PEUGEOT

TO EXPLORE
TO SHARE
TO ENJOY

Peugeot 5008 has been designed for sharing: its elegant design, flexibility, spacious interior and ergonomic driving position, mean that everyone will enjoy the journey.

STYLE

Peugeot 5008 is a compact MPV which benefits from a stylish yet practical design. Its updated front face shows off Peugeot's characteristic style, with the specific light signature contributing to its elegant appearance and superb visibility provided by the large expanse of glazing.

EMOTION

See the world differently and share new experiences on board Peugeot 5008. The elevated driving position and large windscreen make you feel instantly relaxed and confident.

The steering wheel is specially angled to create a level of comfort that you would expect from a saloon and the ergonomic driving position places all of the controls within easy reach.

REDISCOVER THE ROAD

Whether you are on a short trip with friends, driving around town or going on a long journey, Peugeot 5008 encourages you to fully enjoy the road.

Peugeot 5008 combines sleek design with exemplary road holding that provides a saloon-worthy driving experience, while benefiting from all the freedom and comfort of a compact MPV.

ADMIRE THE VIEW

Spacious and compact: Peugeot 5008 will open your eyes. The panoramic cielo glass roof* and expansive windscreen create an exceptional feeling of luminosity and space for increased passenger comfort.

The interior includes several storage compartments: a large 10.5l ventilated storage compartment in the central console, double cup holder, additional glove box compartment under the steering wheel, generous door pockets, additional storage compartments in the footwells of row 2* and adjustable boot fittings in row 3*.

Aviation style tables* are fitted to the seat backs and the Peugeot Connect Video Pack is available as an option, to make journeys even more enjoyable. This multimedia system is perfectly integrated in the passenger compartment with 7" colour screens in the driver and passenger headrests, auxiliary port to connect an external DVD or games console and two Bluetooth headsets included.

*Unavailable, standard, or optional according to version.

FEEL FREE

Peugeot 5008 adapts to all of your needs and has 7 seats as standard. You have the freedom to rearrange the seating configuration and luggage space as required to suit all of your business and leisure activities.

The boot volume ranges from 823 litres when in 5 seat configuration to a generous 2506 litres of luggage space when the seats in rows 2 and 3 are folded flat*. The front passenger seat also folds flat* to create additional storage space without having to remove any seats.

*Standard or optional according to version.

INNOVATIVE TECHNOLOGY

Distance Alert®*

This equipment helps you keep a safe distance by informing you in real time of the space that separates you from the car in front.

*Optional according to version.

Parking space measurement system and reversing camera*

Forget the stress of difficult parking spaces: the parking space measurement system* assesses the size of the potential parking space and informs you whether or not it is possible to park in the available space. It also evaluates the level of difficulty of the manoeuvre. This function is linked to the front and rear parking aids*, which use visual and audible signals to inform the driver of the distance between the vehicle and any obstacle.

The reversing camera* automatically activates when reverse gear is engaged and allows the driver to view the area behind the vehicle on the touch screen while the manoeuvre is taking place.

*Unavailable, standard or optional according to version.

Electric parking brake and Hill Assist*

The electric parking brake is automatically applied when the engine is switched off and releases automatically on acceleration. It incorporates the Hill Assist function, which immobilises your vehicle for a short time (approximately two seconds) during a hill start, the time it takes to move from the brake pedal to the accelerator pedal.

*Unavailable, standard or optional according to version.

Colour head up display*

The head up retractable colour screen is controlled by easy to use toggle switches and displays essential driver information including: speed, cruise control with speed limiter and Distance Alert®*. All of this information is visible without having to take your eyes off the road.

*Unavailable, standard or optional according to version.

Audio and telematics

Peugeot 5008 offers a range of audio equipment and telematics: Peugeot Connect RD4 stereo radio / mono CD player with MP3 playback, Peugeot Connect USB with Handsfree Bluetooth kit*, Peugeot Connect Navigation (RT6) with Colour Satellite Navigation & Bluetooth*. This last system comes with a 7" colour screen, which allows you to listen to music, make phone calls and be guided to your destination at the same time.

*Unavailable, standard or optional according to version.

Peugeot 5008 offers several driver aids that make your driving experience more intuitive and safe.

PEUGEOT AND THE ENVIRONMENT

Peugeot is a leading manufacturer of low emission vehicles and more than half of its global sales are for vehicles emitting less than 140g of CO₂ per km. This performance is based on proven technology, Peugeot 5008 benefits from this with excellent BlueHDI & Puretech engines, all of which are EuroVI compliant.

BLUEHDI

BlueHDI is the name given to Peugeot's latest generation of diesel engines. The result of a world-famous diesel heritage plus innovation and engineering excellence developed on the race track of Le Mans, BlueHDI complies with Euro 6 emission standards, to deliver exceptional fuel economy and CO₂ emissions alongside a driving experience rich in power and performance.

A three stage cleansing process specifically targets the pollutants of diesel combustion, removing hydrocarbons and carbon monoxide, reducing nitrogen oxides by up to 90% and eliminating 99.9% of particulates. BlueHDI delivers the cleanest diesel engine.

PURETECH

Peugeot PureTech is advanced 3-cylinder petrol engine technology that offers a drive and performance normally associated with much bigger engines but with significantly improved fuel consumption and CO₂ emissions.

It's a product of Peugeot's 100 years of intelligent, innovative engineering and combines reduced weight materials with the efficiency of applying direct fuel injection to three cylinders. Winner of the 'International Engine of the Year Award 2015' in the 1.0 - 1.4 litre engine category.

GEAR SHIFT INDICATOR

The optimal moment to change gear is indicated on the display panel in order to improve fuel consumption.

*18" wheels

The fuel consumption detailed in the table above corresponds to the values approved following European regulations, applicable to all manufacturers and to all cars sold in Europe. These values allow you to compare vehicles and inform your choice.

Urban consumption is obtained over an approximate 4km course of urban type driving.

Extra Urban consumption is obtained over an approximate 7km course of extra urban type driving.

Combined fuel consumption is an average of the two courses, over an approximate course of 11km.

These values are obtained under strict test conditions (temperature, mass, characteristics of roller test bench, etc) and a very steady driving profile. Real traffic conditions, weather conditions, driving style, tyre pressure, extensive use of air conditioning and/or heating and vehicle condition can lead to a variance of consumption different from those approved.

SAFETY

The safety equipment in Peugeot 5008 allows you to have confidence in your car, without diminishing your responsibility as the driver.

CRUISE CONTROL WITH SPEED LIMITER

Cruise control with speed limiter is available on Peugeot 5008. Cruise control will allow you to maintain a constant speed while the speed limiter will allow you to programme a maximum speed that cannot be exceeded.

AIRBAGS

In the case of a collision, 6 airbags will protect occupants : two front airbags (with passenger deactivation switch for use with a child seat), two side airbags and two curtains airbags.

INTELLIGENT TRACTION CONTROL

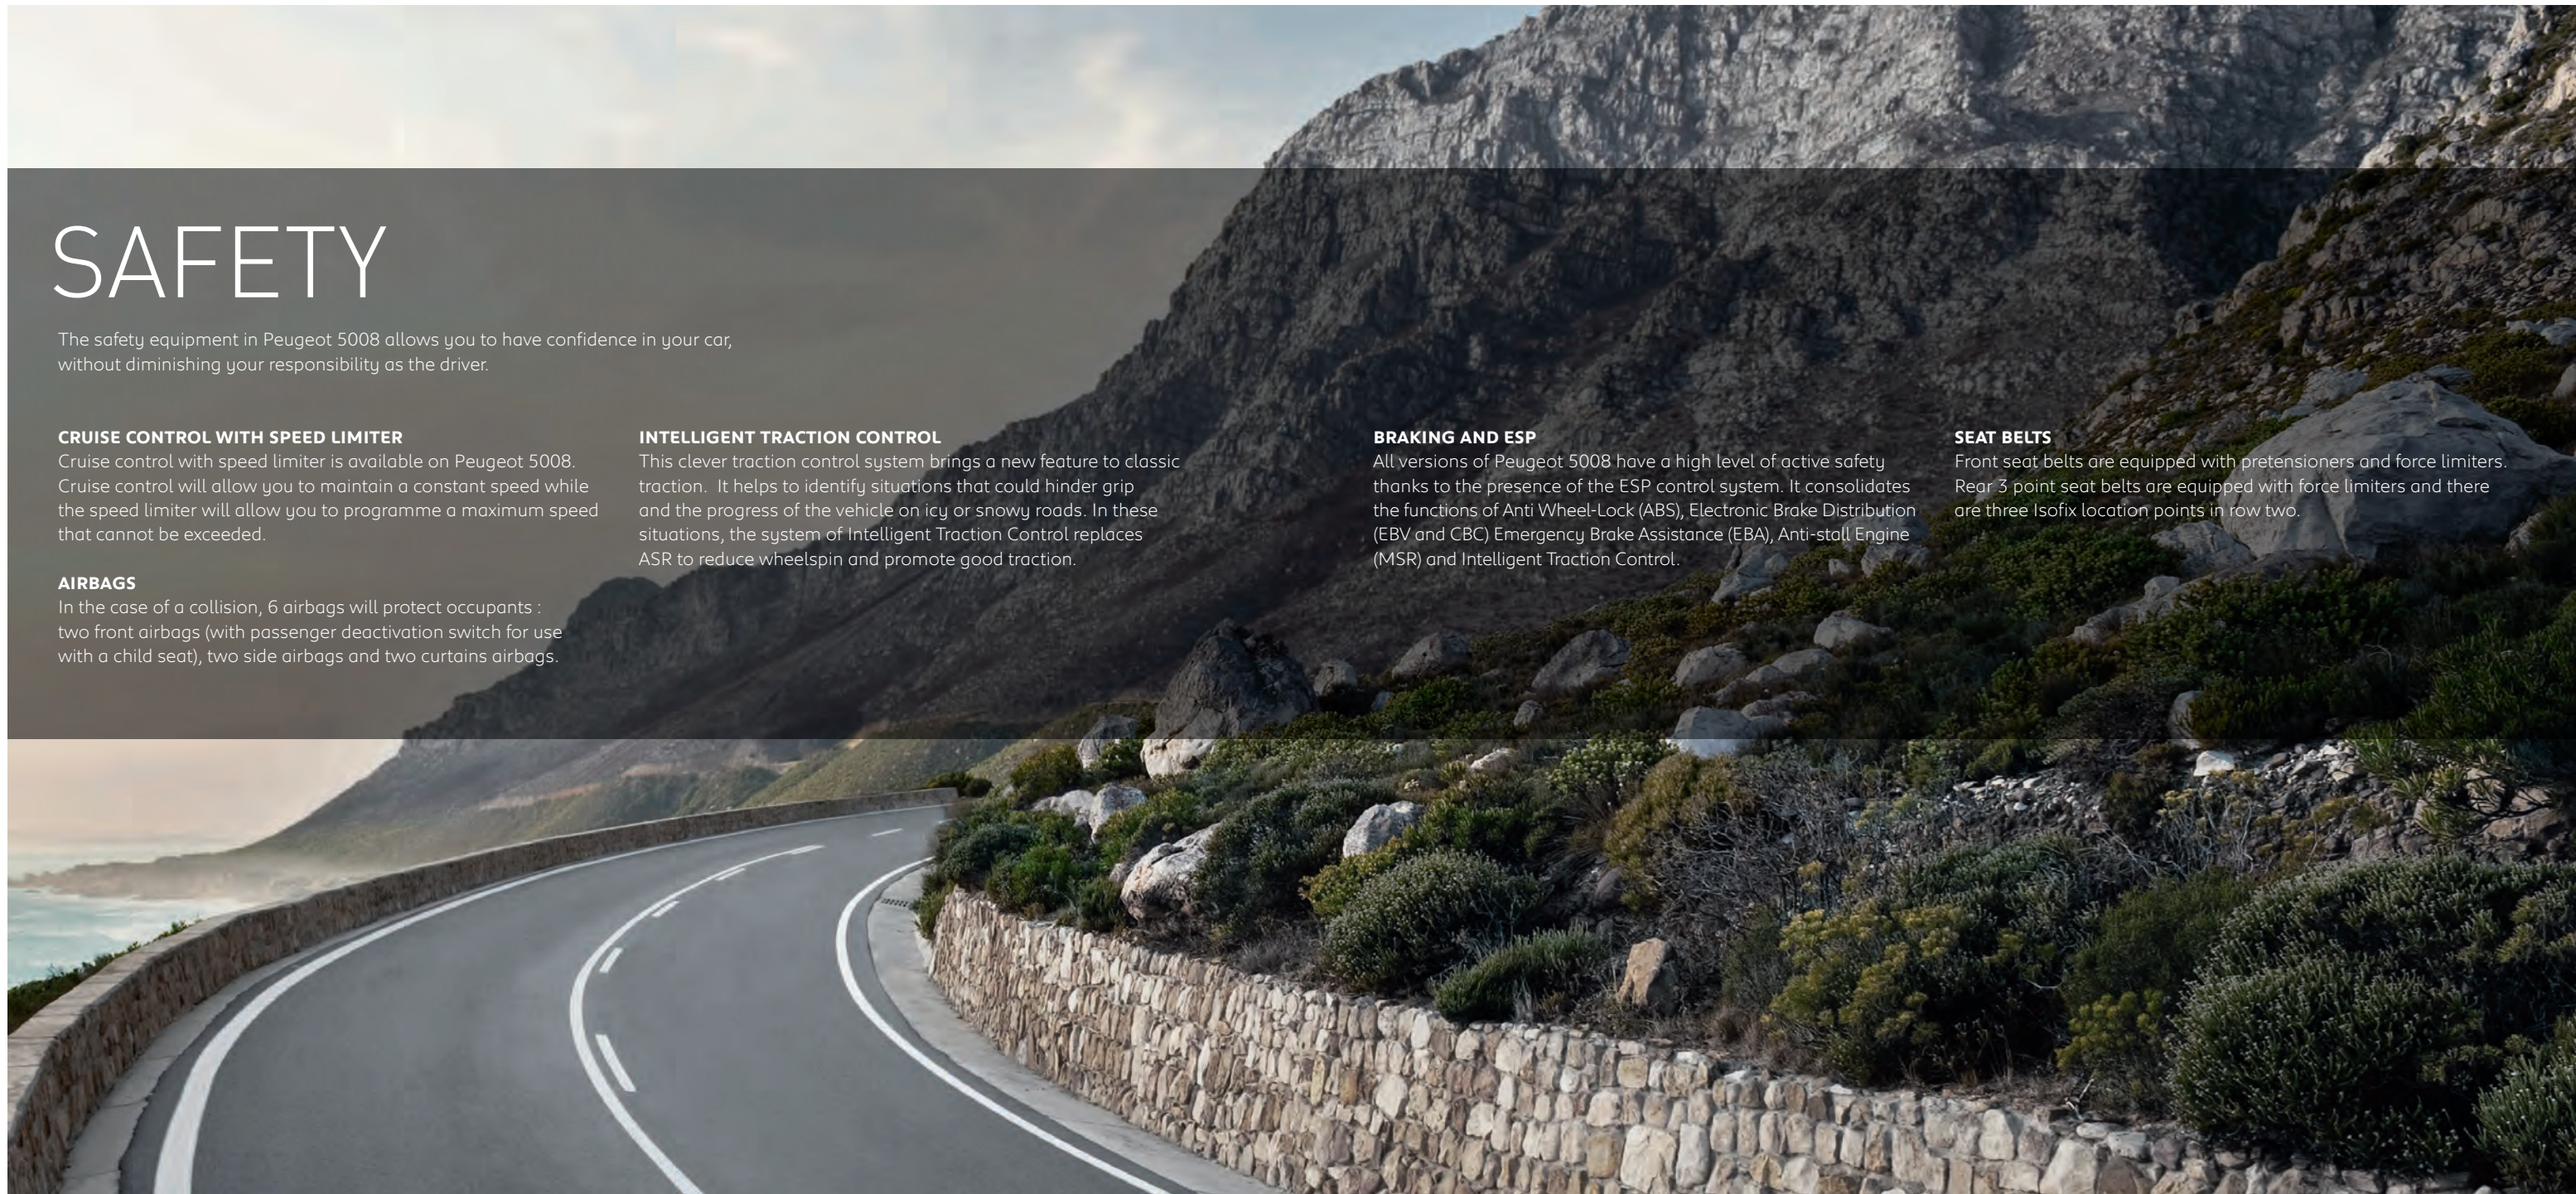

This clever traction control system brings a new feature to classic traction. It helps to identify situations that could hinder grip and the progress of the vehicle on icy or snowy roads. In these situations, the system of Intelligent Traction Control replaces ASR to reduce wheelspin and promote good traction.

BRAKING AND ESP

All versions of Peugeot 5008 have a high level of active safety thanks to the presence of the ESP control system. It consolidates the functions of Anti Wheel-Lock (ABS), Electronic Brake Distribution (EBV and CBC) Emergency Brake Assistance (EBA), Anti-stall Engine (MSR) and Intelligent Traction Control.

SEAT BELTS

Front seat belts are equipped with pretensioners and force limiters. Rear 3 point seat belts are equipped with force limiters and there are three Isofix location points in row two.
