

The adventure starts here www.peugeot.co.uk

So now you've been introduced to the 4007. You've got an idea of what it's all about, what it can do. And you've had a glimpse of how it could fit into your lifestyle.

And as part of the journey, you're sure to have gained an insight into the way we think and how our values are continuing to shape the marque. We also hope you've come to trust the quality and value that the Peugeot brand represents.

But the ride doesn't have to stop here. If you'd like to get to know the 4007 better, either go to www.peugeot.co.uk/4007 or visit your nearest Peugeot dealer to book a test drive. And see just how attractive adventure can be.

Along the way, you should also have come to understand how we've used our expertise to develop an SUV that not only looks great, but combines driveability with practicality and a real go anywhere, do anything attitude.

The right chemistry

When you choose a Peugeot, you're buying more than an elegant piece of design or a superb piece of engineering, you're buying a vision – our dream of a marque that embodies your desires and meets your expectations in every way. A vehicle that is the very personification of the Peugeot spirit.

This spirit, or essence, of our marque can be summed up in four words. Style, quality, dynamism and innovation – the values that every Peugeot is created around. So what does that

mean to you? It means beauty. Stunning design, pure Peugeot lines, the very quintessence of aesthetics as seen by top Peugeot designers. Or roughly translated, a car that makes your heart beat faster every time you look at it.

It means a car that you can trust. Every new Peugeot is built to the very highest standards, ensuring technical excellence, superb handling plus peace of mind, and is engineered to achieve optimum active and passive safety. It also means passion. Our passion

for creating cars with real poise and precision, cars that communicate with the road and connect with you, lifting your spirits on every journey. Cars that reawaken your enthusiasm for driving.

And it goes without saying that it means intelligence. Innovative designs and features that answer your demands for better, safer, more comfortable and environmentally respectful vehicles (we've reduced emissions from our engines and every new car we build is 90% recyclable).

These are the strands of Peugeot DNA that you'll find running through every vehicle that bears our name today, and every car that we'll build tomorrow. Creating the perfect chemistry between you and your car. And ensuring you the drive of your life.

Adventure has never looked so attractive

Everyone needs a little adventure in their lives. Whether it's heading off into the hills for the weekend or simply taking a scenic detour to miss all the traffic on the school run.

And now there's a stylish new Peugeot that's perfectly equipped to help you escape, both physically and mentally. The unashamedly good-looking 4007.

Combining class-leading levels of SUV technology with everything we know about building comfortable vehicles that are a joy to drive, the 4007 is built to let you take even rough terrain in smooth sophistication.

Everything about the 4007's beautiful form follows function.

Starting from the front, the sporty front bumper with its distinctive chrome-trimmed grille is as practical as it is stylish, the athletic lines of the bonnet

don't just look good, they also improve aerodynamics. While the dramatic, sweeping headlights and purposeful fog lights have been engineered to light your way clearly through even the darkest, murkiest conditions.

Moving to the side, the 4007's strong roofline is as aerodynamic as it is aesthetically pleasing. The wide, chrome-trimmed windows are designed to let light flood into the cabin, and the large, sleek alloy wheels have been engineered to provide superior road-holding.

Finally, take a look behind the 4007 – the translucent rear light clusters don't just accentuate the Peugeot lion badge and chrome detailing, they make sure you're clearly visible to any cars behind.

So, even from the outside you can see that indulging your spirit of adventure with the 4007 makes perfect sense.

Explore in comfort

Step inside the 4007 and you'll discover you're in new territory for an SUV. In fact you might find it hard to believe you're in an SUV at all, because this Peugeot boasts the kind of sophisticated design and superior technology that you might only expect to find in a top-of-the-range vehicle. All of which means you can enjoy maximum comfort as well as maximum control whatever the road or weather conditions.

A more pleasurable experience

The interior of the 4007 is rich in stylish details. Style points like the steel-rimmed dials and the way the inserts on the door panels have been carefully selected to complement the seat upholstery just add to the cabin's

quality feel. Not that it's all for show. Take a look at the way the cabin's been ergonomically designed around your and your passengers' needs, and the way we've made every inch of the huge cabin space count. We think you'll be impressed. We also think you'll like the way we've paid attention to the little things, such as making sure there are enough pockets and stow-away areas to ensure that everything's got a place and nothing's forgotten. Want to know more about the 4007's capacity for adventure? Turn to page 18.

Designed around you

With the 4007, we've gone to great lengths to maximise your driving

pleasure. The steering wheel and pedals have been carefully aligned to put you in the best possible driving position, and the supportive seats are fully adjustable to help you take maximum advantage of the SUV's clear, all-round view. The meticulously laid-out dashboard with its deep-set dials, status indicators and 7" multi-function touchscreen* puts all the information from the intelligent on-board computer at your fingertips. Need to get somewhere in a hurry? The advanced satellite navigation system* can guide you wherever you want to go in Europe, safely. Want to take the strain out of long motorway hauls? Tap the button on the steering wheel and let the cruise control maintain your chosen speed for you.

Set a more relaxing tone

If you like the sound of silence, you'll find the 4007's high levels of noise insulation make it easy to leave the distractions of the outside world behind. Prefer to lose yourself in the music? Sit back and enjoy your favourite sounds courtesy of the top of the range audio system – part of the navigation system*, it features an exclusive new Jukebox function which allows you to play CD's and store up to 2500 songs in MP3 format on its hard drive.

*Optional equipment.

Space that makes sense

When we created the 4007, we briefed our designers to come up with the most intelligent way to use every available centimetre of space.

Their first priority was to make sure that everyone had plenty of head and legroom to stretch out in, no matter where they sat.

They also made the 4007's windows as large as possible – the bigger the expanse of glass, the lighter and more airy the interior feels – adding dark tinted glass at the side and rear* to

protect your family and possessions from prying eyes.

Next on the agenda was a long list of storage options. No more juggling drinks and crisp packets, there are handy compartments built into the dashboard, the glovebox, the armrests. And if you've got more bits and pieces to stow away, you'll find there are pockets in the doors and cup holders by the rear seats.

But the clever thinking didn't stop there. To make your journeys more

comfortable they designed in all the smart technology solutions you might more normally expect to find in a luxury vehicle, like touchscreen satellite navigation** and a CD autochanger*, plus electric windows and a refrigerated glovebox. Not to mention air-conditioning with climate control plus pollen and dust filters to create the perfect atmosphere whatever the weather outside.

And as the finishing touch, they decided to include lots of thoughtful features such as plenty of cabin lights

and 12v power sockets to plug in a games console or PDA.

All things you may not necessarily have considered putting at the top of your wish list, but you'll be glad our designers did.

To discover more about the 4007's impressive range of on-board equipment, turn to page 30.

*Standard on GT models.
**Optional equipment.

Practical, flexible seating

Needs change – one day you might want a two-seat load transporter, the next you could be better off with a seven-seater tour bus. Which is why we've made the 4007 so accommodating. The ergonomically designed front seats are fully adjustable. So you can raise them and recline them until you've got your driving position just right.

The middle row of seats takes three comfortably, but the layout's as flexible as your schedule. Need extra legroom?

The seats slide back by up to 80mm. Time for a break? You can recline them. Want extra cargo space? They fold forward effortlessly at the touch of a button. Or if you're planning a really big adventure, the middle row of seats can be split 60/40 and you can slide the seats forwards as well to make way for extra luggage. Two more to go? There's a third row of seats hidden in the boot floor, ready for when you need them to take extra passengers.

Shows seat in row 2 folding

The SUV that makes room for you

Moving house? Going mountain biking? The 4007 is ready to fit in with any adventure.

Even if you're packing everything including the kitchen sink, it's no problem. For easy access there's a split tailgate which can take up to 200 kg – handy if you need to rest something on it while you're loading up – and the load sill height is only 60cm.

There's plenty of space to play with too. If you're using the 4007 as a 5-seater, you've got 441 dm³ of useable space under the luggage cover to fill with shopping – 502 dm³ if you slide the back seats fully forward.

Need more? Take the cover out and you've got up to 815 dm³, floor to ceiling, to fill with whatever you want.

Thinking really big? Simply pull the handle in the boot and all the seats in the second row get an electronic push to help you fold them forward, giving you an exceptional 1686 dm³ of space for super-sized loads.

Now that's a wide open space worth exploring.

Pull the handle to adjust the seats

The rear seats get an electronic push to help them fold

The tailgate folds out flat for easy access

7 seat configuration

Take your seats

Total adaptability

Anything's possible inside the 4007's comfortable cabin.

Its flexible seating makes room for whoever or whatever you have in mind, carrying up to seven people in comfort if you make use of the two fold-away seats concealed in the boot floor.

Changing the configuration couldn't be simpler either; you can unfold the extra seats in one easy move – and it's just as simple to fold them back down again when you need to open up all that load space.

5 seat configuration

3 seat configuration

Estate configuration

Go your own way

Owning a 4007 makes you look at even the most mundane journey in a new light.

Its perfect balance of power and torque combined with its innovative 'on-demand' 4-wheel drive system turn slippery slopes into fun hill-climbs, standing water becomes a temptation to make a massive splash, and boring roads

offer the perfect excuse to take a spur of the moment detour way off the beaten track.

So even a short trip can turn into a big adventure.

Feel empowered on or off-road

An SUV that looks as amazing as the 4007 needs an engine to match.

With our experience in engineering some of the world's cleanest, most refined diesel powerplants, you just know you won't be disappointed.

2.2 litre HDi FAP

There's nothing like a bit of good, clean fun. And that's exactly what this exceptional 2.2 litre, variable geometry turbo-diesel engine provides.

Quiet, efficient and exceptionally smooth it delivers an impressive 380 Nm of maximum torque at 2,000 rpm. It also comes equipped with a 6-speed manual gearbox, so you can make the most of all that power on or off road.

But it's not just this outstanding engine's level of performance that will impress you.

It's surprisingly economical to run, delivering 38.6 mpg on the combined drive cycle. And it's clean too, thanks to a state-of-the-art particulate emission filter (see page 22 for more).

So even if you regularly clock up lots of miles on your travels, you can respect the environment at the same time.

Performance				
Maximum power bhp (Kw) at rpm	Maximum torque lb ft (Nm) at rpm	Maximum speed (mph)	0-1000 m (sec)	Acceleration 0-62 mph (sec)
156 (115) @ 4000	285 (380) @ 2000	124	31.8	9.9

Consumption mpg (litres/100km)*				
Tyre size	Urban	Extra Urban	Combined	CO ₂ (g/km)
215/70 R 16	29.7 (9.5)	47.8 (5.9)	39.2 (7.2)	191
225/55 R 18	29.4 (9.6)	47.0 (6.0)	38.6 (7.3)	194

*EU directive 1999/100.

Take the rough with the smooth

Stay on track whatever the terrain

Pot-holed country lanes, muddy tracks, torrential rain, ice: the 4007 is built to handle even the roughest road and weather conditions.

Part of the secret behind the 4007's complete composure lies in its sophisticated suspension system. It boasts McPherson type struts with a 22 mm anti-roll bar up front plus a multi-arm design and a 20 mm anti-roll bar at the back.

Fulfil your driving ambitions

2 or 4-wheel drive on-demand

Let's face it, there are times when you simply don't need a 4-wheel drive system. Like when you're driving around town or cruising down the motorway on a warm, sunny day.

That's why we've equipped the 4007 with an innovative 'on demand' 4-wheel drive system.

Touring round on good, dry roads? You can save on fuel by selecting the refined front wheel drive with one twist of the dial between the front seats.

Navigating pot-holes and standing water? Switch to the automatic all-wheel drive and the intelligent Electronic Control Unit (ECU) will kick in to distribute the torque between the front and rear axles according to how fast you're travelling, whether you're accelerating or how far you've

turned the steering wheel. Keeping you safely on track even in difficult road conditions.

Braving the snow, or heading off-road into sand dunes or muddy fields? Select the 4-wheel drive lock mode and you'll be in permanent all-wheel drive with 50/50 front to rear torque distribution. Giving you all the extra traction you're likely to need, particularly at low speeds.

Driving mode dial

Peugeot and the environment

Particulate Emission Filter (FAP)

Every diesel engine generates particulates. At Peugeot, we should know. We pioneered the use of particulate filters (FAP) for diesel engines as standard equipment.

How does the FAP work? Basically, it's a porous structure which is integrated into the catalytic converter to trap harmful particles of carbon as the exhaust gases pass through it.

This reduces emissions to barely measurable amounts (0.001 g/km), helping to preserve the environment without spoiling the performance of your 4007.

Keep it green

To ensure that the 4007's diesel engine always operates as efficiently as possible and continues to meet Euro 4 standards, a warning light will come on to tell you if the filter needs attention.

The recyclable SUV

At Peugeot, we're concerned about landfill and the effect disposing of potentially toxic materials has on the environment. That's why we've chosen to use as many recyclable materials for the 4007 as possible, including metal, glass, fluids, plastic materials and rubber.

All round protection

Anticipate

Even the safest drivers can't always anticipate other drivers' actions. So to help you avoid problems, our engineers specified double piston calipers and large, 294mm ventilated front discs that are 24mm thick. Followed up by solid rear discs, 302mm in diameter. Additionally, they made sure that the 4007 came prepared for anything by giving it a highly advanced braking system featuring ESP with ABS, ASC and ASR as standard.

Electronic Stability Programme (ESP)
On today's roads, it's vital that you're in control at all times. Which is why the 4007 is equipped with the very latest Electronic Stability Programme (ESP) which combines:

Anti-lock brakes (ABS)

If you need to stop in an emergency, the system gently pumps the brakes to prevent them from locking, helping you come to a halt quickly and safely.

Active Stability Control (ASC)

The ASC works to keep the 4007 stable in any situation by controlling the brake force and limiting the engine power to individual wheels, correcting over and understeer automatically to ensure you can hold your line whatever the road conditions.

Traction Control (ASR)

This constantly monitors the 4007's traction, managing the engine and the braking system to prevent wheel slip and improve performance during

acceleration, on corners or hills. Plus don't forget that our Peugeot Electronic Stability Programme is especially effective on the 4007, thanks to its automatic all-wheel drive system which controls the distribution of torque to the rear wheels for added stability. But those aren't the only ways this SUV works to keep you and other road-users safe. It also boasts high intensity headlights that automatically adjust themselves to compensate for bumps and dips in the road* (avoiding dazzling on-coming traffic), and turn themselves on as soon as the light levels start to fall. Plus it's equipped with a set of highly effective fog lamps to help you see and be seen.

And the 4007 doesn't just help you avoid problems when you're travelling at speed, either. Thanks to its compact footprint the 4007 is easy to park anyway, but if you choose the navigation option you'll find that, in addition to rear parking sensors which provide an audible warning of any obstacle less than a metre behind, it also features a clever little camera** that switches on when you reverse to give you a 'bumper-cam' view of all your manoeuvres on the multi-function screen.

*Standard on GT models.

**Fitted when touchscreen navigation is specified as an option.

Protect

Your family's safety is a priority for you as well as us.

That's why the 4007's bodyshell is designed to deflect and absorb crash energy, safeguarding everyone inside in the event of an accident.

And in case the impact comes from the side, you'll be relieved to know that the side panels have been specially reinforced to withstand the brunt of the impact.

Plus for extra protection, the 4007 is equipped with six airbags:

- Two adaptive front airbags to protect the driver and front passenger's heads and upper bodies.
- Two front side airbags to safeguard the driver and front passenger's chests and bodies.
- Two curtain airbags to shield the heads of the driver and all the passengers in the first and second rows of seats.

As you might expect, there are three-point seatbelts on all the main seats, plus the driver's and front passenger's belts are also fitted with pre-tensioners. And as an extra safeguard, there's an audible warning system which instantly alerts the driver if anyone forgets to belt-up.

Got some tiny VIPs on board? You'll find ISOFIX child-seat anchor points on all the second row seats so you can transport your little ones with confidence.

Last but not least, we've taken measures to ensure that the 4007 can look after itself when you're not around: the bonnet and fuel cap can only be opened from inside plus there's a transponder immobiliser and an ultrasonic alarm fitted as standard.

So whichever way you look at it, the 4007 is a pretty tough customer.

SE:

- Automatic air conditioning with climate control
- Automatic headlights on
- Radio / CD player with MP3 playback
- Roof bars
- Refrigerated glovebox
- Diamond black cloth
- 16" Manyara alloy wheels
- One touch electric front & rear windows with anti-pinch feature
- Fog lights
- Cruise control
- Electrically operated folding and heated door mirrors
- Leather steering wheel and gear knob

GT:

- SE+
- Rear parking sensors
- CD autochanger
- Leather upholstery
- 18" Tanganyika alloy wheels
- Xenon headlights with headlamp washers
- Electrically operated and heated driver's seats
- Dark tinted rear windows

Extra thought, not extra cost

At Peugeot, we wanted the 4007 to be as comfortable and as easy to live with as possible. Which is why it comes with a long list of special features as standard. The result? An SUV that's so well-equipped, it's in a different league to the rest.

Chrome trimmed door sills

These echo the styling of the window surrounds and add to the vehicle's stylish, sporty looks. (Standard on GT models).

Roof bars

Practical and good-looking, these aerodynamic bars extend the 4007's roofline and help you carry luggage without risking your paintwork.

Chrome window surrounds

Chrome detailing around the side windows adds an extra touch of sophistication. (Standard on GT models).

Heated, folding door mirrors

The large door mirrors can be easily adjusted and demisted from inside. And whenever you lock your car, they fold in for added protection against accidental knocks – one press of the plip key unfolds them again.

Rear parking sensors

As soon as you put the 4007 into reverse, the four sensors on the rear bumper send out ultrasonic signals to detect obstacles less than a metre away, giving you an audible warning if you're in danger of hitting anything (Standard on GT models).

Rear view camera*

Keep an eye on the navigation system's screen for a clear 'bumper-cam' view of any hazards near the 4007's tail-gate while you're reversing.

*Standard when touchscreen navigation is specified as an option.

Fog lights

Set into the front bumpers, these flood the road ahead with extra light when poor weather conditions seriously reduce visibility.

Headlight wipers

The spray from wet, muddy roads can lead to a build-up of grime on your headlights. These wipers keep them clean so the road ahead is always brilliantly lit at night. (Standard on GT models).

Touchscreen navigation*

The 7" colour touchscreen controls the advanced satellite navigation system to keep you in the picture throughout your route, anywhere in Europe. For ease it is also possible to reach the car radio menu through the touchscreen.

*Optional.

Radio/CD with MP3 compatibility

Just tap the control on the steering wheel to hear your favourite sounds.

Centrally located 12V socket

Does a rear seat passenger want to plug in a PDA or separate games console? This 12V socket is set into the armrest between the front seats so it's easily accessible by everyone. Oh, and there's a second 12V socket in the boot should you need it while you're out.

Refrigerated glovebox

Keep your drinks and snacks cool in the upper compartment of the glovebox.

Lower glovebox

The lower compartment of the glovebox is ideal for storage and can be locked for extra security.

Onboard computer

Everything you need to know, right in front of your eyes. The multi-function display gives you up to the second information on your 4007's status direct from the onboard computer and shows alerts if any unexpected technical problems should arise.

Bluetooth® handsfree kit*

Keep talking and keep your hands on the wheel. Just leave your phone in your pocket or handbag and it connects to the radio via Bluetooth® so you can chat away without breaking the law (can also be controlled via a button on the steering wheel).

*Optional.

Cruise control

Just set a speed and the cruise control will keep you on it without the need to touch the accelerator or the brake. It's the easy way to stay within legal limits without having to keep an eye on the speedometer.

Glasses case

Always losing your glasses or sunglasses? Located in the roof, this storage compartment flips open to keep them safely at hand.

Door pockets

The perfect place to keep bottles or magazines – if you haven't already stowed them away in the armrests.

Rear cup holder

Avoid spills and keep everyone refreshed – thanks to these clever drinks holders located in the armrest between the rear seats.

Rear view camera screen*

Watch the navigation touchscreen to get a different perspective on your parking. This is linked to the rear view camera, which shows you the view from under the 4007's licence plate moulding.

*Fitted when touchscreen navigation is specified as an option.

Electric windows

These one-touch electric windows are equipped with a thoughtful anti-pinch system that stops them shutting the instant they detect little fingers in the way.

Air-conditioning with climate control

Standard on every 4007, this single zone system can be set anywhere between 18 and 32 degrees and is fitted with a dust and pollen filter to create just the right atmosphere, whatever the weather outside.

Peugeot and You

Peace of Mind

4007

When you choose Peugeot, you have the reassurance of knowing that your vehicle has been designed and manufactured to give you years of worry-free motoring. What's more, as a Peugeot owner, you can rely on a comprehensive range of customer care services from your Dealer. So you can be sure that you're talking to a specialist who'll listen to you, understand your problems and respond efficiently – someone who also has the expertise to maintain your Peugeot correctly, using trained technicians, Peugeot Diagnostic Equipment and Peugeot Original Equipment Parts.

Peugeot Warranties

As well as the 2 year unlimited mileage manufacturer's Warranty, all vehicles first registered in the UK and purchased from a UK Peugeot Dealer come with a free, optional additional year of Warranty through the Peugeot UK Dealer network. The mileage limit on this additional Warranty is 60,000 miles (or after 60,000 miles) you have the option to purchase a Peugeot Platinum Extended Warranty. Our cars also come with a 12 Year Anti-Perforation and 3 Year Paint Warranty (6 and 2 years on vans). For full terms and conditions on all of these, please contact your Peugeot Dealer.

Peugeot Assistance

All new Peugeots come with 12 months' Peugeot Assistance – our breakdown assistance service (36 months for the 607). This covers all incidents involving vehicle-based faults for you and anyone else driving your car with your permission. It is available 24/7, 365 days a year. Peugeot Assistance includes European cover, homestart, roadside assistance, vehicle recovery and a free replacement car or hotel accommodation if required. It can be extended for a further 12 months, or 24 months, and to protect you against non-vehicle faults (such as punctures) at specially discounted rates, by calling **0870 752 7050**.

Peugeot service care

Peugeot vehicles benefit from extended service intervals of up to 20,000 miles or 2 years (12,000 miles for 1.6 HDi diesel and 2.0 litre 180 bhp petrol engines; 24,000 miles or 2 years on Boxer; 10,000 miles or 1 year on 107). Please refer to the maintenance book for details of the service intervals for specific models and vehicles operating

in arduous conditions.

To minimise the inconvenience often associated with servicing, our Dealers promise to offer you a number of options.

- A while-you-wait service, with a timed appointment.
- Local vehicle collection from your home, or from your work.
- Alternative transport to a train station, home, or work.
- By arrangement, a hire car at a concessionary rate.

What's more, they will aim to ensure that your vehicle is cleaned before you get it back.

Finance – Let the Specialists help

Peugeot Financial Services offer a number of flexible finance plans that make owning a new Peugeot easy. We specialise in car finance and can provide you with choice, convenience and flexibility direct through your local dealer. Whichever finance plan you choose, your local Dealer will arrange it all for you.

If you would like more information on the range of finance products available, please ask to see our brochure. Written quotations are available on request from Peugeot Financial Services, Quadrant House, Princess Way, Redhill RH1 1QA. Over 18's only, a guarantee may be required.

Peugeot Insurance

Peugeot Insurance has been designed specifically for Peugeots and offers tailored cover at a competitive price. If you are unfortunate enough to have an accident, one of our Peugeot Approved Accident Repair Centres will repair your car, using only Peugeot original parts. Plus we'll give you a courtesy car while yours is being repaired (subject to availability when you use an approved repairer). When the time comes to renew your insurance cover, why not try Peugeot Insurance?

You can call Peugeot Insurance for a quote on 0870 0240 206

Lines open 8am-8pm weekdays, 9am-5pm Saturdays. Max call charge from a BT landline is 8p per minute. Calls from other networks may vary. Calls may be recorded. Peugeot Insurance is underwritten by UK Insurance Limited. Conditions apply.

Peugeot and the Environment

Our website has full details on all Peugeot products, and offers available in the UK. You'll also find information about our environmental and recycling policies.

Peugeot Accessories

Peugeot Accessories are designed specifically for each model which means there are no compromises on fit or function. In addition they are rigorously tested to our own high standards giving you complete confidence and peace of mind. We also offer a wide choice of original Peugeot merchandise designed to suit your Peugeot and your lifestyle. Be sure not to miss our Ligne de style Peugeot merchandise catalogue – it's a great place to look for treats or gifts for any Peugeot owner. To download the latest catalogue visit www.peugeot.co.uk
