

MINI ONE

INTRODUCTION

Whichever way you look at it, this is one exciting car. With its 90bhp engine, MINI One is ready to go whenever you are. The definition of fun on four wheels that's great to drive.

DESIGN

Good looks are usually hereditary, and this definitely holds true in the case of MINI. Based on the original design-to-space concept, MINI lives up to its reputation as the one-off small car that creates space on the inside and saves space on the outside.

SAFETY

Four airbags as standard (plus two optional head airbags), disc brakes all round, Anti-lock Braking system (ABS with CBC and EBD), and optional Automatic Stability Control + Traction (ASC+T) makes MINI one of the safest driving experiences you can have.

MINI ONE

DRIVING EXPERIENCE

MINI's wheels are pushed out to each corner of the car, giving it a low centre of gravity and superb go-kart style handling. This is enhanced by the multi-link rear suspension - a rare feature in a small car. It makes sure that MINI's rear wheels are always in full contact with the road, no matter how bumpy. Gripping stuff!

ENGINE

Sometimes more is in fact less, as the MINI One's 1.6 litre engine with 90bhp proves. Not only does it deliver fine performance, it also achieves remarkably low emissions levels and fuel consumption, thanks to a combination of drive-by-wire throttle and a powerful engine management system.

MINI CARE

Once you've got your MINI, you won't want to be apart from it for long, so we've designed a range of products to keep you together, should the unexpected happen. MINI Emergency Service gives you 24-hour a day cover, wherever you are and your comprehensive MINI Warranty will keep you covered for three years, regardless of how much mileage you've clocked up. And for peace of mind, there's MINI tlc: a single £150 payment within 30 days of taking delivery of your MINI gives you up to 5 years or 50,000 miles, whichever comes first, of expert servicing. If you add MINI tlc XL, you get a further 3 years or 30,000 miles of servicing for just £300. That's 8 years or 80,000 miles for just £450.
