

Peugeot and You

Partner Tepee

When you choose Peugeot, you have the reassurance of knowing that your vehicle has been designed and manufactured to give you years of worry-free motoring. What's more, as a Peugeot owner, you can rely on a comprehensive range of customer care services from your Dealer. So you can be sure that you're talking to a specialist who'll listen to you, understand your problems and respond efficiently – someone who also has the expertise to maintain your Peugeot correctly, using trained technicians, Peugeot Diagnostic Equipment and Peugeot Original Equipment Parts.

Peugeot Warranties

As well as the 2 year unlimited mileage manufacturer's Warranty, all vehicles first registered in the UK and purchased from a UK Peugeot Dealer come with a free, optional additional year of Warranty through the Peugeot UK Dealer network. The mileage limit on this additional Warranty is 60,000 miles (100,000 miles for Boxer vans excluding Motorhomes and other converted vehicles) from first registration. At the end of the 3 year Warranty period (or after 60,000 miles) you have the option to purchase a Peugeot Platinum Extended Warranty. Our cars also come with a 12 Year Anti-Perforation and 3 Year Paint Warranty (6 and 2 years on vans). For full terms and conditions on all of these, please contact your Peugeot Dealer.

Peugeot Assistance

All new Peugeots come with 12 months' Peugeot Assistance – our breakdown assistance service (36 months for the 607). This covers all incidents involving vehicle-based faults for you and anyone else driving your car with your permission. It is available 365 days a year.

Peugeot Assistance includes European cover, homestart, roadside assistance, vehicle recovery and a free replacement car or hotel accommodation if required. It can be extended for a further 12 months, or 24 months, and to protect you against non-vehicle faults (such as punctures) at specially discounted rates, by calling 0870 752 7050.

Peugeot service care

Peugeot vehicles benefit from extended service intervals of up to 20,000 miles or 2 years (12,500 miles for 1.6 HDi diesel and 2.0 litre 180 bhp petrol

engines; 24,000 miles or 2 years on Boxer; 10,000 miles or 1 year on 107). Please refer to the maintenance book for details of the service intervals for specific models and vehicles operating in arduous conditions.

To minimise the inconvenience often associated with servicing, our Dealers promise to offer you a number of options.

- A while-you-wait service, with a timed appointment.
- Local vehicle collection from your home, or from your work.
- Alternative transport to a train station, home, or work.
- By arrangement, a hire car at a concessionary rate.

What's more, they will aim to ensure that your vehicle is cleaned before you get it back.

Finance – Let the Specialists help

Peugeot Financial Services offer a number of flexible finance plans that make owning a new Peugeot easy. We specialise in car finance and can provide you with choice, convenience and flexibility direct through your local dealer.

Whichever finance plan you choose, your local Dealer will arrange it all for you. If you would like more information on the range of finance products available, please ask to see our brochure. Written quotations are available on request from Peugeot Financial Services, Quadrant House, Princess Way, Redhill RH1 1QA. Over 18's only, a guarantee may be required.

Peugeot Insurance

Peugeot Insurance has been designed specifically for Peugeots and offers

tailored cover at a competitive price. If you are unfortunate enough to have an accident, one of our Peugeot Approved Accident Repair Centres will repair your vehicle, using only Peugeot original parts. Plus we'll give you a courtesy vehicle while yours is being repaired (subject to availability when you use an approved repairer).

When the time comes to renew your insurance cover, why not try Peugeot Insurance?

You can call Peugeot Insurance for a quote on 0870 0240 206. Lines open 8am-8pm weekdays, 9am-5pm Saturdays.

Max call charge from a BT landline is 8p per minute. Calls from other networks may vary. Calls may be recorded.

Peugeot Insurance is underwritten by UK Insurance Limited. Conditions apply.

Peugeot and the Environment

Our website has full details on all Peugeot products, and offers available in the UK. You'll also find information about our environmental and recycling policies.

Peugeot Accessories

Peugeot Accessories are designed specifically for each model which means there are no compromises on fit or function. In addition they are rigorously tested to our own high standards giving you complete confidence and peace of mind. We also offer a wide choice of original Peugeot merchandise designed to suit your Peugeot and your lifestyle.

Peugeot //
Partner Tepee

Free your sense of adventure!

Just one look tells you that the new Partner Tepee is an MPV with a difference. A robust, muscular design hints at its spirit of adventure, while its smooth curves give a glimpse of the interior space on offer. Climb inside, sit back and take in how the four glass panels in the unique

Zenith roof* flood the interior with light. Explore the wealth of intelligent touches – including the optional handsfree Bluetooth kit*. Feel the reassurance that comes with knowing the car's safety features include ISOFIX mountings, ABS, EBF, front passenger and driver's airbags.

Wide, sliding side doors, a tailgate with opening rear window*, a foldable and removable rear bench-seat and vast storage capacity complete the impression - this car lets active families carry everything they need to getaway. *Option at extra cost

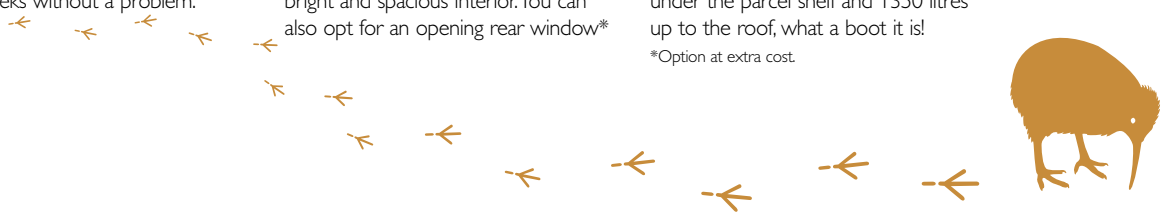

Exceptionally practical – whatever you're doing

Mountain bikes, golf clubs, surfboards – or just the shopping, the Partner Tepee copes with everyday trips to once-in-a-lifetime treks without a problem.

Slide open the side doors, and however tightly other cars are parked alongside, you can easily jump into the bright and spacious interior. You can also opt for an opening rear window*

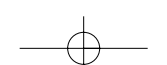

on the tailgate to give access to your gear without having to open the boot. And with a load volume of 675 litres under the parcel shelf and 1350 litres up to the roof, what a boot it is!

*Option at extra cost.

Rear tailgate

The large tailgate swings up to give you easy access to the generous boot.

Be comfortable – wherever you go

The Partner Tepee has been designed to indulge all your senses. The wide sweep of its windows allows driver and passengers to enjoy the landscape passing by. Everyone will also appreciate how the high levels of noise insulation allow sounds from the MP3 compatible music-system to fill the vehicle. Interior ambience is further enhanced by a fragrance diffuser

linked to the vehicle's four air vents (available with the Zenith Roof option). Manual air-conditioning is also standard on the Outdoor model or available as an option on the S model.

For the driver, the height and depth-adjustable steering wheel, height-adjustable driver's seat* and armrest and dash-mounted gear-lever help

ensure your posture is ergonomically aligned for maximum comfort. To enhance your driving experience, numerous driving aids are also available as options – including automatic headlights and automatic rain-sensing wipers, electric folding door-mirrors and a parking aid.

*Standard on S and Outdoor models.

1. Driver's Glove box

Easily accessible behind the steering wheel, this storage space has a volume of 4 litres.

2. Overhead storage

This handy extra storage area also includes holes when you pull down the sun visors so you can see what's stored inside.

3. Centre console

Available as an option with the family pack, the centre console slots between the front seats for easily accessed extra storage. When removed, a base incorporating two cup-holders is revealed.

4. Under floor storage

If rear passengers need to store something, they just have to reach down to open up the ingenious storage space beneath their feet.

5. Glove box

S and Outdoor versions include a glove box with lid on the passenger's side. This can serve as a chilled compartment if your Partner Tepee has air-conditioning.

Easily adapts – to any need

The Partner Tepee's modular design means it can adapt to endless combinations of passengers and luggage.

The rear three person bench seat can be folded down or removed completely. Alternatively, you could opt for three independent rear seats* with adjustable head-rests and reclining backs that can be individually folded down or removed completely.

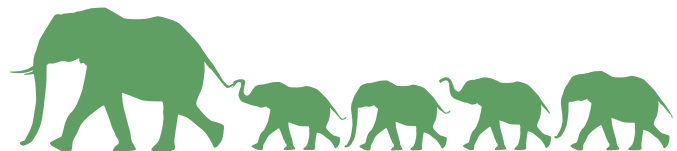

Versatility extends to the boot's load volume as well – 675 litres under the parcel shelf, 1350 litres up to the roof or a massive 3000 litres with the rear seats removed.

1/2/3. Independent folding and removable rear seats*. Each seat can be folded and removed. When folded down, the central seat's backrest serves as a shelf with cup holders for added rear passenger comfort.

4. Standard folding and removable 2/3 – 1/3 rear bench seat.

5. When you opt for three independent rear seats, the front seat backrests are equipped with aircraft-style tables with cup holders for rear passengers to fold down.

*Option at extra cost.

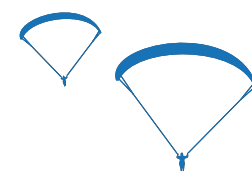

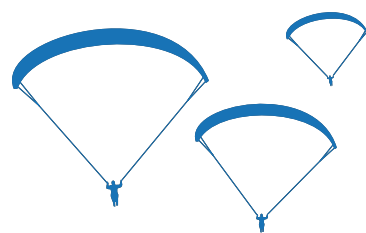

Bring the outdoors inside with the new Zenith roof*

Look up and see the sky through the Partner Tepee's ingenious Zenith roof*. Allowing exceptional levels of light into the passenger compartment, the Zenith roof* also incorporates useful features such as three air vents, a fragrance diffuser and a courtesy light.

A trio of storage units – one above the front seats, one above the passenger seats and one at the vehicle's rear - add a further 83 litres to the useful space available in Partner Tepee.

*Option at extra cost.

1. The exterior roof bars of the new Zenith roof*, which can carry up to 70 kg, increase the load capacity of the Partner Tepee. They can be used either crosswise or lengthwise.
2. Three air vents and a fragrance diffuser add to the comfort of the rear passengers.
3. The additional rear storage area is accessible from inside and through the boot and increases the available storage volume.

*Option at extra cost

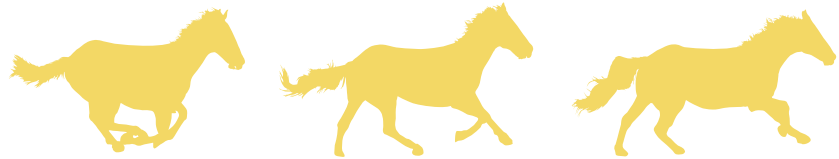

Push your frontiers – with the Partner Tepee Outdoor

With its raised suspension to handle rougher tracks and trails, the Partner Tepee Outdoor will satisfy your thirst for adventure.

Additional features reinforce the vehicle's robust credentials – including 16" Arenal alloy wheels, extra side protection and solid black bumpers at the front and rear. From a style perspective, the silver roof bars, silver surround of the air intake and chrome surrounds of the front fog lights add a touch of flair.

This model has been built with your comfort and safety in mind too adding cruise control, air conditioning and side and curtain airbags to its specification line up.

Comfort and convenience – all within reach on the Partner Tepee S

The strong level of standard equipment that comes with the Partner Tepee S makes it an incredibly comfortable vehicle to live with every day. Electric heated door mirrors, one touch electric front windows and remote central locking make life easy,

while deadlocks further improve the vehicle's security. ABS and driver and passenger airbags mean that safety is covered too.

On the outside, the looks of the fully body coloured exterior are enhanced

by the front fog lights with chrome surround, the silver front trim and the 15" Attacama wheel trims. Optional roof bars and 16" Arenal alloy wheels, shown in the picture complete the look.

吉財和祿

The right engine for all your adventures

The Partner Tepee is available with a choice of two petrol engines and three diesel engines. All of these engines benefit from Peugeot's expertise. They offer the proven strength and longevity on which the Marque's reputation has been built. Each of them meets specific requirements, from the most economical to the most high-performance. All offer a level of driveability enabling you to appreciate the road holding of the Partner Tepee.

They reflect Peugeot's commitment to the design and development of environmentally-friendly vehicles. The diesel engines offer both reduced fuel consumption and enhanced performance, thanks to a more uniform diesel combustion.

1.6 litre 16v 90 bhp
A good compromise between performance and running costs, this petrol engine offers very efficient torque at low engine speeds.

1.6 litre 16v 110 bhp
A flexible petrol engine with excellent power reserves, combining driveability and efficiency.

1.6 litre HDi 75 bhp
This very economical diesel engine with "Common Rail" direct injection offers excellent road holding when loaded, good acceleration at low and medium engine speeds.

1.6 litre HDi 90 bhp
Highly responsive when moving off, this engine combines good acceleration and driveability with economical running costs.

1.6 litre HDi 110 bhp FAP
This engine features the Diesel Particle Emissions Filter (FAP) which processes gases produced by the combustion of diesel in the engine reducing emissions from HDi diesel engines by a significant margin. This engine is turbocharged by a variable geometry turbocharger. It features the "Overboost" function (temporary additional torque). When really required, for example when overtaking or during an emergency manoeuvre, this provides an additional torque reserve of 20 Nm, a valuable benefit in terms of active safety.

Engines	Fuel consumption in miles per gallon (litres / 100 km)			CO ₂ (g/km)
	Extra-urban	Urban	Combined	
1.6 16v 90 bhp	41.5 (6.8)	26.1 (10.8)	34.4 (8.2)	195
1.6 16v 110 bhp	41.5 (6.8)	26.1 (10.8)	34.4 (8.2)	195
1.6 HDi 75 bhp	56.4 (5.0)	40.3 (7.0)	49.5 (5.7)	150
1.6 HDi 90 bhp	56.4 (5.0)	40.3 (7.0)	49.5 (5.7)	150
1.6 HDi 110 bhp FAP	57.6 (4.9)	41.5 (6.8)	50.4 (5.6)	147

*As per directive 99/100/CE.

Safety

The Partner Tepee is an MPV for today and features many items of modern equipment designed to improve the safety of the driver and passengers.

ANTICIPATE

- **Braking**
With its two ventilated discs with a diameter of 283 mm at the front and two solid discs (diameter 268 mm) at the rear, the Partner Tepee provides efficient braking under all circumstances.
- **ABS**
The anti-lock braking system (ABS) controls the vehicle's direction by preventing the wheels from locking during emergency braking.
- **EBFD**
Electronic Brake Force Distribution (EBFD) controls braking wheel by wheel for greater efficiency, particularly in bends.
- **EBA**
Emergency Brake Assist (EBA) amplifies the braking pressure during heavy braking. This additional assistance reduces the stopping distance to a minimum.
- **Automatic switching on of the hazard warning lights**
In the event of sharp deceleration, the hazard warning lights are switched on automatically to limit the risk of rear collision.
- **ESP**
Available as an option, ESP (dynamic stability control) returns the vehicle to its trajectory as far as the laws of physics allow if the ECU detects any under or oversteer.
- **ASR**
Linked to the ESP, traction control (ASR) prevents wheel slip in the event of loss of traction.

PROTECT

- **Front impact**
In the event of front impact the integrity of the passenger compartment is assured by three force channels, the lower, medium and upper, which gradually absorb impact energy on its path from the front to the rear of the vehicle.
- **Side impact**
In the event of side impact, forces are channelled through the vehicle's underbody.
- **Rear impact**
The Partner Tepee is designed to gradually absorb energy in the event of rear impact as the rear beam and parts of the underbody deform.
- **Rollover**
The survival cell is preserved in the event of rollover thanks to the car's exceptional body strength.
- **Protection of pedestrians**
The structure of the Partner Tepee has been designed to reduce the consequences of frontal collision with a pedestrian to a minimum.
- **Steering column**
The steering column retracts by 40mm in the event of impact, thereby affording better protection to the driver.
- **Restraint systems**
All seats in the Partner Tepee are equipped with three point seat belts. The front seat belts are height adjustable and have inertia reels, pretensioners and force limiters.
- **Fasten seat belt indicator**
A warning lamp and an acoustic alarm inform the driver if the seat belt is unfastened.
- **Head rests**
The backrests of the seats and the head rests have been designed to follow the movements of the body in the event of impact, thereby limiting the effects of whiplash.
- **Airbags**
In addition to driver and front passenger air bags, the Partner Tepee can be fitted as an option with side and curtain airbags.
- **Isofix fixtures**
You can install a child seat in complete safety: Isofix anchorage points located between the cushion and seat back of the front passenger seat and the two second row side seats enable two child seats to be attached without the need to immobilise them using the seat belts.

WARN

- **Cruise control/speed limiter**
Available as standard or as an option depending on the model, cruise control maintains a constant speed without the driver having to use the accelerator pedal, while the speed limiter limits the vehicle to a speed programmed by the driver.

ANTI-THEFT PROTECTION

The Partner Tepee has also been designed to reduce the risk of theft of the vehicle or of luggage it may contain.

- **Central locking**
Central locking is available as standard including a push button on the dashboard. Central locking is activated as soon as the vehicle is driven at a speed in excess of 6 mph.
- **Plip key**
A two button remote control plip can be used to lock or unlock the vehicle completely.
- **Alarm**
An alarm system is available as an option.
