Child seats/ child accessories

From 8 months to age 12, the Mercedes-Benz range of child seats gives you the peace of mind that your young passengers are protected and secure. They are engineered with both comfort and safety in mind, and are certified as complying with ECE regulations. Their hardwearing moisture-absorbing covers can easily be removed and washed. When the child seat with ACSR (Automatic Child Seat Recognition) is used in the front passenger seat, the in-built ACSR transponder automatically disarms the front passenger airbag, ensuring your child's safety. For models with ISOFIX the 'Angel & Driver' seat is quick and easy to fit.

Alloy wheels/safety accessories/snow chains

High performance alloy wheels deliver quality dynamic driving – superb road holding and superior lateral stability. Mud flaps help keep the underside of your E-Class free of dirt, grit and road salt, while snow chains provide additional reassurance when driving conditions are less than ideal.

Increased rim sizing may, in some cases, require an appropriate change in tyre. All prices for alloy wheels are per wheel excluding tyre fitting. For the full range of alloy wheels and AMG wheels please refer to the alloy wheel brochure.

Entertainment and information. The Audio 50 APS navigation unit can guide you to your destination using vocal instructions and graphic symbols on a central display. Plus the unit has a radio and CD drive. Why not add Smartnav to your E-Class too? At the touch of a button you'll be through to a real person.

They can give you directions, find your nearest cashpoint and even send flowers and champagne for you.

Quickparc helps you park quickly and safely in awkward situations. As you reverse an audible alarm warns you if you get too close to another vehicle or object.
