

**MINI CONVERTIBLE. MINI COUPÉ.
MINI ROADSTER.**

STREET SMART.

A MINI doesn't just leave tracks on the asphalt: it stamps your personality on the city. How? Because you can use your MINI to express your own individual style. There are three different models in this catalogue, with countless equipment options to transform any MINI into your MINI. So whatever else you may take with you, it will always carry a message about who you are.

For more information about standard and optional equipment, please see page 86. Details of fuel consumption and CO₂ emissions for all models, as required under EU law, can be found in the Technical Data section on page 80.

MINI CONVERTIBLE.

MINI
CONVERTIBLE.

GO-KARTS FOR GROWN-UPS.

Remember the times you had the most fun as a kid? So do we. We built the MINI Convertible to recreate the good old days when you could have a whale of time just running around in the street. It's just as much fun now as it was then, except you and your friends don't have to go home when it gets dark.

JOY IN YOUR HEART, WIND IN YOUR HAIR.

The MINI John Cooper Works Convertible provides plenty of thrills, top up or top down, on the track or on the high street. With 17" alloy wheels fitted as standard, along with optional leather upholstery and Chili Red contrast stitching, the vehicle is a feast for the eyes. It's also got plenty for the ears – pushing the Sport button makes the steering and acceleration more responsive and the engine sound even throatier. And best of all, when the top is down, you can enjoy the vehicle's roar in all its glory.

A BREATH OF FRESH AIR: THE MINI HIGHGATE.

The MINI Highgate is living proof that you don't need a roof over your head to be stylish. The exterior comes in a choice of metallic colours: Iced Chocolate, White Silver, or Midnight Black, all with matching bonnet stripes. And with Highgate side scuttles, 17" Double Cross turned alloy wheels in Silver, exclusive door sill finishers and a gorgeous Dark Truffle interior, you're all set to make a big impact wherever you go. And if you do drive with the roof up, the Silvertouched Brown soft top provides an elegant contrast.

There's shimmering bronze brushed aluminium, a Dark Truffle leather Colour Line, aluminium-coloured double stitching and, as an optional extra, a leather-upholstered instrument panel. Smart, huh?

THE MINI CONVERTIBLE.

HOW'S THIS FOR A BIRD'S-EYE VIEW?

Four seats. That's four different perspectives on the city, plus space for a healthy amount of luggage. The luggage compartment has a surprisingly large capacity for a convertible, at up to 170 litres. And if you need even more, the rear seats fold down with a 50:50 split to give up to 660 litres of storage space.

HATS OFF.

Now this is what a convertible should look like. The steep A-pillar on the MINI Convertible gives a real open-air feeling, and the great all-round view makes parking child's play. You don't even have to count the number of hours you spend with the top down: the optional openometer does it for you automatically.

THE FUN ONLY STOPS WHEN YOU WANT IT TO.

The MINI Convertible's engine is impressive enough, but the rigid chassis gives you that key ingredient of every MINI: the legendary go-kart feeling. And short though the car may be, we haven't taken any shortcuts with safety. With high torsional rigidity, active roll-over protection, 4 airbags, and Dynamic Stability Control (DSC) as standard, you can drive on with complete peace of mind.

MINI MOTORAMA.

MINI ONE CONVERTIBLE.

How's this for starters? The heart of the **MINI One Convertible** is a formidable 98hp/72kW 1.6-litre engine, providing 153Nm of torque and tonnes of fun to go with it. OK, so your hair may get blown around a bit, but that's a small price to pay for a fuel consumption of 49.6 miles per gallon. You'll forget what a petrol station looks like.

MINI COOPER CONVERTIBLE.

Now things start to get really interesting under the bonnet. The 1.6-litre engine in the **MINI Cooper Convertible** delivers no less than 122hp/90kW, and 160 Nm of torque. Hungry for more? Then have a look at the **MINI Cooper D Convertible**. Thanks to turbo technology, it provides precisely 270Nm of torque to the front wheels, with combined-cycle fuel consumption of just 70.6 miles per gallon.

MINI COOPER S CONVERTIBLE.

A turbocharger supplies compressed air to the engines of the **MINI Cooper S Convertible** and **MINI Cooper SD Convertible**, which in the diesel version delivers 143hp/105kW of power and 305 Nm of torque. The petrol version uses a twin-scroll turbocharger to achieve an impressive maximum output of 184hp/135kW, generating up to 260 Nm of torque with the overboost function.

» MINI JOHN COOPER WORKS CONVERTIBLE.

The cream of the crop: the **MINI John Cooper Works Convertible** has a 211hp/155kW, 1.6-litre engine. This is a whole different ballgame, with a twin-scroll turbocharger, direct fuel injection, variable valve timing and, with the overboost function, up to 280 Nm of torque.

MINI
COUPÉ.

MINI ROADSTER.

AT LAST, A CAR THAT MARKS OUT ITS TERRITORY.

Or rather, two cars. Simply mix generous doses of testosterone, adrenaline and fun, and spray them liberally all over town. The only question is: top up, or top down? Whatever the answer, you're sure to make a splash in the MINI Coupé and MINI Roadster.

RELAXING HAS NEVER BEEN SO EXHILARATING.

Enjoy your surroundings, while feeling the same euphoria as a jet pilot on a low-altitude flight. With its low centre of gravity and extremely robust, rigid body, the MINI John Cooper Works Roadster takes corners just that little bit faster. It also features instantly recognisable sport stripes, polished steel roll-over bars and a rear spoiler that deploys automatically, highlighting just how dynamic and eye-catching the open-top two-seater can be. And should the weather ever take a turn for the worse, the top can be popped back up again in no time.

THE MINI COUPÉ.

SMOOTH OPERATOR.

The MINI Coupé sails round bends, but its low centre of gravity, rigid, torsion-reinforced body and direct steering keep it hugging the road like a pair of tight-fitting jeans.

TOP NOTCH.

With its streamlined front end and low wind resistance, the MINI Coupé looks more like a jet than a car—and it drives like one, too. To stop it taking off, the rear spoiler automatically deploys at 50mph for improved roadholding and a safer ride.

EXPRESS PACKAGE.

Two seats, dynamic lines, low roof, pert tail and sport stripes. It's making a statement, and that statement is: I'm a sports car.

SHORT AND SWEET.

An open-top, streamlined two-seater with three-dimensional roll-over bars: it couldn't look more sporty if it tried. Even the roof goes like a bat out of hell: with the electro-hydraulic control, it takes less than ten seconds to open.

THE MINI ROADSTER.

FUN WITH A CAPITAL F.

Thanks to the MINI Roadster's low centre of gravity, rigid body and direct steering, the only thing that feels more like a go-kart is a go-kart. Except go-karts don't have this much luggage space: 240 litres to be precise, with a handy through-loading function.

FLYING HIGH.

With its low roof, flat windscreen and aerodynamic fine tuning, the MINI Roadster slices its way through the air like a knife through warm butter. The rear spoiler automatically extends at 50mph, trapping the slipstream and converting it into improved roadholding. So while the MINI Roadster is an amazingly fun car to drive, it's also safe as houses.

WELCOME TO THE ENGINE ROOM.

**MINI COOPER COUPÉ.
MINI COOPER ROADSTER.**

If you're a two-seater sports car, you need a sports-car engine. Both the **MINI Cooper Coupé** and the **MINI Cooper Roadster** have a 1.6-litre, four-cylinder petrol engine delivering 122hp/90kW and 160 Nm of torque.

**MINI COOPER S COUPÉ.
MINI COOPER S ROADSTER.**

So off we go! The **MINI Cooper S Coupé** and **MINI Cooper S Roadster** engines mean business. Both have a twin-scroll turbocharger and put out 184hp/135kW and up to 260 Nm of torque, so a snappy ride is guaranteed. Alternatively, try the 143hp/105kW turbodiesel in the **MINI Cooper SD Coupé** and **MINI Cooper SD Roadster** for size. With 305 Nm of torque, it's a one-way ticket to nirvana.

**» MINI JOHN COOPER WORKS COUPÉ.
» MINI JOHN COOPER WORKS ROADSTER.**

211hp/155kW and up to 280 Nm of torque (with overboost) in a car this small? We kid you not. It's all down to twin-scroll turbo technology, direct injection and variable valve control. Whichever floats your boat more, the **MINI John Cooper Works Coupé** or **MINI John Cooper Works Roadster**, we guarantee you've never driven this fast in a two-seater MINI.

**JOHN COOPER
WORKS**

Few other models come close to the level of customisation MINI has offered for over 50 years. In fact, choosing a new MINI is no easy task – for the exterior alone, there are over 100,000 ways to make your MINI a unique match for your

THE LEGEND IS IN THE DETAIL.

unique personality. There are bonnet and sport stripes, exterior mirror caps, contrasting roof colours – you name it, we've got it. The customisation tradition began with John Cooper, whose Mini took the rally world by storm in the early 60s. He wanted to be sure spectators could see it fly through the thick woodland around Monte Carlo, on its way to victory. His simple, effective solution was to paint the roof bright white. The decision would have major ramifications, and was one of the reasons why the MINI went on to become the best-selling, most-loved British car in history. So take a look through the following options, and begin your love affair with your own personalised MINI.

SHOW YOUR TRUE COLOURS.

Who says green means go and red means stop? With MINI, you make the rules. Just choose your favourite colour or colours for the body and roof or soft top. It's your decision. (By the way, we weren't suggesting that you ignore traffic lights. Don't make the boys in blue see red.)

CHROME LINE

When the first classic Mini rolled off the production line in 1959, the automotive world was figuratively and literally dazzled. It made extensive use of chrome for such a small car. Much has changed since then, though our love of chrome burns as bright as ever. The sparkle of 1959 lives on today in the form of the Chrome Line Exterior. With Chrome radiator grille slats, Chrome surrounds for the air intakes and tailgate handle, and Chrome side scuttles, this optional package guarantees your MINI will make a glittering impression.

SPORT'N' STRIPES.

Sport stripes are a great way to give your MINI Coupé or MINI Roadster a classic race-car look.

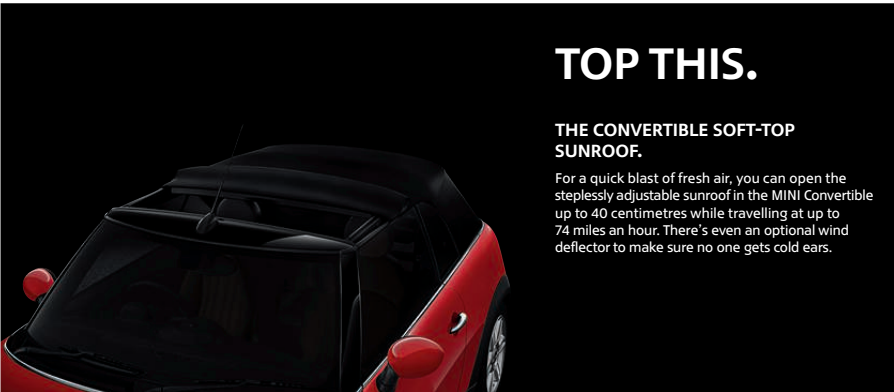

MINI Coupé models with a Black roof come with Black sport stripes on the bonnet and rear.

The stripes on the roof, however, are in body colour. On the MINI Roadster, the stripes only cover the bonnet and rear.

TOP THIS.

THE CONVERTIBLE SOFT-TOP SUNROOF.

For a quick blast of fresh air, you can open the steplessly adjustable sunroof in the MINI Convertible up to 40 centimetres while travelling at up to 74 miles an hour. There's even an optional wind deflector to make sure no one gets cold ears.

PUT OTHERS IN THE SPOTLIGHT NOW AND THEN.

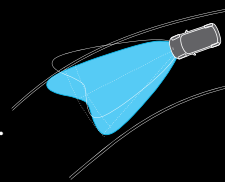

Wherever the lucky recipients of your attention are, the optional extra-bright xenon headlights with optional LED fog lights (incl. daytime running light) will find them automatically. Sensors measure the vehicle's angular velocity, steering angle and speed, and position the beam accordingly. This is known as adaptive headlights with automatic beam-throw control. In plain English, it means focusing on the essentials.

MINI INTERIOR.

Over the following pages, you'll find a range of ways to give your MINI that individual touch. From seats to interior colours and Colour Lines, you're in charge. After all, why choose off-the-peg when you can go bespoke?

1 COLOUR LINE.

This consists of the door armrests and knee roll, which form the basis of your MINI's interior design.

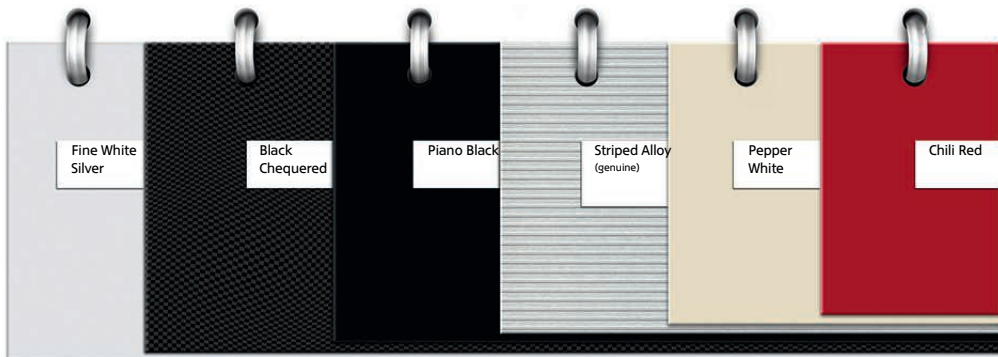

2 INTERIOR SURFACES.

Choose the combination that's right for you, including the decorative trim and door ellipses.

3 DASHBOARD.

Sometimes only the best is good enough. The MINI John Cooper Works models and MINI Yours equipment range include a fine leather dashboard.

INTERIOR SURFACES.

Smart/Smart: the MINI Highgate comes with Suntouched Brushed Alloy interior surfaces and the Dark Truffle leather Colour Line with Aluminium contrast stitching.

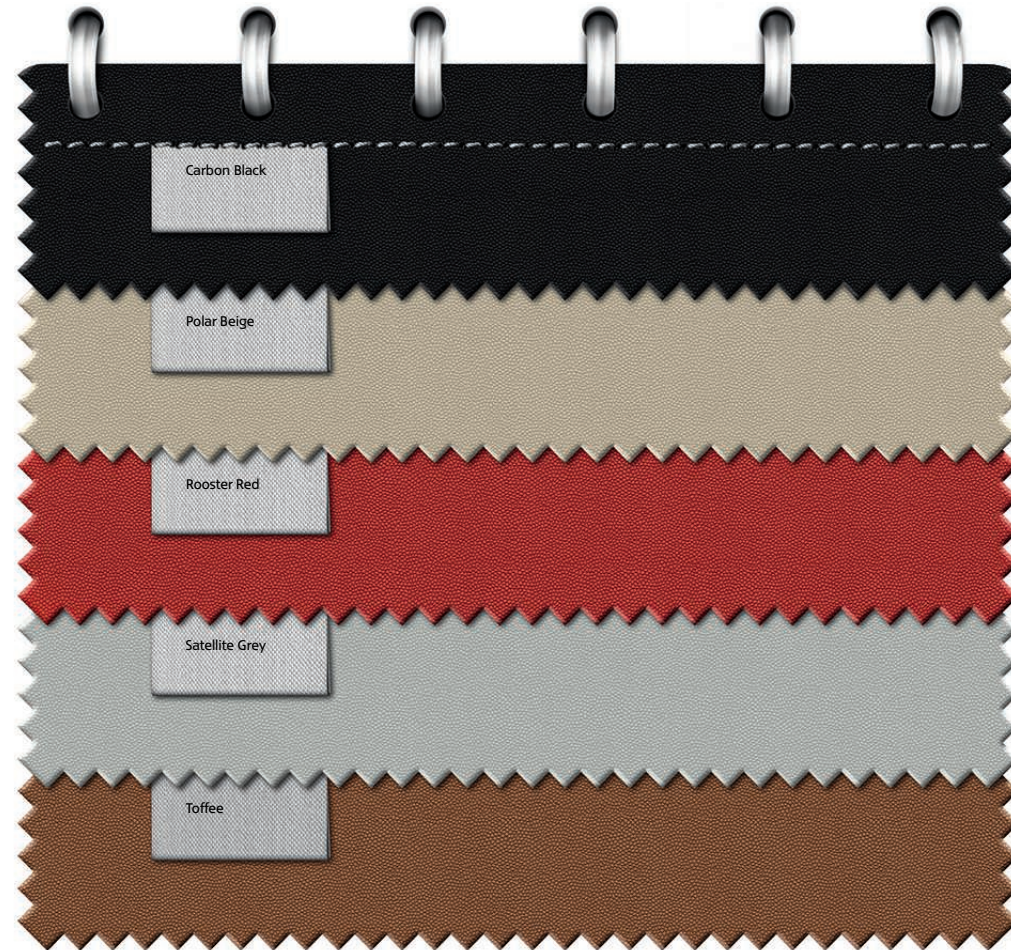

Sporty/Smart: John Cooper Works leather-upholstered dashboard in Black/Anthracite, knee roll in Dinamica Anthracite, and Striped Alloy interior surfaces.

FEEL THE QUALITY.

When you're sailing along an empty country road, singing at the top of your voice, little things start to matter. Like Striped Alloy surfaces, and a leather-upholstered dashboard in Black/Satellite Grey. Our choice of Colour Lines, interior surfaces and leather dashboards will make your eyes light up like bi-xenon headlights.

COLOUR LINE.

CHROME LINE INTERIOR.

Bring a little sparkle to the inside of your MINI, with the Chrome Line Interior. With the air vent rings, rev counter, and central round instrument all finished in Chrome, it's just one dazzling highlight after another.

MAKE YOURSELF AT HOME.

Hopefully, you'll be spending a lot of time in your MINI, so it's important to choose a seat that's right for you. From the Recaro sport seat to the standard cloth seat, all offer excellent side support, and yet another chance to stamp your personality on your MINI.

CYCLE STEPLESSLY THROUGH THE FULL COLOUR SPECTRUM – TRY AMBIENT LIGHTING FOR YOURSELF.

LIGHTS PACKAGE WITH AMBIENT LIGHTING.

In addition to the standard interior lighting in the headliner, the lights package offers door area lighting in the door trims, front reading lights, and an additional light in the storage compartment. Ambient Lighting is a real show-stopper. At the press of a button, you get soft lighting in the door handles, door storage compartments and instrument panel. There's a choice of colours, so you can select a mood to suit the occupants and the occasion.

SPACE.

When it comes to storage, MINI punches way above its weight. The MINI Coupé and MINI Roadster have a lockable through-loading hatch that opens from the driver's or front passenger's seat, so there's plenty of room for the big things in life – like your immense pride in your new MINI.

OODLES OF SPACE.

The MINI Convertible has a generous 170 litres of luggage space, or 660 litres with the rear seats folded.

SURPRISINGLY LARGE AMOUNTS OF SPACE.

Who would have thought it? The MINI Roadster has 240 litres of luggage compartment space, and the MINI Coupé no less than 280 litres.

PLANET MINI.

You're sure to experience a wide range of emotions in your MINI, though we can guarantee that you'll never feel alone. Each model is packed full of ways to share the joy of MINI with the outside world. With MINI Connected, you can say hello to passing MINI drivers via Facebook or Twitter. It may seem unusual to some, but it's a big part of life with a MINI – where drivers are connected by much more than a shared brand.

MINI CONNECTED: LIKE.

Want to enjoy the perfect soundtrack as you push your MINI to its limits? Enjoy quick, easy navigation? Tweet and connect with friends on Facebook? You can do all this and more with MINI Connected, a complete in-car infotainment solution. With the MINI Connected app, you can link your iPhone to your MINI, and access state-of-the-art features on the display unit. In addition, you can receive the latest RSS feeds, and thousands of web radio stations from around the world, wherever you may be. Be MINI. Be connected.^{1,2}

¹ Additional optional equipment required.

² Availability and range of features are dependent on other equipment fitted, and may vary from country to country. Range and graphic design of MINI Connected functions subject to change without notice. Broadband mobile Internet access required. Costs resulting from this (e.g. data roaming) will be payable as specified in the contract with your network provider. MINI Connected app available free of charge from the device manufacturer's app store (subject to national restrictions). Updates available free of charge, but version upgrades may be chargeable. If further MINI Connected-compatible apps become available, these will be identified/promoted accordingly. For more information about device compatibility and MINI Connected functions, visit www.MINI.com/connectivity

DRIVING EXCITEMENT.

Sports instruments, Driving Excitement Analyser, Force Meter and Condition Check: keep constant tabs on your driving style.

MINIMALISM ANALYSER.

The MINIMALISM Analyser puts the fun into changing gear, accelerating and braking more efficiently. It's good for the environment and great for your fuel economy, and the novelty never wears off.

DYNAMIC MUSIC.

Dynamic Music offers a selection of exclusively written tracks whose rhythm, style and instrumentation follow the dynamics of your driving.

MINI CONNECTED READY APPS.

You can find out which extras are compatible with MINI Connected in the "More Apps" section of the MINI Connected app. Simply download from the App Store, and get started.

SOUNDS GOOD.

RADIO MINI BOOST CD.

Listen up: the Radio MINI Boost CD comes as standard, and offers an RDS tuner with scan function, a CD player with MP3 decoder, and permanent clock display. An aux-in port for MP3 players and other mobile devices, and six speakers, also come as standard. And if that's not enough, it also has a two-line display, antenna diversity for optimum reception, controls for an external audio player, Bluetooth mobile phone preparation, and a DAB tuner. How does that all sound?

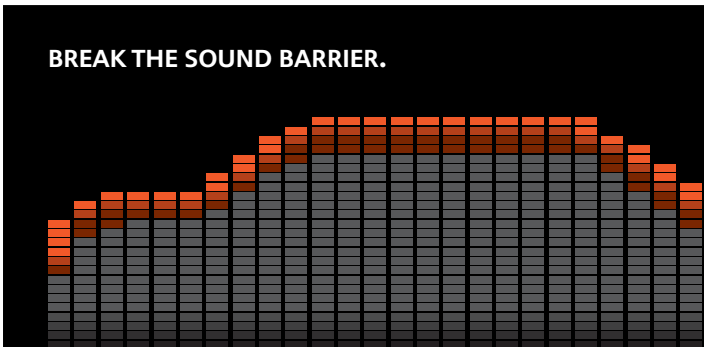

RADIO MINI VISUAL BOOST.

Turn your car into a mobile cinema with the Radio MINI Visual Boost. This sophisticated on-board entertainment computer is based on the Radio MINI Boost CD. A high-resolution 6.5-inch display offers intuitive controls, and acts as a screen for any compatible Apple iPod with video playback. MINI Visual Boost is also "MINI Connected ready", meaning MINI Connected can be retrofitted at any time.

For information on the compatibility of devices for audio, video and telephone functions, visit: MINI.com/connectivity

BREAK THE SOUND BARRIER.

The optional harman/kardon hi-fi system is music to any audiophile's ears. A digital multichannel amplifier and 10 high-performance speakers seamlessly integrated into the vehicle interior deliver a unique sound experience, thanks to a total output of up to 480 watts, with powerful bass and brilliant treble.

REV COUNTER AND OPENOMETER.

Everything you need to know, as standard: the rev counter is fitted to the centre of the steering column, and also displays the rain sensor status, current speed, trip and total mileage, and Shift Point Display, recommending the most efficient gear. The MINI Convertible and MINI Roadster have an optional feature that literally brings sunshine into your life: the Openometer records every minute in which the top is fully open and the engine running.

GET AROUND.

CLASSIC SPEEDO.

The classic speedo is also centrally positioned in combination with the Radio MINI Boost CD.

CIRCULAR SPEEDO AND NAVIGATION SYSTEM.

The circular speedometer is fitted as standard in combination with the Radio MINI Visual Boost or the MINI navigation system, and offers a clear display with an easy-to-use menu. The optional MINI navigation system boasts an incredible range of functions, and makes the perfect partner for the Radio MINI Visual Boost.

AIR CONDITIONING.

The standard air conditioning system is positioned in the centre console within arm's reach. It offers individual, simple control of the quantity and distribution of air. Fitted with a microfilter, the solution ensures a comfortable temperature inside the vehicle, both in winter and summer. And should you ever select manual air circulation mode, the system automatically switches back to fresh air after a certain period of time.

AUTOMATIC AIR CONDITIONING.

The automatic air conditioning system rapidly adjusts the interior temperature to the selected level, and then keeps it there. This means your hands can stay on the wheel at all times. A built-in active carbon filter protects passengers against unpleasant odours from outside, and the system automatically deactivates air circulation mode when necessary.

EVEN MORE MINI FOR YOUR MINI?

No problem – The MINI Collection and genuine MINI accessories include everything from a MINI Baby Racer to a MINI Child Seat.

GENUINE MINI ACCESSORIES.

USB ETC.

Whether you want to make a call on your mobile or listen to music, the enhanced Bluetooth mobile phone preparation with USB audio interface puts your phone in the driving seat. A hands-free kit and external aerial make calls easy, while interfaces for mobile phones, MP3 players, and USB sticks in the centre armrest and centre console ensure simple access to your favourite tracks. This option also includes the sports steering wheel with multifunction and a front armrest.^{1,2}

¹ For information on the compatibility of devices for audio, video and telephone functions, visit: www.MINI.com/connectivity

² Subject to availability of device-specific snap-in adapters.

A snap-in adapter² ensures that practically every make and model of mobile phone sits comfortably in this armrest.

SPICE UP YOUR MINI.

Get more out of your MINI: the SALT, PEPPER, CHILI and SPORT CHILI packages offer four stylish trim options, each with varying levels of comfort. And for added customisation, all can be combined easily with the Media Pack.

SALT.

Add a little flavour to your MINI with the SALT package. The features in this entry-level solution range from floor mats in velour to the on-board computer and a lights package with Ambient Lighting. It's a great way of increasing comfort for everyone on board.

PEPPER.

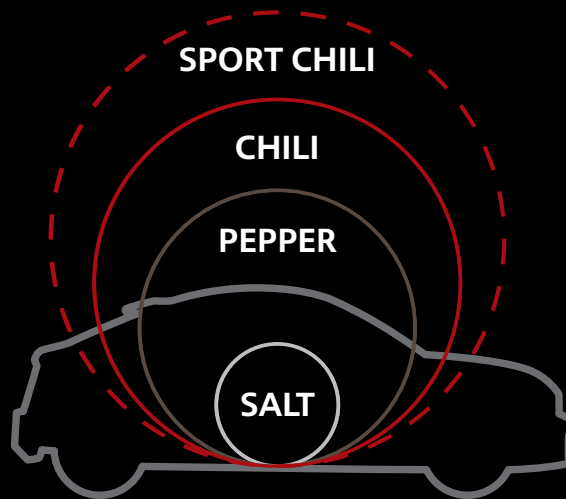

The PEPPER package brings a little more to the table. Additional options include the rain sensor, automatic air conditioning, white direction indicator lights, and the Chrome Line exterior.

CHILI.

Spice up your MINI even more. In addition to the features included in the PEPPER package, CHILI offers the Sport button, xenon headlights (for Cooper S/SD models), cloth/leather seats and larger alloy wheels. So however much things may heat up, you'll never lose your cool.

SPORT CHILI.

And there's an even hotter version of Chili: in addition to the basic package, it includes the John Cooper Works leather multifunction steering wheel, John Cooper Works aerodynamic kit, John Cooper Works door sill finishers, storage package, Sport button, fog lights, Cross Spoke Challenge alloy wheels in Silver, automatic air conditioning, on-board computer, Dynamic Traction Control (DTC), white direction indicator lights, and sport seats for the driver and front passenger.

JOINED-UP THINKING: MORE PACKAGES FOR YOUR MINI.

MEDIA
PACK

From the Radio MINI Visual Boost, navigation system and MINI Connected, to the enhanced Bluetooth mobile phone preparation, this package brings driver and machine together in perfect harmony.

EXPRESS PACKAGE.

MINI SPORT PACK. EXTERIOR.

Go fast, look fast: 17" Cross Spoke Challenge alloy wheels in Silver, John Cooper Works aerodynamic kit, bi-xenon headlights, white direction indicator lights, sports suspension set-up, Black or White bonnet stripes, and John Cooper Works door sill finishers.

MINI SPORT PACK. INTERIOR.

A winning environment: from the John Cooper Works leather steering wheel with multifunction, to the Sport button, Chequered cloth sport seats in John Cooper Works Carbon Black, Dynamic Traction Control (DTC), John Cooper Works door sill finishers and a headliner in Anthracite, everything here is tailored for pole position.

MINE. MINE. ALL MINE. MINI YOURS.

If you appreciate great design and like to be special, then the MINI Yours customisation programme is the perfect way to make your MINI even more individual. Select the finest materials for your interior – exclusive leather seats and stylish alloy wheels that are sure to draw admiring glances. And there's a host of options to ensure you'll be reluctant to leave your MINI when you reach your destination.

2-tone sports leather steering wheel, and leather-upholstered dashboard in Black/Satellite Grey.

Fine Lounge leather in Satellite Grey that's easy on the eye.

A perfect combination of 17" MINI Yours Twin Spoke alloy wheels in Black, with a Highclass Grey Metallic¹ exterior.

¹ Exterior colour available until October 2014.

JOHN COOPER WORKS TUNING.

A dose of racetrack excitement: with John Cooper Works Tuning, you can give your MINI however much of a racing edge you like, both inside and outside.

For more information, visit www.MINI.co.uk/accessories

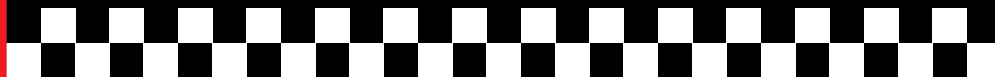

The tuning kit consists of a sport air filter, optimised engine management, sports silencer, and Chrome tailpipes.

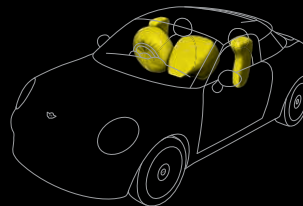

Oh so stylish: John Cooper Works exterior mirror caps in Carbon.

Perfect handling: the John Cooper Works gear lever in Alcantara/Carbon Black.

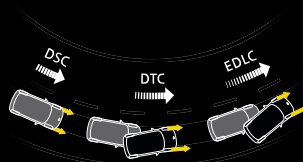

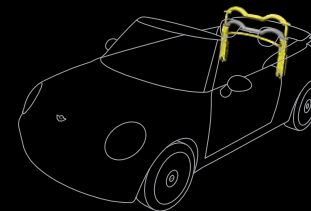

SAFETY.

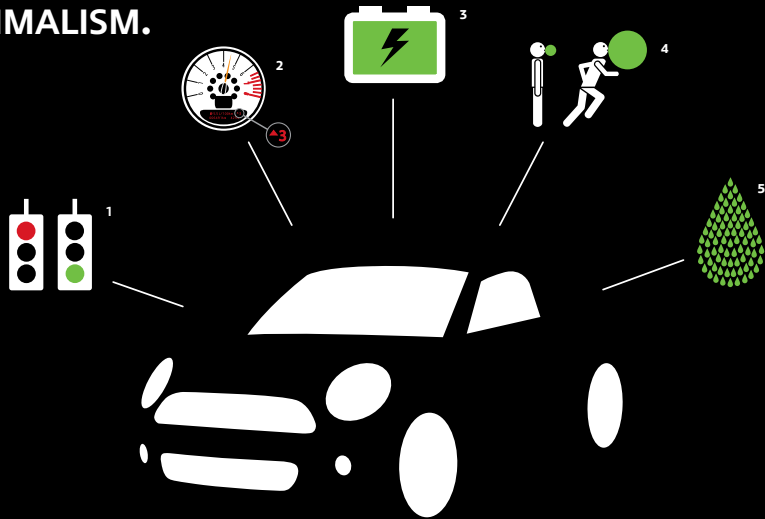

The MINI Convertible, MINI Coupé and MINI Roadster are fitted as standard with four airbags: driver and passenger airbags protect the head and upper body in the event of a head-on collision, while head/thorax airbags in the seats reduce the risk of injuries to the head, chest and abdominal areas from side impacts for the driver and front passenger. As well as protecting against collisions with the dashboard, doors and windows, they also provide a barrier against flying parts.

The MINI Convertible is fitted with an active roll-over protection system made from high-strength aluminium. Discreetly nestled behind the headrests, it deploys in approx. 150 milliseconds should a roll-over occur. The MINI Roadster features two static roll-over bars made of polished stainless steel. Together with the extra-stiff windscreen frames, they protect passengers in the event of a roll-over by creating a survival space. The bars work in conjunction with a wide range of reinforcements to maximize torsional rigidity and create a secure passenger compartment.

Fitted as standard, Dynamic Stability Control (DSC) counteracts incipient loss of grip by intervening in the engine management and applying braking force to individual wheels at the front and rear as necessary. DSC also includes a Hill Start Assist feature. Optional Dynamic Traction Control (DTC), which includes Electronic Differential Lock Control (EDLC), lets you make optimal use of natural over and understeer. EDLC applies braking to the inner wheel if it loses too much grip around a corner, ensuring the car maintains forward momentum through bends and on surfaces with variable levels of grip. At the same time, it enables more torque to be applied to the outer wheel and applies additional corrective braking to the rear axle on bends.

MINIMALISM.

MINIMALISM. LESS IS MORE. This is all about increased driving enjoyment, and reduced fuel consumption. We do this by intelligently combining a range of innovative solutions:

1. THE AUTOMATIC START/STOP FUNCTION means that when the engine is idling – for example, at a red light or in a traffic jam – it is automatically switched off. As soon as the clutch pedal is depressed, the engine is switched back on.

2. SHIFT POINT DISPLAY. This gives instructions in the rev counter showing which gear you should be in to maximise fuel economy, reducing your emissions and your expenditure on fuel.

3. BRAKE ENERGY REGENERATION uses Intelligent Alternator Control to convert unneeded kinetic energy into electricity. When the driver's foot is not on the gas, more energy is diverted to charging the battery than when the car is accelerating.

4. FULLY VARIABLE VALVE TIMING. The fully variable intake valve lift timing increases power output for all petrol engines, while simultaneously improving combustion efficiency.

5. COMMON-RAIL TECHNOLOGY. High-pressure injection at a consistent 1,600 bar and multiple pre-injections ensure the diesel enters the cylinder as a fine mist, which makes the engine run more quietly and improves both output and fuel economy.

THE MINIMALISM ANALYSER. Part of the optional MINI Connected infotainment system, the MINIMALISM Analyser monitors a number of variables to determine how economically you're driving, and gives you advice on how you could use less fuel. After each journey, you can review and compare your driving data with the user-friendly MINI Connected app, and refine your driving style for even greater fuel efficiency.

FINANCE DESIGNED TO PUT A MINI IN YOUR LIFE AND A SMILE ON YOUR FACE.

Eating even the tastiest Victoria sponge all in one go is a bit of a chore – it's much more enjoyable if you tackle it in slices. Same goes for your fab new MINI. With MINI finance you can pay in tasty little bite-size chunks. We know our cars (and our customers) inside out and our three most popular finance deals have been painstakingly devised by the MINistry of Finance to make sure you get the most out of your new or Cherished MINI and your budget.

MINI Select.

MINI's most popular finance product combines attractive regular repayments with flexibility at the end of your agreement.

MINI Hire Purchase.

This one's super-simple – you pay a deposit followed by fixed monthly repayments and at the end of your agreement you become the owner.

MINI Contract Hire.

We will lend you a MINI, so you get all the fun of hitting the road then at the end of the agreement you hand the MINI back to us.

There's a nifty finance solution for everybody, we also offer a range of MINI Insurance Products which will keep you and your MINI well covered.

Speak to the super friendly and brainy finance expert at your local MINI dealership.

* Finance is subject to status and available to over 18's in the UK only (not the Channel Islands or Isle of Man). Advertised finance is provided by MINI Financial Services, Bartley Way, Hook, Hampshire RG27 9UF. MINI of Finance is not connected to or endorsed by any government department.

MINI SERVICE.

EVERYTHING YOU NEED.

Not many people will know your MINI as well as you do. MINI Service Technicians however, share your passion entirely. There's nobody better when it comes to electrics, mechanics, bodywork, paintwork or cosmetic repairs – or when you need to pick up a replacement part. Because you'll soon realise that a MINI like yours deserves nothing less than Genuine MINI Parts.

MINI KNOWS BEST.

Since you can't always think of everything when on the road, your MINI uses its head, too. With the Condition Based Service feature, it automatically reminds you when certain services are due, via the control display. Added to that, with new optional TeleServices, your vehicle provides us with updates independently, to help arrange the support it needs. A built-in SIM card automatically transfers the most important vehicle information to MINI. Your local MINI Service Centre will then contact you to make an appointment if any maintenance is necessary.

MINI TLC.

Why risk any unwelcome surprises down the line? With MINI tlc you can relax in the knowledge that your comprehensive servicing needs are covered for 5 years or 50,000 miles, whichever milestone is reached first. That means that parts, lubricants, labour, a brake fluid change and peace of mind are covered up front.

WE'LL ALWAYS BE THERE FOR YOUR MINI.

Sometimes the unexpected happens and at MINI we believe it's good to be prepared. If you find yourself with a motoring emergency, whether in the UK or in Continental Europe, fear not. MINI Emergency Service is on hand 24/7 for roadside assistance. If one of our specialist roadside technicians can't fix your MINI we will whisk it away to your local MINI Dealer, MINI Approved Workshop or MINI Approved Bodyshop. This ensures only Genuine MINI Parts (installed by trained technicians) find their way onto your MINI. The service doesn't end there. We'll also take care of any replacement vehicle needs, vehicle recovery and re-delivery so it's as hassle free for you as possible.

¹ All figures relate to vehicles with the standard 6-speed manual transmission. Figures in square brackets relate to vehicles with 6-speed Steptronic Transmission.

² All MINI models comply with the EU5 exhaust emissions standard as a minimum. Fuel consumption is determined in accordance with the ECE driving cycle (as defined in directive 80/1268/EEC), made up of approximately one third urban and two thirds extra-urban driving (based on the distance covered). CO₂ emissions are measured separately from fuel consumption. Figures relate to standard-specification vehicles, and may vary significantly where optional equipment (including wider tyres) is fitted.

WARRANTY.

Every MINI is supplied with a 2-year unlimited mileage dealer warranty. (This excludes wear-and-tear parts, such as brake pads.)

Every MINI also comes with a 12-year anti-corrosion warranty, which covers the vehicle against rusting of the body panels. This warranty is dependent on any previous damage to the vehicle body or under body (e.g. stone impact damage, scratches, dents, accident damage or other damage caused by environmental factors) having been correctly repaired in accordance with current MINI guidelines.

The painted surfaces of the car are covered by a 3-year warranty. This excludes any damage to painted surfaces caused by improper treatment or unforeseen environmental factors.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in each vehicle's manufacture are selected because they can be used in the most sustainable and environmentally friendly way possible. That way, every MINI can be efficiently and ecologically recycled when its driving days are finally done. We have been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your MINI dealer will be pleased to advise you on the disposal of your old vehicle, or you can visit www.MINI.co.uk

**DON'T JUST READ ABOUT IT.
TAKE ONE OUT FOR A SPIN.**
