

THE NEW
VOLVO XC60

INNOVATION FOR PEOPLE

Made by Sweden.

At Volvo Cars, we continuously innovate in order to make your life better. Every car, every technology and every design is the result of a clear vision – to put people at the heart of everything we do. It's a vision that has driven us from the start, one informed by Sweden, a country which values people as individuals and where conventions are challenged. It's a culture with a rich design heritage and a unique way of looking at the world.

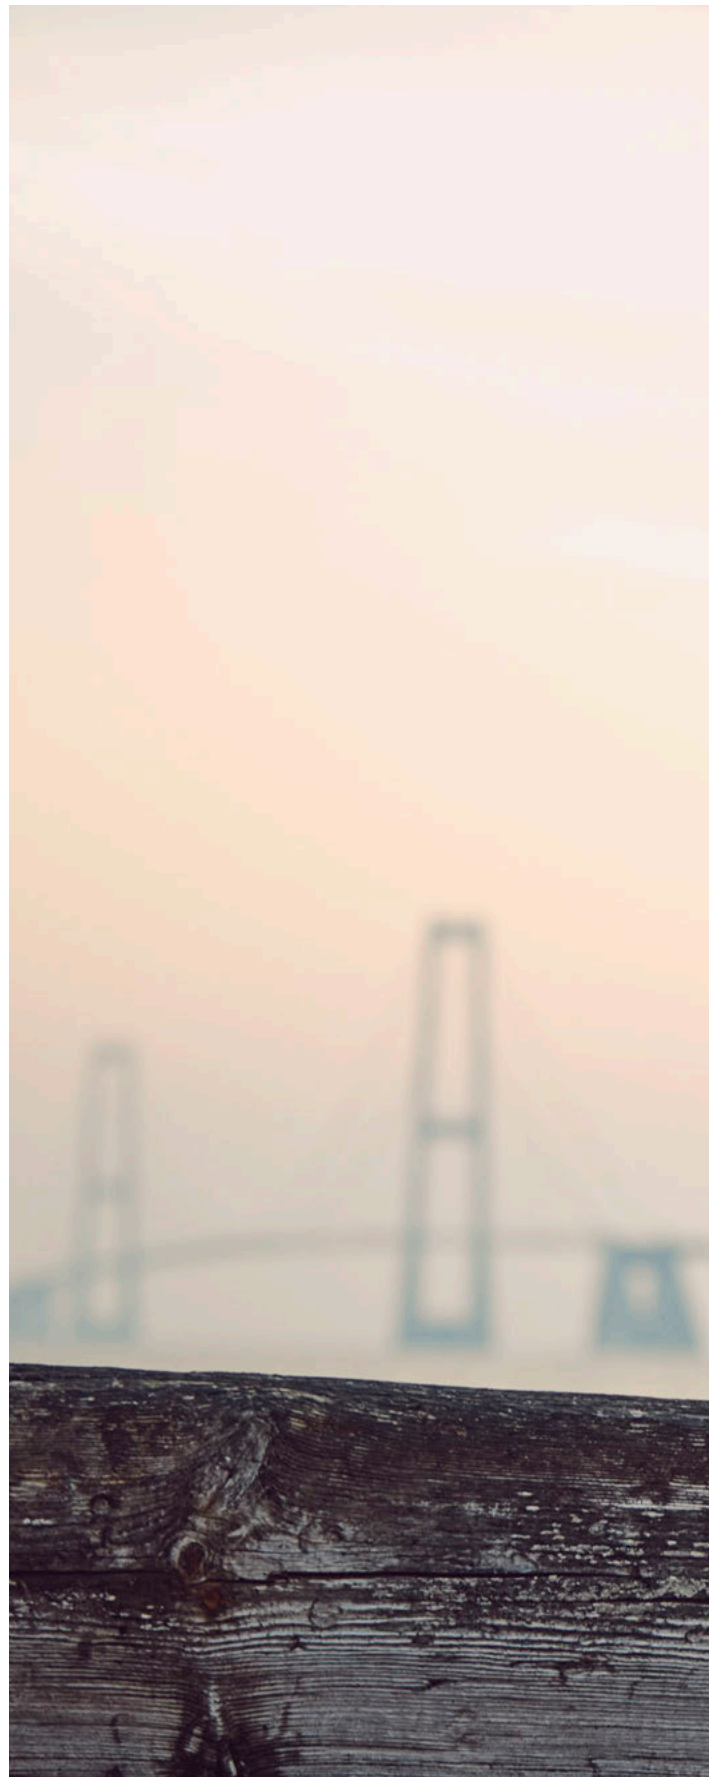

This vision has inspired us to create the likes of the three-point safety belt and side-impact airbags – inventions that have saved lives and changed automotive history. And with our new generation of cars we continue with this tradition. Scandinavian design combines with modern Swedish luxury to enrich your experience. Intuitive Sensus technology makes life less complicated and keeps you connected with the world, while the latest Drive-E powertrains balance responsive power with class-leading efficiency. And supporting you while you are driving, our IntelliSafe innovations make your journey more comfortable and enjoyable while helping to prevent accidents.

We understand what's important to people. It forms the basis of all the innovations which we create. Innovations that improve lives.

At Volvo Cars we design our cars around you.

In Sweden, we build SUVs differently. We start with the concept of designing around you – a car that must look beautiful, engage the driver and make itself useful. We create an exterior that mixes muscular dynamism with clean, elegant Scandinavian design. We find the perfect balance between comfort and control and use it to build the chassis. And we craft an interior from the finest Swedish materials, making sure it's full of natural light and packed with clever touches to make every day easier.

This is the result. The Volvo XC60. A car that's as good to drive as it is to look at, filled with our latest technology to deliver an experience that rewards and fulfils.

This is the Swedish SUV. Evolved.

THE SCANDINAVIAN ATHLETE

Refined strength, designed in Sweden.

With its dynamic, perfectly crafted, elegant exterior, the XC60 is an SUV that makes a strong visual statement.

Beautifully crafted details let you know that this is a Volvo. With its sharp creases and curves, the sculpted bonnet helps create an impression of strength and refinement. Large wheels and pronounced wheelarches express the car's athleticism and capability. One glance tells you this is a car that's ready for whatever activity or adventure awaits.

Full-LED headlights with distinctive T-shaped daytime running lights create an unmistakable impression, day or night, while rear lights that flow into the tailgate are a Volvo design cue that emphasise the car's strength.

From every angle the XC60 is the SUV with a unique Scandinavian attitude.

"One glance tells you this is a car that's ready for whatever activity or adventure awaits."

The XC60 possesses all the qualities of good Scandinavian design – understated yet confident, uncluttered and beautiful. It is an SUV that projects poise and power. In profile, the bonnet, rising side window line and sharply angled tailgate highlight its dynamic nature.

Up close, the sharp creases and sculpted side panels emphasise its muscular, contemporary character. Everywhere you look there is something to delight. The XC60 is a car that you will always be proud to own, and which you will never tire of looking at.

VOLVO XC60

"That's why we crafted the XC60 to be a car that you feel inspired and confident when driving. One where you will always feel in control."

PLEASURE FOR YOUR SENSES

Crafted for an enjoyable drive.

The XC60 is built for enjoyment, because we think you should enjoy every drive in your car, no matter how short or long the journey. That's why we crafted the XC60 to be a car that you feel inspired and confident when driving. One where you always feel in control, and where technology is there to support you and make every interaction second nature.

With its strong, lightweight construction and sophisticated suspension components, the chassis of the XC60 allowed us to find just the right balance between comfort and control. To create a car that offers great driver feedback but which leaves you feeling fresh, even after a long journey.

Experience the rewards offered by the dynamic handling in a cabin that provides outstanding comfort and a calm, restful environment. With seats designed to perfectly complement the human form, quiet powertrains and first-class sound systems that let you enjoy your favourite music as the artist intended, the interior of the XC60 is a haven. This is the Volvo approach to driving enjoyment.

THE COMMAND CENTRE

Take your place behind the wheel.

When you sit in the driver's seat of the XC60 you're in control. In control of everything the car can do for you and in control of your journey, from the driving position to the way you interact with the navigation system.

The experience starts with the driving environment. The dashboard and centre console wrap around, creating the feeling of a cockpit and putting you in command. Beautifully designed and finished controls make every interaction with the XC60 a pleasure.

We put as much thought into materials as we do into design. The Tailored dashboard with contrasting stitching, gear selector made from Orrefors® crystal and wood and metal inlays that allow the materials to speak for themselves. You're surrounded by the precision of skilled craftsmanship, where everything works with accuracy and precision. In the XC60 it's effortless to be in command.

"Light floods in through the panoramic roof to make the cabin bright and airy."

YOUR SANCTUARY.

When designing the interior of our cars we apply the same principles you would when designing a living room. High-quality materials, intelligent use of space and attention to detail work together to create a warm, inviting environment. And it's for all of your passengers. Everyone who travels in the XC60 gets the same standards of comfort, space, light and design. Everyone will enjoy the journey, no matter where they sit. Welcome to a sanctuary that calms and soothes.

Exceptional seating is at the heart of the experience. We build all of our seats to give the same high standards of comfort and support, with plenty of adjustment so everyone can find a position that suits them.

The design of the interior is as important as the way it's built. Light floods in through the panoramic roof to make the cabin bright and airy. Reducing the number of buttons and switches creates a distinctly Swedish feel of uncluttered calm. And the clever use of space, such as the storage compartments under the rear seats, is typical Scandinavian ingenuity. They're just the right size to store electronic devices, like a tablet, out of sight.

Unlock the car and the door handles light up to make getting into the XC60 quick and easy. At night the cabin glows with the warmth of its interior lighting, welcoming you into the car. The optional lighting package includes ground lighting in all of the doors to illuminate the area below an open door, so you can avoid stepping into puddles, as well as additional interior lighting such as a worklight in the tailgate.

CleanZone technology means the air you breathe inside the car is clean and fresh, regardless of the air quality outside the vehicle. It filters dust, pollen, particulates and odours while monitoring the air quality and closing the intakes if pollutant levels rise too high. It happens automatically – all you need to do is set the temperature you want and the XC60 does the rest.

Rich materials and intricate detailing, like the Driftwood trim, and yellow speaker cones, provide contrast and visual interest.

The panoramic roof extends the full length of the cabin, flooding the interior with natural light – so everyone gets the benefit.

The combination of clear, easy-to-read instruments and the distinctive lines of the dashboard look great and work beautifully. They exemplify the meeting of form and function.

The way we've reduced the number of buttons has created a clean, uncluttered cabin reminiscent of the traditional, functional design of Swedish homes.

VERSATILITY'S NEW LOOK

Making every day easier.

A car has to be more than great design and a rewarding driving experience – the XC60 is versatile, a place which complements and copes with your active life, with extra usefulness built in.

Even getting into the XC60 is easy – you can open the powered tailgate by waving your foot under the rear bumper. Inside you'll find a large, evenly shaped load compartment that makes it easy to accommodate irregular sized objects. Fold the seats at the push of a button and you get a fully flat load floor – and you can do this from the rear of the car, so you don't have to open the doors to fold the seats.

A loading hatch in the seats means you don't have to fold the seats to carry long objects, so you can still carry passengers. And, to make your XC60 even more useful, add extra equipment from our accessories range, which are designed to complement the car's interior.

*"Sensus connects you with your Volvo
and the rest of the world."*

SENSUS

*Informed, in control and
always up to date.*

What is Sensus? Sensus is our approach to technology, one that has a guiding principle – to make your life easier and more enjoyable, whether it's your comfort, entertainment or navigation requirements. Sensus connects you with your Volvo and the rest of the world. It keeps you informed, entertained and in control of your journey.

Intuitive, easy-to-use controls are a prime feature of Sensus and you will find them on the large, 9-inch centre display with touch screen. Replacing physical buttons with virtual equivalents on the screen allows them to be larger and easier to use, while also making the cabins feel less cluttered. Bold, clear graphics make it easy to absorb information at a glance. Our philosophy has always been that you should be able to operate your Volvo and keep your eyes on the road. The optional head-up display means you can do just that while staying connected and informed.

And Sensus goes further, with in-car wifi keeping your devices connected to the internet, while our audio systems get you closer to the performance and offers considerable flexibility when it comes to choosing your desired music source and tailoring its sound to your individual preferences.

The Sensus experience enriches every moment that you spend in your Volvo.

CONNECTING YOU WITH A WORLD OF ENTERTAINMENT.

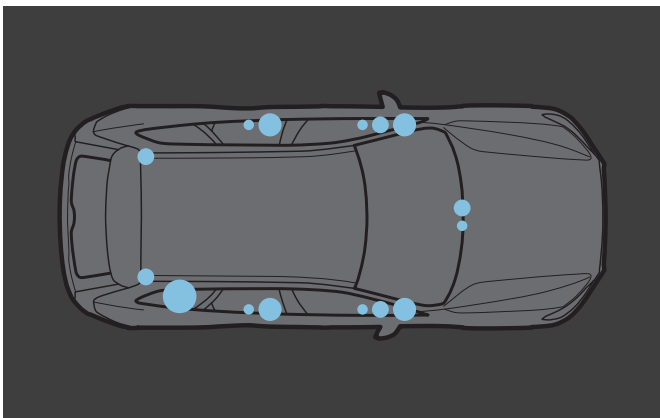

Get closer to the music you love, no matter which seat you're in. With Sensus Connect all of your music is available all of the time, whether it's direct from your favoured media source or streaming from the internet.

It all begins with the 9-inch centre display, the control centre for Sensus. The surface responds to the lightest of touches – you only need to brush your fingers over the glass to operate the controls. It even works with gloved hands.

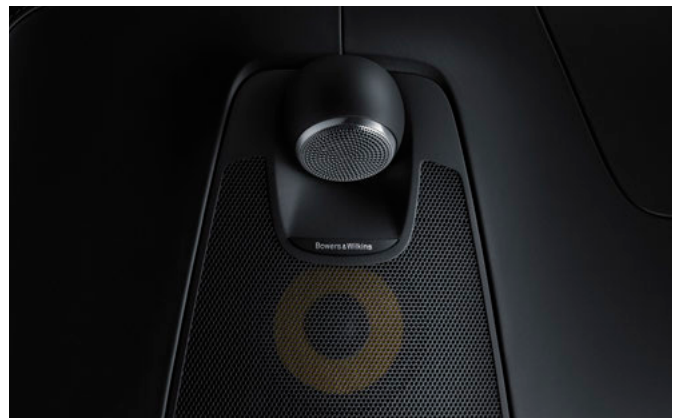

Connecting your devices is quick and easy. Simply plug your iPhone® into the car using the USB connection and you can turn the centre display into an extension of your iPhone® using Apple CarPlay™. When it's connected to Apple CarPlay™ your phone will

be charging, too. And Android smartphone users can connect with Android Auto™ to access your device's music, make calls and send messages.

Your choice of entertainment is not limited by what you have on your smartphone or portable audio player. Wifi and tethered internet increases your choice, with a fast and stable connection through the roof aerial. The Spotify® in-car app makes finding new music quick and easy, and you have access to internet radio and on-demand services, as well. Our High Performance audio system is tuned to make the most of your music, while the Bowers & Wilkins system takes the listening experience to another level.

Our premium sound audio systems give every occupant a superb listening experience, no matter which seat they are sitting in. Developed with speaker makers Bowers & Wilkins, this innovative technology brings exceptional clarity and realism to your favourite music. The unique air-ventilated subwoofer delivers richer, deeper bass by drawing air in from outside the car so it can pulse more air through the speaker. There are 15 speakers, allowing every-

one in the car to get the best possible sound, all the time. And you get closer to the performance by using one of the system's three room modes to bring the music to life. Concert mode recreates the unique acoustic experience of the Concert Hall in Gothenburg, Volvo Cars' hometown, while Stage and Studio modes put you at the heart of the music, allowing you to hear it as the musicians intended.

"The Bowers & Wilkins audio takes the listening experience to another level."

9-inch centre display. The focal point of the elegant cabin is the 9-inch centre display with touch screen, which uses a portrait format to give you a large viewable area that means less scrolling. This format is perfectly suited to displaying maps, and mirrors the look of modern

smartphones in its layout, so it feels instantly familiar and intuitive. It features a glossy black finish that, thanks to a special coating, minimises reflection – so it not only looks beautiful but works beautifully. This is how technology should be.

GET TO YOUR DESTINATION EVERY TIME, WITH EASE.

Let **Sensus Navigation** be your guide, helping you find your destination and keeping you informed. Our sophisticated navigation uses intuitive technology so that wherever you go, you'll get there quickly and easily.

Everything you need to know is shown on the optional 12-inch driver display right in front of you. The high-resolution image self-adjusts so it's never too bright, automatically resizing the instruments to accommodate navigation information. The head-up display shows all the vital information on the lower part of the windscreen, projected to look like it is hovering in front of the car. It means you stay informed without ever having to take your eyes off the road.

Getting to your destination is made even easier with the portrait format, 9-inch centre display with touchscreen. It makes viewing and following routes on maps particularly easy as the vertical screen replicates the format of a road atlas, displaying more of the road that you are travelling on. The graphics on the maps are clear and, because we give you free lifetime mapping updates, Sensus stays one step ahead, guiding you accurately.

Sensus also saves you time by helping you find what you're looking for, with built-in navigation apps capable of locating a parking space and finding petrol stations.

With Sensus taking care of the way ahead, you can enjoy the journey.

Centre display. The portrait format centre display with touch screen makes reading maps and following navigation prompts beautifully straightforward. Maps appear as they would in an atlas and they scroll less, so you can see where you're going and what's coming next. Its clarity, size and orientation make it the ideal companion for every journey.

Voice control. Controlling Sensus is as easy as telling it what to do. Talk to your Volvo, using natural phrases such as "go to Industrigatan, Göteborg" or "call Emily Johnsson", and voice control will carry out your instructions for using the navigation and infotainment, calling from your smart phone and operating the climate control.

Volvo On Call. Making your life less complicated. Experience a world where you are connected to your Volvo with the Volvo On Call phone app.

On cold mornings the remote engine start allows you to heat and defrost your car so that you start the day in comfort. And on hot days use Volvo On Call to cool your car so it's the perfect temperature when you're ready to leave. Check if you've locked the car and lock it if you haven't, or create a wifi hotspot so you and your passengers stay connected to the internet.

Plan journeys at home and send the destination to your car, so that when you're ready to go so is the navigation system. It will sync with your calendar to remind you of appointments and tell you how to get to them.

Volvo On Call is compatible with your smartphone, iPad® and wearables such as Apple Watch – and with Microsoft Band 2 you can use voice commands to operate your car remotely. If you need roadside or emergency assistance then Volvo On Call will connect you directly to the Volvo service centre. If your car's alarm is activated, Volvo On Call tells the service centre, who will contact you. If your Volvo is stolen, Volvo On Call can help the police track your car.

Volvo On Call also informs you of your car's fuel level, logs journey data and tells you when your Volvo is due for a service. And, when new features are introduced, they are automatically added to Volvo On Call, so your app will always be up to date. It's another example of Volvo Cars developing human-centric innovations to improve your life.

Inscription

Black Diamond Cut alloy wheels

With Oncoming Lane Mitigation your Volvo helps reduce the risk of colliding with an oncoming vehicle. Active at speeds from 37mph, it automatically steers you back into your lane if it detects that you have crossed the lane markings and into the path of an oncoming vehicle. You can override the automatic steering at any time by taking control of the steering wheel and it can be turned off altogether.

INTELLISAFE

Always looking out for you.

IntelliSafe is our name for the intuitive, intelligent Volvo Cars technologies that support your driving, help to prevent accidents and protect you in a collision. These innovations play a key role in helping us to realise our bold vision that, by 2020, no one will be killed or seriously injured in a new Volvo car.

City Safety is at the heart of IntelliSafe. Fitted as standard, it's like a co-pilot that's looking out for you, detecting danger ahead then warning you and intervening if necessary. City Safety identifies other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you of any hazards and, if you don't react, it will brake automatically to help avoid or mitigate a collision and can help you steer around obstacles in the road and avoid oncoming vehicles. Steering Support predicts if you are about to hit something. If you start to steer, but not enough, it will try to increase the steering, making rapid manoeuvres safer and more effective.

IntelliSafe supports you on every journey. Oncoming Lane Mitigation can help avoid collisions with oncoming vehicles by automatically steering the car out of the way. Run-off road Mitigation steers and, if necessary, brakes to help prevent you leaving the road accidentally. Driver Alert Control recognises if you're tired or distracted and suggests that it's time to take a break, while Road Sign Information reminds you of the speed limit.

Reducing the impact of a collision is just as important as avoiding the collision. We invented the safety belt over 50 years ago and we've never stopped innovating: our latest advances include seats that help to cushion your spine from vertical impact forces.

With safety technology that's as advanced as this, your Volvo can help make every day safer. For you, your passengers and everybody.

*"With advanced safety technology, your
Volvo can help make every day safer."*

Inscription
724 Pine Grey metallic | 20" 8-spoke Black Diamond Cut alloy wheels

FIND OUT MORE AT [VOLVOCARS.CO.UK](https://www.volvocars.co.uk)

When you need to avoid an obstacle in front of you, City Safety can help make the manoeuvre safer and faster. In these situations, if you steer quickly around the object, Steering Support adds extra effort as you turn the wheel. This turns the front wheels the correct amount to help you to avoid the object while braking both inner wheels to help make the turn more effective. At the same time it coordinates the braking with the steering so they're working together.

Cross Traffic Alert technology helps you to reverse out of a space knowing that there are no vehicles about to collide with you. This technology can spot vehicles approaching from either side of your Volvo at a distance of up to 30 metres, while cyclists and pedestrians can be detected at even shorter distances.

Inscription

724 Pine Grey metallic | 20" 8-spoke
Black Diamond Cut alloy wheels

Our safety options add more cutting-edge technology to the comprehensive safety package that comes with the XC60.

Blind Spot Information with Steer Assist adds increased awareness and confidence on the road, alerting you of vehicles alongside you. If you don't react to the warnings and start to drift into the path of another vehicle, the Steer Assist function will gently guide you back into your lane. Rear Collision Warning detects if another vehicle is about to hit you from behind and flashes the hazard lights more quickly than usual. It also tenses the safety belts. Cross Traffic Alert tells you if there's a vehicle, cyclist or pedestrian in the blind sectors when you're reversing out of a parking space.

Adaptive Cruise Control and Pilot Assist helps support the driver and make driving less tiring. Adaptive Cruise Control keeps the XC60 at a set distance from the car in front; the driver sets the gap and the XC60 will adapt its speed to maintain that distance. Pilot Assist helps keep the car in the centre of the lane by making small adjustments to the steering. It works at speeds up to 80mph and helps to make journeys more relaxing.

For maximum protection, our IntelliSafe Pro pack combines these features, giving you all of our most advanced safety features in one package.

PROTECTING WHAT'S MOST IMPORTANT.

Protecting you and your passengers has always been our priority at Volvo Cars, and our latest generation of cars does more than ever to keep you safe. From preventive technology that helps you avoid collisions to protective features that cushion the impact of any collision, we will never stop innovating in order to improve your safety.

The body of the XC60 provides you and your passengers with maximum protection in all types of accidents. The foundation for our new generation of cars is a very strong passenger compartment that uses a high percentage of ultra high-strength boron steel to create a protective cage around you and your passengers.

Volvo Cars gave the world the three-point safety belt in 1959 and our latest developments continue this commitment to life-saving

inventions. Should your car leave the road, Run-off road Protection technology reduces your chances of suffering serious injury. Prepared front safety belts automatically tighten when the car senses that an impact is imminent, ensuring that you and your passenger are in the safest position if a collision occurs. If the car leaves the ground as a result of running off the road then our unique energy-absorbing seats help to protect your spine in the event of a hard landing.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

The sculpted front seats are more than just beautiful to look at. Their unique structure helps to absorb a vertical impact, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

Volvo is synonymous with road safety. We put our first safety cage into production in 1944, and created the three-point safety belt back in 1959. And we're still innovating today. Prepared front safety belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur.

DRIVE-E

Enjoying more, using less.

With the perfect balance between performance and efficiency, every powertrain in a Volvo gives you on-demand power with low fuel consumption. We achieve this with Drive-E, the cutting-edge technology behind every one of our advanced petrol and diesel engines, where performance and efficiency are built in.

It's our innovative culture that enables us to create such powertrains. The D5 features PowerPulse, a Volvo Cars invention. It activates the turbocharger as soon as you press the accelerator to give an instant boost of acceleration from standstill and at lower speeds. Technology such as this enables us to offer the power of a much larger engine from a compact four-cylinder, so you get the perfect mix of power and efficiency.

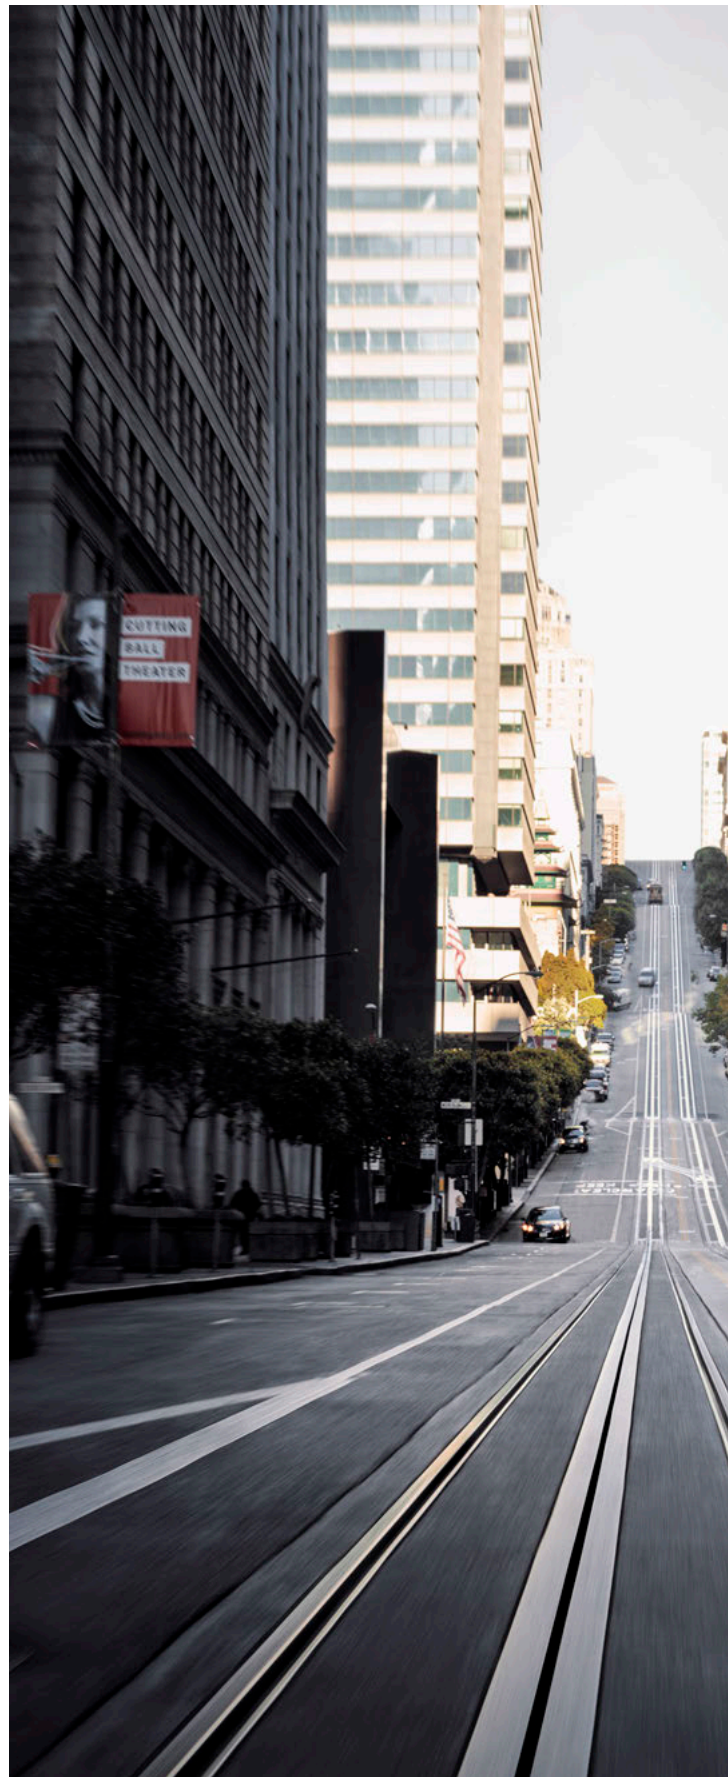

Smaller engines lose less energy through friction so they can make every drop of fuel work harder to minimise emissions. We've used low-friction components to make them run smoother and more efficiently. Reducing size and weight has freed up interior space and improved the car's handling.

Our eight-speed automatic gearboxes make the most of each engine's potential. Designed to minimise power loss and maximise performance, it will always select the right gear for whatever is coming next, or you can choose to change gear yourself in manual mode.

To help you drive more efficiently, select Eco mode and the car recalibrates the drivetrain for the lowest possible fuel consumption and emissions. The coast function disconnects the engine from the automatic transmission when you release the accelerator at speeds above 40mph, so it isn't being used to slow the car.

Our diesels are quiet and smooth for a relaxing journey, thanks to ground-breaking i-ART injection technology. By precisely metering exactly the right amount of fuel for each cylinder, i-ART helps the engine run more smoothly while using less fuel. And the technology ensures it stays that way for the car's lifetime. You will always benefit from low fuel consumption.

At Volvo Cars, by looking to the future we enhance your life today. Drive-E brings together advanced technologies to give you efficiency, performance and range – and a better drive for you.

"Balancing performance and efficiency, every Volvo powertrain gives you on-demand power with low fuel consumption and emissions."

TWO HEARTS, ONE CAR.

Our high-performance powertrain, the T8 Twin Engine AWD, turns the XC60 into a true performance car but, with its combination of turbocharged and supercharged petrol engine with an electric motor, also has the lowest CO₂ emissions of the range.

With 407hp the combination of a four-cylinder petrol engine and powerful electric motor offer the power and performance of a much larger engine, but use much less fuel. The 320hp petrol engine drives the front wheels and the 87hp electric motor powers the rear, giving instantaneous acceleration and on-demand all-wheel drive.

With just the electric motor powering the car, you benefit from silent, emissions-free driving and an electric-only range of over 28 miles, which is ideally suited to daily commuting.

Four different drive modes offer precise control over the car's powertrain. Hybrid mode uses petrol and electric power for the best balance of power and efficiency while Pure uses the electric motor only for zero-emission driving. Power combines the full output of

the petrol engine and the electric motor for the best performance, while AWD switches to full-time all-wheel drive. Blend your favourite elements of each mode and create a mode that's tailored to your needs by selecting Individual.

Controlling this technology is intuitive and straightforward. A beautiful roller switch allows you to flick easily between modes. And if you've chosen our active chassis with air suspension your car automatically selects the best chassis settings to complement the drive mode, allowing you to enjoy the drive while your Volvo does the work.

Charging the battery is quick and easy. Drive the car and it charges the battery with a generator and regenerative braking. If you need to top it up, plug it into the mains supply and the battery can be fully charged in under three hours.

The T8 Twin Engine AWD gives you the best of both worlds. Power without compromise.

Made from Orrefors® crystal, the gear selector in the T8 Twin Engine AWD blends traditional Swedish materials with advanced design and technology.

The power of a turbo and supercharged petrol engine combined with a responsive electric motor makes the T8 Twin Engine AWD a true performance SUV.

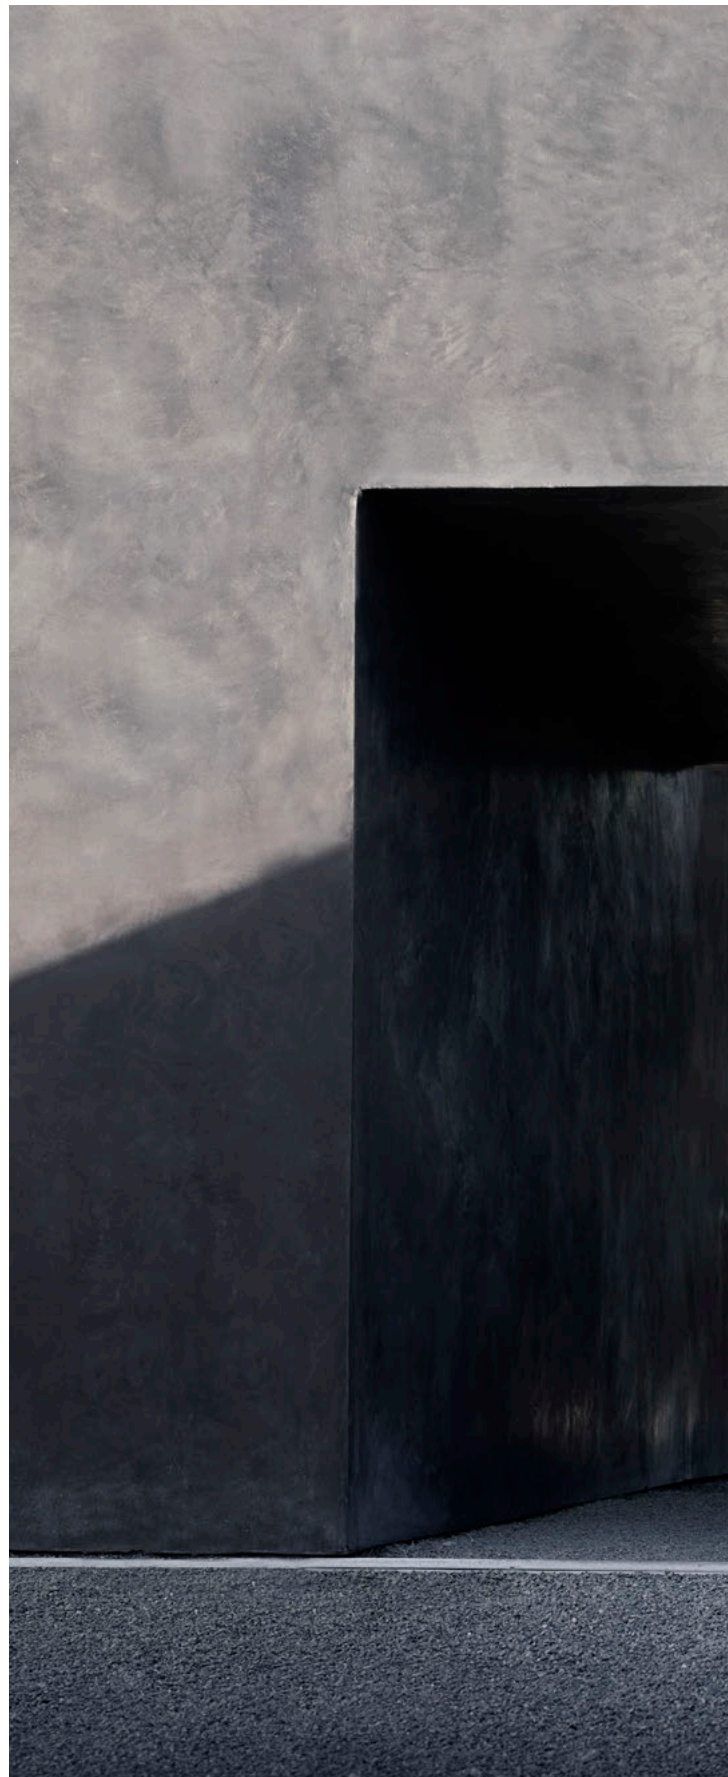

Plug in and charge up. Use the charging port to connect the car to the mains and enjoy the refinement of the electric motor wherever you go.

"The T8 Twin Engine AWD gives you the best of both worlds. Power without compromise."

The way we've designed the T8 Twin Engine AWD gives you more than just efficiency – you will notice how well balanced and responsive the car feels on the road, and how quickly it reacts to changes of direction. By mounting the electric motor over the rear axle and fitting the battery along the car's centreline, we've given the XC60 near-perfect weight distribution, a key element in creating agile handling. The battery's location helps create a low centre of gravity in the middle of the XC60 so the car is stable, sure-footed and comfortable. And because the battery is not in the boot, you get the same luggage capacity in the T8 Twin Engine AWD as you do in all other XC60 models. Our cars are designed from the outset to use plug-in hybrid technology, so your experience with them is never compromised.

DRIVE. DON'T COMPROMISE.

We believe a car can be both great to drive and comfortable, so we built the XC60 to strike that balance between control, precision and comfort. It's a car that rewards the way you drive with response and control. A car for long distances and memorable journeys.

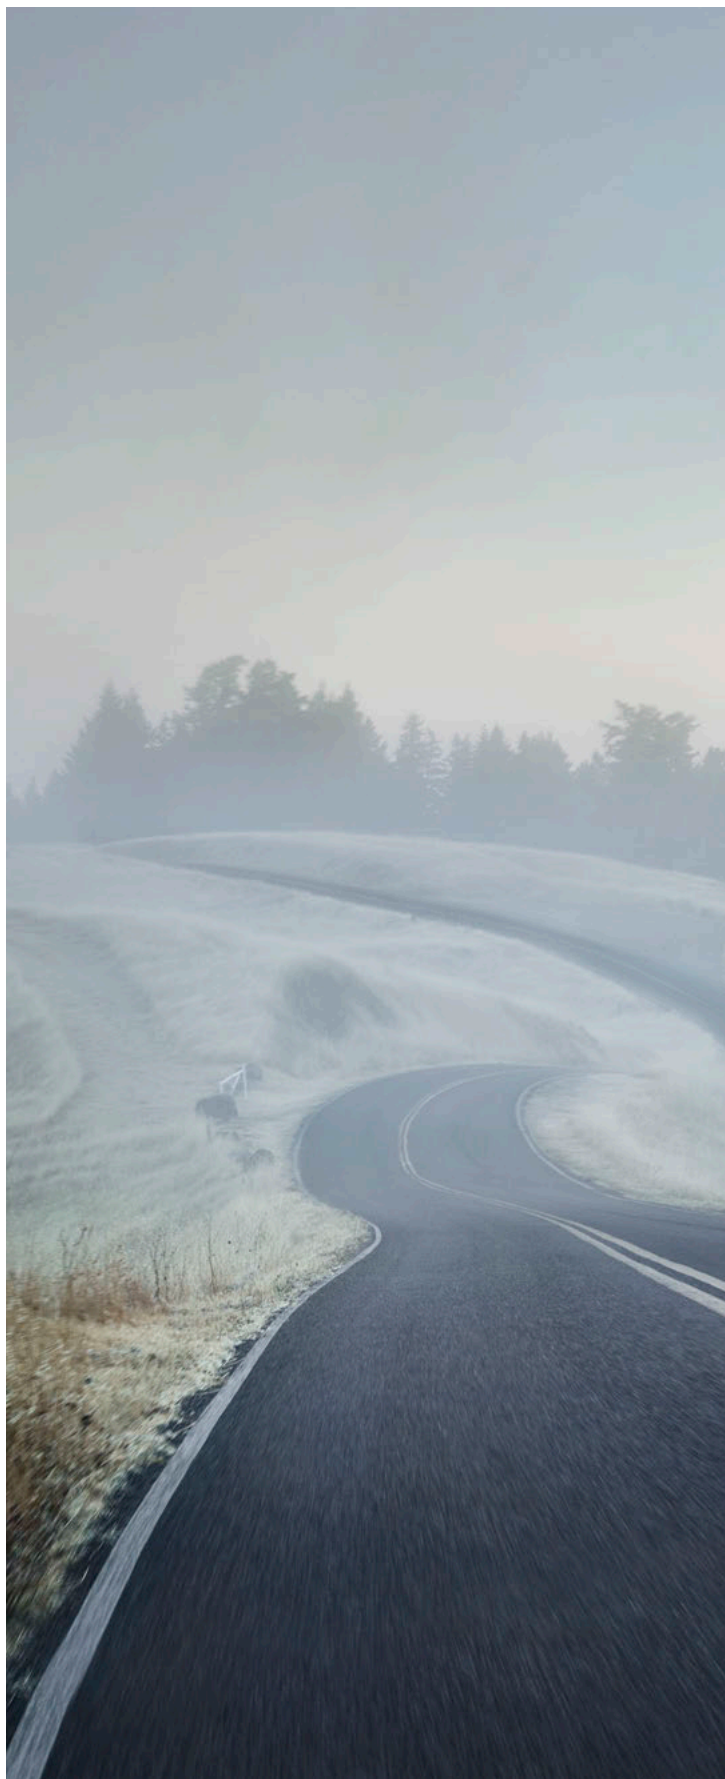

Sophisticated double-wishbone front suspension and our innovative integral axle rear suspension work together to put you in control of every drive. You get a car that responds to your commands but doesn't sacrifice the comfort you need.

Full air suspension makes the XC60 even more capable, isolating the car's body from the road and soaking up uneven surfaces. By keeping the ride height constant the air suspension increases stability, making the XC60 easier and more predictable to control. The car body's height is adjusted according to its drive mode and speed. In Comfort or ECO drive mode, the body is lowered 10–20mm at higher speeds, using less fuel and making it quieter. In Dynamic mode the body is lowered constantly by 20mm in order to enhance handling and road holding. All-wheel drive models give even greater reassurance on demanding roads.

As an option, you can choose between five drive modes that allow you to tailor the car's behaviour to your mood and find the perfect setting for the road you're on. Altering the engine, gearbox, accelerator and steering response changes the way the car behaves and, in the case of the optional active chassis with full air suspension, even how it rides and handles. On rough roads, Off Road mode makes the XC60 easier to control at the low speeds needed to tackle bad surfaces, and engages Hill Descent Control to make descending slopes safer and simpler.

Air suspension on all four wheels gives the XC60 outstanding ride comfort – the air springs absorb up imperfections in the road – and make the car stable by keeping the ride height constant, regardless of the load. With the active chassis you can alter the way the car rides and handles to suit your mood or the road.

VOLVO XC60

YOUR JOURNEY BEGINS HERE.

We created the new XC60 with one single purpose: to provide you with an SUV that perfectly fits you and your lifestyle. A car that meets your expectations of a dynamic drive with refined comfort and confident design – built with care for people and the world we share. A car that's intuitive to use and makes life less complicated, and is a pleasure to live with every day.

At the heart of your XC60 is a dynamic, efficient powertrain. Whichever you choose, you will enjoy our latest Drive-E technology that gives you instant response and a comfortable ride. Fuel consumption and CO₂ emissions are kept low, and our powertrains already comply with future exhaust emission legislation.

Our Drive-E powertrain range includes advanced diesel and petrol engines mated to our smooth eight-speed automatic gearbox. The responsive AWD all-wheel drive technology gives you an edge by increasing driving stability and traction – on all road surfaces and in all weathers. And for the ultimate combination of performance and efficiency, there's the option of our T8 Twin Engine plug-in hybrid powertrain. Make your choice, and enjoy the journey wherever it takes you.

Make your choice, and enjoy the journey wherever it takes you.

T8 Twin Engine AWD

Our T8 Twin Engine plug-in hybrid powertrain delivers an exhilarating drive with uncompromised efficiency. Combining a high-performance petrol engine and an electric motor, this 407hp/640Nm powertrain allows outstanding highway performance and zero emission commuting – with all-wheel drive capability when needed.

T5 AWD

The 254hp/350Nm T5 AWD petrol powertrain is as responsive on the highway as in the city. This superb all-rounder delivers generous power just where you need it, ensuring excellent driveability in combination with our smooth 8-speed automatic gearbox and all-wheel drive.

D5 AWD

Our most powerful 235hp/480Nm diesel powertrain D5 AWD allows you to experience performance and refinement without compromises. Twin-turbo engine technology, our 8-speed automatic and all-wheel drive add to instant control.

D4 AWD

Our sophisticated 190hp/400Nm D4 AWD diesel powertrain allows you enjoy more while using less. Mated to our dynamic all-wheel drive and 8-speed automatic gearbox, the D4 AWD is designed to give you the most efficient and confident driving experience.

Volvo XC60 Momentum

The high level of standard equipment meets your demands on style, comfort, safety and sophisticated design.

Volvo XC60 Inscription

The highly sophisticated expression of Swedish luxury.

Volvo XC60 R-Design

The thrill of a spirited drive, characterised by style, responsiveness and control.

CREATE THE SWEDISH SUV OF YOUR CHOICE.

Our approach in everything we do is to always put people first. This also includes allowing you the freedom to create a Volvo that perfectly matches your style and personality.

To ensure you get your new XC60 exactly as you want it, we have created a range of options, trim levels and personal expressions. Your XC60 is generously equipped already in the standard Momen-

tum trim level, providing you with everything you need for inspired travelling. Maybe you want to indulge your senses in the finest Swedish luxury? Then you'll feel at home with Inscription. Or if you're in for a more sporty style inside and out – take a look at R-Design. Whatever you prefer, you can rest assured there's a Volvo XC60 for you. Read on, and see what your new XC60 will look like.

THE RIGHT EQUIPMENT FOR YOUR DRIVE.

Generously equipped as standard Momentum trim level, the XC60 will provide you with a high level of technology that will meet high demands on style, comfort, safety and distinctive design.

Unique exterior design cues such as our signature design LED headlights, the high gloss black grille and integrated roof rails in satin silk metal finish contribute to the both powerful and stylish appearance of the XC60 Momentum. The 18-inch wheels will add to the car's exclusiveness and road presence, while the dual stainless steel end pipes add a powerful finish.

On the inside, aluminium tread plates welcome you every time you enter the cabin of your XC60. You can enjoy the control provided by our 8-inch driver display and Sensus Connect with enhanced connectivity – such as the intuitive operation of our 9-inch centre display with touch screen and voice control – while everybody on board will appreciate the clear sound reproduction of our High Performance audio system including Bluetooth® music streaming. Our two-zone climate system ensures you and your passengers can enjoy a comfortable cabin climate in all temperatures – the driver and front seat passenger can adjust the temperature to suit individual preferences. As driver you will enjoy the feel of a leather-clad steering wheel with Silk Metal inlays, a leather-clad gear lever and ergonomic Comfort seats. Power adjustable 4-way lumbar support including vertical adjustment makes it easy to optimise the support

to your needs. The seats are upholstered in Leather-faced upholstery. Textile floor mats and Iron Ore aluminium decor inlays further complement the interior ambience. And when it's dark, the interior illumination enhances the luxurious feeling inside your XC60 Momentum.

And of course: you get our world-leading IntelliSafe technologies including the City Safety collision avoidance technology with Steering Support, Lane Keeping Aid, Road Sign Information, Run-off road Mitigation, Oncoming Lane Mitigation and Driver Alert Control as standard. To further enhance your feeling of relaxed control whether you're driving in the city or on the highway, you can add our semi-autonomous driving technologies such as Adaptive Cruise Control and Pilot Assist. And BLIS™ blind spot information with Steer Assist and Cross Traffic Alert helps increase your awareness of what's going on around your car.

Power retractable door mirrors and rear park assist supports your parking, and adding our 360° camera and Park Assist Pilot you'll enjoy perfect parking with total confidence – even at tight spaces.

To make your XC60 Momentum fit for your adventures as well as your everyday challenges, the rear seat backrests fold to create a flat load compartment floor. And to further facilitate loading and unloading, there's our power-operated tailgate.

MOMENTUM

Includes:

Exterior:

18" alloy wheels | LED headlights with automatic lever adjuster | Visible end pipes in chrome | Front grille high gloss black with chrome frame | Park assist, rear | Wipeblades with integrated water nozzles | Integrated rails in satin silk metal finish

The interior of the XC60 is created with you in the centre of attention. Every detail, every line, every shape is testimony to our designers' pursuit to create a space in which you feel relaxed and in complete control. For a contemporary look and feel, the Momentum trim level features comfort seats upholstered in exclusive Leather upholstery, available in several different interior colour combinations to suit your

personal preferences. The interior ambience is further enhanced by decor inlays in Iron Ore aluminium and aluminium tread plates. Or for an exclusive look inspired by contemporary Scandinavian furniture, opt for our genuine wood decor inlays such as Linear Lime – a unique matt inlay with a warm, modern retro look.

Inscription

A HIGHER GRADE OF REFINEMENT.

We created the exclusive XC60 Inscription to meet your highest expectations on Swedish luxury. It's a highly personal expression that evokes a strong sense of elegant refinement. Each detail is carefully selected to give you and your passengers a stylish and invigorating experience. Distinguished exterior design cues enhance the luxurious look and feel of the XC60, while the metic-

ulously crafted interior with ventilated leather seats gives you ample room for a relaxed driving experience. The XC60 Inscription epitomizes our proud heritage of human-centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the XC60 Inscription is in a class of its own – just like you.

INSCRIPTION

Includes Momentum trim level plus the following:

Exterior:

19" alloy wheels | Bright deco exterior | Bright deco moulding with embossed Inscription logotype | Dual integrated end pipes | Foglights in front spoiler | Chrome window surround

Interior:

12" driver display | Leather key remote | Driftwood decor inlays | Power driver seat with memory function for seat and side mirrors | Power passenger seat | Nappa soft leather perforated and ventilated upholstery | Power front seat with cushion extension and side support | Net pocket on tunnel

3

The highly sophisticated XC60 Inscription expresses the essence of contemporary luxury. Instantly recognisable thanks to its distinctive chrome-finish grille and lower door bright deco moulding, this expression sets the XC60 apart thanks to a number of well-judged exterior design cues that correspond with the car's timeless Scandinavian design. Just like beautifully crafted pieces of jewellery design, the ten-spoke 19-inch alloy wheels in distinctive Diamond Cut design harmonize perfectly with the dynamic and exclusive character of your XC60 Inscription. Together with the elegant dual integrated end pipes, the wheels also contribute to the car's confident stance. Our signature LED illumination contributes to both a strong visual identity and excellent vision in the dark.

On the inside, the luxurious theme continues with authentic, finely crafted materials that create a lounge-like atmosphere of sumptuous well-being. You and your passengers can lean back in sculpted power-operated Comfort seats with Nappa soft Leather upholstery. Unique Driftwood decor inlays in genuine wood and our

most advanced ambience interior illumination add to the rewarding Inscription experience. For you as driver, the large 12-inch driver display and convenient drive mode settings in the console between the front seats add to your feeling of being in command. And to enhance your driving experience, our optional Active chassis with air suspension optimises comfort and handling – select between five different chassis settings with the drive mode control.

The optional four-zone climate control allows both the driver and the front seat passenger as well as the outer rear seat passengers to set their individual cabin temperature. Adding a panoramic glass roof, everyone inside your XC60 will enjoy a superb experience of air and light – the front section can be opened at a push of button and during sunny days a power operated sunshade in perforated textile will reduce the heat and glare while maintaining the airy feel inside the cabin. And turning your XC60 into a concert hall, our optional high-end audio system Bowers & Wilkins brings exceptional clarity and realism to your music, wherever you're seated.

1. The power-operated Comfort seats with Nappa soft perforated and ventilated leather upholstery and the exclusive Driftwood genuine wood decor inlays add to the sensory experience of contemporary luxury. 2. Select your preferred drive mode and steering characteristics with the scroll wheel in diamond patterned metal finish. 3. The exclusive Inscription leather-clad remote control shell is in the same colour as the leather upholstery in your XC60 Inscription – an excellent example of thoughtful Scandinavian craftsmanship and clean design. 4. The XC60 Inscription with dynamic yet elegant 20-inch Inscription 8-spoke alloy wheels in distinctive Black Diamond Cut design. 5. Dual integrated end pipes and bright deco trim add to an elegant and powerful impression. 6. The intuitive 12-inch driver display with four graphic modes and the 9-inch centre display with touch screen puts you in the centre of action. 7. Inscription front grille in elegant chrome finish and the signature headlights with LED illumination. 8. The lower door bright deco moulding with Inscription logotype. 9. The lower outer grilles with chrome trim and fog lamps complement the elegant front design of your XC60 Inscription.

RDESIGN

INSPIRED BY THE ART OF DRIVING.

If you love to drive, the XC60 R-Design is for you. With a unique personality, R-Design captures the thrill of a spirited driving experience characterised by style, responsiveness and control. A wealth of distinguished design details raises the dynamic soul of your Volvo and gives it a sportier, more distinct road presence. It's an expression that catches the eye from every angle and hints at the promise of an amazing drive, every time. And you can rest assured that the

XC60 R-Design will deliver. Surrounded by meticulously crafted and expressive interior design details, you can feel it right from the moment you take your position in the sculpted R-Design driver seat. Everything – from the R-Design steering wheel with gearshift paddles to the Charcoal headliner – is there to inspire and support your driving. And for an even more energetic, road-hugging drive, the XC60 R-Design benefits from an advanced sport chassis.

R-DESIGN

Includes Momentum trim level plus the following:

Exterior:

19" alloy wheel | Door mirror caps in matt silver finish | Dual integrated end pipes | Lower front, unique sporty design | Grille with unique mesh in glossy black and frame in silk metal finish | Lower outer grilles, unique design and glossy black | Side window trim in silk metal finish | Body-coloured rear lower insert | Sport chassis | Matt Silver rear-view mirror covers

Interior:

12" driver display | Charcoal interior and upholstery with light contrast stitching | Contour seats with R-Design logotype | Fine Nappa Leather/Nubuck textile upholstery | Charcoal headlining | Metal Mesh Aluminium decor inlays | Cushion extension mechanical, driver and passenger seat | Tread plates with R-Design logotype (front) | Gearshifter knob in perforated Fine Nappa Leather and light contrast stitching | Gaiter with light contrast stitching | Remote control clad in Perforated Fine Nappa Leather | Textile mats with light contrast stitching | Sport pedals in aluminium with rubber inserts | Sport steering wheel with light contrast stitching and R-Design symbol | Net pocket on tunnel

R-DESIGN PRO

Include R-Design equipment plus the following:

1

R-Design is Volvo in smart designer sports gear – it's all about a performance-inspired look and feel, both inside and out. It's a truly eye-catching expression with sporty exterior design cues, such as its own distinctive grille in high gloss black with Silk Metal frame, front spoiler, stylish Silk Metal window trim, Bright Silver matt finish door mirror caps, prominent dual end pipes and Matt Black R-Design 19-inch alloy wheels in striking Diamond Cut design. Our signature headlights with LED illumination provide excellent vision and a distinctive attitude on the road.

On the inside, the R-Design tread plates in Silk Metal finish greet you on-board. The refined sporty theme continues with Metal Mesh aluminium decor inlays, Charcoal headlining and sculpted R-Design Contour seats with a unique Nubuck Textile/Perforated Fine Nappa Leather upholstery. Together, these features give the cabin a technical, cockpit-like feel. R-Design logotypes and distinctive stitching in the seats, the gear shifter and the steering wheel in perforated

leather all reinforce the sporty yet elegant ambience. The adjustable front seat cushion extensions further enhance your thigh support for improved comfort during long drives.

Further adding to your sense of being in control, the R-Design also provides you with our largest 12-inch driver display and gearshift paddles. Conveniently positioned in the tunnel console between the front seats, there's also a drive mode control that allows you to shift between five driving modes – Comfort, Dynamic, Eco, Off-road and Individual mode.

Behind the R-Design sport steering wheel in Perforated Fine Nappa Leather, you can enjoy the dynamic response and feedback from a finely tuned sport chassis. This chassis features stiffer springs and dampers for a more responsive handling and less roll when cornering.

The XC60 R-Design is available with all power trains including our plug-in hybrid T8 Twin Engine AWD.

The exterior leaves no doubt about the intention of your XC60 R-Design. The exterior colours are carefully selected to match the car's dynamic character, each with its unique expression – especially Passion Red and Bursting Blue metallic, exclusively created for R-Design. Passion Red is the iconic sporty colour, while Bursting Blue metallic adds a techy, sporty look that perfectly highlights the

body inserts in high-gloss black and silk metal finish. The 19-inch five-double spoke R-Design alloy wheels in Matt Black Diamond Cut or the optional 21-inch 5-triple spoke alloy wheels give your XC60 R-Design a superior road presence that put your Volvo in a class of its own.

MAKE IT YOURS.

Add your own style to the XC60 with Volvo styling accessories; the perfect addition to your new car. Designed to perfectly complement the lines of the XC60, the exterior styling kit allows you to create an exclusive, individual look – no matter which trim level you've chosen.

At the front, a stainless steel skidplate wraps around the leading edge of the lower bumper, adding definition. At the rear a matching stainless steel skidplate and integrated dual split tail pipes give the car a powerful presence. The stainless steel bumper protector looks great and stops the paintwork from being damaged during loading.

The 22-inch wheel designs combine delicate, technical forms with a high-tech look. Both the five double-spoke and 10 open-spoke wheels are finished in black with a diamond cut finish, a technique that provides a striking contrast between the dark recesses and bright faces. Body-coloured wheelarch extensions cover the wheels' extra width and help to create a more powerful visual statement. And to maintain that powerful look all year round, choose our 20-inch winter wheels for your winter tyres.

T8 Twin Engine AWD | R-Design
707 Crystal White Pearl | 22" 5-double spoke
Matt Black Diamond Cut alloy wheels

Coupled with R-Design trim, the exterior styling kit accentuates the car's athletic, dynamic design. With just the right amount of stainless steel detailing to contrast with the body colour and complement the R-Design silver mirror covers, it's a great way to add your own touch to the XC60. The 22-inch 5-double spoke wheels in distinctive Matt Black Diamond Cut design add a rugged, sporty edge to your XC60 R-Design.

SWEDISH LUXURY, YOUR WAY.

The XC60 Inscription is about elegant, Swedish luxury. To make your SUV an even stronger and more personal statement, you can add our exterior styling kit. Front and rear skidplates in stainless steel combined with the integrated dual split tail pipes* and body-coloured wheelarch extensions enhance your car's exclusive and

powerful presence. And adding our large 22-inch 10 open-spoke alloy wheels, you lend the elegance of your XC60 Inscription a more rugged touch – perfectly harmonising with the stainless steel design elements of the exterior styling kit.

*Available later in 2017

Inscription

724 Pine Grey metallic | Exterior styling kit with stainless steel skidplates front and rear | 22" 10-open spoke Black Diamond Cut alloy wheels

Our new 22-inch wheels are the largest we've ever fitted to a production car and give the XC60 extra width and attitude. The front and rear skidplates with integrated double tailpipes are made of stainless steel.

FOR ALL OF LIFE'S JOURNEYS.

Create a XC60 that's perfect for your life, with Volvo accessories that are designed around you and your car.

The sleek iPad® holder complements the car's interior. It allows rear-seat passengers to watch, read or play and has two USB ports for charging devices.

Our new child seats are comfortable and stylish. They are covered with a unique Volvo fabric – Wooltextile cloth – which is 80 per cent wool, so it's both soft and durable. They also represent state-of-the-art safety: the child seat has side impact protection and is rearward-

facing for maximum safety. We apply the same stringent standards to our child seats as we do to building our cars, so you know your children are well protected. We also offer our booster cushion and backrest in a new luxurious leather and nubuck textile that is designed to match your car's interior and is easy to clean.

Your car and its load are also protected. A steel grille provides a sturdy barrier between boot and passenger compartment and load compartment mats help protect the car interior.

WORKS HARDER WHEN YOU NEED IT.

Make the XC60 work for you with Volvo Cars' range of exterior accessories, designed to look good and work flawlessly. Made from tough, high-quality materials they're built to withstand the punishment inflicted by Sweden's winter.

Take advantage of our range of roof-mounted accessories by adding a pair of tough, low-profile load carriers. Easy to fit (they clip onto the car's roof rails), they instantly allow you to fit our load carrier accessories, from the bike rack to the canoe holder. Our lightweight, stylish roof box fits straight onto the load carriers, adding 350 litres to the carrying capacity. Ideally suited to carrying skis (and capable of carrying up to six pairs) its low weight and Quick Grip mountings

make it possible to fit with one hand while neat touches such as LED lighting in the lid help you load in the dark.

The bumper cover protects the paintwork from damage caused by loading objects into the boot. Made from stainless steel with a high gloss finish, the cover looks great and works well.

The electrically folding towbar gives you the ability to tow without the inconvenience of a fixed towbar. Press a button in the boot and the towbar slides out from under the car – all you have to do is secure it into position with one click. With the electrical socket integrated into the towbar's neck it's unobtrusive and compact. There's even a bike rack to fit the towbar.

HAVE YOU GOT YOUR VOLVO ID?

A Volvo ID allows you to access a whole world of connectivity with your Volvo. With your Volvo ID, you can:

- Access your My Volvo account on volvocars.co.uk for car information
- Access internet services and apps in your car, including connected service booking
- When applicable, sign in to the Volvo On Call app and connect with your car from everywhere

CONNECTED SERVICE BOOKING

If your Volvo has Sensus Connect, it will remind you when it needs servicing and offer to contact your Volvo dealer for you. Booking proposals sent from your preferred dealer can easily be managed directly in the car. When the time comes to drive to your workshop, your Volvo will remind you and even guide you there. And since your Volvo tells us what it needs, we can make sure it always receives the service it requires when it gets there.

Welcome to Volvo Car Lifestyle Collection. Our Lifestyle Collection includes a wide range of lifestyle accessories – from Swedish crystal and crafted leather bags, to clothing, watches and more selected items. To view the complete collection, please visit collection.volvocars.com
