

VOLVO S60

INNOVATION FOR PEOPLE

Made by Sweden.

At Volvo Cars, we continuously innovate in order to make your life better. Every car, every technology and every design is the result of a clear vision – to put people at the heart of everything we do. It's a vision that has driven us from the start, one informed by Sweden, a country which values people as individuals and where conventions are challenged. It's a culture with a rich design heritage and a unique way of looking at the world.

This vision has inspired us to create the likes of the three-point safety belt and side-impact airbags – inventions that have saved lives and changed automotive history. And with our new generation of models we continue with this tradition. Scandinavian design combines with modern Swedish luxury to enrich your experience. Intuitive Sensus technology makes life less complicated and keeps you connected with the world, while the latest Drive-E powertrains balance responsive power with class-leading efficiency. And supporting you while you are driving, our IntelliSafe innovations make your journey more comfortable and enjoyable while helping to prevent accidents.

We understand what's important to people. It forms the basis of all the innovations which we create. Innovations that improve lives.

At Volvo Cars we design our cars around you.

The S60 – like every Volvo – is a car that makes you feel special. A car that enhances your life through the enjoyment, comfort and beauty it provides.

At the heart of it all is a great driving experience. An experience that starts with the standard Dynamic Chassis, created to give you a responsive, in-command feeling behind the wheel. It makes the S60 a car that you really enjoy spending time in. On the type of roads you drive home on just for the enjoyment of driving, the S60 is your perfect companion.

A range of Drive-E powertrains give you responsive performance as well as low fuel consumption and emissions. By using lightweight construction, low-friction technology and advanced transmissions they get the most out of every drop of fuel.

Inside, the S60 is a haven of calm and serenity. Our seats have been famous for their comfort ever since we took the unprecedented step of consulting ergonomic experts to help us develop them, and the current generation are the latest example of this revolutionary approach. Supportive and comfortable, you will arrive fresh and relaxed after even the longest journey.

Sensus – our way of connecting you with your Volvo and the world around you – puts the latest technology at your command, in a way that's intuitive and natural. For the S60 it includes high-quality displays and easy-to-use controls that make life easier, as well as the option of high-end audio systems and internet connectivity that keeps you in touch with your digital world on the move.

Inside and out, the S60 embodies the best in Scandinavian design. You see it in the elegant and uncluttered interior, with its alluring blend of modern materials and traditional craftsmanship; in the confident presence the S60 has on the road.

From its bold, assertive front grille to its integrated tailpipes at the rear, the S60 is a car that has the power to make you feel good every day.

VOLVO S60

For people who enjoy taking the long way home.

The Volvo S60 is a beautifully balanced combination of dynamism, style and comfort.

If you are the kind of person who sometimes chooses the back roads to get home, you'll enjoy the crisp response of a well-balanced chassis. During longer trips, the relaxed comfort will keep you and your passengers feeling fresh for hours. In more challenging traffic situations – in the city, for example – a range of supportive technologies will take the stress out of driving and keep you in control.

The agile character of your S60 is enhanced by its looks. The strong shoulders, the distinctive front with advanced headlamps, the sleek roofline and the powerfully sculpted rear section with integrated tailpipes – all make for a strong road presence. Inside, a beautifully crafted interior creates a calm yet invigorating environment that creates a unique sense of well-being, just as it befits a Scandinavian design masterpiece.

Add our range of highly efficient Drive-E powertrains and our Sensus technology that connects your Volvo with the world around you – the S60 is truly designed to have you look for any excuse to get behind the wheel.

*"It's designed to have you look for
any excuse to get behind the wheel."*

VOLVO S60

"The car has a beauty that – as with much of contemporary Scandinavian design – is rooted in the natural world."

477 Electric Silver metallic | Titania 8x18"
Diamond Cut/Glossy Black alloy wheels

SCANDINAVIAN DESIGN:

Yes, it looks as good as it performs.

You know when you're driving on a highway; you look in your rear view mirror and see a really striking car's "face" approaching you? That's the Volvo S60.

The road presence comes from its focused and determined-looking headlights, explains Volvo Cars' senior exterior designer Peter Reuterberg. "We were thinking of a wolf's eyes when we designed the car's 'face'. The S60 has a confident, focused expression, like a powerful animal." The scalloped surfaces on the bonnet accentuate the classic Volvo V-shape with a purposeful frown running right down to the headlamps. The car has a beauty that – as with much of contemporary Scandinavian design – is rooted in the natural world. "Those clean surfaces and contours give it a very Scandinavian feel", says Reuterberg. The strong shoulders are another unmistakable Volvo design cue – as is the expressive grille with the iconic Volvo diagonal. They enhance the car's self-confident look and tell the world it's proud to be a Volvo.

THE PROSPECT OF A PERFECT DRIVE.

We've designed the cockpit around you, the driver. Sit in the driver's seat and the dashboard, which is gently angled towards you, puts you in complete command. Inspired by high-performance motor-bikes, we came up with the idea of a single round instrument flanked by two smaller dials. Then, we carefully sculpted the three-spoke steering wheel with the aim of giving you a clear sense of connection between your car and the road.

Where you sit is equally important. Volvo Cars takes pride in designing seats that not only offer great comfort but also outstanding support, so that at the end of every journey you make you will feel as calm and refreshed as when you started. Our sport seats look great

and, true to our commitment to ergonomic design, side support all the way from your thighs to your shoulders ensures that you keep firmly in position, even when you're cornering fast.

Of course, we're committed to a clean environment inside your car as well. As part of CleanZone – our approach on interior air quality, all interior materials in your Volvo are hypo-allergenic and do not emit harmful gases. CleanZone also includes a highly effective dust and pollen filter. And our Interior Air Quality System uses an active carbon filter to reduce harmful gases and particles, allowing you and your passengers to breathe easy – even in polluted cities.

No need to take your hands off your steering wheel as you shift up and down the automatic gearbox in manual mode – just flick through the gears with our optional gearshift paddles. You'll be in total command of your car, with both hands on the wheel. And quicker gear changes for a more responsive drive when you're in the mood.

*"We've designed the cockpit
around you, the driver."*

Upholstery shown not available in the UK

SENSUS

*The intuitive way to
interact with your car.*

Volvo Sensus is our all-encompassing approach that connects you with your car and the world around you. It means you're on the road, but not offline. With Sensus Connect, you turn the 7-inch screen in your dashboard into an internet-connected infotainment hub*. Not only can you surf the web, you can also download apps – from Stitcher to Tuneln. Sensus Connect also gives you access to basic internet maps and routing, and to take advantage of navigation guidance, 3-D views and navigation apps, there's our Sensus Navigation. If you'd like to take your connectivity to the next level, there's Volvo On Call. This option gives you 3G-connectivity with excellent reception through your car's integrated roof aerial, so you can create a Wi-Fi hotspot for all of your devices. Meanwhile, Connected Service Booking allows you to book your car in for a service from the comfort of the driver's seat.

A high-end audio experience is also part of Sensus. That's why we've designed our state-of-the-art Premium Sound with Harman Kardon®. Using 12 high-fidelity loudspeakers, the amplifier is equipped with Dirac Live®, the next generation sound enhancement software. With an incredibly realistic stage sound as well as enhanced bass performance, this sound system provides an unparalleled aural experience for every passenger and connects easily with external media players.

Our digital driver display is another delight. Not only does it give you all the information you need without overwhelming you – its three background modes, Elegance, Eco, and Performance, allow you to adapt the instrument look and interface to your driving desires. The physical controls, such as our floating centre stack with its iconic 'manikin' climate control buttons, are another example of Scandinavian design that's both functional and beautiful. And then there's our eye-catching illuminated gearshifter, which is available for selected automatic gearboxes. Glowing gently in the dark, it adds a touch of atmosphere to your night drives.

*A mobile data plan is required to enable online access and connectivity

"Sensus is about making your interaction with your car intuitive, and ensuring you're on the road, but not offline."

Volvo On Call. Making your life less complicated. Experience a world where you are connected to your Volvo with the Volvo On Call phone app.

Volvo On Call is your digital key to a range of convenient services that will make life easier and enhance the experience of owning a Volvo. Some services you can enjoy today, and more will be introduced later. Volvo On Call also connects your Volvo to the rest of the world and lets you control the car remotely. Check if you've locked the car and lock it if you haven't, or create a wifi hotspot so you and your passengers stay connected to the internet. If you have chosen the Automatic then on cold mornings the remote engine start allows you to heat and defrost your car so that you start the day in comfort. And on hot days use Volvo On Call to cool your car so it's the perfect temperature when you're ready to leave.

Plan journeys at home and send the destination to your car, so that when you're ready to go so is the navigation system. It will sync with your calendar to remind you of appointments and tell you how to get to them.

Volvo On Call is compatible with your smartphone, iPad®, Windows 10 based PC or tablets and wearables such as Apple Watch – you can even operate your car remotely using voice commands with Microsoft Band 2. And should you need roadside or emergency assistance Volvo On Call will connect you directly to the Volvo service centre. If your car's alarm is activated, Volvo On Call tells the service centre, who will contact you. If your Volvo is stolen, Volvo On Call can help the police track your car.

Volvo On Call also informs you of your car's fuel level, logs journey data and tells you when your Volvo is due for a service. It's another example of Volvo Cars developing human-centric innovations to improve your life.

R-Design

612 Passion Red | Ixion II 8x19"
Diamond Cut/Matte Black alloy wheels

Light up the dark. Driving in the dark just became a lot more enjoyable and safer. Our Active High Beam stays on high beam all the time. You don't have to flick between low and high beam, and when you meet or catch up another vehicle the system shades out only as much of your beam as necessary to avoid dazzling – while you still get the benefit of a brightly lit road. And when you enter a city, the high beam shuts off.

INTELLISAFE

*Intuitive safety by Volvo Cars.
For you, and for those around you.*

At Volvo Cars, safety is an intrinsic part of our DNA. We've invented some of the world's most pioneering life-saving technologies – such as the three-point safety belt that's been acknowledged one of the most important innovations of mankind.

But we aim higher. Our vision is that by 2020 nobody should be killed or seriously injured in a new Volvo.

IntelliSafe is our approach for a more harmonious relationship between cars and people. To achieve this, we have infused your Volvo with smart, intuitive innovations for a safer drive. And the IntelliSafe technologies help protect not only the people inside your car – we also consider people on the outside, for example with technology that helps you to detect pedestrians and cyclists.

When you drive at speeds up to 31 mph, our City Safety collision avoidance technology can look ahead of you and help brake automatically if you're about to run into a vehicle in front. To give you more support at higher speeds, our Collision Warning with Auto Brake and Pedestrian and Cyclist Detection can alert you if you're too close to a vehicle and a collision is imminent – day or night. During daylight, the system also reacts if there's a pedestrian in your path or a cyclist ahead travelling in the same direction as your car. And if necessary, your car can brake automatically to help you avoid or mitigate a collision.

To help you stay in the lane, our Lane Keeping Aid technology will alert or intervene if you unintentionally should cross a lane marking – there's even Driver Alert technology that reminds you to take a break in case your driving behaviour shows signs of drowsiness.

Our IntelliSafe technologies also support your daily driving. The Road Sign Information technology keeps you updated on actual speed limits and other important road signs. At night, our Active High Beam stays on high beam all the time to optimise your vision without dazzling other road users. And to make you a bit more relaxed on the road, our Adaptive Cruise Control can maintain your set speed and distance to the vehicle in front. In slow-moving city traffic, our Queue Assist function (only available for automatics) can automatically maintain the selected distance to the car in front – from standstill and up to 18 mph. Our BLIS™ system helps you to early detect other vehicles in your blind spot, while the Cross Traffic Alert function facilitates reversing out of tight parking spaces where your vision can be restricted.

And because we know you love to drive, our active IntelliSafe technologies like Electronic Stability Control add to reassuring driving stability in all conditions without sacrificing the joy of driving. It's simply about giving you the most human-centric experience, on your terms. And helping to keep people out of harm's way, whether they happen to be inside or outside your car.

"Our vision is that by 2020 nobody should be killed or seriously injured in a new Volvo."

SE LUX NAV
467 Magic Blue metallic | Portia 8x19"
Diamond Cut/Silver alloy wheels

READ MORE AT VOLVOCARS.CO.UK

City Safety is designed to prevent you from colliding with the car in front if it stops, or slows suddenly. This advanced IntelliSafe system will automatically brake to avoid a collision and works at speeds of up to 31 mph – an accident can be avoided at a speed difference of up to 9 mph to the vehicle in front.

Because we also care about other road users, our pedestrian and cyclist detection with full auto brake watches out for people walking in your path or cycling in the same direction as your car and applies the brakes if you're unable to react in time.

Our BLIS™ system uses radar sensor technology to alert you to vehicles that are close to or in your blind spots in your adjacent lane. This way, you're far less likely to change lanes when it isn't safe.

When you're reversing out of tight parking spaces, our Cross Traffic Alert function watches out for vehicles you can't see.

DRIVE-E

Enjoying more. Using less.

Drive-E isn't just about our new generation of efficient powertrains, it's about our all-embracing approach to efficient driving. And while we're committed to creating smarter, more innovative technologies to reduce our cars' impact on the environment, we'll never lose sight of the pleasure to be had in driving. In short, we believe you don't need to sacrifice power and superb driveability for efficiency and low CO₂ emissions.

Our Drive-E powertrain range consists of highly efficient, four cylinder petrol and diesel engines, up to 2.0-litre. We've mated these turbocharged, low-friction, light-weight powertrains with our all-new eight-speed automatic gearbox, which ensures you get optimum performance at any engine speed.

Your Volvo also has an ECO+ function which can reduce fuel consumption by up to five per cent, depending on driving style. ECO+ not only optimises shift points, engine control and throttle response. It also includes an ECO coast function. This disengages the clutch when you release the accelerator at speeds above 40 mph: instead of the engine braking the car and using up fuel in the process, your Volvo will coast along using its kinetic energy. And further reducing your CO₂ emissions in the city, our Start/Stop technology helps eliminate idling at standstill.

Our Drive-E diesel powertrains have additional technologies designed to reduce fuel consumption and emissions. Twin turbochargers and the revolutionary i-ART ensure that these intelligent engines provide responsive, clean and efficient performance – each cylinder has its own microchip and pressure sensor for perfect metering of fuel. Better still, these advanced engines remain in precise tune even after years of use.

"With our new generation 2.0-litre, four-cylinder Drive-E powertrains you don't need to sacrifice power and superb driveability for efficiency and low CO₂ emissions."

WHEN YOU ACCELERATE OUT OF A CORNER... IT'S LIKE IT CAN READ YOUR MIND.

We've focused on the S60's natural driving dynamics so that its actions immediately correspond to your desires.

When you accelerate out of a tight corner, for example, your S60 will follow the path you choose with almost telepathic accuracy. Drivers will love Corner Traction Control, a torque vectoring system that helps you avoid understeer by applying just the right amount of power and brake force to the inner and the outer wheels as you accelerate out of a corner. You'll find this particularly handy when you're merging into fast moving traffic from a side road.

What's more, a good chassis is the foundation behind any great handling car, and S60 owners can choose from two individual chassis types: Dynamic and our R-Design Sport chassis. We've spent thousands of hours perfecting and tuning them. We think you'll be thrilled by the result: a responsive, in-command driving experience, whichever option you choose.

YOUR JOURNEY BEGINS HERE.

We created the S60 with one single purpose: to provide you with a car that perfectly fits you and your lifestyle. A car that meets your expectations of a dynamic drive with relaxed comfort and elegant design – built with care for people and the world we share. A car that's intuitive to use and makes life less complicated, and is a pleasure to live with every day.

At the heart of your S60 is a dynamic, efficient powertrain. Whichever you choose, you will enjoy our latest Drive-E technology

that gives you instant response and a smooth ride. Fuel consumption and CO₂ emissions are kept low, and our powertrains already comply with future exhaust emission legislation.

Our Drive-E powertrain range includes advanced diesel and petrol engines mated to our smooth eight- or six-speed Geartronic™ automatic gearbox or a distinct six-speed manual gearbox, available with responsive AWD all-wheel drive technology or front-wheel drive.

Make your choice, and enjoy the journey wherever it takes you.

T4

With our 190hp/300Nm T4 petrol powertrain you can enjoy a smooth, responsive and highly efficient driving experience. Already from low revs, it delivers a steady flow of power for excellent driveability in all conditions. Available with a 6-speed manual gearbox or our 6-speed automatic.

D4

Our sophisticated 190hp/400Nm D4 diesel powertrain allows you to enjoy more while using less. Available with a distinct 6-speed manual gearbox or our smooth 8-speed automatic, the D4 will give you the most efficient and confident driving experience.

D3

We designed the 150hp/320Nm D3 diesel powertrain to give you the ultimate combination of fuel economy, performance and refinement. Available with a 6-speed manual gearbox or a 6-speed automatic, the D3 is a perfect partner for any journey.

D2

With our 120hp/280Nm D2 diesel powertrain you can enjoy superb efficiency without having to sacrifice the fun of driving. Mated to a 6-speed manual gearbox or our 6-speed automatic, this powertrain gives the ultimate combination of performance and fuel economy.

Volvo S60 Business Edition
The high level of standard equipment meets your demands on style, comfort and safety.

Volvo S60 SE Nav
Heighten the premium look and ambience of your Volvo sport sedan.

Volvo S60 SE Lux Nav
The highly sophisticated expression of Swedish luxury.

Volvo S60 R-Design Nav
The thrill of a spirited drive, characterised by style, responsiveness and control.

CREATE THE VOLVO S60 OF YOUR CHOICE.

Our approach in everything we do is to always put people first. This also includes allowing you the freedom to create a Volvo that perfectly matches your style and personality.

To ensure you get your S60 exactly as you want it, we have created a wide range of options, trim levels and personal expressions. Even if your S60 is generously equipped already in the standard Business

Edition trim level, you may want to enhance the experience even further with SE Nav trim level. Maybe you want to indulge your senses in the finest Swedish luxury? Then you'll feel at home with SE Lux Nav. Or if you're in for a more sporty style inside and out, take a look at R-Design. Whatever you prefer, you can rest assured there's a Volvo S60 for you. Read on, and see what your S60 will look like.

THE RIGHT EQUIPMENT FOR YOUR DRIVE

Choosing a Volvo S60 is easy. And now all you need to do is select the trim level that's right for you. Already the equipment level Business Edition will provide you with a high level of technology that will meet high demands on style, comfort and safety. For example, our electronically-controlled dual-zone climate system ensures you and your passengers can enjoy a comfortable cabin climate in all temperatures – the driver and front seat passenger can adjust the temperature to suit individual preferences. And of course: you get our world-leading IntelliSafe technologies including the award-winning City Safety collision avoidance technology and advanced Electronic Stability Control as standard.

To further enhance your Swedish luxury experience, there's the option of our SE Nav trim level. Bright deco exterior design elements

together with larger 17-inch wheels will add to the exclusiveness and road presence of your S60, while the sporty elegant leather-faced upholstery and Milled aluminium decor inlays complement the interior ambience. With SE Nav, you can also enjoy the clear sound reproduction of our High Performance audio system including Bluetooth® music streaming and convenience enhancing features such as rear park assist. And when driving in the dark, choosing the Active Bending Lights with Dual Xenon illumination technology allow you to enjoy the benefit of boosted vision round bends at night. Adding our Active High Beam functionality, you can stay on high beam all the time without dazzling other road users.

A HIGHER GRADE OF LUXURY

We created the S60 SE Lux Nav to meet your highest expectations of Swedish luxury. It's a personal expression that evokes a strong sense of elegant refinement. Each detail is there to give you and your passengers a sophisticated and invigorating experience. Distinguished exterior design cues enhance the luxurious look and

feel of the S60, while the meticulously crafted interior gives you ample room for a relaxed driving experience. The S60 SE Lux Nav epitomises our proud heritage of human-centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the S60 SE Lux Nav is in a class of its own – just like you.

SE LUX NAV

Includes SE Nav trim level plus the following:

Digital driver display | Power driver seat with memory function for seat and side mirrors | Rear armrest with cup holders and storage | Chrome front deco | Keyless Drive with PCC | Active TFT Driver Display | Active Bi-xenon headlights | Headlight cleaning system | Rear centre armrest with storage and cup holders

1

SE Lux Nav is Volvo S60 in its most luxurious guise. Well-judged exterior design cues such as front chrome inlays combine with the stylish 17-inch alloy wheels to enhance the car's timeless Scandinavian design. The wheels also contribute to the car's confident stance.

Inside, the luxurious theme continues with authentic, finely crafted materials that create a lounge-like atmosphere of sumptuous well-being. As a driver, you can lean back in a sculpted power-operated Comfort seat with smooth leather upholstery and enjoy the intuitive view of the digital driver display. Depending on your mode, this display gives you three graphic modes to choose from: the default mode Elegance with its stylish black colour theme, the green Eco mode and Performance mode in striking red. The memory function of the power seat allows you to store your settings both for the seat and the

door mirrors. Every time you use your remote control to unlock the car, the driver's seat and the door mirrors will automatically adjust to your last settings. And for your passengers in the leather rear seat, an armrest with cup holders and storage adds to relaxed comfort and convenience.

For an exceptional sound experience inside your S60 SE Lux Nav, you can add our powerful high-end audio system Premium Sound by Harman Kardon® with 12 hi-fi loudspeakers that provides a rich, clear and faithful sound wherever you're seated. This audio system also comprises Sensus Connect with the larger 7-inch centre display that gives you full access to a wide range of online services and apps. Add our advanced Sensus Navigation system, and you'll enjoy integrated, intuitive guidance all the way.

RDESIGN

INSPIRED BY THE ART OF DRIVING

If you love to drive, the S60 R-Design is for you. With a unique personality, R-Design captures the thrill of a spirited driving experience characterised by style, response and control. A wealth of distinguished design details raise the dynamic soul of your Volvo sports sedan and give it a more sporty, distinct road presence. It's an expression that catches the eye from every angle and hints the promise of an amazing drive, every time. And you can rest assured

the S60 R-Design will deliver. Surrounded by meticulously crafted and expressive interior design details, you can feel it already the moment you take your position in the sculpted R-Design sport seat. Everything – from the R-Design steering wheel and digital driver display, to the Charcoal headliner – is there to inspire and support your drive. And for even better cornering, the S60 R-Design benefits from a fine-tuned sport chassis.

R-DESIGN NAV

R-Design is Volvo in smart designer sports gear – it's all about a performance-inspired look and feel, both inside and out. It's a truly eye-catching expression with sporty exterior design cues, such as its own distinctive grille in Matt Tech Black with high-gloss stripes, front spoiler, Bright Silver matt finish door mirror caps and striking 18-inch alloy wheels. At the back, prominent chrome dual tailpipes and a motorsport style rear diffuser with aero fins add the perfect finishing touch.

On the inside, the sporty theme continues with unique R-Design decor inlays, Charcoal headlining and R-Design sport seats in Nubuck Textile/leather or leather-faced. Together, these features give the cabin a technical, cockpit-like feel. Contrasting stitching in the seats, the gear shifter gaiter and the steering wheel in perforated leather all reinforce the sporty yet elegant ambience. The

deeply sculpted R-Design sport seats will embrace you from the thighs to the shoulders for the comfortable support and in-command feel you expect of a true driver's car. Further adding to your sense of being in control, the R-Design also provides you with a digital driver display with a unique R-Design display mode.

Behind the wheel, you can enjoy the sharp response and feedback from quicker steering and a finely tuned R-Design sport chassis. Lower and firmer, this chassis features adjusted anti-roll bars and stiffer springs. The unique rear monotube dampers are designed to respond more quickly for improved body control in all conditions. Stiffer bushings together with a front strut brace that stiffen up the body structure give more controlled roll and body movements, resulting in a sporty road-hugging drive without you having to compromise ride comfort. The S60 R-Design is available with all powertrains.

1. The R-Design Matt Tech Black front grille and spoiler with LED day running lights and the door mirror caps in silk matt silver look add to the dynamic character. **2.** The R-Design interior featuring R-Design leather steering wheel, digital driver display in R-Design mode, leather gear shifter gaiter, R-Design decor inlays and sport aluminium pedals. **3.** The sculpted R-Design sport seats with unique Nubuck Textile leather upholstery and contrasting stitching for a dynamic touch. **4.** The R-Design rear diffuser with integrated dual tailpipes for a distinctive road presence. **5.** The stylish R-Design tread plates in Silk Metal finish greet you onboard.

The exterior leaves no doubt about the intention of your S60 R-Design. The exterior colours are carefully selected to match the car's dynamic character – each with its unique expression. For example, the R-Design exclusive Bursting Blue metallic adds a techy, sporty

look that perfectly highlights the body inserts in high-gloss black and silk metal finish. The new stylish Ixion five-spoke R-Design 18-inch or 19-inch wheels give your S60 R-Design a dynamic road presence that puts your sports sedan in a class of its own.

Behind the wheel in your S60 R-Design, you can enjoy a dynamic and driver-focused interior made of high-class materials. The sculpted R-Design Sport seats will provide relaxed support through any twist the road has in store, while the exclusive Nubuck Textile/leather or

leather upholstery with contrasting stitching provide a sporty yet sophisticated feel. A sensation further enhanced by the R-Design decor inlays that perfectly complement the Charcoal interior.

Our park assist camera, front blind view helps improve your overview when manoeuvring in tight spaces.

DESIGNED FOR YOUR LIFE.

Create an S60 that's perfect for your life, with Volvo accessories that are designed around you and your car.

Adding our illuminated sill mouldings, you'll enjoy a sophisticated welcome every time you open the front door and enter your S60 – the Volvo logo embedded in the brushed stainless steel footstep lights up together with the interior lighting.

To make driving more relaxed we have developed technology such as our park assist camera, front blind view. It allows you to see around corners with a 180° field of vision as you negotiate tight exits with restricted visibility. And facilitating reversing, our rear-view camera shows what's going on behind your car on the centre display. On-screen guiding lines provide extra assistance for smooth parking.

Illuminated sill mouldings add an exclusive touch every time you enter your Volvo.

MAKE THE S60 YOUR OWN.

To reinforce the dynamic stance of your S60, you can customise it with our Exterior Styling Accessories, which are available in Matt Silver or Matt Iron Stone.

Our eye-catching front skid plate gives your S60 an even more purposeful look, with a metallic colour that's beautifully accentuated as it catches the light. The side scuff plates emphasise the sleek, coupé-like lines, visually connecting it close to the road. The rear skid plate with beautifully sculpted double integrated tailpipes boldly underlines the sporty character.

GET MORE FROM LIFE.

Our Rear Seat Entertainment system makes every long journey a fun-filled event by transforming the rear seat into an entertainment centre. The rear seat passengers can enjoy their favourite films or play games on integrated 8-inch touch-screens with dedicated DVD players. Wireless headphones and a remote control are included, too.

Our new child seats combine comfort with state of the art safety and are designed to fit perfectly into your Volvo. Made from Wool-textile cloth, which is 80% wool, they're durable and tough but also soft and breathable, so your children stay comfortable and safe. We apply the same stringent standards to our child seats as we do to building our cars, so you know your children are well protected.

Further enhancing the load capacity of your S60 when you need it, you can add our load carriers. Easy to fit onto the car's prepared roof mounts, they instantly allow you to fit our load carrier accessories, from the ski rack to the canoe and kayak holder. Our stylish, aerodynamically designed roof boxes fit straight onto the load carriers, adding extra carrying capacity. Our detachable tow bar gives you the ability to tow and is easy to remove when not in use.

Your Volvo Cars dealer can also offer a wide range of winter wheels for safe driving during the wet and cold season.

SERVICE BY VOLVO. A SIMPLER WAY.

When you buy a Volvo, you buy the simplest way to have a car. No matter what your car may need, your authorised Volvo workshop will take care of it for you and make sure that your Volvo stays in tip-top shape.

We have our own approach to service that's personal, efficient, and which takes care of you as well as it takes care of your

car. We call it Service by Volvo and it will provide everything you need in the simplest way possible.

Your Volvo Cars dealer offers a whole range of simplifying services all designed around you, ensuring you a carefree ownership experience. Still, this is just the beginning. Soon, you will also get a Personal Service

Technician, your car will be ready within the hour and you can relax in our lounge instead of driving back and forth. It's because everything we do is about finding new ways to make life simpler for people, with our cars as well as our service.

HAVE YOU GOT YOUR VOLVO ID?

A Volvo ID allows you to access a whole world of connectivity with your Volvo. With your Volvo ID, you can:

- Access your My Volvo account on volvocars.co.uk for car information
- Access internet services and apps in your car, including connected service booking
- When applicable, sign in to the Volvo On Call app and connect with your car from everywhere

CONNECTED SERVICE BOOKING

If your Volvo has Sensus Connect, it will remind you when it needs servicing and offer to contact your Volvo dealer for you. Booking proposals sent from your preferred dealer can easily be managed directly in the car. When the time comes to drive to your workshop, your Volvo will remind you and even guide you there. And since your Volvo tells us what it needs, we can make sure it always receives the service it requires when it gets there.

Welcome to Volvo Car Lifestyle Collection. Our Lifestyle Collection includes a wide range of lifestyle accessories – from Swedish crystal and crafted leather bags, to clothing, watches and sunglasses. To view the complete collection, please visit collection.volvocars.com

THE VOLVO EXPERIENCE
