THE CAR IN FRONT IS A TOYOTA

PREVIA style & function

A car that carries up to 8 people? Or a people carrier that looks and behaves like a car? However you view the Previa, one thing is certain. This original MPV clearly challenges conventional concepts about multi-purpose vehicles.

There's the belief that everything designed to carry over 5 people must look strictly functional. In fact, the body stylist of any prestige car would be proud to call the Previa their own creation.

Next consider driveability. The Previa compares surprisingly favourably with many traditional saloons. So it turns, handles and parks just like a car. Rather than a passenger service vehicle. The higher driving position and excellent all round visibility add further to your driving confidence.

The 2.4 litre engine also has the power to compete with conventional saloon cars. Acceleration from 0 to 60 mph takes a shade over 11 seconds. And where permitted, a top speed of over 110 mph can be achieved.

Toyota Previa – now with many new improvements. The all purpose vehicle that combines prestige, performance and practicality.

* Manufacturer's figures. ** Official figures. † With braked trailer.

These figures show the fuel consumption obtained during officially approved tests designed to simulate various driving conditions. The table shows the new cycles which are designed to be more representative of everyday driving. The new fuel consumption tests are carried out in accordance with Directive 93/116/EEC. All petrol engine vehicles are equipped with a 3 way catalytic converter. The results given in the list above do not express or imply any guarantees of fuel consumption of a particular vehicle. Cars are not tested individually and there are inevitable differences between vehicles of the same model. In addition, your car may incorporate particular modifications. Furthermore, the driver's style and road traffic conditions, as well as the age and mileage of the car and the maintenance history, will all affect fuel consumption.

THE CAR IN FRONT

Whatever the comparison, a Toyota is truly the car in front. Ahead for reliability, for performance, for fuel economy, and for driver satisfaction. And these are just a few of the reasons - as the many independent surveys of Toyota owners around the world prove conclusively.

Build quality is beyond question. Clearly reflected in the free 3 year/60,000 mile mechanical and paintwork warranty, and 6 year anti-corrosion perforation warranties.

You're also buying unparalleled peace of mind. Not least of all because a Toyota represents a far better investment for your money.

What's more, a Toyota also represents the safest place for you and your family - thanks to a wealth of advanced and innovative safety features.

These attributes have helped us emerge as the world's third biggest car manufacturer. Not only for plain, straight-forward practicality but for the pure driving pleasure that is the endorsement of every Toyota, from the superlative sporty Celica, through the exceptional Avensis to the legendary Land Cruisers.

So ask your dealer for more detailed information on any model in the Toyota range - they will be absolutely delighted to arrange a test drive at your convenience.

Then you'll discover for yourself why the car in front is a Toyota.
