

VOLVO C30

THERE'S MORE TO LIFE THAN A VOLVO. THAT'S WHY THE VOLVO C30 HAS AS MANY LOOKS AS YOU DO. THAT'S WHY THERE ARE MORE PERSONALISATION OPPORTUNITIES THAN EVER BEFORE. THAT'S WHY WE OFFER THE VOLVO C30 DRIVe START/STOP WITH BEST-IN-CLASS CO₂ EMISSIONS. THAT'S WHY THIS FOUR-SEATER IS A WORLD LEADER. THAT'S WHY YOUR INDIVIDUALITY COULDN'T BE IN A SAFER PLACE. THAT'S WHY YOU DRIVE ONE.

- D4, R-DESIGN, COSMIC WHITE METALLIC AND MIDIR 18" WHEELS.
 - T5, SUMMUM, FLAMENCO RED WITH BLACK SAPPHIRE LOWER BODYPANELS AND FREJA 17" WHEELS AND EXTERIOR STYLING PACK.
 - DRIVe START/STOP, MOMENTUM, LIME GRASS GREEN METALLIC AND LIBRA 16" WHEELS.
 - 2.0F, KINETIC, BLACK SAPPHIRE METALLIC AND CONVECTOR 16" WHEELS.

It's different. But that's not the only benefit.

Nature makes sure we all start out unique. And the Volvo C30 can help you stay that way. First-class comfort, world-class safety and elegant Scandinavian design are all part of the special Volvo DNA and instantly apparent here. At first glance you'll notice unique Volvo design details such as the bigger, bolder iron mark on a larger, trapezoidal grill, aggressive headlamps that sweep back gracefully, yet peer out protectively and demonstrative rear lamps that include state-of-the-art Adaptive brake light that warn cars behind when you brake harder than normal. Add to that exceptional road holding and scores of exterior and interior customisation possibilities – including the sporty R-DESIGN trim – and you'll discover the Volvo C30 is highly qualified to protect you and yours – especially from boredom.

– D4, R-DESIGN, ELECTRIC SILVER WITH CRATUS 17" WHEELS.

180° from a cup of cocoa and a book.

Fun does not stay home at night. It is not a limited resource. And there is no embargo against it. Practically speaking then, fun is the way to go. And that's good news for us because with wheels at the corners, a frame of high torsional-rigidity, and a suspension that deftly masters quick corners as well as long commutes, the Volvo C30 swiftly liberates fun from the confines of the ordinary and fundamental – and keeps it going, 24/7/365. What's more, insist on the new sport chassis and the inherent agility of this car becomes even more assertive.

- T5, SUMMUM, TITANIUM GREY METALLIC WITH TITANIUM GREY LOWER BODYPANELS AND SPARTACUS 17" WHEELS.
- 2.0F, MOMENTUM, CHAMELEON BLUE METALLIC WITH SHADOW BLUE LOWER BODY PANELS AND CORDELIA 16" WHEELS.

Dream, yes. Sleep, no.

Dream now about your new Volvo C30. Once you get behind the wheel there will be no time for naps. The engine you choose – whether petrol, Flexifuel or diesel – is built to power your vision a long way past the ordinary. What's more, every Volvo engine is engineered to respond instantly so spontaneous adventures never have to wait. Better get some rest now.

- D4, KINETIC, BLACK STONE AND FREJA 17" WHEELS AND EXTERIOR STYLING PACK.
- T5, R-DESIGN, ELECTRIC SILVER METALLIC AND CRATUS 17" WHEELS.

One good turn deserves another.

The excellent handling characteristics of this car are made even more responsive when you choose the lowered sports chassis. Its stiffer springs, stiffer bushings, and sport-tuned roll bars make it easy to establish a fondness for the roads you travel. Along the way, you may discover a few favourite turns that always seem happy to see you, too. By all means, downshift and say hello.

- D4, SUMMUM, ORANGE FLAME METALLIC WITH BLACKCURRANT LOWER BODYPANELS AND STYX 17" WHEELS.

DRIVE

Do the green light proud.

240 Nm of maximum torque makes it easy to believe green is the way to go. Yet, the source of this power, a modified 1.6 litre turbodiesel with start/stop technology, uses barely 3.8 litres of fuel every 100 kilometres while emitting only 99 grams of CO₂ per kilometre. These numbers help the Volvo C30 DRIVE Start/Stop achieve eco-car status, but it might be the aerodynamic enhancements – from the special tyres, wheels and grill to the roof spoiler and even the under-carriage – that make sure this hyper-efficient automobile is even friendlier to the environment and more fun to drive.

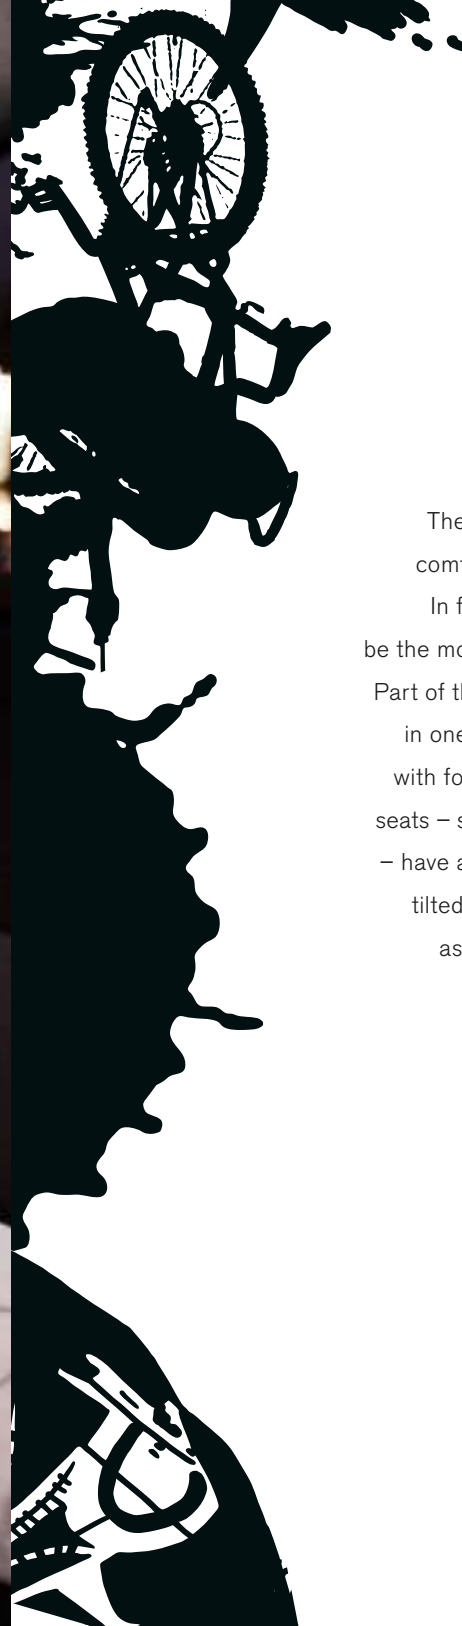

– DRIVE START/STOP, SUMMUM, SILVER METALLIC WITH SHADOW BLUE LOWER BODY PANELS AND LIBRA 16" WHEELS.

Buckle up.

Settle in to one of the world's most comfortable driver's seats and you'll find everything you need close at hand. The unique floating centre console presents intuitive controls for the infotainment and climate systems and is available in a variety of finishes including Volvo's real wood and real aluminium inlays. Twenty-eight different interior upholstery variants with multiple trim combinations are also available including Volvo's genuine leather. The overall effect is stimulating, yet the modern Scandinavian design also invites you to relax – while wearing the stylish 3-point safety belt Volvo invented for you, of course.

– D4, SUMMUM, LEKSAND OFFBLACK IN OFFBLACK INTERIOR WITH INTERIOR STYLING PACK.

Lean back.

The seats in your Volvo C30 are an extremely comfortable example of ergonomic excellence.

In fact, year after year Volvo seats are said to be the most comfortable in the automobile industry. Part of that comfort, we believe, comes from riding in one of the safest cars on the road. In this car, with four seats, no one rides the hump. The back seats – set closer together for a better view forward – have a VIP lounge feeling with a centre armrest, tilted backrests and convenient amenities such as side storage and a clever table that is the flip-side of the front-centre armrest.

– D4, SUMMUM, LEKSAND OFFBLACK IN OFFBLACK/BLOND INTERIOR WITH INTERIOR STYLING PACK.

Improvise.

Modern physics suggests a certain amount of fundamental randomness in the universe, which makes the versatile Volvo C30 perfect for impromptu shopping. Like every Volvo, this car is built to provide an intelligent mix of performance and practicality. For example, the seating and storage configurations are flexible enough to provide 876 litres of loading capacity as well as a flat cargo space almost 150 cm long. Of course, roof-mounted carrying accessories are also available and, if you're really serious about shopping, a tow bar might be an option.

- 2.0F, SUMMUM, BLACK SAPPHIRE METALLIC WITH JAVA LOWER BODY PANELS AND STYX 17" WHEELS.
- D4, R-DESIGN, TITANIUM GREY AND MIDIR 18" WHEELS.
- T5, MOMENTUM, ORANGE FLAME METALLIC WITH BLACK CURRANT LOWER BODY PANELS, AND FREJA 17" WHEELS AND EXTERIOR STYLING PACK.

Facets make the jewel.

How will your Volvo C30 catch the light? As you imagine all the possible exterior variations and narrow your choices to your select favourites, you can begin to realise your ideal car. Styling kit? R-DESIGN trim? 18" wheels? Roof spoiler? Sunroof? Chrome tailpipes? Active Bending Lights? Sports chassis? If you want to see these combinations in real time before you finally decide, you can build your own virtual versions at www.volvocars.com

- T5, R-DESIGN, BLACK SAPPHIRE METALLIC AND CRATUS 17" WHEELS.

Fun knows where more fun is.

In a car that's fun to drive, being stuck in traffic is suboptimum. Of course, the audio system in the floating centre console can provide plenty of amusement, at any speed, but it's the Road Traffic Information system that can really help keep the fun rolling. In addition to its helpful GPS navigation functionality, the RTI system can help you avoid traffic delays via TMC radio data broadcasts (the global Traffic Message Channel). If there is a significant delay, your RTI system will suggest alternate routes. Detailed maps are stored on a hard disk, easily updated by DVD and easy to search for data, information, knowledge, understanding, wisdom – or just directions to a party.

- D4, SUMMUM, LEKSAND BLOND/SUNBURST ORANGE IN BLOND/ESPRESSO INTERIOR WITH INTERIOR STYLING PACK.

Be quiet, tomorrow.

Music is life. And Volvo's modern sound systems are among the best in class – especially with the latest generation of Dolby® Pro Logic® II Surround and extremely efficient digital Class D amplification. The Dolby® Pro Logic® II Surround utilises a centre loudspeaker and sophisticated sound processing calibrated especially for the interior of the Volvo C30. This system ensures that every passenger enjoys a well-balanced stereo presence regardless of seating position – a remarkable achievement considering how nobody sits in the middle of the car. Connect your iPod® or USB player and your playlists are easy to select and your music is ready to travel, non-stop.

Avoid accidents even when parked.

Volvo safety doesn't stop when you park your car. With Approach Lighting, your car can be illuminated, inside and out, using your remote control as you approach your car and with Home Safe Lighting, you can also activate a dipped beam with the headlight stalk as you leave your car. This feature can be especially convenient when your personal celebrity spotlight operator has the night off. And with keyless drive, the doors will unlock as you grasp the handle – like magic – and you can start the car without inserting the key (as long as you have the key in your pocket or purse).

– D4, R-DESIGN, ORANGE FLAME AND CRATUS 17" WHEELS.

THERE'S MORE TO LIFE THAN A VOLVO. THAT'S WHY WE DESIGN OUR CARS TO SUPPORT YOU IN ANY SITUATION ON THE ROAD. THAT'S WHY OUR SAFETY TECHNOLOGY HAS PUSHED AUTOMOTIVE DEVELOPMENT FOR MORE THAN EIGHTY YEARS. THAT'S WHY WE AIM FOR A FUTURE WHERE CARS DON'T CRASH. THAT'S WHY WE LEAD THE WAY TO ZERO EMISSIONS, AND OFFER ONE OF THE PREMIUM SEGMENTS STRONGEST RANGES OF LOW CO₂ ALTERNATIVES. AND THERE ARE ALL THE REASONS IN THE WORLD TO MOVE THE BOUNDARIES FOR WHAT'S POSSIBLE AND WHAT'S NOT. THAT'S WHY WE INNOVATE FOR LIFE.

Innovated for your enjoyment, the Volvo safety technologies will protect more than the fun of driving.

Across the world, Volvo equals safety. And that comes with good reason, because few carmakers can match our record of safety innovations and the commitment for safety that has guided us for more than 80 years. Of course, this makes us extremely proud. But we're not satisfied. Because we know what we want to achieve: zero accidents. This huge task calls for innovative thinking and a brand new approach to the way we design cars. Good news is we've already come a long way. For starters, our cars are more fun and engaging to drive than ever (because a bored driver will never be a safe driver). Neither is the technology needed any figment of the imagination – some is already available in your Volvo. This means driving a Volvo today is like having a first peek at a very exciting automotive future – a future where passionate engineering and design do more to help you get the most out of life.

After all, there's more to life than a Volvo.

EYES IN THE BACK.

Park Assist alerts you if you're too close to an obstacle behind your car when reversing.

PERSONAL GATEKEEPING.

Inspired by fighter aircraft technology, the Intelligent Driver Information System (IDIS) can help reduce your workload in stressful situations.

RAIN SUPPORT.

For more comfort in wet conditions, the rain sensor automatically engages the wipers if it begins to rain or if water splashes onto your windshield.

AN EYE ON THE BLIND SPOT.

Blind Spot Information System (BLIS) helps you detect vehicles entering your blind spot.

STAY ON TRACK.

Volvo's anti-skid system Dynamic Stability and Traction Control (DSTC) improves handling and safety in a wide range of challenging situations.

ON-ROAD ENLIGHTENMENT.

Active Bending Lights (ABL) with Dual Xenon technology expands your vision range when driving in the dark and provides considerably improved illumination around bends.

EXHILARATING COMFORT.

Ergonomic design in seats and driver's environment makes you relaxed and helps maintain your concentration on driving.

24/7 PEACE OF MIND.

Stay cool. Volvo On Call is Volvo's integrated emergency and roadside assistance technology.

99 G CO₂ PER KM.

Our latest eco-progress, the Volvo C30 DRIVe Start/Stop, satisfies itself with only 3.8 litres fuel per 100 km – for minimum emissions and maximum style.

GREEN AT THE RED LIGHTS.

To further reduce fuel consumption and CO₂ emissions when driving in the city, the DRIVe turbodiesel is available with Volvo's new Start/Stop technology.

85% RECYCLABLE.

To help minimise its total environmental impact, every Volvo is designed to facilitate recovery and recycling at the end of its useful life.

FLEXIFUEL FOR LOWER FOSSIL CO₂ EMISSIONS.

Running on E85 bioethanol in a Volvo Flexifuel (2.0F), you can significantly cut your greenhouse gas emissions. Because bioethanol is a renewable fuel, the carbon dioxide emissions from combustion are already part of the ecosystem and won't contribute to greenhouse gas levels in the atmosphere.

MAXIMISED FUEL EFFICIENCY WITH DIESEL.

Volvo's advanced common-rail turbodiesel technology ensures superior fuel economy and low CO₂ emissions – from the 109 hp DRIVe Start/Stop to the new 177 hp D4.

ALLERGY-TESTED INTERIOR MATERIALS.

All our upholsteries and interior textiles are tested for certain allergy-inducing or harmful substances and comply with Oeko-Tex Standard 100. And several interior metal details are tested with regard to contact allergies. Good for you, and for anyone who shares your ride.

FRESH CABIN AIR.

Continuously monitoring incoming air and shutting out carbon monoxide, ground-level ozone and nitrogen dioxide, Volvo's Interior Air Quality System helps ensure that the air you breathe in the car is cleaner than that outside when driving in heavy city traffic.

ECO DRIVING SUPPORT

Displaying when it's optimum to shift gear, the gear shift indicator in the DRIVe variants helps you save fuel and reduce your CO₂ emissions.

FUEL-SAVING DESIGN.

To reduce energy-loss from wind and roll resistance, we utilise advanced aerodynamic design, light-weight materials and low-friction technology. Together with state-of-the-art engine technology, this lowers your CO₂ emissions and helps you travel further on less fuel.

BRAKE FOR ENERGY.

Driving any of the turbodiesels, the battery is fed with extra power everytime you brake. Smart and fuel-saving.

CLEANER EXHAUST.

Fast responding after a cold start, Volvo's advanced emission control eliminates between 95 and 99% of carbon monoxide, hydrocarbons and nitrogen oxides from petrol engine exhaust gases. The Volvo turbodiesels feature a particulate filter that removes about 95% of the particles from the diesel exhaust gases.

Designed to catch the light brilliantly, this car also reflects a promise.

Thankfully, the automotive industry is moving away from fantasyland to the real world. Our journey towards a better environment started already in the early 70's. Then we were among the first carmakers to acknowledge the environmental downside of cars and to do something about it. Since then we are constantly innovating to reduce the environmental impact of the cars and how we make them.

Today's biggest challenge is, of course, to reduce the carbon dioxide emissions that cause climate change. Today we offer one of the premium segments strongest ranges of low CO₂ alternatives: the Volvo DRIVe variants. Utilising innovative powertrain technology together with advanced aerodynamics, low friction technology and lightweight materials, the DRIVe range is an important step towards zero emissions.

In near future we will introduce new technology such as plug-in hybrid vehicles that will further reduce CO₂ emissions and can be charged from a standard wall socket. And we're heavily engaged in the development of electrical vehicles – a technology that will dramatically reduce the environmental footprint of our cars and make them even more fun to drive.

Good for you, and for the world we share.

THE CREATION OF YOUR VOLVO STARTS UNDER THE HOOD. A major part of the experience ahead of you is defined by the engine you choose. Is it maximum performance and a sporty engine character that make your heart tick? Or do you prefer relaxed cruising and the highest possible fuel mileage? Whichever engine satisfies your requirements, you will enjoy instant power and smooth running while state-of-the-art fuel management systems make the most of every micro-drop of fuel. Pick your engine, and enjoy the drive.

– T5, R-DESIGN, PASSION RED AND MIDIR 18" WHEELS.

EQUIP YOUR OWN VOLVO C30. As you define your own style and specify your needs, choose one of Volvo's equipment levels – Kinetic, Momentum or Summum. These ample packages add luxury and comfort beyond the impressive standard equipment level and reflect our core belief that functionality and beauty go everywhere together. For more information about the different equipment levels, please contact your Volvo dealer or visit www.volvocars.com

STANDARD

4 safety-belt pre-tensioners
Air conditioning
AUX input
Driver and passenger side airbags
Dynamic Stability and Traction Control (DSTC)
Emergency Brake Assist (EBA)
Foldable rear seat
Front armrest
Frontal airbags
Inflatable Curtain (IC)

ISOFIX child safety seat attachments, rear
Outside temperature gauge
Performance audio package
Pollen filter
Power and heating outer rear view mirrors
Power windows front
Remote control central locking
Side Impact Protection System (SIPS)
Steering wheel in height and reach adjustable
Whiplash Protection System (WHIPS)

KINETIC

includes Standard equipment level plus the following:

Electronic Climate Control (ECC)
Falsterbo textile upholstery
Trip computer
Leather-clad gear knob
Leather-clad handbrake lever
Passenger airbag cut-off switch
Illuminated vanity mirrors

MOMENTUM

includes Standard and Kinetic equipment level plus the following:

Leksand T-Tec/textile upholstery
Aluminium inlays
Leather-clad steering wheel
Audio remote in steeringwheel
Cruise control
Retractable rear view mirrors with puddle lights
Armrest rear, includes cup holders and storage space
Height adjustable passenger seat, lumbar support, foldable
Rain sensor
Fog lights
Interior Air Quality System (IAQS)
Coloured lower body panels
Humidity sensor

SUMMUM

includes Standard, Kinetic and Momentum equipment level plus the following:

Leather upholstery
Power seat driver with memory
Active Bending Lights incl. cleaning
Watch dials

N.B. The contents in the equipment levels may vary from country to country. Please ask your Volvo dealer for further information.

EXPRESSIVE If stylish and sporty looks get your pulse racing, this may be the Volvo C30 for you: Leksand Offblack/Sunburst Orange upholstery in Offblack interior with Oyster Burst Déco centre stack and door panel inserts, leather-clad steering wheel and leather-clad gear knob. Exterior colour Orange Flame Metallic with Blackcurrant contrast coloured lower body panels and Styx 17" White aluminium wheels.

- T5, MOMENTUM, ORANGE FLAME METALLIC WITH BLACKCURRANT LOWER BODYPANELS AND STYX 17" WHEELS.

ELEGANT Some people prefer sophisticated, timeless elegance. If that sounds like you, your new Volvo C30 can look like this: Leather Blond upholstery in Espresso/Blond interior with Nordic Light Oak centre stack and door panel inserts, leather-clad steering wheel and leather-clad gear knob. Exterior colour Titanium Grey metallic and Libra 16" Diamond Cut aluminium wheels.

- DRIVE START/STOP, SUMMUM, TITANIUM GREY METALLIC WITH TITANIUM GREY LOWER BODYPANELS AND LIBRA 16" WHEELS.

ACCESSORY STYLING KIT. Set your new Volvo C30 apart from the pack with these extra-cool exterior and interior styling packs. Exterior design accents emphasize a more aggressive demeanour with skid and scuff plates, fog light frames, Freja 17" alloy wheels, Dual 90 mm tailpipes (with T5 or D4). Interior design accents include a custom centre stack and special textile floor mats throughout and instep plates.

- D4, MOMENTUM, LIME GRASS GREEN METALLIC WITH JAVA LOWER BODYPANELS AND EXTERIOR AND INTERIOR STYLING PACKS AND FREJA 17" WHEELS.

R-DESIGN amplifies the built-in boldness of your C30 with one sweet application. Features factory-installed bodykit, tailgate spoiler, 17" 5-spoke Cratus aluminium wheels, front grille and side mirrors in a special matt-chrome finish and dual 90 mm tailpipes (with T5 or D4). Inside, superbly comfortable seats with unique upholstery show off an embossed R-DESIGN logo across the front seats. Other exclusive R-DESIGN touches throughout the cabin help define a style that moves beyond the ordinary without fear of being fabulous.

- T5, R-DESIGN, ICE WHITE AND CRATUS 17" WHEELS.

COLOUR YOUR VOLVO. When it comes to the appearance of your Volvo, the choice of exterior colour and wheels are probably your most important design decisions. For more exterior styling options and to build your new Volvo online, please visit www.volvocars.com

Clean colours

To reduce usage of environmentally hazardous solvents, all Volvo exterior colours are water-based. What's more, our painting facilities are among the cleanest in the world.

Inscription

Inscription is our exclusive design programme for a truly distinguished look.

*Also available for R-DESIGN

Please note: It's not possible to reproduce exact original shades in printed matter. Please ask your dealer to show you samples.

EXTERIOR DESIGN Contrast Colour Collection

The design of the Volvo C30 features lower body panels that enhance the appearance of the wheels at the car's corners and while making the wheels look bigger. The base car comes with these parts in black but when you choose the Momentum or Summum trim levels, many more dramatic possibilities are available. The contrast colour collection, shown here, offers some combinations suggested by our designers. To see more possibilities, mix and match your colour choices online at www.volvocars.com

Designer's Choice

We admit the thousands of exterior styling options for your new C30 can be a bit overwhelming. To guide you through this ocean of opportunities, we asked our designers to come up with their favourite combinations. If these suggestions match your preferences, fine. If not, go on creating your C30 your way. The choice is yours.

IMAGINE YOUR NEW INTERIOR. Crafted according to your requirements, the interior of your Volvo can take on any number of personalities. Choose between three interior colours – Offblack, Offblack/Blond, Espresso/Blond – and different upholstery variants. Pick the interior that suits you and add the finishing touch with the interior trim, steering wheel, gear knob and floor mat of your choice. After all, you're probably going to spend a lot of time here.

ERGONOMIC DESIGN Developed in co-operation with ergonomic specialists to provide generous support for the body during hours of driving, the seats in the Volvo C30 are among the most comfortable in the automotive world. Multiple adjustment possibilities and adjustable lumbar support make it easy to find the perfect driving position.

Leather

This is the upholstery that affords the Volvo C30 an atmosphere of luxury. It's a new hide quality that's smooth, durable and has a fine grain pattern. Like all Volvo leather, it's organically tanned and ages beautifully.

Leksand

Contemporary textile upholstery trimmed with ultra-modern T-Tec, inspired by wetsuits and durable outdoor gear. The ribbed backrest and contrasting seams add further zest.

Falsterbo

Textile upholstery reflects the sporty yet relaxed elegance of the Volvo C30.

Please note: All wheels cannot be combined with all engine variants. Please talk to your Volvo dealer for more information.

SAFETY

At the core of every car we make, state-of-the-art technology helps support the driver and protect the occupants. And to further enhance the Volvo safety experience, there's a range of supplementary safety technology – for more performance and peace of mind.

SAFETY Preventive

Active Bending Lights (ABL)

Compared to conventional halogen headlamps, Active Bending Lights use Dual Xenon technology to expand your vision range by about 230%. This means you'll be helped to gain 45 metres more for braking. And using motorised lamps that turn up to 15° in either direction, this technology gives a 90% boost to your vision round bends at night. You can enjoy highly effective low beam illumination on narrow, winding roads and extremely powerful full beams on the motorway. A daylight sensor disengages the adaptive function during daytime to extend its lifespan. Independent of the load, these headlights self-adjust to maintain the correct angle to the road – even during hard acceleration or braking.

Adaptive brake light

Active at speeds above 50 km/h, the adaptive brake light can sense the difference between normal and panic braking. If it is a panic situation, all the brake lights will flash at a rate of four times per second. Once your speed slows to below 10 km/h, the lights stop flashing and hazard lights flash instead. Using LED technology that needs less time to light up than regular bulbs, traffic behind you can react sooner.

Dynamic Stability and Traction Control (DSTC)

Dynamic Stability and Traction Control, DSTC, enhances driving stability and helps you maintain traction in a wide range of situations. At the core of DSTC, a gyroscope senses the car's direction and compares this with steering wheel movements as well as the actual rotation of the car's wheels. DSTC is able to detect a potential skid and help counteract one by reducing the engine's power output, or braking on one or more wheels.

Intelligent Driver Information System (IDIS)

To help avoid distractions during critical driving situations, IDIS constantly analyses your driving and will delay secondary information from the car or one of its onboard systems – such as the GSM phone – when it detects intense steering, braking or acceleration. As soon as things calm down, the phone call or the delayed information is presented. IDIS can be set up to let GSM calls through in all driving situations.

SAFETY Protective

In a Volvo, safety is about interaction. Because it's not the number of safety features that determines how safe a car is. It's how well they seamlessly interact to help keep the occupants out of harm's way.

In a rear impact the rear deformation zones will help absorb crash energy. The fuel tank is designed to remain well protected in front of the rear axle. The head restraints help protect the neck and spine, and Volvo's unique Whiplash Protection System (WHIPS) cradles the front seat occupants in a controlled manner to help prevent whiplash injuries.

In a side impact Volvo's unique Side Impact Protection System (SIPS) helps distribute the crash forces across the car's body, away from the occupants. The side airbags in the front seats help protect the chest and hip, while the Inflatable Curtain (IC) adds head protection.

In a roll-over the robust safety cage and the reinforced roof structure together with the safety belts and belt pre-tensioners will help protect the occupants. If the car first has been hit from the side, the Inflatable Curtain (IC) deploys to help provide head protection.

In a frontal collision the patented frontal structure will yield to help absorb and disperse crash energy. The compact powertrain is designed to help optimise deformation. Inside the car, safety belts interact with the collapsible steering column and dual-stage airbags to help keep the occupants out of harm's way.

SAFETY Protective

Restraint technologies

In a collision, Volvo's restraint technologies interact to help reduce the impact. The **safety belts with pre-tensioners** activate within a few thousandths of a second in the event of a collision or roll-over and tighten the belt to help keep the occupants securely restrained. The front seat safety belts then release a little so that the driver and passenger are cushioned by the airbags in a controlled manner. Helping to optimise protection, the **dual-stage airbags** adapt the level of inflation depending on the force of the collision. The driver's airbag also interacts with the deformation of the collapsible steering column. **Side airbags** in the front seats help reduce the risk of serious injuries in a side collision. The **Inflatable Curtain (IC)** helps protect the heads of both front and rear outboard occupants. It also stays inflated for some seconds to provide prolonged protection for subsequent impacts.

Passenger airbag cut-off switch

This switch allows you to disengage the passenger airbag using the car key. When the airbag is switched off, you are notified via a message in the roof console display. The force of the passenger airbag is designed to help protect adults – children risk serious injury. Therefore, the airbag must first be disengaged if you intend to put a person shorter than 140 cm in the front passenger seat.

Side Impact Protection System (SIPS)

SIPS is a Volvo unique safety system that has been developed to help protect where occupants are most exposed to the crash forces. The steel framework of the car – including the front seats – is designed and reinforced to help displace the impact of a side-collision away from the occupants to other parts of the car body and help prevent intrusion into the cabin. The side structure is extremely strong to help withstand a severe side impact – even with a larger vehicle. The Inflatable Curtain (IC) for all the occupants and the front seat side airbags interact to help provide further protection.

Energy-absorbing frontal structure

Volvo's patented frontal structure is built with several types of steel to allow optimal deformation – outer layers are more yielding, while steel closer to the cabin is more resilient. This structure helps absorb the impact of a collision before it reaches the occupants. The compact powertrain is designed to help optimise deformation. The unique geometry of the frontal structure and longitudinal steel struts in the doors help disperse crash energy away from the front to the rear of the car, further helping to reduce the strain on the occupants. A steel strut under the dashboard helps prevent components in the engine bay from intruding into the cabin. This also helps protect legs and feet.

Whiplash Protection System (WHIPS)

Integrated in the front seats, Volvo's WHIPS cradles the occupant to help reduce the risk of whiplash injury (one of the most common types of traffic injury and often the result of a low-speed rear impact collision). The function is activated by a collision of sufficient force from behind. Independent research has shown that WHIPS is one of the most effective systems in the world and can reduce the risk of long-term invalidity by 50%.

SAFETY Child safety

Volvo's child safety programme

To further enhance protection for children, we offer a child safety programme that is among the most comprehensive in the car world. Because infants have large heads and weak necks*, we know that a child up to the age of 3–4 travels most safely facing the rear. Volvo's rear-facing child seats help provide maximum protection in a wide range of collisions. Children who have outgrown the child seat travel most safely seated on a booster seat, secured with the car's safety belt.

* In a frontal collision at 50 km/h, the head of a six-month infant can be exposed to forces corresponding to a load of 100 kg!

Please note: If the front passenger seat airbag is switched on, children under 140 cm in height should never be seated in the front seat – not in conjunction with a child seat, a booster cushion or under any other circumstances.

SAFETY Child safety

► Infant seat (up to 13 kg)

Infants, from newborns up to about 1 year of age, travel safely backwards in this comfortable seat. It's installed using the car's safety belt. And for extra convenient installation using the car's ISOFIX attachments, an ISOFIX base can be added. Side wings help protect in a side impact, and the headrest and five-point harness are easily adjusted. The headrest is padded for a comfortable sleep and there's a canopy to block the sun. What's more, the infant seat is easy to carry and can be used as a babysitter.

► Convertible child seat (9–25 kg)

From the age of 9 months to about 6 years of age a child can continue to be seated backwards in this new child seat. Advanced design helps provide world-class protection and flexible seating for many years. The seat is fitted using the car's safety belt and is easily adjusted to help optimise comfort and safety. An integrated support leg helps facilitate safe backward installation. We recommend that children be seated backwards as long as possible. But when a child grows bigger (15–25 kg) and can not comfortably be seated facing to the rear, this seat can also be used as a forward-facing booster cushion that puts a child at the correct position for the car's safety belt.

SAFETY Security

Volvo On Call

Activating automatically if any of your car's airbags are deployed – or at the touch of a button – Volvo On Call is Volvo's roadside assistance and emergency service. Not only does it put you in direct contact with a Volvo On Call operator, a built-in GPS system allows them to pinpoint your location and get help to you as soon as possible. The system can also alert you to an attempted break-in, and if the car is stolen it can be traced via satellite.

SAFETY Security

Power retractable door mirrors with ground lighting

At the touch of a button, these door mirrors can be folded flat against the car where they are less likely to get damaged after you've parked. They also fold or unfold automatically every time you lock or unlock the car. The integrated ground lighting is activated with the remote control. Beyond enhancing security to and from your car at night, this is also convenient when getting in and out.

HomeLink®

With buttons integrated in the sun visor, HomeLink® allows you to operate remote controlled home appliances – such as garage door, home alarm and exterior lighting – without leaving the car.

HomeLink is a registered trademark of Johnson Controls Technology Company.

Laminated side door windows

Laminated side windows turn an attempted smash-and-grab into a time consuming ordeal. They also enhance sound comfort in the cabin and contribute to UV protection.

Automatic door locking

To further enhance your personal security, the doors can be set in the information menu to automatically lock the moment you drive away. Alternatively, lock them swiftly from the front seats using the lock button.

Approach and Home Safe Lighting

Activated with the remote control, Approach Lighting provides a warm reception on a dark night. This consists of interior and side lights – ground lighting too, if you choose it. Home Safe Lighting is activated with the headlight stalk as you leave the car and it provides a similar courtesy when exiting your car. This feature includes a dipped beam from the headlight to accompany you to your door.

► = Accessory (can be fitted after you've purchased your car).

COMFORT

A Volvo is always designed for more than one. Our technology aims to enhance the feel-good factor for everybody with the privilege of riding in a Volvo. And to further improve comfort and convenience, there's a range of clever equipment – customised for your Volvo and the people inside it.

COMFORT Seats

Ergonomic design

Oeko-Tex Standard 100 compliant upholstery

Multiple adjustment possibilities

Integrated coat hanger

Adjustable lumbar support

Front pocket

Four individual seats

All occupants will appreciate the comfort of a separate full-size ergonomically designed seat. Rear seat passengers can simply lean back and relax, and there's generous space for legs and shoulders. The rear seats are positioned towards the centre so passengers can enjoy more space and better views. A folding armrest further enhances the lounge effect. Getting in or out of the rear seat is made simpler by the wide door opening and Easy Entry feature – a single sliding manoeuvre of the front seat – available on both manual or power seats.

Power front seats

Find your perfect driving position with push-button ease. The driver's seat also incorporates a memory function that stores three separate seat settings connected to a specific remote control – a feature that's appreciated when the car has several drivers.

COMFORT Climate

Power glass sunroof

This makes the interior feel extra light and airy. It opens and closes at the touch of a button. When open, a built-in wind deflector will keep wind noise at a minimum. If the sun is too strong, just close the built-in sunshade. The sunroof can also be closed together with the side windows using the central locking remote control.

Electronic Climate Control (ECC)

ECC ensures you and your passengers always enjoy a pleasant in-car climate. It maintains the set temperature inside the car however much the temperature outside changes, or the sun shines in. The driver and front-seat passenger can set the temperature individually for each side.

Interior Air Quality System (IAQS)

Volvo's IAQS continuously monitors incoming air and will, if necessary, temporarily close external air vents to shut out carbon monoxide, ground-level ozone and nitrogen dioxide. Meanwhile, an active carbon filter protects the occupants from other harmful gases and unpleasant odours. This helps ensure that the air you breathe in the car is cleaner than that outside when driving in heavy city traffic and tunnels.

Engine and cabin heater, fuel driven

► Remote starter

A fuel-driven heater will make your car easier to start, help reduce environmental impact and warm up the cabin. Start the heater directly, or set the time you'd like to enter your warm and defrosted car. With a remote starter you can activate the heater without going out to the car. And if your car is equipped with Volvo On Call, you can send an SMS to your car from your mobile phone to start the heater.

► Sunshades

Easily attached to the rear windows and glass tailgate, these sunshades help reduce the heat and glare of direct sunlight. Simple to remove when they're not needed.

COMFORT Storage

Front centre armrest, multifunctional

The multifunctional front centre armrest takes care of cups, CDs, coins, mobile phones, MP3 players and other vital goodies. Here you'll also find an AUX input and – depending on your choice of audio system – a USB port to connect your MP3 player to the car's audio system. There's even a table for the rear seat passengers. In the tunnel console between the seats, integrated cupholders are hidden under an elegant roll-top cover.

Sunglass holder

Fitted in place of any of the entry handles in the front, this holder keeps your glasses or sunglasses within reach.

TECH & SOUND

Employing the latest information technology, your Volvo is prepared to support and entertain you at a very high level. Surround yourself and your friends with world-class sound and enjoy the innovations that help ensure your command of the road and the pleasure of travelling.

TECH & SOUND Driver's support

Blind Spot Information System (BLIS)

BLIS uses rear-facing cameras installed in the door mirrors to keep a lookout on either side of the car. As a vehicle enters your blind spot, this function can alert you with a lamp built in to the front door post – left or right. Together with the door mirrors, this helps you assess the feasibility of a lane change. BLIS is activated once the car exceeds 10 km/h, and reacts to almost any type of vehicle from a motorcycle upwards, day or night.

Park assist, rear

► Park assist, front

Activated when you engage reverse gear, rear park assist helps you when reversing into tight spaces. The audio system is turned down and a pulsating sound from the rear loudspeakers becomes a continuous tone as you approach an obstacle. Front park assist performs a similar function at the front of the vehicle – alerting you via the front loudspeakers.

Automatically dimmed inner rear-view mirror

This is a mirror that automatically adjusts itself to deflect the headlamp beams of the car behind you. When there's no light to dazzle you, it automatically readjusts to its normal setting. This can be supplemented with an integrated compass.

Rain sensor

Once activated, the rain sensor can start the windscreen wipers as soon as it begins to rain or if water splashes onto the windscreen. For your convenience, it can also automatically adapt the intermittent windscreen-wiper function. Its sensitivity can be adjusted via a ring on the wiper stalk.

TECH & SOUND Driver's support

Keyless drive

Keep the car key in your pocket or handbag. Using the keyless drive technology you can unlock the doors and drive away without using the car key. To start the engine, just turn the starter control in the instrument panel.

Personal settings

Define your Volvo's convenience and security settings according to your personal preferences using this simple computer interface. Depending on which technologies you have, this is where you configure the audio and climate settings, door mirrors, navigation, communication, central locking, Approach and Home Safe lighting and the Intelligent Driver Information System.

Trip computer

Monitor the current and average fuel consumption, driving range on current fuel reserves and average speed. Menu selection and resetting computer settings controlled by using the turn indicator stalk.

Cruise control

For a relaxing journey, cruise control automatically maintains your chosen speed. It is conveniently operated by controls on the steering wheel.

TECH & SOUND Communication

Integrated phone

For minimum distraction, the integrated GSM phone allows you to make calls from your pre-programmed telephone book using the steering wheel integrated controls. You can also make calls using the keypad in the centre console. And when the car is stationary, you can read and send SMS text messages. For more private conversations, there's an extra handset.

Road and Traffic Information (RTI)

Volvo's GPS-based RTI navigation system offers both voice guidance and graphic navigation all the way to your destination. Via TMC (Traffic Message Channel) radio data broadcasts, RTI also lets you know if there's weather-related trouble on route and recommends an alternative. Extremely swift and precise, this new generation RTI features a hard disc drive covering maps for major parts of Europe. The system is fully integrated in your Volvo and is easily controlled from the steering wheel or optional remote, and the screen is positioned so you can keep your attention on traffic. You can choose between two operating modes – Easy and Advanced. When RTI is not needed, the screen is hidden into the dash. To help you keep track of new roads and points of interest, you can join our MapCare programme for two free map updates.

► = Accessory (can be fitted after you've purchased your car).

TECH & SOUND Communication

► Volvo's Portable Navigation System
 This portable and powerful Garmin nüvi® 765 navigation unit integrates smoothly with the design of your Volvo. Just fit it into the docking unit on top of the dashboard. The wide bright touch screen is conveniently positioned in your field of vision. It allows you to navigate with ease, plan your route and find your points of interest. And beyond navigation, there are travel and entertainment functions such as MP3 player, currency converter, calculator and FM transmitter. The navigation unit is easy to carry with you and can also be used outside the car. Maps covering major parts of Europe are stored in memory. nüvi is a trademark of Garmin Ltd.

TECH & SOUND Audio/Entertainment

Integrated Bluetooth® handsfree system
► Bluetooth® handsfree system

Bluetooth® technology enables a mobile phone to be connected to the infotainment system in your Volvo, wirelessly. Once configured for a mobile phone, the system automatically recognises your phone as you enter the car. And as you climb in and out of the car, the system automatically allows you to switch freely from the phone to the handsfree system and back again. With Volvo's integrated Bluetooth® handsfree system you conveniently operate your phone using the buttons in the steering wheel or the centre console keypad. To further enhance your comfort and safety, you can also add Volvo On Call roadside assistance and emergency service. Available as an accessory, there's also a voice-controlled Bluetooth® handsfree system that will listen to your command and make calls for you.

The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Volvo Car Corporation is under license. Other trademarks and trade names are those of their respective owners.

MP3 compatibility

There are a number of ways to enjoy MP3 music files in your Volvo. If you'd like to connect your personal MP3 player to the audio system, there's a standard auxiliary audio input in the front centre armrest. Volume is conveniently controlled from the steering wheel or centre stack. Choosing the High Performance or Premium Sound audio system, there's also a USB port* that allows you to fully integrate your iPod®, MP3 player or USB device with the audio system. Playlists, songs and artists are clearly displayed in the centre console, while your player will be charged at the same time. These audio systems also feature a MP3 and WMA compatible CD player.

*Not in combination with a 6-CD changer. Choosing a 6-CD changer, you can add a USB and iPod® Music Interface to connect your MP3 player to the audio system.

iPod is a trademark of Apple Computer Inc.

TECH & SOUND Audio/Entertainment

Premium Sound

Our top-of-the line audio system designed for perfect sound dynamics, boasting 5x130 W and ten high-end loudspeakers. With Dolby® Pro Logic® II surround sound for an authentic audio experience in all seats. Premium Sound equipment includes:

- RDS radio
- MP3 and WMA compatible CD player
- USB and AUX input in front centre armrest
- 5x130 W digital class D amplifier
- Dolby® Pro Logic® II surround sound with centre loudspeaker and digital sound processor
- 10 high-end Premium Sound loudspeakers

Options: steering wheel integrated controls. A 6-CD changer is available (replaces the CD player) – this option deletes the USB input, but a USB and iPod® Music Interface (accessory) can be added.

Premium Sound loudspeakers

The ten high-end loudspeakers in the Premium Sound system are powered by a 5x130 W digital amplifier. There are two separate speakers – woofer and tweeter – in each door, and in the side panels at the rear seats there is a similar set-up. Each speaker has a crossover filter to maximise fidelity. The latest generation Dolby® surround system with a centre loudspeaker and sound processor recreates authentic sound with a strong sense of presence for everyone in the car – a Volvo world first. The digital class D amplifier features new technology that provides extremely high efficiency, enabling it to generate the most audio power from the least amount of current.

Dolby, Pro Logic, and the double-D symbol are registered trademarks of Dolby Laboratories.

High Performance audio system

A powerfully versatile system. Each loudspeaker is fitted with a more powerful magnet and a larger coil. In combination with the amplifier, this system promotes excellent transient reproduction and high power – quite simply superb sound. High Performance equipment includes:

- RDS radio
- MP3 and WMA compatible CD player
- USB and AUX input in front centre armrest
- 4x40 W High Performance amplifier
- 8 High Performance loudspeakers

Options: steering wheel integrated controls. A 6-CD changer is available (replaces the CD player) – this option deletes the USB input, but a USB and iPod® Music Interface (accessory) can be added.

Performance audio system

A console-integrated radio and CD player. It sounds good, looks good and it's easy to use. Performance equipment includes:

- RDS radio
- CD player
- AUX input in front centre armrest
- 4x20 W amplifier
- 6 loudspeakers

Options: steering wheel integrated controls. USB and iPod® Music Interface is available as an accessory.

► = Accessory (can be fitted after you've purchased your car).

PACK & LOAD

A world champion in versatility, Volvo has a proud heritage in providing smart solutions for both cargo and passengers – without compromising safety or comfort. So whatever you need to expand your world and the capabilities of your Volvo, here you'll find some practical equipment to make it happen.

PACK & LOAD Compartment

► Two-split 50/50 rear seat

In the rear, each seat folds flat to provide convenient cargo space all the way to the front seats. This also makes it easy to combine long cargo and one rear seat occupant in a safe and comfortable way.

► Complete dirt protector

This durable vinyl liner covers the floor, the sides of the rear cargo area and the backs of the seats to protect against grime and water. It features practical storage pockets and is simple to mount. The backrest section of the liner is split to allow the rear seat backrests to be folded down separately. The rear section can also be folded out to cover the bumper.

► Reversible textile cargo mat

Enhance the stylish design of the load compartment and keep things tidy with this nubuck-trimmed mat, decorated with a C30 logo. It's reversible and waterproof, with colour-coordinated textile on one side and plastic on the other.

► Styling cargo mat

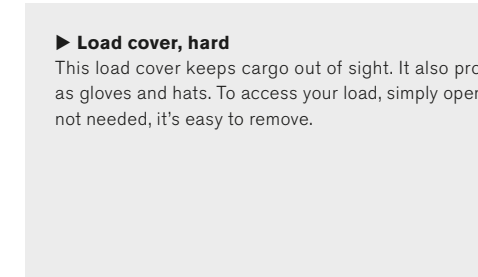

Create a stylish look with this high-quality tufted reversible cargo compartment mat. Featuring a subtle world map design, there are three attractive colour combinations to choose from – Offblack with orange or black piping and Espresso brown with beige piping.

PACK & LOAD Compartment

► Net pocket and load-securing net

The load-securing net helps keep luggage and loose items from shifting on the cargo compartment floor, as does the practical net pocket storage for small items along the left side of the load compartment.

► Load cover, hard

This load cover keeps cargo out of sight. It also provides a shelf where you can put light objects such as gloves and hats. To access your load, simply open up the convenient hatch. And when the load cover's not needed, it's easy to remove.

► Load cover, soft

This easy-to-fit soft load cover conceals your gear from all directions, even when the rear seat backrests are folded down. When the load cover is not needed, you can keep it rolled in the load compartment. The load cover's graphic pattern and C30 logo add to the look and feel.

► Load compartment

The wide glass tailgate facilitates loading and unloading. The cargo volume is 233 litres with the rear seatbacks up, while the full loading capacity is 876 litres. For a flat cargo space almost 150 cm long, fold down one or both rear seats.

PACK & LOAD Carrying/Towing

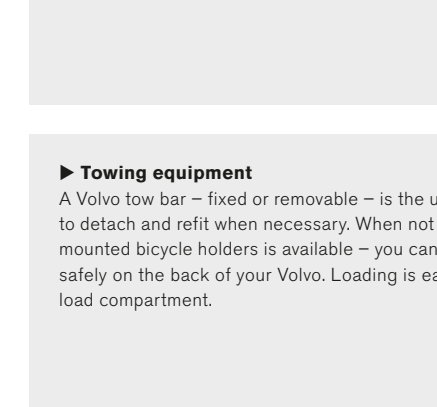

► Roof load carrying system

To help you fully utilise the roof of your Volvo, we've developed a range of versatile load carrying accessories. This system is dimensioned to carry up to 75 kg. The factory-fitted attachment points in the car's roof make the load carriers easy to fit. Various load accessories – such as roof boxes and different holders for bikes, skis, surfboards and kayaks – can be attached to the load carriers to meet your needs. These accessories can be freely combined for flexibility and many are aerodynamically designed to help reduce fuel consumption and wind noise. And most of them can be locked with the same key, using Volvo's One-Key System.

► Surfboard holder

A simple and safe method of transporting all types of surfboards, this combines a holder for a mast and a soft rubber profile to help protect your board.

► Towing equipment

A Volvo tow bar – fixed or removable – is the ultimate load accessory. The removable tow bar is easy to detach and refit when necessary. When not in use, it's completely out of the way. A range of tow bar mounted bicycle holders is available – you can take up to four bikes (or two e-bikes) conveniently and safely on the back of your Volvo. Loading is easy, and the holder can be tilted to allow access to the load compartment.

► = Accessory (can be fitted after you've purchased your car).

PERFORMANCE

In a Volvo, powertrain and chassis interact to strike the perfect balance between excitement and stability. And to further enhance the experience, additional technologies are available.

Technical data may be subject to change. Please talk to your Volvo dealer for the latest information. All technical data is preliminary.

* Technical data not available at the time of printing.

**As bioethanol contains less energy than petrol, fuel consumption is about 40% higher.

***Running on E85 bioethanol, the net contribution of fossile carbon dioxide is considerably lower compared to petrol.

N.B. The engine programme may vary from country to country. Please ask your Volvo dealer for further information.

PERFORMANCE Engines

T5, five-cylinder turbocharged petrol engine (230 hp)

For a truly sporty driving experience, there's the high-performance 230 hp five-cylinder T5 petrol engine. This smooth source of energy boasts a turbocharger and variable inlet and exhaust valve timing, delivering an exceptionally quick and powerful response throughout the entire rev range. Complies with stringent emission standards, such as California's ULEV II.

2.0, four-cylinder petrol engine (145 hp)

1.6, four-cylinder petrol engine (100 hp)

Matching perfectly with the dynamics of your Volvo, the high-efficiency four-cylinder engine is an inspiring source of power. Smooth operation, sharp response and low weight contribute to a sporty yet harmonious drive. Its variable inlet manifold provides a high level of torque throughout the rev range. What's more, its efficiency allows you to enjoy low fuel consumption in all driving conditions.

2.0F Flexifuel, four-cylinder E85 bioethanol engine (145 hp)

This state-of-the-art 2.0F Flexifuel engine doesn't compromise with performance, comfort and environmental care. When driving on E85 bioethanol, the net contribution of fossil carbon dioxide is considerably lower compared to petrol. As driver you'll enjoy the same quick engine response and relaxed engine character as of a corresponding petrol engine. The possibility of filling up with E85, petrol or any mix of those fuels offers superior flexibility. You fill up bioethanol in the same fuel tank as for the petrol. The engine adapts instantly to the fuel mix. For cold weather, you can add an electric engine heater.

D4, five-cylinder turbodiesel (177 hp) D3, five-cylinder turbodiesel (150 hp)

The all-new five-cylinder D4 and D3 turbodiesels take performance, fuel efficiency and refinement to entirely new levels. Featuring the latest turbo and Piezo high-pressure injector technology, these inspiring five-cylinder state-of-the-art powerplants will give you access to supreme torque (max 400 or 350 Nm) across the rev range. Smooth running characteristics and low noise levels further enhance the experience. Short stroke and reduced friction add to both responsive, sporty engine characteristics and high fuel efficiency. And for even higher fuel efficiency, there's the 150 hp D3 with its 5.0 l/100 km and 134 g CO₂ per km. To further optimise fuel efficiency in all conditions, these engines also feature Volvo's CO₂ reducing brake energy re-generation technology. A maintenance-free particle filter effectively reduces soot particles in exhaust gases and advanced emission control contributes to low nitrogen oxide levels – these engines already comply with stringent, upcoming Euro 5 exhaust emission requirements.

D2, four-cylinder turbodiesel (115 hp)

DRIVE, four-cylinder turbodiesel engine (109 hp)

Take advantage of the benefits of supreme fuel economy (3.8 l/100 km) and ultra-low CO₂ emissions (99 g/km) without any trade-offs in comfort, safety or performance. Volvo's 1.6-litre turbodiesel DRIVE features advanced Start/Stop technology and brake energy regeneration. Helping you to save precious fuel drops in stop-and-go city traffic, the engine shuts off when you put the gear in neutral at a standstill and instantly restarts at the press of the clutch pedal. A gearshift indicator helps you drive the most efficient way. Advanced diesel engine technology such as common rail direct injection and variable turbine geometry provides high torque across the rev range to assure a rewarding driving experience in all conditions.

The all-new 115 hp/270 Nm all-aluminium D2 turbodiesel is further refined with for example new valvetrain technology, high-precision Piezo injectors, brake energy charging and light weight materials to meet the highest demands on energy efficiency and performance. The engine's low weight contributes to low fuel consumption and well-balanced road behaviour. The 115 hp engine is mated to a new manual six-speed gearbox. It is also available without Start/Stop technology, which means somewhat higher fuel consumption but CO₂ emissions still below 120 g/km. All Volvo turbodiesels meet strict environmental demands and feature a particle filter that effectively reduces soot particles in exhaust gases. The D2 engine complies with the stringent Euro 5 emission requirements.

Please note: Some of the information in this brochure may be incorrect due to changes in product specifications that may have occurred since printing. Some of the equipment described or shown may now only be available at extra cost. Before ordering, please ask your Volvo dealer for the latest information. The manufacturer reserves the right to make changes at any time and without notice, to prices, colours, materials, specifications and models.

THERE'S MORE TO LIFE THAN A VOLVO.

Volvo. for life

THAT'S WHY YOU DRIVE ONE.

VOLVO
