

ALL-NEW PEUGEOT 5008 SUV

PEUGEOT

Welcome to the world of PEUGEOT, a world of innovative French manufacturing tradition. Our journey started over 200 years ago with a steel foundry producing a diverse range of products from coffee grinders to saws. Our pursuit for innovation led to the production of our first motorised vehicle in 1889, the Serpollet-Peugeot – a steam-powered

three-wheeler. Our quest for perfection is what drives us, just as it did over 200 years ago. All of our expertise gained through the years has led to this point, introducing all-new PEUGEOT 5008 SUV, the third PEUGEOT SUV to launch in the UK, over 200 years in the making.

## HILL ASSIST DESCENT CONTROL.

Heralding from the 4x4 world, Hill Assist Descent Control is incorporated as part of the Advanced Grip Control® system\*. When descending a slope with a gradient of more than 5% and with vehicle speed below 19mph the system will work to reduce the risk of slipping. During a descent the system maintains speed and brake control. A clever feature incorporated within the Hill Assist Descent Control system is our unique 'Clutch Mode' security function. Selecting this function for very steep slopes regulates the vehicle speed to 2mph (3km/h), this allows the vehicle to creep down a steep slope in a completely controlled manner.

## ADVANCED GRIP CONTROL®.

For those in the pursuit of adventure, all-new PEUGEOT 5008 SUV has the perfect solution in the form of Advanced Grip Control®\*. With a simple twist of the mode selector on the centre console, your grip mode adapts instantly to the most difficult conditions with some of the five settings on offer including Mud, Sand and Snow. Advanced Grip Control® provides the perfect alternative to the more traditional 4x4 systems which often add more weight to a vehicle reducing the overall efficiency. Working in conjunction with the system are 18" mud and snow tyres to assist in areas of low traction.

## ADVANCED DRIVER ASSISTANCE SYSTEMS.

Every all-new PEUGEOT 5008 SUV enjoys three sets of Isofix mounting points, six airbags including full length curtain and tyre pressure sensors. In addition to assist the driver all versions feature automatic emergency braking with pedestrian detection as standard.

Allure versions also feature Active Blind Spot Detection, Active Lane Keeping Assistance and PEUGEOT Smartbeam Assistance.

In addition all-new PEUGEOT 5008 SUV Allure versions and upwards benefit from PEUGEOT Connect SOS and Assistance to trigger the sending of the appropriate emergency services for a rapid response.

## ADAPTIVE CRUISE CONTROL WITH STOP FUNCTION.

For a more relaxed drive, enjoy the benefits of the ACC Stop\* system, this adaptive cruise control function, regulates the vehicles speed as well as maintaining a set distance between the car in front, requiring fewer driver inputs. The system automatically uses both the brakes and engine braking to regulate the distance behind the car in front, bringing the car to a complete stop if necessary.
