¹ For full details of fuel consumption and costs included in the OTR (On the Road) package, ask your Van Centre. Dimensions as detailed in the Amarok brochure.

² Unladen weight figures are calculated with 100% fuel load and no driver.

³ Payload = gross vehicle weight – unladen weight. The published payload figure is based on a standard specification vehicle. It does not include any optional equipment. Optional equipment will reduce the payload from the published figure and impact on the axle load limits.

Care must be taken to ensure the vehicle is not overloaded and, in this regard, customers should consider the weight of any optional equipment when calculating axle loads.
