Trailer Sway Control (TSC)*

TSC suppresses any trailer sway caused by wind, bumpy roads or steering etc. whenever you are towing. With sensors detecting yaw, acceleration and steering, TSC uses deceleration control and yaw moment to limit sway. The slip indicator bleeps when TSC is activated, and to warn drivers behind, the stop lights are illuminated.

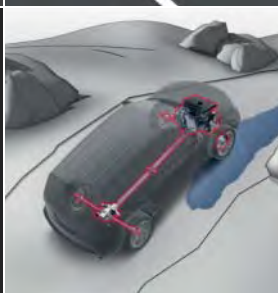

Tyre Pressure Warning System (TPWS)

The system features a sensor valve within each wheel to constantly monitor tyre air pressure. These sensors link with a dashboard indicator that illuminates to warn you if the pressure falls below the recommended level. By doing so, the system contributes to safer driving, better tyre wear and greater fuel efficiency.

Body on frame

High tensile sheet metal is used to maintain a lightweight design and ensure strength and rigidity. Sound-absorbing and noise-cancelling materials contribute to a peaceful drive.

Active Traction Control (A-TRC)

Designed for on- and off-road, A-TRC helps to keep you moving in the most adverse conditions. This intelligent traction control applies brake force to one wheel that may be slipping, while distributing power evenly between the three that are not.

* LWB only.

Quoted mpg & CO₂ figures: All mpg and CO₂ emissions figures quoted in this brochure are sourced from official EU-regulated test results. These are provided for comparability purposes only and may not reflect your actual driving experience. Fuel consumption varies significantly depending on a number of factors, including driving style, conditions, speed and vehicle weight. In order to allow consumers to compare and make an informed choice between one vehicle and another, there is a European Commission standard (93/116/EC and 692/2008) to measure fuel consumption. This common standard must be adhered to by all manufacturers selling motor vehicles in the EU and is the basis for fuel consumption figures published by each manufacturer. For further information please visit www.dft.gov.uk/vca/fcb/faqs-fuel-consumptio.asp or speak to your local Toyota Centre.
