FUN TO OWN

With countless personalisation options, the MG3 is born to suit your style. Whether you've got a sunny disposition, an edgy outlook or a dark side, it's here to help you express yourself.

FUN TO DRIVE

The town is your playground thanks to the MG3's nippy handling and sporty 106PS engine. There's no need to worry about insurance either. The MG3 has a **CLASS-LEADING 4E RATING** - less than half the rating of many other superminis.

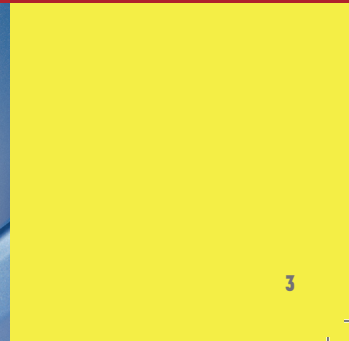

FUN TO BUY

The MG3 is packed with awesome style and tech details, but the most amazing thing is that you can personalise your car with extra features without maxing out your budget.

FUN FOR ALMOST 90 YEARS

MG became world famous for building distinctive, British, small, fun cars at a remarkably affordable price. The MG3 is the new, small, modern MG that brings style and fun to a new generation.

Today, MG is owned by the SAIC Motor Corporation, rated 103rd in the Fortune 500. Modern MGs are still designed and engineered at our historic home in Longbridge, Birmingham and the MG3 is no exception - giving a fresh twist on the innovation, sporty performance and distinctive style that first made the MG badge famous.

WIN/WIN

THE MG3 HAS TWO SIDES TO ITS PERSONALITY,
BUT THEY COME TOGETHER TO CREATE ONE
UNIQUE CAR.

PERFECT SENSE

AMAZING VALUE

The head-turning price tag gets you oodles of features, practicality and clever safety stuff.

HIGH SPEC THROUGHOUT

Every MG3 is absolutely loaded with great spec. For example, LED daytime running lights and electronic hill hold are standard throughout, while all but the entry model are packing a DAB digital radio.

TONS OF SPACE

Beneath the eye-catching exterior, there's one of the roomiest interiors you'll find in any sporty supermini.

SAFETY SORTED

You're well looked after, thanks to six airbags, electronic stability control, corner brake control and traction control as standard on all models.

MEET THE FAMILY

When you own an MG3, you join a long tradition of original thinkers. Since the first MG hit the road in 1924, we've been driven to be different from any other car.

Fast forward a few decades and we're now backed by SAIC Motor, China's largest automobile manufacturer; founded in 1958 and now a Fortune 500 company. In 2012, SAIC Motor produced over 4.5 million vehicles, the largest output of any China-based automaker.

With SAIC Motor's support, today's MGs are still designed and engineered in the UK. Delivering more British style, more sports performance, more spec as standard, more reassurance and more car for your cash. By staying true to our values, MG have created a worldwide community of fans.
