

504 PEUGEOT

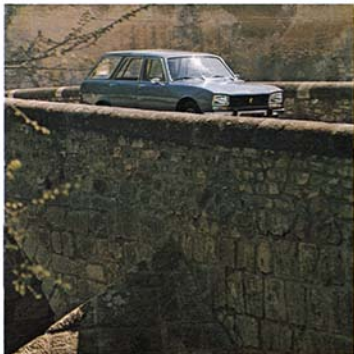

504 estates

In the 504 range, PEUGEOT offers the Estate vehicles in 4 different models:

- The Standard Estate with washable material covering the loading floor.
- The "Super De-Luxe" Estate with metallic paint finish, with the floor of the loading area in laminated mahogany.
- The 7 seat Family Estate, and
- The Commercial Estate, more suitable for commercial use.

super de-luxe **504** estate

The Super De-Luxe 504 Estate possesses all the technical virtues of the saloon plus the added advantage of having been designed specifically to transport large loads without any sacrifice in comfort.

You may load the spacious rear compartment with suitcases, packages, varied and bulky objects on luxurious laminated mahogany flooring.

And if you're still more demanding, this loading surface can be easily enlarged to nearly 2 m³ (approx. 67.15c.ft.) by folding down the rear seat.

an interior designed for your comfort

In the Super De-Luxe Estate car, you will appreciate the well designed dash board assembly where every detail has been studied for your comfort. Ventilation, light indicators, ash tray, cigarette lighter, supplementary storage shelf, electric windscreen wiper-washer, defroster and side window de-misting vents.

For your relaxation and comfort, the elegantly upholstered interior, features front individual bucket seats, fully reclining, adjustable head restraints, arm rests on the rear doors and thick carpeting. The seat coverings are of Teplene.*

The specification is comprehensive including many features that are often charged as extras by other manufacturers.

* Teplene, registered trade-mark, indicates a synthetic material, soft to the touch, elegant and washable, corresponding to Peugeot's high-quality standards.

504 Estate

Peugeot offers the 504 Estate as an alternative to the Super De Luxe. The engine performance and braking power are similar to the Super De Luxe, and there is also the same amount of loading space. The 504 Estate is available in a different range of colours from the Super De Luxe and has Tepluxe upholstery and a washable covering on the loading platform.

504 family estate

With a large family of small and grown children, where every journey becomes a major problem, you are undoubtedly looking for a model that satisfies your space needs. The 504 Family Estate responds perfectly to this need in comfort and elegance.

Seven passengers comfortably seated, a large baggage compartment and and, of course, the technical advantages of the 504.

504 commercial estate

If your work necessitates transporting cumbersome loads, equipment and several people comfortably at the same time, the 504 Commercial Estate is both the ideal and economical solution for you.

Its exceptional loading capacity, space for 5 passengers, comfort and superb road-holding qualities make it as pleasant for work as for touring.

a very comfortable interior

In the commercial Estate, the rectangular dash board groups all the control and indicator equipment in the steering wheel plane. The anti-reflection dash board mounting is finished in padded strips for safety. It houses two air-circulation vents, ventilation levers and glove compartment. The individual front seats and the rear seat are finished in high resistant and easy-to-clean Teplene. The rear seat can be folded, thus obtaining the maximum capacity and surface for carrying.

CARRYING CAPACITY AND SURFACE

Driver and 4 passengers:
Spacious loading compartment
for passengers or luggage.

Driver and 1 passenger:
The rear seat folded
to gain a vast floor
surface and great volume
for transporting
material.

Driver and 1 passenger:
The rear seat folded
and folded forward
to gain a much longer
carrying surface.

Driver alone:
Rear seat folded and front
passenger seat temporarily
removed to allow a maximum
carrying space in volume
and depth for bulky
merchandise.

general characteristics

Chassis and Generalities

Integral all-processed steel welded body anti-corrosion by electrophoresis

Twin locking hood locking mechanism

Curved side windows

Total window surface: 2.96 m² (approx. 31.8 sq. ft.)

Polished stainless steel bumpers

Overall length 4.80 m (approx. 15.75 ft.)

Overall width 1.69 m (approx. 5.56 ft.)

Height empty 1.55 m (approx. 5.08 ft.)

Loaded 1.45 m (approx. 4.75 ft.)

Carrying capacity: Estate and Commercial Estate

1,150 m³ to 1,900 m³ (approx. 40.61 cu. ft. to 67.15 cu. ft.)

Wheel base 2.90 m (approx. 9.50 ft.)

Distance between front wheels: 1.42 (approx. 4.65 ft.)

Distance between rear wheels: 1.36 (approx. 4.46 ft.)

Maximum towing capacity (limited to authorized total weight) 1,300 kg (2,865 lbs)

Tank capacity: 60 litres (approx. 12.3 imp galls)

Carburettor Engines

4 Cylinder in line over square engine inclined at 45°

Common induction chamber cylinder head

Removable wet liners- valves, rocker-arms in head

5 - bearing crank shaft in forged steel

Water circulation capacity: 7.8 litres (approx. 16 pints)

Oil capacity: 4 litres (approx. 8 pints)

Estates and Family Estates :

Compound twin choke carburettor

Bore stroke: 88 x 81 Piston displacement: 1,796 cc

Compression ratio: 7.5/1

Rated HP: 10

Real HP SAE 80 HP at 5,500 RPM

DIN 73 HP at 5,000 RPM

Speed: 90.7 MPH

Diesel Engines

4 Cylinder in line over square engine inclined at 20°

Light alloy steel cylinder head with swirl chamber

Removable wet liners

Lateral cam shaft in cylinder block

Valves, rocker-arms in head - 5-bearing crank shaft

Family Estate: XD 90 delayed fuel-injection engine

Bore-stroke: 90 x 83 - Piston displacement: 2,112 cc

Compression ratio: 22.2/1

Rated HP: 8

Real HP: DIN 65.1 at 4,500 RPM

Speed: 73.3 MPH

Clutch

Orifice plate - clutch thrust ball bearings

Hydraulic drive

Transmission gears

4 Forwarded synchro-mesh gears and one reverse

Differential

Hypoid rear axle

Suspension

Independent front wheels

Peugeot hydraulic, double-acting telescopic shock

absorbers and coil springs

Integrated front axle telescopic suspension

Front and rear stabilizer bars on Estate and Family Estates

Wheels and Tyres

Wheels at 355 mm / 14 (approx. 14 in.)

Tyres at 185 x 355 reinforced (185 SR 14)

(approx. 7.2 x 14)

Rack and Pinion Steering

Safety steering column in two sections bought together by a universal joint

Anti-theft steering column lock

Turning radius between curbs: 5.48 (approx. 17.97 ft.)

Turning radius between walls: 5.70 (approx. 18 ft. 7 in)

Disc brakes on front wheels, drum brakes at rear

Hydraulic control with mastervac assistance

Indicator lights for hand brake and brake fluid level

Hand brake acting on rear wheels

Electrical Equipment

Supplied by alternator and 12-volt battery

Estate and Family Estate:

reversing lights incorporated into rear light units

2-speed windscreen wipers, self parking wiper switch

under steering wheel with delay system (timer) coupled

to the windscreen washer by electric pump

Two synchronized horns
