

Hilux

TOYOTA

For Toyota,
quality is not just a promise;
it's a way of life

Nothing is so good that it cannot be made better. That is why we strive for constant improvement in everything we do. It is not a motto. Or a mission statement we hang on the wall and forget about. It is simply the way we do things. We have a word for it: 'kaizen'. It means 'continuous improvement' and it is the key principle that guides us in our pursuit of total quality.

"From now on, I want everybody to put their efforts together and unite in finding a way to make superior vehicles."

Kiichiro Toyoda, Founder
Toyota Motor Corporation, May 1939

This commitment to quality results in real benefits – benefits that enhance the quality of your life. We know this because you tell us so by consistently voting Toyota highly in independent customer satisfaction surveys. This is also evident through the excellent results Toyota achieves in the Euro NCAP safety tests. Most of all we know this because we make it our business to find out how to give you the best possible ownership experience, from when you first buy your Toyota, right up to when you ultimately sell it.

What this means for you is that every time you get into the driving seat of a Toyota and start the engine, you will experience a feeling of complete confidence. Confidence that comes from knowing that the vehicle you are driving is designed and engineered with the very highest standards of quality and reliability in mind. For Toyota, quality is not just a promise; it's a way of life.

The Toyota Hilux.
Ready. Willing. And able to do anything,
anytime, anywhere

The Toyota Hilux gives you the freedom to do whatever you want, whenever you want. No matter what the activity, no matter what's up against you, nothing can stand in its way.

The Toyota Hilux offers endless possibilities. And the kind of versatility where the only limit is your imagination.

Three unbreakable body styles

From making it through rough terrain to simply cruising across town, the new Toyota Hilux offers truly all-encompassing ability.

Push it to the limit and it'll respond with enthusiasm. Take it to the extreme and it'll just want more. Nothing worries it, nothing scares it, nothing even makes it think twice. With ability this relentless, and the choice of three tough body styles (including the capacious 5-seater Double Cab), the Toyota Hilux has nothing to hold it back. And neither do you.

A reputation that's well renowned...

Toyota Hilux has endured some of the harshest environments in the world for almost forty years. First released in Japan in 1967, it soon became known globally for its resolute and uncompromising ability and reliability.

Every day, Hilux owners everywhere use their vehicle in the most extreme surroundings. Braving freezing weather in Alaska. Carrying cargo loads across the sand dunes of the Sahara. Negotiating rocky outcrops in the

remote Australian outback. They know, first-hand, that their Hilux can be depended on to climb that incline, cross that river, pull out of that mud. Little wonder, perhaps, that over 12,000,000 models have been sold worldwide.

With Hilux, Toyota's long-standing commitment to quality and durability culminates in a vehicle that millions of people trust on every type of terrain, in all kinds of conditions. And, sometimes, quite literally with their lives.

...and well deserved

As far as proving its worth, we didn't just rely on the Hilux's name and reputation for strength and durability. As part of the development programme for this model, we put it to the test in the most extreme conditions.

First of all, we gave it a durability test in South Africa, and we also included a high-altitude drive at 2,800 m (9,185 feet) for good measure. But that wasn't testing enough, so to really check out how the engine stood up where the oxygen is scarce, we took it to Peru and tried it 4,800 m (15,750 feet) up the Andes, where the oxygen levels are less than 50% of what they are at sea level, making most engines struggle due to insufficient air

intake. Still the Hilux didn't falter, so we sent it to spend 150 hours off-roading at high speed across some of the most unwelcoming terrain on earth in the Australian Outback. Again, the Hilux came through with flying colours. Then we really turned the heat up – literally – with a high temperature test at 47° in Dubai and once more the Hilux coped without a problem, even the air conditioning system, which kept the cabin cool and comfortable. In case your destination is nearer to home, we also tested the Hilux in Europe to make sure that it was just as suitable for the conditions here as it is at the four corners of the globe.

Unbreakable ability? With the Toyota Hilux, it's no empty claim.

Traditional leaf springs
Widened leaf springs on the rear suspension help maintain maximum loading capacity and articulation in tough terrain.

Coil spring double wishbone front suspension
Toyota's innovative double wishbone suspension provides excellent travel and bump absorption.

TOP frame
The Toyota Outstanding Performance platform is purposefully constructed to require fewer welding joints for maximum strength.

Engineered to cope with anything

The construction of Toyota Hilux is nothing short of rock solid. Built on a hardy ladder chassis, its high rigidity body can cope with any demands made of it. Its specially designed TOP frame (Toyota Outstanding Performance platform) contains strengthened cross-member joints for increased frame rigidity, adding to the all-round robustness that Hilux has become famous for.

Features like a double wishbone front suspension and the use of widened leaf springs mean, no matter what the payload, Hilux still gives outstanding straight-line stability, body control and balance. Hilux offers incredible durability, too – with the inclusion of anti-corrosion steel panels and a long-life, rust-resistant body.

Go anywhere. Off-road...

The unbreakable Toyota Hilux was born to venture off the beaten path. Its steady, shock-absorbing chassis enables even the roughest terrain to be negotiated with incredible stability, while power steering makes traversing any environment seem effortless.

In 4WD, Hilux can easily ascend steep angles and rough or slippery surface conditions need never stop it either. As for wading capability,

Hilux can take on waters up to 700 mm high, making it a truly all-terrain vehicle. D-4D 120 models offer a rear differential lock that allows the rear wheels to be driven with equal power distribution, eliminating wheel spin and instability.

D-4D 170 models use a limited slip differential that optimises torque balance between wheels and improves stability during cornering.

Wading depth
Hilux can take on waters up to 700 mm.

Clearance
Approach Angle 30°
Break over Angle 25°
Departure Angle 26°

...or on

Hilux is designed as much for on-road travel as it is for off. Take it on a trip through any town or city and you'll soon notice why. Aerodynamic styling and integral sound-reducing materials in the cabin make for a driving experience so quiet you'll almost need reminding you're in a pickup.

Hilux's meticulously engineered suspension results in optimised ride comfort in a pickup. Its rack-and-pinion-type steering system delivers a more responsive steering feel that's

ideal in an urban environment. The Toyota Hilux blends comfort and superior handling to create levels of car-like refinement that might make you forget you're driving a utility vehicle.

Transmission 5 M/T (2WD or 4WD)
Hilux is available with an ultra-smooth 5-speed manual transmission and the choice between 2WD and 4WD.

ADD
Hilux's Automatic Disconnecting Differential automatically disconnects power to the front wheels when switching from 4WD to 2WD while on the move, substantially increasing fuel efficiency. (HL₂ Extra Cab, HL₃ and Invincible grades only.)

4-speed automatic
The Hilux D-4D 170 engine is also available with a 4-speed automatic transmission.

Shift whatever you want

With a choice of two powerful, common-rail turbo diesel engines, the Toyota Hilux can tackle the most demanding of tasks.

The 3.0 litre D-4D 170 engine smoothly delivers an outstanding 343 Nm of torque over a wide power band of 1400–3400 rpm, ensuring responsive and refined acceleration in all gears whatever the cargo.

For the 2.5 litre D-4D 120 common-rail turbo diesel engine torque is an outstanding 325 Nm at 2000 rpm, making short work of even the heaviest loads. It can handle a braked trailer, for

example with a weight of 2250 kg, without the slightest strain.

Yet, despite this impressive performance, Hilux also delivers exceptionally clean emissions. With its common-rail technology, fuel efficiency is maximised while a precise multi-pilot injection system significantly reduces engine combustion noise.

Whatever you're carrying or pulling, you can count on the Hilux's robust chassis strength and torque to get the job done. And to stay the course when you need it the most.

2.5 D-4D 120
Hilux's D-4D 120 engine delivers an impressive 120 DIN hp and 325 Nm/2000 rpm.

3.0 D-4D 170
Hilux's 3.0 litre D-4D 170 engine offers maximum 171 DIN hp and torque of 343 Nm/1400–3400 rpm.

Hilux Double Cab. Room for four more

For the ultimate group outing, the Hilux Double Cab is the body style of choice. Five people can ride in it at the same time, with all occupants enjoying more than ample headroom and legroom in spacious surroundings.

The back seats tip up to reveal convenient storage compartments underneath, and rear doors open wide for easy access. Whatever your chosen activity, Hilux Double Cab frees you up to take whoever you want to go with you.

Whether for work or pleasure the Hilux Double Cab has space to seat five in comfort and with a maximum payload of 1060 kg and a deck length of 1520 mm, the Hilux Double Cab can easily accommodate practically anything you would like to carry.

←1520 mm→

Hilux Double Cab can take a maximum payload of 1060 kg and has a deck length of 1520 mm.

Hilux Extra Cab. A more flexible option

Not only is the Hilux Extra Cab unstoppable in its ability, but it offers maximum flexibility in who or what to carry.

If you need to take a couple of additional people along with you, the Extra Cab's rear seats are able to comfortably accommodate two passengers in the back. Cargo flexibility is optimal with a secure alarmed in cab storage area and an outstanding rear deck length of 1805 mm.

← 1805 mm →

Hilux Extra Cab can take a maximum payload of 1045 kg and has a deck length of 1805 mm.

Hilux Single Cab. A resilient worker

The Hilux Single Cab is for those who just want to get on with the job.

Unyielding, tough and uncompromising, it's the perfect business partner, no matter what your business is. It gives you a maximum load space of 1.58 cubic metres and a total payload of 1095 kg* ensuring nothing gets in the way of a solid, hard day's work.

* 4x2 Single Cab payload quoted.

Hilux Single Cab has a deck width of 1520 mm, deck length of 2315 mm and deck height of 450 mm.

Invincible grade interior shown with optional leather seats.

Mix business with pleasure

Step into the Toyota Hilux and it's difficult to believe you're not inside a spacious passenger car. The first thing you'll notice is the high standard of finish as well as seats furnished with a distinctly attractive cloth trim. Manual air conditioning and electrically powered windows and door locks help to add to the all-round car feel that's almost in contrast to Hilux's tough workhorse credentials.

Hilux's ergonomic centre console design also features an RDS radio CD player with MP3 CD-R compatibility on the HL₂ and HL₃ grades whilst Invincible features a touch screen full colour map navigation system with European coverage and electronic traffic avoidance feature.

Standard for all Hilux:

1. Power windows

The power windows have a one-touch down function on the driver's side.

2. Air conditioning

Manual air conditioning adds comfort to your driving experience.

3. Dashboard storage

Extra, handy space for items like wallets and keys.

HL3 grade interior shown.

1.

2.

3.

Luxury accommodation

Inside Hilux's cabin, you'll find car-like refinement almost unheard of in a hard-working utility vehicle. Dampening materials are integral to the cabin frame, keeping the sound of the engine to an absolute minimum and, on the outside, a raked windscreen and shaped outer door mirrors have been specially designed to reduce wind noise. The end result? A comfortably quiet driving experience that you'll savour every time you get behind the wheel.

The Hilux's interior is spacious, too, with plenty of room to spare. In the Hilux Double Cab, it's particularly noticeable as the rear seats can be tipped up in a second to provide instant cargo storage. Additional convenience features include wide opening doors and integral grab handles, granting easy access to both driver and passengers.

1. Increased rear seat width

In the Hilux Double Cab, rear seats come in a generous 480 mm width to ensure passenger comfort.

2. Underseat storage

Inside the Double Cab, convenient extra storage can be found thanks to the rear seat's easy-to-use tip up/recline function. Extra Cab also features rear underseat storage.

3. Door pockets

Large door pockets are able to accommodate bigger items and incorporate a bottle holder.

A strong protector

Toyota has always been committed to safety. So, in addition to the Hilux's tough, robust build, you'll also find a range of active and passive safety features as standard, with dual front airbags, ABS and halogen headlamps among them. Additionally, Hilux's Automatic Disconnecting Differential (available on HL₃ and Invincible) saves wear and tear on the forward axle by automatically disconnecting power to the front wheels when driving in 2WD mode.

All these tried-and-tested technology features combine with a vehicle that's engineered to withstand the toughest challenges imaginable. So whether you're going on the road or off, Toyota Hilux gives you all the reassurance you need.

ABS

Anti-locking Braking System (ABS) helps prevent wheels from locking up when braking on a slippery road by electronically balancing the braking force between all four wheels to match the level of grip of each one.

LSPV

Toyota's Load Sensing Proportioning Valve optimises braking performance in direct response to Hilux's payload, increasing rear-brake pressure when the vehicle is loaded.

Dual front airbags

For increased safety, Hilux is equipped with two SRS front airbags as standard. Left-hand drive vehicle shown for illustration purposes only.

Front disc brakes

Ventilated front disc brakes provide well-controlled, high-performance braking.

Halogen headlamps

Hilux's projector style headlamps deliver exceptional light patterns on dark roads, making night-time driving substantially safer.

Seat belts

Front and rear outer seat belts with three-point Emergency Locking Retractor (ELR) help reduce the risk of chest injuries in an accident.

GOA body structure

Hilux's occupants are protected by a class-leading Global Outstanding Assessment (GOA) body structure, designed to effectively absorb shocks and distribute impact forces throughout the whole frame at the same time in the event of collision.

Available in three tempting grades

HL₂D-4D 120

With the Hilux HL₂, you can really enjoy unbreakable ability in style. On the outside, there's a painted front bumper (Single Cab is material colour) and black rear step (for Single Cab and Extra Cab models), black door handles and mirrors, and steel wheels. Single Cab has useful lashing hooks on the outside of the load deck, whilst all HL₂ models have a cab protection guard/ladder rack.

Inside, the toughness continues, with a hard-wearing fabric trim and matching fascia throughout. To enhance your driving pleasure even further, Hilux HL₂ also offers manual air conditioning as standard for added comfort as well as a single MP3 CD radio system (4-speaker for Double Cab) to keep you entertained on any trip. The Hilux HL₂ – for wherever you're going.

HL₂ mirror
The door mirrors on the HL₂ grade are in practical black.

HL₂ front bumper
Robust styling adds to the Hilux's appeal.

Manual air conditioning
For added cabin comfort, manual air conditioning comes as standard.

15" steel wheel
The 4x2 HL₂ Hilux has 15" steel wheels as standard.

16" steel wheel
For the 4x4 HL₂ Single and Double Cab Hilux, 16" steel wheels are standard.

15" steel wheel
The 4x4 HL₂ Extra Cab has 15" steel wheels.

HL₃D-4D 120 and D-4D 170

The Hilux HL₃ gives that little bit more luxury on an already substantially refined vehicle. Aesthetically pleasing overfenders are standard, as is a radiator grille in the body colour along with plated-chrome moulding. Chrome door handles complement chrome electric mirrors, whilst a chrome rear step, alloy side steps, front fog lamps and chunky 15" alloy wheels complete the styling package.

As for the interior, the HL₃'s velour fabric matches the silver dashboard inserts beautifully. Power windows and manual air conditioning provide a little extra indulgence. And to keep you fully entertained, there's a 4-speaker, MP3 CD audio system with DSP sound processing and a Liveliness Enhancing Filter (LEF) for more powerful high and low tones. This will play either regular CDs or MP3 CD-Rs.

15" alloy wheel
The HL₃ grade is distinguished by its standard alloy wheels.

Chrome bumper
A chrome rear bumper is standard on the HL₃ and Invincible grades.

Chrome exterior mirror
The chrome door mirrors are electrically operated (HL₃ and Invincible grades).

Invincible image above shown with optional leather seats. Audio displayed is not UK specification.

If you choose the D-4D 170 engine you will also gain Optitron meters and a multi-information display. Cruise control is also a standard feature with automatic transmission.

Invincible D-4D 170

The Hilux Invincible is high on styling and tactile comfort. Quite simply, nothing compares. 15" metallic finish alloys, stainless steel side running bars, front fog lamps, Optitron displays and rear privacy glass make the exterior stand out dramatically. Full map touch screen navigation with a DVD database for Europe completes the premium feel, whilst the leather shift lever and steering wheel ensure you have all the necessary comforts.

The Hilux Invincible – rugged styling, practical luxury, unbreakable build.

Optitron dials
Attractive Optitron dials help to reduce eye strain whilst driving (D-4D 170 models).

Fog lamps
Front fog lamps are standard on the HL₃ and Invincible grades.

Power windows
The power windows have a one-touch down function on the driver's side.

Choice is no obstacle

With the Toyota Hilux, you can add your own personal touch. Take your pick from six colours and three interior trims.

Hilux Option packs

Satellite navigation

The remarkable TNS700 (standard on Invincible) is top of the Toyota navigation range. Available for HL2 and HL3 models, it has touch screen controls and provides directions in full-map graphics synchronised with precise voice commands.

It has full European coverage, route planning, storage for 100 favourite destinations and a memory packed with useful information. Plus it has Electronic Traffic Avoidance (ETA) to help you avoid traffic problems and delays on the route ahead.

Tailored leather interior

For the HL3 and Invincible you can choose a tailored leather interior including full leather seat facings, sides, backs and door panels.

The leather used for Toyota upholstery is carefully selected for quality. It complies with the toughest European standards so you can be sure of its comfort and durability, while also having the convenience of being able to simply wipe the surface clean to maintain the look of prestige and elegance.

All Option packs must be ordered at the time of purchasing the vehicle.

1.

2.

3.

4.

Sport deck

Sport deck offers the ultimate solution for those individuals wanting to incorporate practicality with design. The Mountain Top roll 'n' lock solution provides both security, through a robust locking system that locks the tailgate, and functionality, where the pickup bed can either be open for larger items or closed to protect valuable items.

Also included is the Mountain Top under rail inner bed liner, which has an anti-slip surface and will help to protect your vehicle from daily wear and tear.

The overall vehicle styling is complemented by the chromed stainless steel Hi-over Sports bar.

Suitable for the HL3 and Invincible, the Sport deck pack (as shown in image 1 above), includes:

1. Sport deck pack.
2. The Mountain Top under rail inner bed liner, which will provide a non-skid surface. It has a resistance to UV light, shock, oil and most chemicals.
3. The Mountain top roll 'n' lock which features auto-positioning and locking so that you can secure the cover in a partially or fully closed position, and...
4. The Hi-over Sports bar, which is made of stainless steel and has a bright chrome finish. It fixes just behind the cab to create a superb visual highlight. The Sports bar is fully compatible with the Mountain Top under rail bed liner and roll 'n' lock detailed above.

Drive Plans from Toyota Financial Services

We want to make acquiring and maintaining your Hilux as easy as driving one. Our range of Toyota Drive Plans has been designed specifically with this in mind, to offer you a choice of affordable ways to finance, service and maintain your new car. Above all, our plans offer flexibility, easy budgeting and peace of mind and can be arranged as a one-stop-shop when you select your Hilux.

As part of the Drive Plans range we have developed several customised schemes, based on specific customer requirements. These Drive Plans are:

Hire Purchase Drive Plans

A Hire Purchase Drive Plan provides an original, simple and effective finance package. This plan allows you to drive the car of your choice and spread the payments over an agreed period to suit you, with fixed monthly payments allowing for easy budgeting.

Lease Purchase Drive Plans

This is a product for business users that is

particularly useful for non-VAT-registered businesses as monthly charges are exempt from VAT. The initial capital outlay is reduced since the vehicle is given an anticipated future value, the payment of which is deferred to the end of the agreement. This allows for lower monthly payments that are fixed over the agreed period.

Business Drive

Business Drive offers the security of a fully maintained Contract Hire package, ideally suited for VAT registered businesses. The package offers a host of benefits including reduced capital outlay, all-inclusive monthly rentals and no depreciation, disposal or administration problems.

Flexible Finance

However, Drive Plans are about more than just these schemes. Whatever your needs, Toyota has a full range of finance options to offer you. Whether you're a private motorist or a business customer, just discuss your individual requirements with your Toyota Centre, who will be pleased to help you choose a Drive Plan to suit you.

Customer services

Club Toyota

When you buy a Toyota you automatically become a member of Club Toyota, for 12 months free of charge. This entitles you to take advantage of a host of benefits including free RAC Roadside Assistance in the UK and Europe, specially negotiated rates for travel insurance, plus exclusive offers and promotions through our quarterly customer magazine.

Toyota Drive Plans

Toyota Drive Plans make acquiring and maintaining your new car as easy as driving it. They offer a choice of affordable ways to help you finance your Toyota. They are structured to offer you flexibility, easy budgeting and peace of mind.

- Easy Start means you don't need to find a large deposit.
- Easy Care offers the complete reassurance of prepaid servicing.
- Easy Drive is a comprehensive plan which takes care of most of your motoring needs for two to three years with one monthly payment.
- Business Drive is a fully maintained contract hire package most suited to small business customers.

Whatever your personal preference, your Toyota Centre can tailor a Drive Plan to suit your needs perfectly. Or visit www.toyota.co.uk to find out about any current offers and use our web calculators to create a personal finance quotation. Driving a new car has never been so easy. Written quotations available on request. All agreements subject to status. Indemnities may be required.

Toyota Motor Insurance

Toyota Motor Insurance is available for Toyota owners at competitive premiums. To obtain details of the benefits included and to arrange a quotation, please contact your local Toyota Centre or call 0800 350 500.

Please refer to www.toyota.co.uk for further environmental information.

Finance subject to status to over 18s. Indemnities may be required. Toyota Financial Services is authorised and regulated by the Financial Services Authority.

Whilst every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. This e-brochure cannot be regarded as infallible (some of the vehicles shown may not be to exact UK specification), and as such does not constitute an offer for sale of any particular vehicle or specification. Fuel consumption values quoted throughout this brochure are determined according to EC Directive 1999/100/EC. The results do not express or imply any guarantee of actual fuel consumption. For the latest specification and availability we ask that you contact your local Toyota Centre.

Toyota Fleet

Toyota Fleet provides complete business solutions for companies that run a fleet of vehicles. For more information on how Toyota Fleet can deliver your fleet requirements either contact your local Toyota Centre or the Toyota Fleet Business Centre on 0845 271 2712.

Toyota Warranties

Every new Toyota comes with a three-year/60,000-mile manufacturer's warranty, covering your car against the unlikely event of a manufacturing defect causing a mechanical fault. It includes coverage for paint and surface rust for three years, unlimited mileage and a 12-year anti-perforation warranty. After the initial warranty period has ended, you can extend your warranty until the vehicle is seven years old – choosing from a range of packages to suit your vehicle and your needs. All of our warranties cover the main component parts of the vehicle*, meaning that you pay for nothing beyond routine servicing and maintenance, so there are no unexpected bills to pay.

Toyota Accident Assistance

Toyota provides a comprehensive accident management service to all Toyota drivers, giving advice, assistance and practical help free of charge in the event of an emergency.

Toyota Approved Used Car Scheme

All Toyota Approved Used vehicles come complete with a delivery pre-check, a mileage check, 12 months' Club Toyota membership[§] and a 30-day vehicle exchange agreement.

Toyota End-Of-Life Vehicles

The legislation on End-Of-Life Vehicles offers Toyota drivers a new and innovative way of returning their old vehicle to the producer. For more information about End-Of-Life Vehicles please refer to www.toyota.co.uk/environment

* With the exception of batteries, corrosion of exhaust, and damage or wear to the interior.

§ Except on non-Toyota vehicles.

Hilux carries complete peace of mind, too

Hilux has been engineered to give a great driving experience, regardless of the conditions. But the ownership experience is made even more rewarding through the peace of mind afforded by Toyota's global reputation for quality and integrity.

Hilux provides an exhilarating driving experience. And an outstanding ownership experience. Toyota's global reputation for quality and integrity means Hilux can add peace of mind to its list of attributes.

Car recycling

Taking care of the environment is a priority for Toyota. We're making a huge effort to ensure that during the life-cycle of our vehicles – from design, production, distribution, sales and service to end-of-life – their environmental impact is minimised. You can find detailed information on Toyota's environmental performance at www.toyota.co.uk/environment

Intelligent design

The Hilux is designed and engineered to minimise the maintenance overhead. There are fewer parts that require servicing and those that do are inherently durable to extend service intervals. Equally important is that Hilux technology is made easily accessible so that maintenance labour time can be minimised. These features combine with the highly competitive pricing of Toyota spares to ensure the lowest cost of maintaining your Hilux in an ideal working condition.

Toyota quality service

Your Toyota retailer will talk you through the Hilux 'Health and Safety' maintenance programme. The programme is very straightforward and designed for your convenience. In effect, your Hilux needs a full Health and Safety check, dependent on driving style and conditions, up to once every two years or 20,000 miles (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 10,000 miles.

Toyota warranties

We are confident that every Hilux is so well built that each car comes with a three-year or 60,000 mile vehicle warranty covering any mechanical failure. In addition, the paintwork, no matter which colour you choose, is also guaranteed against imperfections for three years (one year for the deck panel). Finally, the body as a whole is guaranteed for six years against corrosion perforation (three years for the deck panel).

Toyota genuine parts

The Hilux is designed to minimise the cost of accident repair. Energy-absorbing elements are built into the bumpers, expensive-to-replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low part and labour charges.

Added security

The Hilux's security system withstands the insurance industry's rigorous five-minute attack test and provides excellent protection. Both the alarm system and engine immobiliser are approved by Europe's major insurance companies.

Toyota accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort or practicality. And because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a three-year warranty*.

* Check with your Retailer for specific warranty details.

Using the navigation bar

A navigation bar is provided at the bottom of each page of this e-brochure to make browsing it easy. Please follow the simple instructions on the right to navigate through this e-brochure.

Takes the document back to the beginning.

This will take the document to the previous page.

This will take the document to the next page.

This will allow the Acrobat toolbar to be visible if pressed once and it will also make it disappear if already visible.

This will zoom in on the document so smaller text etc will be easier to read. To zoom in further, click the icon again. If the menu bar is not visible then use your mouse by clicking the left hand button and moving it.

This will zoom out of the document. To zoom out further, click the icon again. If the menu bar is not visible then use your mouse by clicking the left hand button and moving it.

This will print out the full brochure to your printer. Please note that if you have a colour printer this document will print in full colour.

This will save the whole document to your computer.

To close this document press esc and then close the document normally.

Whilst every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. This e-brochure can not be regarded as infallible, (some of the vehicles shown may not be to exact UK specification), and as such does not constitute an offer for sale of any particular vehicle of specification. For the latest specification and availability we ask that you contact your local Toyota Centre.
