Driving Assistance Package

The Driving Assistance Package combines Active Blind Spot Assist, Distronic Plus and Active Lane-Keeping Assist

Active Blind Spot Assist

Distronic Plus radar-assisted cruise control

For increased traffic safety the CL-Class can now be equipped with the Driving Assistance Package, combining three highly sophisticated safety features: Active Blind Spot Assist, DISTRONIC Plus and Active Lane-Keeping Assist.

Active Blind Spot Assist provides a visible warning in the exterior mirrors as soon as a vehicle is detected in the driver's blind spot. If the driver initiates a change of lane, the Electronic Stability Programme (ESP®) will intervene to correct the vehicle's trajectory. An additional audible warning will also sound.

DISTRONIC Plus is a proximity control system, ideal for motorway cruising or for stop-and-go situations. Sensors monitor traffic proximity within the speed range 0 to 124 mph; the brakes are gently applied should you get too close to the vehicle in front. If necessary, the vehicle is brought to a standstill.

Active Lane-Keeping Assist closes the gap between Active Blind Spot Assist and DISTRONIC Plus: the steering wheel will vibrate to alert the driver should he or she unintentionally drift out of lane.

Driving Assistance Package – designed and priced as a package, including items as listed below.

Sporty or classic? Regardless of whether you choose leather or the particularly soft Passion leather, the interior appointments are designed throughout with painstaking attention to detail and reflect the highest standards of workmanship. Choose Exclusive Passion leather and additional leather-finished elements such as the dashboard, doors and centre console are finished in Passion leather. The roof lining as well as the A- and C-pillars are finished in Alcantara.[®]

Of the many characteristics which mark out the CL as a highly distinctive vehicle, the exclusive wood trim is one of the most striking. Whichever variety or colour you choose, every single piece of wood is hand-picked by our experts and worked in such a way that it is presented to best advantage in your CL.

Road Fund Licence

All road vehicle registrations are subject to Vehicle Excise Duty (Road Fund Licence), which varies in accordance with the vehicle's CO₂ emissions. A first year rate of Vehicle Excise Duty applies to new cars on their first year of registration. For the second and subsequent years a standard rate for each taxation band will apply.¹ The table below shows the bands (A-M) created by the DVLA and the corresponding Road Fund Licence. CO₂ emissions are listed in the technical specifications on page 33, and the relevant Excise Duty is reflected in the on-the-road prices on page 5.
