## Toyota Verso How Verso are you?

If you enjoy the many strands that make up the diverse fabric of contemporary living, you're already well acquainted with the new Verso concept. It's all about being smart, innovative and versatile. Verso is all of these things... and more. With its athletic design and ingenious modularity, it combines dynamic looks and class-leading safety with comfortable, flexible seating for up to seven people, enabling you to live life to the full.

## Why compromise?

An uncompromising approach to life requires intelligent thinking and an outstanding talent for organisation. That's exactly what the new Verso delivers. With the unique modularity and ease of operation of its Toyota Easy Flat-7 seat system, it offers a multitude of passenger and load carrying possibilities.

## A design that blends style with versatility

It's not only Verso's ingenious flexibility that makes it a perfect fit for busy, modern lifestyles. Its sharp lines and smooth curves make it as good to look at as it is to drive. Robust, athletic and aerodynamic, Verso's design delivers elegance and intelligence in equal measure.

## It's all a matter of intelligent organisation

**Driver ergonomics in the Verso have been intelligently thought through – everything you need to see or touch is exactly where you need it to be.**

The cockpit has a refined, modern feel. The three-spoke sports steering wheel is four-way adjustable; controls and switches are positioned for optimum ease of use. Premium quality textures and materials create a high technology atmosphere.

Optitron displays make the instruments easy to read; aqua-green illumination enhances instrument visibility further. There's a high quality audio system with CD player; and a state-of-the-art In-Car Entertainment (ICE) system (standard on T Spirit and T180) with twin DVD screens in the rear of the front headrests. Convenience features include a

storage box in the centre console and a cup holder positioned in the console itself. When you're driving at night, an electrochromatic anti-glare rear view mirror (available on T Spirit and T180) ensures you are less dazzled by the headlights of vehicles behind you.

*Image shows optional full colour map satellite navigation.*

## Innovation on display

**Up-to-the-minute technology has been built-in to make every journey in the Verso easier, safer and more enjoyable.**

The Cornering Assist Monitor, which is part of the full map satellite navigation system\*, makes it easier to pull out of junctions where you don't have a clear view of the intersection you are joining. A 'prism lens' camera outside the car transmits images of the road ahead – 20 metres in both directions – onto the centre console display screen.

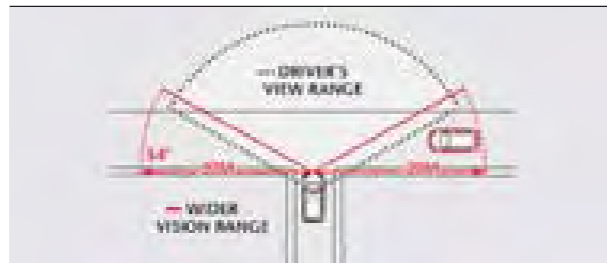

The full map satellite navigation\* makes getting to even the most remote destinations a straightforward affair. Just key in your destination on the touch screen and the system provides audio and visual directions in a choice of eight languages. The system incorporates Road Data System (RDS) traffic information and has a range of settings to suit your exact needs.

The Rear View Monitor System with Park Assist\* makes parking easy, even in tight spaces. The system provides a visual warning guide to obstacles behind the vehicle.

\* Availability varies according to grade. See Specifications and Equipment for details.

### **Wider vision**

Your range of vision increases by 34° on both sides, enabling you to see approximately 20 metres in either direction.

### **Front Monitor\***

The Front Monitor enables the driver to indirectly see areas in front of the car on blind corners. This helps with checking the area ahead when starting off and stopping.

### **Rear View Monitor with Park Assist**

The optional Park Assist system with back guide monitor provides detailed visual parking and reversing guidance.

## Driving is believing

**Verso is designed for optimum aerodynamic performance. In addition to a drag co-efficient of 0.30, it incorporates a range of state-of-the-art systems which interact with each other to deliver excellent precision, agility and ride quality.**

Verso's suspension system has been engineered to deliver a satisfyingly smooth ride. MacPherson strut front and torsion beam rear suspension work together to provide excellent straight-line stability at high speeds and total composure around corners while the hydraulic power steering system has been specially tuned to ensure direct feedback for optimum control and a confident, positive steering feel. With a minimum turning radius of 5.8 metres, Verso is impressively agile around narrow city streets or out on the open road.

Verso is available with a choice of transmissions. There's the ultra smooth five- and six-speed manual transmissions or the innovative MultiMode which enables you to switch between sequential manual and automatic operation. MultiMode (available if you specify the 1.8 litre VVT-i engine on SR grade and above) features 'Comfort' and 'Sport' modes, enabling you to choose between smooth, fuel efficient performance and a more sporty driving experience.

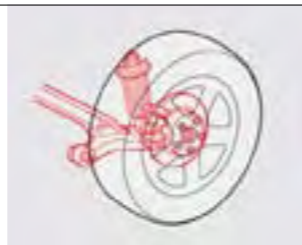

### **Manual Transmission**

The D-4D 180 and 140 diesel engines have an ultra-smooth 6-speed manual transmission; the 1.8 and 1.6 litre VVT-i comes with a 5-speed manual transmission.

### **Torsion beam rear suspension**

Provides outstanding ride comfort, even when all seven seats are occupied.

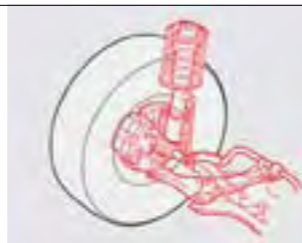

### **MultiMode**

This transmission (available with the 1.8 litre engine) combines optimum control with the ease of clutchless driving.

### **MacPherson strut front suspension**

Ensures outstanding straight-line stability and excellent cornering performance.

## D-4D 180. High Power Diesel, by Toyota

### Introducing the Verso's state-of-the-art 177 DIN hp 2.2 litre D-4D engine.

Generating 400 Nm of torque from 2000–2600 rpm, the 177 DIN hp engine delivers exceptional responsiveness through a new six-speed transmission, no matter what driving conditions you face. Its Variable Nozzle Turbocharger is electrically activated, increasing overall efficiency. And, with the use of piezoelectric injectors in the common rail system (which allow fuel to be injected at a much higher pressure) combustion control is made extremely precise – culminating in power and torque which outperforms any comparable diesel on the market.

There's no compromise on emissions either. Using Toyota's unique D-CAT (Diesel Clean Advanced Technology) system, it produces the lowest combined nitrogen oxide (NOx) and particulate matter (PM) emissions compared to any other diesel. NOx levels are 50% below the requirements of the latest Euro 4 legislation while PM levels are 90% below.

At the heart of the D-CAT engine is the highly sophisticated Diesel Particulate NOx Reduction (DPNR) system, which simultaneously reduces both NOx and PM emissions to significantly lower levels.

The engine delivers outstanding fuel economy too, at a remarkable 42 mpg combined. And, with a top speed of 128 mph\*, blends power, response, refinement and low emissions in a way that offers real reward for both the environment and the driver.

\* As tested on a closed circuit.

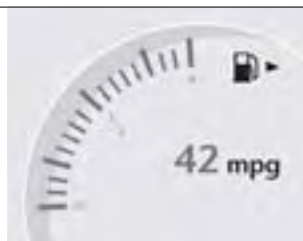

#### Power and torque

The 2.2 litre D-4D 180 engine is ahead of its class, with 400 Nm/2000–2600 rpm of torque and 177 DIN hp (130kW)/3600 rpm of power.

#### Fuel economy

Precise combustion control helps maximise efficiency, which results in an excellent fuel economy figure of 42 mpg combined.

TODAY TOMORROW TOYOTA

## D-4D 140. Enjoy the performance

**Toyota's D-4D engines incorporate advanced common rail diesel technology to give you plenty of smooth, responsive power while maximising fuel economy and emission control.**

The Verso's 2.2 litre 140 engine has been developed to deliver quiet and controllable power.

Central to the engine's exceptional performance is an electronic control unit which balances fuel injection, pressure, timing and volume according to the way you are driving. The control unit works with the common rail injection system, which injects finely atomised fuel at high pressure directly into the combustion chamber.

The 2.2 litre D-4D 140 engine provides added power and torque with excellent fuel economy and significantly reduced emissions (complying with the latest Euro 4 emissions regulations). It delivers 310 Nm/2000–2800 rpm of torque and 136 DIN hp/3600 rpm power output. This gives 0 to 62 mph in an impressive 9.4 seconds. Top speed is 122 mph\* and the fuel economy figure is an outstanding 44 mpg combined.

From city driving to long country roads, Verso's D-4D 140 engine delivers all the control and performance you need to make driving anywhere rewarding.

\* As tested on a closed circuit.

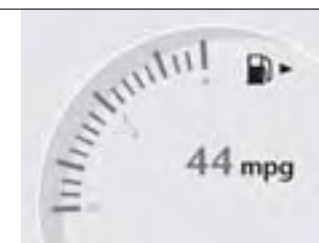

### **2.2 litre D-4D engine**

*Verso's responsive engine delivers 310 Nm/2000–2800 rpm of torque and 136 DIN hp (100kW)/3600 rpm of power.*

### **Fuel economy**

*Intelligent engine management ensures optimum fuel economy at a remarkable 44 mpg.*

## A powerful proposition

**Whether you're on your way to work, heading down the motorway on a family trip or enjoying a peaceful Sunday morning drive, Verso's VVT-i (Variable Valve Timing – with intelligence) gives you the power to enjoy yourself behind the wheel.**

VVT-i delivers outstanding torque, right across the rev range, for a smooth, responsive performance. The system responds to the way you drive and the demands being made on the engine, by electronically optimising the timing and duration of the intake valve opening. This gives you power when you want it, plus maximum engine efficiency for minimum fuel consumption and exhaust emissions (complies with the latest Euro 4 emissions regulations).

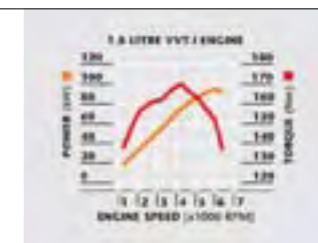

The 1.8 litre VVT-i delivers 170 Nm/4200 rpm of torque and 129 DIN hp/6000 rpm of power. Acceleration is impressive too: 0–62 mph is achieved in just 10.8 seconds (manual transmission) or 12.7 seconds (MultiMode). Top speed is 121 mph and average fuel economy is 36.7 mpg – manual transmission or 37.7 mpg – MultiMode.

Verso can also be specified with a 1.6 litre VVT-i engine which delivers 150 Nm/3800 rpm of torque and 110 DIN hp/6000 rpm of power. Top speed for the 1.6 litre engine is 109 mph, with 0–62 mph in 12.7 seconds. Average fuel economy is 37.7 mpg.

A state-of-the-art engine immobiliser is fitted as standard on all Verso VVT-i petrol and D-4D diesel engines and prevents the engine from being started unless the legitimate key is used. The immobiliser is linked to an antenna coil in the key slot which reads a unique ID code transmitted by the transponder chip embedded in the key.

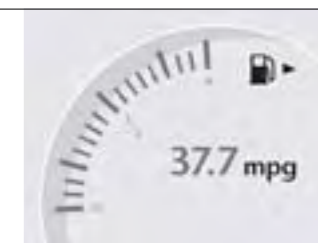

### **1.8 litre VVT-i engine**

The 1.8 litre engine delivers 170 Nm/4200 rpm of torque and 129 DIN hp (95kW)/6000 rpm of power.

### **Combined fuel economy**

Combined fuel economy for the 1.8 engine is an impressive 37.7 mpg – MultiMode.

## Savour the comfort...

With its premium quality materials and outstanding fits and finishes, Verso is designed for optimum comfort.

...of an ingenious  
seven-seater

The Toyota Easy Flat-7 seat system makes it easy to accommodate up to seven people, across three rows of supportive seats.

What kind of car do you need today?

**Verso takes flexibility to new levels. With its innovative Toyota Easy Flat-7 seat system, it can be quickly and easily arranged into over 30 configurations, including seven-seat mode and two-seat mode with a flat load area.**

**Easy folding**

*The Toyota Easy Flat-7 seat system enables rear seats to be individually folded flat. Operation is via levers which are designed and positioned for maximum ease of use.*

Whether you need maximum seating, maximum load space, or anything in between, the Verso is as adaptable as you need it to be, providing plenty of space and comfort, whichever combination you choose. With seating design this easy to use, the Verso takes versatility to new levels.

Create...

**With the Toyota Easy Flat-7 seat system, the second and third row seats can be independently folded away, creating a flat space. Each seat has an easy-to-use lever, which enables you to fold it down into the vehicle.**

...a seven-seater...

Front and second row seats are fully adjustable for cushion tilt and backwards/forwards slide. Additionally, the front seats are height adjustable. An easy-to-use walk-in mechanism enables second row seats to move forwards for easy access to the third row seats.

...a five-seater...

With the third row seats retracted, there are five individual seats, plus an impressive 397 litres of flat luggage space.

...a two-seater in an instant

In two-seat mode, with the second and third row seats retracted into the vehicle, you have a completely flat load floor and 1563 litres of load space. That's plenty of space for a mountain bike, surfboards and all kinds of large, awkwardly-shaped items.

*The rear seats fold flat easily and simply. Operation is via levers which are designed and positioned for maximum ease of use. Seat shown is from second row.*

## Safety through technology

**As befits a car of its quality, Verso is fitted with a range of advanced technology safety systems designed to maximise driver control and help enable you to steer clear of potential danger.**

### High performance braking

Front and rear disc brakes, with the front discs ventilated, plus ABS with EBD combine to provide well controlled, high performance braking.

### ABS and EBD

Anti-lock Braking System (ABS) with Electronic Brake Force Distribution (EBD) is standard on Verso. ABS helps to prevent the wheels from locking up when braking on a slippery road by electronically balancing the braking force between all four wheels to match the level of grip of each one. In turn, EBD optimises brake force distribution between the front and rear and left and right wheels. Together, the two systems help prevent the wheels from locking and enable you to steer around obstacles as you come to a stop.

### Brake Assist (BA)

Linked to VSC and TRC, BA automatically supports emergency braking if the brakes are applied quickly but without sufficient pressure on the pedal. It does this by measuring how fast and hard the brake pedal is depressed and then, if appropriate, increasing braking force.

### Vehicle Stability Control (VSC)

VSC actively intervenes when it senses that the vehicle is at risk of sliding out of control – going too quickly around a corner, for example. It works by automatically applying the brake to the appropriate wheel, to bring the car back to its intended path. VSC is a standard feature on SR, T Spirit and T180.

### Traction Control (TRC)

Linked to VSC, if you accelerate too hard or cause the drive wheels to lose grip and start spinning, TRC will instantly recognise what is happening. The system will automatically use braking and reduced torque to help restore traction. TRC adjusts levels of power to each of the drive wheels independently for optimum vehicle control.

### Cornering Assist Monitor

The introduction of the Cornering Assist Monitor is a European first. When the car approaches a partially obscured intersection, the system transmits images of approximately 20 metres in both directions to the full map satellite navigation\* display screen.

### Park Assist

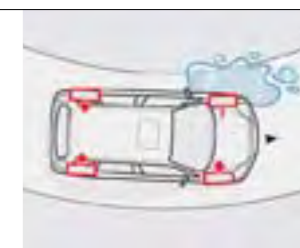

When you arrive at your destination, the Rear View Monitor System with Park Assist\* makes parking easy, even in tight spaces. The system provides a visual warning guide to obstacles behind the vehicle.

\* Optional on T Spirit and T180. See Specifications and Equipment for details.

§ Optional on T2.

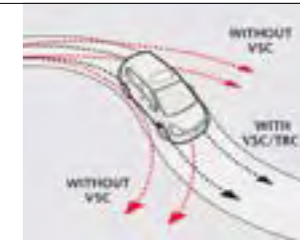

### ABS and EBD

These two systems combine to prevent the wheels from locking to help enable you to steer safely around obstacles as you come to a stop.

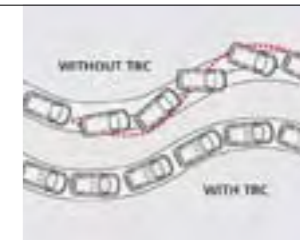

### VSC§

VSC acts to reduce excessive slippage of the tyres, helping you maintain control of the car.

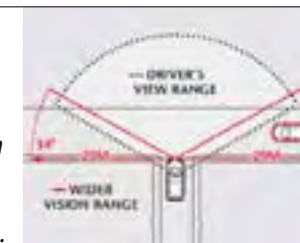

### TRC

TRC detects wheel spin in the drive wheels and automatically reduces engine power to suppress the spin and help restore traction.

### Cornering Assist Monitor\*

The Cornering Assist Monitor increases your range of vision by 34° on both sides, enabling you to see approximately 20 metres in either direction.

### Park Assist\*

The optional Park Assist system with back guide monitor provides detailed visual parking and reversing guidance.

## The safest car in its class

**The new Verso has been awarded the maximum five-star ranking by Euro NCAP, with a total of 35 points out of a possible 37.**

### Nine SRS airbags

SRS driver and passenger airbags, which are standard on all models, are an integral part of occupant protection. In the event of a frontal collision, they inflate very quickly – in two stages, depending on the extent of the impact – to help protect the driver and front passenger.

Verso is the first car in its segment equipped with a driver's knee airbag. In the event of a front-end collision, it helps to protect the driver from injury against the steering column. For further protection, there are also SRS side airbags for the front seats. SRS curtain shield airbags\* help protect front and second row occupants from head injuries during side collisions.

### Head rests and ELR seat belts for all seats

All seven seats have three-point Emergency Locking Retractor (ELR) seat belts. Front seat belts incorporate pre-tensioners which instantly draw the seat belt back at the moment of impact and force-limiters that release belt tension when a specific load is reached. A two-stage visual and audio seat belt warning system is fitted as standard.

Together with the SRS airbags, the overall effect is to help maximise safety while reducing the likelihood of chest injuries.

### Outstanding collision resistance

The Verso features a strong, rigid body structure, which is combined with Toyota's MICS (Minimal Intrusion Cabin System) in which components are designed to help absorb and disperse energy to minimise cabin distortion.

### Whiplash Injury Lessening

Front seats have been specifically designed and positioned to help reduce injury to the vertebrae in the neck in a rear-end collision.

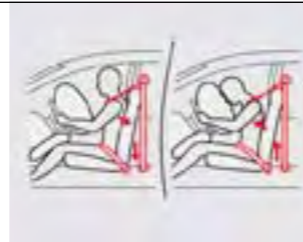

### ISOfix seat fixings

The second row outer seats feature special anchor points to ensure the safe and convenient installation of ISOfix child seats (available from your Toyota centre).

\* Curtain airbag not available on 1.6 litre T<sub>2</sub>.

#### Seat belts

Front seat belts with pre-tensioners and force-limiters help reduce the likelihood of chest injuries in an accident.

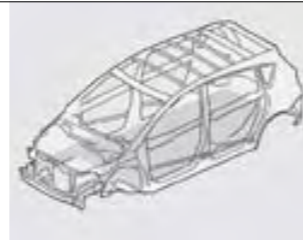

#### Whiplash Injury Lessening

The WIL front seat design helps minimise the risk of neck whiplash injuries in low-speed, rear-end collisions.

#### Safety cell

Verso's occupants are protected by an energy-absorbing body with front and rear crumple zones.

#### Euro NCAP

Euro NCAP is an independent safety assessment programme that is backed by five European governments, the European Commission and motoring and consumer organisations in every country in Europe. It provides a realistic, expert and reliable measurement for the safety performance of new cars. The maximum five-star ranking by Euro NCAP is testament to the design, engineering and build quality of the new Verso.

## Look closer...discover more

**The more you experience the Verso, the more surprising innovations you'll discover. The array of sophisticated design and technology features provide a highly contemporary travel environment.**

As soon as you get into the car and start the engine, you'll experience Verso's advanced technology. It features an innovative ignition system which enables you to start the car at the touch of a button.

Storage facilities include two passenger side gloveboxes, a console box which is ideal for storing CDs, front and second row door pockets and third row cup holders.

To keep occupants cool and comfortable, Verso has manual or automatic air conditioning. Both systems incorporate a metallic front panel with ergonomic controls and an aqua-green display.

Front and rear windows are power-operated (front only on T2), adding further convenience. Steering wheel audio controls are available on SR, T Spirit and T180 and, in addition, a rear seat In-Car Entertainment DVD system is standard on T Spirit and T180.

## T<sub>2</sub>

**Verso's combination of dynamic style and outstanding practicality gives you the flexibility and space to be free, to have fun and express yourself.**

Wherever you're headed, the Verso T2 model's generous equipment levels make every journey a pleasure. There's manual air conditioning, a tilt and telescopic steering wheel, a six-speaker audio system with CD player and power-operated front windows with anti-trap function. For convenience, the colour-keyed door mirrors are electrically adjustable, too.

Verso T2 offers you a choice between the advanced 2.2 litre D-4D 140 diesel engine and the responsive 1.8 or 1.6 litre VVT-i petrol engines. Whichever engine you specify, MacPherson strut front and torsion beam rear suspension systems ensure smooth ride comfort, whether you're driving alone or with all seven seats occupied.

### T<sub>2</sub> main features:

- Manual air conditioning
- 7-seat capacity
- Colour-keyed bumpers front and rear
- Colour-keyed and electronically adjustable exterior mirrors
- Colour-keyed door handles
- Electric front windows with anti-trap function
- Radio CD with MP3/WMA disc compatibility and 6 speakers
- Roof antenna
- Tilt & telescopic steering wheel
- Optitron instruments
- Day & night rear-view mirror (manual)
- Chrome interior door handles
- Driver and passenger front, side, curtain\* and driver knee SRS – airbags
- ABS/EBD
- Front and rear disc brakes
- Central double locking with remote activation
- Transponder key engine immobiliser
- Cup holders front and rear
- ISOfix child seat fixings
- Rear fog lamp with auto cancelling

- 16" steel wheels with wheelcaps

\* Curtain airbag not available on 1.6 litre T2.

The T<sub>2</sub> dashboard featuring the standard six-speaker radio/CD.

In addition to driving pleasure, Verso T2 provides the peace-of-mind that comes with a comprehensive package of safety features, including the Anti-lock Braking System (ABS) with Electronic Brake Force Distribution (EBD).

### Audio System

6-speaker audio system that also plays MP3 and WMA formats.

### Optitron instruments

The standard Optitron dials are easy to read, as well as stylish.

## SR

**Enjoy the seamless blend of looks and comfort that is the Verso SR. Take in its pleasing exterior, including stylish rear spoiler, front fog lamps, SR-specific alloy wheels and rear privacy glass, plus the convenience of front and rear parking sensors. On the inside the SR offers a six CD in-dash multichanger with MP3/WMA disc compatibility as standard.**

SR is available with two engines, 1.8 litre VVT-i petrol or 2.2 litre D-4D 140 diesel, and incorporates advanced suspension systems. The SR also offers the choice of five-speed manual transmission or MultiMode (with the 1.8 litre engine). Additionally, for less tiring driving over long distances, SR has cruise control. For enhanced driver control, it also has Vehicle Stability Control (VSC), Traction Control (TRC) and Brake Assist (BA).

**16" Alloy wheels**  
Large diameter SR-specific alloy rims add a distinctive touch.

**Stylish rear spoiler**

### SR main features in addition to T2

- New 16" 5-spoke alloy wheel with locking wheel nuts
- Rear colour-keyed roof spoiler
- Front and rear parking sensors
- In-dash CD multichanger with MP3/WMA disc compatibility with 6 speakers
- Privacy glass, rear sides & rear window
- Dual-zone climate control
- Colour-keyed, electronically adjustable, heated exterior mirrors
- Front and rear electric windows
- Cruise control
- VSC/TRC/BA
- Leather steering wheel with audio switches and leather gear knob
- Unique seat and door trim
- Front and rear fog lamps with auto-cancelling
- Driver and front passenger armrest

For added comfort and convenience, there's front and rear power windows and dual-zone climate control.

### SR option pack

Add new dimensions of pleasure for your passengers with the optional Toyota Modular In-Car Entertainment system.

This state of the art system has an all-in-one DVD player with integrated 7" screen. It combines a main unit with a slave unit (without a DVD player), which allows you to play a DVD on one and a games console on the other.

The system supports virtually all disc formats, is compatible with most games consoles and the main unit has a USB slot for accessing media from a memory stick.

For the safety of the rear seat passengers the system has been fully developed and tested to assure that the docking stations cannot detach and injure passengers.

Please note this Option Pack must be specified at point of order of your vehicle.

### In-Car Entertainment

The headrest docking station can be positioned low for children, or high for adults. The units can also be moved between seats, to another car or removed for security.

The T Spirit dashboard showing the optional full map navigation system, which integrates perfectly into the centre console.

**In-Car Entertainment**  
The headrest-mounted DVD screens that are standard on T Spirit will keep the family happy on the longest journey.

**Full map navigation**  
One of the options available for T Spirit is full map navigation with Bluetooth connectivity, which also comes with a Front Cornering Assist Monitor and Rear View Monitor with Park Assist.

- T Spirit main features in addition to SR:**
- 16" 7-spoke alloys with locking wheel nuts
  - Headrest-mounted In-Car Entertainment (ICE) system
  - Roof rails
  - Electrochromatic rear-view mirror
  - Intermittent wiper with rain sensor

Inside the exciting Verso T180, you'll find an ultra-smooth six-speed transmission. (Image features optional full map navigation.)

## T<sub>180</sub>

**For a truly outstanding Verso drive our top performing diesel model comes as T180. One of the first things you'll notice is its exclusive privacy glass and 5-spoke 17" alloy wheels, which both come as standard.**

**Darkened front and rear headlamps**  
A smoky finish is adopted for the headlamp extensions, producing a sporty feel.

**Stitched leather steering wheel and gear knob**  
Luxurious perforated leather steering wheel and gear knob, with distinctive silver stitching as standard.

Its interior includes a lavish leather steering wheel and gear knob decorated with silver stitching as well as stylish scuff plates and a premium sporty trim all round. T180 also includes an In-Car Entertainment system with twin DVD screens positioned in the front seat headrests.

Enjoy a more spirited drive, with the vibrant Verso T180.

- T180 main features in addition to T Spirit:**  
(Exclusively available with 2.2 litre D-4D 180 developing 177 DIN hp.)
- 17" 5-spoke alloys
  - Perforated leather steering wheel and gear knob with silver stitching
  - Distinctive sporty premium trim

## T Spirit

**In addition to smooth ride comfort, there's another reason rear seat passengers won't want journeys in the Verso T Spirit to end: the comprehensive equipment list includes an In-Car Entertainment (ICE) system with twin DVD screens positioned in the front seat headrests.**

The ICE system is a perfect example of the T Spirit's luxurious levels of interior refinement and convenience. While it keeps rear seat passengers entertained, you'll be enjoying a spirited driving experience. T Spirit is available with two engines, 1.8 litre VVT-i petrol or 2.2 litre D-4D 140 diesel, and incorporates state-of-the-art suspension and safety systems. And like the T2 and SR models, it offers a wide array of seating configurations, from seven-seat mode to two seats with a large, flat load floor.

An electrochromatic rear-view mirror prevents you being dazzled by the headlights of vehicles behind you and the intermittent windscreen wiper features an automatic rain sensor.

On the outside, T Spirit's sleek, aerodynamic looks are enhanced by roof rails, privacy glass and 16" 7-spoke alloy wheels.

## Leather Interior

**Driving the Verso speaks volumes about your appreciation of cutting-edge design. Fitting a leather interior highlights your taste for luxury. The black, tailored leather interior includes full leather seat facings, sides, backs and armrests and is fully compatible with side airbag operation.**

The leather used for Toyota upholstery is carefully selected for quality. It complies with the toughest European standards so you can be sure of its comfort and durability, while also having the convenience of being able to simply wipe the surface clean to maintain the look of prestige and elegance.

Suitable for Verso SR, T Spirit and T180.

Please note this Option must be specified at point of order of your vehicle.

## Tech Pack

**Convenience on the move is provided by the Tech Pack. The iPod® integration kit\* allows complete control of your playlists via your audio controls, whilst the sound is perfectly delivered through your vehicle speakers. For all models there is a Bluetooth® steering wheel control Hands Free kit for your Bluetooth® compatible mobile phone.**

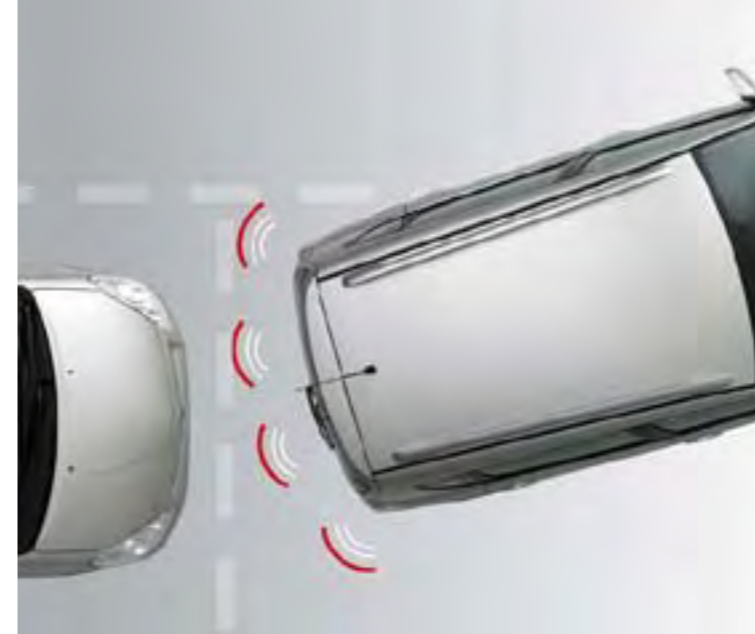

- The fully integrated system from Toyota allows you to:
- Control the iPod® from the car's audio head unit.
  - Use playlist, track selection (Pvs, Nxt, FFWD, Rewind).
  - Have playlist, track, time displayed on head unit screen. (This feature is not supported by Full Map Navigation audio.)
  - Have the iPod® power supplied and charging.
  - Utilise audio steering wheel controls.

With the Toyota Bluetooth® Hands Free system you have voice recognition for command-dialling up to 20 programmed numbers.

- Works with most Bluetooth®-enabled mobile phones.
- Mutes the radio when you receive or place a call.
- Seamless connection to the system when you start the car.
- You can answer or reject incoming calls with announced caller ID.
- Dial by name or number without having to train the system.
- Available with complete steering wheel integration.

\* This product has been designed specifically to work with iPod® and has been certified by the developer to meet Apple performance standards.

Please note this Option Pack must be specified at point of order of your vehicle.

1.

2.

3.

4.

## Protection Pack

**Featuring the Toyota Parking Aid (TPA400), a boot liner, front and rear mud flaps and a rear bumper protection plate, the Protection Pack will help to ensure your new Verso stays in pristine condition.**

The body-coloured four sensor rear parking aid will help to prevent unnecessary scrapes whilst parking and reversing close to low objects.

The specially designed Verso front and rear mud flaps will protect against spray and small road debris and the fully tailored

boot liner with anti-slip surface will help to protect the boot interior. The rear bumper protection plate completes the pack and will be perfect for helping to protect the rear bumper against unsightly scuffs and scrapes.

Please note this Option Pack must be specified at point of order of your vehicle.

1. Toyota painted rear parking sensors.
2. Verso front and rear mud flaps.
3. Boot liner.
4. Rear bumper protection plate.

## Choice comes as standard

In addition to driving dynamics, versatility and flexibility, Verso also gives you choice. It's available in your choice of eight body colours and five interior trims.

040 Pure White\*

1C0 Silver Steel§

1F8 Venetian Silver§

1G3 Decuma Grey§

209 Eclipse Black§

## Drive Plans from Toyota Financial Services

**We want to make acquiring and maintaining your Verso as easy as driving one. Our range of Toyota Drive Plans have been designed specifically with this in mind, to offer you a choice of affordable ways to finance, service and maintain your new car. Above all our plans offer flexibility, easy budgeting and peace of mind and can be arranged as a one-stop-shop when you select your Verso.**

### Easy Start

With Easy Start finding a large deposit is not an issue. Just the equivalent of one monthly payment in advance is all that is needed to drive away in a Verso. This simple and innovative plan, based on our popular PCP Drive Plan, is ideal for younger customers or families on a tight budget.

### Easy Drive

Easy Drive is a comprehensive finance package, with one monthly payment taking care of most of your motoring needs for two or three years. The plan includes the cost of a Verso on a PCP Drive Plan and an Easy Care servicing plan covering routine, major and intermediate services.

### Easy Care

For those who value the peace of mind of a pre-paid servicing package we can offer Toyota Easy Care. The plan ensures that your Verso will receive the very best maintenance and servicing. Easy Care covers routine major services (including routine servicing, parts and labour) and intermediate oil and filter services.

### Business Drive

Business Drive offers the security of a fully maintained Contract Hire package, ideally suited for VAT registered businesses. The package offers a host of benefits including reduced capital outlay, all-inclusive monthly rentals and no depreciation, disposal or administration problems.

### Flexible Finance

However, Drive Plans are about more than just these four schemes. Whatever your needs, Toyota has a full range of finance options to offer you. Whether you're a private motorist or a business customer, just discuss your individual requirements with your Toyota Centre, who will be pleased to help you choose a Drive Plan to suit you.

## Customer services

### Club Toyota

When you buy a Toyota you automatically become a member of Club Toyota for 12 months free of charge. This entitles you to take advantage of a host of benefits including free RAC Roadside Assistance in the UK and Europe, specially negotiated rates for travel insurance, plus exclusive offers and promotions through our quarterly customer magazine.

### Toyota Drive Plans from Toyota Financial Services

Toyota Drive Plans make acquiring and maintaining your new car as easy as driving it. They offer a choice of affordable ways to help you finance your Toyota. They are structured to offer you flexibility, easy budgeting and peace of mind.

- Easy Start means you don't need to find a large deposit.
- Easy Care offers the complete reassurance of pre-paid servicing.
- Easy Drive is a comprehensive plan which takes care of most of your motoring needs for two to three years with one monthly payment.
- Business Drive is a fully maintained contract hire package most suited to small business customers.

Whatever your personal preferences, your Toyota Centre can tailor a Drive Plan to suit your needs. Or visit [www.toyota.co.uk](http://www.toyota.co.uk) to find out about any current offers and use our web calculators to create a personal finance quotation. Driving a new car has never been so easy. Written quotations available on request. All agreements subject to status. Indemnities may be required.

### Toyota Motor Insurance

Toyota Motor Insurance is available for Toyota owners at competitive premiums. To obtain details of the benefits included and to arrange a quotation, please contact your local Toyota Centre or call 0800 350 500.

Finance subject to status to over 18s. Indemnities may be required. Terms and conditions apply. Toyota Financial Services is authorised and regulated by the Financial Services Authority.

### Toyota Fleet

Toyota Fleet provides complete business solutions for companies that run a fleet of vehicles. For more information on how Toyota Fleet can deliver your fleet requirements either contact your local Toyota Centre or the Toyota Fleet Business Centre on 0845 271 2712.

### Toyota Warranties

Every new Toyota comes with a three-year/60,000-mile manufacturer's warranty, covering your car against the unlikely event of a manufacturing defect causing a mechanical fault. It includes coverage for paint and surface rust for three years, unlimited mileage and a 12-year anti-perforation warranty. After the initial warranty period has ended, you can extend your warranty until the vehicle is seven years old – choosing from a range of packages to suit your vehicle and your needs. All of our warranties cover the main component parts of the vehicle\*, meaning that you pay for nothing beyond routine servicing and maintenance, so there are no unexpected bills to pay.

### Toyota Accident Assistance

Toyota provides a comprehensive accident management service to all Toyota drivers, giving advice, assistance and practical help free of charge in the event of an emergency.

### Toyota Approved Used Car Scheme

All Toyota Approved Used vehicles come complete with a delivery pre-check, a mileage check, 12 months' Club Toyota membership<sup>§</sup> and a 30 day vehicle exchange agreement.

### Toyota End-Of-Life Vehicles

The legislation on End-Of-Life Vehicles offers Toyota drivers a new and innovative way of returning their old vehicle to the producer. For more information about End-Of-Life Vehicles please refer to [www.toyota.co.uk/environment](http://www.toyota.co.uk/environment)

\* With the exception of batteries, corrosion of exhaust, and damage or wear to the interior.

§ Except on non-Toyota vehicles.

Please refer to [www.toyota.co.uk](http://www.toyota.co.uk) for further environmental information.

## A premium experience

**The Verso is designed for all those who want to get a little extra out of life. That's why you can expect a lot more than a sophisticated driving experience. Owning a Verso means you enjoy the peace of mind afforded by Toyota's global reputation for quality and integrity.**

On the day you purchase your Verso, your retailer will present you with the 'Verso Passport'. It's a guide to getting the best out of your Verso and its comprehensive range of features. Of course, your retailer will explain the Verso to you in detail – and always be available should you require any assistance.

### Intelligent design

The Verso is designed and engineered to minimise the maintenance overhead. There are fewer parts that require servicing and those that do are inherently durable to extend service intervals. Equally important is that Verso technology is made easily accessible so that maintenance labour time can be minimised. These features combine with the highly competitive pricing of Toyota spares to ensure the lowest cost of maintaining your Verso in an ideal working condition.

### Toyota quality service

Your Toyota retailer will talk you through the Verso 'Healthand Safety' maintenance programme. The programme is very straightforward and designed for your convenience. In effect, your Verso needs a full Health and Safety check, dependant on driving style and conditions, up to once every two years or 20,000 miles (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 10,000 miles.

### Toyota warranty

#### Comprehensive terms

The warranty covers any defect caused by a manufacturing or assembly fault. It is valid for three years of normal use or 60,000 miles, whichever comes first, with no mileage limitation for the first year.

If the car is immobilised due to a breakdown (as a result of a defect covered under warranty), you will also be covered for the cost of towing your vehicle to the nearest authorised Toyota repairer.

### Rust and paint defects

The warranty also covers surface rust and paint defects appearing on any of the painted body panels as a result of a fault in material for a period of three years, regardless of mileage.

### Corrosion cover

The warranty offers 12 years' coverage, regardless of mileage, against perforation of the bodywork (from inside to outside) that develop due to corrosion caused by faults in material or workmanship.

### Toyota genuine parts

The Verso is designed to minimise the cost of accident repair. Energy absorbing elements are built into the bumpers, expensive to replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low part and labour charges.

### Added security\*

The Verso's security system withstands the insurance industry's rigorous five-minute attack test and provides excellent protection. Both the alarm system and engine immobiliser are approved by Europe's major insurance companies.

### Toyota accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort or practicality. And because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a three-year warranty<sup>§</sup>.

<sup>§</sup> Check with your retailer for specific warranty details.

Whilst every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. This e-brochure cannot be regarded as infallible (some of the vehicles shown may not be to exact UK specification), and as such does not constitute an offer for sale of any particular vehicle or specification.
