## Toyota Corolla Verso

### How Verso are you?

If you enjoy the many strands that make up the diverse fabric of contemporary living, you're already well acquainted with the Verso concept. It's all about being smart, innovative and versatile. Corolla Verso is all of these things... and more. With its athletic design and ingenious modularity, it combines dynamic looks and class-leading safety with comfortable, flexible seating for up to seven people, enabling you to live life to the full.

## Why compromise?

An uncompromising approach to life requires intelligent thinking and an outstanding talent for organisation. That's exactly what the Corolla Verso delivers. With the unique modularity and ease of operation of its Toyota Easy Flat-7 seat system, it offers a multitude of passenger and load carrying possibilities.

## A pleasure to drive

With its smooth ride, positive handling and responsive steering feel, Corolla Verso provides a refined, sophisticated driving experience. It's engineered to be a pleasure to drive, whether you're driving alone or with each of the seven seats occupied.

## A design that blends style with versatility

It's not only Corolla Verso's ingenious flexibility that makes it a perfect fit for busy, modern lifestyles. Its sharp lines and smooth curves make it as good to look at as it is to drive. Robust, athletic and aerodynamic, Corolla Verso's design delivers elegance and intelligence in equal measure.

## A relaxing place to be

Wherever you're headed today, whether it's into the city, out into the country or off to the beach, Corolla Verso is a comfortable, relaxing place to be. With its blend of dynamic good looks, design innovation and outstanding versatility, it provides a genuinely enjoyable ownership experience.

## It's all a matter of intelligent organisation

Driver ergonomics in the Corolla Verso have been intelligently thought through – everything you need to see or touch is exactly where you need it to be.

The cockpit has a refined, modern feel. The three-spoke sports steering wheel is four-way

adjustable; controls and switches are positioned for optimum ease of use. Premium quality textures and materials create a high technology atmosphere.

Optitron displays make the instruments easy to read; aqua-green illumination enhances

instrument visibility further. There's a high quality audio system with CD player; and a state-of-the-art In Car Entertainment (ICE) system (standard on T Spirit) with twin DVD screens in the rear of the front headrests. Convenience features include a storage box on the centre console and a cupholder positioned in the console itself.

When you're driving at night, an electrochromatic anti-glare rear view mirror (T<sub>3</sub> and T Spirit only) ensures you are less dazzled by the headlights of vehicles behind you. The mirror is a perfect example of Corolla Verso's intelligent, refined and driver-friendly interior design.

## Innovation on display

Up-to-the-minute technology has been built-in to make every journey in the Corolla Verso easier, safer and more enjoyable.

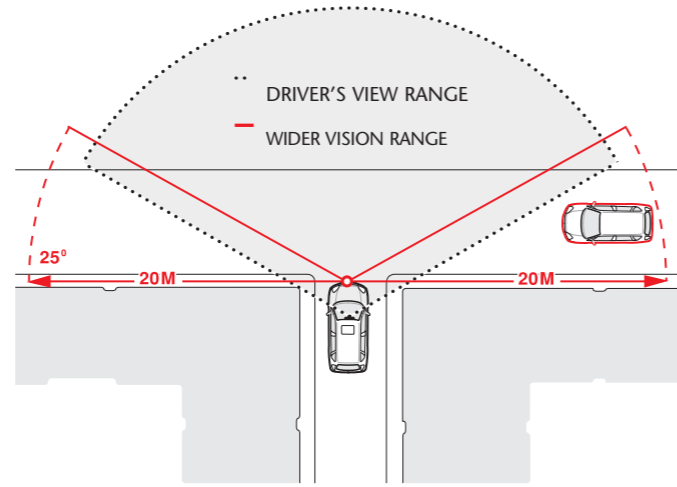

The Cornering Assist Monitor, which is part of the full map satellite navigation system\*, makes it easier to pull out of junctions where you don't have a clear view of the intersection you are joining. A 'prism lens' camera outside the car transmits images of the road ahead – 20 metres in both directions – onto the centre console display screen.

The full map satellite navigation\* makes getting to even the most remote destinations a straightforward affair. You just key in your destination on the touch screen and the system provides audio and visual directions in your choice of eight languages. The system incorporates Road Data System (RDS) traffic information and can be adjusted to a range of settings to suit your exact needs.

When you arrive at your destination, the Rear View Monitor System with Park Assist\* makes parking easy, even in tight spaces. The system provides a visual warning guide to obstacles behind the vehicle.

The rain sensor\* automatically activates the windshield wipers when rain is detected. The system slows down or speeds up the wipers, depending on the severity of the rain. If your journey is a long one, cruise control\* enables you to set and maintain your speed when driving on motorways, removing the need for constant, tiring use of the accelerator pedal.

\* Availability varies according to grade. See Specifications and Equipment on pages 44-47 for details.

### Wider vision

Your range of vision increases by 25° on both sides, enabling you to see approximately 20 metres in either direction.

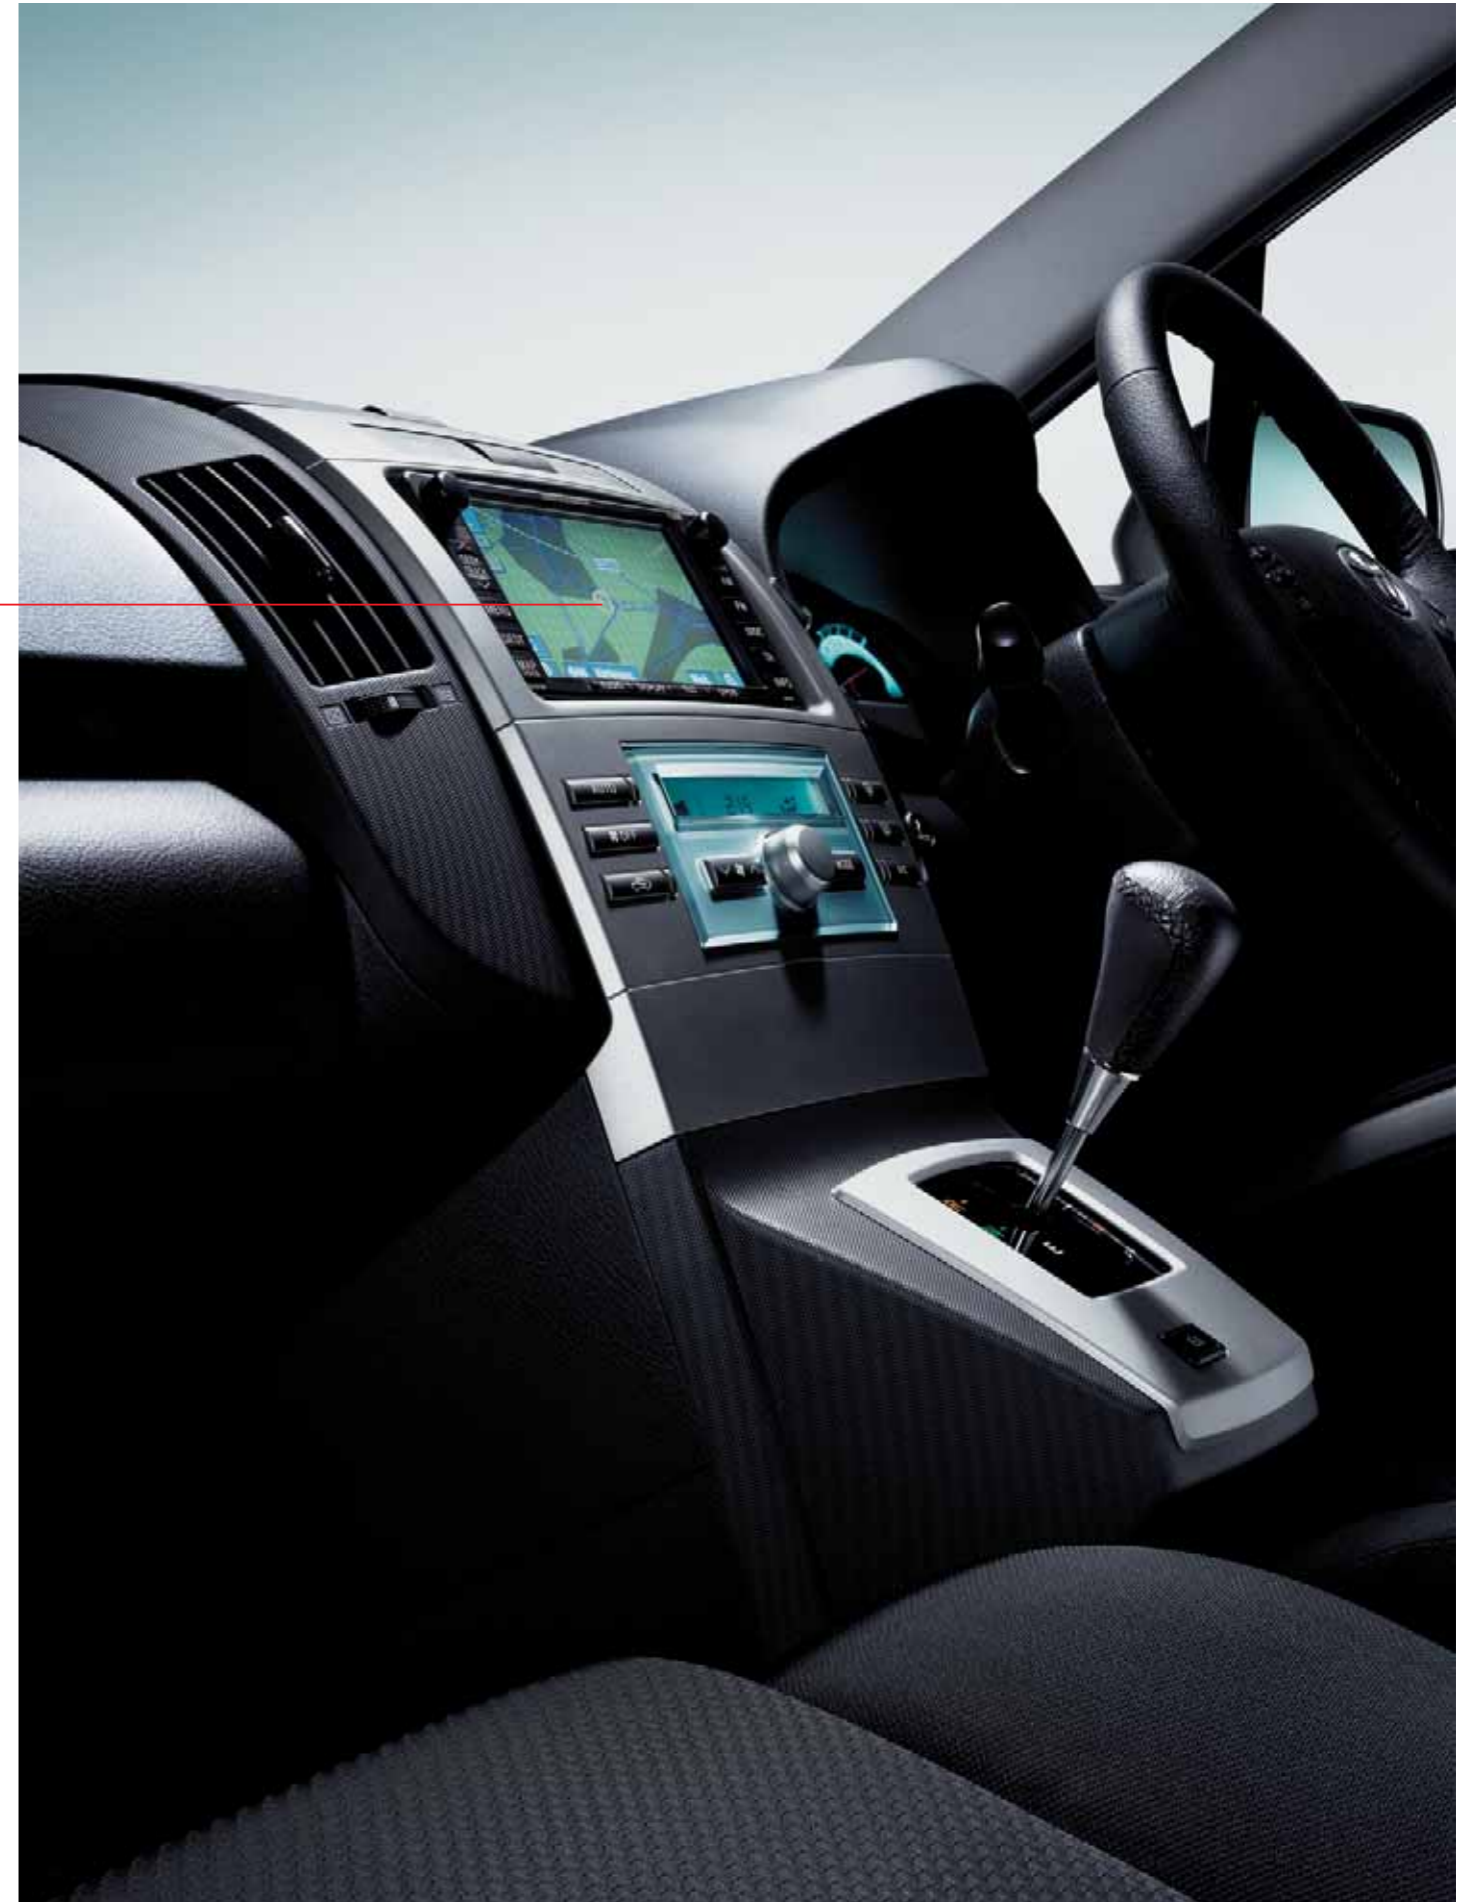

### Satellite navigation\*

Satellite navigation guides you quickly and directly to your destination.

### Rear View Monitor with Park Assist

The optional Park Assist system with back guide monitor provides detailed visual parking and reversing guidance.

## Savour the comfort...

With its premium quality materials and outstanding fits and finishes, Corolla Verso is designed for optimum comfort.

## ...of an ingenious seven-seater

The Toyota Easy Flat-7 seat system makes it easy to accommodate up to seven people, across three rows of supportive seats.

The T<sub>2</sub> dashboard featuring the standard six-speaker radio/CD and optional Multi-mode Manual Transmission.

## Be versatile...

Corolla Verso's combination of dynamic style and outstanding practicality gives you the flexibility and space to be free, to have fun and express yourself.

Wherever you're headed, the Corolla Verso T<sub>2</sub> model's generous equipment levels make every journey a pleasure. There's manual air conditioning, a tilt and telescopic steering wheel with audio controls, a six speaker audio system with CD player and power-operated front windows with anti-trap function. For convenience, the colour-keyed door mirrors are electrically adjustable, too.

Corolla Verso T<sub>2</sub> offers you a choice between the advanced 2.0 litre D-4D diesel engine and the responsive 1.8 or 1.6 litre VVT-i petrol engines. Whichever engine you specify, MacPherson strut front and torsion beam rear suspension systems ensure smooth ride comfort, whether you're driving alone or with all seven seats occupied.

In addition to driving pleasure, Corolla Verso T<sub>2</sub> provides the peace-of-mind that comes with a comprehensive package of safety features, including the Anti-lock Braking System (ABS) with Electronic Brake force Distribution (EBD).

### Optitron Meters

The standard optitron dials are easy to read, as well as stylish.

### Manual air conditioning

The standard manual air conditioning means the interior of the T<sub>2</sub> remains as cool as the styling.

### 16" steel wheel with wheel cap

The T<sub>2</sub>'s large-diameter, wheels come with a seven-spoke full hubcap.

T<sub>3</sub> comes with a three-spoke leather steering wheel for an added touch of luxury. The manual transmission also has a leather gear lever with chrome-look insert.

## and well-equipped

In the Corolla Verso T<sub>3</sub>, athletic exterior design is combined with driving pleasure and interior refinement to outstanding effect.

T<sub>3</sub> is available with two engines, 1.8 litre VVT-i petrol or 2.0 litre D-4D diesel, and incorporates advanced suspension systems. Like the T<sub>2</sub>, T<sub>3</sub> offers the choice of five-speed manual transmission or (with the 1.8 litre engine), Multi-mode Manual Transmission. Additionally, for less tiring driving over long distances, T<sub>3</sub> has cruise control. For enhanced driver control, it also has Vehicle Stability Control (VSC), Traction Control (TRC) and Brake Assist (BA).

On the outside, T<sub>3</sub> has smart, tough 16" '5' spoke alloy wheels and front fog lamps. Get in and you'll discover a leather gear knob and a leather steering wheel with audio controls.

For added comfort and convenience, there's front and rear power windows and automatic air conditioning. An electrochromatic rear view mirror prevents you being dazzling by the headlights of vehicles behind you and the intermittent windscreen wiper features an automatic rain sensor.

### Leather steering wheel with audio controls

Audio switches on the steering wheel are standard across the range and provide added safety and convenience.

### Auto air conditioning

The digital air conditioning in the T<sub>3</sub> and T Spirit keeps the temperature constant at the exact level you want.

### 16" 5-spoke alloy wheel

The smart alloy wheels add a distinctive touch to the T<sub>3</sub>'s exterior.

The T Spirit dashboard showing the optional full map navigation system, which integrates perfectly into the centre console.

## Are we there yet?

In addition to smooth ride comfort, there's another reason rear seat passengers won't want journeys in the Corolla Verso T Spirit to end: the comprehensive equipment list includes an In-car entertainment (ICE) system with twin DVD screens positioned in the front seats' headrests.

The ICE system is a perfect example of the T Spirit's luxurious levels of interior refinement and convenience. While it keeps rear seat passengers entertained, you'll be enjoying a spirited driving experience. T Spirit is available with two engines, 1.8 litre VT-i petrol or 2.0 litre D-4D diesel, and incorporates state-of-the-art suspension and safety systems. And like the T<sub>2</sub> and T<sub>3</sub> models, it offers a wide array of seating configurations, from seven-seat mode to two seats with a large, flat loadfloor.

On the outside, T Spirit's sleek, aerodynamic looks are enhanced by roof rails, 16" 8-spoke alloy wheels and chrome trim which includes a distinctive chrome exhaust finisher.

### Full Map Navigation

Options available on the T Spirit include full map navigation, which also comes with a Front Cornering Assist Monitor and Rear View Monitor with Park Assist.

### Headrest-mounted In-car entertainment

The headrest-mounted DVD screens that are standard on T Spirit will keep the family happy on the longest journey.

### 16" 8-spoke alloy wheel

These stylish wheels add an elegant finishing touch to the T Spirit.

The Corolla Verso's acrylic and metallic centre console is both stylish and contemporary.

## Look closer...discover more

The more you experience the Corolla Verso, the more surprising innovations you'll discover. The array of sophisticated design and technology features provide a highly contemporary travel environment.

As soon as you get into the car and start the engine, you'll experience Corolla Verso's advanced technology. It features an innovative

ignition system which enables you to start the car at the touch of a button.

Storage facilities include two passenger side gloveboxes, a console box which is ideal for storing CDs, front and second row door pockets and third row cupholders.

To keep occupants cool and comfortable, Corolla

Verso has manual or automatic air conditioning. Both systems incorporate a metallic front panel with ergonomic controls and an aqua-green display.

Front and rear windows are power-operated (front only on T2), adding further convenience. Steering wheel audio controls are standard on all grades. In addition, a rear seat In-car entertainment DVD system is standard on T Spirit.

**Remote entry and push button start**  
The quick, easy way to unlock the doors and start the engine.

## What kind of car do you need today?

Corolla Verso takes flexibility to new levels. With its innovative Toyota Easy Flat-7 seat system, it can be quickly and easily arranged into over 30 configurations, including seven-seat mode and two-seat mode with a flat load area.

With the Toyota Easy Flat-7 seat system, there is no need to remove seats and store them outside of the vehicle: the second and third row seats can be independently folded away, creating a flat space. The rear seats have an easy to use lever, which enables you to fold them down into the vehicle. The outer second row of seats are folded flat in one motion using the pull cord at the side of the seat and the centre seat is simply operated using the lever at the top of the seat.

## Friday...

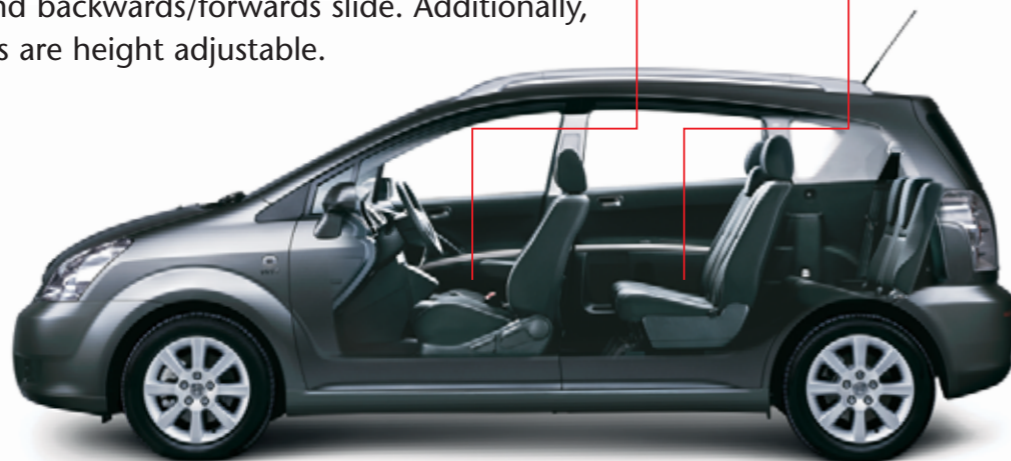

Weekdays can be demanding: taking the children to school, picking their friends up on the way, driving to a meeting with colleagues. Fortunately, Corolla Verso makes it easy to accommodate up to seven people.

Front and second row seats are fully-adjustable for cushion tilt and backwards/forwards slide. Additionally, the front seats are height adjustable.

*Front seats can be raised 33 mm or lowered 19 mm from their neutral position. They can slide backwards and forwards in 10 mm increments within a range of 230 mm.*

*An easy-to-use walk-in mechanism enables second row seats to move forwards for easy access to the third row seats.*

*With all the seats in the 'up' position, Corolla Verso can accommodate up to seven people.*

**Easy folding**

Rear seats can be folded flat in one quick, easy motion. There's no need to remove the headrests – simply tilt the seat all the way forward and the cushion drops downwards, creating a flat surface. Seat shown is from second row.

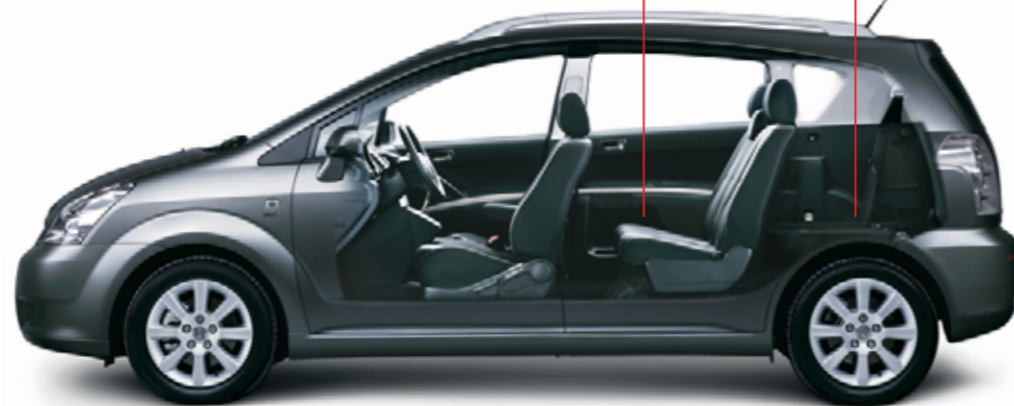

**Saturday...**

The weekend arrives and it's time for a family day out. But how do you fit everything you need into the car? With Corolla Verso, space isn't a problem – there's room for everyone and everything.

With the third row seats retracted, there are five individual seats, plus an impressive 397 litres of flat luggage space.

Second row seats can slide backwards and forwards in 10 mm increments within a range of 240 mm.

Third row seats can be independently retracted into the vehicle. Seat retraction levers are easily accessible from inside the vehicle or the rear of the vehicle.

In five-seat mode, with the third row seats retracted, Corolla Verso provides a generous 397 litres of loadspace.

*The Toyota Easy Flat-7 seat system enables rear seats to be individually folded flat. Operation is via levers which are designed and positioned for maximum ease of use.*

*With second and third row seats retracted into the vehicle, Corolla Verso provides 779 litres of loadspace and a completely flat load floor. Seat shown is from third row.*

## Sunday...

When you need a little more space to get out and get active, the Toyota Easy Flat-7 seat system makes it easy.

In two-seat mode, with the second and third row seats retracted into the vehicle, you have a flat load floor and 779 litres of loadspace. That's plenty of space for a mountain bike, surfboards and all kinds of large, awkwardly-shaped items.

## Driving is believing

Corolla Verso is designed for optimum aerodynamic performance. In addition to a drag co-efficient of 0.30, it incorporates a range of state-of-the-art systems which interact with each other to deliver excellent precision, agility and ride quality.

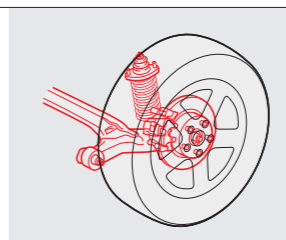

Corolla Verso's suspension system has been engineered to deliver a satisfyingly smooth ride. MacPherson strut front and torsion beam rear suspension work together to provide excellent straight-line stability at high speeds and total composure around corners. The hydraulic power steering system has been specially tuned to ensure direct feedback for optimum control and a confident, positive steering feel.

Corolla Verso is available with a choice of transmissions. There's either the ultra-smooth five-speed manual transmission or an innovative Multi-mode Manual Transmission which enables you to switch between sequential manual and automatic operation. The Multi-mode Manual Transmission (available if you specify the 1.8 VVT-i engine) features 'Comfort' and 'Sport' modes, enabling you to choose between smooth, fuel efficient performance and a more sporty driving experience.

With a minimum turning radius of 5.8 metres, Corolla Verso is impressively agile around narrow city streets or out on the open road.

### **Torsion beam rear suspension**

*Provides outstanding ride comfort, even when all seven seats are occupied.*

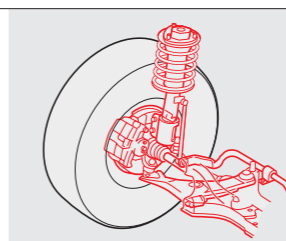

### **Multi-mode Manual Transmission**

*This transmission (available with the 1.8 litre engine) combines optimum control with the ease of clutchless driving.*

### **MacPherson strut front suspension**

*Ensures outstanding straight-line stability and excellent cornering performance.*

## Safety through technology

As befits a car of its quality, Corolla Verso is fitted with a range of advanced technology safety systems designed to maximise driver control and help enable you to steer clear of potential danger.

### High performance braking

Front and rear disc brakes, with the front discs ventilated, plus ABS with EBD combine to provide well controlled, high performance braking.

### ABS and EBD

Anti-lock Braking System (ABS) with Electronic Brake Force Distribution are standard on Corolla Verso. ABS helps to prevent the wheels from locking up when braking on a slippery road by electronically balancing the braking force between all four wheels to match the level of grip of each one. In turn, EBD optimises brake force distribution between the front and rear and left and right wheels. Together, the two systems help prevent the wheels from locking and enable you to steer around obstacles as you come to a stop.

### Brake Assist (BA)

Linked to VSC and TRC, BA automatically supports emergency braking if the brakes are applied quickly but without sufficient pressure on the pedal. It does this by measuring how fast and hard the brake pedal is depressed and then, if appropriate, increasing braking force.

### Vehicle Stability Control (VSC)

VSC actively intervenes when it senses that the vehicle is at risk of sliding out of control – going too quickly around a corner, for example. It works by automatically applying the brake to the appropriate wheel, to bring the car back to its intended path. VSC is a standard feature on T<sub>3</sub> and T Spirit.

### Traction Control (TRC)

Linked to VSC, if you accelerate too hard or cause the drive wheels to lose grip and start spinning, TRC will instantly recognise what is happening. The system will automatically use braking and reduced torque to help restore

traction. TRC adjusts levels of power to each of the drive wheels independently for optimum vehicle control.

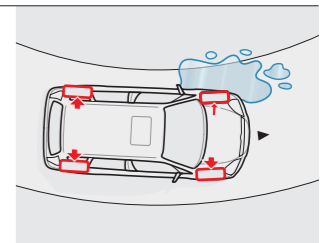

### Cornering Assist Monitor

The introduction of the Cornering Assist Monitor is a European first. When the car approaches a partially obscured intersection, the system transmits images of approximately 20 metres in both directions to the full map satellite navigation\* display screen.

\* Optional on T Spirit.  
See Specifications and Equipment on pages 44-47 for details.

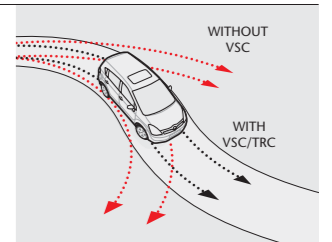

#### ABS and EBD

*These two systems combine to prevent the wheels from locking to help enable you to steer safely around obstacles as you come to a stop.*

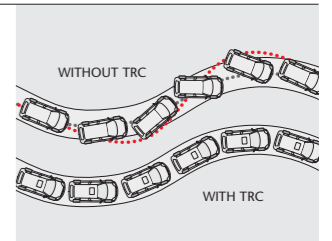

#### VSC

*VSC acts to reduce excessive slippage of the tyres, helping you maintain control of the car.*

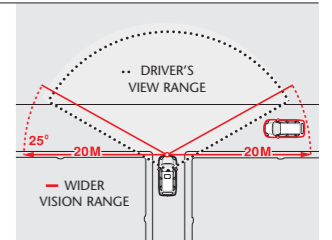

#### TRC

*TRC detects wheel spin in the drive wheels and automatically reduces engine power to suppress the spin and help restore traction.*

#### Wider vision

*The Cornering Assist Monitor increases your range of vision by 25° on both sides, enabling you to see approximately 20 metres in either direction.*

## The safest car in its class

The new Corolla Verso has been awarded the maximum five-star ranking by Euro NCAP. With a total of 35 points out of a possible 37, it is the safest car in its class.

### Nine SRS airbags

SRS driver and passenger airbags, which are standard on all models, are an integral part of occupant protection. In the event of a frontal collision, they inflate very quickly – in two stages, depending on the extent of the impact – to help protect the driver and front passenger.

Corolla Verso is the first car in its segment equipped with a driver's knee airbag. In the event of a front-end collision, it helps to protect the driver from injury against the steering column. For further protection, there are also SRS side airbags for the front seats. SRS curtain shield airbags help protect front and second row occupants from head injuries during side collisions.

Head rests and ELR seat belts for all seats  
All seven seats have three-point Emergency Locking Retractor (ELR) seat belts. Front seat belts incorporate pre-tensioners which instantly draw the seat belt back at the moment of impact and force limiters that release belt tension when a specific load is reached. A two-stage visual and audio seat belt warning system is fitted as standard. Together with the SRS airbags, the overall effect is to help maximise safety while reducing the likelihood of chest injuries.

### Outstanding collision resistance

The Corolla Verso features a strong, rigid body structure, which is combined with Toyota's MICS (Minimal Intrusion Cabin System) in which components are designed to help absorb and disperse energy to minimise cabin distortion.

### Whiplash Injury Lessening

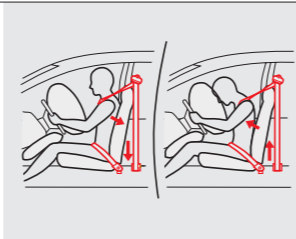

Front seats have been specifically designed and positioned to help reduce injury to the vertebrae in the neck in a rear-end collision.

### ISO fix seat fixings

The second row outer seats feature special anchor points to ensure the safe and convenient installation of ISO fix child seats (available from your Toyota centre).

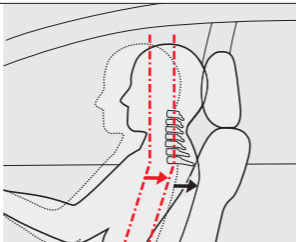

#### Seat belts

Front seat belts with pre-tensioners and force limiters help reduce the likelihood of chest injuries in an accident.

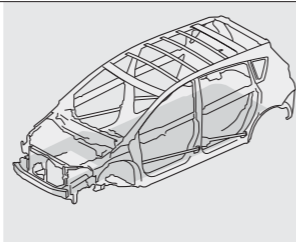

#### Whiplash Injury Lessening

The WIL front seat design helps minimise the risk of neck whiplash injuries in low-speed, rear-end collisions.

#### Safety cell

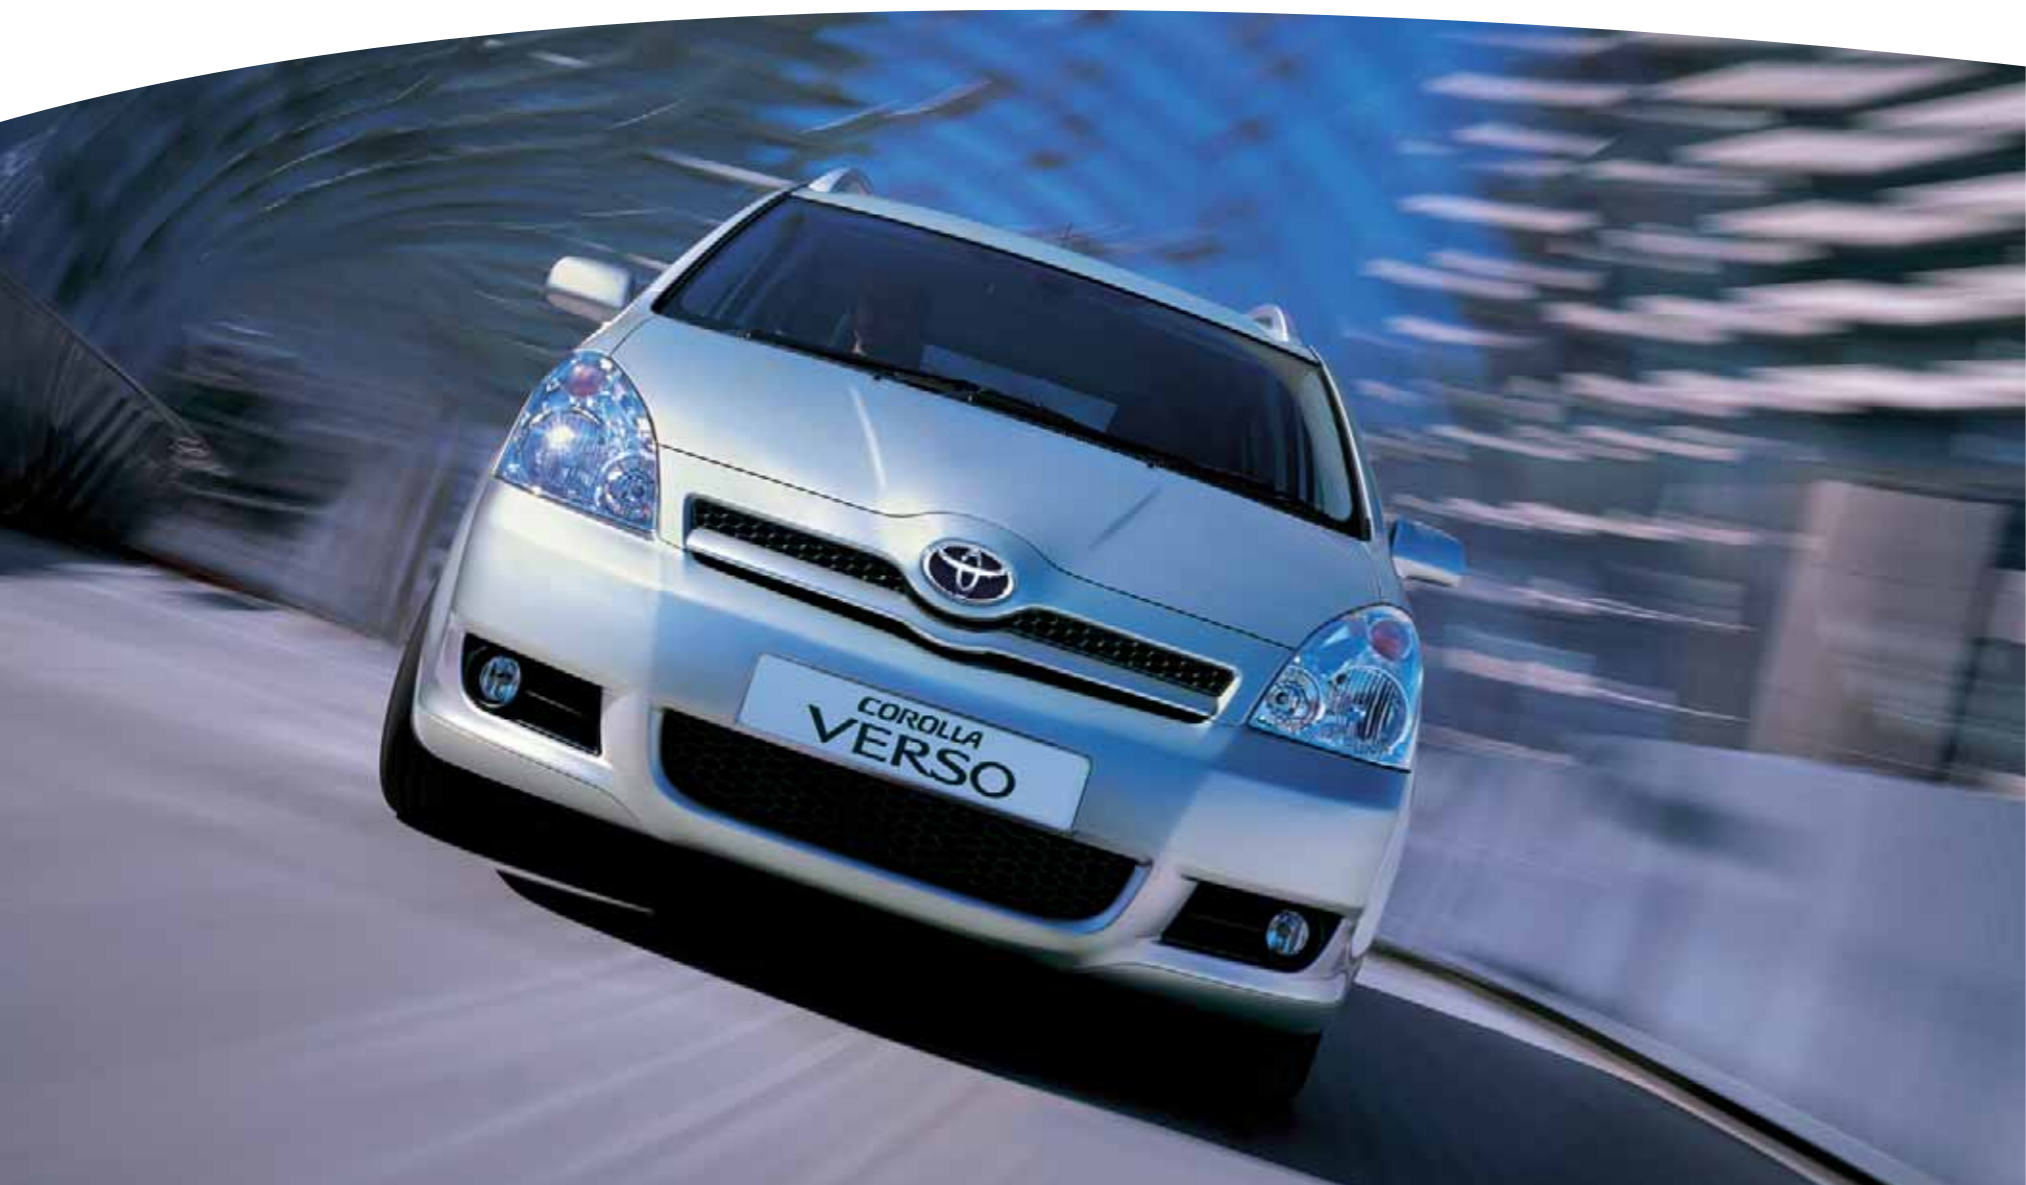

Corolla Verso's occupants are protected by an energy-absorbing body with front and rear crumple zones.

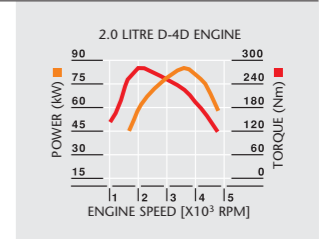

#### Euro NCAP

Euro NCAP is an independent safety assessment programme that is backed by five European governments, the European Commission and motoring and consumer organisations in every country in Europe. It provides a realistic, expert and reliable measurement for the safety performance of new cars. The maximum five-star ranking by Euro NCAP is testament to the design, engineering and build quality of the new Corolla Verso.

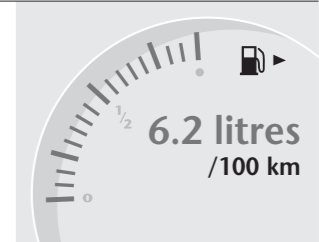

**2.0 litre D-4D engine**  
 This responsive engine delivers 280 Nm/2000-2200 rpm of torque and 85 kW (114 bhp)/3600 rpm of power.

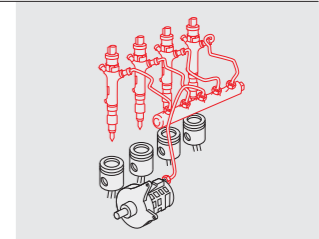

**Combined fuel economy**  
 Combined fuel economy is an impressive 6.2 litres/100 km (45.6 mpg).

**D-4D common rail technology**

The D-4D engine works with advanced common rail technology, which injects finely atomised fuel at high pressure directly into the combustion chamber.

## Enjoy the performance

Toyota's D-4D engine incorporates advanced common rail diesel technology to give you plenty of smooth, responsive power while maximising fuel economy and emission control.

The 2.0 litre D-4D diesel engine has been refined to deliver even more quiet, controllable power. Central to the engine's exceptional performance is an electronic control unit which balances fuel injection pressure, timing and volume, according to the way you are driving. The control unit works with the common rail injection system, which injects finely atomised fuel at high pressure directly into the combustion chamber.

With a variable nozzle turbocharger and intercooler, the D-4D engine provides added power and torque, with excellent fuel economy and reduced emissions. It delivers 280 Nm/2000-2200 rpm of torque and 85 kW (114 bhp)/3600 rpm power output. This gives 0 to 62 mph in an impressive 12.6 seconds. Top speed is 112 mph and the combined fuel economy figure is an outstanding 6.2 litres/100 km (45.6 mpg).

To protect Corolla Verso from theft, it's fitted with a state-of-the-art engine immobiliser which prevents the ignition being switched on, the steering lock unlocking and the engine from being started unless the legitimate cardkey is inserted into the slot.

2.0 litre D-4D engine shown may differ slightly from that in Corolla Verso.

## A powerful proposition

Whether you're on your way to work, heading down the motorway on a family trip or enjoying a peaceful Sunday morning drive, Corolla Verso's VVT-i (Variable Valve Timing – with intelligence) gives you the power to enjoy yourself behind the wheel.

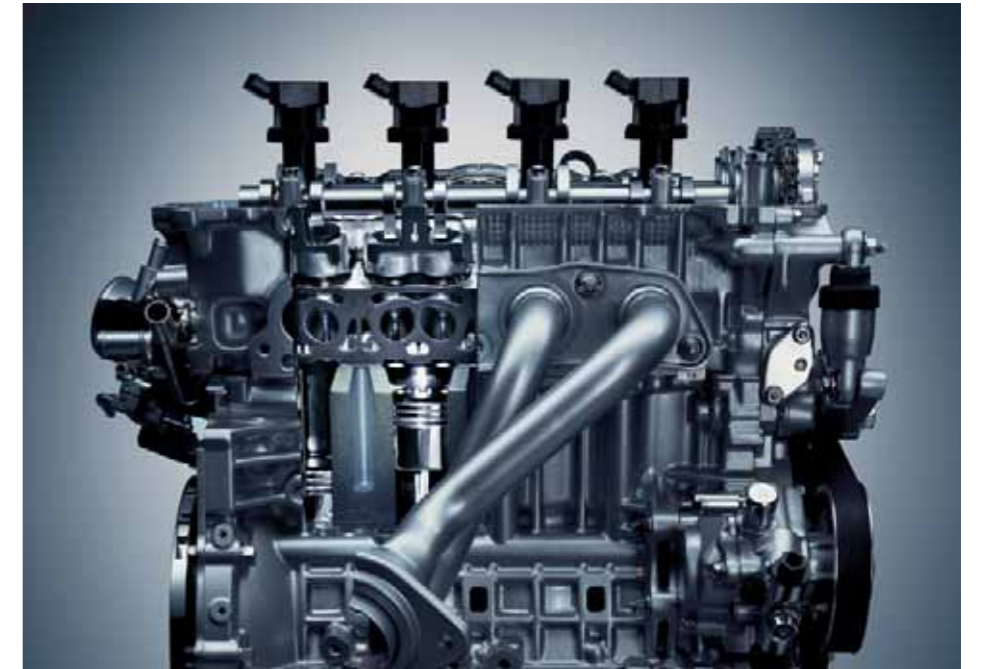

VVT-i delivers outstanding torque, right across the rev range, for a smooth, responsive performance. The system responds to the way you drive and the demands being made on the engine, by electronically optimising the timing and duration of the intake valve opening. This gives you power when you want it, plus maximum engine efficiency for minimum fuel consumption and exhaust emissions.

The 1.8 litre VVT-i delivers 170 Nm/4200 rpm of torque and 95 kW (127 bhp)/6000 rpm of power. Acceleration is impressive

too: 0-62 mph is achieved in just 10.8 seconds (manual transmission) or 12.7 seconds (Multi-mode Manual Transmission). Top speed is 121 mph and average fuel economy is 7.7 litres/100 km (36.7 mpg – manual transmission) or 7.5 litres/100 km (37.7 mpg – Multi-mode Manual Transmission).

Corolla Verso can also be specified with a 1.6 VVT-i engine which delivers 150 Nm/3800 rpm of torque and 81 kW (109 bhp)/6000 rpm of power. Top speed for the 1.6 litre engine is 109mph, with 0–62 mph in 12.7 seconds. Average fuel economy is 7.5 litres/100 km (37.7 mpg).

A state-of-the-art engine immobiliser prevents the engine from being started unless the legitimate key is used. The immobiliser is linked to an antenna coil in the key slot which reads a unique ID code transmitted by the transponder chip embedded in the key.

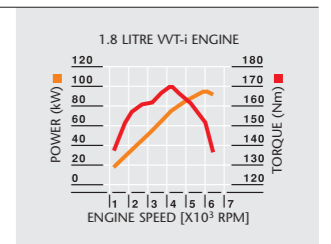

1.8 litre VVT-i engine shown may differ slightly from that in Corolla Verso.

VVT-i

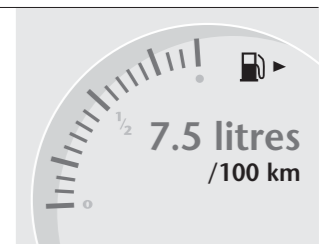

### 1.8 litre VVT-i engine

The 1.8 litre engine delivers 170 Nm/4200 rpm of torque and 95 kW (127 bhp)/6000 rpm of power.

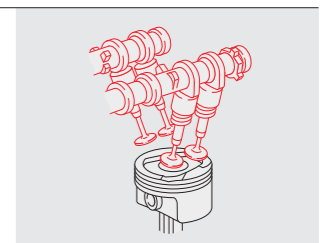

### Combined fuel economy

Combined fuel economy for the 1.8 engine is an impressive 7.5 litres/100 km (37.7 mpg – Multi-mode Manual Transmission).

### VVT-i technology

The system electronically optimises the timing and duration of the valve opening to deliver power when it's needed.

## Choice comes as standard

In addition to driving dynamics, versatility and flexibility, Corolla Verso also gives you choice. It's available in your choice of 10 body colours and three interior trims.

# Drive Plans from Toyota Financial Services

We want to make acquiring and maintaining your Corolla Verso as easy as driving one. Our range of Drive Plans have been designed specifically with this in mind, to offer you a choice of affordable ways to finance, service and maintain your new car. Above all our plans offer flexibility, easy budgeting and peace of mind and can be arranged as a one-stop-shop when you select your Corolla Verso.

As part of the Drive Plans range we have developed four customised schemes, based on specific customer requirements. These Drive Plans are:

## Easy Start

With Easy Start finding a large deposit is not an issue. Just the equivalent of one monthly payment in advance is all that is needed to drive away in a Corolla Verso. This simple and innovative plan, based on our popular PCP Drive Plan, is ideal for younger customers or families on a tight budget.

## Easy Drive

Easy Drive is a comprehensive finance package, with one monthly payment taking care of most of your motoring needs for 2 or 3 years. The plan includes the cost of a Corolla Verso on a PCP Drive Plan, an Easy Care servicing plan covering routine major and intermediate services and extended membership of Club Toyota. As a further option you can also include the cost of car insurance from Toyota Insurance in your monthly payment.

## Easy Care

For those who value the peace of mind of a pre-paid servicing package we can offer Toyota Easy Care. The plan ensures that your Corolla Verso will receive the very best maintenance and servicing. Easy Care covers routine major

services (including routine servicing, parts and labour) and intermediate oil and filter services.

## Business Drive

Business Drive offers the security of a fully maintained Contract Hire package, ideally suited for VAT registered businesses. The package offers a host of benefits including reduced capital outlay, all-inclusive monthly rentals and no depreciation, disposal or administration problems.

## Flexible Finance

However, Drive Plans are about more than just four schemes. Whatever your needs, Toyota has a full range of finance options to offer you. Whether you're a private motorist or a business customer, just discuss your individual requirements with your Toyota Centre, who will be pleased to help you choose a Drive Plan to suit you.

## Customer services

When you buy a Toyota, you automatically become a member of one of the most exciting and innovative clubs for car owners in the UK – Club Toyota. As well as giving you one year's free RAC Roadside Assistance in the UK and Europe, Club membership provides a host of other valuable benefits. These include special rates for car and travel insurance plus an exclusive travel service designed to save you time and money. Club Toyota also offers you family membership and the opportunity to participate in a variety of special offers and promotions. You'll find all the details in the quarterly magazine written specifically for Toyota drivers: In Front. To find out more about Club Toyota call 0845 275 5555.

Toyota Insurance is available for Toyota owners at competitive premiums. To obtain details of the benefits included and to arrange a quotation, please contact your local Toyota Centre or call 0800 350 500.

Toyota Fleet provides complete business solutions for companies that run a fleet of vehicles. For more information on how Toyota Fleet can deliver your fleet requirements either contact your local Toyota Centre or the Toyota Fleet Business Centre on 0845 271 2712.

Toyota Drive Plans make acquiring and maintaining your new car as easy as driving it. They offer a choice of affordable ways to help you buy, finance, service and maintain your Toyota. The range of plans has been structured to offer you flexibility, easy budgeting and peace of mind.

- Easy Start is an exciting new low deposit plan.
  - Easy Care offers the complete reassurance of prepaid servicing.
  - Easy Drive is a comprehensive plan which takes care of most of your motoring needs for 2 to 3 years with one monthly payment.
  - Business Drive is a fully maintained contract hire package most suited to small business customers.
- Whatever your personal preference, your Toyota Centre can tailor a Drive Plan to suit your needs perfectly – driving a new car has never been so easy.
- Written quotations available on request. All agreements subject to status. Indemnities may be required.

Every new Toyota comes with a three year/60,000 mile manufacturers warranty. Toyota offers you the opportunity to renew your warranty annually after the initial warranty period expires until the vehicle is 7 years old. No unexpected bills or concerns. In fact, nothing to pay beyond routine servicing and maintenance. Toyota warranties offer equivalent cover to the manufacturers warranty, covering all of the main components of your vehicle (with the exception of batteries, corrosion of exhaust and damage or wear to interior trim).

Our warranty range offers you choice and flexibility, based on the vehicles age and engine size. All allow for an unlimited annual mileage and special low user discounts are available for those covering less than 10,000 miles a year. Warranty cover also includes Club Toyota membership including RAC roadside assistance, car hire up to 5 days after the first 24 hours, hotel expenses and free MOT test cover.

For further information, please contact your local Toyota centre.

In the event of an emergency Toyota offers free of charge to Toyota owners a comprehensive management service which includes advice, assistance and practical help. Please contact your local Toyota Centre for further details.

Toyota Approved Used Car Scheme. Please contact your local Toyota Centre for details.

## A premium experience

Corolla Verso is manufactured using state-of-the-art automated production processes and rigorous quality controls to ensure the very highest standards. As a Corolla Verso driver you'll enjoy the peace-of-mind that comes from our comprehensive service and support network.

As a Corolla Verso driver you also benefit from the reassurance that comes with Toyota's global reputation for reliability and integrity. This adds peace of mind to your car's individual attributes and enhances the pleasure of the ownership experience.

### Environmental care

Major innovations designed to reduce the impact of substances of environmental concern have been implemented in the manufacture of the Corolla Verso. For plastic parts, to improve recyclability, EPDM\* and TPO<sup>§</sup> have been used for the silencer cover and door belt moulding.

### Intelligent design

The Corolla Verso is designed and engineered to minimise the maintenance overhead. There are fewer parts that require servicing and those that do are inherently durable to extend service intervals. Equally important is that Corolla Verso technology is made easily accessible so that maintenance labour time can be minimised. These features combine with the highly competitive pricing of Toyota spares to ensure the lowest cost of maintaining your Corolla Verso in an ideal working condition.

### Health and Safety

Your Toyota retailer will talk you through the Corolla Verso 'Health and Safety' maintenance programme. The programme is very straightforward and designed for your convenience. In effect, your Corolla Verso needs a full Health and

Safety check only once every two years, or 30,000 km if you enjoy driving it as much as we think you will. An intermediate oil change with additional Health and Safety checks is also necessary every year or 15,000 km.

### Comprehensive warranties

We are confident that every Corolla Verso is so well built that each car comes with a three-year or 100,000 km warranty covering any mechanical failure. In addition, the paintwork, no matter which colour you choose, is also guaranteed against imperfections for three years. Finally, the body as a whole is guaranteed for 12 years against corrosion perforation.

### Low repair cost

The Corolla Verso is designed to minimise the cost of accident repair. Energy absorbing elements are built into the bumpers, expensive to replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low part and labour charges.

### Added security

The Corolla Verso's security system withstands the insurance industry's rigorous five-minute attack test and provides excellent protection. Both the alarm system and engine immobiliser are approved by Europe's major insurance companies.

\* EPDM = Eco Plastic Design Material/Mark. § TPO = Thermo Plastic Olefin.
