And there's more

05

Easy to live with,
easy to drive.
It's easy to love
the new 1007

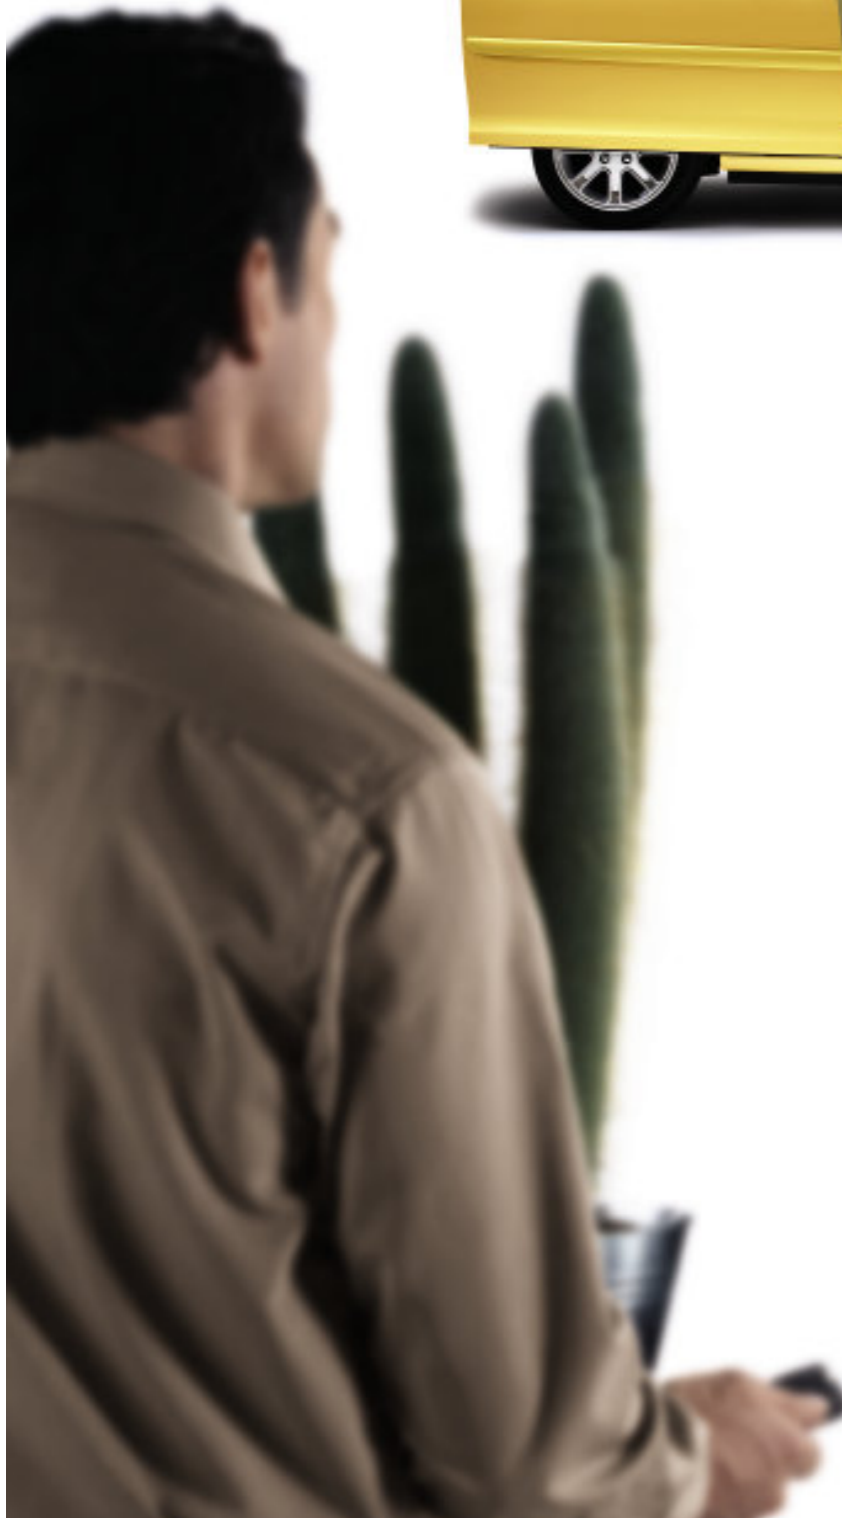

There's an exciting new face on the streets. A stylish, innovative car that not only looks different, but actually is very different, thanks to futuristic technology and ingenious features designed to make life, and driving, easier. Instead of conventional doors, for example, the 1007 boasts incredible "Sesame" doors that slide open to ensure you can get out of your car easily, in even the tightest parking spaces. Botherome clutches are also a thing of the past, courtesy of the amazing "2-Tronic" gearbox that enables you to drive without one in manual mode, as easily as you can in automatic. Even on the inside it's a revelation, on account of the interchangeable "Cameleo" interior kits that allow you to alter the look of your car's interior to suit your mood – in minutes. The new 1007. The new era of easy living, and driving, has arrived.

Take it easy

06

07

09

Easy access

Got your hands full? Or maybe you've returned to find someone's parked too close alongside? With the 1007, it's no problem. Just touch a button on the remote control and the amazing "Sesame" electric doors simply slide backwards, allowing you and your passengers totally unrestricted access to the front and rear seats – something you never get with traditional open-out doors. If only everything in life was this simple.

Easy to get on with

All aboard in comfort and safety

The 1007 doesn't just open its "Sesame" doors for you. It opens them wide enough for the little ones to get into the rear seats without disturbing you or your front seat passenger. So everyone feels welcome from the start. You also feel incredibly secure, thanks to the clever range of built-in safety features. At the top of the list, there's a thoughtful anti-pinch system that stops the doors from closing the instant they detect an obstacle in the way. You'll also find that the doors won't open or close electrically if you're going faster than 3mph, which means you don't have to worry about big kids playing with the switches while you're on the road, either. And just to add to your sense of security, we've included a cut-off switch that neutralises the electric opening system immediately if the fuel filler cap is left open. What's more, because the doors don't take up any more room than your door mirror, there's no danger of inadvertently catching a passing cyclist when you slide them open. So thoughtful. So 1007.

A clearer view of the world

A large, all-round glass area makes riding in the 1007 a really light, airy experience for any passenger. It also provides exceptional visibility, making driving a breeze for you too.

Door control at your fingertips

Activating the "Sesame" doors is as easy as A B C, whichever way you choose to do it.

By remote control. The multi-function remote control has 4 buttons to:

1. unlock/open/close the driver's door
2. unlock/open/close the passenger door
3. lock the car
4. unlock the car.

By switch or handle. Don't want to use the remote? In addition there are:

- 2 switches on the driver's side (one for each door)
- 1 switch on the passenger side
- external and internal door opening handles.

No more craning your neck to see when you're crossing a junction or overtaking. One glance puts you completely in the picture.

Easy does it

15

So easy to be yourself

With "Cameleo" kits, you can change the interior of your 1007 to suit your mood as often as you like. Cool and sophisticated or bold and exciting? It's your choice.

As easy to change as your outfit

Personalising your car to match your mood, or your lifestyle, has never been simpler. Each 18-piece "Cameleo" kit takes just 15 minutes to fit, from the first dashboard panel to the last seat panel. And you don't need any tools. There are 12 unique kits to choose from – bright colours, decorative designs and innovative materials – all very different, but all designed to co-ordinate perfectly with the 1007's dark blue background. What's more, most of the kits are washable, so it's easy to keep your car looking fresh as well as beautiful.

19

Easy to drive

Cool for city driving, lively round country lanes. Was there ever a small car this versatile or this much fun to drive?

With its "2-Tronic" gearbox set to auto, the 1007's high driving position, agile handling and positive power steering make weaving through traffic easy and enjoyable.

Then when you're ready to park, its excellent all-round visibility and square tail end make it simple to squeeze into the tightest spaces.

Out on the open road? Just slip the car into sequential mode, then sit back and enjoy the 1007's efficient, yet dynamic performance.

We can almost guarantee it'll put a smile back on your face wherever you go.

“2-Tronic”. The automated manual gearbox that’s twice as easy

Do you prefer the relaxed approach of an automatic or the control of a manual? With the 1007’s innovative “2-Tronic” automated manual gearbox, you can have both. Without the bother of a clutch pedal. If you’re stuck in traffic with the red lights against you, just set it to automatic and the “2-Tronic” gearbox will relieve the stress by changing up and down for you. Green lights all the way? Then switch to sequential mode and have all the fun of flicking through the gears for yourself. With two gearboxes in one, the 1007 puts you at ease in any situation.

Sequential mode

Steering column mounted paddles

In the sequential mode, you can change gear with one quick tap on the steering column mounted paddles. It’s quick as well as safe because your hands never leave the steering wheel.

Gear lever

Prefer to use the gear lever? No problem. Simply push it forward to change up, or back to drop a gear. It’s all designed to maximise efficiency and comfort for a sensational driving experience.

Automatic mode

Got the rush hour blues? Then press the AUTO button and let the “2-Tronic” gearbox make the changes for you – secure in the knowledge that it will always select the gear best suited to your driving style, the profile of the road and the load in the car. In fact, it changes gear so efficiently, it can even reduce your overall fuel consumption by around 2mpg*.

* Fuel consumption figures are available on page 30.

Everything for an easy life

Trip computer

Wish you could see how efficient your driving is? With the 1007's built-in trip computer, you can. One look at the multi-function display will tell you your fuel consumption at that instant, your average fuel consumption and how far you can go on the fuel you've got left. It'll also give you up to the second data on the temperature, your mileage and your average speed since the computer was last reset – you'll find the easy-to-use control mounted on the steering column.

RT3 colour satellite navigation and GSM phone*

Turn your 1007 into a virtual communications centre with this intelligent piece of optional equipment. The system boasts an SMS-compatible GSM phone handset (you just need to insert a SIM** card from your preferred mobile network provider) so you can text or call from anywhere in Europe†. It also includes a mono CD player; the additional convenience of a 5-disc CD autochanger and an RDS tuner with 24 presets so you can get lost in music wherever you find yourself. There's even a video screen with an audio/video socket ready to plug in a camcorder, DVD or games console for extra entertainment††. The RT3 option* offers the additional benefit of a colour satellite navigation system to keep you on the right route, and free access – via telematics – to emergency and assistance services** for total peace of mind.

* Option at extra cost.
** Standard mobile operators' network charges and conditions apply. SIM card not provided.
† Dependent on mobile operator's network coverage.
†† Operating when parked.

RD3 radio/mono CD player

Like to have music wherever you go? Then you'll love the 1007's sound system. It comes complete with an RDS tuner, a 4x10 Watt mono CD player, a remote digital display, six speakers, plus a roof mounted rear sports aerial. And it's all cleverly controlled by an easy-to-reach remote control, mounted under the steering wheel. Don't want the hassle of rummaging around to find your favourite CDs? A 5-disc CD autochanger (safely concealed in the glove box) is also available as an option at extra cost.

Digital air-conditioning with climate control*

Whatever the weather outside, the optional digital air-conditioning system ensures the climate's always perfect inside your 1007. The digital display lets you check all your comfort settings and the status of the functions you've activated, while the system automatically adjusts the air flow distribution and temperature to keep it at a level you're comfortable with. Want to make your own adjustments? You can switch to manual air-conditioning at any time. And whatever mode you're in, an active charcoal filter traps pollen, dust and exhaust fumes to keep the atmosphere as pure as possible.

* Available on Sport.

Manual air-conditioning*

Whether you want to freshen the atmosphere in summer, or cut condensation in winter, this air-conditioning system is designed to add to your comfort. Simply press the A/C button on the display panel, then set the temperature and select (using the central and side vents) where you want the air to flow.

* Available on Dolce.

1. RT3 colour satellite navigation and GSM phone
2. Digital air-conditioning with climate control

RT3 satellite navigation system*

Want to get there in the fastest possible time, or do you prefer to take the scenic route? Whatever your preference, the intelligent satellite navigation system uses information received by the GPS (Global Position System) to work out the best route to your destination. All you have to do is follow the visual directions on the 16/9 colour screen – you even get little diagrams to guide you through tricky manoeuvres, for example at junctions – and listen out for the verbal instructions confirming which way to turn.

*Option at extra cost.

JBL hi-fi Pack*

Turn your 1007 into a virtual concert hall with this amazing sound system, specially designed for the 1007 by one of the biggest names in hi-fi. The system comes with 8 speakers plus a bass woofer and delivers 240 Watts of crisp, clear sound. No matter where you sit, you'll find the tone is simply incredible.

*Option at extra cost.

Protection Pack*

With its ultra-clear all round visibility, the 1007's already exceptionally safe to park. But if you'd like a little extra reassurance, this is an option worth taking. The pack includes an electronic rear parking aid with four proximity sensors to warn you if there's an obstacle in the way when you're reversing (if you don't always want it on, just press the de-activate button). Plus, for extra protection once you've parked your 1007, the pack also includes electric folding door mirrors and an ultrasonic alarm.

*Group option at extra cost.

Electric folding door mirrors

Rear parking aid

Everything within easy reach

29

Easily more reassuring

The 1007 feel-good factor increases the more you drive it. The car's quick and precise steering, stable handling and high level active and passive safety systems all help to make your journeys fun and keep you safely on the road. So safe, in fact, that the 1007 has been awarded the coveted 5-Star Euro NCAP rating – gaining the highest scores ever during testing (correct April 2005).

Easily more enjoyable

Wheels and suspension

Thanks to its dynamic ride and handling, you can have fun with confidence in the 1007. The new suspension system has been designed from the ground up specifically to suit the car's special structure and to provide a smooth, stable ride at all times. Peugeot's expertise is evident in every component, from the wheels, the suspension and dampers to the steering – delivering outstanding road-holding and making this a car you'll love to drive.

Electric power steering

Positive, electric, speed-sensitive power steering makes low speed manoeuvres, like parking, effortless and driving round twisty roads a pleasure.

Cruise control*

Take the stress out of driving long distances. Just choose the speed you're comfortable at, set the cruise control button (it's conveniently located on the steering column) and the 1007 will keep to that speed until you touch the brake or accelerator again, or deactivate the cruise control.

*Option at extra cost.

Petrol engines

There are two petrol engines to choose from, the economic 1.4 litre, or the more powerful 1.6 litre 2-Tronic which lets you realise the full dynamic potential of the 1007 while still optimising your fuel consumption.

HDi Engine

With the HDi 70, you can enjoy common-rail direct injection diesel technology at its best. High torque output gives you the feeling of a more powerful engine while very low fuel consumption helps to reduce your running costs.

1007 Engines

It's go, go, go with the 1007. No matter whether you want to cruise comfortably on the open road or accelerate through the city streets, with a choice of three engines at launch, this zippy little car is ready for anything.

	Consumption mpg (litre/100km)			CO ₂ emissions (g/km)
	Urban	Extra Urban	Combined	
1.4 litre	33.2 (8.5)	54.3 (5.2)	44.1 (6.4)	153
1.4 litre 2-Tronic	35.8 (7.9)	54.3 (5.2)	45.6 (6.2)	147
1.6 litre 2-Tronic	32.8 (8.6)	52.3 (5.4)	42.8 (6.6)	156
HDi 70	53.3 (5.3)	74.3 (3.8)	64.2 (4.4)	115

7 Airbags

At Peugeot, we're committed to doing everything we can to protect you from unforeseen hazards. That's why the 1007 offers a comprehensive passive safety system. This includes a reinforced safety structure, a retractable steering column and front seat belt pre-tensioners – plus seven airbags as standard on all models.

The list starts with adaptive driver and passenger airbags. Chest and body protection for both of you is provided by two front side airbags, while two curtain airbags protect your heads. A steering column airbag is also fitted to protect the driver's lower limbs.

ESP - Electronic Stability Programme

To help keep you safely on the road, you have your very own safety expert on board at all times. The Electronic Stability Programme (ESP), as it's called, is an intelligent electronic braking system that's designed to discreetly, but effectively, re-balance your car should the computer detect any excessive under or over-steer in conjunction with a combination of four different functions.

ASR - Traction Control

Should you be in danger of wheel spinning, whether it's due to a slippery road surface or over-enthusiastic acceleration, the traction control system works with the ESP to stabilise the situation by adjusting the brake pressure and, if necessary, the engine revs. This system can be disconnected to help you get away in snowy or icy conditions.

ABS - Anti-lock brake system

If you need to brake suddenly in an emergency, the electronic ABS system cuts in to increase your braking smoothly and progressively, preventing the wheels from locking, and keeping you in control.

EBFD - Electronic Brake Force Distribution

To make your braking more effective in trickier situations, such as bends, the distributor controls the braking of each wheel individually, using more force where it's needed to stabilise the car.

EBA - Emergency Brake Assist

If a child ran out into the road in front of you, how quickly could you stop? With the 1007, the Emergency Brake Assist (EBA) system gives your braking maximum power to ensure you come safely to a halt in the shortest possible distance.

Automatic hazard warning lights on

It's not always easy to think clearly in an emergency. So if you do have to brake sharply, the 1007's hazard warning lights will come on automatically, reducing the danger of a rear collision and allowing you to keep both hands on the steering wheel and staying focussed on the situation ahead.

Retractable steering column

In the event of a front collision, the 1007's steering column moves down to lower the chance of it harming the driver.

Pre-tensioning seat belts

To protect you and your passengers, both front and rear seat belts have pre-tensioners. The front seat belts also have force limiters to provide the maximum restraint with the minimum risk of chest injury.

Active footrest

To reduce the possibility of ankle damage during an accident, the driver's footrest is designed to absorb the shock of an impact. In addition, the passenger's footrest has a raised stop which prevents his or her shins from hitting the fascia panel.

Anti-theft

To help protect your 1007 from unwelcome attention, it comes with a number of security features, including deadlocks, a steering column lock and a coded immobiliser. In addition, the alloy wheels* (including the spare) come with locking wheel nuts. As a further deterrent, the audio and telematics equipment is code-protected to prevent it being used in the event of theft.

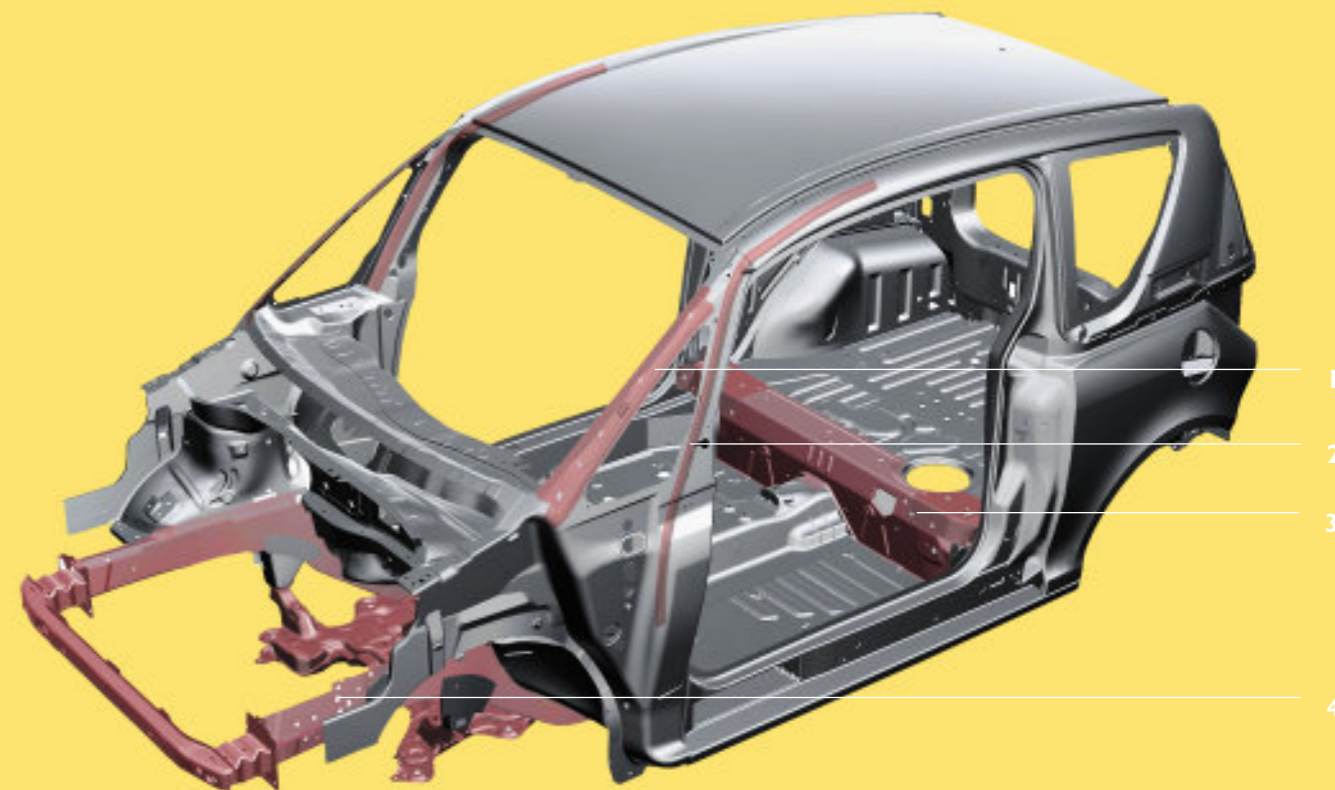

*With specified models.

"Sesame" doors

The Sesame doors aren't just easy to open, they're safe as well. The built-in features include electric doors that won't open or close electrically if you're going faster than 3mph and an anti-pinch system that freezes the doors if they detect an obstacle when they're operating.

Structure

1. Panel of front windscreen pillar manufactured from high-strength steel.
2. Side protection beams manufactured from extra high-strength steel.
3. Rigid reinforcement.
4. Crumple zone designed to absorb impact so that the passenger compartment remains intact.

35

Easy to live with

Afternoon shopping? Romantic weekend away?
Helping a friend move house? If you can fit it in,
so can the versatile 1007. With its discrete,
clever storage ideas and its adaptable folding and
sliding seats this is one small car that really thinks big.

Easily takes care of anything

Big on space

'Multi-purpose' doesn't do justice to the 1007. Fold the front passenger seat back and you've got a table to rest your laptop on – or room to pack a big object in. Plus, thanks to the generous amount of legroom, plenty of headroom and the low door sill, it's easy to get in and out of the 1007. Children can access the back seats without needing to tip or slide the front seats.

Big on light

If you thought it wasn't possible for a car this size to feel anymore spacious, try opting for the electric sliding sunroof*. With its two, panoramic tinted glass panels it's one of the brightest, airiest cars you could wish for – and with the front panel open you've got all the wind-in-your hair freedom you could want.

*Option at extra cost.

Big on flexibility

With a boot space that can change from 178 litres to 364 litres, anything's possible. Slide the rear seats forward and you've got all the room you need to take your luggage to the airport. Push them right back and there's all the legroom your rear passengers could want. Better still, you can simply fold the 3 passenger seats flat and comfortably stow away anything from a surf board to a bike, without going to all the hassle of removing and storing surplus seating.

With the 1007, everything's taken care of.

Eyes in the back of your head

Want to make sure everything's OK at the back? The child-check mirror's* there to enable the front seat passenger to keep an eye out for trouble (it'll also come in

handy if you need to teach someone to drive – if you can ever bear to let a learner loose in your 1007).

*Not fitted when RT3 is specified.

38

Take your places please

Want to let people into the back without getting out of the driving seat? Just open the passenger door with the button on the left of the steering wheel, then use the courtesy control to slide the passenger seat right forward.

Need to let them in on your side? No worries. Simply open your door and push your seat as far forward as it will go, and everyone can get easily and safely on board.

Little VIPs

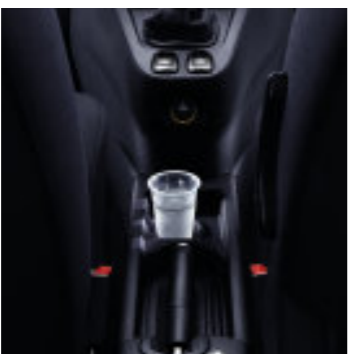

The 1007's innovative sliding rear seats don't just make it easy to load up your luggage, they can also bring more precious cargo closer to you. Simply fold the front passenger seat down, slide it forward

then slide the left hand passenger seat forward, and not only will your baby be near enough to see you, but he or she will also have a totally clear safety zone in front of them.

1. A handy glove box for convenient storage*.

2. Console between the front seats, incorporating a cup holder and storage compartment.

3. Storage pocket in front of the gear lever incorporating a cup holder.

4. Storage pockets in both front seats for CDs and maps.

5. Phone holder and 1.5l bottle holder.

6. Front door panels incorporating pockets for maps and guides.

7. Rear side armrests with a cup holder and space to hold a 0.5l bottle upright.

8. Storage drawer under front seats for CDs and magazines.

9. Rear foot wells incorporating two secret stow-away compartments with lids (one only when JBL is fitted).

10. Writing table on passenger seat back.

11. Coin holder.

12. Map pocket in back of driver's seat.

*On UK models the glovebox is smaller than shown.

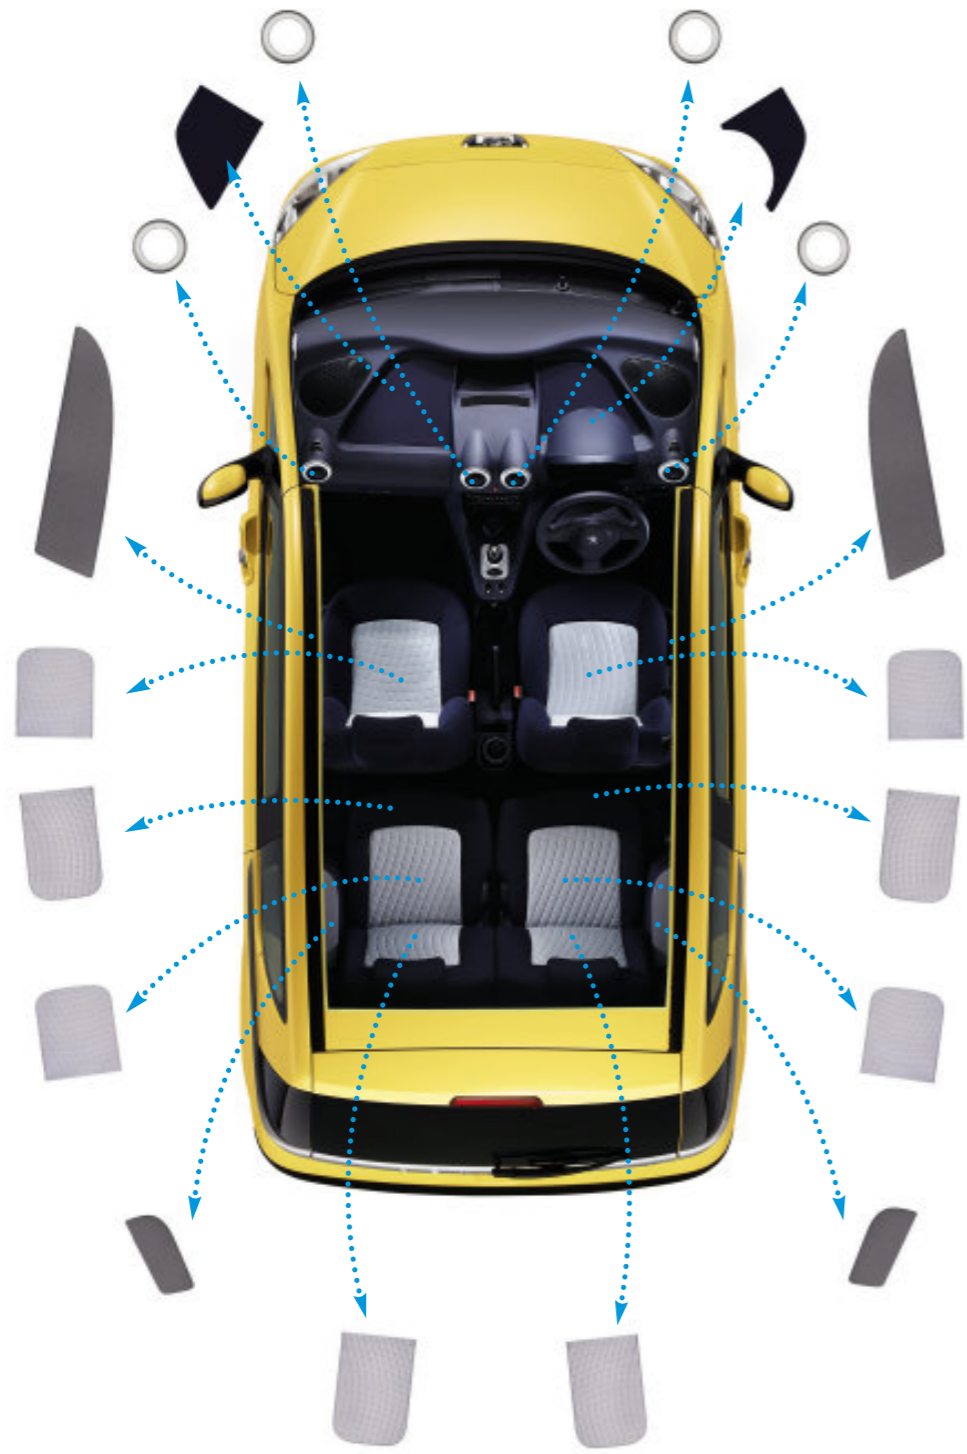

43

Easy to make your mark

Be cool and sophisticated with "Trimix Silver", be funky with "Oranis". Or let "Borneo" bring out your wild side. With the interchangeable "Cameleo" kits you can make a whole new statement whenever you want.

A new look in no time at all
 It takes just 15 minutes to fit the 18-part kit, and you can do it all without tools.

- 2 fabric dashboard panels
- 4 air vent surrounds
- 2 door panel trims
- 2 rear storage covers
- 8 seat trims (4 seat backs and 4 seat cushions).

Cameleo kits.

Range

Dolce

One of the coolest places to be in the city.

For a small car, the Dolce packs a lot of elegance in. Its highlights include:

- air-conditioning
- RD3 radio/mono CD player with 6 speakers
- 7 airbags
- ABS with EBF (Electronic Brake Force Distribution) and EBA (Emergency Brake Assist), ESP (Electronic Stability Programme) and ASR (Traction Control)
- one-touch electric windows
- leather steering wheel
- fog lights
- electrically operated and heated door mirrors
- central locking with the convenience of 2 flip keys
- heat reflective windscreen
- boot net
- child-check mirror (not available when RT3 is specified)
- cruise control (optional)
- dark tinted rear windscreen

50

Instrument panel with chrome surround

A contemporary touch that won't go unnoticed.

15" Ocean wheel trims 15" Gazelle alloy wheels (option at extra cost)

Turn heads even when you're parked.

Fog lights

See and be seen when the weather's bad.

Leather steering wheel

Nice to have, even nicer to hold.

Sport

The stylish way to make a speedy getaway.

Stand out from the crowds in the dynamic-looking Sport. This model features everything the Dolce does, plus:

- 16" Antelope alloy wheels
- sports seats
- aluminium drilled pedals, gear knob (manual only) and centre console
- chrome exhaust extension
- body coloured side rubbing strips
- black masked headlights
- sports bumpers with honeycomb grille and chrome surround
- automatic rain sensing front wipers
- automatic headlamps
- digital air-conditioning with climate control
- front carpet mats

52

Centre console

Cool aluminium for the ultimate in chic.

Sport seat

Comfort and support.

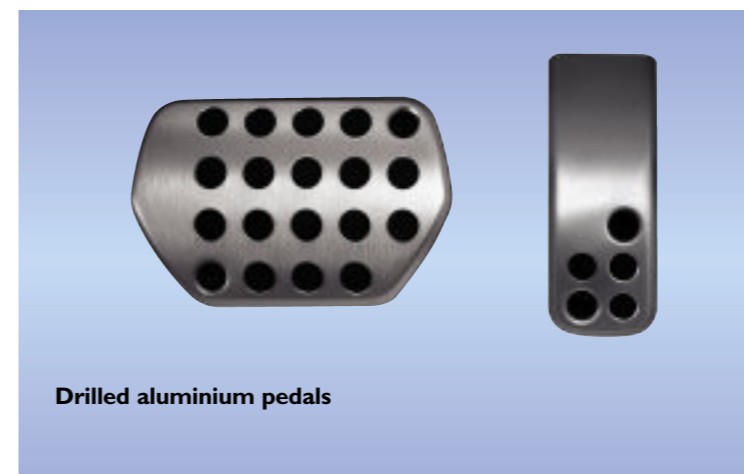

Door sill kick plate

Says style every time the "Sesame" door opens.

16" Antelope alloy wheel

Drilled aluminium pedals

Chrome exhaust extension

Features a honeycomb-style grille and aluminium-look surround to finish the whole look off.

And there's more

You're stating your individuality just by choosing a 1007, but if you want to make your car even more special or more practical, you can add your own choice of exclusive Peugeot accessories.

Want to improve the functionality? Try adding roof bars and get ready to head off for the weekend with a surfboard on top. Or maybe you'd like to increase safety with fog lamps, or improve ventilation with air deflectors, or simply make your mark with stylish Eveanys alloy wheels.

54

It's easy to add the finishing touch to the rear of your 1007. Go for a racier silhouette and enhance the aerodynamics with a rear spoiler. Give yourself time to steer clear of obstacles when you're reversing courtesy of the rear parking aid which incorporates 2 sensors** under the bumper. Or escape to the country with up to 1137kg safely in tow, thanks to a choice of fixed or de-mountable* towbars.

*Model shown on 1007, towing ball removed.
**Supplied in black, can be painted to match vehicle body colour.

55

Fixed monobloc towbar
De-mountable towbar: Towing ball can be removed without tools

You don't have to carry your bicycle in the cabin with you. Keep it safe and secure on top with this anodised aluminium bike carrier. The carrier comes with an automatic immobiliser and locking system on the frame, plus 2 straps to attach the wheels. It's easy to install on all types of transverse roof bars.

Mudflaps* are a stylish way to protect your new 1007 from splashes of mud and gravel.

*Supplied in black, can be painted to match vehicle body colour.

Galvanised steel roof bars with a non-slip coating leave you free to carry larger loads. Can be fitted with all Peugeot Approved accessories (bike carrier, ski-carrier, sailboard carrier).

Let the fresh air flood in and keep the draughts out with this innovative electric sliding and tilting sunroof. Features auto-reverse for safety plus automatic closing.

Eveanys alloy wheels

Alloy wheels always make your car stand out, and these Eveanys alloys are no exception. They've been specially designed for the 1007 and rigorously tested to make sure that their quality and safety is everything you would expect from Peugeot. Available in 14", 15" and 16" sizes.

Smartnav dynamic navigation system

Avoid the jams with this intelligent navigation system which actually uses live traffic information to direct you around congested areas. You can even add the option of "Safe Speed" which alerts you to the presence of speed cameras on your route, helping you to drive safely within the legal limits.

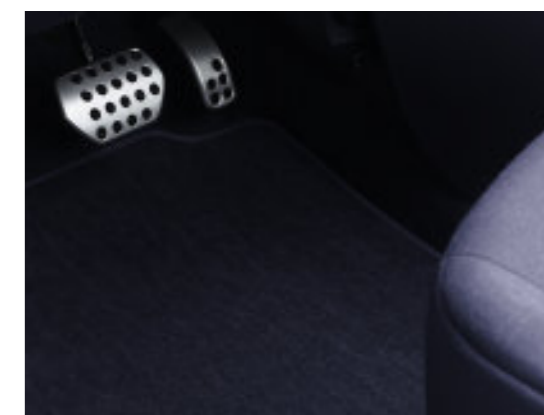

Make long journeys more comfortable with this folding armrest. It even includes a handy compartment for storing up to 6 CDs.

Want to protect your boot from dirt and grit? Try this water-resistant boot tray. Made from recyclable thermoformed non-slip material, it's easy to keep clean and just slips into place without any need for permanent fixings.

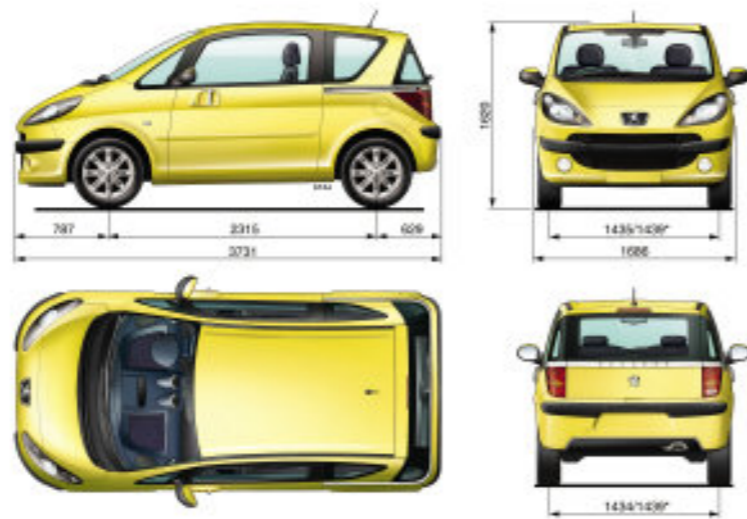

Protect your rear seat passengers with these fitted blinds. Not only do they stop any glare through the side windows, but they also ensure good ventilation.

Tough, yet stylish, these rubber carpet or luxury velour mats protect the original carpets.

Dimensions

Boutique

Women's t-shirt

Keep the 1007 fun going all day with this stylishly-cut, 100% brushed cotton, 3/4 length sleeved t-shirt. Features a "Sesame" door motif in "Cameleo" colours on the front and a miniature 1007 logo behind the neck.

Available in S/M and L/XL.

Men's t-shirt

Play it cool in this 100% brushed cotton, long sleeved t-shirt. Features a discrete "Sesame" door motif on one of the sleeves and a miniature 1007 logo behind the neck.

Can't bear to leave your 1007 behind? Keep it with you at home or in the office with one of these irresistible, authentic 1/43 scale collectibles in either yellow or black. Also available as 3 inch models in four colours, or action models in a choice of six colours.

The Peugeot Customer Promise

When you buy a new Peugeot vehicle from a Peugeot Dealer in the UK and entrust your vehicle to one of them for servicing or repair, they promise: to give you the best people, with the best training and diagnostic tools, original equipment Peugeot parts and the best aftersales backup, all at a competitive price.

Peugeot Peace of Mind

Peugeot vehicles are designed and manufactured to give you worry-free motoring and peace of mind. As a Peugeot owner you are entitled to a comprehensive range of customer care services from your Peugeot Dealer who has the expertise to maintain your Peugeot to its peak performance.

Peugeot Warranties

• 3 Years of Warranty

In addition to the 2 year unlimited mileage manufacturer's Warranty, all vehicles first registered in the UK and purchased from a UK Peugeot Dealer benefit from a free optional additional 1 year of Warranty provided by the Peugeot Dealer network in the UK. This additional Warranty carries a mileage limit of 60,000 miles (100,000 miles for Boxer models excluding Motorhomes and other converted vehicles) from first registration. The conditions of the additional 1 year Warranty are identical to those of the 2 year manufacturer's Warranty. (For full terms and conditions, please consult your Peugeot Dealer. NB: This 3 years of Warranty is automatically transferable on the sale of the vehicle.) At the end of the 3 years of Warranty (or 60,000 miles) you have the option to purchase a Peugeot Platinum Extended Warranty. This offers an almost identical level of peace of mind warranty cover for up to a maximum of a further 48 months (unlimited mileage). Contact your Peugeot Dealer for details.

• 12 Year Anti-Perforation and 3 Year Paint Warranty

Also automatically transferable on sale of the vehicle, this will maintain and enhance the resale value of your vehicle. (The Anti-Perforation Warranty is limited to 6 years and the Paint Warranty to 2 years on 206 Van, Partner, Expert and Boxer vans.)

Peugeot Assistance

For the first year of ownership you will automatically receive Peugeot Assistance cover for complete peace of mind. Additional Peugeot Assistance may be purchased for the second and third years. Operated by the RAC, it includes roadside assistance, vehicle recovery, free replacement vehicle or hotel accommodation and chauffeur provision in case of certain medical disabilities. Peugeot Assistance is available within the UK and Europe.

Your local Peugeot Dealer has full details of terms and conditions.

Peugeot Service Care

Peugeot petrol engine vehicles need servicing every 20,000 miles (12,000 on 2.0 litre 180 bhp engines) or every 2 years. Drivers of HDi diesel versions also benefit from extended servicing with 12,000 miles (20,000 on 2.0 litre HDi 206, 407 & Expert and 1.4 HDi 206) or 2 year intervals. With less time spent in the maintenance bay and fewer service visits, Peugeot have passed on the benefits of technology in engine design and lubrication. In between

scheduled services your Peugeot Dealer offers you a complementary intermediate visit (level check/top up) provided the appropriate, previous full service has been carried out at an authorised Peugeot Dealership.

In order to minimise the inconvenience associated with normal servicing, Peugeot UK Dealers promise to offer you the choice of:

- while you wait servicing with a timed appointment;
- or local vehicle collection from your home or place of work;
- or alternative transport to the railway station, home or place of work;
- or by arrangement, a hire vehicle at a concessionary rate.

In addition they will aim to ensure that your vehicle is washed before it is returned.

Peugeot Insurance

Peugeot Insurance has been designed specifically for Peugeots and offers tailored cover at a competitive price. If you are unfortunate enough to have an accident, one of our Peugeot Approved Accident Repair Centres will repair your car, using only Peugeot original parts, guaranteed for 3 years. Plus we'll give you a courtesy car while yours is being repaired (subject to availability when you use an approved repairer).

When the time comes to renew your insurance cover, why not try Peugeot Insurance?

You can call Peugeot Insurance for a quote on 0870 0240 206.

Lines open 8am-8pm weekdays, 9am-5pm Saturdays. Calls may be recorded.

Peugeot Insurance is underwritten by UK Insurance Limited. Conditions apply.
