

VOLVO XC70

THERE'S MORE TO LIFE THAN A VOLVO. THERE'S THE GREAT OUTDOORS. THERE'S THE DAILY ROUTINE. THERE'S RAIN, SNOW, SLEET, SUN, DUST AND DIRT. THERE'S YOU, YOUR FAMILY, YOUR FRIENDS AND A THOUSAND REASONS TO GET TO ANY PLACE YOU NEED TO WITH POWER, REFINEMENT, VERSATILITY AND STYLE. THEN THERE'S YOUR CAR. LIFE ISN'T ABOUT LIMITATIONS. IT'S ABOUT LIVING. THAT'S WHY YOU SHOULD DRIVE AN XC70.

The car that lives your way(s).

In the space of a few hours, pristine ski slopes could be replaced by downtown traffic. Some cars might find such a journey traumatic. Not the XC70. Advanced technology such as ACC (Adaptive Cruise Control) ensures that wherever life might take you, your XC70 won't utter a single word of complaint.

Volvo. for life

Volvo safety technology. Because people are only human.

Cars are driven by people. That's why all our safety research and development continues to investigate the capabilities, limitations and tendencies of human nature. This people-centric research is always based on real situations, and with the vision to create cars that do not crash.

To help you avoid accidents while maintaining the fun of driving, Volvo safety technologies are designed to support the driver in various situations without unnecessary interference. All these intelligent technologies share information and interact with split-second precision. Today, a new Volvo can "read" actual situations and provide optimal support and protection for example, by sensing normal driving patterns or panic situations and by taking protective action before, during and after a collision. Still, technology can never take the responsibility away from you, the driver. Final decisions are always in your hands. But if these technologies help make you more alert and relaxed, they will also contribute to the overall safety of those in and around your Volvo.

Read more about our safety research at volvocars.co.uk

“Cars are driven by people. Therefore, the guiding principle behind everything we make at Volvo is – and must remain – safety.”

Assar Gabrielsson and Gustaf Larson, founders of Volvo

Volvo Accident Research Team

Since 1970, Volvo's Accident Research Team has investigated accidents involving Volvo cars on Swedish roads. Today, our own statistical database contains over 36,000 accidents with more than 60,000 occupants. In addition to studies on the scene of the accident, our researchers also investigate what happened before the crash to understand how to improve the driver's conditions to avoid a collision. These findings give us unique knowledge that guides us in creating technology that helps prevent or mitigate accidents and, if an accident can't be avoided, to help protect the occupants.

Volvo Cars Safety Centre

Based on the findings from our accident research, we can recreate a variety of real-life traffic situations and crashes. Beyond numerous virtual crash tests in super-computers, we perform around 400 crash tests each year. We crash test car-to-car at different speeds and from different angles. We perform frontal impacts, rear impacts, side impacts and roll-over tests and test cars off-road as well as against genuine Swedish granite rock-face, we can even simulate impacts with wild animals.

If you make it here, you make it anywhere

Other car manufacturers come to Sweden for final car testing under harsh and capricious conditions. For us it's home. Our own proving ground Hällered with its 34 miles of test tracks includes different road types from all over the world. Here we scrutinise our cars' ability to support their drivers in all imaginable and unimaginable situations during thousands of test kilometres, not to mention the distances driven on ordinary Swedish roads.

Towards a future where cars don't crash

We already know what we want to achieve: no accidents. By applying a holistic approach which considers the driver and the vehicle as well as the infrastructure, we can realise a future where cars interact with other cars, the road and the traffic-control systems. For example, this includes cars that can brake and steer automatically, if needed. This makes it possible to design cars in completely new ways to protect and preserve life.

THERE'S MORE TO LIFE THAN A VOLVO.

For decades, we've created cars that encourage people to enjoy life and help protect it in the event of an accident. Many of the most important car safety innovations are the hallmark of Volvo, and hundreds of thousands of people all over the world can say they're still alive thanks to Volvo ingenuity.

This is not by coincidence. Our founders stated that safety is, and shall always be, at the heart of what we do. As a result, Volvo is recognised the world over for our passion and dedication to provide the safest cars on the road.

The protective character of Volvo also encompasses the world we share. Already in 1972, Volvo was the first car manufacturer to acknowledge and actively respond to the environmental impact of cars. In fact, we invented the three-way catalytic converter, and are constantly innovating to reduce the environmental impact of the cars we make and how we make them.

Of course, choosing a Volvo will always be something you do for both yourself and the people around you, because our cars will always consider the well-being of everyone. Even if those people happen to be outside your car or are part of future generations.

THAT'S WHY WE INNOVATE FOR LIFE.

Find more innovations at volvocars.co.uk

The three-point safety belt

In 1959, Nils Bohlin, a Volvo safety engineer, invented the three-point safety belt. So important is this invention, it is considered to be one of the most life-saving technical innovations in the history of mankind.

The three-way catalytic converter with Lambda sensor

In 1976, Volvo Cars was the first car manufacturer to introduce the three-way catalytic converter with Lambda sensor for exhaust emission control. Today virtually all petrol powered cars are fitted with this ingenious component, just as indispensable for the environment as the three-point safety belt is for safety.

WHIPS (Whiplash Protection System)

In 1998 Volvo introduced this unique front seat integrated technology to help protect occupants from whiplash injury in the event of a low speed rear impact. It's considered one of the most effective systems in the automotive world.

ROPS (Roll-Over Protection System)

This technology including a roll sensor that activates various restraint systems in a roll-over was introduced in 1997 in the Volvo C70 convertible. In 2002 ROPS was further enhanced with the Roll Stability Control (RSC) in the Volvo XC90. ROPS is available in the Volvo C70, XC90 and XC60.

CWAB (Collision Warning with Auto Brake)

In 2006 this radar and camera based technology became available in a Volvo to help alert the driver, and even help mitigate a crash by braking the car, if the distance to the vehicle in front becomes too short. Collision Warning with Auto Brake is available in the Volvo S80, V70, XC70 and XC60.

DAC (Driver Alert Control)

Introduced in 2007, this Volvo innovation can detect erratic driving behaviour due to tiredness or inattentiveness and remind the driver it may be time for a break. Driver Alert Control is available in the Volvo S80, V70, XC70 and XC60.

City Safety collision avoidance technology

In 2008, Volvo Cars introduced the new XC60 with City Safety, the world's first standard-fitted collision avoidance and mitigation technology active at speeds up to 19 mph. Helping to lower the risk of low-speed collisions and whiplash injury, City Safety is a major step towards safer urban driving. At the moment, City Safety is available in the Volvo XC60.

What's in it for you?

We are committed to creating cars that contribute to a better life, be it inside or outside the vehicle. Utilising advanced technology, your Volvo is designed to use fuel efficiently and reduce its impact on the environment. And nowhere is this more evident than in Volvo's new environmentally optimised DRiVE variants. This caring attitude continues inside your Volvo. Here you and your passengers can experience one of the automotive industry's cleanest and healthiest cabin environments. It's as enjoyable as it's responsible. Just as you would expect of a Volvo.

85% recyclable.

To help minimise its total environmental impact, every Volvo is designed to facilitate recovery and recycling at the end of its useful life.

159g CO₂ per km.

Our latest eco-progress, the front wheel drive Volvo XC70 DRiVE, satisfies itself with 47.1 mpg* for minimum emissions and maximum style.

*Based on a combined cycle.

Cleaner exhaust.

Fast responding after a cold start, Volvo's advanced emission control eliminates between 95 and 99% of carbon monoxide, hydrocarbons and nitrogen oxides from petrol engine exhaust gases. The Volvo turbodiesels feature a particulate filter that removes about 95% of the particles from the diesel exhaust gases.

Safer interior materials.

All our upholsteries and interior textiles are tested for certain allergy-inducing or harmful substances and comply with Oeko-Tex Standard 100. And several interior metal details are tested with regard to contact allergies. Good for you, and for anyone who shares your ride.

Fuel-saving design.

To reduce energy-loss from wind and roll resistance, we utilise advanced aerodynamic design, light-weight materials and low-friction technology. Together with state-of-the-art engine technology, this lowers your CO₂ emissions and helps you travel further on fuel.

Fresh cabin air.

Continuously monitoring incoming air and shutting out carbon monoxide, ground-level ozone and nitrogen dioxide, Volvo's Interior Air Quality System helps ensure that the air you breathe in the car is cleaner than that outside when driving in heavy city traffic.

Maximised fuel efficiency with diesel.

Volvo's advanced common-rail turbo-diesel technology ensures superior fuel economy and low CO₂ emissions, choose between the all-wheel drive D5 AWD or the new CO₂ optimised front-wheel drive DRiVE.

Allergy-approved interior.

CZIP (Clean Zone Interior Package) provides cabin air that is so clean it is recommended by the Swedish Asthma and Allergy Association.

Because nobody likes pollution but everybody likes to drive.

Thirty years ago the CEO of Volvo said, "Our cars produce pollution, noise and waste." This truth inspired us to do more than just make cars safer to be in. Starting with innovations like the three-way catalytic converter with a Lambda sensor to today's seven new eco-designated DRIVE models, our goal at Volvo is crystal clear: to build cars that leave a minimal impact on the environment. DRIVE captures all our environmental work, from production to recycling, and represents our commitment and continued efforts for sustainable mobility.

Today's DRIVE models are equipped with state-of-the-art diesel engines optimised to reduce fossil fuel-based CO₂ emissions. In addition, some DRIVE models are equipped with Start/Stop technology that allows the engine to switch off when the car is at a standstill, saving even more fuel. Thankfully, the imperative to make our cars more earth-friendly has inspired innovations that make these DRIVE cars even more rewarding to drive.

Our corporate responsibility

At Volvo Cars, our overriding objective is to balance the needs of our company, our customers, society and future generations in a sustainable way. To find out more, please visit www.volvocars.com/sustainability

Motion

We must minimise the emissions of fossil CO₂ (which leads to climate change) and increase the energy efficiency of our cars. **Continuous improvements** within aerodynamics, rolling resistance, lightweight materials and drivetrain technology help us lower fuel consumption. To significantly reduce fossil CO₂ emissions, we offer many **DRIVE turbodiesel** variants with lower CO₂ emissions. We have also introduced **Powershift**, a new fuel-saving dual-clutch automatic transmission technology. In our new **Hybrid technology centre** in Göteborg, we develop the next generation power trains for future Volvos. The goal is that we use hybrid technology in all of our car models.

Inside

We know that more and more people are suffering from asthma and allergies. To ensure a healthy interior for you and your passengers, we test upholstery and interiors in the **Volvo Environmental Laboratory** in Sweden. All upholstery materials and interior textiles also comply with **Oeko-Tex Standard 100**, an international benchmark for human ecological safety of textiles. All **leathers are chromium-free**, they're tanned using vegetable or synthetic substances instead of chromium. And to meet high requirements on an allergy-friendly interior, we've developed the **Clean Zone Interior Package (CZIP)** together with the Swedish Asthma and Allergy Association. What's more, some panel trims are **Forest Stewardship Council (FSC) certified** to ensure the wood comes from responsibly managed forests.

Lifecycle

Already from the early stages of conception we've considered our cars' environmental impact: from design and manufacturing to useful life and recycling. For example, we've seen to it that our factories are powered by electricity produced by wind and hydro power and use energy and water responsibly. Our production facilities are certified under **the global environmental standard ISO 14001**, and we make sure that all our major suppliers meet our strict environmental standards. At the end of its useful life, every Volvo is designed to be **85% recyclable**. We also offer **re-manufactured exchange parts** which substantially reduces the need for raw materials and energy.

Please note: Some of the environmental technologies are only available on certain Volvo models and may be optional. For more information, talk to your Volvo dealer or visit www.volvocars.co.uk

Believing is hearing.

What's the most attractive feature of the XC70's Premium Sound System? Is it the twelve-speaker system from renowned Danish sound specialist, Dynaudio? Perhaps it's the Dolby® Pro Logic® II Surround Sound. Or how about the 5x130 W digital class D amplifier? Maybe it's something simpler. Like the fact that wherever you sit in the XC70, music sounds just exactly the way it should. Your way.

Dynaudio loudspeakers

The twelve high-end loudspeakers by the Danish sound specialist Dynaudio in the Premium Sound audio system are powered by a 5x130 W digital amplifier. There are three separate drivers, woofer, midrange and tweeter, in each front door. In the rear doors there is a similar set-up with a woofer and tweeter and there's an available 260-watt subwoofer you can feel. Each speaker has its own crossover filter to harmonise with the others. The latest generation Dolby® Pro Logic® II Surround Sound uses the centre loudspeakers (woofer and tweeter) and a sound processor to recreate authentic sound with a strong sense of presence for everyone in the car. The digital class D amplifier features new technology to provide extremely high efficiency, enabling it to generate the most audio power from the least amount of current.

High Performance audio system

This is a powerfully versatile system. Each loudspeaker is fitted with a more powerful magnet and a larger coil. In combination with the amplifier, this system promotes excellent transient reproduction and high power, quite simply superb sound. This High Performance audio system includes:

- RDS radio
- MP3 and WMA compatible CD player
- USB and Aux Input in front centre armrest
- 4x40 W amplifier
- 8 High Performance loudspeakers
- Steering wheel remote audio controls

Options: an integrated 6 x CD player, rear seat audio console, DAB (Digital Audio Broadcasting) Radio and 260 W subwoofer.

Accessories: USB and iPod® Music Interface.

Dynaudio Premium Sound

This is our top-of-the line audio system designed for dynamic clarity with the entire sound spectrum. This system features twelve loudspeakers by Dynaudio, a world leader in loudspeaker technology. In addition, Dolby® Pro Logic® II Surround Sound helps tailor a well-balanced audio experience for each occupant. Premium Sound includes:

- RDS radio
- MP3 and WMA compatible CD player
- USB and Aux Input in front centre armrest
- 5x130 W digital class D amplifier
- Dolby® Pro Logic® II Surround Sound with centre loudspeaker and digital sound processor
- 12 high-end loudspeakers by Dynaudio
- Steering wheel remote audio controls

Options: an integrated 6 x CD player, a rear seat audio console, DAB (Digital Audio Broadcasting) Radio and 260 W subwoofer.

Accessories: USB and iPod® Music Interface.

Dolby, Pro Logic, and the double-D symbol are registered trademarks of Dolby Laboratories.

XC70 SE

The SE aims to spoil. Its luxurious interior boasts supportive seats, power adjustable for the driver. Then there's the 8 speaker High Performance audio system with 160 W output and intuitive features such as automatic rain sensor and autodimming rear view mirror with compass. On the outside, 17" Sargas alloy wheels, extended XC roof rails and tough XC body cladding and mouldings make sure your presence doesn't go unnoticed on or off road.

XC70 SE LUX

The SE Lux model is the ultimate in luxury. Modern wood inlays, Leather-faced upholstery and both front seats are powered and heated. Active bending headlamps, chrome window trim, power tailgate and rear park assist offer both style and protection.

PREMIUM

The Premium model is the ultimate upgrade, available on all specification levels. The combination of Leather-faced Upholstery, Satellite Navigation System (RTI) and DAB Radio are all designed to complement the existing high level of specification whichever model you choose.

XC70 DRIVE

The DRIVE badge is given to cars in the Volvo range that have the best environmental performance. The 2.4D DRIVE model is equipped with a conventional diesel engine and manual gearbox optimised for extra-low fuel consumption as well as being tailored specifically for low rolling resistance and reduced air drag. With CO₂ at just 159 g/km and fuel consumption of up to 47.1 mpg on a combined cycle, this makes the 2.4D DRIVE an attractive choice without compromising on driving pleasure. DRIVE is not currently available as a Geartronic.

On the road

How much will it cost to get behind the wheel of your own Volvo XC70? Simply decide which model variant and engine type are right for you and then take a look at the full price list below.

Inside information

Here you can learn more about the features and technology of your Volvo XC70. Some are standard, some are optional. For more detailed information, please contact your Volvo dealer or visit www.volvocars.co.uk

Dynamic Stability and Traction Control (DSTC)

By helping prevent fishtails, spinouts, and rollovers, stability control technology like DSTC has been described as one of the most vital safety advances of the past decade. At the core of DSTC, a gyroscope senses the car's direction and compares this with steering wheel movements as well as the actual rotation of the car's wheels. DSTC is able to detect a potential skid and help counteract this by reducing the engine's power output, or braking on one or more wheels.

WHIPS (Whiplash Protection System)

Integrated in the front seats, Volvo's WHIPS cradles the occupant to help reduce the risk of whiplash injury (one of the most common types of traffic injury and often the result of a low-speed rear impact collision). The function is activated by a collision of sufficient force from behind. Independent research has shown that WHIPS is one of the most effective systems in the world and can reduce the risk of long-term invalidity by 50%.

Infant seat (up to 13 kg)

Infants, from newborns up to about 1 year of age, travel safely backwards in this comfortable seat. It's installed using the car's safety belt. And for extra convenient installation using the car's ISOFIX attachments, an ISOFIX base can be added. Side wings help protect in a side impact, and the headrest and five-point harness are easily adjusted. The headrest is padded for a comfortable sleep and there's a canopy to block the sun. What's more, the infant seat is easy to carry and can be used as a baby sitter.

IC (Inflatable Curtain)

The Inflatable Curtain (IC) helps protect the heads of both front and rear outboard occupants. It also stays inflated for some seconds to provide prolonged protection for subsequent impacts.

SIPS (Side Impact Protection System)

SIPS is a Volvo unique safety system that has been developed to help protect where occupants are most exposed to the crash forces. The steel framework of the car – including the front seats – is designed and reinforced to help displace the impact of a side-collision away from the occupants to other parts of the car body and help prevent intrusion into the cabin. The side structure is extremely strong to help withstand a severe side impact – even with a larger vehicle. The Inflatable Curtain (IC) for all the occupants and the front seat side airbags interact to help provide further protection.

Dual-stage airbags, driver and front passenger

Helping to optimise protection, the dual-stage airbags adapt the level of inflation depending on the force of the collision. The driver's airbag also interacts with the deformation of the collapsible steering column.

Personal Car Communicator (PCC)

PCC is an advanced remote control that combines keyless drive with two-way communication with your Volvo. Keep the PCC with you and the car unlocks automatically as you pull the door handle. Start the engine by pressing a button on the dash, lock the car by pressing a button in the door handle. Later in the day, if you're wondering whether you've locked the car, the car, PCC can remind you; no matter where you are. On your return to the car – within a radius of 60 to 100 metres – pressing the PCC information button will give you a current report on its status. If the alarm has been activated, the onboard heartbeat sensor will give you advanced warning if there's somebody in your car and an opportunity to evaluate the situation safely.

Integrated Bluetooth® handsfree system Bluetooth® handsfree system

Bluetooth® technology enables a mobile phone to be connected to the infotainment system in your Volvo, wirelessly. Once configured for a mobile phone, the system automatically recognises your phone as you enter the car. And as you climb in and out of the car, the system automatically allows you to switch freely from the phone to the handsfree system and back again. With Volvo's integrated Bluetooth® handsfree system you conveniently operate your phone using the buttons in the steering wheel or the centre console keypad. Available as an accessory, there's also a voice-controlled Bluetooth® handsfree system that will listen to your command and make calls for you. The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Volvo Car Corporation is under license. Other trademarks and trade names are those of their respective owners.

RTI (Road Traffic Information)

Volvo's GPS-based RTI navigation system offers both voice guidance and graphic navigation all the way to your destination. Via TMC (Traffic Message Channel) radio data broadcasts, RTI also lets you know if there's weather-related trouble on route and recommends an alternative. Extremely swift and precise, this new generation RTI features a hard disc drive covering maps for major parts of Europe. The system is fully integrated in your Volvo and is easily controlled from the steering wheel or optional remote, and the screen is positioned so you can keep your attention on traffic. You can choose between two operating modes – Easy and Advanced. When RTI is not needed, the screen is hidden into the dash. To help you keep track of new roads and points of interest, you can join our MapCare programme for two free map updates.

Blind Spot Information System (BLIS)

BLIS uses rear-facing cameras installed in the door mirrors to keep a lookout on either side of the car. As a vehicle enters your blind spot, this function can alert you with a lamp built in to the front door post – left or right. Together with the door mirrors, this helps you assess the feasibility of a lane change. BLIS is activated once the car exceeds 10 km/h, and reacts to almost any type of vehicle from a motorcycle upwards, day or night.

Park assist

Activated when you engage reverse gear, rear park assist helps you when reversing into tight spaces. The audio system is turned down and a pulsating sound from the rear loudspeakers becomes a continuous tone as you approach an obstacle. Front park assist performs a similar function at the front of the vehicle – alerting you via the front loudspeakers. The remaining distance is also shown on the audio display.

Accessories from Volvo

Towbars
Our lockable, easy-to-remove towbars are designed specifically for your Volvo.

19" Erakir
Black Chrome

19" Erakir
Diamond cut/Dark Grey

Rear seat entertainment
Rear seat passengers can watch a DVD or play a game via two, integrated, 8-inch widescreen displays.

Of course, your Volvo XC70 won't be perfect until it's exactly how you want it. So here's a selection of our range of accessories to completely personalise your new car.

USB and iPod® music interface
Simply connect your iPod® or USB device and seamlessly integrate with your Volvo's audio system.

"Space design" roof box
A lightweight, aerodynamic roof box available in two sizes: 380 and 480 litres.

Portable navigation system
Designed to complement your Volvo, this easy-to-use Garmin nüvi® navigation unit guides you all the way.

Frame-mounted bicycle holder
This holder secures the bicycle at the frame and both wheels and fits most frame sizes.

Park assist camera
Discreetly mounted on the tailgate, this camera increases your field of vision behind the car.

Infant seat (up to 13 kg)
Infants can travel safely backwards in this comfortable, easy-to-carry seat with five-point harness.

Cargo floor mats
Equipped with a high-friction coating, these mats stop dirt and water seeping into the cargo compartment.

Styling
Accentuate your car's sporty, rugged looks with accessories such as aluminium sill mouldings and scuff plates.

Take a look at all our accessories and full pricing information, at www.volvocars.co.uk/accessories

COLOUR YOUR VOLVO. When it comes to the appearance of your Volvo, the choice of exterior colour and wheels are probably your most important design decisions. For more exterior styling options and to build your new Volvo online, please visit www.volvocars.co.uk

426 Silver metallic

452 Black Sapphire metallic

454 Ruby Red pearl

472 Oyster Grey pearl

EXTERIOR DESIGN. The XC70's muscular yet lean design characteristics can both seduce and deceive. Its seductive nature is obvious. Horizontal lines give the car a wide, low look while the vertical design qualities have been emphasised to create a tough, rugged and stable impression. As for deceptive, we were referring to load capacity. And in the case of the XC70, this is anything but lean. The XC70 is also a blank page on which you can write your own personal signature by adding side scuff plates, aluminium crossbars, a roof spoiler or any one of many other eye-catching touches.

Side scuff plate

The matt aluminium finish side scuff plates add an extra touch of attitude to the Volvo XC70, perfectly matching the design of the sill and other XC70 exterior styling details.

Aluminium crossbars

An aerodynamic design element that complements the roof rails and the design of your Volvo. These aluminium crossbars also allow you to exploit the roof's load-carrying capacity to the full.

Roof spoiler

The stylish roof spoiler enhances the sporty lines of your Volvo estate and is colour coordinated with the body.

IMAGINE YOUR NEW INTERIOR. Crafted according to your requirements, the interior of your Volvo can take on any number of personalities. Choose between two interior colours, Anthracite Black and Sandstone Beige, and different upholstery variants. Pick the interior that suits you and add the finishing touch with the interior trim, steering wheel, gear knob and floor mat of your choice. After all, you're probably going to spend a lot of time here.

Ergonomic design Developed in cooperation with ergonomic specialists to provide generous support for the body during hours of driving, the seats in the Volvo XC70 are among the most comfortable in the automotive world. Multiple adjustment possibilities and adjustable lumbar support make it easy to find the perfect driving position.

Leather-faced

This is a hide quality that's comfortable, durable and has a coarse grain pattern. Like all Volvo leather, it's organically tanned and ages beautifully.

Ventilated leather-faced

Designed for use with ventilated seats, this quality is made with buffed leather. Central seat panels are perforated, efficiently managing body moisture while adding an aesthetic quality.

Duved textile/vinyl

This rugged looking upholstery combines two materials. The contemporary textile upholstery is trimmed with durable vinyl hide that has a leather look and feel.

From here, anything is possible.

Is this the best view in the automotive world? From here, the world is literally yours – and with our retractable dashboard mounted RTI (Road Traffic Information) system, it's also at your fingertips. With stunning new graphics and a host of features designed to navigate you easily and quickly through city streets and country lanes, this discreet yet invaluable accessory ensures every journey can be enjoyed to the max. Just like a thousand other interior features that characterise the beautiful XC70.

Come alive.

No matter how much it changes, this is one view you'll never grow tired of. Inside the Volvo XC70, intuitive design and facilitating features take you to a place where complexity is simplified and ergonomics and comfort live in harmony. Step inside and come alive.

Life engineering.

Versatility. A word you hear quite often in the context of cars but one that takes on a whole new meaning in the case of the Volvo XC70. Especially when considering loading. Take the Volvo XC70's 40/20/40 split rear seats for example. The flexibility they deliver in terms of combining cargo and passengers let's you load up without compromising comfort or safety. They also leave a lot of room for something equally important – life. Or perhaps we should say 'lives'.

Going downhill was never this uplifting.

Hill Descent Control is one of the Volvo XC70's outstanding features. By simply pushing a button, it offers smooth, controlled and safe descents on steep, rough roads. The system controls braking on each wheel, allowing you to concentrate fully on steering. Away from the wilderness, Hill Descent Control* also makes it easier to move off when towing a heavy trailer.

*Available on AWD models.

Safe by nature – human nature.

Try to imagine a car that can see. A car that can think. A car that can intuitively react. Sounds like science fiction, right? Not in the case of the XC70. Its brain consists of some of the most powerful micro processing technology in the automotive world. Its eyes are advanced radar and digital camera technology. And its intuition? How about CWAB (Collision Warning with Auto Brake), DAC (Driver Alert Control) and LDW (Lane Departure Warning). Of course, we realise that no safety equipment can compensate for a fully alert and responsive driver, but with the support of these, and many other outstanding features, everyone lucky enough to travel in an XC70 enjoys world class driving safety. Naturally.

Power liberates.

Consider where the XC70 can take you and you won't be surprised to learn about its engine program. For maximum performance, we recommend you consider the new T6. This six-cylinder, 285 PS twin-scroll turbocharged petrol engine delivers immediate response at all revs. Or how about the new, impressively efficient D5? Its five-cylinder, 2.4 litre direct-injection turbodiesel engine develops 205 PS and 420 Nm of max torque. The XC70 is even available as a DRIVe alternative. Without compromising on performance, the DRIVe model satisfies itself with a mere 47.1 mpg* and emits a modest 159 g CO₂/km. Add transmissions that include the six-speed Geartronic automatic or a six-speed manual and enjoy liberating power wherever you find yourself.

*Based on a combined cycle.

In fine detail

The nuts and bolts of your Volvo XC70. Whatever you need to know about your new car – whether that's fuel consumption, CO₂ emissions, top speed or boot space – you'll find it here.

- (i) The results do not express or imply any guarantee of the fuel consumption of a particular car.
- (ii) Official fuel consumption figures are obtained in accordance with Directive 93/116/EC as amended by 1999/100/EC. The figures are obtained under controlled test conditions and as such consumption achieved on the road will not necessarily accord with the official test results. Factors including driving styles and road, car and weather conditions will also have a bearing on actual fuel consumption achieved.
- (iii) Unbraked towing weight must not exceed 50% of kerb weight up to a maximum of 750 kg.
- (iv) For best performance and lowest fuel consumption 98 RON is recommended. 95 RON can be used for normal driving.

Notes

The weight of a vehicle will influence the level of CO₂ emitted and as a result, vehicles with higher levels of specification and factory fit options may emit higher levels of CO₂. However, Vehicle Excise Duty is charged according to the weight and CO₂ emissions of the standard vehicle, as published in this price list. The weight effect of any additional items does not affect the amount of Vehicle Excise Duty payable. A weighbridge must be used to determine specific weights. Data valid for manual transmission unless specified. All measurements in mm. The Max. output figures are quoted in PS (Pferdestärke), which is the metric equivalent of brake horsepower. NB Some of the information in this price list may not be correct due to product changes which may have occurred since it was printed. Some of the equipment described or shown may now be available at extra cost. Before ordering, please ask your Volvo dealer for the latest information. The manufacturer reserves the right to make changes at any time, without notice, to price, colour, materials, specifications and models. Volvo Car UK Limited, Globe Park, Marlow, Buckinghamshire, SL7 1YQ.

Meet the family.

Fuel consumption and CO₂ emissions for the Volvo range:

Fuel consumption mpg (l/100 km):
Urban: 57.7 (4.9) – 14.1 (20.0).
Extra Urban: 83.1 (3.4) – 28.8 (9.8).
Combined: 72.4 (3.9) – 20.9 (13.5).
CO₂ emissions: 104 – 322g/km.

Please note: Some of the information in this brochure may be incorrect due to changes in product specification that may have occurred since printing. Some of the equipment described or shown may now only be available at extra cost. Before ordering, please ask your Volvo dealer for the latest information. The manufacturer reserves the right to make changes at any time and without notice, to prices, colours, materials, specifications and models.

Furthermore: There are options, accessories and packages that can be chosen separately or combined as you like. For more information, please contact your Volvo dealer.

VOLVO TOTAL CARE

We want your experience of buying and owning a Volvo to be one of life's pleasures, that's why we're here to make it as care-free and easy as possible. It's simple – Volvo Total Care is a single port of call for all your motoring requirements, from funding your purchase to protecting your investment with Volvo Car Insurance to monthly payment plans for servicing. We will even provide you with special offers during your ownership. Volvo Total Care is designed to make owning a Volvo rewarding. For further information on Volvo Total Care please contact your dealer or go to www.volvocars.co.uk/totalcare

FINANCE

As part of Volvo, Volvo Car Finance has developed a series of funding plans that will provide you with maximum choice and flexibility when acquiring a Volvo[®]. For details of the current promotions available, please visit www.volvocars.co.uk/financepromotions

WHAT NEXT? If you'd like to find out more about the range of products and services that make up Care by Volvo, the story continues at www.volvocars.co.uk. Alternatively you can contact your nearest Volvo dealer or request relevant brochures.

(i) Finance subject to status. Guarantees/indemnities may be required. Volvo Car Finance SL7 1YQ.

(ii) When using a Volvo approved Body and Paint repairer.

(iii) Volvo Car Insurance is underwritten by Royal & Sun Alliance Insurance plc (No. 93792). Registered in England and Wales at St Mark's Court, Chart Way, Horsham, West Sussex RH12 1XL. Authorised and regulated by the Financial Services Authority. For your protection telephone calls will be recorded and may be monitored. All benefits are subject to qualifying status, terms and conditions, cover level and underwriting criteria. Service and repair benefits are subject to being carried out by a recommended repairer.

INSURANCE

Volvo Car Insurance is designed for Volvo drivers and because we know Volvos inside out, we can offer exactly the right tools and expertise, fitting only genuine Volvo parts by trained Volvo technicians[®]. Your Volvo will come with seven days drive away insurance, so you've already got peace of mind. Because Volvo drivers have an excellent reputation, we can also offer extensive cover at a reasonable price[®].

Call now for your insurance quote on **0800 238 239**, quoting reference BROCH.

SERVICING YOUR VOLVO

Your Volvo dealer has the unique know-how to tailor a service programme according to Volvo's strict recommendations and guarantees you years of safety and driving pleasure. In addition, why not save yourself money on service costs by taking out a Volvo Service Plan? They're designed to spread servicing costs on an interest-free monthly basis, providing you with economic, convenient servicing and peace of mind.

Whatever option you choose your costs are fixed no matter what happens to labour, parts or oil prices. You will also have the satisfaction of being able to have your Volvo serviced at any one of our UK Volvo dealers and Service Centres. For further information and to purchase online please go to www.volvocars.co.uk/serviceplan

VOLVO ON CALL

Subscribe to Volvo On Call and you'll never be completely on your own. It's a GPS-based communication system providing 24-hour access to both emergency and roadside assistance wherever you are. See the Volvo On Call brochure for more information.

LOOKING AHEAD

You'll probably never find out just how good some of these services are. But should the unexpected happen, we'd like to think that you'd be even happier you chose a Volvo.

ROADSIDE ASSISTANCE

Every new car comes with one year's Volvo Assistance cover. You'll enjoy free breakdown and recovery assistance, anywhere in Europe, 24 hours a day. You can even extend cover for £85 for one year or £155 for two years. Call Volvo Assistance on **08701 650 978**.

WARRANTY

Every new Volvo comes with comprehensive protection. Our warranty covers the first three years or 60,000 miles, whichever comes first. There's a three year unlimited mileage warranty on the paintwork, and either eight or twelve years against rust perforation. If a component fails due to a defect or material fault, your dealer will swiftly rectify the problem, free of charge.

THERE'S MORE TO LIFE THAN A VOLVO.

Volvo. for life

THAT'S WHY YOU DRIVE ONE.

VOLVO
