01

WE'RE VOLVO. WE PUT PEOPLE FIRST.

*“What can we do to make
this person’s life better, easier or
more comfortable?”*

We're Swedish. Scandinavian designers always start with the person who's going to use an object and ask, "What can we do to make this person's life better, easier or more comfortable?" We've always used this philosophy when we design our cars. So, while other car manufacturers might start with technology and try to squeeze people in around it, we begin by designing our cars around you. We ask what you need, and then use our technical skills to make your life easier, better, safer and more beautiful. Form follows function, and when you design a car inside and out with people in mind, it looks naturally beautiful. We think that looking at and interacting with our cars should make you feel great, every day.

Designing cars around people has led to many innovations over our 86-year history. The three-point safety belt in your current car? That was our invention from 1959. And we hope that one day, every car will have a device to protect people on the outside of the car, like the Pedestrian Airbag we premiered in 2012. We've solved a few environmental issues, too – in 1976, we developed the Lambda Sond – a sensor that monitors exhaust gas, reducing emissions and boosting performance as well as economy. It's still part of every petrol-engined car in the world.

Innovation is at the core of Volvo. Perhaps it's because of where we come from.

In Sweden, great
design is a way of life,
not a luxury.

For such a small country, we've produced more than our share of creative talent. That's because we know that to be truly creative, you've got to believe in yourself and do things the way you know they should be done, regardless of what others are doing.

Take our seats. In the early 1960s, we consulted with a team of orthopaedic surgeons at Chalmers University of Technology in Gothenburg. They wondered why a group of car designers wanted to see them. Nobody had thought to ask an orthopaedic surgeon's advice when designing a car seat before. But the ergonomic seat designs we developed as a result have made our cars world-famous for their outstanding long-distance comfort.

Like all Scandinavian craftsmen, we use only the best materials for the job, like the ultra-strong boron steel in our safety cages. We use natural, authentic materials inside our cars – not because they're fashionable this season, but because they make you feel good when you touch them and they're better for your health.

Creating a beautiful experience for you is natural for us. Because in Sweden, great design is a way of life, not a luxury.

WHY GIVE UP THE THRILL OF DRIVING JUST BECAUSE YOU NEED TO CARRY STUFF?

*"It's for people who need the versatility
of an estate but want the advanced handling
of a modern sports car."*

The new V60 is designed to fit in with your life, whatever you're doing. It's for people who need the versatility of an estate but want the advanced handling of a modern sports car. That's why we call it a sportswagon. So, as well as having all the comfort and space you'd expect from a Volvo wagon, this is a true driver's car – and you'll know what we mean if you're the kind of person who prefers to take the long way home from work to put a smile on your face at the end of the day.

For 2013 we've boosted the car's handling, design and controls with a comprehensive series of updates that'll have you searching for any excuse to get behind the wheel. And even when you're not driving, the V60 will still bring a smile to your face with its looks – our designers have emphasized its road-hugging stance and made its face a little tougher and more self-confident, while still retaining the clean, contemporary Scandinavian design that made the V60 such a success right from its launch.

The best way to enjoy the stiffer chassis and direct steering of our V60 R-Design is to take a test drive.

FIND YOUR NEAREST DEALER AT
VOLVOCARS.CO.UK

It's not your usual wagon.

It's all about how you drive – with the Four-C chassis, you get to choose between three different modes. Comfort and Sport are self-explanatory; Advanced really optimises your car's grip. And you can change between modes at any time at the push of a button.

READ MORE AT VOLVOCARS.CO.UK

We've worked hard to combine our V60's versatility and load-carrying capability with natural driving dynamics so that – like its sister, the S60 saloon – it responds faithfully to your desires.

When you accelerate out of a tight corner, for example, your V60 will follow the path you choose with almost telepathic accuracy. A good chassis is the essential foundation for this, and you can choose from three types according to your preferred driving style: Dynamic, Four-C and R-Design Sport chassis.

Meanwhile, at the heart of our V60's versatility is its intelligent

seating. The rear seats can be easily folded down in 40/20/40 segments to supplement the rear 430 litres of load space. And parents will love the two-stage integrated booster cushions for children: they fold out of the rear seats, ensuring that kids who've outgrown their child seats are at the correct height for their seatbelts to work effectively.

V60

OUR DESIGN VISION

volvocars.co.uk

09

HOW DO YOU MAKE A BEAUTIFUL WAGON? BY DESIGN.

The V60's looks tell you this car is a beautiful combination of versatility and performance. In particular, our designers have made the roof sweep down and the rear windows taper – so the overall effect is to make it appear more like a coupe. Meanwhile, new, scalloped surfaces on the bonnet accentuate the classic Volvo V-shape with a purposeful “frown” running right down to the headlamps.

The car has a beauty that – as with much of contemporary Scandinavian design – is rooted in the natural world. “Those clean surfaces and contours give it a very

Scandinavian feel,” says our senior exterior designer Peter Reuterberg. “The way surfaces build up and then change shape is inspired by snowdrifts in the Swedish countryside – it’s a combination of soft forms and sharp breaks.”

Scandinavian design also means putting people first – which is exactly the philosophy behind our gorgeous interior. The seats are a good example of this. They have always been a Volvo strength and now, with the V60, we’ve been able to combine the usual high level of comfort with making them even sportier, as befits a true driver’s car.

Scandinavian design is about attention to detail and craftsmanship: you can order your new V60 with beautifully crafted integrated tailpipes. Inside, our sport seats have great side support all the way from your thighs to your shoulders, so they keep you firmly in position – even when you’re cornering fast.

FULL SONIC IMMERSION

At Volvo, we believe you should enjoy the very best audio experience. That's why we've designed our state-of-the-art Sensus Connect with Premium Sound by Harman Kardon®. Using 12 high-fidelity loudspeakers the amplifier is equipped with Dirac Live®, the next generation sound enhancement software. With an incredibly realistic stage sound as well as enhanced bass performance, this sound system provides an unparalleled aural experience for every passenger and connects easily with external media players.

Our beautifully designed, high-res colour display allows you to choose between three driving modes for your Adaptive Digital Display and centre screen – Elegance, Eco and Performance.

V60

SENSUS

Read more at
volvocars.co.uk

11

Volvo Sensus. You're in control, naturally.

Since you'll spend most of your time in the driver's seat of your Volvo, we've designed a gorgeous space around you. All of your controls are as easy to use and intuitive as possible. We call this approach to connecting you and your car with the world around you – Sensus.

Our beautiful Adaptive Digital Display is the latest expression of this philosophy. Not only does it give you all the information you need without overwhelming you with data, it also gives you three background modes to choose from – Elegance, Eco, and Performance. Best of all, the display modes sync with the 7-inch centre screen in your dashboard. As you adjust your display theme, the colour scheme of your centre screen changes with it.

And there's more: with our Sensus Connect solutions, you can convert the 7-inch screen in your dashboard into an internet-connected infotainment hub, giving you access to TuneIn internet radio with 100,000 stations worldwide as well as a range of useful and fun web-apps. Add Sensus Navigation, and you get instant access to worldwide maps. As part of our MapCare program, free map updates are included to guarantee you the latest available and up to date navigation experience. And with 3D-navigation finding your destination will be easier than ever. The Sensus experience is at its best when you bundle Sensus Connect and Sensus Navigation with Volvo On Call.

Volvo On Call gives you 3G-connection with excellent reception by making use of your car's integrated rooftop antenna, which means you can create a Wi-Fi hotspot for all of your internet-connected devices. Volvo On Call also includes our innovative smartphone app that you can use to remotely control your car. Whether you're still inside your home on a

cold morning, or at an airport on the other side of the planet, the Volvo On Call app will soon become your daily connection with your car: you'll use it to send an address to your navigation system, check your car's fuel level and location and much more.

But we wouldn't be true to our Swedish design values if we only created beautiful displays, screens and apps. True to our passion for sculpting physical objects, we've put the same amount of care into your Volvo's physical controls, such as our iconic floating centre stack with the

trademark 'manikin' climate control buttons. And after dark, our eye-catching illuminated gearshifter for automatic gearboxes adds a touch of atmosphere to your night drives.

volvocars.co.uk

12

OH YES. DID WE MENTION SAFETY?

“Cars are driven by people,” they said, “so the guiding principle behind everything we make at Volvo is – and must remain – safety.”

In 1927 our founders, Assar Gabrielsson and Gustaf Larson, decided to make really strong cars that could cope with our rough country roads. But strength alone wasn't enough. They also had a vision: “Cars are driven by people,” they said, “so the guiding principle behind everything we make at Volvo is – and must remain – safety.” Now our goal is that, by 2020, nobody shall be seriously injured or killed in a new Volvo. We think our founders would have approved.

In order to help us achieve this goal, and in keeping with our philosophy of making your life easier, your V60 has a whole suite of intuitive safety technologies inside it. They're there to support your daily driving, protecting you in

the event of an accident and often preventing collisions in the first place. We call this IntelliSafe.

We know V60 owners love driving, but in a world of busier and busier roads, you are constantly exposed to other people's mistakes. You've always expected Volvos to be safe in the event of a crash, but IntelliSafe goes beyond that. It's our complete approach to safety and includes some really smart technologies such as City Safety and Collision Warning with Full Auto Brake, Pedestrian Detection and Cyclist Detection.

Our Lane Keeping Aid is also there to help you stay in your lane by applying steering torque when the car gets close to a lane marking and is potentially about to leave it.

It's good to know that your V60 doesn't just protect you – it actively supports you, too. Take Active High Beam. With this system, your headlights stay on full beam all the time. When another car comes towards you (or when you approach a car from behind), the system prevents dazzling the other driver by shading out exactly as much of your beam as necessary. Our Electronic Stability Control (ESC) is another IntelliSafe technology. If there's a risk of your V60 losing stability, ESC applies just the right amount of brake force to one or more wheels and reduces engine power as needed to prevent any skidding. You'll probably never notice a thing. But that's OK, we're just doing our job.

In town, City Safety is designed to prevent you from colliding with the car in front if it stops suddenly. This advanced IntelliSafe system works at speeds of up to 31 mph and senses if you're about to collide with another car, then, if necessary, applies the brakes.

We've further improved our Blind Spot Information System (BLIS). It now uses radar technology to alert you to vehicles closing up in your blind spot. There's also Cross Traffic Alert, which watches out for vehicles you can't see when you're reversing out of tight parking spaces.

Because we care about other road users just as much as you, Pedestrian Detection with Full Auto Brake watches out for people walking into your path and applies the brakes if you're unable to react in time.

V60

DRIVE-E

Read more at
volvocars.co.uk

14

Drive-E is at the heart of every Volvo we make. It's our all-encompassing approach to sustainable driving, our innovative thinking behind a whole range of technologies that will give you more efficiency – and lower running costs – without compromising on a pleasurable drive.

The latest expression of our Drive-E philosophy is our range of all-new low-consumption, low-emission Drive-E powertrains. Built to provide efficient power, they consist of all-new lightweight, low-friction engines and all-new gearboxes. For the V60, the choice ranges from the 2.0-litre turbodiesel D4 with CO₂ emissions of just 99g/km* to the T6 306 HP petrol option. These compact engines are perfectly matched with an all-new, innovative automatic eight-speed gearbox. Together, engine and gearbox form a drivetrain which delivers a great driving experience and even better efficiency than before. And if you'd like to boost your efficiency even further, our intelligent ECO+ function can help reduce fuel consumption.

As part of our Drive-E philosophy, we also employ Start/Stop technology and energy recovery systems. Drive-E also means recyclability and more sustainable manufacturing – for example, all of the electricity for our factory in Sweden comes from clean, hydro-electric power. All this makes Drive-E a central part of everything we do.

*Fuel consumption and CO₂ emissions figures apply to manual cars and limited selection of wheels and tyres.

DRIVE-E

WE THINK SUSTAINABLE
DRIVING IS EXCITING.
SO WILL YOU.

SMART POWER FOR CLEVER PEOPLE.

We don't think that being environmentally aware should mean you lose the thrill of driving. Our V60 Diesel Plug-In Hybrid does 0-60 mph in 5.9 seconds yet emits just 48g/km of CO₂*. It's got three driving modes: Pure uses just its electric engine, emitting zero CO₂; Hybrid uses the diesel and electric engine and should give you fuel

consumption of 157 mpg; Power gives you both engines at full capacity – putting out a very impressive 215+68 horsepower and, of course, four-wheel-drive (the diesel motor drives the front wheels while the electric drives the rear).

*NEDC Hybrid driving cycles.

V60

VOLVO V60 DIESEL
PLUG-IN HYBRID

Read more at
volvocars.co.uk

17

Connect the V60 Diesel Plug-In Hybrid to your home's electricity supply and depending on your power supply, you'll get a full charge in 3.5 to 7.5 hours. When driving, you can choose from three modes (PURE, HYBRID and POWER) to suit your location and your mood.

TO FIND OUT MORE ABOUT THE V60 PLUG-IN HYBRID, GO TO **VOLVOCARS.CO.UK**

Are you looking at me? Good.

Would you like to enhance the dynamic personality of your V60 even further? Well then, R-Design is for you, with a range of features to give your Volvo a sporty, unique profile.

But R-Design is so much more than a cosmetic exercise – as with the all best Scandinavian design, form follows function. An R-Design V60 benefits from a stiffer sport chassis and more direct steering – meaning you'll enjoy the thrill of driving your V60 even more.

V60

R-DESIGN

Read more at
volvocars.co.uk

19

For an exterior with a more individual, sporty look, R-Design offers gorgeously sculpted alloy wheels and unique door mirror covers with silk metal finish. At the back, a motorsport-style diffuser enhances your car's dynamic presence, while the R-Design chrome dual exhaust pipes add the perfect finishing touch to your V60's exterior.

The R-Design story continues in the interior, starting with supportive sport seats in Nubuck textile and leather. Also included is an exclusive R-Design steering wheel as well as sport pedals. An illuminated soft-touch gear shifter for automatic gearboxes, our unique blue R-Design digital instrument cluster and personalised interior LED lighting all add to the R-Design experience.

21

EXPERIENCE A HUMAN CHALLENGE. AT THE COMFORT OF A VOLVO.

*"To finish first,
first you must finish."*

Imagine a merciless 70,000 km trip across the oceans for nine months, to endure 10-meter waves, blistering 40 knots storms and unrelenting discomfort 24 hours a day. Living at the mercy of nature's powers, totally depending on your skills, your gear and your teammates. Facing the most extreme physical and psychological conditions, testing the human abilities to the limit. To constantly being thrown between hope and despair, knowing that a single error might wipe out years of preparation in an instant.

Well, we guess this is quite far away from your everyday life (unless you're a crew-member on any of the participating boats of the Volvo Ocean Race, of course). Good news is there's a way for you to share pieces of this epic race – even during the not-so-challenging commuter moments you're stucked somewhere between A and B.

As a tribute to the courageous men and women on-board the hi-tech Volvo Ocean 65 vessels, we created the Volvo V60 Ocean Race Edition – a V60 featuring some very special design elements to catch up the spirit of a very special human challenge.

You'll notice it already from the outside: the unique Ocean Blue II exterior colour, the specially-designed 18-inch Portunus wheels (named after the God of ports), the roof rails and the bright chrome window frames. And safely on-board, you and your crew will find yourselves surrounded by a meticulously crafted sporty-techy interior featuring details such as leather seats with contrasting orange stitching, a unique Volvo Ocean Race deco inlay, Volvo Ocean Race textile mats and a load cover with a printed route map. So while you enjoy the all-road comfort of your Volvo, you'll be reminded of one of the most challenging adventures on the planet – the one around it.

WHICH V60 ARE YOU?

Congratulations, you've chosen a Volvo V60. When you've picked your preferred engine, all you need to do is select the trim level that's right for you. Whether you'd like all the trimmings or a sporty look both inside and out, we have the right one for you.

BUSINESS EDITION

The Business Edition comes with all the features you would expect from Volvo. Beyond the innovative City Safety technology, LED day running lights, 16" alloy wheels, ESC (Electronic Stability Control) system and rear park assist, the Business Edition offers electronic climate control, cruise control, a DAB (Digital Audio Broadcasting) Radio and Sensus Navigation with 7" colour display screen and Bluetooth®.

R-DESIGN LUX

The R-Design Lux is the ultimate variant and includes active bending xenon headlights with headlight cleaning system, autofolding power door mirrors with ground lights, rain sensor and rear park assist. The added features on the inside include a grocery bag holder, power adjustable driver's seat with memory for seat and exterior mirrors, autodimming rear view mirror and a high performance audio sound system with Bluetooth®.

SE

The SE offers a range of innovative features including an automatic rain sensor, autofolding power door mirrors with ground lights and an integrated grocery bag holder. The interior benefits from T-Tec/Textile upholstery and aluminium trim whilst the exterior provides 17" alloy wheels and chrome window surrounds.

VOLVO OCEAN RACE EDITION

The Volvo Ocean Race Edition includes 18" Portunus alloy wheels, roof rails, chrome window surround, unique tread plates and Volvo Ocean Race emblem on front fender. The interior is complemented with a Volvo Ocean Race logo on the front seats, unique floor mats, leather upholstery with a sailing inspired sporty look, unique inlays and a luggage cover with a printed Volvo Ocean Race route map.

SE LUX

Our most luxurious variant is the SE Lux. Above and beyond SE specification, the SE Lux has leather-faced upholstery, an active TFT crystal driver's information display, power adjustable driver's seat with memory function, and active bending xenon headlights with headlight cleaning system.

NAV

All Volvo V60 Nav models include Sensus Connect* with High Performance sound and voice activated control, a 7" colour display screen, DVD player, internet and music browsing and a Sensus Navigation system. As well as full European mapping, lifetime map updates are included.

* A separate mobile data plan is required to enable online connectivity.

R-DESIGN

18" Ixion alloy wheels together with the R-Design chassis enhance the handling of this model. Visual presence is complemented with silver matt door mirrors, unique rear exhaust pipes, together with front sports seats with side support, R-Design upholstery, aluminium interior trim and R-Design leather steering wheel. A DAB (Digital Audio Broadcasting) Radio and Bluetooth® also come as standard.

V60

PERSONALISE
YOUR INTERIOR

Read more at
volvocars.co.uk

24

Your V60 is your
home away from home.
Give it your signature.

Choose a V60 and you'll enjoy an elegantly designed cabin as standard, with a superior finish in evidence everywhere you look – from the silk metal finish on our air vents to the fine cloth surfaces on the door pillars.

Our Comfort seats can be ordered in Mellbystrand textile, Tylösand T-Tec/textile or leather, while our new R-Design Sport seats in leather give you legendary Volvo comfort while also keeping you firmly in place in those fast corners. And for added control, our optional

gearshift paddles allow you to change gears with the flick of a finger, so you never have to take your hands off the steering wheel while driving. It's a great feature for added control. You can go one better by choosing our heated steering wheel, which lets you gently warm your hands on cold winter mornings. And with our heated windscreen, you'll never have to stand outside scraping ice off the glass in the freezing cold. Once you're in the driver's seat, you'll appreciate the brand new easy-to-read Analogue Instrument Cluster or, if you prefer, our new Adaptive Digital Display.

33

Convertible child seat (9–25 kg). This advanced, flexible rearward-facing child seat is suitable for children aged 9 months to six years. It's fitted using the car's safety belt and is easily adjusted to help optimise comfort and safety.

Roof load carriers. These specially designed load carriers fit neatly and securely onto your Volvo's prepared roof rails. They're easy to install and to combine with additional holders if required.

Park Assist Camera, front blind view. There is nothing more challenging than trying to negotiate tight exits and junctions, which often have restricted visibility. We aim to make that easier for you with our Park Assist Camera, front blind view, which allows you to "see around corners" with a 180° field of vision to the left and right in front of you.

Rear Seat Entertainment multimedia system with two 8-inch touch screens and two players. Rear seat passengers will enjoy their journey as never before with our new generation entertainment system, with LCD touch-screens served by dedicated DVD players. Inputs for USB sticks, SD cards and mp3-players as well as AUX inputs ensure you can connect any other external source. Wireless headphones and one remote control are included, too.

Roof-mounted bicycle holder. A practical and stable holder for carrying your bike on the roof. Easy to use, this holder offers great value for money. It fits most bikes with round or oval frames up to 70 mm in diameter. And you can lock it using Volvo's One Key System.

MY VOLVO

My Volvo is a personalised website designed to make everything about your car ownership as convenient and rewarding as possible. It gives you:

- A clear overview of your car ownership
- Personalised offers
- Relevant news and updates
- Direct access to your Volvo dealer
- Online service booking
- Useful information about driving and caring for your car
- Interesting articles and videos from the world of Volvo

CONNECTED SERVICE BOOKING

Forget about your car service. Your Volvo remembers it for you.

No other car makes it so simple for you. With Connected Service Booking, which is available with Sensus Connect, your Volvo reminds you when it needs servicing. When the time comes to drive to your workshop, your Volvo will even guide you there using sat nav – you don't have to do anything. And since your Volvo tells us what it needs, we can make sure that it gets exactly the right maintenance when it gets there. Of course, you can also manage your bookings yourself, if you prefer. You can either do this when you're in the car or online using your My Volvo – your personalised website designed to make everything about your car ownership as convenient and rewarding as possible.
