## A joy to look at

Just because your life changes, doesn't mean your sense of style has to. A smooth, aerodynamic body shape and distinctive rear roof spoiler make the Verso SR an attractive prospect. Not forgetting the evocative privacy glass fitted as standard, of course, or the Vortex alloy wheels which are guaranteed to attract admiring glances. Verso SR is available in three desirable colours – Decuma Grey, Silver Steel or Solar Red plus Eclipse Black, which will be available during September 2007 only. And there's the option of a metallic finish too.

### Life-friendly technology

Everything about Verso SR is about making life easier. That's why you'll find rear parking sensors to help make even the toughest parking spot more negotiable. These sophisticated sensors help you gauge your proximity to any obstacle behind you by warning with a series of audible beeps which increase or decrease in frequency depending how near or far away you are.

Intelligence, looks and, above all, unrivalled versatility. The Verso SR really does open up a world of endless possibilities.
