Toyota Yaris Advanced thinking by Toyota

The new Toyota Yaris is the latest result of our efforts to build cars that meet the most complex needs. It's hard to believe it features so many clever ideas, wrapped up in one stylish, compact form. To make this possible, we turned convention on its head and applied what we call 'Advanced Thinking'.

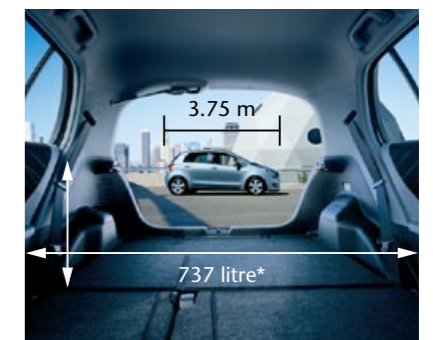

A compact car for big thinking

Our task with Yaris was to reinvent the compact car. Like a dome that fits the maximum volume into the minimum surface area, Yaris offers a surprisingly spacious interior inside a pleasingly compact exterior.

The new Yaris, designed in Europe, is bursting with energy, comfort, functionality and style. Just take a look at the futuristic monoform shape and the new arched lower window line, which create a distinctive dynamic impression. It measures only 3750 mm, but we fitted the Yaris with a longer wheelbase and moved the windscreen and the instrument panel forward, thereby creating class-leading interior space which is

usually only available with much larger cars. But there's more: a choice between a 3-door and 5-door model, three economical engines, Toyota's Easy Flat system which enables the rear seats to be folded flat quickly and easily, and large car dynamic handling. In fact, the new Yaris offers the perfect solution for all those who want to get more out of life.

* To lower window line.

Intelligent design. Beautifully crafted

Discover the fine art of simplicity – everything that you want precisely where you want it.

The ergonomically crafted dashboard increases safety significantly. That's why the centre console acts as the main focal point for important dials and instruments, including the standard 3D digital meter – another advanced feature, usually found on more premium models.

Assembling all instruments in the centre console offers another advantage: we were able to create more storage space for documents behind the steering wheel. The dashboard alone offers a total storage capacity of 18.2* litres. You can always expect the unexpected in a Yaris.

The audio system incorporates a CD player with the capability to play MP3 or WMA files on CD. To ensure you always enjoy crisp sound, the radio features a digital audio tuner, while the digital DSP amplifier with Live Acoustic System emphasises bass sounds without distorting mid-range notes.

Instead of a conventional key, the Yaris features the optional Smart Entry & Start System[§], which allows you to unlock the doors by simply touching the handle and start the engine at the touch of a button.

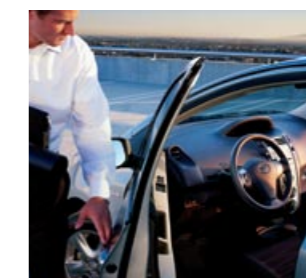

* 17.1 litres if knee airbag fitted.
[§] Available on T Spirit and SR 1.8 models.

Your music at the touch of a button. Steering wheel audio controls are standard on all models and Bluetooth® can be fitted as an accessory.

To add to your comfort, T3, TR and SR 1.3 and 1.4 D-4D models are equipped with manual air conditioning, while automatic climate-controlled air conditioning is standard on T Spirit and SR 1.8.

Say goodbye to the conventional car key. The Smart Entry & Start System[§] features a transmitter that allows you to lock or unlock the car.

Spoil yourself

The new Yaris' interior reinvents comfort with extra-comfortable seats and added legroom.

The front seats have been designed to provide extra support for the hips, lumbar region and spine. And, in what we call the 'Loop style concept', light colours feature around the door armrests, pillars and overhead, adding to the feeling of comfort and spaciousness.

Innovative thinking provided the key to creating this incredibly comfortable interior. The new Yaris is designed to fit around you in every possible way, and not vice versa. As part of our cab-forward concept, we were able to move the windscreen and instrument panel forward, and hence increase cabin space. That's why even taller passengers will be surprised at how much legroom there is to enjoy. The distance between the front and rear seats is 880 mm, giving you the roominess and space of a large car.

We also looked at ingenious ways to improve the comfort of the centre rear seat passenger. By simply lowering the exhaust tunnel and re-routing the exhaust pipe, we were able to adopt a flat configuration. As a result, the Yaris is a true 5-seater.

The Toyota Yaris continues to raise the bar in its class. For added flexibility the seats are split 60:40. They even recline over a 10-degree angle and slide separately backwards and forwards over 150 mm and thanks to the Toyota Easy Flat system, fold down flat.

To ensure that nothing can spoil your experience, vibration and noise levels are also kept to a minimum thanks to measures like double sealing on the doors. But leave the ultimate quality test to the last – the doors close with a rich sound, previously only associated with premium segment models.

How to fit 737 litres into 3.75 metres

Take the Yaris, add some friends, multiply by a shopping spree or a picnic and look forward to more fun than you ever imagined. Yaris offers spaciousness and flexibility previously unseen in a model of this size, thanks to the innovative Toyota Easy Flat system.

The rear seats can be folded flat in one quick, easy motion using one hand. And there's no need to remove the headrests – simply slide the seat all the way forward and tilt it down in one smooth motion. We have also placed the seat fold lever at the top of the seats, enabling you to fold down the seats from the boot – another clever idea to make your life easier.

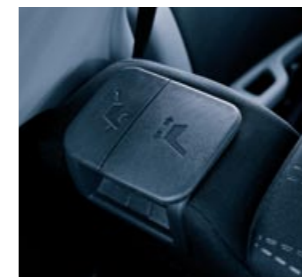

With all seats folded the new Yaris offers 737 litres maximum loading capacity to the window line – further evidence of the class-leading 'big car thinking' that's gone into the Yaris. Even when all the seats are up there's 272 litres of luggage space, enough room for a baby buggy. And if you move the rear seats in the front-most position, the luggage room grows to 363 litres.

The boot even has a 50-litre* underfloor storage compartment for smaller items.

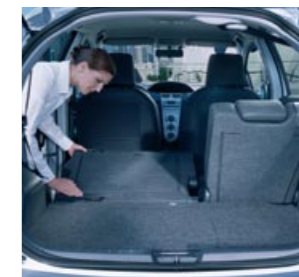

* With a temporary spare tyre.

Hide smaller items from prying eyes – with the 50-litre underfloor storage compartment.

To fold the seats from the boot, simply press the lever at the top of the rear seats.

For added flexibility, the rear seats are split 60:40.

It couldn't be any easier – the seats can be folded flat in one smooth motion, using one hand.

Your short cut to more fun

You don't have to be a racing driver to enjoy corners. Thanks to its incredible performance, the driving dynamics of the new Yaris are more in keeping with an altogether much larger car.

Expect the unexpected: the nippy drive, extremely tight turning circle of 10.0 metres and excellent cornering abilities all point to advanced thinking. And this equals a driving experience that's more akin to a much bigger car.

Our engineers have made sure that you enjoy every journey to the full, by delivering an altogether refined car. The stiff platform, advanced suspension system with front MacPherson strut design and the sophisticated electric power steering add to the dynamic driving experience.

Choose between three powerful but economical engines, two petrol units and one diesel, all fitted with 5-speed manual transmission as standard. Or opt for MultiMode* with automatic clutch control. It operates in three modes: M which allows sequential gear shift, E for automatic gear change and Es for quicker automatic gear change, allowing you to change between manual and sequential mode to suit your individual needs.

Low fuel consumption is another reason why the Yaris is guaranteed to put a smile on your face. So whether you're putting its driving dynamics to the test or refuelling, this nippy new model proves you can have it all.

* Available on T3, TR, SR 1.3 and 1.4 D-4D and T Spirit models.

MultiMode*
MultiMode with automatic clutch control allows you to change between manual and sequential mode to suit your needs.

Smooth seamless delivery

The two VVT-i petrol engines are designed for maximum enjoyment and minimum fuel consumption.

1.0 litre VVT-i petrol engine

Our main objective was to reduce the weight of the Yaris 1.0 litre petrol engine significantly. That's why our engineers adopted an all-aluminium construction, whilst the cylinder bores feature an extra-slim design, the lowest ever in a Toyota engine. This, and the three-cylinder configuration, allows for a reduction in engine length.

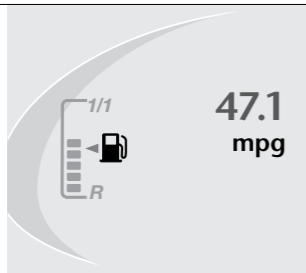

Weighing only 67 kg, the Yaris 1.0 litre VVT-i engine is the lightest car engine available. Not surprisingly then, fuel consumption is one of the lowest for petrol engines with a combined cycle fuel consumption of 52.3 mpg. And yet, with 69 DIN hp/51 kW at 6000 rpm, it is one of the most powerful 1.0 litre engines you'll find. It provides 93 Nm of torque at only 3800 rpm.

1.3 litre VVT-i petrol engine

This four-cylinder engine also features VVT-i to improve low-end torque and high-end power output, adding more fun to every journey. The 87 DIN hp/64 kW at 6000 rpm 1.3 litre VVT-i engine propels 121 Nm of torque at 4200 rpm, giving the new Yaris a sporty yet smooth feel, coupled with acceleration of 0–62 mph in 11.5 seconds and a fuel consumption of 47.1 mpg.

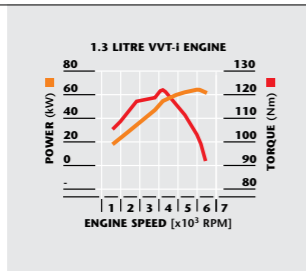

Maximum performance, outstanding fuel economy

The 1.3 litre VVT-i petrol engine gives a combined cycle fuel consumption of 47.1 mpg.

Sporty and smooth

The 1.3 litre VVT-i delivers 121 Nm of torque at 4200 rpm.

Responsive power

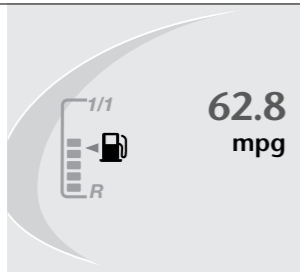

The 1.4 litre D-4D 90 diesel engine offers both responsive and responsible power.

The 1.4 litre D-4D 90 diesel adopts common-rail injection pressure of 1600 bar and 6-hole injectors in order to produce better fuel atomisation and more homogeneous combustion. The electrically activated valve ensures a quicker response and more precise control by the engine whilst a variable nozzle turbocharger generates low-end torque. The result is an engine that promises a power output of 90 DIN hp/66 kW at 3800 rpm, 190 Nm of torque between a very wide rev range – 1800–3000 rpm, acceleration of 0–62 mph in 10.7 seconds and a fuel economy of almost 63 mpg.

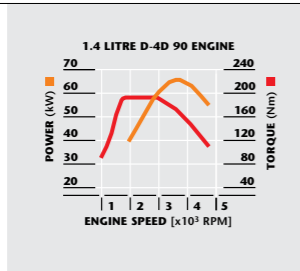

Outstanding fuel economy

The advanced technology of the 1.4 litre D-4D 90 diesel engine delivers an outstanding 62.8 mpg*, giving a range of over 580 miles* on one tankful.

Consistent power delivery

The flexible 1.4 litre D-4D 90 diesel engine offers 190 Nm of torque between a very wide rev range – 1800–3000 rpm.

* Combined cycle, 5 M/T and 5 MultiMode.

Five-star Euro NCAP

The new Yaris features highly advanced active and passive safety systems, ensuring you stay clear of any nasty surprises and helping to protect you and your passengers.

Outstanding safety

The Toyota Yaris has been awarded the maximum five-star ranking by Euro NCAP*. With a total of 35 points, it is one of the safest cars in its class.

High performance braking

Front ventilated discs, plus ABS with EBD and BA combine to provide well-controlled, high performance braking.

ABS and EBD

Anti-lock Braking System (ABS) with Electronic

Brake Force Distribution (EBD) is standard across all models. ABS helps to prevent the wheels from locking up when braking on a slippery road by electronically balancing the braking force between all four wheels to match the level of grip of each one. In turn, EBD optimises brake force distribution between the front and rear and left and right wheels compensating for the vehicle load. Together, the two systems help prevent the wheels from locking and enable you to steer around obstacles as you come to a stop.

Brake Assist (BA)

BA (standard across the Yaris range) automatically supports emergency braking if the brakes are applied quickly but without sufficient pressure on the pedal. It does this by measuring how fast and hard the brake pedal is depressed and then, if appropriate, increasing braking force.

Vehicle Stability Control and Traction Control

VSC actively intervenes when it senses that the vehicle is at risk of sliding out of control – going too quickly around a corner, for example. It works by automatically applying the brake to the appropriate wheel, to bring the car back to its intended path. With TRC, if you accelerate too hard or cause the drive wheels to lose grip and start to spin, TRC will instantly recognise what is happening and automatically reduce engine power to help restore traction. VSC and TRC are available as an option on T2, T3 and T Spirit grades and are standard on SR 1.8.

Nine SRS airbags

Yaris offers up to nine SRS airbags. All grades are equipped with SRS front airbags for the driver and front passenger. T3, TR, SR and T Spirit also have standard SRS front side airbags, front and rear curtain shield airbags and a driver's knee airbag – a first in its class.

In the event of a frontal collision, SRS airbags help protect the driver and front passenger. In the event of a front-end collision, the SRS driver's knee airbag helps to protect the driver from injury against the steering column. SRS curtain shield airbags help protect front and second row occupants from head injuries during side collisions.

Headrests and ELR seat belts for all seats

All five seats have three-point Emergency Locking Retractor (ELR) seat belts. Front seat belts incorporate pre-tensioners which instantly draw the seat belt back at the moment of impact and force-limiters that release belt tension when a specific load is reached. A visual and two-stage audio seat belt warning system is fitted as standard. Together with the SRS airbags, the overall effect is to help maximise safety while reducing the likelihood of chest injuries.

Outstanding collision resistance

The Toyota Yaris features a strong, rigid body structure, which is combined with Toyota's Minimal Intrusion Cabin System (MICS) in which components are designed to help absorb and disperse energy to minimise cabin distortion.

Whiplash Injury Lessening

Front seats have been specifically designed and positioned to help reduce injury to neck vertebrae in a rear-end collision.

Euro NCAP

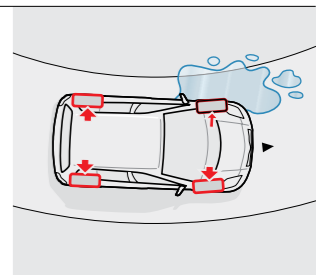

Euro NCAP is an independent safety assessment programme that is backed by five European governments, the European Commission and motoring and consumer organisations in every country in Europe. It provides a realistic, expert and reliable measurement for the safety performance of new cars. The maximum five-star ranking* by Euro NCAP is testament to the design, engineering and build quality of the Toyota Yaris.

*Euro NCAP rating based on T3 grade and above.

ABS and EBD

These two systems combine to prevent the wheels from locking to help enable you to steer safely around obstacles as you come to a stop.

T₂

The T₂ offers more than most cars of the segment. All T₂ models feature remote central door locking, electric outer mirrors, front electric windows, a CD player audio system with four speakers and the capability to play MP3 and WMA files on CD, as well as a multi-display trip computer as standard. They also feature a specific wheel cap design and coloured bumpers.

Inside, there's plenty of advanced technology all fitted as standard – Toyota Easy Flat system, a height-adjustable boot

deckboard, a tilt and telescopic steering wheel, and a walk-in system (on the three-door model). For maximum protection the new Yaris comes with ABS, EBD and Brake Assist as well as driver and passenger front airbags.

Yaris T₂

- Remote central door locking
- Colour-keyed bumpers
- Exclusive 15" wheel caps
- Electric door mirrors
- Immobiliser
- Front power windows
- Electric power steering
- Tilt and telescopic three-spoke leather steering wheel with audio controls
- Leather gear knob with silver look trim
- Toyota Easy Flat system
- Slide and recline rear seats
- 60:40 split rear seats
- Slide and recline front seats
- Multi-information display
- 3D digital centre meter
- Four-speaker radio/CD system with the capability to play MP3 and WMA files on CD
- ABS + EBD + BA
- SRS driver and passenger airbags
- Whiplash Injury Lessening concept seat – driver and front passenger
- Three-point front seat belts with ELR force-limiters and pre-tensioners
- Minimal Intrusion Cabin System
- ISOfix child restraint system
- Tonneau cover (parcel shelf)
- Two storage compartments next to the centre console
- Driver and front passenger gloveboxes
- Removable ashtray and cigarette lighter

1. Integrated audio. The T₂ comes with a standard four-speaker radio/CD player.

2. 15" steel wheel cap. Standard on T₂.

T₃

If you would like to upgrade the Yaris' standard equipment, opt for the T₃ with specific wheel cap designs and coloured mirrors and door handles as well as front fog lamps. Inside, you'll find silver-look interior door handles and parking brake button. A six-speaker radio/CD player with MP3/WMA disc compatibility is also part of the T₃'s equipment.

The driver's seat offers height adjustment, whilst the driver's knee airbag and front and rear curtain airbags are standard.

Additional to T₂

- Manual air conditioning
- SRS front and rear curtain shield airbags
- SRS front side airbags
- SRS driver's knee airbag
- Radio/CD player with MP3/WMA disc compatibility
- Front fog lamps (1.3 litre VVT-i and 1.4 litre D-4D)
- Height adjustable driver's seat
- Colour-keyed, electrically adjustable door mirrors
- Colour-keyed exterior door handles
- 5-star Euro NCAP rating

Image shows silver-look interior door handles (1.3 litre VVT-i and 1.4 litre D-4D).

1. 15" steel wheel cap. T₃ 1.3 litre VVT-i and 1.4 litre D-4D.
2. 15" steel wheel cap. T₃ 1.0 litre VVT-i.

TR

Fancy something a little bit different? Then Yaris TR may be just the ticket. This grade offers the same level of comfort and safety as the T3 – and more. Manual air conditioning and six-speaker radio/CD player with MP3 compatibility are just some of the many standard items.

The exterior features exclusive 15" Orana alloy wheels and a chrome boot trim, whilst Decuma Grey metallic paint is available exclusively on TR*.

* Not available on 1.0 VVT-i.

Additional to T2

- Manual air conditioning
- Exclusive 15" Orana alloy wheels
- SRS front, side and rear curtain shield airbags
- SRS front side airbags
- SRS driver's knee airbags
- Radio/CD player with MP3/WMA disc compatibility
- Height adjustable driver's seat
- Colour-keyed, electrically adjustable door mirrors
- Colour-keyed exterior door handles
- Chrome boot trim

1. 15" Orana alloy wheels. Exclusive to TR.
2. Chrome boot trim.

The fully integrated satellite navigation and audio system has a removable TomTom unit with touch-screen technology for mobile navigation.

Using Bluetooth® technology you can make and receive calls as you drive with just a touch of the screen.

The integrated system includes USB connection and CD player with the capability to play MP3 and WMA files.

SR 1.3 and 1.4

New SR is a dynamic sports inspired and styled Yaris. The combination of Toyota Motorsport 16" alloy wheels with increased tyre width, lowered sports suspension and rear spoiler ensures the new SR has a genuinely sporty look. The new SR has the same equipment as the Yaris T3, including air conditioning, plus front scuff plates and an alloy and chrome gear knob, which completes the sporty look on the interior.

The new fully integrated satellite navigation and audio system takes the stress out of finding the right way, quickly and efficiently. You can activate all functions via the easy to use touch-screen monitor, including Bluetooth® connectivity to make and receive calls. The system incorporates six speakers, a USB connection and a CD player with the capability to play MP3 and WMA files.

Alloy and chrome gear knob

Stylish front scuff plates

Additional to T3

- 16" Toyota Motorsport Pit Lane alloy wheels
- Toyota Motorsport lowered sports suspension
- Rear roof spoiler
- Alloy and chrome gear knob (manual models)
- Chrome exhaust finisher
- Front scuff plates

Plus

- Integrated and portable touch-screen full colour satellite navigation with Bluetooth® integration and USB connection

T Spirit

Yaris T Spirit offers the most advanced equipment level. In addition to the T3 specification it features 15" alloy wheels, as well as automatic climate-controlled air conditioning and the Smart Entry & Start System.

Additional to T

- Smart Entry & Start System
- Automatic climate-controlled air conditioning
- 15" alloy wheels

1. Push button start.

2. Auto A/C. T Spirit's standard automatic climate-controlled air conditioning means the cabin is always at the right temperature.

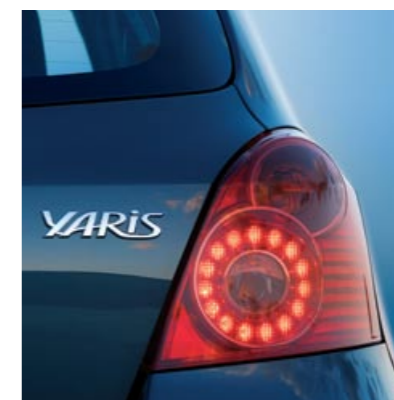

A stylish addition to the road: 17" alloy wheels.

Analogue meter with amber illumination. Image shows meters not to UK specification.

LED brake lights for greater visibility and style.

Chrome exhaust finisher and built-in reflector.

SR 1.8

The new Yaris SR 1.8 is the most powerful Yaris – in every sense of the word. Added performance and agility are delivered by the all-new 1.8 litre Dual VVT-i engine whilst the styling is enhanced by a whole range of sophisticated and sporty features.

Inside, you'll notice chrome highlights for the air vents, sports pedals and the leather trimmed sports steering wheel and gear lever. The sports seats feature an exclusive fabric. The Yaris SR 1.8 also features its own design Optitron instrument panel with analogue display and amber background lighting. Vehicle Stability Control (VSC) and Traction Control (TRC) are fitted as standard.

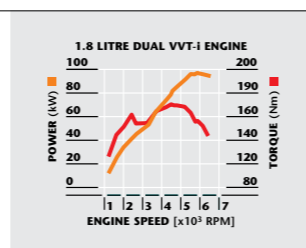

Dual technology, maximum performance

The all-new 1.8 litre Dual VVT-i model ensures excellent acceleration, taking you from 0 to 62 mph in 9.3 seconds.

Responsive power

Thanks to dual variable valve timing (Dual VVT-i) the new Yaris SR 1.8 provides 173 Nm maximum torque at 4400 rpm.

Additional to T Spirit

- 1.8 litre Dual VVT-i engine
- Lowered suspension
- VSC and TRC
- Analogue speedometer
- Sports seats
- Exclusive seat fabric
- Sports exhaust
- Rear roof spoiler
- LED rear stop lamp
- Exclusive front grille
- Unique front and rear bumpers
- Exclusive 17" alloy wheels
- Sports pedals

Protection Pack*

The Yaris Protection Pack offers added guard against the wear and tear of everyday life.

Featuring mud flaps, side mouldings and bumper corner protectors on the outside, together with stylish scuff plates, premium floor mats and a boot protection plate for the inside, the Yaris Protection Pack is the ideal way to keep your Yaris feeling as new as the day it arrived.

* The Protection Pack must be ordered at the time of purchasing the vehicle.

Our aim is 'Zero Emissions'

We have sold more than 1 million Toyota hybrid cars worldwide. So it's no surprise that most people associate eco-friendlier cars with Toyota. It's our mission to make a difference – by investing in greener technology that helps to protect our planet.

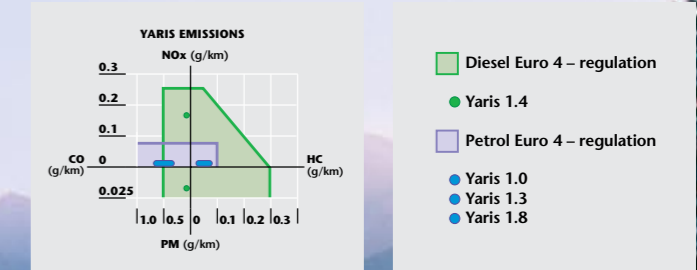

Environmental facts about Yaris

Production Since 2002, production of the Yaris at Toyota Motor Manufacturing France has achieved a 41% reduction in CO₂ (electricity + other fuels), 39.9% reduction in energy consumption, 46.8% reduction in water consumption and 51.2% reduction in volatile organic compounds. The plant no longer sends any waste to landfill sites and of the 9.5 kg of waste created in the production of a Yaris, 4 kg is directly recyclable and the remaining 5.5 kg is used as a substitute fuel for industrial processes.

25% NO_x (nitrogen oxide) reduction and 22% NMHC (non-methane hydrocarbons) reduction.

Recycling 95% of the Yaris is recoverable and the cars are built using up to 3 kg of recycled plastics, with 100% coding of materials and four heavy metals having been eliminated completely (in accordance with 2000/53/EC).

Ownership The environmental impact of the Yaris 1.0 compared with the previous model is demonstrated through the complete life cycle with 6.7% CO₂ (carbon dioxide) reduction,

Assessing a vehicle's life cycle

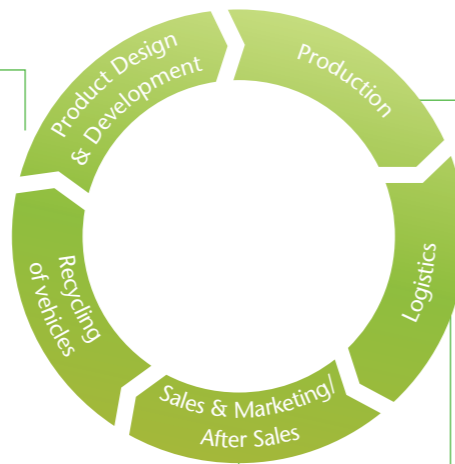

Designing your car

- Achieve lower emissions and greener vehicles on the way towards the ultimate eco-car. Significant advances have been made through the development of Hybrid Synergy Drive® Technology, currently available on Prius
- Ecological Assessment System (Eco-Vas) is developed to measure environmental progress, assessing a vehicle's whole life cycle

End-of-life vehicles

- Toyota offers drivers a new and innovative way of returning their old car
- For more information visit www.toyota.eu/04_environment or contact your local Toyota retailer

Selling and servicing your car

- Informing drivers about the benefit of driving eco-cars
- Raising drivers' awareness of their responsibility towards the environment in servicing and driving their car

Manufacturing your car

- Constant efforts are made to reduce the environmental impact of our manufacturing plants using the Toyota Production System
- All manufacturing operations are governed by Environmental Management System ISO 14001

Getting vehicles and parts to you

- The most efficient and environmentally responsible logistics methods are favoured
- Modes of transport with the least environmental impact are selected wherever possible

Ten tips for a Toyota Eco-Drive and save up to 30% on your CO₂ emissions

Lowering emissions is something we can all do to help the environment. It's simply a matter of changing the way we drive.

1. Remove any extra weight and roof load.

2. Plan your route and avoid detours.

3. Avoid using your car for short journeys.

4. Check your tyre pressure regularly.

5. Service your car according to the owner's manual.

6. Shift up gears earlier.

7. Only use electrical accessories when necessary (e.g A/C).

8. Follow and anticipate traffic flow.

9. Keep your windows closed (use the ventilation system when possible).

10. Switch off your engine if you have to wait longer than 60 seconds.

Drive Plans from Toyota Financial Services

We want to make acquiring and maintaining your Yaris as easy as driving one. Our range of Toyota Drive Plans has been designed specifically with this in mind, to offer you a choice of affordable ways to finance your new car. Above all our plans offer flexibility, easy budgeting and peace of mind and can be arranged as a one-stop-shop when you select your Yaris.

Easy Start

With Easy Start finding a large deposit is not an issue. Just the equivalent of one monthly payment in advance is all that is needed to drive away in a Yaris. This simple and innovative plan, based on our popular Personal Contract Purchase (PCP) Drive Plan, is ideal for younger customers or families on a tight budget.

Easy Drive

Easy Drive is a comprehensive finance package, with one monthly payment taking care of most of your motoring needs for two or three years. The plan includes the cost of a Yaris on a PCP Drive Plan and an Easy Care servicing plan covering routine, major and intermediate services.

Easy Care

For those who value the peace of mind of a pre-paid servicing package we can offer Toyota Easy Care. The plan ensures that your Yaris will receive the very best maintenance and servicing. Easy Care covers routine major services (including routine servicing, parts and labour) and intermediate oil and filter services.

Business Drive

Business Drive offers the security of a fully maintained Contract Hire package, ideally suited for VAT registered businesses.

The package offers a host of benefits including reduced capital outlay, all-inclusive monthly rentals and no depreciation, disposal or administration problems.

Flexible Finance

However, Drive Plans are about more than just these four packages. Whatever your needs, Toyota Financial Services has a full range of finance options to offer you. Visit www.toyota.co.uk to find out about any current offers and use our web calculators to create a personal finance quotation. Plus if you're looking to finance your new Yaris, you can apply on-line too. And whether you're a private motorist or a business customer, your Toyota Centre will be pleased to discuss your individual requirements and help you to choose a Drive Plan that suits you.

Customer services

Club Toyota

When you buy a Toyota you automatically become a member of Club Toyota for 12 months free of charge. This entitles you to take advantage of a host of benefits including free RAC Roadside Assistance in the UK and Europe, specially negotiated rates for travel insurance, plus exclusive offers and promotions through our quarterly customer magazine.

Toyota Drive Plans from Toyota Financial Services

Toyota Drive Plans make acquiring and maintaining your new car as easy as driving it. They offer a choice of affordable ways to help you finance your Toyota. They are structured to offer you flexibility, easy budgeting and peace of mind.

- Easy Start means you don't need to find a large deposit.
- Easy Care offers the complete reassurance of pre-paid servicing.
- Easy Drive is a comprehensive plan which takes care of most of your motoring needs for two to three years with one monthly payment.
- Business Drive is a fully maintained contract hire package most suited to small business customers.

Whatever your personal preferences, your Toyota Centre can tailor a Drive Plan to suit your needs. Or visit www.toyota.co.uk to find out about any current offers and use our web calculators to create a personal finance quotation. Driving a new car has never been so easy. Written quotations available on request. All agreements subject to status. Indemnities may be required.

Toyota Motor Insurance

Toyota Motor Insurance is available for Toyota owners at competitive premiums. To obtain details of the benefits included and to arrange a quotation, please contact your local Toyota Centre or call 0800 350 500.

Finance subject to status to over 18s. Indemnities may be required. Terms and conditions apply. Toyota Financial Services is authorised and regulated by the Financial Services Authority.

Toyota Fleet

Toyota Fleet provides complete business solutions for companies that run a fleet of vehicles. For more information on how Toyota Fleet can deliver your fleet requirements either contact your local Toyota Centre or the Toyota Fleet Business Centre on 0845 271 2712.

Toyota Warranties

Every new Toyota comes with a three-year/60,000-mile manufacturer's warranty, covering your car against the unlikely event of a manufacturing defect causing a mechanical fault. It includes coverage for paint and surface rust for three years, unlimited mileage and a 12-year anti-perforation warranty. After the initial warranty period has ended, you can extend your warranty until the vehicle is seven years old – choosing from a range of packages to suit your vehicle and your needs. All of our warranties cover the main component parts of the vehicle*, meaning that you pay for nothing beyond routine servicing and maintenance, so there are no unexpected bills to pay.

Toyota Accident Assistance

Toyota provides a comprehensive accident management service to all Toyota drivers, giving advice, assistance and practical help free of charge in the event of an emergency.

Toyota Approved Used Car Scheme

All Toyota Approved Used vehicles come complete with a delivery pre-check, a mileage check, 12 months' Club Toyota membership[§] and a 30 day vehicle exchange agreement.

Toyota End-Of-Life Vehicles

The legislation on End-Of-Life Vehicles offers Toyota drivers a new and innovative way of returning their old vehicle to the producer. For more information about End-Of-Life Vehicles please refer to www.toyota.co.uk/environment

* With the exception of batteries, corrosion of exhaust, and damage or wear to the interior.

§ Except on non-Toyota vehicles.

Please refer to www.toyota.co.uk for further environmental information.

Advanced peace of mind

The new Yaris is designed for all those who want to get a little extra out of life. That's why you can expect a lot more than a sophisticated driving experience. Owning a Yaris means you enjoy the peace of mind afforded by Toyota's global reputation for quality and integrity.

On the day you purchase your Yaris, your retailer will present you with the 'Yaris Passport'. It's a guide to getting the best out of your Yaris and its comprehensive range of features. Of course, your retailer will explain the Yaris to you in detail – and always be available should you require any assistance.

Intelligent design

The Yaris is designed and engineered to minimise the maintenance overhead. There are fewer parts that require servicing and those that do are inherently durable to extend service intervals. Equally important is that Yaris technology is made easily accessible so that maintenance labour time can be minimised. These features combine with the highly competitive pricing of Toyota spares to ensure

the lowest cost of maintaining your Yaris in an ideal working condition.

Toyota quality service

Your Toyota retailer will talk you through the Yaris 'Health and Safety' maintenance programme. The programme is very straightforward and designed for your convenience. In effect, your Yaris needs a full Health and Safety check, dependent on driving style and conditions, up to once every two years or 30,000 km (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 15,000 km.

Toyota warranty

Comprehensive terms

The warranty covers any defect caused by a manufacturing or assembly fault. It is valid for three years of normal use or 60,000 miles, whichever comes first, with no mileage limitation for the first year.

If the car is immobilised due to a breakdown (as a result of a defect covered under warranty), you will also be covered for the cost of towing your vehicle to the nearest authorised Toyota repairer.

Rust and paint defects

The warranty also covers surface rust and paint defects appearing on any of the painted body panels as a result of a fault in material for a period of three years, regardless of mileage.

Corrosion cover

The warranty offers 12 years' coverage, regardless of mileage, against perforation of the bodywork (from inside to outside) that develop due to corrosion caused by faults in material or workmanship.

Toyota genuine parts

The Yaris is designed to minimise the cost of accident repair. Energy absorbing elements are built into the bumpers, expensive to replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low part and labour charges.

Added security

The Yaris' security system withstands the insurance industry's rigorous five-minute attack test and provides excellent protection. The engine immobiliser is approved by Europe's major insurance companies.

Toyota accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort or practicality. And because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a three-year warranty*.

* Check with your retailer for specific warranty details.
