# The new Touran

**The new Touran has a place for everything.  
Except for routine.**

Model shown is new Touran SE with optional 17 inch 'Oakland' alloy wheels and metallic paint.

**Everyone has their little secrets.  
It's nice to have room for big ones too.**

Model shown is new Touran Sport with optional 17 inch 'Oakland' alloy wheels, Bi-Xenon headlights and metallic paint.

## Equipment

The new Touran is designed to offer you the ultimate in flexibility, with a range of versatile equipment and a host of refinements to ensure it meets your every need. Whether you're doing the shopping, taking the family on holiday or ferrying the football team around, its flexible interior provides a wealth of practical solutions for every situation, while its incredible spaciousness and high standards of luxury ensure you travel in style, whatever you're doing.

15 inch 'Misano' alloy wheels with 195/65 R15 tyres add a sporty look to the exterior and are protected by anti-theft wheel bolts. Standard on S and S BlueMotion Technology models. S BlueMotion Technology models feature 195/65 R15 low rolling resistance tyres as standard.

The rear design of the new Touran has been remodelled to reflect contemporary styling, with a body-coloured bumper and integrated roof spoiler giving more definition to the bodylines, and a gently curved boot lid enhancing the exterior dynamics. Two part lights complete the rear styling, adding a touch of elegance and refinement, and giving the new Touran its distinctive identity.

The electric panoramic glass sunroof gives an uninterrupted view of the sky above, filling the interior with natural light and providing an extra dimension of light and space. Easily operated and adjusted via the practically located control panel, it also includes a wind deflector, enabling you to enjoy the sun and fresh air on faster journeys, while tinted glass ensures a pleasant interior temperature even in strong sunlight. Should you wish to stay out of the sun, yet still enjoy fresh air, an integrated roller blind can be used while the sunroof is open. Optional on all models.

The distinctive new radiator grille with chrome-plated louvre inserts are stylish and sporty, and feature the Volkswagen logo set in a high gloss black finish, giving the new Touran its characteristic and dynamic new look.

Bi-Xenon headlights including automatic range adjustment, dynamic curve lighting and headlight washers ensure the optimum headlight setting and illumination of the road ahead. Light distribution of the dipped beam is matched to speed, so that a longer light beam is emitted when the vehicle is driven faster for improved illumination and LED daytime running lights ensure your vehicle is more visible during the day. Optional on all models.

Refined and elegant, the new **Touran SE** features stylish 'Miu' upholstery and matching 'Iridium' interior trim, while front comfort seats, with height and lumbar adjustment, ensure a relaxing journey, especially on long trips. Adding to your driving comfort are such refinements as a multifunction steering wheel, an RCD 310 radio/MP3 compatible CD player with eight speakers and connectivity to an iPod or MP3 player, and 65% light absorbing tinted glass from the B pillar back. Ultrasonic, audible parking sensors front and rear with optical parking display via vehicle's audio system display, help you park, aided by the sensor controlled ParkAssist steering aid, and the SE also features an automatic dimming interior rear view mirror and coming/leaving home lighting function. Practical touches include useful storage drawers beneath both front seats, and folding tables on the rear of the front seats, along with 12V sockets for the second row of seats and luggage compartment.

In terms of luxury, convenience and sporty good looks, the new **Touran Sport** is hard to beat. High quality Alcantara upholstery on the seat centre sections and 'Microfibre' side bolsters give the interior a stylish and contemporary feel, enhanced by 'Chrome frame' interior trim, and front and rear carpet mats. Front sport seats, featuring height and lumbar adjustment, ensure optimum comfort, while 2Zone electronic climate control with automatic air recirculation enables the driver and front passenger to select their preferred temperature setting. There is also a multifunction computer (Highline) and RCD 510 touch-screen radio/dash-mounted MP3 compatible six CD autochanger fitted as standard, along with front fog lights, which include a static cornering function for greater illumination and safety.

**Storage compartments** in the roof console are easily accessible by both driver and front passenger, providing practical storage space for anything that needs to be at arm's reach.

The **middle seat in the second row** transforms into a table for the use of rear passengers, with just one simple hand movement. Made of robust plastic and completely level, the table also features a protective rim, which is very useful if any liquids are spilt. All three seats in the middle row can easily, and separately, be removed, folded down, adjusted or moved forward or backward, depending on your requirements.

The leather multifunction steering wheel enables you to operate your standard radio/CD player or optional navigation/radio system with the greatest of ease whether you choose a manual or DSG gearbox. Standard on all SE and Sport models and optional on all S models.

Only in conjunction with RCD 310 radio system, RCD 510 radio system or RNS 315 navigation/radio system.

The RNS 315 touch-screen navigation/radio system with MP3 compatible CD player features a 5 inch colour display with clearly arranged map navigation, as well as an SD card reader and practical AUX-in socket for connecting external audio devices such as an MP3 player. Optional on all models.

The front centre armrest contains a spacious storage compartment, ensuring all those indispensable items are easily within reach. Standard on all SE and Sport models and optional on all S models.

The Start/Stop function turns off your engine when not needed, producing less emissions and greater fuel economy. When waiting at a traffic light or in a traffic jam, simply select neutral gear and release the clutch. The engine will switch off and the Start/Stop symbol will appear on the dashboard. To drive on, simply select first gear and the engine will restart, enabling you to pull away. The system can easily be deactivated by a switch within easy reach. Standard on all BlueMotion Technology models.

Volkswagen's unique 'BlueMotion Technology' badging on the rear tailgate identifies your vehicle as being one of the most economical models in the Touran series, with a host of energy-saving, environmentally-friendly refinements.

Volkswagen's Park Assist system has long made parallel parking significantly easier. However, making its debut on the new Touran, is a system that combines conventional Park Assist with the added functionality of reverse parking into a space at 90 degrees to the kerb. The driver activates the system by pressing a button on the centre console. Using ultrasonic parking sensors, Park Assist will detect a large enough parking space for either reverse or parallel parking and the assisted parking process can begin. Having put the vehicle into reverse, all the driver has to do is operate the accelerator and brake, while keeping a good lookout. The new Touran then takes care of the steering into its chosen space. Further improvements mean Park Assist can now parallel park in particularly small spaces (c. 5.20 metres long) and it can also park on pavements or between trees. Standard on all SE and Sport models and optional on all S models.

The rear-view camera, located in the boot lid, reproduces an electronically straightened image on the vehicles audio system display. This provides an unobscured view to the rear of the vehicle, making parking easier and safer, even when towing a trailer. Only available in conjunction with RCD 510 radio system, RNS 315 or RNS 510 touch-screen navigation/radio system.

Rear-view camera and DAB digital radio receiver cannot be specified in conjunction with each other.

The seating arrangement in the third row comprises two single seats, which can be folded down separately into the boot floor space to suit your stowage requirements. In total, the new Touran offers more than 500 seat combinations, offering the ultimate in flexibility and providing between 121 and 1,913 litres of luggage space, depending on your seating arrangement. Even as a seven seater, the new Touran has a generous boot space, and whichever configuration you choose, its level boot floor and protective carpet lining provides a durable and robust storage area.

The multifunction computer (Highline) display in the BlueMotion Technology Touran not only provides invaluable journey information such as consumption figures and average speeds, but also provides a visual gear change recommendation for optimum fuel consumption, ensuring you always drive in the most energy-efficient gear.

**To help reduce the impact on our environment, not only have we come up with a solution, we've designed many.**

BlueMotion Technologies is our contribution to sustainable motoring. This means we offer optimum solutions for every demand, which makes driving more fuel efficient. Lower fuel consumption and lower emission diesel engines allied with BlueMotion Technologies are friendlier to the environment and your wallet, without having to give up everyday practicality and comfort.

Our engineers have strived to produce a cleaner, more efficient Touran that still offers great performance and handling. The BlueMotion Technology models are a result of their work, designed with a range of energy-saving technologies to work in synergy with our advanced engines and gearboxes, such as a multifunction computer (Highline) including visual gear change recommendation for optimum fuel consumption, recuperation (battery regeneration during braking), improved aerodynamics as well as low rolling resistance tyres and a Start/Stop function that can cleverly switch the engine off when your vehicle is stationary and in neutral and start it again as you depress the clutch, all combine to aid increased efficiency. A combination of all these refinements means the 1.6 litre TDI 105 PS engine delivers a package that offers outstanding economy up to 61.4 mpg over the Combined fuel cycle\*, and the high performance 2.0 TDI 140 PS engine with DPF (Diesel Particulate Filter) ensures CO<sub>2</sub> emissions of 125 g/km†.

Volkswagen's BlueMotion Technologies badge identifies the cleanest, most energy-efficient cars in our range. Whether it is our BlueMotion range of vehicles that incorporate many energy saving technologies or one of our individual fuel efficient technologies such as the Start/Stop function, TSI or TDI engines. So when you see this logo you'll know we're talking about ways to cut emissions – and the cost of your motoring.

\* Please see pages 18-21 for CO<sub>2</sub> emissions and fuel consumption figures.  
† The CO<sub>2</sub> figure for these models is estimated and has yet to be confirmed.  
Please consult your Volkswagen retailer for full details.

## Technical specification (continued)

### Technical specification notes

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria. The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly. The unladen weight and payload both include the fuel tank 90% full, driver (68 kg) and luggage (7 kg) in line with EU directive 95/48.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the TSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 05) The use of RME and FAME (bio diesel) is not possible.
- 06) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 07) The weight of a vehicle will influence the level of CO<sub>2</sub> emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO<sub>2</sub>.

## Technology

### Engines

- Front transverse-installed engine
- 1.2 litre/105 PS <sup>(01)</sup> (77 kW) petrol engine: EU5 compliant four cylinder in-line engine, two valves per cylinder and turbocharger module with electric boost pressure regulation. Die cast aluminium cylinder block, dual circuit cooling system, maintenance-free camshaft drive chain with hydraulic tensioner and oil pump driven via maintenance-free toothed chain. Internally routed crankcase breather system with non-return valve. Three way catalytic converter with lambda control
- 1.4 litre/140 PS <sup>(01)</sup> (103 kW) petrol engine: TSI engine with dual-charging, double injection catalytic converter heating, turbocharger with waste gate, additional mechanical supercharger, intercooler, maintenance-free timing chain, continuous inlet camshaft timing adjustment, grey cast iron cylinder block, steel crankshaft, duo-centric oil pump, dual-circuit cooling system, fuel system regulated according to requirements, high-pressure fuel pump with a delivery pressure of up to 150 bar, four valves per cylinder
- 1.6 litre/90 PS <sup>(01)</sup> (66 kW) common rail diesel engine: EU5 emissions standard, four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, reduced piston crown volume (improves swirl generation in the cylinder), toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection fuel system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, low temperature exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)
- 1.6 litre/105 PS <sup>(01)</sup> (77 kW) common rail diesel engine: EU5 emissions standard, four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, reduced piston crown volume (improves swirl generation in the cylinder), toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection fuel system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, low temperature exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)
- 2.0 litre/140 PS <sup>(01)</sup> (103 kW) common rail diesel engine: EU5 emissions standard, four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, reduced piston crown volume (improves swirl generation in the cylinder), toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection fuel system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, low temperature exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)

## Technology (continued)

### Engines (continued)

- 2.0 litre/170 PS <sup>(01)</sup> (125 kW) common rail diesel engine: EU4 emissions standard (EU5 compliant), four cylinder in-line engine, four valves per cylinder, aluminium-silicon alloy cylinder head, toothed backlash compensator, intake manifold with electric continual tumble flap control, electronically controlled common rail direct injection system with Bosch high pressure pump (up to 1800 bar) and 8-hole piezo injector units, pre-supply electronic fuel pump, oil cooler, intercooler, exhaust gas recirculation, additional coolant pump, turbocharger with variable turbine geometry, catalytic converter and Diesel Particulate Filter (DPF)

### Brakes

- Electronically controlled Anti-lock Braking System (ABS) with Electronic Brake-pressure Distribution (EBD)
- Diagonal twin-circuit brake system with ventilated front disc brakes and rear disc brakes
- Asbestos-free brake pads

### Transmission

- Front wheel drive through asbestos-free single-plate dry clutch. Hydraulic clutch-mechanism. Six speed manual, six or seven speed automatic DSG gearbox with double joint half axles
- Six speed manual: 1.2 litre TSI 105 PS, 1.4 litre TSI 140 PS, 1.6 litre TDI 90 PS, 1.6 litre TDI 105 PS, 2.0 litre TDI 140 PS
- Six speed automatic DSG: 2.0 litre TDI 140 PS, 2.0 litre TDI 170 PS
- Seven speed automatic DSG: 1.4 litre TSI 140 PS, 1.6 litre TDI 105 PS

### Steering

- Electro-mechanical steering rack
- Collapsible, height and lengthways adjustable safety steering column

### Running gear

- Electronic Stabilisation Programme (ESP) including Electronic Differential Lock (EDL), Traction Control (ASR) and Countersteer Support
- Front suspension through coil springs with telescopic shock absorbers, all elements integrated in chassis legs
- Rear suspension with gas pressure shock absorbers and separate springs

	With rear seats folded – 5 seat model	1989
	With rear seats upright – 7 seat model	121
	With rear seats folded – 7 seat model	1913

## Volkswagen service

### The Volkswagen Warranty.

#### Three-year Warranty.

All Volkswagen new Tourans come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from an authorised Volkswagen retailer or repairer; however, this additional warranty must be purchased before the mileage reaches 60,000\*. Full details of the three-year warranty are available from your authorised Volkswagen retailer or repairer.

\* All warranty work must be completed by an authorised Volkswagen retailer or repairer.

#### Three-year Paint Warranty.

The paintwork of the new Touran is covered against manufacturing defects for a period of three years. Naturally, the new Touran must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

#### 12-year Body Protection Warranty.

The internal body sections and panels of the new Touran are covered against rusting through from the inside for 12 years. Naturally, the new Touran must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen retailer or repairer for full warranty details.

### Service Intervals.

Volkswagen are pleased to offer you a choice on how your new Touran is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Time and Distance Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Time and Distance Service are as follows:

- Oil change service            Every 10,000 miles/1 year (whichever is soonest).
- Interval service                Every 20,000 miles/2 years (whichever is soonest).
- Inspection service            Every 40,000 miles/3 years (whichever is soonest).

The LongLife Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

With the LongLife Service the vehicle can cover anywhere between 10,000<sup>†</sup> and a maximum of 18,000<sup>†</sup> miles or 24 months (whichever is soonest) between oil changes. Inspection service is typically in the third year of ownership and thereafter every second year, for vehicles with an approximate annual mileage of 10,000 miles.

<sup>†</sup> Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement. Please consult your authorised Volkswagen retailer or repairer for advice and full details.

### Approved Accessories.

A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen approved accessories purchased from and fitted by your authorised Volkswagen retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

### Extended Warranty.

You may purchase additional protection from your authorised Volkswagen retailer or repairer, or contact 0870 9000 115.

### Volkswagen Insurance<sup>‡</sup>.

We want you to start enjoying your new car from day one and thanks to Volkswagen Insurance complimentary seven day cover, you can. Call free on 0800 316 7892 (lines are open Monday to Friday 8 am - 9 pm and Saturday 9 am - 5 pm), provide a few details and a cover note will be sent to your retailer. They will then tax your car and you can drive it away.

Visit [www.insurewithvolkswagen.co.uk](http://www.insurewithvolkswagen.co.uk) for details of the full range of insurance products available. Here you can also get a quote for your annual car insurance and buy it online too. All of our insurance products are designed to ease the pain of making a claim.

<sup>‡</sup> Volkswagen Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230. Volkswagen Insurance is sold, underwritten and administered by Allianz Insurance plc registered in England number 84638. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are not part of the same corporate group.

### Volkswagen Finance<sup>±</sup>.

Volkswagen Finance specialises in providing funding solutions for Volkswagen drivers. Whether your Volkswagen is for private or business use, you can choose from a range of funding options.

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Volkswagen Finance products you can choose a fixed-cost maintenance plan to help you budget for your servicing and maintenance costs.

No matter what finance product you choose, your local Volkswagen retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs.

<sup>±</sup> Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited. An offer of finance depends on certain conditions. Available to people over 18 in the UK only.

### Volkswagen Roadside Assistance.

Every new car is registered for Volkswagen Roadside Assistance for one year. This provides vehicle home and roadside recovery in the unlikely event of a breakdown in the UK and Europe (subject to conditions). Volkswagen Roadside Assistance can also be purchased for subsequent years. For full details, please contact your authorised Volkswagen retailer or repairer.

### Tax Free Sales.

For full details, please contact your authorised Volkswagen retailer.

### CO<sub>2</sub> Emissions.

Increased weight of a vehicle, including higher trim levels and the addition of options will have a detrimental influence on the level of fuel consumption and CO<sub>2</sub> emissions produced.

The CO<sub>2</sub> and fuel consumption figures are obtained from tests on a representative vehicle of the type, conducted and approved in accordance with Council Directive 80/1268/EEC as amended by Directive 1999/100/EC (or later) on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

### Please Note:

Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen retailer prior to ordering.

Note: We would like to advise you that telephone calls to Volkswagen Customer Care may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet Ofcom regulations.
