The Toyota Hilux

Work hard. Play harder

Anything and everything you want to do is within reach with the Toyota Hilux.
Wherever and whenever you want to do it.

A dynamic drive

Hilux has a hard-earned and well-deserved reputation as a rugged performer. It effortlessly despatches any terrain no matter how tough the going. But that doesn't mean that comfort has to be sacrificed for utility. Hilux is equally at home in the urban environment.

A host of innovations add to your driving pleasure and safety. From the revamped front end with its new front bumper, lavish chrome detail, clear indicator lenses and headlamp cleaners, right back to the lockable tailgate, the Hilux boasts many outstanding new features. Behind the privacy glass you'll find features like automatic transmission, cruise control and varied levels of interior trim*.

* Depending on choice of model.

Three unbreakable body styles

From making it through rough terrain to simply cruising across town, the new Toyota Hilux offers truly all-encompassing ability.

Push it to the limit and it'll respond with enthusiasm. Take it to the extreme and it'll just want more. Nothing worries it, nothing scares it, nothing even makes it think twice. This relentless vehicle offers the choice of three tough body styles (including the capacious 5-seater Double Cab); the Toyota Hilux has nothing to hold it back. And neither do you.

Today

A reputation that's well tried...

Toyota Hilux has endured some of the harshest environments in the world for more than forty years. First released in Japan in 1967, it soon became known globally for its resolute and uncompromising ability and reliability.

Every day, Hilux owners everywhere use their vehicle in the most extreme surroundings. Braving freezing weather in Alaska. Carrying cargo loads across the sand dunes of the Sahara. Negotiating rocky outcrops in the remote Australian outback. They know, first-hand, that their Hilux can be depended on to

climb that incline, cross that river, pull out of that mud. Little wonder, perhaps, that over 12,000,000 models have been sold worldwide.

With Hilux, Toyota's long-standing commitment to quality and durability culminates in a vehicle that millions of people trust on every type of terrain, in all kinds of conditions. And, sometimes, quite literally, with their lives.

...and well tested

As far as proving its worth, we didn't just rely on the Hilux's name and reputation for strength and durability. As part of the development programme for this model, we put it to the test in the most extreme conditions.

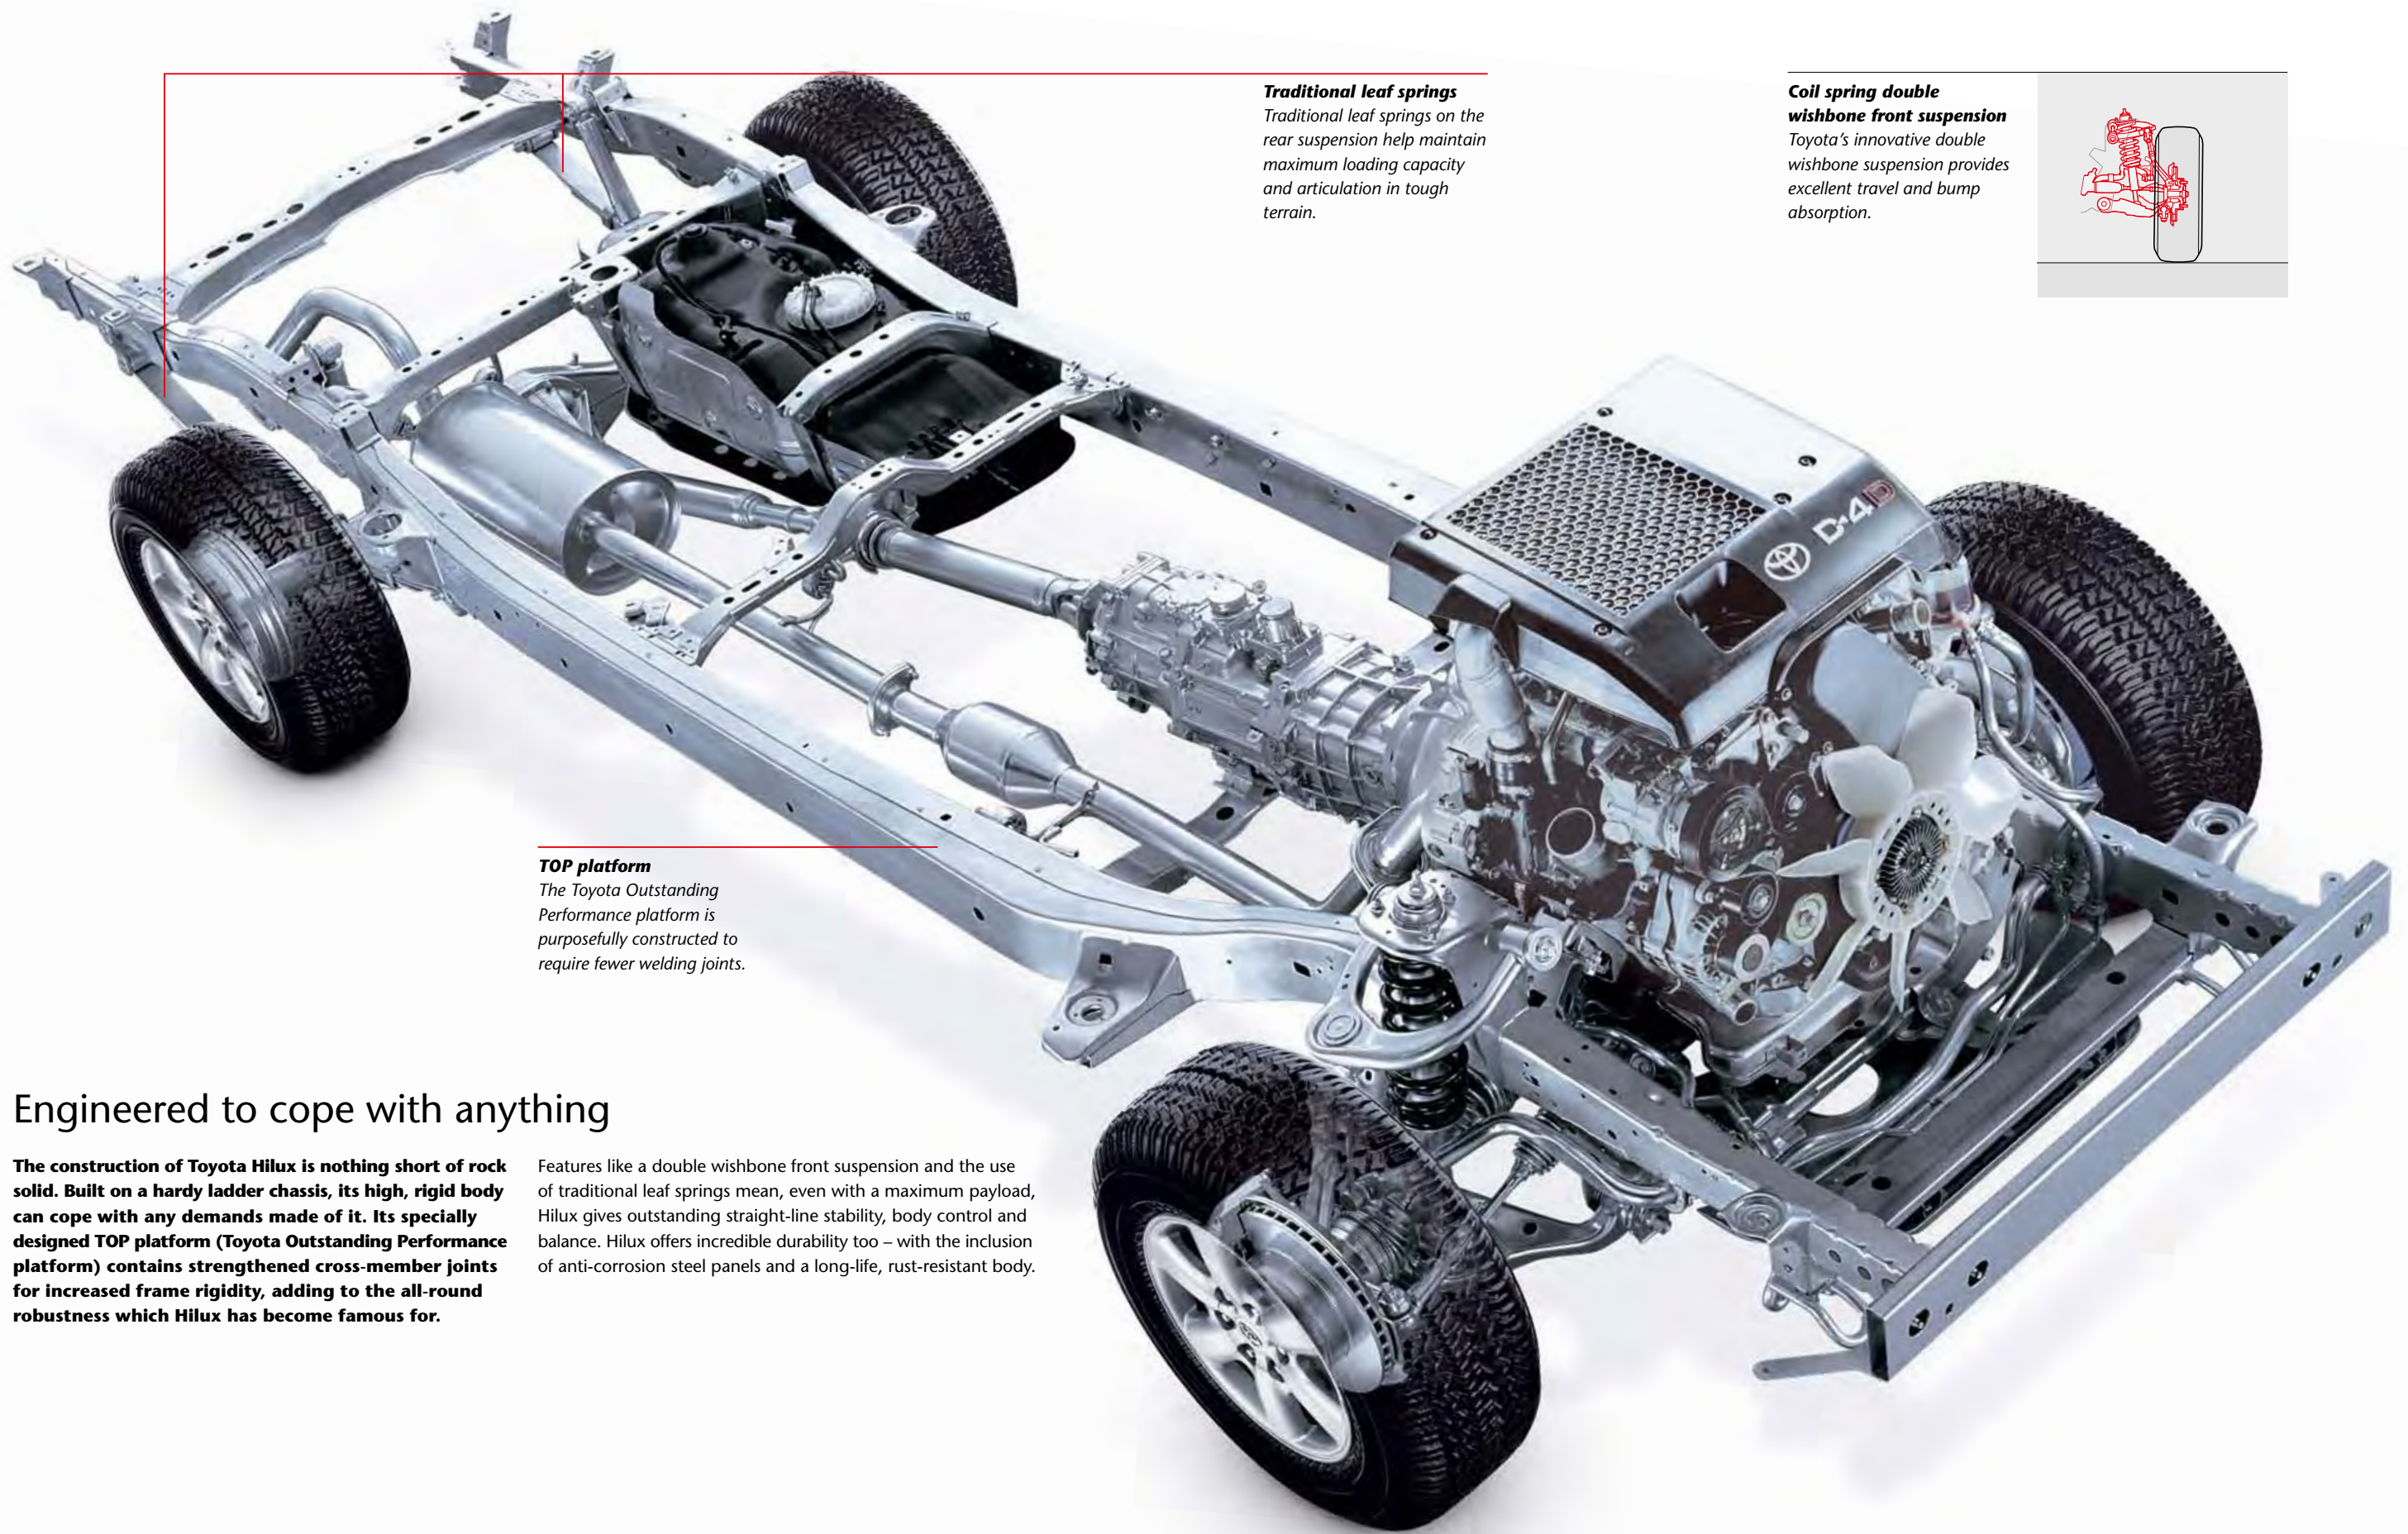

First of all, we gave it a durability test in South Africa, and we also included a high-altitude drive at 2800m for good measure. But that wasn't testing enough, so to really check-out how the engine stood up where the oxygen is scarce, we took it to Peru and tried it 4800m up the Andes, where the oxygen levels are less than 50% of what they are at sea level, making most engines struggle due to insufficient air intake.

Still the Hilux didn't falter, so we sent it to spend 150 hours off-roading at high speed across some of the most unwelcoming terrain on earth in the Australian Outback. Again, the Hilux came through with flying colours. Then we really turned the heat up – literally – with a high temperature test at 47° in Dubai and once more the Hilux coped without a problem, even the air conditioning system, which kept the cabin cool and comfortable.

In case your destination is nearer to home, we also tested the Hilux in Europe to make sure that it was just as suitable for the conditions here as it is at the four corners of the globe.

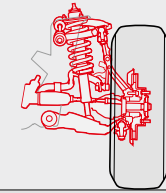

Unbreakable ability? With the Toyota Hilux, it's no empty claim.

Traditional leaf springs
Traditional leaf springs on the rear suspension help maintain maximum loading capacity and articulation in tough terrain.

Coil spring double wishbone front suspension
Toyota's innovative double wishbone suspension provides excellent travel and bump absorption.

TOP platform
The Toyota Outstanding Performance platform is purposefully constructed to require fewer welding joints.

Engineered to cope with anything

The construction of Toyota Hilux is nothing short of rock solid. Built on a hardy ladder chassis, its high, rigid body can cope with any demands made of it. Its specially designed TOP platform (Toyota Outstanding Performance platform) contains strengthened cross-member joints for increased frame rigidity, adding to the all-round robustness which Hilux has become famous for.

Features like a double wishbone front suspension and the use of traditional leaf springs mean, even with a maximum payload, Hilux gives outstanding straight-line stability, body control and balance. Hilux offers incredible durability too – with the inclusion of anti-corrosion steel panels and a long-life, rust-resistant body.

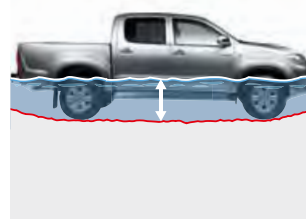

Go anywhere...

Hilux is designed as much for on-road travel as it is for off. Take it on a trip through any town or city and you'll soon notice why. Aerodynamic styling and integral sound-reducing materials in the cabin make for a driving experience so quiet you'll almost need reminding you're in a pickup.

Hilux's meticulously engineered suspension results in optimised ride comfort in a pickup. Its rack-and-pinion-type steering system delivers a more responsive steering feel that's ideal in an urban environment. The Toyota Hilux blends comfort and superior handling to create levels of car-like refinement that might make you forget you're driving a utility vehicle.

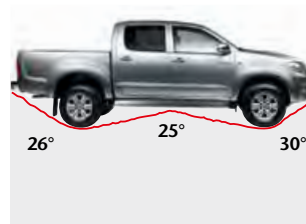

Wading depth

Hilux can take on waters up to 700 mm.

Clearance

Approach Angle 30°
Break over Angle 25°
Departure Angle 26°

5-speed manual transmission

Take control with a five-speed manual gearbox that lets you make the most of the Hilux's enviable power and torque.

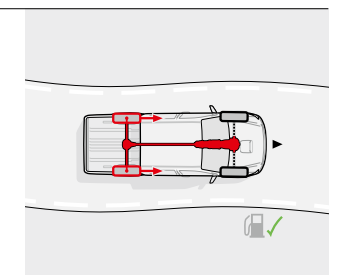

5-speed automatic transmission

A new five-speed automatic transmission adds an extra ratio that puts the Hilux in the right gear for every situation.

ADD

Hilux's Automatic Disconnecting Differential automatically disconnects power from the front wheels when switching between 4WD and 2WD while on the move, substantially increasing fuel efficiency.

Power to deliver

A choice of two turbodiesel engines give the Toyota Hilux the power to deliver whatever you ask of it, whether in the urban or off-road environment.

Good levels of torque provide the forward force for both engine capacities and the five-speed manual and five-speed automatic gearboxes make the most of it.

The 3.0 litre D-4D 170 engine packs a heady 343 Nm of torque at 1400–3200 rpm (5 M/T) and 360 Nm of torque at 1400–3200 rpm (5 A/T), with a towing capacity of 2250 kg. In 4WD mode the 2.5 litre D-4D 140 delivers an impressive 343 Nm at a lowly 2800 rpm, making short work of even the heaviest loads.

High performance is delivered while keeping emissions low. Common-rail diesel technology maximises fuel efficiency while combustion is quietened by a precise pilot injection system.

3.0 litre D-4D 170
Hilux's 3.0 litre D-4D 170 engine offers maximum torque of 360 Nm/1400–3200 rpm (5 A/T).

2.5 litre D-4D 140
Hilux's D-4D 140 engine delivers an impressive 343 Nm/2800 rpm in high power 4x4 mode.

3.0 litre D-4D 170
Hilux's 3.0 litre D-4D 170 engine offers maximum torque of 343 Nm/1400–3200 rpm (5 M/T).

Serve and protect

Toyota has a total commitment to safety. A range of active and passive safety features are fitted as standard and complement the uncompromisingly tough and robust build of the Hilux. Driver and passenger SRS front airbags are now augmented by side and curtain airbag protection*. Vehicle Stability Control adds new peace of mind to other Hilux features such as ABS and LSPV.

All these tried-and-tested safety-technology features combine with a vehicle engineered to withstand the toughest of challenges. On-road or off, the Toyota Hilux provides total driver and passenger reassurance.

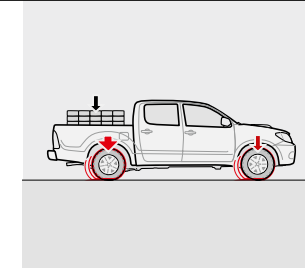

Anti-lock Braking System (ABS) helps to stop wheels locking on slippery roads while Electronic Brake force Distribution (EBD) optimises braking force between the front and rear (as well as left and right) wheels so that you can successfully negotiate obstacles as you bring the car to a complete stop. Brake Assist (BA) is able to detect emergency braking and, in cases where not enough pressure has been applied to the brake pedal, will add additional braking power*.

* Depending on choice of model.

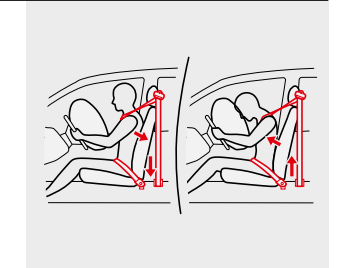

§ See equipment list for model availability.

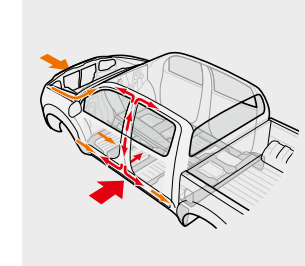

LSPV
Toyota's Load Sensing Proportioning Valve optimises braking performance in direct response to the payload you're carrying, increasing rear brake pressure when the vehicle is loaded.

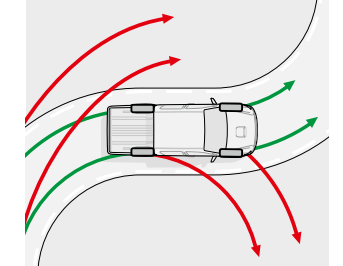

Seat belts
Front seat belts with pre-tensioners and force-limiters help reduce the possibility of chest injuries in an accident.

GOA body structure
The Global Outstanding Assessment (GOA) body structure helps protect occupants in the event of a collision. It is designed to effectively absorb shocks and distribute impact forces throughout the whole vehicle structure.

Vehicle Stability Control (VSC)§
VSC acts to reduce excessive side slippage of the tyres and so helps you maintain control of your vehicle§.

Headlamp cleaners§
The retractable headlamp cleaners help to ensure clear visibility even in bad weather.

Hilux Double Cab. Room for four more

For the ultimate group outing, the Hilux Double Cab is the body style of choice. Five people can ride in it at the same time, with all occupants enjoying more than ample headroom and legroom in spacious surroundings.

The back seats tip up to reveal convenient storage compartments underneath, and rear doors open wide for easy access. However long you're staying out for, Hilux Double Cab frees you up to take whoever you want to go with you.

←1520 mm→

Hilux Double Cab can take a maximum payload of 1110 kg and has a deck length of 1520 mm.

Hilux Extra Cab. A more flexible option

Not only is the Hilux Extra Cab unbreakable in its ability, there are no restrictions on who or what to carry.

If you need to take a couple of additional people along with you, the Extra Cab's rear seats fold down to comfortably accommodate two passengers in the back. And there's no compromise on cargo capability either with a generous deck length of 1805 mm.

← 1805 mm →

Hilux Extra Cab can take a maximum payload of 1050 kg and has a deck length of 1805 mm.

Hilux Single Cab. A resilient worker

The Hilux Single Cab is for those who just want to get on with the job.

Unyielding, tough and uncompromising, it's the perfect business partner, no matter what your business is. It gives you a maximum load space of 1.58 cubic metres and a total payload of 860 kg, ensuring nothing gets in the way of a solid, hard day's work.

Hilux Single Cab can take a maximum payload of 860 kg and has a deck length of 2315 mm.

Vehicle shown with optional Torino two-tone leather interior and navigation.

1.

2.

3.

Comfort zone

As tough as the Hilux is on the outside, comfort is uncompromised on the inside.

The commitment to comfort now extends to automatic air conditioning on Invincible*, with manual air conditioning maintaining the temperature across the rest of the range.

Cruise control now comes as standard on Invincible*, easily selected on the steering console, and you'll find intuitively operated audio controls on the wheel itself. A multi-info display makes the journey even simpler.

* See equipment list.

1. Automatic air conditioning*

Air conditioning guarantees driver and passenger comfort in any environment the Hilux encounters.

2. Leather steering wheel*

Take control of the Hilux with an ergonomic wheel providing feedback from the responsive steering.

3. Optitron meters*

Optitron driving instruments with individual LEDs for each character and needle have greater clarity, reduce eye fatigue and improve concentration.

Luxury accommodation

Your passengers will appreciate the generous proportions of the Hilux's interior as much as you do. Wide opening doors and internal steps make getting in and out a breeze.

Enjoy the company of your travelling companions assured that your conversations won't be intruded upon by engine noise. Dampening materials are integral to the cabin frame, keeping the sound of the engine to an absolute minimum, and on the outside, a raked windscreen and shaped outer door mirrors have been specially designed to reduce wind noise. The end result? A comfortably quiet driving experience that you'll savour every time you get behind the wheel.

1. Privacy glass*

Driver and occupants of the Hilux Double Cab in HL3 and Invincible can now enjoy the luxury of privacy glass.

2. Chrome handles*

Adding an undeniable touch of class to the interior are chrome-plated door handles.

* See equipment list for model availability.

HL₂

With the Hilux HL₂, you can really enjoy unbreakable ability in style. On the outside there is a robust cabin protector/ladder rack, sturdy black wing mirrors and handles and steel wheels, whilst the single cab has useful exterior lashing hooks on the load bed.

Inside, the good looks continue, with a pleasing fabric trim and matching fascia throughout. To enhance your driving pleasure even further, Hilux HL₂ also offers manual air conditioning for added comfort.

The Hilux HL₂. For wherever you're going.

* Not available on Single Cab.

Manual air conditioning

Summer or winter, dial out the outside weather conditions with manual air conditioning for the comfort of driver and all passengers.

Tailgate lock

For additional security and peace of mind Hilux models now feature a tailgate lock to prevent it being lowered when you're away from the vehicle.*

HL₃

The Hilux HL₃ grade brings even more refinement to an already luxurious vehicle. On the outside of the HL₃ you'll find front fog lamps, headlamp cleaners, 15" alloy wheels and chrome door handles and electric mirrors.

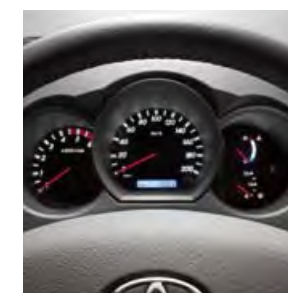

On the inside you'll find more chrome on the door handles, a leather-trimmed steering wheel and gearshift. Privacy glass adds an extra level of distinction. The HL₃ boasts its own special fabrics to match silver dashboard inserts plus stylish Optitron dials and multi-info display. Power windows and manual air conditioning provide a little extra indulgence.

Invincible

The Invincible grade offers 17" alloy wheels, stainless steel side running bars and a leather steering wheel. Enjoy the unparalleled premium design of the front seats and the optional luxury of Torino two-tone leather upholstery. Safety features such as VSC help ensure control regardless of driver inputs at high-speed and on slippery surfaces.

1. Steering wheel controls

Ergonomic switches allow for distraction-free management of audio, multi-info display and air conditioning, depending on spec. Cruise control is within easy reach, too.

2. 17" alloy wheels

Stylish 17" alloy wheels with a unique spoke pattern are standard fit on the Hilux Invincible affirming its luxury specification.

3. Invincible leather option

TOYOTA

Our aim is 'Zero Emissions'

We have sold more than **2 million Toyota hybrid** cars worldwide. So it's no surprise that most people associate eco-friendlier cars with Toyota. It's our mission to make a difference – by investing in greener technology that helps to protect our planet.

Assessing a vehicle's whole life cycle

Ten tips for a Toyota Eco-Drive and save up to 30% on your CO₂ emissions

Lowering emissions is something we can all do to help the environment. It's simply a matter of changing the way we drive.

-  1. Remove any extra weight and roof load.
-  2. Plan your route and avoid detours.
-  3. Avoid using your car for short journeys.
-  4. Check your tyre pressure regularly.
-  5. Service your car according to the owner's manual.
-  6. Shift up gear earlier.
-  7. Only use electrical accessories when necessary (e.g. A/C).
-  8. Follow and anticipate traffic flow.
-  9. Keep your windows closed (use the ventilation system when possible).
-  10. Switch off your engine if you have to wait longer than 60 seconds.

Hilux option packs

Urban pack

Add to the rugged good looks of your vehicle with the Hilux Urban pack.

The front guard, with its black, soft-feel polyurethane, chrome-finish upper garnish and silver-finish under guard will further enhance the appearance.

Front and rear parking sensors will be a great help in avoiding the bumps and scrapes of urban parking. Front and rear scuff plates will protect the door sills from everyday wear and tear and for a final touch of individuality.

Navigation pack

Touch screen controls and a 5.8" screen make the Satellite Navigation incredibly easy to use. Directions are in full map colour graphics, including lane guidance, synchronised with voice commands. You get ultra-fast route calculations, a destinations memory and Electronic Traffic Avoidance feature to help avoid traffic problems.

The system comes complete with an integral radio, a WMA/MP3 compatible CD player, iPod® compatibility, Bluetooth® connectivity and comprehensive connectivity including a USB slot. Suitable for HL3 and Invincible.

1.

2.

3.

Sport deck

Sport deck offers the ultimate solution for those individuals wanting to incorporate practicality with design. The Mountain Top roll 'n' lock solution provides both security, through a robust locking system that locks the tailgate, and functionality, where the pickup bed can either be open for larger items or closed to protect valuable items.

Also included is the Mountain Top under rail inner bed liner, which has an anti-slip surface and will help to protect your vehicle from daily wear and tear.

The overall vehicle styling is complemented by the chromed stainless steel Hi-over Sports bar.

Suitable for the HL3 and Invincible.

1. The Mountain Top under rail inner bed liner, which will provide a non-skid surface. It has a resistance to UV light, shock, oil and most chemicals.

2. The Mountain Top roll 'n' lock which features auto-positioning and locking so that you can secure the cover in a partially or fully closed position, and...

3. ...the Hi-over Sports bar, which is made of stainless steel and has a bright chrome finish. It fixes just behind the cab to create a superb visual highlight. The Sports bar is fully compatible with the Mountain Top under rail bed liner and roll 'n' lock detailed above.

Tailored leather interior

For the Invincible you can choose tailored Torino two-tone leather upholstery.

The leather used for Toyota upholstery is carefully selected for quality. It complies with the toughest European standards

so you can be sure of its comfort and durability, while also having the convenience of being able to simply wipe the surface clean to maintain the look of prestige and elegance.

All option packs must be ordered at the time of purchasing the vehicle.

As individual as life itself

Life takes on a new dimension with the Toyota Hilux. Its strength, versatility, passenger-car sophistication and dynamic good looks open a world of endless possibilities.

Toyota accessories extend flexibility even further by providing those special touches of pure individuality to reflect your own taste for extra style, comfort and practicality.

Importantly, all the accessories in the range are designed and made with the same care and attention to detail as the Hilux

itself. Toyota accessories are developed by Toyota uniquely for Toyota cars. Similarly, accessories from our approved partners meet similar standards of performance and purpose. As a result, whichever accessories you choose, installation is professional, integration is perfect and you have the absolute assurance of superior quality, functionality and reliability.

Wherever you're going, whatever life holds in store, with the Hilux and Toyota accessories you can get there and enjoy the experience in a way that's sure to suit you best.

Hi-over Sports bar

The perfect example of personal expression. Made of stainless steel and with a bright chrome finish, it fixes just behind the cab to create a superb visual highlight

Roof rack

For everything from ladders to bikes, a genuine Toyota roof rack is available, Double Cab only. (Shown with optional sailboard/mast holder.)

Driving lamps

Additional illumination to enhance night-time and bad weather visibility.

Wind deflectors

Toyota wind deflectors allow fresh air into the cabin but avoid draughts.

Front guard and under guard

For further individuality add the sturdy front guard and under guard.

Side steps

Complement your car's rugged good looks while also offering the practical advantage of making passenger access easier. (Standard on HL3.)

Alloy wheels

Add an extra touch of individuality with the uniquely designed Ozark alloy wheels.

Assert your individuality

With Toyota's specially designed range of quality accessories, you can express your personality and make your Hilux even more distinctive.

Whether you opt for style, comfort or convenience, you can be assured that all parts meet the high standards of performance and reliability for which Toyota is renowned.

Making more of the appeal

There's no denying the rugged appeal of the Hilux. Add Toyota style accessories and you'll create even more of an impression.

A choice of two 15" alloy wheels presents the ideal opportunity to express your individuality. Each has been specially designed for the Hilux and then quality made to be lightweight, strong and durable.

A front guard extends the style even further by emphasising the sturdy front-end appearance of your car. The guard is made of black soft-feel polyurethane with a chrome-finish upper garnish and has a silver-finish under guard that further enhances the appearance.

Fog lights and driving lamps complete the picture. Both emphasise your taste for extra style while providing powerful additional illumination to enhance night-time and bad weather visibility.

1. Front guard with under guard.

2. Driving lamps.

3. Alloy wheels, Ozark 15" – 4x4 models, except Invincible.

4. Front guard (with under guard), fog lamps* and driving lamps.

* Fog lamps standard on HL3 & Invincible.

3.

4.

1.

2.

3.

Your choice for style

Details make the difference when it comes to style. Toyota accessories offer the flexibility to show exactly how you like things to be.

A Hi-over bar is the perfect example of personal expression. Made of stainless steel and with a bright chrome finish it fixes just behind the cab to create a superb visual highlight. Importantly, the design and installation is fully compatible with the Toyota bed rug.

In a similar vein, chrome-finish stainless steel side bars expertly blend with the shape and stature of the Hilux to emphasise its go anywhere appeal. Alternatively, you can choose aluminium side steps. These equally complement your car's rugged good looks while also offering the practical advantage of making passenger access easier.

1. Hi-over chromed stainless steel Sports bar, Mountain Top roll 'n' lock and bed rug by Mountain Top – HL3 & Invincible Double Cabs.

2. Aluminium side steps – Double Cab only.

3. Tubular, stainless steel side bars – HL2 & HL3, Double Cab only.

Check full accessory application with your local Toyota Centre.

A look of luxury

Detail accessories then enhance the impression even further.

A chrome-finish exhaust pipe finisher and chrome rear light bezels will add the final details to the exterior of your Hilux.

To add an air of luxury to the inherent high-quality cabin of your Toyota Hilux, brushed metallic scuff plates for the front doors not only add style, but will also protect the sills from day to day marks and scrapes. A leather shift knob provides that final touch to make the whole look complete.

1. Exhaust finisher.

2. Rear light bezel.

3. Scuff plates (front set) – Double Cab models.

4. Leather gear shift knobs – manual.

2.

3.

1.

4.

1.

5.

6.

In touch with your world

Touch screen controls and a 5.8" screen make the navigation system incredibly easy to use. Directions are in full map colour graphics, including lane guidance, synchronised with voice commands. You get ultra-fast route calculations, a destinations memory and Electronic Traffic Avoidance to help avoid traffic problems.

The system comes complete with an integral radio, a WMA/MP3 compatible CD player, iPod® compatibility, Bluetooth® streaming and comprehensive connectivity including a USB slot. Must be ordered when ordering your vehicle.

Equally easy to use is the hands-free telephone kit. Simply clip your phone* into the cable-less cradle and you can start using it straightaway. The cradle is interchangeable, which means you can take it and your phone to use in another car fitted with the same system. Also, when you upgrade your phone, you only need change the cradle and not the whole system. A choice of occasional, business and executive versions increases flexibility even further.

Toyota also offers an advanced mobile phone solution featuring voice recognition commands for users of phones compatible with Bluetooth® wireless technology. The system incorporates

a backlit dashboard keypad control, connects to your audio for enhanced sound quality and has a directional microphone to maximise pick-up. Conveniently, the speaker-independent voice recognition function enables voice commands for dialling up to 20 regular numbers. For added versatility, four different Bluetooth® compatible phones can be paired with the system at the same time.

* Please contact your local Toyota Centre for details of mobile phone compatibility.

§ Navigation system includes a single CD player.

1 & 2. Navigation system[§] with ETA – must be specified at point of vehicle order.

3. Hands-free telephone kit.

4. Underseat active subwoofer.

5. Bluetooth® hands-free system (uses steering wheel control system on HL3).

6. Front tweeters.

Check full accessory application with your local Toyota Centre.

Adding to the adventure

The Hilux has an almost legendary 'go anywhere' capability. Toyota accessories add even more carrying capacity to enhance the spirit of adventure.

There is a choice of tow bar systems to best suit your application and all supplied with dedicated wiring kits.

For maximum flexibility, the aerodynamic, aluminium, lockable roof rack provides the ideal solution for Double Cabs. It is easy to install and can be combined with a great range of optional attachments. The attachments include a luggage platform, canoe and sailboard holders, a bicycle holder and two sizes of ski holders. There are also a streamlined designed ski box and a luggage box – both feature central locking.

For inside the cabin the range includes a seat-back coat hanger and a high-capacity cool/hot bag that plugs into your car's 12-volt accessory socket and can be used for keeping food and refreshments either piping hot or deliciously chilled.

1. Flanged tow bar with wiring kit (with or without the available under run protector option).

2. Roof rack with optional ski holder – Double Cab models.

3. Ball and hitch for flanged tow bar (option).

4. Coat hanger – except Single Cab.

5. Roof rack with optional Barracuda bicycle carrier – Double Cab models.

Protection you can rely on

For parents, protecting younger passengers is perhaps the biggest responsibility of all. That's why Toyota child restraint systems are purpose designed for maximum safety.

The Group G1 Plus seat is for children of between approximately eight months and four years (9 to 18 kg). It fixes securely using the standard three-point seat belt and has wide wings for maximum side impact protection.

For babies up to about 15 months (to 13 kg) there's the Group G0+ Babysafe seat. This is designed to increase side impact protection and also incorporates an adjustable canopy to shield against the sun and wind. Please note that this seat cannot be used with front passenger airbag.

The Kid Group 2/3 restraint system suits bigger children of between approximately three and twelve years (15 to 36 kg). Its design consists of two parts: a booster cushion and a backrest featuring deep side wings and a curved head support. The extra height of the booster cushion and the precise guides on the backrest ensure correct seatbelt positioning to hold your child firmly but comfortably in place. The system attaches using

the seat belt and has a height adjustable headrest (not illustrated). Please note the law, introduced on 18th Sept. 2006, requires that all children under the age of 12 years and under 135 cm (4' 5") must use the correct child restraint system when travelling in a vehicle.

Protection for your carpets is provided by Toyota tailored fit floor mats. There are rubber mats to maximise protection against the very worst conditions or alternatively for Double Cabs, premium velour carpet mats.

1. G1 Plus child restraint seat.
2. Babysafe G0+ child restraint seat.
3. Kid restraint seat G3.
4. Rubber floor mats – all models.
5. Premium velour carpet mats – Double Cab models.

Day to day care

The Toyota accessory range provides extra security and protection to care for your car and enhance that 'peace of mind' feeling.

Toyota's parking aid system is a great help in avoiding the bumps and scrapes of city parking or when parking near to low objects. You have a choice of the TPA400 system with four rear sensors or the TPA800 with four rear and four front sensors. When either system is engaged, the sensors link to an interior warning that becomes progressively louder the closer your vehicle gets to an obstacle. A cancellation switch can also be fitted. This is required when a tow bar is in use.

For security when parked you can complement the Hilux's pre-fitted immobiliser with a TRACKER Stolen Vehicle Security system. Additionally, there's a steel lock for your spare wheel and a set of four locking wheel nuts with a unique coded key for your valuable alloys.

If you like driving with the windows open, Toyota wind deflectors let you enjoy the fresh-air sensation without excessive turbulence and noise.

1. Four- and eight-sensor parking aid systems (eight-sensor system illustrated) – except HL₂ Double Cab. The ultrasonic parking aid system's sensors can be painted to match your car's body colour.

2. Wind deflectors (front pair).

3. TRACKER Stolen Vehicle Security systems.

1.

Tough and practical

The Hilux lets you carry almost anything to virtually anywhere. Toyota deck bed accessories make it safer, easier and more secure to do so.

The hard tonneau cover with its Hi-over bar and lockable hinged opening offers a great combination of style and practicality. It can be painted to match your car's body colour for that totally integrated look.

Optimum functionality comes in the form of the lockable aluminium tonneau cover by Mountain Top. It protects items stored within the deck bed under rail and, being made of heavy duty aluminium with in-built rails, it can also be used to secure items weighing up to 100 kg on its top.

The soft tonneau cover is just right for protecting your cargo against the weather and prying eyes. It is made of durable black polyester and is fully compatible with deck bed under rail liners.

Easy access and security combine in the ingenious Mountain Top roll 'n' lock tonneau cover. Conveniently, the system features auto-positioning and locking so that you can secure the cover in partially open or fully closed positions. The Mountain Top cargo manager which can be added as an option presents a simple yet highly effective way to section off the cargo area.

The tailgate seat minimises water intrusion into the deck area through the tailgate in severe weather conditions.

1. Hard tonneau cover with Sports bar – all Double Cab models.

2. Aluminium tonneau cover by Mountain Top.

3. Soft tonneau cover – HL3/Invincible grades.

4. Roll 'n' lock tonneau cover by Mountain Top – with optional cargo manager.

5. Tailgate seal.

Extending your deck bed options

The range of deck bed accessories offers you a choice of deck bed liners to protect your pick up and ideally suit the type of cargo you intend to carry.

The high density over rail liner is just right for day to day items and is fully compatible with Toyota tonneau covers. Heavier protection comes in the form of the Mountain Top under rail inner bed liner. Made of strong polyethylene (HDPE), it has an anti-skid surface and is resistant to UV light, shock, oil and most chemicals.

For those really tough carrying jobs you need the Mountain Top aluminium bed liner. It has ultra-strong polyethylene wheel arch covers and can be combined with the aluminium tonneau cover.

The Mountain Top bed rug gives your deck bed the look and feel of having a conventional car boot carpet. Made of the same material as a hard plastic liner, the bed rug has a fibre surface that is resistant to stains, water, acid, grease, oil and chemicals. The bed rug integrates perfectly with the Snug truck top.

The Mountain Top lightweight, aluminium tube bed x-tender enables you to extend the deck bed so that you can safely transport large items of cargo, and it can be flipped over for use as a deck bed divider to secure smaller items.

1. Over rail liner – ideal for an open deck bed.

2. Under rail inner bed liner – the perfect combination with a Truckman hardtop.

3. Aluminium bed liner by Mountain Top – designed to match the aluminium tonneau cover.

4. Bed rug by Mountain Top – will fit perfectly with the Snug truck top.

5. Bed x-tender by Mountain Top.

Truckman hardtops for versatility

The new Truckman Classic hardtop is designed to cope with the daily rigour of hard work.

Its built-in strength includes steel corner reinforcements, double skin roof and sandwich construction side walls. The rear door aperture, side rails and roof tie down points are reinforced, using the latest manufacturing materials and, where appropriate, galvanised steel inserts. All these elements increase overall strength providing an outstanding, easy to clean finished surface both inside and out.

Easily the largest hardtop on the market for maximum storage space for Single, Extra and Double Cabs, it is also the first in the industry to feature the option of side access doors for all cab types, allowing simple access to tools and components.

Even better news is that there is no requirement to remove the ladder rack from the load bed of HL₂ models as the Classic hardtop for Single, Extra and Double Cab incorporates this within the design, as shown in picture 5.

The over rail bed liner is fully compatible with the Single Cab Truckman top. All under rail liner options are compatible with the Extra and Double Cab Truckman tops.

2.

Dimensions	Single Cab	Extra Cab	Double Cab
Overall vehicle height (ground to top of Truckman top)	2090 mm	2085 mm	2085 mm
Interior height (inner load bed to Truckman inner roof)	1190 mm	1185 mm	1185 mm
Aperture height (from open Truckman tailgate to vehicle tailgate)	1060 mm	1065 mm	1065 mm

Standard features and specifications

- 3-year Truckman warranty
- Interior flow coat gel finish
- Double skinned roof section
- Toughened glass
- Two-way lockable aluminium framed tailgate
- Roof load capacity 100 kg
- Bolt fixation for added strength
- Fits over existing ladder rack/cabin protector
- White smooth finish (paint match at extra cost)
- Steel corner reinforcements
- Sandwich construction side sections
- External locking handle for load security
- Opening assisted by gas struts
- Built-in ladder rests

Optional features

- Painted in any colour
- Security grille for rear window
- Side access doors, either or both sides
- Side windows, fixed
- Side windows, sliding
- Pop-up roof vent
- Rotating roof vent

1. Truckman hardtop on Double Cab.

2. Truckman hardtop with rear lockable tailgate.

3. Truckman hardtop on Single Cab.

4. Truckman hardtop, rear view.

5. Truckman hardtop with optional twin side access doors.

Toyota Snug leisure hardtop

The Toyota Snug truck top offers the following benefits for your Double Cab

- Made of tough and very durable Fibreglass Reinforced Plastic (FRP)
- Integrates perfectly with the Hilux load space
- Non-drill fixation
- Colour-coded to your vehicle
- 3-year Toyota warranty
- Remarkably light and durable

Specification

- Fabric headlining to perfectly match the bed rug
- Interior lighting
- Tinted glass
- Pop-out side windows
- Colour-matched to your vehicle
- Slam-lock rear door
- Integrated roof rails
- Not compatible with ladder rack

Steel leisure hardtop

The steel truck top offers the following benefits for your Double Cab

- Made from durable steel with anti-corrosive coating
- Non-drill fixation
- Colour-coded to your vehicle
- Strong and durable
- 3-year warranty

Specification

- Vinyl headlining
- Rear window demister
- Tinted glass
- Sliding side windows
- 50 kg roof load capacity
- Integrated roof rails
- Not compatible with ladder rack

Flexible Finance from Toyota Financial Services

We want to make acquiring and maintaining your Hilux as easy as driving one. Our range of finance plans has been designed specifically with this in mind. Above all, our plans offer flexibility, easy budgeting and peace of mind and can be arranged as a one-stop-shop when you select your Hilux.

Some of our most popular finance options are detailed below.

Hire Purchase

Traditional Hire Purchase provides an original, simple and effective Finance option. This plan allows you to drive the car of your choice and spread the payments over an agreed period to suit you, with fixed monthly payments allowing for easy budgeting.

Lease Purchase

This is a product for business users that is particularly useful for non-VAT-registered businesses as monthly charges are exempt from VAT. The initial capital outlay is reduced since the vehicle is given an anticipated future value, the payment of which is deferred to the end of the agreement. This allows for lower monthly payments that are fixed over the agreed period.

Contract Hire

Contract Hire is ideally suited for VAT-registered businesses. It offers a host of benefits including reduced capital outlay, affordable monthly rentals and no depreciation, disposal or administration problems – you also have the option to include maintenance.

Flexible Finance

However, Toyota Financial Services are about more than just these schemes. Whatever your needs, we have a full range of finance options to offer you. Whether you're a private motorist or a business customer, just discuss your individual requirements with your Toyota Centre, who will be pleased to help you choose a finance plan to suit you.

Finance subject to status to over 18s only. Indemnities may be required. Terms and conditions apply. Toyota Financial Services, Great Burgh, Burgh Heath, Epsom, Surrey, KT18 5UZ.

Customer services

Toyota Approved Used Car Scheme

All Toyota Approved Used vehicles come complete with a pre-delivery inspection, a mileage check, 12 months' warranty, RAC breakdown cover, Club Toyota membership and a 30-day vehicle exchange plan.

Club Toyota

When you buy a Toyota you automatically become a member of Club Toyota, for 12 months free of charge. This entitles you to take advantage of a host of benefits including free RAC Roadside Assistance in the UK and Europe, specially negotiated rates for travel insurance, a 5% discount off Toyota Motor Insurance, plus exclusive offers and promotions through our quarterly customer magazine. For further information please call 0845 275 5555 or visit toyota.co.uk/club

Toyota Accident Assistance

At Toyota, we believe that our customers deserve the best possible care. Therefore if you are involved in an accident, one call to Toyota Accident Assistance will get you back on the road again, whilst we take care of liaising with your insurer and arranging for your car to be repaired. By making us your first call, we will ensure your vehicle is repaired by Toyota to factory standards, meaning no compromise to your warranty or residual value.

Toyota Motor Insurance

Toyota Motor Insurance is available for Toyota owners at competitive premiums. To obtain details of the benefits included and to arrange a quotation, please contact your local Toyota Centre or call 0800 350 500.

Toyota Warranties

Every new Toyota comes with a three-year/60,000-mile manufacturer's warranty, covering your car against the unlikely event of a manufacturing defect causing a mechanical fault. It includes coverage for paint and surface rust for three years, unlimited mileage and a 12-year anti-perforation warranty. After the initial warranty period has ended, you can extend your warranty until the vehicle is seven years old – choosing from a range of packages to suit your vehicle and your needs. All of our warranties cover the main component parts of the vehicle*, meaning that you pay for nothing beyond routine servicing and maintenance, so there are no unexpected bills to pay.

* With the exception of batteries, corrosion of exhaust and damage or wear to the interior. Please refer to our Terms and Conditions for full details.

Finance subject to status to over 18s. Indemnities may be required. Toyota Financial Services is authorised and regulated by the Financial Services Authority.

Whilst every effort is made to reproduce accurate information, we reserve the right to change specifications, equipment and availability without prior notice. This ebrochure cannot be regarded as infallible (some of the vehicles shown may not be to exact UK specification), and as such does not constitute an offer for sale of any particular vehicle or specification. Fuel consumption values quoted throughout this ebrochure are determined according to EC Directive 1999/100/EC. The results do not express or imply any guarantee of actual fuel consumption. For the latest specification and availability we ask that you contact your local Toyota Centre.

Hilux carries complete peace of mind, too

Hilux has been engineered to give a great driving experience, regardless of the conditions. But the ownership experience is made even more rewarding through the peace of mind afforded by Toyota's global reputation for quality and integrity.

Hilux provides an exhilarating driving experience. And an outstanding ownership experience. Toyota's global reputation for quality and integrity means Hilux can add peace of mind to its list of attributes.

Recycling Toyota End-Of-Life Vehicles

We offer a free vehicle take back scheme through our appointed service provider, Autogreen. This is a new and innovative way for Toyota drivers to return their vehicle at the end of its life for dismantling and recycling. For more information about End-Of-Life Vehicles please refer to www.toyota.co.uk/environment

Intelligent design

The Hilux is designed and engineered to minimise the maintenance overhead. There are fewer parts that require servicing and those that do are inherently durable to extend service intervals. Equally important is that Hilux technology is made easily accessible so that maintenance labour time can be minimised. These features combine with the highly competitive pricing of Toyota parts to ensure the lowest cost of maintaining your Hilux in an ideal working condition.

Toyota quality service

Your Toyota Centre will talk you through the Hilux 'Health and Safety' maintenance programme. The programme is very straightforward and designed for your convenience. In effect, your Hilux needs a full Health and Safety check, dependent on driving style and conditions, up to once every two years or 20,000 miles (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 10,000 miles.

Toyota warranties

We are confident that every Hilux is so well built that each car comes with a three-year or 60,000-mile vehicle warranty covering any mechanical failure. In addition, the paintwork, no matter which colour you choose, is also guaranteed against imperfections for three years (one year for the deck panel). Finally, the body as a whole is guaranteed for six years against corrosion perforation (three years for the deck panel).

Toyota genuine parts

The Hilux is designed to minimise the cost of accident repair. Energy-absorbing elements are built into the bumpers, expensive-to-replace parts are located away from damage zones, and commonly damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low part and labour charges.

Added security

The Hilux's security system withstands the insurance industry's rigorous five-minute attack test and provides excellent protection. Both the alarm system and engine immobiliser are approved by Europe's major insurance companies.

Toyota accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort or practicality. And because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a three-year warranty*.

* Check with your Centre for specific warranty details.
