The SE aims to spoil. Its luxurious interior boasts supportive seats with Sala Textile upholstery – electronically adjustable for the driver. Then there's the 8 speaker High Performance audio system with 160 W output and intuitive features such as automatic rain sensor and autodimming rear view mirror. On the outside, 17" Regor alloy wheels and colour co-ordinated front spoiler and side mouldings make sure your presence doesn't go unnoticed.

The SE Sport model combines the luxury features of the SE with sports styling and handling enhancements. Speed dependent power steering and Volvo's active chassis system, Four-C, both have three user settings to allow you to set up the car exactly to your liking. 18" Venator alloy wheels enhance the handling and visual presence while leather-faced ventilated/heated powered front seats offer seven cooling and heating settings.

The SE Lux model is the ultimate in luxury. Leather-faced upholstery, walnut wood inlays, heated and powered front seats and luxury floor mats further enhance the luxurious exterior. 17" Canicula alloy wheels, Bi-Xenon headlamps and rear park assist offer both style and protection.

The Executive is the ultimate in Volvo luxury. Its refined exterior boasts a chrome finish in the front spoiler and fog light surround, side mouldings and below the rear lights, as well as elegant 18" Badius alloy wheels. Inside the cabin, the unique walnut wood executive console extends a warm welcome and the Executive Soft Leather upholstery with contrast seams and piping adorns the seats and armrests. Additional features include a fridge and our Premium Sound audio system with Dolby Pro Logic II Surround Sound™ and 12 Dynaudio loudspeakers.

- (i) The results do not express or imply any guarantee of the fuel consumption of a particular car as there are inevitable differences between individual cars of the same model. Additionally, driving style, traffic conditions, as well as the age and mileage and standard of maintenance will affect a car's fuel consumption.
- (ii) The Urban fuel consumption figure is based on typical city driving, including starting the car from cold. The Extra Urban figure is based on typical motorway driving and cruising. The Combined figure averages the consumption across both cycles.
- (iii) Unbraked towing weight must not exceed 50% of kerb weight up to a maximum of 700 kg.

**Notes**

The weight of the vehicle will influence the level of CO<sub>2</sub> emitted. As a result, vehicles with higher levels of specification and factory fit options may emit higher levels of CO<sub>2</sub>. Once a vehicle has been built it will be given its own specific CO<sub>2</sub> emission on which Vehicle Excise Duty will be charged.

A weighbridge must be used to determine specific weights.

Data valid for manual transmission unless specified.

G/t = Geartronic Automatic Transmission.

All measurements in mm.

The Max. output figures are quoted in PS (Pferdestärke), which is the metric equivalent of brake horsepower.
