Panel vans and kombis

Welcome.

Over the years, we've worked hard to establish Volkswagen Commercial Vehicles as a dependable, well-respected Brand. There is an indefinable robustness that distinguishes both our products and our organisation from others. It's founded in the twin reality of premium quality vehicles on the road, and down-to-earth assistance in our day-to-day dealings with our customers. We want you to have the confidence that wherever you are, whatever business you're in, Volkswagen can be relied on to deliver.

But we're not complacent. We are still working to improve our network of Van Centres, the product range and, of course, the level of customer care. We want to help you find the right vehicle for your business, and the right level of support for you. So if you need assistance, please, just ask.

Contents.

02 - 07
Welcome to Volkswagen Commercial Vehicles, introduction and importantly your quick reference guide.

08 - 13
The panel van and kombi range – which model is for me?

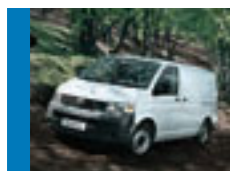

14 - 15
A summary of the panel van and kombi range.

16 - 33
The Volkswagen Caddy and Caddy Maxi van, standard specifications, prices, factory options and technical data.

34 - 41
The Caddy Maxi kombi.

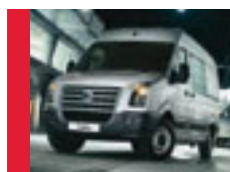

42 - 55
The new Volkswagen Transporter panel van, standard specifications, prices, factory options and technical data.

56 - 69
The new Volkswagen Transporter kombi.

70 - 85
The Volkswagen Crafter panel van, standard specifications, prices, factory options and technical data.

86 - 99
The Volkswagen Crafter kombi, standard specifications, prices, factory options and technical data.

100 - 103
Paint and upholstery for the panel van and kombi range and a comprehensive choice of Volkswagen Commercial Vehicle accessories.

104 - 107
Services, warranties, glossary and our dedicated Van Centre network.

Introduction.

So you're thinking about a new van. What does it need to carry? How heavy is the load you will put in it? How important is fuel consumption? What about servicing, warranties, available accessories and, of course, finance options?

All these, and many other questions, need to be answered before you can make an informed decision. One that's right for your business.

And because the Volkswagen Commercial Vehicles panel van and kombi range gives you such a wide choice, you're sure to get exactly what you need.

This brochure aims to make that process as easy as possible. We suggest you keep the 'Quick reference guide' pages open as you browse to help you in your choice. So let's go to work...

Panel van and kombi quick reference guide.

Model and price guide*	Volume m ³	Payload range kg
Caddy van £11,400.00 – £17,650.00		718 to 739
Caddy Maxi kombi £13,900.00 – £15,700.00		620 to 671
Caddy Maxi van £13,600.00 – £18,930.00		724 to 742

 ** Maxi = extended rear overhang.
 † Passenger seats in rear are not excluded from volume.

The Volkswagen panel van and kombi range.

What a range this is! For starters, we're the only manufacturer with an automatic gearbox on a diesel engine available across the whole of the range. Not only that, we also have a whole host of engine options, seating options, equipment options and so on. But with such a wide range to choose from, which is the right vehicle for you? After all, we have everything from the compact Caddy to the enormous Crafter long wheelbase maxi model with its extra high roof, all with different payloads and volumes.

The range now includes the Caddy Maxi panel van, which sits neatly into the spread of carrying capabilities of the Volkswagen panel van range; the new Caddy Maxi kombi, with a choice of passenger or load configurations; and the new Crafter kombi, with room for up to five people, and plenty of space for carrying equipment to site each day. There's also the new Transporter kombi and panel van, offering greater comfort, functionality, efficiency and flexibility than ever before.

Dependability is built into the very fabric of the Volkswagen Commercial Vehicles range. As is quality. Which means you can be absolutely certain that whichever model you finally choose, it will do the job, day in, day out. To get you started, here are a few of the benefits that come as standard:

- UK-wide Van Centre network support
- Finance options tailored to suit your business
- Payloads from 720kg all the way up to 2,603kg
- Load volumes from 3.2m³ to 17.0m³
- Value-for-money parts
- LongLife servicing
- Free 3-year Volkswagen Roadside Assistance
- Wide range of accessories for all models
- High residual values*.

* According to industry influencers.

Safety is a priority.

Your safety is such a vital factor that it is built-in, both with the integral construction of the vehicles, and in the features we include to protect the occupants. A long list of safety and security features applies to every vehicle, but may vary according to model specifications.

Features such as the 4MOTION® all wheel drive system to maintain traction in poor driving conditions, front and rear parking sensors, and anti-theft protection for added security, all offer particular assistance and protection when you're out on the road. Passive safety features include a driver's airbag, which is standard across the range with the option of passenger, side and curtain airbags.

These are some of the safety features available, but please refer to particular model specifications for which feature is available on which model:

- ABS*
- TCS*
- EBC*
- EBD*
- ESP* as standard on new Transporter panel van and kombi
- Driver and passenger airbags
- Side and curtain airbags
- Third brake light
- Bulkhead as standard on Caddy, Caddy Maxi and Crafter vans
- Automatic hazard lights activation under emergency braking standard on new Transporter and Crafter.

Add to all these independent suspension, stable road holding and responsive engines and you can be sure that you'll be as safe as we can make you. The rest is up to you!

* Please refer to the glossary on page 106 of this brochure.

So which model is for me?

You probably already know roughly what you'll need to carry. What is the biggest thing you'll need to get in your vehicle, or the heaviest, or the longest or just the most awkward? If you're a fleet manager, then you'll probably need a variety of options!

Having this in mind should help you get quickly to either the Volkswagen Caddy and Caddy Maxi, new Transporter or Crafter ranges as a starting point. Remember though that there is some cross-over between the ranges, and for example, the smallest Crafter may be more suitable than the biggest new Transporter, or a new Transporter may be more suitable than the Caddy Maxi. Please refer to the handy 'Quick Reference Guide' on page 6.

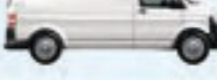

Remember, this brochure only covers panel vans and kombis, together with their factory-fitted options. There are separate brochures available for our chassis and double cab, and passenger-carrier ranges. There is also an accessories brochure for you to further enhance your van.

Now let's take a more detailed look at each model in the panel van range so you can begin to make your choice...

Summary of the Volkswagen panel van and kombi range.

Model	Gross vehicle weight kg	Wheelbase mm	Panel van low roof		
Caddy, Caddy Maxi and Caddy Maxi kombi.					
Caddy	up to 2,240*	2,682			
Caddy Maxi	up to 2,350*	3,002

		4,325			
		4,325 maxi†			

* Depending on engine and gearbox fitted.
 † Maxi = extended rear overhang.
 □ Indicates models fitted with optional equipment.

The Volkswagen Caddy and Caddy Maxi.

Load floor showing accommodation of euro-pallet.

The Caddy van may be the most compact in the panel van range, but it's very versatile, and will carry loads of up to 724kg with a generous load space of 3.2m³.

The Caddy Maxi panel van is its larger sibling, designed to carry even larger payloads and extending the carrying capacity to 800kg, but more importantly offering greater load space up to a whopping 4.2m³.

Getting your load in and out couldn't be easier as both Caddy models have asymmetric twin rear doors and a wide sliding side door, while the Caddy Maxi benefits from a second sliding door as standard, (optionally available on the Caddy van).

Apart from standard safety features such as built-in bulkhead protection and 6 load-lashing rings to secure your load safely, both Caddy variants include a host of features, such as a CD player fitted as standard, ensuring they're also great to drive!

Featuring such innovations as modified gear ratios and low-friction tyres, the Caddy BlueMotion Technology is both environmentally friendly and economical to run, with the 1.9 TDI diesel engine producing lower CO₂ emissions than any other comparable diesel – just 149g/km – yet achieving a powerful 104PS.

BLUEMOTION
— TECHNOLOGIES —

A full list of features can be found on the following pages, but this is an overview of what the Caddy and Caddy Maxi have to offer:

- Load volume up to 4.2m³
- Payload up to 800kg
- Asymmetric rear doors
- 700mm wide sliding side door
- Full height bulkhead
- Choice of up to four diesel engines
- ABS*, EBC*, EBD* and TCS*.

Vehicle weights and dimensions are shown on page 24 and 25. Other features and specifications are detailed on pages 18 and 19.

* Please refer to the glossary on page 106 of this brochure.

Volkswagen Caddy and Caddy Maxi standard specifications.

Body.

- 60 litre lockable fuel tank
- Black wheel centre caps
- Externally adjustable exterior mirrors:
 - Convex on passenger's side
 - Aspherical on driver's side
- Front and rear towing eyes
- Grey bumpers
- Heat reflective glass
- Jack and tool kit with steel spare wheel (except BlueMotion Technology)
- Partially galvanised all-steel body
- Roof load rack preparation

Interior.

Roof load limit: 100kg.

Trailer nose weight limit: 80kg.

² For 12% gradient.

[†] Unladen weight and payload includes approximately 90% fuel load and 75kg for driver.

Payload = gross vehicle weight - unladen weight.

Weights are for vehicles with standard specification. The addition of factory options or Volkswagen Van Centre fitted accessories may affect unladen weight and payload.

² The 104PS TDI PD diesel engine with 6-speed DSG semi-automatic gearbox is equipped with a Diesel Particulate Filter (DPF) as standard on Caddy Maxi

Direct Shift Gearbox.

The award winning and highly acclaimed Direct Shift Gearbox (DSG) is unique to the commercial vehicle market and operates with two automatic clutches – while one is engaged, the other is ready and to accept the next gear. This twin clutch technology means you can change gear much faster than with a standard automatic gearbox – actually in less than four hundredths of a second.

This means that for stop-start round city work the DSG comes into its own, making life much easier for the driver. Of course you can still change gear manually if you prefer!

Caddy and Caddy Maxi Sportline. Stand out from the crowd.

A whole host of enhancements set both the Volkswagen Caddy Sportline and the Volkswagen Caddy Maxi Sportline apart from the crowd. Both models have the top-of-the-range 140PS diesel engine and a smooth 6-speed gearbox, providing huge power and workload capability.

The Caddy Sportline has a maximum payload of 677kg with a load space of 3.2m³, one side sliding door, and bulkhead with upper mesh panel whilst the Caddy Maxi Sportline carries a whopping 724kg payload in a cavernous 4.2m³ load space. It also boasts a sliding door on both sides, providing maximum flexibility in loading, and a full height solid bulkhead.

One glance will identify these models as a little bit special. Colour-coded bumpers, mirrors and door handles, lower front spoiler, rear roofline spoiler, integrated front fog lights, chrome front grilles and the bespoke 17" 6-spoke alloy wheels have a Sportline centre logo which all add to the sporty feel. The chrome side rails not only look good, they also protect the sills from damage. There's a choice of Tornado Red, Reflex Silver metallic or Diamond Black pearl paint finishes to complement your personality.

- 01** Superb sound from a RCD 310 Radio/CD player, MP3 compatible with 2 wideband speakers. Includes AUX-IN socket.
- 02** Stylish, bespoke Sportline badge.
- 03** Electric front windows.
- 04** Full height bulkhead – solid lower with plastic mesh upper on Caddy Sportline.
- 05** Sportline models can be specified in Tornado Red (or Reflex Silver metallic and Diamond Black pearl which are available at extra cost).

Caddy and Caddy Maxi Sportline. Be distinctive: elevate your profile.

The chrome side rails, colour-coded handles and alloy wheels make the Sportline distinctive. However, the all round exterior styling is only part of the package. The interior is a bit special too, with the seats being upholstered in premium grade, hand-crafted black Italian leather using red stitching, micro perforated centre panels and an exclusive embroidered Sportline logo.

But it is more than just the Sportline styling that makes these models a bit different. The driver's compartment is ergonomically laid out, and additional touches are easily apparent. Both models are equipped with 'Climatic' air conditioning, an RCD 310 Radio/CD unit featuring an AUX-IN socket for connection to an external multimedia source such as MP3 player and iPod, and conveniently located controls for the electronic front windows and the electronically adjustable and heated mirrors.

Safety is paramount too, with ABS (Anti-lock Braking System), TCS (Traction Control System) and EBC (Engine Braking Control) all coming as standard. A driver's airbag is also fitted as well as all the appropriate safety measures you would expect from a Volkswagen Commercial Vehicle.

So when you need a good balance between work and pleasure, the Sportline range is the perfect choice.

- 06** Opaque glass on rear doors of Caddy and Caddy Maxi Sportline, image also shows the rear roofline spoiler.
- 07** Elegant body-coloured front bumper with sporty lower front spoiler.
- 08** Sumptuous hand-crafted black Italian leather seats with perforated centre panels and embroidered Sportline logo.
- 09** 17" 6-spoke alloy wheels enhanced with Sportline centre caps.
- 10** Solid full height bulkhead on Caddy Maxi Sportline.

The Volkswagen Caddy Maxi kombi.

Load floor showing accommodation of euro-pallet.

Whether you want room for passengers or loadspace, or a combination of both, the Caddy Maxi kombi provides the ideal solution. Its flexible design allows you to seat up to five people – ideal if you need to carry crew to site each day – and if you have to carry additional equipment, you can create extra load space easily and quickly by simply folding the rear seats forward. This increases the already generous 1.6m³ loadspace to a vast 3.9m³, ready to accommodate whatever extra equipment you need to carry.

Access to the Caddy Maxi kombi's rear seating couldn't be simpler, with two 700mm wide side-sliding doors enabling passengers to get in and out with the greatest of ease. It's easy to get your load in and out, too, as a large tailgate provides entry to the rear of the van. A window in the middle panel enables passengers in the second row of seats to see outside, and the back panel is metal to protect your load from prying eyes. Lashing rings are also provided, to ensure your load is kept safe and secure during transit.

A choice of two powerful and economical 'Pumpe Duse' (PD) diesel engines deliver a combination of top performance and exceptional frugality, enabling you to cruise effortlessly on the motorway or nip around town, while the optional Direct Shift Gearbox (DSG) lets you change gear much faster than a standard automatic gearbox, ideal for city work. With a host of features, such as a CD player, fitted as standard, the Caddy Maxi kombi is fully equipped to ensure your total comfort and convenience.

The following pages provide more detail, but here's an overview of what the Caddy Maxi kombi has to offer:

- Seating for up to five, including the driver
- Load volume up to 3.9m³
- Payload up to 671kg
- 700mm wide sliding doors to left and right
- Large tailgate
- Choice of two diesel engines
- ABS, EBC, EBD and TCS*

* Please refer to the glossary on page 106 of this brochure.

- Available.
- Not available.

¹ The 104PS TDI PD diesel engine with 6-speed DSG semi-automatic gearbox is equipped with a Diesel Particulate Filter (DPF) as standard.

Direct Shift Gearbox.

The award winning and highly acclaimed Direct Shift Gearbox (DSG) is unique to the commercial vehicle market and operates with two automatic clutches – while one is engaged, the other is ready and to accept the next gear. This twin clutch technology means you can change gear much faster than with a standard automatic gearbox – actually in less than four hundredths of a second.

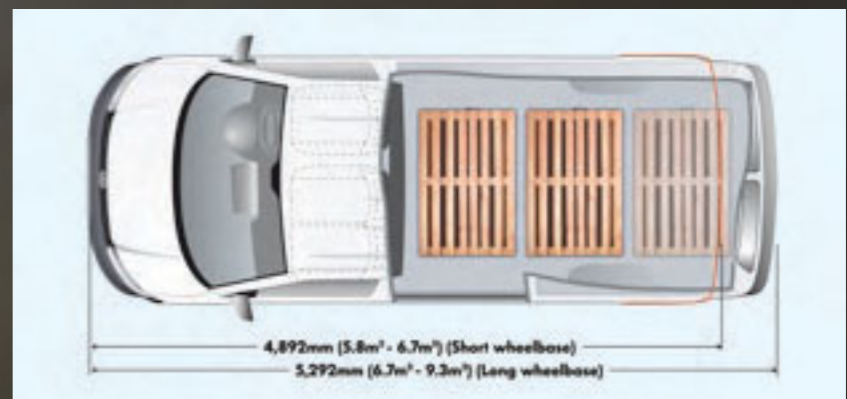

This means that for stop-start round city work the DSG comes into its own, making life much easier for the driver. Of course you can still change gear manually if you prefer!

The new Volkswagen Transporter panel van.

Load floor showing accommodation of euro-pallets.

The world-renowned Transporter has always enjoyed a solid reputation for its versatility, features and sheer dependability. Now, safer, smarter and more efficient than ever before, the new generation Transporter panel van offers new levels of comfort, refinement and performance.

For a start, new TDI common rail diesel engines offer significantly improved fuel economy and greatly reduced CO₂ emissions. There's also the option of a 7-speed DSG Direct Shift Gearbox, offering greater driving comfort, and 4MOTION® four-wheel drive, capable of taking rough, wet or snowy terrain in its stride, and enabling you to reach more inaccessible sites easily and safely.

The restyled exterior gives the new Transporter a timeless, elegant appeal, and inside the new three-spoke steering wheel and re-worked dash and instrument cluster greatly enhance the driving experience. Safety features now include ESP with hill hold assist, driver and passenger airbags and hazard light activation during emergency braking all as standard. Comfortable, safe and highly intelligent, the new Transporter is now quite simply more capable and more refined than ever before.

Main features of new Transporter panel van:

- Outstanding fuel economy and greatly reduced CO₂ emissions
- Optional award-winning DSG gearbox and 4MOTION® four-wheel drive
- Restyled exterior and interior
- High level of standard specification, with focus on driver comfort
- Extensive choice of optional equipment

- Short or long wheelbase
- Low, medium or high roof
- Load volumes from 5.8m³ to 9.3m³
- Payloads from 749kg up to 1,333kg
- Twin rear doors as standard or optional tailgate
- Dual passenger seat with folding backrest for additional load length

New Transporter panel van standard specifications.

Body.

- 80 litre lockable fuel tank
- Black wheel centre caps
- Externally adjustable exterior mirrors:
 - Convex on passenger's side
 - Aspherical on driver's side
- Front and rear towing eyes
- Galvanised full steel body
- Grey bumpers
- Heat reflective glass
- Tyre repair kit
- Unglazed rear wing doors

Interior.

Trailer nose weight is 100kg.
Roof load limit (not medium or high roof) is: maximum 150kg (with 4 roof bars)
maximum 100kg (with 2 roof bars)

Tailgate load limit (where fitted) is maximum 75kg.
Vehicles with medium or high roof have no provision for roof loads.

* For 12% gradient.
** Unladen weight and payload includes approximately 90% fuel load and 75kg for driver.
Payload = gross vehicle weight - unladen weight.

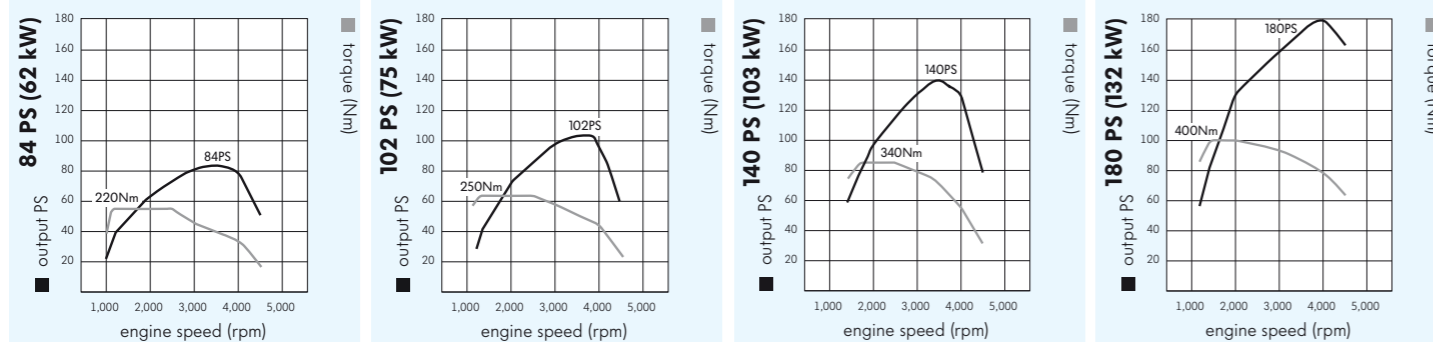

Weights are for vehicles with standard specification. The addition of factory options or Volkswagen Van Centre fitted accessories may affect unladen weight and payload.

4MOTION® – gets to grips with hard work.

The new Transporter 4MOTION® all wheel drive system is designed to maintain traction in poor surface conditions like rain, snow, mud or gravel. By distributing drive to the wheels with the most grip, 4MOTION® offers stable road-holding and enhanced safety, reacting to the slightest loss of traction in milliseconds.

Available with the 140PS and 180PS engines, 4MOTION® is linked through control units to the vehicle's dynamic sensors, engine management system and gearbox, and is designed to be compatible with ABS. All vehicles fitted with 4MOTION® also have a locking rear differential for additional traction in extreme circumstances.

Please contact your Van Centre for full details of availability.

⁴ With 50% payload and 80 litre fuel tank capacity.

New generation 7-speed Direct Shift Gearbox.

Unique to the commercial vehicle market, this highly acclaimed transmission system is now available for the first time on the new Transporter, making life much easier for the driver.

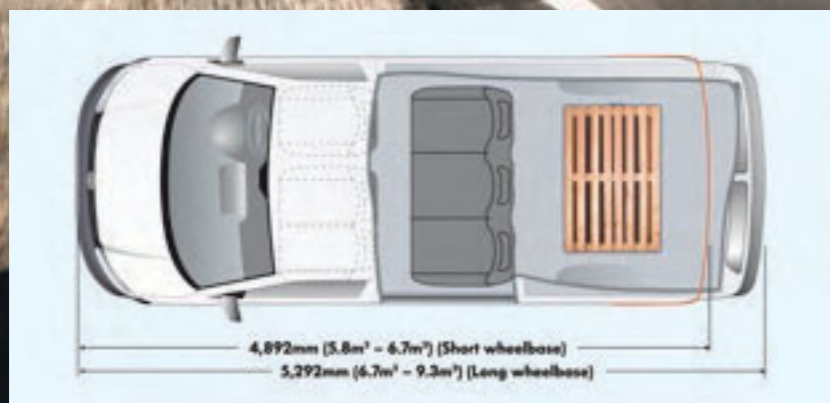

DSG operates via two automatic clutches: while one is engaged, the other is ready to accept the next gear. This enables changing of gears much faster than a standard automatic gearbox or manual – in less than four hundredths of a second – making it ideal for stop-start city driving.

The new Volkswagen Transporter kombi.

Load floor showing accommodation of euro-pallets.

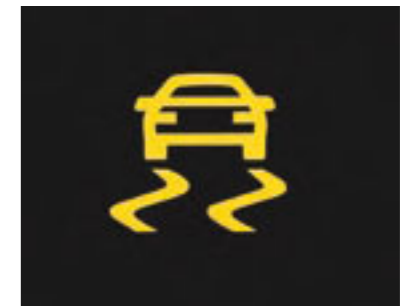

Flexible, versatile and extremely adaptable, that's the new Transporter kombi, offering seating for up to five passengers, plus the driver, with extra room for your load.

Powerful yet frugal, new generation TDI common rail diesel engines deliver impressive fuel economy along with significantly reduced CO₂ emissions, and there's also the option of the new 7-speed DSG Direct Shift Gearbox, offering greater driving comfort. A sliding side door with windows on the left of the kombi provides easy access for passengers, while rear solid panels ensure your load is well concealed.

Restyled inside and out to give a new, more elegant look, the new Transporter kombi provides exceptional levels of comfort, safety and functionality. Standard features include a CD player, driver's seat with height and lumbar adjustment and three-seat bench in the first row, and safety features include driver and passenger airbags, ESP and hazard light warning activation during emergency braking. There's even an optional 'Lane change assist', warning you of any vehicles in your blind spot.

Main features of the new Transporter kombi include:

- Seating for up to 5 passengers, plus the driver, plus your load
- Short or long wheelbase
- Tailgate standard, rear doors optional
- Low, medium or high roof
- Left side sliding door with windows
- Four TDI engines, from 84PS to 180PS
- ESP with hill hold assist as standard
- Restyled exterior and interior
- High level of standard specification
- Great choice of optional equipment

New Transporter kombi standard specifications.

Body.

- 80 litre lockable fuel tank

Model	Gross vehicle weight kg	Engine	Axle load limit front / rear kg	Trailer weight braked / unbraked* kg	Gross train weight kg	Unladen weight** kg	Payload** kg
T30	3,000	84PS TDI	1,500 / 1,600	2,200 / 750	4,800	1,976	1,024
		140PS TDI	1,550 / 1,600	2,500 / 750	5,200	1,976	1,024
T32	3,200	102PS TDI	1,600 / 1,680	2,200 / 750	4,900	1,976	1,224
		140PS TDI	1,650 / 1,680	2,500 / 750	5,200	1,976	1,224
		140PS TDI DSG	1,650 / 1,680	2,500 / 750	5,300	1,982	1,218

Model	Gross vehicle weight kg	Engine	Axle load limit front / rear kg	Trailer weight braked / unbraked* kg	Gross train weight kg	Unladen weight** kg	Payload** kg
T32	3,200	102PS TDI	1,625 / 1,680	2,200 / 750	4,900	1,998	1,202
		140PS TDI	1,675 / 1,680	2,500 / 750	5,200	2,033	1,167
		180PS TDI	1,675 / 1,680	2,500 / 750	5,200	2,064	1,136

Trailer nose weight is 100kg.

Roof load limit (not medium) is: maximum 150kg (with 4 roof bars).
maximum 100kg (with 2 roof bars).

Tailgate load limit (where fitted) is maximum 75kg.

Vehicles with medium roof have no provision for roof loads.

* For 12% gradient.

** Unladen weight and payload includes approximately 90% fuel load and 75kg for driver.

Payload = gross vehicle weight - unladen weight.

Weights are for vehicles with standard specification. The addition of factory options or Volkswagen Van Centre fitted accessories may affect unladen weight and payload.

VAT information.

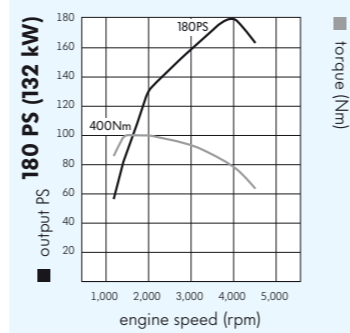

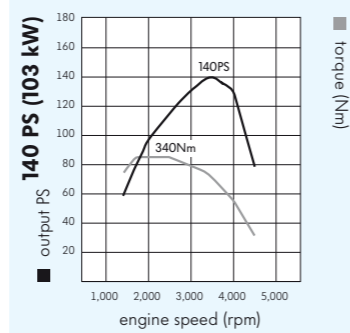

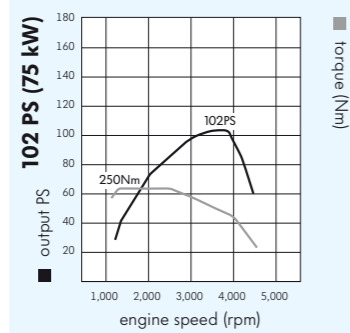

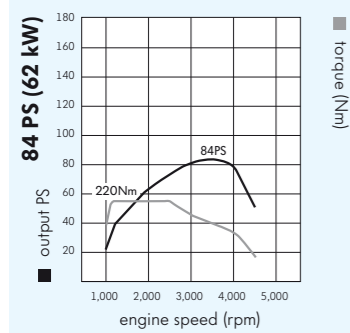

The VAT paid on kombi can usually be recovered if the vehicle is purchased by a VAT registered business. However VAT incurred on the purchase of vans fitted with windows and/or seats to the rear of the driver cannot be recovered unless the vehicle payload meets or exceeds 1,000kg. Otherwise VAT incurred on these vehicles is not available for recovery unless the vehicle is used for 100% business purposes. It is the customer's responsibility to deal with the VAT correctly. Customers should always seek professional advice to establish their own personal tax position.

* 84PS not available on T32 models.

†† With 50% payload and 80 litre fuel tank capacity.

New generation 7-speed Direct Shift Gearbox.

Unique to the commercial vehicle market, this highly acclaimed transmission system is now available for the first time on the new Transporter, making life much easier for the driver.

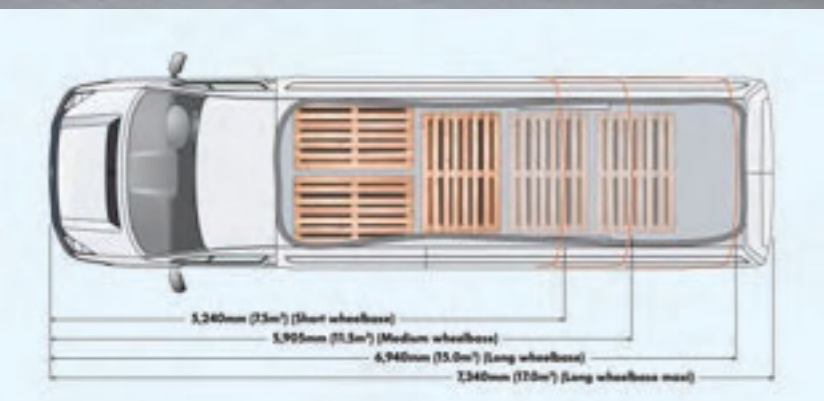

DSG operates via two automatic clutches: while one is engaged, the other is ready to accept the next gear. This enables changing of gears much faster than a standard automatic gearbox or manual – in less than four hundredths of a second – making it ideal for stop-start city driving.

The Crafter panel van.

Load floor showing accommodation of euro-pallets.

As the largest model in the Volkswagen range, the Crafter offers a number of key underlying strengths. Powerful BlueTDI engines with enough torque to satisfy the most demanding use, enough space to accommodate the most awkward load, and an array of features to satisfy the most discerning customer all combine to make the Crafter the vehicle of choice for a huge range of businesses.

And it's choice that marks the Crafter out as special. Because whatever your basic load-carrying requirement – length, weight or size – there's a model in the Crafter range that will do the job. It's not just about capability, though. Technological innovation also brings you a number of significant cost saving and environmental benefits.

Like the optional Stop-Start function, for example, activated by a control switch on the instrument panel, and designed to turn off your engine automatically when it's not needed – saving fuel and cutting vehicle emissions, noise and engine wear. Simply depress the clutch for the engine to restart automatically.

Driving becomes even more economical and environmentally-friendly with AdBlue® Technology, which works in combination with an SCR catalyst and long gear ratios to significantly reduce fuel consumption and nitrogen oxide emissions, ensuring the Crafter exceeds even the future Euro V standard.

More features and options are listed on the following pages, but standard features across the range include:

- ABS*, ESP* (load adjusting) and TCS*
- Class-leading side door – loads a euro-pallet sideways
- Full height steel bulkhead
- Load-lashing rings
- Thatcham category 1 alarm system.

*Please refer to the glossary on page 106 of this brochure.

More choices are detailed on the following pages, but the Crafter panel van's primary choices include:

- Load volumes from 7.5m³ to 17.0m³ (load area takes up to 5 euro-pallets)
- Payloads from 936kg up to 2,528kg
- Low, high or extra high roof
- Range of 4 BlueTDI common-rail diesel engines
- 3 wheelbase options
- 4 load lengths available
- Euro V engines (also EEV1) for a more efficient and environmentally friendly drive.

¹EEV: Enhanced Environmentally-friendly Vehicle standard.

Crafter panel van standard specifications.

Body.

- 25 litre AdBlue® tank
- 75 litre fuel tank with lockable cap
- Black bumpers with integrated front step
- Black wheel centre caps
- Externally adjustable external convex mirrors with indicators
- Front and rear towing eyes, (front only on CR50)
- Heat reflective glass
- Lateral side marker lights (LWB and LWB maxi)
- Sheet steel flooring
- Side sliding door on left
- Tyre repair kit and compressor
- Unglazed rear wing doors

	163PS BlueTDI	1,850 / 3,500	3,000 / 750	7,000	2,474	2,526

Roof load limit 300kg (low roof); 150kg (high roof).

Trailer nose weight 100kg.

All data is provisional.

* For 12% gradient.

** Unladen weight and payload includes approximately 90% fuel load and 75kg for driver.

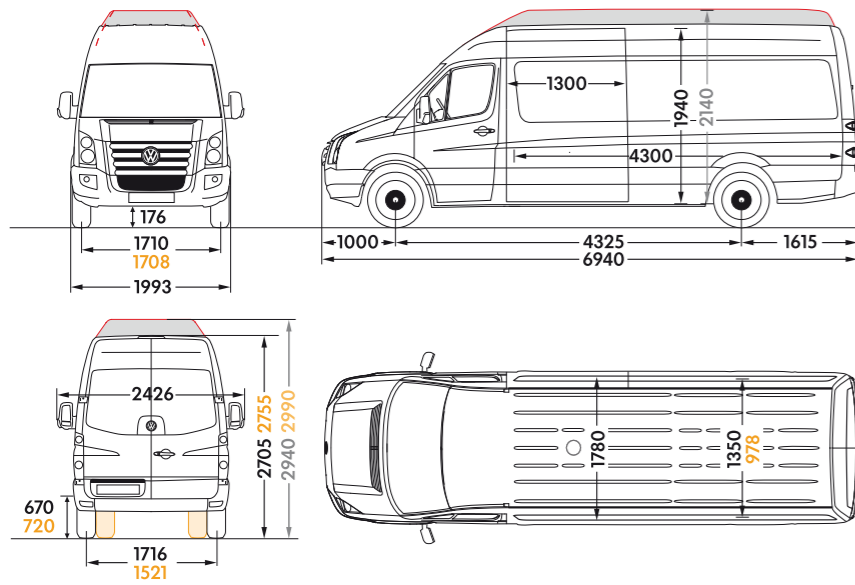

Payload = gross vehicle weight - unladen weight.

Weights are for vehicles with standard specification. The addition of factory options or Volkswagen Van Centre fitted accessories may affect unladen weight and payload.

Please note: The CR35 model has a designed 'Trailer weight braked' of 2,800kg, so it is possible for an aftermarket braked towbar of up to 2,800kg to be fitted providing that the vehicle plating is also retro-uprated to a maximum of 2,800kg (and 'Gross train weight' of 6,300kg). Please contact your nearest Van Centre for details, including available axle ratio options to suit vehicle requirements.

Shiftmatic.

This lightweight gearbox combines the functionality of an automatic with the characteristics of a manual.

The Shiftmatic can be operated in either manual or automatic mode. In automatic mode all gears are selected automatically by the gearbox control unit, with a kick-down function for those times where extra acceleration is needed.

In manual mode, the driver pushes the gear lever forwards to change down, or backwards to change up, giving all the benefits of a manual gearbox without the need for a manual clutch – perfect for city driving.

¹ With 50% payload.

The figures listed apply to vehicles with manual gearbox, without optional extras.

Figures in square brackets show top speed for vehicles without speed limiter.

Figures above show vehicles fitted with standard axle ratio.

AdBlue®.

Driving becomes even more economical and environmentally-friendly with new AdBlue® Technology, which works in combination with an SCR catalyst and the Crafter's long gear ratios to significantly reduce fuel consumption and nitrogen oxide emissions.

All BlueTDI Crafters are equipped with AdBlue®, which fulfils the most demanding European emission standard, EEV (Enhanced Environmentally friendly Vehicle), and exceeds the Euro V emissions standard.

Stop-Start function.

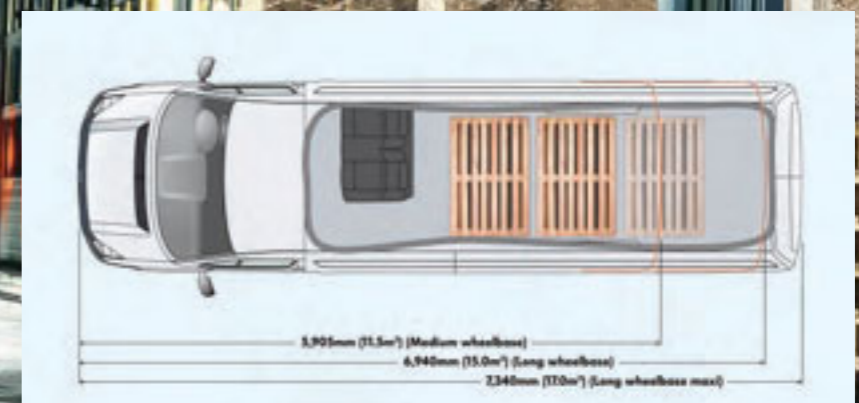

The Crafter's Stop-Start function, available as an option, is activated by a switch on the instrument panel and is designed to turn off the engine automatically when it's not needed – saving fuel and cutting vehicle emissions, noise and engine wear.

The engine will stop whenever the vehicle is stationary for more than two seconds, providing the gearbox is in neutral and the clutch has been released, and will then restart automatically when the driver depresses the clutch. For safety, the system is automatically de-activated if the door or bonnet is opened or the seat belt is undone.

The Volkswagen Crafter kombi.

Load floor showing accommodation of euro-pallets.

Enough space for up to five people and plenty of room for equipment behind the second row of seats. That's the beauty of the Crafter kombi, providing the ideal solution if you need to carry crew and your equipment to site each day, with extra load space available via the removable rear dual seat bench. A choice of three wheelbases includes medium, long and long wheelbase maxi, with two roof heights also available. Glass in the rear sliding door and opposite panel enables passengers to see out, while metal rear side panels protects your load from prying eyes.

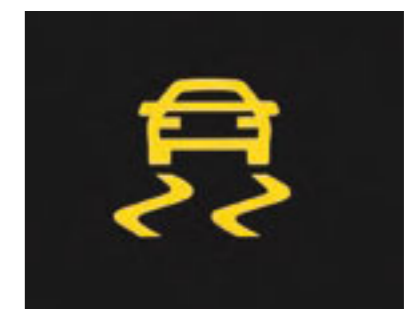

A wide range of optional equipment enables you to customise your Crafter kombi to your exact requirements. Load lashing rails, for example, help keep your equipment secure, while heated, electric mirrors, headlight washers and a heated windscreen make journeys in the winter months so much easier. Features such as cruise control, a multi-function steering wheel and satellite navigation help make travel as relaxed and stress-free as possible, and there is also an optional reversing camera and parking sensors help you manoeuvre easily and safely into parking places.

Spacious and versatile, just look what you can expect to find in the Crafter kombi:

- ABS*
- Easy access through an extremely wide sliding door
- ESP* (load adjusting)
- Optional bulkhead behind second row of seats
- Removable dual seat bench in rear
- Seating for up to 4 passengers plus driver
- Thatcham category 1 alarm system

Other features and options are listed on the following pages.

* Please refer to the glossary on page 106 of this brochure.

Crafter kombi standard specifications.

Body.

- 25 litre AdBlue® tank
- 75 litre fuel tank with lockable cap
- Black bumpers with integrated front step
- Black wheel centre caps
- Externally adjustable external convex mirrors with indicators
- Front and rear towing eyes, (front only on CR50)
- Heat reflective glass in side sliding door and opposite panel
- Lateral side marker lights (LWB and LWB maxi)
- Sheet steel flooring
- Side sliding door on left
- Tyre repair kit and compressor
- Unglazed rear wing doors

		163PS BlueTDI	1,850 / 3,500	3,000 / 750	7,000	2,571	2,429

Roof load limit 300kg (low roof); 150kg (high roof).

Trailer nose weight 100kg.

All data is provisional.

* For 12% gradient.

** Unladen weight and payload includes approximately 90% fuel load and 75kg for driver.

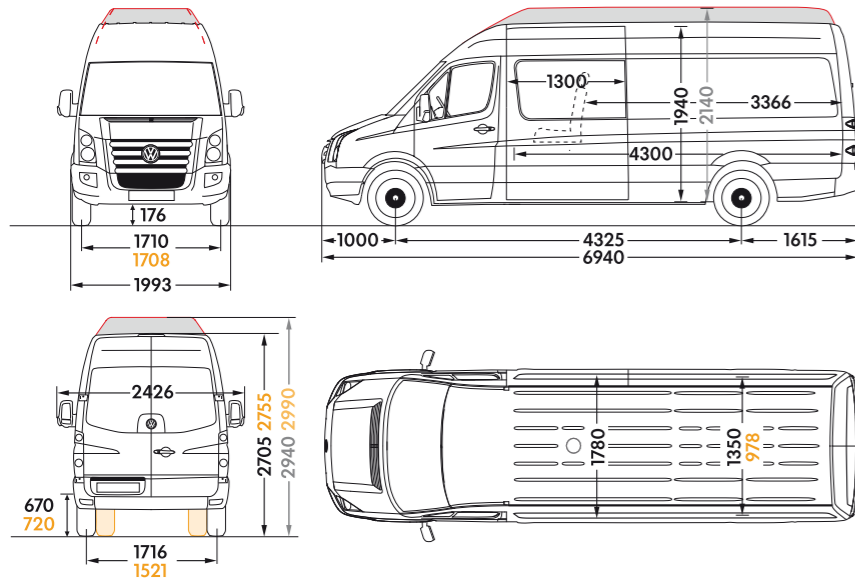

Payload = gross vehicle weight - unladen weight.

Weights are for vehicles with standard specification. The addition of factory options or Volkswagen Van Centre fitted accessories may affect unladen weight and payload.

Please note: The CR35 model has a designed 'Trailer weight braked' of 2,800kg, so it is possible for an aftermarket braked towbar of up to 2,800kg to be fitted providing that the vehicle plating is also retro-uprated to a maximum of 2,800kg (and 'Gross train weight' of 6,300kg). Please contact your nearest Van Centre for details, including available axle ratio options to suit vehicle requirements.

	163PS BlueTDI	1,850 / 3,500	3,000 / 750	7,000	2,814	2,186

Roof load limit 300kg (low roof); 150kg (high roof).
Trailer nose weight 100kg.
All data is provisional.
† Maxi = extended rear overhang.
* For 12% gradient.
** Unladen weight and payload includes approximately 90% fuel load and 75kg for driver.
Payload = gross vehicle weight - unladen weight.

Weights are for vehicles with standard specification. The addition of factory options or Volkswagen Van Centre fitted accessories may affect unladen weight and payload.

Please note: The CR35 model has a designed 'Trailer weight braked' of 2,800kg, so it is possible for an aftermarket braked towbar of up to 2,800kg to be fitted providing that the vehicle plating is also retro-uprated to a maximum of 2,800kg (and 'Gross train weight' of 6,300kg). Please contact your nearest Van Centre for details, including available axle ratio options to suit vehicle requirements.

¹ With 50% payload.

The figures listed apply to vehicles with manual gearbox, without optional extras. Figures in square brackets show top speed for vehicles without speed limiter. Figures above show vehicles fitted with standard axle ratio.

Shiftmatic.

This lightweight gearbox combines the functionality of an automatic with the characteristics of a manual.

The Shiftmatic can be operated in either manual or automatic mode. In automatic mode all gears are selected automatically by the gearbox control unit, with a kick-down function for those times where extra acceleration is needed.

In manual mode, the driver pushes the gear lever forwards to change down, or backwards to change up, giving all the benefits of a manual gearbox without the need for a manual clutch – perfect for city driving.

AdBlue®.

Driving becomes even more economical and environmentally-friendly with new AdBlue® Technology, which works in combination with an SCR catalyst and the Crafter's long gear ratios to significantly reduce fuel consumption and nitrogen oxide emissions.

All BlueTDI Crafters are equipped with AdBlue®, which fulfils the most demanding European emission standard, EEV (Enhanced Environmentally friendly Vehicle), and exceeds the Euro V emissions standard.

Stop-Start function.

The Crafter's Stop-Start function, available as an option, is activated by a switch on the instrument panel and is designed to turn off the engine automatically when it's not needed – saving fuel and cutting vehicle emissions, noise and engine wear.

The engine will stop whenever the vehicle is stationary for more than two seconds, providing the gearbox is in neutral and the clutch has been released, and will then restart automatically when the driver depresses the clutch. For safety, the system is automatically de-activated if the door or bonnet is opened or the seat belt is undone.

Volkswagen service for your peace of mind.

The Volkswagen warranty.

Three-year warranty*

All Crafters come with a three-year unlimited mileage warranty, which protects your vehicle against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year unlimited mileage Van Centre warranty.

All other Volkswagen Commercial Vehicles come with a three-year/100,000 miles warranty. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/100,000 miles (whichever is soonest) Van Centre warranty. Should the mileage exceed 100,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen Van Centre or Van Service Centre; however, this additional warranty must be purchased before the mileage reaches 100,000.

Three-year Paint warranty*

The paintwork of all vehicles is covered against manufacturing defects for a period of three years. Naturally, the vehicle must be cared for in compliance with the operating instructions which will be found in your owners handbook.

12-year Body Protection warranty*

The internal body sections and panels of all vehicles are covered against rusting through from the inside for 12 years. Naturally, the vehicle must be cared for in compliance with the operating instructions.

Service intervals for Diesel Engines**

The LongLife Service regime is so called because there are no set intervals. The intervals between services will vary depending on how you drive your vehicle and the conditions of use. There is however maximum time/distance parameters set and if the service light has not already come on it will do so when either the maximum mileage or time limit is met.

The maximum mileage/time parameters vary by model, for more detailed information on LongLife Service regimes and their suitability for your requirements please contact your local Van Centre.

If you would like a more traditional service regime the vehicle can be adapted by your authorised Volkswagen Van Centre or Van Service Centre to the Time/Distance regime. This can be done at the point of vehicle sale or when an inspection service is carried out. An oil change is required at every 10,000 miles for Caddys and new Transporters and 12,500 for Crafters on the Time/Distance regime.

Volkswagen Commercial Vehicle Finance†

Volkswagen Commercial Vehicle Finance offers a dedicated service to meet the needs of both the business user and the private motorist. Your local Van Centre can help you choose the right type of finance package to meet your specific requirements. Please ask for details.

† Volkswagen Commercial Vehicle Finance is a trading name of Volkswagen Financial Services (UK) Limited. Subject to status. Finance available to over 18s only. Indemnities may be required.

Volkswagen Commercial Vehicle Insurance.

We want you to start enjoying your new van from day one and thanks to the complimentary seven day cover from Volkswagen Commercial Vehicle Insurance, you can. Call free on **0800 316 7896** (lines are open Monday to Friday 8am – 9pm and Saturday 9am – 5pm), provide a few details and a cover note will be sent to your Van Centre. They will then tax your vehicle and you can drive it away. Visit insurewithvwc.co.uk for details of the full range of insurance products available. Here you can also get a quote for your annual van insurance and buy it online too. All of our insurance products are designed to ease the pain of making a claim.

Volkswagen Commercial Vehicle Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230. Volkswagen Commercial Vehicle Insurance is sold, underwritten and administered by Allianz Insurance plc registered in England number 84638. Registered office 57 Ladymead, Guildford, Surrey GU1 1DB. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are authorised and regulated by the Financial Services Authority. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are not part of the same corporate group.

* Full details of Volkswagen warranties are available from your authorised Volkswagen Van Centre or Van Service Centre.

** All mileages are approximate as the system uses kilometres as the distance measure. Please consult your authorised Volkswagen Van Centre or Van Service Centre for full details.

Please note: Some of the vehicles shown are fitted with optional equipment at extra charge. All data given and specifications are in accordance with information available at the time of going to print and are subject to change without notice. Vehicles not in current UK stock and customer order vehicles may take a number of weeks for delivery. Certain combinations of vehicle specifications and factory fitted extras are not compatible and therefore all orders received are subject to confirmation. Models, factory fitted options and paint and upholstery options subject to availability. Please check details and availability with an authorised Volkswagen Van Centre at the time of ordering. Please check details and availability with an authorised Volkswagen Van Centre at the time of ordering. The brand name Caddy is used with the kind approval of 'Caddie S.A., France'.

Volkswagen Original Parts®.

When you fit replacement parts to your vehicle, you need to know that they'll stand the test of time. Volkswagen Original Parts® are constructed to the highest standards, are cheaper than you might think and are widely available from Volkswagen Group's massive national distribution centre.

Options and accessories.

We know that no two businesses are the same. To this end, we have developed an extensive range of factory fitted, as well as Van Centre fitted accessories, so that your van can be enhanced with your own requirements in mind.

Volkswagen Assured Used Commercial Vehicles.

An increasing number of Volkswagen Van Centres are able to offer total peace of mind when purchasing a used van. You can rest in the confidence that every Volkswagen Assured Used Commercial Vehicle has been subjected to a comprehensive range of specialist checks that make them as safe a choice as a new Volkswagen van.

Volkswagen Van Rental.

Many Volkswagen Van Centres offer a cost-effective van rental service. It comes with the assurance that every van is late model, low mileage and presented in a high quality condition that reflects your business operation. Long-term business rental is also available. For more information on Volkswagen Van Rental, call **0844 558 1588**.

Volkswagen Roadside Assistance.

Every new Volkswagen purchased benefits from an unlimited mileage, comprehensive recovery and assistance package across the UK and Europe for a full three years, operating 24 hours a day, 365 days a year. Fully trained technicians are able to diagnose and repair most problems at the roadside, using Volkswagen equipment and parts. For more information ask your nearest Van Centre for a Volkswagen Roadside Assistance handbook.

Glossary.

ABS Anti-lock Braking System.

It can be very challenging to stop a van quickly on a slippery road. ABS helps take a lot of the effort and stress out of a situation. In fact, even an average driver can stop more effectively with ABS than a professional driver without.

The theory is simple, a wheel that's skidding has less traction than a wheel that is not. For example, if you try to pull away too quickly on ice your wheels spin, meaning no traction. Simply, ABS prevents the wheels from skidding whilst you slow down, which means you slow faster and are able to steer while you come to a stop.

EDL Electronic Differential Lock.

Electronic Differential Lock uses the ABS sensors at driven wheels to determine if one of the wheels is spinning faster than the others. It uses the ABS system to momentarily apply braking to balance out the traction to the driven wheels. Front wheel drive vehicles typically have the most recognisable feel, as they make the typical ABS type pulsating sound when activated during wheel spin.

ESP Electronic Stabilisation Programme.

When the vehicle is driving in situations close to its limit ESP makes it easier to control, providing greater directional stability. By applying the brakes on individual wheels it generates forces that help to keep the vehicle moving in the right direction. The system is permanently active and utilises the ABS, EBD, EDL and TCS safety systems. However, the system cannot override the physical limits of the vehicle. If the driver pushes the vehicle beyond its limits ESP will not prevent an accident. On Crafter models, the ESP sensor takes into account any load on board and adjusts its response accordingly.

ARP Active Rollover Protection.

As part of the ESP system, ARP recognises an impending rollover and rapidly applies braking to selective wheels to resist the occurrence of rollover. Especially useful on a vehicle with a high centre of gravity such as a van. ARP detects excessive lateral force, for example driving too fast into a corner, which may result in a rollover.

TCS Traction Control System.

Traction control helps limit tyre slip on slippery surfaces while accelerating, thus helping the driver have greater control. Using sensors at each wheel, the system recognises when traction has been lost and it momentarily applies braking to that wheel to regain the traction.

Traction control does not have the ability to increase traction; it just attempts to prevent a vehicle's wheels from spinning. In some vehicles, TCS is also known as ASR.

EBA Electronic Brake Assist.

The Electronic Brake Assist system helps to shorten stopping distances, especially when fully laden. In an emergency when full brake pressure is required, a sensor recognises this and uses a hydraulic booster to aid the driver.

EBD Electronic Brakeforce Distribution.

EBD helps prevent the rear-end from breaking away under heavy braking by ensuring maximum braking performance at both the front and rear wheels. Brake 'fading', as a result of overheating, is also counteracted.

DPF Diesel Particulate Filter.

A diesel particulate filter is a system for removing particulates from diesel exhausts and is a major step forward in the reduction of particulate contaminants in the environment.

EBC Engine Braking Control.

This system prevents the driven wheels from locking due to the engine braking effect when the accelerator pedal is released suddenly or when the vehicle is braked with a gear engaged.

BlueMotion Technology.

BlueMotion Technology aims to reduce the impact of our vehicles on the environment by adding refinements to improve fuel consumption and cut CO₂ emissions.

Passive safety.

Passive safety refers measures that help protect the occupants against injury or help reduce injury severity in the event of an accident. Passive safety measures include the safety belt system, the airbags*, the rigid occupant cell and the crumple zones at the front of the vehicle. Safety features built-in to the body, front and rear, help dissipate most of the impact energy. All help provide excellent all-around protection.

SCR Catalyst.

Selective Catalytic Reduction is a means of converting nitrogen oxides, also referred to as NO_x, into nitrogen N₂ and water H₂O. AdBlue® is injected into the stream of exhaust gas and the chemical reaction takes place within the SCR Catalyst.

Dedicated Van Centre network.

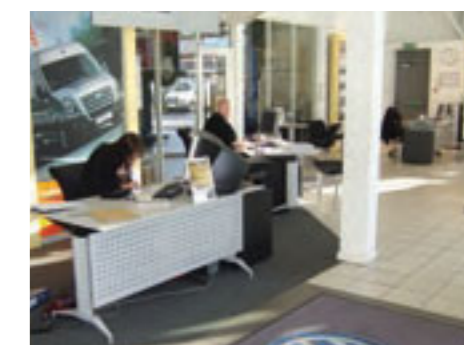

Our network of Van Centres is spread throughout the UK, and forms the backbone of everything we do for you. Week in, week out, our Van Centres provide vital technical support and practical backup for everything that relates to Volkswagen vans. This reservoir of knowledge and array of technical ability is there for you when you need it.

We're constantly improving and extending our range of services, and improving opening hours to meet

your needs. After all, you need your vehicle serviced at the most convenient time, and we understand that down time equals lost income.

And don't forget, having read through this brochure, if you still aren't sure which vehicle is the right one, then your nearest Van Centre staff will be pleased to help.
