

PEUGEOT BIPPER TEPEE

PEUGEOT

ATTRACT ALL THE RIGHT ATTENTION

Unique style

The Bipper Tepee is a fun, economical family car that is packed with original style. It is both quirky and practical with a compact body, rounded lines and expressive front aspect: small in size but big on possibilities – it is always ready and willing to take the whole family to school, to work or on holiday.

Strong design

The modern, robust design of the Bipper Tepee conveys its bold character from all angles. The headlamps and generously dimensioned lower front panel create a dynamic profile while the low-slung rear bumper and solid side protection strips express the strength of its personality.

Practical and versatile

Compact dimensions (with a length of 3.96 m) combined with dynamic style mean that Bipper Tepee is particularly well suited to urban use, where handling and practicality are priorities. Its width of 1.82 m (door mirrors

folded) gives it the ability to park in even the tightest parking spaces. It's a reliable companion for all the family, whatever the occasion.

PAMPER YOUR PASSENGERS

The Bipper Tepee is extremely driver-friendly, with excellent seat comfort and visibility. The ergonomic and practical central pillar and dashboard mean that it's easy to benefit from the Bipper Tepee's agility in town and dynamism on the open road.

Lots of room in a small space. Ultra-compact yet very roomy, the Bipper Tepee has been cleverly designed to maximise interior space. The practical passenger compartment is comfortable and contemporary

with excellent headroom enhancing the feeling of space and wellbeing inside the car. Plus, rear passengers benefit from a three person bench seat allowing real freedom of movement.

Light and bright The Bipper Tepee's large windscreen and expansive glazing create a light, bright atmosphere that increases passenger comfort and enhances the impression of interior space.

Everything within easy reach. There are 12 storage spaces in the dashboard – indispensable when you're en route to work, going shopping or setting off for the weekend or on holiday.

Spacious seats The Bipper Tepee's seats occupy a mid-height position, halfway between a hatchback and an MPV, making it easy to access the car while ensuring a high

level of comfort. The seats are generously proportioned and contoured to envelop you in comfort throughout your journey.

GREAT FOR EVERYTHING LIFE HAS TO OFFER

A boot that offers even more possibilities

The Bipper Tepee provides maximum space both for passengers and for luggage. The boot, with its flat floor, is extremely accommodating thanks to the rectangular rear section.

Added versatility for a busy life

The Bipper Tepee comes with a three-person fold down rear bench seat, which can be removed to create even more load space, offering a completely flat floor and a capacity of 2.5 m³, making

it very practical for transporting bulky items. Plus, Style versions can carry any additional luggage on roof bars, which are fitted as standard. The Bipper Tepee is equipped with two sliding side doors making it highly practical and easy to access in even the very

narrowest parking spaces. In addition the ingenious design of its tailgate creates a low loading height to make carrying luggage easier.

The rear seats can be folded in a 2/3 1/3 configuration, creating a load space of 884 litres with all the rear seats folded flat.

INTELLIGENT PROTECTION

ABS – Anti-lock Braking System

For optimal braking efficiency, the Bipper Tepee comes with disc brakes at the front, drum brakes at the rear, and an ABS system as standard. ABS monitors any loss of traction or wheel locking in the event of extreme braking. If one of the sensors installed on all four wheels detects the onset of locking on any wheel, the ABS adjusts the braking pressure

to ensure maximum efficiency and maintain the vehicle's manoeuvrability.

Rear parking aid

Rear parking aid is available as a cost option. It activates automatically when reverse gear is engaged and uses visual and audible signals to inform the driver of the distance between the vehicle and any obstacle.

Lighting and signalling

The generously proportioned and elevated front headlamps guarantee excellent performance in lighting and signalling. Fog lamps are standard on Style versions in the upper part of the lower front panel. To accompany the two rear lights, a third brake light is positioned above the tailgate.

Trip computer

In the event of an unusual occurrence the trip computer displays a warning message accompanied by an audio signal and switches on a warning light.

Overspeed alarm

A programmable overspeed alarm transmits an audio signal and switches on a warning light if the programmed speed is exceeded.

Seat belts

The front seats have three-point seat belts with pretensioners and force limiters. In the event of a collision, the pretensioner holds the occupant in their seat and adjusts the seat belt, eliminating any period of latency between impact and locking of the seat belt. The force limiter minimises pressure exerted on the chest by the seat belt.

Structure and dimensions

The Bipper Tepee offers highly sophisticated solutions to protect its occupants in the event of an accident. Its robust structure plays a major role in preserving the integrity of the passenger compartment and the generously proportioned front doors enhance overall rigidity.

Air bags

The Bipper Tepee is equipped with driver and passenger airbags. The passenger airbag can be deactivated for use with a child seat.

PEUGEOT AND THE ENVIRONMENT

Peugeot is a leading manufacturer of low emission vehicles and more than half of its global sales are for vehicles emitting less than 140g of CO₂ per km. This performance is based on proven technology: the Diesel Particulate Filter.

Launched in 2000, and equipped as standard on more than 2.1 million vehicles, it reduces particle emissions by 99.99%. Peugeot has also led the way on other breakthrough technologies including Stop & Start and a new generation of HDi engines.

FUEL CONSUMPTION AND EMISSIONS

	Diesel	
	1.3 HDi 75 Manual	1.3 HDi 75 EGC
Urban (mpg)	49.6	58.9
Extra Urban (mpg)	74.3	76.3
Combined (mpg)	62.8	68.9
CO ₂ Emissions (g/km)	119	107

ENGINES

1.3 HDi 75

Efficient and powerful, the 1.3 HDi 75 engine offers an excellent balance of fuel economy, low emissions and driving pleasure. The FAP Diesel Particulate Filter is fitted as standard to reduce harmful particulate emissions to almost undetectable levels and the gear change indicator on the console display makes it easier to increase your driving efficiency.

EGC Gearbox

Stop & Start versions of Bipper Tepee are equipped with the EGC gearbox because it is particularly suited to urban conditions. This electronically controlled manual gearbox has been designed to maximise fuel economy and improve driver comfort. The driver can select the required gear using the gear selector or allow the car to make the changes automatically.

EGC Gearbox

Stop and Start Technology

The Bipper Tepee offers Stop & Start technology on some of its engines. Quick, efficient and quiet, it limits fuel consumption and CO₂ emissions at every opportunity thanks to the engine stopping whenever the vehicle is stationary and restarting almost instantaneously and without vibration. If necessary the system can be de-activated using a button on the dashboard.

NETWORK AND SERVICES

When you choose Peugeot, you have the reassurance of knowing that your vehicle has been designed and built to give you years of worry free motoring. As a Peugeot owner, you can also rely on the customer care services of your Dealer. This will ensure that you're talking to a specialist who'll listen to you, understand your problems and respond efficiently - someone who also has the expertise to maintain your Peugeot correctly, using trained technicians, Peugeot Diagnostic Equipment and Peugeot Original parts.

FOR YOUR PEACE OF MIND

MANUFACTURER WARRANTY
Any Peugeot Bipper Tepee first registered in the UK and purchased from a UK Peugeot Dealer will benefit from a 2 year unlimited mileage manufacturer warranty and a free optional additional year of warranty (up to 60,000 miles) provided by the Peugeot Dealer Network. At the end of the 3 year warranty period (or after 60,000 miles) you have the option to purchase a Peugeot Platinum Extended Warranty. Our cars also come with a 12 year Anti-Perforation and 3 year Paint Warranty (6 and 2 years on vans). For full terms and conditions on all of these, please contact your Peugeot Dealer.

PEUGEOT ASSISTANCE
All new Peugeots come with 12 months of Peugeot Assistance - our breakdown assistance service. This covers all incidents involving vehicle based faults for you and anyone else driving your car with your permission. It is available 24 hours a day, 365 days a year. Peugeot Assistance includes European cover, homestart, roadside assistance, vehicle recovery and a free replacement car or accommodation if required. It can be extended for a further 12 months, or 24 months, and to protect you against non-vehicle faults (such as punctures) at specially discounted rates, by calling 0870 752 7050.

PEUGEOT SERVICE CARE
Please refer to the maintenance book for details of the service intervals for Bipper Tepee and the specifics of vehicles operating in arduous conditions.

FINANCE - LET THE SPECIALISTS HELP
Peugeot Financial Services offer a range of flexible finance plans to make owning a new Peugeot easy. As specialists, we will provide choice, convenience and flexibility. Written quotations are available on request from Peugeot Financial Services, Quadrant House, Princess Way, Redhill, RH1 1QA. Over 18s only, a guarantee may be required.
