- Owning a Land Cruiser V8

Land Cruiser V8.

A legend from day one.

Land Cruiser V8's distinctive looks feature a sculpted front grille, powerful xenon headlights with daytime running lights and redesigned rear light clusters.

Go anywhere, with innovative 4-wheel drive technology that makes this lavish SUV king of any road.

Travel everywhere in luxury with supreme comfort levels and versatile seating options.

Land Cruiser has over 60 years heritage as an off-road legend.

The ultimate Land Cruiser

The Land Cruiser is already legendary for its all-road, go-anywhere capability, and the Land Cruiser V8 is the most powerful, most capable and most comfortable Land Cruiser yet. With a refined yet incredibly

robust diesel V8 engine, there is ample power for almost any situation, whether it's a muddy, steep incline or a tough, rutted track. And when it comes to precise, expert off-road driving, it's bristling with intelligent features that make the seemingly impossible easy. Put simply, there's never been a Land Cruiser like this.

Robust body on frame
High tension sheet metal is used to maintain a lightweight design and ensure strength and rigidity. Sound-absorbing and noise-cancelling materials contribute to a peaceful drive.

Adaptive Variable Suspension (AVS)
Continuously adapts shock absorber damping in response to the road conditions and automatically selects the most appropriate ride mode: Comfort, Normal or Sport.

Hill-start Assist Control (HAC)
Helps to ensure a smooth start on steep inclines by applying the brakes for up to 2 seconds after the brake pedal is released. This prevents the vehicle from rolling back.

Front and rear suspension
Land Cruiser V8 is fitted with a suspension system that maximises off-road capabilities while delivering on-ride comfort and superior handling on-road. Double-wishbone suspension is used at the front, with 4-link coil suspension at the rear.

Kinetic Dynamic Suspension System (KDSS) On-road
Highly responsive suspension with conventional anti-roll bars provides unrivalled on-road steering agility and ride comfort.

Hydraulic lines are used to connect the front and rear stabilisers. KDSS electronically controls a set of valves connected to accumulators to optimally balance the effect of the front and rear stabilisers and absorb surface irregularities.

Smooth. Rutted. Slippery. Straight. Twisting. It's incredible how the world's roads – and even the roads of your home country – vary. And once you really get out and start exploring, it's an unavoidable daily challenge.

But the Land Cruiser V8 is ready for every road you take, thanks to its range of active driving features. The result is unfailingly precise and accurate handling and control at all times.

On-road refinement

Off-road precision

Active Traction Control (A-TRC)

Designed for on- and off-road, A-TRC helps to keep you moving in the most adverse conditions. This intelligent traction control applies brake force to one wheel that may be slipping, while distributing power evenly between the three that are not.

4-wheel Active Height Control (AHC)

4-wheel AHC adjusts your Land Cruiser V8's ground clearance. When lowered, stability at speed and cabin access is improved. Raising it, meanwhile, boosts off-road ground clearance. Automatic levelling means your vehicle's height stays constant, regardless of the load.

Tyre Angle Display

In uneven off-road conditions it is often difficult to determine your exact steering direction. The Multi-information display shows the tyre angle guidelines to give you confidence in these situations. When Multi-Terrain Select is in use, the tyre angle guidelines let you know your predicted path.

River crossings. Tricky, slippery climbs. Rutted, dry and seemingly impassible tracks. They all require power, and the Land Cruiser V8 has it in plentiful supply. But there's a lot more to it than brute strength. That's why the Land Cruiser V8 is equipped with a stunning array of

driving technologies to give you unprecedented control and precision. They optimise your suspension for different driving surfaces. They deliver an extra-tight turning circle when you need it. They even provide a 360-degree view of your surroundings, to allow you to choose the perfect path, and protect your paintwork. Whatever the situation, the Land Cruiser V8 is equipped. Bring it on.

Multi-terrain Select (MTS)

Tackle any situation with a choice of five terrain modes – 'Rock', 'Rock & dirt', 'Mogul', 'Loose rock' or 'Mud & sand'. The vehicle's throttle, braking and traction control systems are automatically modified to suit the off-road conditions, providing maximum traction and control.

Multi-terrain monitor (MTM)

MTM allows you to see the road around, helping you stay on your intended course and avoid potential danger. The screen displays a choice of six live images from four exterior cameras. By simply pressing the multi-function switch on the steering wheel, you'll have an instant understanding of your surroundings.

Off-road Turn Assist

The off-road Turn Assist function enhances drivability on tight corners. The turning performance is enhanced in accordance with the driver's steering wheel operation, while maintaining a constant low speed thus reducing the number of 3-point turns.

Kinetic Dynamic Suspension System (KDSS) Off-road Drive

Drive off-road and the wheels remain firmly on the ground and provide greater traction. The stabiliser is disconnected. With the fluid now allowed to flow freely through the system, each wheel can move with much more independence on uneven ground. The resulting longer wheel travel provides uncompromised traction and stability on the roughest terrain.

Refined comfort

Beating off-road obstacles and on-road challenges requires a clear head, so the focus inside the Land Cruiser V8 is firmly on sustained comfort and refined luxury. Materials of only the highest quality are

used, and the attention to detail is unsurpassed. As for your passengers, there's comfortable space for seven in total, along with generous storage including a cool box and double-layered glove compartment.

You're in control

Seven seats. Five seats with a large luggage space. Two seats with a massive luggage space. And every point in between. Whatever your journey, and the demands that it will place upon your vehicle's

interior, the Land Cruiser V8 gives you the flexibility you need, with seats that fold and move according to your requirements. What's more, the boot can be opened or closed electronically from the driver's seat, or even remotely using the electronic key.

Acceleration
8.9 secs
0-62 mph

6-speed automatic transmission

* Combined cycle.

Controlled power

Whether it's beating a tough-off road climb, pulling a stubborn low-speed load or simply overtaking motorway traffic quickly, the Land Cruiser V8 has the power to beat challenges with ease. The powerful V8 diesel engine delivers go-anywhere potential and an impressive 650 Nm of torque.

Multi-Terrain Anti-lock Braking System (ABS)
When driving with Multi-Terrain Select, Multi-Terrain ABS automatically detects terrain conditions and ensures the best possible braking performance.

Crawl Control
Maintains constant and stable low-speed off-road progress. The driver doesn't have to worry about controlling the throttle and brake, and can instead concentrate on steering.

Brake Assist (BA)
If you attempt an emergency stop, BA will detect this and instantly apply additional brake pressure. This enables ABS to work to its maximum potential and bring you to a stop more quickly.

Vehicle Stability Control (VSC)
VSC automatically activates each individual brake as needed and controls engine output to help maintain stability and prevent skidding when turning sharply or cornering on slippery road surfaces.

Protection when it matters

Slippery roads, sudden obstacles and unpredictable conditions. They all require quick thinking and precise control. But with the Land Cruiser V8, you also have ample assistance from an array of onboard safety systems. The result is surefooted handling at all times, and a better driving experience all round.

Details and features

- Main features**
- Damping force selector
 - Multi-information display
 - JBL 14 speakers
 - Rear-view camera
 - Chrome finishes
 - 4 x Camera Multi-Terrain Monitor
 - Crawl Control with Off-road assist

Main features and key specifications

New headlamps

Powerful new xenon headlamps with LED daytime running lights make Land Cruiser V8 more stylish as well as safer.

Damping force selector

This switch allows you to influence the suspension damping to ensure a smooth and comfortable ride across a particular terrain.

Multi-information display

Sitting comfortably at driver eye-level, the multi-information display provides all relevant vehicle information such as speed, steering wheel angle or Multi-Terrain Select display.

JBL 14 speakers

This premium sound system gives you superior, immersive acoustics specially calibrated for Land Cruiser V8's interior cabin.

Rear-view camera

Easily reverse anywhere, by seeing not just the space behind you but helpful graphic lines showing your projected rearward path and obstacles less than 50 cm away.

Chrome finishes

Eye-catching and superb quality chrome inserts make Land Cruiser V8's interior appearance even more stylish.

20" alloy wheels
Standard

Option pack

Further enhance the Land Cruiser experience for your rear passengers through the addition of Premium In-Car Entertainment. This option comprises two 8" screens fitted to the front headrests with side loading DVDs, together with a USB and SD card reader. This allows

those on board to watch the same or different DVDs or the option to play on a games console whilst the other passenger enjoys their film of choice.

This option pack must be ordered when ordering your vehicle.

Accessories

Those extra touches

What's so important about Toyota accessories is that they have been designed by Toyota especially for Toyota cars. Installation is easy. Integration is perfect. Every last detail has been considered to produce a co-ordinated yet highly individual appearance.

For the best in life

The Toyota Land Cruiser is ready for the best that life can offer. Its high levels of on-road refinement and superb off-road ability ideally balance luxury, strength, sophistication and versatility wherever you go. Genuine Toyota accessories remain true to this even further. Each item is made to the highest standards, as you would expect.

Body exterior

- Bonnet deflector
- Door handle protection film
- Exhaust pipe finisher
- Side chrome garnish
- Sunroof wind deflector
- Wind deflectors (set of 4)

Convenience

- Bluetooth® connectivity
- Clean air filter
- Cool box

Emergency

- Fire extinguisher
- First aid kit
- Warning triangle

Interior trim

- Carpet mats
- Rubber mats

Load space

- Boot liner
- Boot side net
- Cargo liner (high sided)
- Cargo net, horizontal

- Cargo net, vertical
- Dog guard
- Seat storage bag
- Tonneau cover

Lights

- Head lamp protector covers

Locks

- TRACKER Stolen Vehicle Tracking systems, Monitor & Horizon

Roof

- Cross bars (fit to roof rails)
- The following accessories can be fitted with the above cross bars:
 - Barracuda bike holder (holds one bike, two can be fitted)
 - Canoe holder, luxury
 - Horizontal ski holders, small and large
 - Surfboard/mast holder

Roof boxes

- Black 'Luxury' range:
 - 380-litre luggage box – 162 x 88 x 41 cm
 - 390-litre luggage & ski holder box – 226 x 65 x 38 cm
 - 490-litre luggage & ski holder box – 221 x 80 x 40 cm
- Silver range:
 - 380-litre luggage box – 150 x 90 x 35 cm
 - 410-litre luggage & ski holder box – 223 x 70 x 38 cm

Safety

- Child restraint seat, Babysafe G0, birth to 13 kg (approx. up to 15 months)
- Child restraint seat, ISOFIX Duo Plus G1 Plus, 9 to 18 kg (approx. 8 months to 4 years)
- Child restraint seat, Kid G2, 15 to 36 kg (approx. 3 years to 12 years)

Towing

- Rear bicycle holder with rear lamp set – holds two bikes, third bike extension set can be fitted. Bike holder must be fitted with tow bar
 - Tow bar detachable
 - Tow bar fixed
 - Tow bar flanged
 - Optional ball and pin tow ball
 - Tow bar 12N wiring kit
 - Tow bar caravan wiring kit

Storage

Toyota accessories are immensely practical. They help store personal possessions safely while also keeping them tidy to complement the Land Cruiser's immaculate interior.

Consider the boot space for example. The accessory range includes horizontal, vertical and side nets* that firmly restrain smaller objects to stop them moving around as you drive. Each net is made of strong woven black nylon with elasticised fixing loops for easy attachment to pre-fitted hooks in the boot.

Then there's the tonneau cover, which gives the boot space a tidy appearance while protecting its contents from prying eyes.

01 Vertical cargo net

02 Horizontal cargo net

* Not illustrated.

Extra care

Reassuringly, you have accessory choices for increasing comfort and care for younger passengers and for protecting the car itself.

The Duo Plus child restraint seat is for children between 9 kg and 18 kg (approx. 8 months to 4 years). It anchors directly to the car body by locking into ISOFIX bars plus a top tether for added stability or can be secured with seatbelts in cars without ISOFIX locks. The Babysafe protects babies from birth to around 15 months (to 13 kg). An integral canopy guards against the sun and wind. The Kid seat for children between 15 kg and 36 kg (approx. 3 to 12 years) has an adjustable headrest and is designed to ensure correct seatbelt positioning for optimum impact protection.

2 million vehicle-related thefts take place each year. By fitting a TRACKER Stolen Vehicle Recovery system* you will have a better chance of getting your vehicle back. Choose either the TRACKER Monitor system or the Horizon system, which has the added benefit of GPS. Ask your Toyota Centre for full details.

03

Practicality

Toyota offers a great selection of practical accessories to enhance the enjoyment of your Land Cruiser V8.

The family-sized universal cool box plugs in to your car's 12V accessory socket and can be relied on to keep a generous supply of food and drinks either hot or chilled.

Equally practical is the boot liner. It is custom shaped to fit your Land Cruiser's boot and made of ultra-tough rubber to protect the carpet with an anti-slip surface pattern to help stop luggage sliding.

You can also protect your paintwork against scratches with transparent adhesive door handle protection film.

01 Cool box

02 Boot liner

03 Door handle protection film

Care for your carpets is provided by Toyota tailored floor mats. You can choose from ultra-tough rubber mats* or high quality velour mats.

If you prefer to drive with the windows or sunroof open, aerodynamically designed wind deflectors match the Land Cruiser's contours and divert airflow.

04 Carpet mats

05 Sunroof wind deflector

06 Wind deflectors

*Not illustrated.

Touring and towing

Combine Toyota accessories with the Land Cruiser's famous go anywhere capability and the result is maximum freedom to explore life's special adventures.

A choice of fixed, flanged or detachable tow bars with optional wiring kit enables you to take full advantage of the Land Cruiser's strength and stability. All three bars have anti-corrosion surface treatments and provide the capability to tow anything from a trailer to a horsebox, boat or a caravan. The 2-positioned flange ball tow bar is also compatible with a ball and pin for alternative towing applications.

Increasing flexibility even further is the Toyota roof rack or, if fitted with accessory roof rails, a two or three cross bar system.

Each is fully lockable, easy to install and can be extended with a superb range of optional attachments. The attachments include a load platform and truly cavernous yet streamlined central locking luggage box. There are holders for boats* and a surfboard and mast.

And, for winter sports, you have a choice of two sizes of lockable ski or snowboard holders* and an aerodynamic central locking ski box. To carry bicycles securely, the Barracuda attachment has a unique anti-theft system and moulded profiles that grip the wheels firmly.

Particulates, PM (g/km)	0.00061
Noise (drive-by) (EU directive 70/157/EEC as last modified by directive 2007/34/EC)	
dB(A)	71.7

The fuel consumption and CO₂ values are measured in a controlled environment, in accordance with the requirements of Directive 80/1268/EEC incl. its amendments, on a basic production vehicle. For further information or if you are interested in buying a basic production vehicle, please contact Toyota Motor Europe NV/SA.
The fuel consumption and CO₂ values of your vehicle may vary from those measured. Driving behaviour as well as other factors (such as road conditions, traffic, vehicle conditions, installed equipment, load, number of passengers, etc.) play a role in determining a car's fuel consumption and CO₂ emissions.

Glossary

Discover more about Land Cruiser V8 technology.

Full-time 4WD

This full-time 4WD system provides excellent traction and control during acceleration and turning. All four wheels are powered at all times for unbeatable ability to go anywhere on- or off-road.

Dusk sensor

The dusk sensor monitors light levels and automatically switches on the headlights when the light is low.

4.5 l V8 diesel

The 4.5 litre V8 diesel engine is one of the most powerful diesel engines in the Toyota range, delivering flexibility and an unrivalled driving performance on- and off-road. The impressive power is boosted by a sophisticated twin variable-nozzle turbocharger.

Smart Entry & Start System

Instead of a conventional key, the Smart Entry & Start System features a transmitter that allows you to unlock the doors by pulling the handle and lock them again by pressing a button. To start or stop the engine, simply press the Start/Stop button. All you need to do is carry the Smart Entry key in your pocket or handbag.

Rear-view camera

Reverse more safely using the rear-view camera. The clear colour image displayed on screen helps you spot hidden hazards and park with ease.

Rain sensor

The automatic rain sensor instantly sets the appropriate wiper speed and intervals.

Whiplash Injury Lessening (WIL) seats

During an impact at lower speeds and particularly from the rear, WIL seats and headrests cushion the head and back. This reduces the risk of whiplash injuries.

Pre-tensioners and force limiters

Integral to the front 3-point ELR seat belts, pre-tensioners and force limiters are designed to help avoid injuries to the chest area.

Supplemental Restraint System (SRS) airbags

This model is fitted with ten airbags, including knee airbags for driver and front passenger. Other SRS airbags include SRS airbags for both driver and passenger, side airbags for the front and rear seats, and SRS curtain shield airbags covering both the front and rear seat passengers.

Automatic transmission

Toyota's automatic transmissions offer a smooth, effortless drive with minimal driver effort. Gear changes are quick and responsive, and additional manual modes enable greater control if required. Automatic transmissions are engineered for the best balance of performance and economy.

ISOFIX seat fixing

Seats incorporate special anchor points, including a top tether that helps prevent the seat tipping forward. These provide a safe and convenient way of correctly securing ISOFIX child seats (available from your Toyota dealer).

Toyota takes great pride in constantly improving environmental performance.

- National sales centres
- Logistics centres – vehicles
- Logistics centres – accessories/spares
- Production sites
- Supporting companies
- Training centres

As a worldwide corporation we aim to be wherever our customers need us, and therefore we have a strong presence in Europe. This shortens delivery distances and results in substantial time savings that are good for you and the environment.

Less CO₂ used to build a Land Cruiser V8 since 2002

Designing your car

Each design detail on our vehicles is analysed to ensure the lowest possible environmental impact throughout its life cycle. This meticulous approach has led to an array of innovative features on our cars that contribute to environmental efficiency.

The environmental impact of the Land Cruiser V8 diesel compared to its previous model is demonstrated through the complete life cycle analysis with 13% CO₂ (Carbon dioxide), 45% NOx (Nitrogen Oxide), 12% NMHC (Non-Methane Hydrocarbons), 10% SOx (Sulphur Oxide) and 38% PM (Particulate Matter) reduction.

Making your car

At Toyota, every effort is made to ensure environmental efficiency throughout the manufacturing process. Since 2002, we have reduced the average energy consumption per vehicle built at the Toyota Tahara plant.

Getting vehicles and parts to you

Toyota is always looking to employ the most efficient and environmentally friendly logistical and delivery methods.

Selling and servicing your car

We have developed a sustainable Toyota Centre programme to reduce energy, water and waste emissions generated across our network. This covers everything from rainwater recycling, introducing additional roof insulation and using renewable energy at new Toyota Centres, as well as carrying out energy audits to identify efficiency improvements at existing Toyota Centres.

95% of your Land Cruiser V8 is recoverable

The end of the road for your vehicle?

Toyota always designs and manufactures its vehicles with an eye on the three Rs: reduce, reuse and recycle. For example, 95% of every Land Cruiser V8 is reusable and recoverable, 100% of materials are coded and four heavy metals have been eliminated completely in accordance with 2000/53/EC. In addition, our environmental policy means that we offer Toyota drivers new and innovative ways of returning their old car. For more information visit: www.toyota.eu or contact your local Toyota Centre.

20-30% less fuel and CO₂

Drive thoughtfully

Drive your car in the right way and you could reduce your fuel bill and your CO₂ emissions by around 20-30%.

01. Remove any extra weight and roof load.
02. Plan your route and avoid detours.
03. Avoid using your car for short journeys.
04. Check your tyre pressure regularly.
05. Service your car according to the owner's manual.
06. Shift up gear earlier.
07. Only use air conditioning when necessary.
08. Follow and anticipate traffic flow.
09. Keep your windows closed.
10. Switch off your engine if you have to wait longer than 60 seconds.

Owning a Land Cruiser V8 means you enjoy the peace of mind afforded by Toyota's global reputation for quality and integrity.

On the day you purchase your Land Cruiser V8, your centre will present you with the 'Land Cruiser V8 passport'. It's a guide to getting the best out of your Land Cruiser V8 and its comprehensive range of features. Of course, your centre will explain the Land Cruiser V8 to you in detail – and always be available should you require any assistance.

Intelligent design

The Land Cruiser V8 is designed and engineered to minimise the maintenance overhead. There are fewer parts that require servicing and those that do are inherently durable to extend service intervals. Equally important is that Land Cruiser V8 technology is made easily accessible so that maintenance labour time can be minimised. These features combine with the highly competitive pricing of Toyota parts to ensure the lowest cost of maintaining your Land Cruiser V8 in an ideal working condition.

Toyota quality service

Your Toyota centre will talk you through the Land Cruiser V8 'Health and Safety' maintenance programme. The programme is very straightforward and designed for your convenience. In effect, your Land Cruiser V8 needs a full Health and Safety check, dependent on driving style and conditions, up to once every two years or 20,000 miles (whichever comes sooner). An intermediate Health and Safety check is necessary every year or 10,000 miles (whichever comes sooner).

Toyota genuine parts

The Land Cruiser V8 is designed to minimise the cost of accident repair. Energy-absorbing elements are built into the bumpers, expensive-to-replace parts are located away from damage zones, and commonly

damaged body parts are bolted rather than welded. As a result, the extent of damage is limited and damaged parts are easy to remove, replace or repair. Ultimately, this means very low parts and labour charges.

Added security

The Land Cruiser V8 security system withstands the insurance industry's rigorous five-minute attack test and provides excellent protection. Both the alarm system and engine immobiliser are approved by Europe's major insurance companies.

Toyota accessories

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. Tailor-made for your Toyota, they fit perfectly and add a personal touch of style, comfort or practicality. And because they've been tested under the most severe conditions, you can have complete confidence in their reliability and durability. To add to the reassurance, every genuine Toyota accessory has a 5-year warranty when purchased together with the vehicle*.

Club Toyota

When you buy a Toyota you automatically become a member of Club Toyota, for 12 months free of charge. This entitles you to take advantage of a host of benefits including free AA Roadside Assistance in the UK and Europe, specially negotiated rates for travel insurance, a 5% discount off Toyota Motor Insurance, plus exclusive offers and promotions through our customer magazine. For further information please call 0844 701 6200 or visit www.toyota.co.uk/club

Toyota Motor Insurance

Toyota Motor Insurance is available for Toyota owners at competitive premiums. To obtain details of the benefits included and to arrange a quotation, please contact your local Toyota Centre or call 0800 350 500.

Toyota Fleet

Toyota Fleet provides complete business solutions for companies that run a fleet of vehicles. For more information on how Toyota Fleet can deliver your fleet requirements either contact your local Toyota Centre or the Toyota Fleet Business Centre on 0845 271 2712.

5-Year Toyota Warranty

Every new Toyota comes with a five-year/100,000-mile⁵ manufacturer's warranty (covering your car against the unlikely event of a manufacturing defect causing a mechanical fault). For full details, please ask your official Toyota Centre or visit www.toyota.co.uk/5yearwarranty

Corrosion cover The warranty offers 12 years' coverage, regardless of mileage, against perforation of the bodywork (from inside to outside) that develops due to corrosion caused by faults in materials or workmanship.

Rust and paint defects The warranty also covers surface rust and paint defects appearing on any of the painted body panels as a result of a fault in materials for a period of 3 years, regardless of mileage.

Extended Warranty

After the initial warranty period has ended, you can extend your warranty until the vehicle is seven years old – choosing from a range of packages to suit your vehicle and your needs. All of our warranties cover the main component parts of the vehicle⁶, meaning that you pay for nothing beyond routine servicing and maintenance, so there are no unexpected bills to pay.

Toyota Accident Assistance

At Toyota, we believe that our customers deserve the best possible care. Therefore if you are involved in an accident, one call to Toyota Accident Assistance will get you back on the road again, whilst we take care of liaising with your insurer and arranging for your car to be repaired. By making us your first call, we will ensure your vehicle is repaired by Toyota to factory standards, meaning no compromise to your warranty or residual value.

Toyota Approved Used Car Scheme

All Toyota Approved Used vehicles come complete with a pre-delivery inspection, a mileage check, 12 months' warranty, AA breakdown cover, Club Toyota membership** and a 30-day vehicle exchange plan.

Recycling Toyota End-Of-Life Vehicles

We offer a free vehicle take back scheme through our appointed service provider, Autogreen. This is a new and innovative way for Toyota drivers to return their vehicle at the end of its life for dismantling and recycling. For more information about End-Of-Life Vehicles please refer to www.toyota.co.uk/environment

Flexible Finance from Toyota Financial Services

When choosing your new car you will make sure you choose the right model, the right specification and the right colour to suit you. Choosing how you finance your car is just as important.

Our range of finance plans has been designed with simplicity in mind to make funding your car as easy as driving it.

All our plans offer easy budgeting and peace of mind and **AccessToyota** brings these and other benefits together in one flexible package. **AccessToyota** is a finance plan that puts you in control. You don't have to worry about finding a large deposit as you agree the amount of deposit that you want to pay and choose your repayment term from 2 to 3 years. What makes **AccessToyota** different is that Toyota Financial Services (TFS) give your vehicle the security of a guaranteed future value (GFV) which is your optional final payment, deferred to the end of the agreement. Affordable monthly payments are yours to enjoy as your repayments are based on the vehicle selling price less your deposit and the GFV/optional final payment, plus the cost of borrowing. In addition, you can have reassurance against the risk of a fall in used car prices, knowing the minimum amount your Toyota will be worth at the end of your agreement is guaranteed at TFS. Then when your agreement comes to an end you have three flexible choices:

- Part exchange your vehicle for a brand new Toyota
- Pay your final payment (the GFV) and take full ownership of the car⁵⁵
- Simply hand the car back with nothing more to pay⁶⁰

Ask your Toyota Centre to show you how **AccessToyota** could be the best choice for you.

Whatever your needs, to complement **AccessToyota**, TFS has a full range of finance options to offer. From traditional Hire Purchase to Contract Hire and Leasing. Whether you're a private motorist with a fixed monthly budget in mind or a business customer looking for VAT-efficient funding options, just discuss your individual requirements with your Toyota Centre. They will be pleased to show you how convenient and competitive Toyota Financial Services can be.

Toyota Financial Services, Great Burgh, Burgh Heath, Epsom, Surrey, KT18 5UZ.

Finance subject to status to over 18s only. Indemnities may be required. Terms and conditions apply.

* Check with your Toyota dealer for specific warranty details.

⁵ Whichever comes first.

⁶ With the exception of batteries, corrosion of exhaust and damage or wear to the interior. Please refer to our Terms and Conditions for full details.

** Except on non-Toyota vehicles.

⁵⁵ On payment of the option-to-purchase fee.

⁶⁰ Subject to mileage and fair wear and tear conditions being met. TFS is authorised and regulated by the Financial Services Authority.

To experience the new Land Cruiser V8 or for more information, please contact your local Toyota Centre or visit our website toyota.co.uk/landcruiser

Help

Using the navigation bar

A navigation bar is provided at the bottom of each page of this e-brochure to make browsing it easy. Please follow the simple instructions to navigate through this e-brochure.

Takes the document back to the beginning.

This will take the document to the previous page.

This will take the document to the next page.

This will allow the Acrobat toolbar to be visible if pressed once and it will also make it disappear if already visible.

This will save the whole document to your computer.

This will zoom in on the document so smaller text etc will be easier to read. To zoom in further, click the icon again. If the menu bar is not visible then use your mouse by clicking the left hand button and moving it.

This will zoom out of the document. To zoom out further, click the icon again. If the menu bar is not visible then use your mouse by clicking the left hand button and moving it.

This will print out the full brochure to your printer. Please note that if you have a colour printer this document will print in full colour.
