

Exclusively unique

RAV4 XT-R comes equipped with a range of exclusive features designed to add even more to its unique appeal. Stylish privacy glass at the rear keeps prying eyes away from your belongings. Dual-zone climate-controlled air conditioning allows different occupants to set their own preferred temperature. The radio/CD player also plays MP3s, and the audio system's controls are conveniently integrated into the steering wheel.

Additional touches of luxury include handy front and rear scuff plates to keep unsightly marks from the door sills, electric foldable side mirrors, a glass sunroof and footwell lighting. There's also a choice of three enticing paint options and, to complete the look, you can even opt for a full leather interior.

Power that takes the lead

RAV4 XT-R is available with two strong engines. A powerful diesel 2.2 litre D-4D 140 incorporating advanced common rail diesel technology and a high-performing 2.0 litre VVT-i petrol engine. Both offer smooth, quick-to-respond power, wherever life takes you.

Bring out the adventurer in you with a RAV4 that's a little meaner. The RAV4 XT-R.
