>> FOR more  
**agility**

< The tiniest turning circle thanks to the new Direct-Steer system with variable ratio.

^ smart cross connect is an innovative infotainment app allowing you to control all audio and navigation functions.

### Crosswind Assist

Sudden gusts of wind can lead to tricky situations, especially when overtaking a large vehicle. Crosswind Assist detects deviations from line and brakes individual wheels.

### Forward collision warning

Forward collision warning is an attentive assistance system that can help to prevent rear-end collisions. If the distance to an object becomes too close you receive a warning.

### Lane-Keeping Assist

Lane-Keeping Assist uses a camera to monitor the road ahead and emits an acoustic and a visual signal if the car unintentionally strays out of lane.

### Five airbags

Five airbags protect the occupants of the new smart: driver and passenger airbags, head/thorax bags and a kneebag for the driver.

### The Premium Plus Package includes:

- > Ambient mood lighting in the interior
- > Coming home function
- > Front fog lamps
- > Headlamps with LED light guide and LED tail lights
- > Heated and electrically adjustable mirrors
- > Height-adjustable driver's seat
- > Height-adjustable steering wheel
- > Rain/light sensor
- > Rear parking assistance
- > Rear view camera
- > smart Media system with 7" multi-touch display, AUX/USB interface, voice operated control, Bluetooth® interface with handsfree system, audio streaming for music and navigation system
