

# MR2

the car in front is a  
 **TOYOTA**

# MR2

It started with a simple concept. A car with sporting performance should be built for maximum safety too. A machine that responds instantly to driving commands is a machine that can keep hazards at arm's length. We don't invest £2 billion a year in research and development purely for the adrenaline rush.

The power to win races, rallies and endurance trials has been a natural consequence. The quest for excellence has produced exhilarating performance on both race track and ordinary road.

With Toyota, sporting performance goes hand in hand with safety, comfort and fuel efficiency. That's how a legend is born. And why the car in front will always be a Toyota.

- EXHILARATING PERFORMANCE  
COMBINED WITH EXCELLENT  
FUEL ECONOMY
- ADVANCED SAFETY FEATURES AS  
STANDARD
- 3 YEAR/60,000 MILE WARRANTY
- SUPERB AUDIO SYSTEMS
- ELECTRIC WINDOWS AND  
EXTERNAL MIRRORS
- REMOTE CENTRAL LOCKING
- REMOTE ALARM/IMMOBILISER

# MR2 GT

2.0 litre 16v Manual

## STANDARD SAFETY

- DRIVER'S AIRBAG
- ABS
- VENTILATED DISC BRAKES
- SIDE IMPACT BEAMS
- ENERGY ABSORBING STEERING WHEEL & COLUMN
- HIGH-MOUNTED REAR STOP LAMP

## FEATURES INCLUDE

- REMOTE ALARM / IMMOBILISER
- POWER ASSISTED, TILT ADJUSTABLE STEERING
- REMOTE CENTRAL LOCKING
- ELECTRIC WINDOWS AND AERIAL
- HEATED ELECTRIC EXTERIOR MIRRORS
- 6 SPEAKER RDS STEREO RADIO / CASSETTE WITH DETACHABLE FRONT PANEL
- MID-ENGINE CONFIGURATION
- ADJUSTABLE SPORTS SEATS
- FIVE SPOKE ALLOY WHEELS
- TILT / REMOVABLE SUNROOF
- REAR ADJUSTABLE SPOILER

This sports coupé has so much more going for it than drop-dead good looks. The mid-engine configuration, for instance. Its superb weight distribution and low centre of gravity are the envy of other sports cars. Two factors that help produce the ultimate profile for optimum stability and roadholding.

Add bold windswept curves and twin exhausts. Then include side air vents and a distinctive rear spoiler. And you've found the winning combination for taming city streets, suburban clearways and rolling autostradas alike.

The MR2 GT doesn't just have power assisted steering - it's speed-sensitive too. In partnership with the tarmac-hugging road holding, it permits challenging corners to be taken with total confidence.

It's safe to say, the MR2 GT is one of the most exhilarating experiences anybody will encounter on the road.

# MR2 GT T-Bar

ALLOY WHEELS  
NEW REAR ADJUSTABLE  
SPOILER

Possibly the most seductive sports coupé experience of all. The MR2 GT T-Bar combines the cocoon-like comfort of a hard top with the open air elation of a soft top.

Twin glass sunroof panels are easy to remove and quick to stow. From then on, warm sun and gentle breezes are your driving companions. In fact, there's no more exciting way to feel the wind in your hair.

The MR2 GT T-Bar appeals to your sporting instincts - but indulges your desire for luxury. Upholstery is genuine black leather, with 4-spoke sports steering wheel and handbrake lever leather-covered to match.

Break away from convention in immaculate style with the MR2 GT T-Bar. And give other drivers something to aspire to.

# MR2

## COMFORT

### INTERIOR FEATURES

Both MR2 models are fitted with driver's airbag, side impact beams, ABS and a host of other safety features.

Ergonomically designed dashboard with easy-to-read, readily accessible instrumentation.

A superb 6 speaker RDS stereo system (with detachable front panel) means you can enjoy a powerful surround-sound quality.

The leather sports steering wheel and high mounted short shift gear lever leaves the driver with no doubt that the MR2 is a genuine sports car.

Within fingertip reach are clear-mounted controls that activate electric windows, and door locks and heated electric mirrors.

The sharply raked front bonnet conceals a spare wheel and jack, yet it has enough room for a briefcase or overnight bag as well.

Surprisingly spacious boot

Removable glass roof on the T-Bar

Enter the perfect driving environment. The sporty cockpit pampers you with body moulding multi-adjustable sports seats. And supports you with features that let you concentrate totally on the excitement of driving your MR2.

The short-throw action of the competition-style lever makes changing gear a positive pleasure. The six speaker RDS stereo radio/cassette assists you in selecting the station to suit the mood. Without fumbling or distraction.

Other controls are all-electric for instant readjustments. Height control for the pop-up headlights, windows, aerial - and heated external mirrors. Any diversion from the joy of driving is minimal.

One of the finest expressions of the interior designer's art? You'll find it inside the MR2.

# MR2

## CONTROL

### CONTROL FEATURES

2.0 litre twin overhead cam, 16 valve 3S-GE engine incorporating an Acoustic Control Induction System (ACIS) which varies the flow of air into the engine to give improved performance under different driving conditions.

MacPherson strut suspension system and optimised geometry provide superb handling and control.

ABS sensors and ventilated disc brakes on all four wheels.

Low profile Yokohama tyres, extra wide on the rear wheels, provide tenacious grip.

Impact absorbing bumpers, side impact beams and energy-absorbing steering wheel and column.

To reduce extraneous noise and vibration, the engine is supported by fluid-filled mounts and connected to the body by lateral rods. There's also an air resonator and reinforced cylinder block side walls.

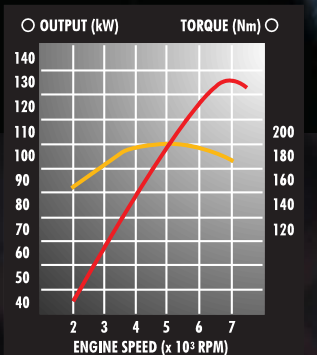

The rigidity of the components and the wheel alignments have been refined, while the enlarged low pressure gas-filled shock absorbers and ball-joint type roll bars improve cornering performance, stability and ride comfort.

For even greater fuel economy at speed, the exhaust manifold is stainless steel which resists higher gas temperatures and allows the engine to run faster with a lower fuel / air ratio.

Optional single CD player shown

kmh speedometer shown - UK specification vehicles will also show mph

You can be certain there's advanced engineering behind you when driving an MR2. The powerful engine is positioned behind the cockpit. With very good reason.

The weight creates greater downward force on the rear wheels. Producing super efficient power transfer - and truly amazing traction.

Mid engine positioning also brings aerodynamic advantage. The stylish rake of the bonnet cuts wind resistance, boosting performance times and fuel economy too.

Meanwhile, the smaller load on the front wheels makes steering lighter, even more responsive.

The MR2 may be of the classic sports car genre. But its technology belongs unmistakably to the future.

\* Manufacturers figures \*\* Official figures Δ Boot capacity with seats up

† These figures show the fuel consumption obtained during officially approved tests designed to simulate various driving conditions. The table shows the new cycles which are designed to be more representative of everyday driving. The new fuel consumption tests are carried out in accordance with Directive 93/116/EEC. All petrol engined vehicles are equipped with a 3 way catalytic converter.

The results given in the list above do not express or imply any guarantees of fuel consumption of a particular vehicle. Cars are not tested individually and there are inevitable differences between vehicles of the same model. In addition, your car may incorporate particular modifications. Furthermore, the driver's style and road traffic conditions, as well as the age and mileage of the car and the maintenance history, will all affect fuel consumption.

Whatever the comparison, a Toyota is truly the car in front. Ahead for reliability, for performance, for fuel economy, and for driver satisfaction. And these are just a few of the reasons - as the many independent surveys of Toyota owners around the world prove conclusively.

Build quality is beyond question. Clearly reflected in the free 3 year/60,000 mile mechanical and paintwork warranty, and 6 year anti-corrosion perforation warranties.

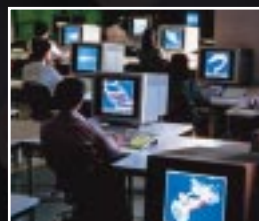

You're also buying unparalleled peace of mind. Not least of all because a Toyota represents a far better investment for your money.

What's more, a Toyota also represents the safest place for you and your family - thanks to a wealth of advanced and innovative safety features.

These attributes have helped us emerge as the world's third biggest car manufacturer. Not only for plain, straight-forward practicality but for the pure driving pleasure that is the endorsement of every Toyota, from the superlative sporty Celica right through to the exceptional Avensis.

So ask your dealer for more detailed information on any model in the Toyota range - they will be absolutely delighted to arrange a test drive at your convenience.

Then you'll discover for yourself why the car in front is a Toyota.

Everyone purchasing a new Toyota automatically becomes a member of Club Toyota for a period of 12 months from vehicle registration date and is therefore entitled to all the benefits the Club can offer. This free package provides you with 1 year's full roadside assistance cover, including a two day car hire replacement providing you call the RAC to the incident, and many other motoring benefits from Toyota which are exclusive to Club members. Club Toyota provides a discount travel service and a wide range of cultural and leisure activities for its members to take advantage of. Please call 0800 252806 for further details.

Toyota Terms is the flexible way to drive your new Toyota. It can provide:-

- The option of a new car every 2 years
- A higher specification car
- Service and maintenance included (optional)
- The future value of your car guaranteed
- Freedom to choose from 3 great alternatives at the end of your agreement

For full details, contact your local Toyota Dealer or Toyota Financial Services at The Quadrangle, Redhill, Surrey RH1 1PX.

Toyota Insurance is available for Toyota owners at competitive premiums. To obtain details of the benefits included and to arrange a quotation, please contact your local Toyota Dealer.

When you register your new Toyota, you can extend your Free 3 Year/60,000 mile warranty up to 6 Year/120,000 mile cover, to give outstanding protection against failure of virtually any mechanical component. What's more, you'll enjoy several additional benefits over and above the comprehensive protection afforded by the standard 3 year warranty. These include:

- Contributions towards Car Hire
- Hotel Expenses
- Continental Cover
- Transfer of the Extended Warranty to a new owner
- M.O.T. test insurance

In the event of an emergency Toyota offers free of charge to Toyota owners a comprehensive management service which includes advice, assistance and practical help. Please contact your local Toyota Dealer for further details.

Toyota offers a Motability Scheme.

Customers in receipt of the Higher Rate Mobility Component of the Disability Living Allowance or War Pensioners' Mobility Supplement may be eligible to preferential terms through the Motability scheme. Please contact the Motability Specialist at your local Toyota Dealer for details.

Toyota Contract Hire gives every business the complete choice of any vehicle in the Toyota range at no capital cost.

- Contracts designed to meet your vehicle fleet requirements
- You can choose from 24 or 36 fixed monthly payments which include substantial tax and VAT concessions
- Toyota Contract Hire can take care of servicing, maintenance and repair
- Club Toyota Membership is included throughout the term of a maintained contract

Toyota Approved Used Car Scheme. Please contact your local Toyota Dealer for details.
