# M-CLASS

## Accessories

Welcome to your Mercedes-Benz accessories brochure.

Inside you'll find a comprehensive range of accessories for the M-Class. All the accessories featured are suitable for right-hand-drive vehicles.

## Carrier systems

Your M-Class is designed to get you to those hard-to-reach destinations, that secluded lake or rugged hilltop. Once you're there, you'll want to make the most of it. The Alustyle system lets you carry everything you need – from mountain bikes to skis. Simply attach the basic roof bars to your M-Class, then add the accessory that suit your needs.

## Phone cradles

If your M-Class comes with a hands-free system you simply need to add the phone cradle that's compatible with your phone. We have cradles for most popular makes of mobile phone, including Nokia, Siemens and Sony Ericsson.

If your M-Class doesn't have a hands-free system, you can have one retrofitted with the FSE12 kits.

## Boot storage/ luggage care

Make the most of your luggage space with our range of tubs, nets and dividers. Boot tubs and mats help to protect the interior trim of your boot, plus they are easy to clean. Luggage nets are ideal for securing fragile or awkwardly shaped items, keeping them safe and sound in transit.

A luggage compartment cover keeps your belongings hidden from prying eyes, while a wire mesh partition is ideal for securely dividing the luggage space from the passenger compartment.

## Child seats

From newborn to age 12, the Mercedes-Benz range of child seats gives you the peace of mind that your young passengers are protected and secure. They are engineered with both comfort and safety in mind, and are certified as complying with ECE regulations. Their hardwearing moisture-absorbing covers can easily be removed and washed. When the child seat with AKSE (Automatic Child Seat Recognition) is used in the front passenger seat, the in-built AKSE transponder automatically disarms the front passenger airbag.

## Alloy wheels

Mercedes-Benz light alloy wheels look beautiful and deliver superb road holding. The range for your M-Class includes a choice of 5-spoke and 7-spoke designs. For something even more unusual, take a look at the Incenio designer wheels.

You can also enhance the look of your M-Class wheels with a selection of hub caps. Plus, for additional security, we offer wheel bolts and rim locks.

When wintry weather brings snow and ice to the roads, you can ensure a secure grip with a set of snow chains.

Increased rim sizing may, in some cases, require an appropriate change in tyre. All prices for alloy wheels are per wheel excluding tyre fitting. For the full range of alloy wheels and AMG wheels please refer to the alloy wheel brochure.

## TRACKER

A vehicle is stolen every two minutes in the UK and over half are never seen again. You can help to protect your Mercedes-Benz with TRACKER, the UK's number one stolen vehicle recovery company.

With TRACKER, if your Mercedes-Benz is stolen, you have an excellent chance of getting it back quickly and undamaged. There are four TRACKER systems to choose from.

TRACKER Retrieve and TRACKER Monitor both use the very latest radio wave technology. TRACKER Horizon combines radio wave and satellite Global Positioning System (GPS) technology.

TRACKER Echo is a brand new addition to the TRACKER family. It combines GPS with GSM (Global System for Mobile Communication) and has a driver validation tag that immediately alerts TRACKER if someone attempts to drive the car without the tag.

Tracker Echo can track vehicles in the UK, France and Spain. An additional subscription can be purchased to cover other European countries. All four systems operate in conjunction with the UK's 52 police forces.

Your retailer will be happy to discuss the technical details with you.

## TRACKER

A vehicle is stolen every two minutes in the UK and over half are never seen again. You can help to protect your Mercedes-Benz with TRACKER, the UK's number one stolen vehicle recovery company.

With TRACKER, if your Mercedes-Benz is stolen, you have an excellent chance of getting it back quickly and undamaged. There are four TRACKER systems to choose from.

TRACKER Retrieve and TRACKER Monitor both use the very latest radio wave technology. TRACKER Horizon combines radio wave and satellite Global Positioning System (GPS) technology.

TRACKER Echo is a brand new addition to the TRACKER family. It combines GPS with GSM (Global System for Mobile Communication) and has a driver validation tag that immediately alerts TRACKER if someone attempts to drive the car without the tag.

Tracker Echo can track vehicles in the UK, France and Spain. An additional subscription can be purchased to cover other European countries. All four systems operate in conjunction with the UK's 52 police forces.

Your retailer will be happy to discuss the technical details with you.
