The Tiguan

Model shown is Tiguan SE with optional 18" 'Sierra' alloy wheels, DVD touch-screen navigation/radio system and pearl effect paint and Tiguan Escape.

**The city is
your playground.**

Model shown is Tiguan Sport with optional Bi-Xenon headlights and pearl effect paint.

Model shown is Tiguan Escape.

Exterior design.

Whether the town is your terrain or the great outdoors, the Tiguan offers two ways to express your independence. For those wishing to stay within the urban jungle, there's a choice of three different models – the Tiguan S, SE and Sport – each displaying an elegant on-road front design with an 18° angle of approach. For those looking to explore off the beaten track, the Tiguan Escape is designed to conquer off-road landscape with ease. A 28° angle of approach and corresponding underbody protection means it knows no limits, providing the ultimate in exhilaration and excitement.

Urban warrior or off-road adventurer, there's a Tiguan for you.

The stylish on-road front end of the Tiguan S, SE and Sport with an 18° angle of approach gives a dynamic air, even when standing still, while the addition of the gleaming chrome radiator grille surround and louvres radiate elegance and sportiness. Meanwhile, the off-road design with a 28° angle of approach and sturdy underbody protection ensures the Tiguan Escape takes obstacles in its stride, while its powerful front end gives it a rugged look.

Sleek black roof rails complete the spirited on- and off-road design of the Tiguan S and Escape perfectly, while chrome-plated roof rails are subtle yet stylish on SE and Sport models. The rounded in-set headlights, innovative design and confident lines give even greater elegance to its appearance. The Sport and Escape's front fog lights not only improve safety in the event of poor visibility, but also provide a sporty finish, enhancing the Tiguan's overall image, while its stylish rear light clusters enhance the rear body lines and ensure the Tiguan leaves you with a lasting impression.

Interior design.

If you've been impressed by the sleek exterior of the Tiguan, you'll find the interior nothing short of amazing. In fact, its compact dimensions hide an exceptionally spacious interior. With a range of highest quality durable cloth upholsteries, 'Soft silver' decorative inserts, a clearly defined sense of style and an ergonomic design, optimum levels of comfort, refinement and flexibility are guaranteed.

The adaptable interior layout allows impressive flexibility in terms of legroom or luggage capacity, while the countless storage solutions in the roof console, doors, luggage compartment and beneath the front seats on SE, Sport and Escape models, make storing those essential items easy. So whether you're looking to transport friends, kids, luggage or otherwise, you'll find all the space you could ask for in the Tiguan. Giving you all the freedom you need to live your life to the full.

Interior shown is Tiguan Escape with optional 'Vienna' leather upholstery, 2Zone electronic climate control, Park Assist and panoramic sunroof.

As adaptable
as your lifestyle
demands.

If you're the kind of person that likes to be spontaneous, the Tiguan is a dream come true. Because whatever you want to do, it has the flexibility to provide the seating or stowage arrangements you require. The amazingly adaptable interior is fitted with sliding and reclining rear seats that split 60:40, enabling either side to be moved backwards or forwards independently of each other. This gives you the option of increasing boot capacity or providing your rear seat passengers with more legroom. The backs of the rear seats can also be folded down, as can the back of the front passenger seat on SE models and above, giving you valuable extra stowage space, useful for carrying longer items. Combined with the variable boot capacity, this gives you a massive loading volume of up to 1,510 litres. And it goes without saying that smaller items can be stowed without any problem – the ergonomically designed storage areas offer plenty of extra space. All of which means there's very little you won't find room for in the Tiguan.

Images shown are to illustrate seating combinations only and may not necessarily reflect UK specification.

Interior shown is Tiguan S with optional Convenience pack, carpet mats and metallic paint.

The Tiguan S.

Impressive specification and attention to detail combine in the Tiguan S, providing a level of comfort, versatility and functionality suitable for any needs. Fitted as standard are features such as 'Climatic' semi-automatic air conditioning, front and rear electric windows, electrically heated and adjustable door mirrors and remote central locking. An RCD 310 radio/MP3 compatible CD player with eight speakers and AUX-in socket for connection to an external multimedia source (e.g. iPod and MP3 player) and alarm with interior protection are welcome additions, while speed sensitive power-assisted steering and height and reach adjustable steering wheel and height adjustable driver's seat help you achieve the optimum driving position.

The extensive comfort and convenience enjoyed in the Tiguan is completed with an electronic parking brake featuring an auto hold function, and a multifunction computer (Midline), which provides useful statistics about your journey, including exterior temperature, average and current fuel consumption, average speed and estimated distance to refuelling. Durable 'Metropolis' cloth upholstery and 'Steel finish' interior door handles and air vent surrounds complete the interior.

The high interior specification of the Tiguan S clearly extends to the stylish exterior – 16 inch 'Cairo' alloy wheels, a side and rear protection pack, including wheel arch protection and an 18° front module (a figure that defines the angle of slope the Tiguan can traverse), chrome trimmed radiator grille surround and louvres, and black roof rails confirm this, whilst body-coloured front bumper, door handles and door mirrors complete its impressive appearance. If you haven't already gathered, the Tiguan S offers so much, it has to be seen to be appreciated.

Comfortable: 'Climatic' air conditioning with semi-automatic control provides a pleasant, consistent temperature all year round.

The Tiguan SE.

Dynamic: The RCD 510 touch-screen radio/dash-mounted MP3 compatible six CD autochanger with eight speakers and AUX-in socket for connection to an external multimedia source e.g. iPod and MP3 player.

For those seeking an extra touch of luxury, the Tiguan SE more than delivers. In fact, from the minute you see the 17 inch 'Sahara' alloy wheels, heat insulating tinted glass from the B pillar back, chrome-plated roof rails and chrome trimmed side window surrounds, you'll know it's really something special. Stylish 'Energy' cloth upholstery, 'Soft silver' decorative inserts and a leather-trimmed three-spoke steering wheel and gear knob create an interior that is as sumptuous as it is stylish, while front comfort seats with height and lumbar adjustment ensure the most comfortable seating positions on every journey. The RCD 510 touch-screen radio/dash-mounted MP3 compatible six CD autochanger with eight speakers adds even greater pleasure to your trip and there is also an AUX-in socket for connection to an external multimedia source such as an iPod or MP3 player.

With useful extras including a flat tyre indicator, front centre armrest with storage compartment, folding tables on the back of the front seats, front under seat drawers and a front passenger seat that folds flat to allow transportation of longer items, the Tiguan SE offers a multitude of solutions to ensure you're completely comfortable and contented.

Interior shown is Tiguan SE with optional metallic paint.

Interior shown is Tiguan Sport with optional metallic paint.

The Tiguan Sport.

Even before you step inside, the Tiguan Sport's dynamic front end with front fog lights and 18 inch 'Sierra' alloy wheels will get your heart pounding. Stylish, exciting and fun, the sports suspension, front sports seats with height and lumbar adjustment, carpet mats and subtle 'Visible' cloth upholstery only add to the anticipation, setting your pulse racing before you even turn the ignition. This is one car that goes the extra mile, not only in terms of aesthetics but also advanced features and superior specification. Such as the automatic coming/leaving home lighting function, front footwell illumination, rain sensor and automatically dimming interior rear-view mirror. Or the dusk sensor which automatically activates the headlights when driving at night-time or in other low light situations.

It is extras such as these that make all the difference. Add to that a multifunction computer (Midline) providing essential information while you drive and the RCD 510 touch-screen radio/dash-mounted MP3 compatible six CD autochanger with eight speakers providing incredible acoustics. For even greater pleasure, it has an AUX-in socket for connection to an external multimedia source such as an iPod or MP3 player so you can see why the Tiguan Sport is such a formidable package.

Sporty: Black wheel arch protection and 18" 'Sierra' alloy wheels emphasise the dynamic lines of the Tiguan Sport.

The Tiguan Escape.

Expressive: 17" 'Tunis' alloy wheels underscore the powerful image of the Tiguan Escape.

Control: The off-road mode includes hill descent assist and ABS adjusted to suit loose ground.

It's not by chance the Tiguan Escape got its name. With the capability to tackle nearly any terrain, this is exactly what it enables you to do. Explore uncharted territory and escape into the great unknown, all in the highest levels of luxury and comfort. The off-road design of the Escape is distinct from the S, SE and Sport models, with a front 28° module allowing it to traverse a larger angle of approach (from a horizontal surface to a gradient), while underbody protection at the front protects against ground contact. Front fog lights, 17 inch 'Tunis' alloy wheels, protective side bump strips, chrome trimmed radiator grille surround and louvres, and black roof rails, all add a real sense of style.

Despite its rugged exterior, the interior is the epitome of comfort, with carpet mats, contemporary 'Energy' cloth upholstery, 'Soft silver' decorative inserts and a leather trimmed three-spoke steering wheel and gear knob providing a luxurious feel. The RCD 510 touch-screen radio/dash-mounted MP3 compatible six CD autochanger with eight speakers including an AUX-in socket for connection to an external multimedia source such as an iPod or MP3 player provide entertainment on any journey, while front comfort seats with height and lumbar adjustment contribute to a unique driving experience. Practical extras include a flat tyre indicator, a foldable front passenger seat backrest, folding tables on the back of the front seats, and front under seat drawers, but it is the intelligent off-road setting and compass on the multifunction computer display that really impress. The off-road setting, including hill descent assist provides easier control when driving down steep gradients, while the compass will always keep you on track where there aren't any roads. All this at the touch of a button really does enable you to follow your dreams and discover what freedom really means.

Interior shown is Tiguan Escape with optional metallic paint.

4MOTION: Fitted as standard, Volkswagen's sophisticated four wheel drive system, distributes engine power to all four wheels wherever needed, ensuring greater agility, better manoeuvrability and optimum safety.

Safety.

The well-designed airbag system consists of driver's and front passenger's airbags with passenger airbag deactivation switch, side impact airbags and a curtain airbag system to help protect the front and rear seat occupants in the event of an accident. When the airbag is deployed, doors are also unlocked, hazard lights and interior lights activated and the fuel pump deactivated. As a result of this intelligent airbag system, extremely strong bodywork structure and countless other safety features, the Tiguan has been awarded the maximum five stars for passenger protection in the Euro NCAP Crash-test. The Tiguan also comes with a rigid safety cell made from high strength sheet metal, bound together using laser welding techniques, resulting in extremely strong and safe joints, energy absorbing crumple zones and optimum protection for occupants even under the most severe collision conditions. Isofix child seat preparation allows the safe attachment of two child seats to the rear of the Tiguan, and additional 'top tether' securing points are also provided on the reverse sides of the rear backrests, while head restraints and three-point seat belts are provided for all five occupants, including seat belt tensioners for the driver and front passenger.

Airbags: All Tiguan models feature no less than six individual airbags as standard, an optional rear side airbag system can also be specified to help further protect rear seat passengers.

Flat tyre indicator: In the event of a change in air pressure in any one of the four tyres, a warning symbol appears in the multifunction display, advising the driver to rectify the situation. Standard on SE, Sport and Escape models. When optional alloys are specified, the flat tyre indicator comes as standard.

ABS: The Anti-lock Braking System (ABS) together with BAS (Brake Assist System) and EBD (Electronic Brake-pressure Distribution) helps to deliver exceptional handling and braking.

Electronic Stabilisation Programme: This sensor-controlled system detects critical situations at an early stage and takes action, for example, by specifically braking individual wheels helping to bring the vehicle under control. So whether it's a tight bend or loose road surface, ESP will help you stay safely on course. Though such innovative systems are highly effective, it's worth remembering that they cannot dispense with the laws of physics.

Takes every challenge in its stride.

Taking new pathways, pushing back boundaries, going beyond limits. For some people, this is just talk. But drive the Tiguan and, thanks to 4MOTION permanent four wheel drive, this is reality. Fitted as standard, Volkswagen's sophisticated four wheel drive system distributes engine power to all four wheels wherever needed, ensuring greater agility, better manoeuvrability and optimum safety, not to mention pure driving enjoyment. Electronic Differential Lock (EDL) further enhances capability, enabling you to drive with the greatest of ease, whatever the road surface.

The Tiguan Escape offers particularly impressive off-road capabilities, as its distinctive off-road front design suggests. With a 28° angle of approach and underbody protection, it takes steep angles in its stride and readily tackles all types of terrain, enabling you to explore off the beaten track. The off-road setting offers additional help by activating an integrated group of assistance systems that enhance the control of the Tiguan Escape during off-road driving. As part of this, the hill descent assist provides easier control when driving down steep gradients by actively braking all four wheels using the ESP (Electronic Stabilisation Programme) hydraulics. The electronic parking brake – with auto hold function prevents you from rolling back on hill starts, while the accelerator pedal and ABS system have been specially optimised for off-road use. So, drive the Tiguan and you really will get to the places others cannot reach.

The off-road setting, includes hill descent assist and ABS adjusted to suit loose ground, enabling the Tiguan to manage difficult terrain at the press of a button. Standard on Escape and optional on all other models.

Model shown is Tiguan Escape.

Model shown is Tiguan Sport with optional Bi-Xenon headlights, panoramic sunroof and pearl effect paint.

Optional equipment.

It's good to see life from a different angle. And in the Tiguan you can do just that. Quite literally, thanks to the optional panoramic electric glass sliding sunroof, providing an extra dimension of light and space. Offering an uninterrupted view of the sky above, it enables you to enjoy the freedom and fresh air previously experienced only in a convertible. The panoramic sliding roof is three times the size of a traditional sliding roof, while the integrated electric blind ensures protection from light and heat. Optional on all models.

Heat insulating tinted glass from the B pillar back is 65% light absorbing, reducing exposure to the sun's rays and gives a sporty look. Standard on SE and Sport and optional on S and Escape models.

The 2Zone electronic climate control maintains a constant preset temperature, providing separately controllable air conditioning for the driver and front passenger, practically without a draught. The automatic air recirculation mode also ensures that passengers are automatically protected from any unpleasant odours. Optional on all models.

Gas discharge (Bi-Xenon) headlights produce a clearer, brighter light for both dipped and main beam, with the added convenience of headlight washers to help keep them free from dirt. The Advanced Front Lighting System (AFS) features dynamic curve lighting which provides better illumination of the road ahead when cornering. Optional on all models.

Exclusive 'Vienna' leather upholstery enhances the Tiguan's already distinctive look. The front seats are electrically heated with five preset temperature settings and also feature electric 12-way adjustment and lumbar support for the driver's seat. For added convenience this option also includes heated windscreen washer jets. Optional on all models.

The multifunction leather steering wheel enables you to control the radio and multifunction computer without taking your hands off the wheel, thanks to the intuitively positioned buttons. Optional on all models.

Optional equipment (continued).

The Tiguan features Volkswagen's latest generation touch-screen navigation/radio system. This new DVD based navigation unit not only delivers excellent sound quality but can also guide you effortlessly to your destination. A 6½" high resolution, touch-screen colour display shows a perspective (bird's-eye) view of your mapped route, in addition, traffic information (TMC) enabled, landmarks, intersection zoom, points of interest and a route list can all be viewed. As well as featuring the latest in processor technology, resulting in quick route calculations using all but the last two digits of a UK postcode, this sophisticated system features a 30 GB hard drive to buffer the navigation data as well as store the driver's favourite audio and video files (i.e. MP3, WMA, DVD video data files), the integrated DVD drive and SD (Secure Digital) card reader also allow the playback of such video files when the vehicle is stationary. Completing the multimedia experience is the ability to connect an external multimedia device (e.g. iPod and MP3 player) via the AUX-in socket. This option also includes a rear-view camera which allows you to judge distances and view obstacles obscured from view behind your vehicle via the high resolution screen of the DVD navigation/radio system. For hours of uninterrupted listening pleasure you can also specify an armrest-mounted six CD autochanger. DVD touch-screen satellite navigation systems may not be available in conjunction with certain options, please consult your Volkswagen retailer for full details. Optional on all models.

Cruise control can be set at speeds of over 19 mph to maintain a constant speed. Once set to the speed limit, all your concentration can be focused on the road ahead creating a more relaxed drive. Optional on all models.

Also available, but not shown. Another option for your RCD 310 or RCD 510 is a DAB digital radio receiver, enabling you to listen to all the digital stations available in crystal clear digital sound. Optional on all models.

The Winter pack includes heated front seats with five preset temperature settings and heated windscreen washer jets, ensuring you are fully prepared to face any cold spell. Optional on all models.

The innovative rear-view camera, part of the optional DVD touch-screen navigation/radio system, provides additional help by displaying a clear view of the area behind your vehicle via the high resolution screen. Optional on all models.

The 'Park Assist' system helps you parallel park with the greatest of ease. While driving past with the appropriate indicator on, at speeds up to 19 mph, ultrasonic sensors detect a suitable parking space and you will be informed via the multifunction display.

As you select reverse gear, the parking guidance assistant automatically takes over the steering, you use the clutch, brake and accelerator to ease into the space. Audible parking sensors notify you of your distance to obstacles both in front and behind you while an optical display, via the vehicle's audio system, will combine to assist you when to stop. Optional on all models.

Model shown is Tiguan Sport with optional Bi-Xenon headlights, panoramic sunroof and pearl effect paint.

'Tunis' design 7J x 17 alloy wheels with 235/55 R17 tyres. Standard on Escape and optional on S models. ▼

'Cairo' design 6½J x 16 alloy wheels with 205/55 R16 tyres. Standard on S models. ▲

'Sahara' design 7J x 17 alloy wheels with 235/55 R17 tyres. Standard on SE models. ▼

'Sierra' design 7J x 18 alloy wheels with 235/50 R18 tyres. Standard on Sport and optional on all other models. ►

Whichever Tiguan model you've selected, here's your chance to individualise its aesthetics and create an even sportier look that will turn heads and demand attention. Adding alloys can radically change the appearance of your vehicle – choose from 16" to 18" wheels, each in an eye-catching design.

Engines.

There is no holding back the Tiguan. Five dynamic engines transmit optimum power, all of which are assisted by the sporty six speed manual or, you may prefer the option of a modern six speed automatic tiptronic transmission. Combined with Volkswagen's 4MOTION four wheel drive system, it's enough to get your pulse racing and your adrenalin flowing on every journey.

Thanks to TSI technology, the 1.4 litre petrol engine generates an impressive 150 PS and has excellent pulling power. With 240 Nm of torque, it delivers uncompromising driving enjoyment, even on short stretches. This technology is also incorporated into two further petrol engines which power the Tiguan. Firstly, a 2.0 litre generating 170 PS, an engine capable of an impressive 31.7 mpg on the Combined fuel cycle, whilst achieving a top speed of 125 mph where the law permits. The most powerful engine for the Tiguan is the turbocharged 2.0 litre TSI petrol engine offering an exhilarating 200 PS. This engine can take the Tiguan from standstill to 62 mph in an impressive 7.9 seconds, on its way to a top speed of 130 mph where the law permits. Two 2.0 litre TDI engines offer everything you would expect and more, with new common rail technology being introduced for the first time in these engines, helping to noticeably reduce engine noise levels, fuel consumption and CO₂ emissions. Delivering a very healthy 140 PS with 320 Nm or the 170 PS unit achieving a massive 350 Nm of torque, both are fitted as standard with a Diesel Particulate Filter (DPF), which filters out exhaust gas particles, preventing them from entering the atmosphere and helping it already meet the requirements of the Euro 5 standards due to come into force in 2009.

Powerful and economical, these are engines that let you enjoy life without the worry of being left behind. Now, there's nothing to stop you putting your foot down and really taking off.

Gearboxes.

The Tiguan has everything you need to get off to a flying start. Whether you opt for the sporty six speed manual or six speed automatic tiptronic transmission, both have been individually optimised for the Tiguan and, in conjunction with 4MOTION four wheel drive, provide a stability characterised by outstanding traction and optimum drive comfort.

Powerful drive: Whether you select six speed manual or six speed automatic tiptronic transmission, both gearboxes are perfectly tuned to the Tiguan engines, guaranteeing the ultimate in dynamics and traction.

S, SE – 1.4 litre TSI 4MOTION 150 PS. Technical specification.

		Manual	
Engine	Engine type	Four cylinder petrol	
	Cubic capacity, ltrs/cc	1.4/1390

	Emission class	EURO 4	
Noise, dB	74.0		

Notes.

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. Vehicle unladen weight ranges with 90% tank capacity without driver. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of Super plus unleaded. In order to achieve maximum fuel consumption benefits on the TSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05) The use of RME and FAME (bio diesel) is not possible.
- 06) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 07) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

SE – 2.0 litre TSI 4MOTION 170 PS.

	Emission class	EURO 4	EURO 4
Noise, dB	73.0	71.0	

Notes.

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. Vehicle unladen weight ranges with 90% tank capacity without driver. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of Super plus unleaded. In order to achieve maximum fuel consumption benefits on the TSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05) The use of RME and FAME (bio diesel) is not possible.
- 06) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 07) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

S, SE, Sport, Escape – 2.0 litre TDI 4MOTION 140 PS. Technical specification.

The technology.

Engines

- Front transversely-mounted engine
- 1.4 litre/150 PS ⁽⁰¹⁾ (110 kW) petrol engine. TSI engine with dual-charging, double injection catalytic converter heating, turbocharger with waste gate, additional mechanical supercharger, intercooler, maintenance free timing chain, continuous inlet camshaft timing adjustment, grey cast iron cylinder block, steel crankshaft, duo-centric oil pump, dual-circuit cooling system, fuel system regulated according to requirements, high pressure fuel pump with a delivery pressure of up to 150 bar, four valves per cylinder. The 1.4 TSI engine is the first to use a combination of supercharger and turbocharger. That means the engine is charged by a supercharger in addition to the turbocharger depending on the torque requirements.
- 2.0 litre/170 PS ⁽⁰¹⁾ (125 kW) petrol engine. TBA
- 2.0 litre/200 PS ⁽⁰¹⁾ (147 kW) petrol engine. Four cylinder in-line engine, aluminium cylinder head, four valves per cylinder with roller rocker finger valve drive, electronic direct injection, variable inlet valve timing, programmed ignition with cylinder-selective anti-knock control, four single spark ignition coils, longlife spark plugs, exhaust gas turbocharger, three-way close-coupled pre-catalyst and underbody catalyst, lambda control
- 2.0 litre/140 PS ⁽⁰¹⁾ (103 kW) Common rail diesel engine. EU4 emissions standard (EU5 compliant), four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)
- 2.0 litre/170 PS ⁽⁰¹⁾ (125 kW) Common rail diesel engine. EU4 emissions standard (EU5 compliant), four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)

Transmission

- Four wheel drive
- Six speed manual gearbox: all models
- Six speed auto tiptronic gearbox: 2.0 litre TSI 4MOTION 170 PS, 2.0 litre TSI 4MOTION 200 PS, 2.0 litre TDI 4MOTION 140 PS

Running gear

- Front suspension: McPherson strut, one-piece aluminium subframe, decoupled spring and shock absorber mounting, anti-roll bar
- Rear suspension: multilink, anti-roll bar
- ESP (Electronic Stabilisation Programme) – includes EDL (Electronic Differential Lock) and ASR (Traction Control)

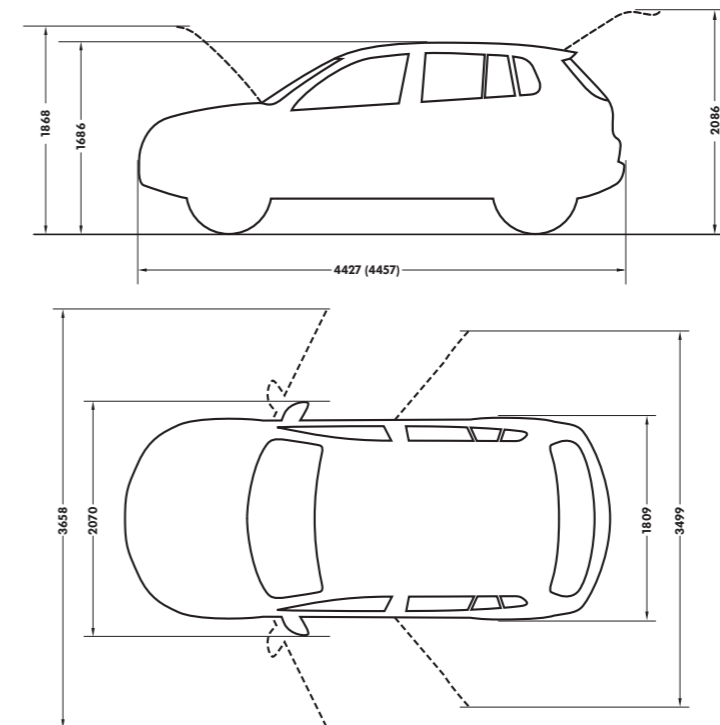

Steering

- Maintenance-free rack and pinion steering rack with speed related, electronically controlled servo assistance
- Height and reach adjustable and collapsible safety steering column

Dimensions.

Exterior dimensions	Length, mm (Escape)	4427 (4457)
	Width – excluding door mirrors, mm	1809
	Width – opened front/rear doors, mm	3658/3499
	Height, mm	1686
	Height – opened bonnet/floor, mm	1868
	Height – opened tailgate/floor, mm	2086
	Wheelbase, mm	2604

⁽⁰¹⁾ The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.

Volkswagen service for your peace of mind.

The Volkswagen Warranty.

Three-year Warranty.

All Volkswagen Tiguan come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen retailer or repairer; however, this additional warranty must be purchased before the mileage reaches 60,000*. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

* All warranty work must be completed by an authorised Volkswagen retailer or repairer.

Three-year Paint Warranty.

The paintwork of the Tiguan is covered against manufacturing defects for a period of three years. Naturally, the Tiguan must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

12-year Body Protection Warranty.

The internal body sections and panels of the Tiguan are covered against rusting through from the inside for 12 years. Naturally, the Tiguan must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

Approved Accessories.

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen Approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Service Intervals.

Volkswagen are pleased to offer you a choice on how your Tiguan is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Time and Distance Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Time and Distance Service are as follows:

- Oil change service
Every 10,000 miles/1 year (whichever is soonest).
- Interval service
Every 20,000 miles/2 years (whichever is soonest).
- Inspection service
Every 40,000 miles/3 years (whichever is soonest).

The LongLife Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

With the LongLife Service the vehicle can cover anywhere between 10,000[†] and a maximum of 18,000[†] miles or 24 months (whichever is soonest) between oil changes. Inspection service is typically in the third year of ownership and thereafter every second year, for vehicles with an approximate annual mileage of 10,000 miles.

[†] Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement. Please consult your authorised Volkswagen retailer or repairer for advice and full details.

Extended Warranty.

You may purchase additional protection from your authorised Volkswagen retailer or repairer, or contact 0870 9000 115.

Volkswagen Finance[‡].

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options.

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Volkswagen Finance products you can choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs.

No matter what finance product you choose, your local Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

[‡] Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

Volkswagen Insurance[±].

Competitive and comprehensive motor insurance designed especially for Volkswagen drivers. All new and Approved Used Volkswagens come with complimentary seven-day cover upon request – we'll e-mail a cover note straight to your retailer, enabling them to tax your car easily. This way, you can drive straight out of the showroom. Taking out annual cover is easy and it can start when the seven-day cover expires. For more information contact your local Volkswagen retailer or call 0800 051 3136.

[±] Volkswagen Insurance is underwritten and administered by Zurich Insurance Company. Volkswagen Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited which is an appointed representative of Volkswagen Financial Services (UK) Limited. Zurich Insurance Company and Volkswagen Financial Services (UK) Limited are both authorised and regulated by the Financial Services Authority.

Volkswagen Roadside Assistance.

Every new car is registered for Volkswagen Roadside Assistance for one year. This provides vehicle home and roadside recovery in the unlikely event of a breakdown in the UK and Europe (subject to conditions). Volkswagen Roadside Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer or repairer.

Tax Free Sales.

For full details, please contact your authorised Volkswagen retailer.

CO₂ Emission.

Increased weight of a vehicle, including higher trim levels and the addition of options will have a detrimental influence on the level of fuel consumption and CO₂ emissions produced.

The CO₂ and fuel consumption figures are obtained from tests on a representative vehicle of the type, conducted and approved in accordance with Council Directive 80/1268/EEC as amended by Directive 1999/100/EC (or later) on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

Please Note:

Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.

Note: We would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet Ofcom regulations.
