total permissible weight of the vehicle including passengers and their luggage. The **maximum roof rack loading** should not exceed 100kg. The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, **maximum noseweight** should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee.

Optional transmission

Six-speed automatic transmission with Active Select function

A six-speed automatic transmission is optional on 1.4i 16v VVT Turbo (140PS) and 2.0CDTi 16v (165PS) models. On the road, a wide selection of shift patterns is adapted to the style and habits of the driver, anticipating when maximum acceleration or maximum efficiency is required. The electronic control will also adapt to the prevailing road conditions, reducing gear shifting when climbing or descending and using engine braking assistance during down changes.

The ActiveSelect® manual mode allows the gear lever to be used like a sequential manual gearbox – you simply push the lever forward or back to change up or down the gears. The driver also benefits from a 'neutral' gear disengagement at idle, which reduces vibration and contributes to improved fuel consumption.

Suspension

Front: Independent. Lightweight MacPherson struts with gas-pressure dampers and coil springs. Anti-roll bar.

Rear: Lightweight compound crank rear axle with one-piece, hollow cast trailing arms. Built-in anti-roll bar. Progressive-rate double conical mini-block springs with Watt's link and gas-pressure dampers.

Fuel tank capacity

58 litres (12.8 gallons)

Steering

- Power-assisted steering
- Turning circle (kerb-to-kerb):
 - all models 11.40m (37.4ft.)

Body

Aerodynamic drag co-efficient:

- Cd 0.32 – on most models.
- Cd 0.30 – on 1.4i 16v VVT Turbo Start/Stop and 2.0CDTi 16v (130PS) ecoFLEX Start/Stop models.

Brakes

- Anti-lock Braking System (ABS)
- Electronic Brakeforce Distribution
- Hydraulic Brake Fade Assist
- Cornering Brake Control
- Emergency Brake Assist
- Electric parking brake with Hill Start Assist (HSA) (standard on SE and Elite models only)

Hill Start Assist (HSA)

Hill Start Assist (standard on SE/Elite models) maintains the brake pressure for a short period after the brake pedal has been released when pulling away on a gradient of 5% or more; this helps prevent the vehicle from rolling back. The pressure is released as soon as the driver presses the accelerator and the car begins to move forward. This ensures improved hill starting for increased comfort and safety.

Vauxhall Assistance and warranties

See back cover for details of our comprehensive warranties.

Watt's link improves handling and ride comfort.

Hill Start Assist.

Trust Vauxhall

Vauxhall Insurance

Available for new and used Vauxhalls, a Vauxhall Insurance policy offers a unique package designed specifically for Vauxhall drivers. For a highly competitive quotation, call **0844 463 2670**. Or just visit our website at www.vauxhall.co.uk

Fleet Customer Services

Our dedicated support services for fleet managers includes factory demonstrators, a three-day test drive programme and information on whole life costs, company car taxation and finance. For further information please call **0870 010 0651**.

Buying your car

GMAC offers one of the most comprehensive and competitive ranges of financing plans in the UK. Contact your local Vauxhall retailer for details or call the GMAC customer service centre on **0845 712 3444**.

Servicing and maintenance

The best way to maximise the performance and reliability of your Vauxhall is to have all routine servicing and maintenance carried out at one of around 400 Vauxhall retailers. To find your nearest retailer call **0845 600 1500**.

In the event of an accident...

Vauxhall Accident Support helps keep you mobile following an accident. Benefits include scene-of-accident advice, message service, assistance with claims and vehicle recovery. For further details call **0800 010 304**.

For more information...

For a brochure on any Vauxhall model (up to a maximum of three per caller) or location of your nearest Vauxhall retailer please call **0845 600 1500**.

Alternatively, details can be found on our website at www.vauxhall.co.uk

*Vauxhall Lifetime Warranty covers lifetime ownership of first car owner, 100,000 mile limit, annual check required. The warranty excludes wear and tear and serviceable items and the vehicle must be serviced in accordance with the manufacturer's servicing schedule to continue the lifetime warranty. Terms and conditions apply. Offer available to all Vauxhall passenger cars (this offer does not apply to car-derived vans) from 1st August 2010.

Every effort has been made to ensure that the contents of this publication were accurate and up-to-date at the time of going to press (February 2012). Vauxhall vehicles are equipped with components manufactured by various General Motors operating units and outside suppliers. The Company reserves the right to alter specifications and withdraw products from sale without notice. Any such alterations will be notified to Vauxhall retailers at the earliest opportunity, please consult your local retailer for the latest information. The specifications detailed within this brochure are not necessarily applicable to alternative models such as Special Editions. Details of any such models will be contained in specific literature or found on the Vauxhall website. Please note that Vauxhall retailers are not the agents of General Motors UK Limited and are not authorised to bind the Company by any specific or implied undertaking or representation. It is advisable to ensure that your motor insurance policy provides adequate cover for additional fitted options and accessories. Please note accessories shown are for illustrative purposes only. As part of Vauxhall's policy of environmental care, this brochure is printed on paper manufactured using Elemental Chlorine Free pulps from specially farmed, sustainable timber resources. All rights reserved. No part of this publication may be reproduced in any form or by any means, without the prior written permission of General Motors UK Limited.

Vauxhall Lifetime Warranty

We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. Available to the first owner of all new Vauxhall passenger cars, it's valid for the lifetime of the vehicle up to a maximum of 100,000 miles*. In addition, our warranty also includes Vauxhall Assistance for 12 months from first registration and six years body panel anti-perforation warranty. Full details of Vauxhall's warranties including terms, conditions and exclusions can be obtained through any authorised Vauxhall retailer or go to: www.vauxhall.co.uk/warranty
