WE ARE REDEFINING PERSONAL MOBILITY

Our aim is to provide freedom to move in a personal, sustainable and safe way. We do this by putting your needs first – using the best available technology to serve you, inventing new technology where none already exists and combining technologies to deliver new experiences.

At Volvo Cars, we have always put people first. We believe that technology should set us free – not restrain us. The car shall be an enabler of a richer, less complicated life. And as a progressive provider of personal mobility, we want to enable a future of fully connected, fully electrified and self-driving cars.

We are committed to pursuing our visions:

- No one should be seriously injured or killed in a new Volvo car by 2020.
- We want to give back one week of quality time per year through a new Volvo car by 2025.
- Around 50 per cent of the cars we produce and sell will be electric by 2025.

These visions reflect our commitment to protecting what's important to you and the world we share. This is summarized in the Swedish word "Omtanke" which stands for caring and consideration. It also means "to think again", so we collaborate with some of the world's top tech companies to nurture innovations that will take us into a better, more sustainable future.

Our goal is to make your life easier and more enjoyable – and to give back that sense of joy and freedom that the car represents.

DESIGNED TO PERFORM, CRAFTED TO IMPRESS

The luxury sedan, redefined.

When we designed our new executive sedan we had a single aim: to create a car that would redefine the idea of luxury. The result is the Volvo S90, a car that blends the best of Scandinavian design with advanced technology to give you a new experience, beyond the commonplace and everyday. A new kind of luxury. Swedish luxury.

The powerful, low-slung body, with the classic Volvo hallmark of a wide and muscular shoulder line, expresses the car's intent. It's confident and assured, the embodiment of a design philosophy that extends inside the car, where you'll discover a cabin crafted from exceptional materials such as Swedish crystal and flame birch.

In the S90, technology supports you without overwhelming you. From advanced driver assistance technologies that make driving both safer and more enjoyable to the T8 Twin Engine with plug-in hybrid technology, each of the advanced features has been engineered to improve every journey.

Underneath the crisply sculpted exterior lies a chassis that delivers the perfect combination of precise handling and first-class comfort.

Smart technology keeps you seamlessly connected with the car and the world around you. And with the very latest in safety innovations, you will travel safe in the knowledge that your S90 will help looking out for you, your passengers and other road users.

Elegance, craftsmanship and technology – this is how a modern luxury sedan should be.

T5 | Inscription
721 Mussel Blue metallic

Classically Volvo, distinctly modern. Combining powerful proportions with Scandinavian subtlety elevates the S90 beyond the everyday. The long bonnet and low roofline suggest power and grace, while the sculpted shoulder line identifies the S90 as a Volvo.

Small details make a big impact. Fine detailing and bold shapes combine to create a strong impression. Integrated end pipes add to the design's coherence, while the shape of the LED rear lights gives the S90 real presence, whether moving or stationary.

T5 | Inscription

721 Mussel Blue metallic | 20" 8-spoke
Silver Diamond Cut alloy wheels, 214

DESIGNED FOR CONTROL

Precision and accuracy at every touch.

From the moment you settle into the sculpted driver's seat you're in control. You sit low in the S90, with the 9-inch centre display with touch screen angled towards you to create the feeling of a cockpit. You're surrounded by an environment where beautiful materials and advanced technology meet, creating a cabin that looks great and works perfectly.

The exceptional craftsmanship enhances the feeling of precision. Take the air vents, for example. With a metal-finish vertical strip and distinctive diamond-pattern surfaces for the control knobs they are beautiful to look at and a pleasure to use. In the S90 every component moves with the accuracy afforded by fine engineering. It is a car that gives you control over every part of your journey.

EXPERIENCE A NEW WAY TO TRAVEL.

Travel first class in every seat, every day. Because when you're in the S90 you're in your own private lounge, a place where comfort and luxury combine with technology and craftsmanship.

It starts with the front seats. Sculpted to complement the human form, they provide superb support and a huge range of adjustment, so everyone can find the ideal seating position. The shape of the backrests increases legroom for passengers in the rear, and individually controlled heated rear seats mean everyone benefits from the same levels of comfort.

At night the cabin glows with the warmth of its interior lighting, welcoming you into the car. The optional high-level illumination package includes backlit door handles and illuminated tread plates, as well as additional interior lighting that enhances the exclusive ambience.

Our CleanZone technology helps ensure a healthy interior environment and clean cabin air. It filters dust, pollen, particulates and odours while monitoring the air quality and closing the intakes if pollutant levels rise too high. It happens automatically – all you need to do is set the temperature you want and the S90 does the rest.

Optional four-zone climate control allows rear seat passengers to choose their own settings using a dedicated touch screen. It also includes an air-conditioned glove compartment that keeps its contents cool.

You'll appreciate the details that make your life easier and more pleasant. For the power operated boot lid there's a hands-free function, so you don't have to put down what you're carrying to open it. In the S90, technology and convenience go hand in hand.

In the driver's seat you're in charge. Control functions such as navigation and entertainment from the steering wheel buttons, while the 12-inch driver display keeps you informed.

Every element of the cabin is crafted to make form and function one. The door handles can be backlit, making them easier to find in the dark.

Beautiful, natural materials such as Linear Walnut complement the car's advanced technology, creating a uniquely contemporary look.

STAY CONNECTED AND IN COMMAND.

We create technology to serve you and make life easier. Everything that's complicated or doesn't add to your experience is removed.

You control your Volvo intuitively and easily. And seamlessly connected with the car and the world around you, you're in command of every aspect of your journey.

At the focal point of the cabin, you find a sleek 9-inch centre display with touch screen. It's as easy and straightforward to operate as your smartphone, with bold, clear graphics so you can keep your attention on the road. The touch screen blends seamlessly with the car's clean interior design and is easily operated. You can even operate it wearing gloves.

Essential driving information is clearly presented in our 12.3-inch driver display. It adapts to your needs, preferences and surrounding light, so information is always shown on your terms.

For even better control, our head-up display projects vital driver information at a comfortable view distance. It looks like the graphics hover in front of the car, which allows you to stay informed without taking your eyes off the road.

Your Volvo also listens to you. Keep both hands on the steering wheel and speak naturally: our voice control will carry out your command to operate climate control, navigation, entertainment and your smartphone.

In a Volvo, you and your car act as one.

Sensus Navigation

Let Sensus Navigation guide you, inform you and help you find the best route. Road directions are clearly shown in the driver display, centre display and head-up display. Touch screen controls allow you as well as your passenger to operate the system conveniently and safely. Or talk naturally to your Volvo, and let our voice control carry out your commands while you can keep full attention to traffic. With the Volvo On Call app, you can also send the destination to your car before you go. And helping to save time, our in-car navigation apps can help you find and pay for parking, share your location with friends or simply find the best coffee in town. If you drive our T8 Twin Engine plug-in hybrid, the navigation system can also help you optimize the use of pure electric power all the way to your destination. Free life-time map updates ensure your navigation system is always up to date.

FEEL THE MUSIC.

Inside the cabin of your Volvo you can enjoy an audio system designed to put you closer to the music you love, wherever you're seated.

All our audio systems are tailored to the acoustics of your Volvo. Our audio philosophy is very simple: it's all about the soul of music, not the number of speakers or watts. And together with the audio specialists at Bowers & Wilkins and Harman Kardon®, we have created some of the best-sounding audio systems in the class.

Harman Kardon® Premium Sound delivers a beautifully balanced, powerful sound. This immersive experience is enabled

by 14 hi-fi speakers including an air-ventilated subwoofer that produces a bass sound you'll feel in your body.

If you're truly passionate about music, the Bowers & Wilkins audio system with a full 1400W output will take the experience to an even higher level. The 19 separate high-end speakers – including a tweeter-on-top centre speaker that minimises acoustic reflection from the windscreen and our unique air-ventilated subwoofer – will surround you with a powerful, pristine sound that feels more spacious and true to life than ever.

It's all about music and making it possible for you to experience it just as it was intended when it was created.

Harman Kardon® Premium Sound is developed together with the hi-fi specialists at Harman Kardon®. Powered by a 600W digital amplifier, the 14 speakers are tailored to the acoustics inside your Volvo and deliver a powerful, high fidelity surround sound experience. A unique sound processing software – Dirac® Unison Tuning – optimises the response of each individual speaker as well as the speakers all together to ensure they perform in perfect harmony. So wherever, you're seated, you and your passengers can enjoy a seamless first-class listening experience in all conditions and – not least – an extremely unified and tight bass sound.

Our Bowers & Wilkins audio system integrates seamlessly with the cabin architecture of your Volvo to deliver the most realistic immersive sound possible. Innovative audio processing technology with three room modes allows you to recreate the acoustics of a specific room inside your Volvo, bringing you even closer to the music. And to enable extremely low and undistorted bass tones, the air-ventilated subwoofer uses innovative technology that allows it to pulse large amounts of air, actually turning the cabin into one big woofer.

Smartphone integration. Use your smartphone in a smarter way. Via Apple CarPlay™ or Android Auto™, you simply integrate the familiar functions and interface of your smartphone* with the car's centre display. You can enjoy music, make calls and send messages easily via the car's touch screen, steering wheel buttons or voice control.

*Supports iPhone® (5 or later) or Android smartphones (5.0 Lollipop or later).

Intuitively connected. You operate the audio system and hands-free phone easily using the touch screen controls, steering wheel buttons or voice control. Bluetooth® connection also allows convenient streaming of music via your phone. Within easy reach on the car's touch screen, there's also a Spotify® in-car app that makes finding new music quick and easy without you having to connect your phone. Using Volvo On Call, you can also create a wifi hotspot in your car with a stable internet connection for you and your passengers' mobile devices.

VOLVO ON CALL. ALWAYS THERE WHEN YOU NEED IT.

The Volvo On Call app connects your car with the rest of your world, helping make life less complicated. It's there when you need it, so your car becomes more than just a means of travel – it's your personal assistant.

It can tell you about the best coffee in town and send the destination to your car's navigation system. It knows when you've got appointments, where they are and how to get there. You can use it to make your car ready for the drive to the office, or the drive home, by remotely cooling or heating the cabin. It can help you find a parking space, then take you straight to it. And it helps to keep you safe, automatically contacting emergency services if you're involved in an accident and telling them where you are.

Volvo On Call keeps you connected to the things you need. It's always on. Always with you. Always there.

YOUR DAY MADE EASIER WITH VOLVO ON CALL

From saving you time in the morning to helping you relax on the way home, Volvo On Call can be an indispensable part of your daily routine.

THE PERFECT START

When you get into the car in the morning it's warm and defrosted, thanks to the Volvo On Call app's ability to run the engine. En route, you press the On Call button in the car and ask the operator to send your destination to the car's navigation system, so you don't have to manually enter it.

07.30

11.00

WHERE NEXT?

A calendar card shows your next meeting. You push a button in the app, sending the address to the car's navigation system.

FIND YOUR CAR

You've forgotten where you parked, so you use the car locator map to find the street and then use the flash lights function to pinpoint the car.

REMOTE CONTROL COMFORT

You set the engine to pre-heat or pre-cool the car interior so it's ready for when you leave the office.

12.00

13.00

17.15

22.20

WIFI ON THE GO

You pick up some colleagues. Using Volvo On Call, you create an in-car wifi hotspot with a strong internet connection for their mobile devices.

READY FOR A NEW DAY

A notification reminds you that you've got a meeting in the morning. You send the location to the Sensus Navigation system.

PILOT ASSIST. DESIGNED TO MAKE DRIVING SAFER AND EASIER.

Our latest advances in supportive driving technologies allow you to enjoy smooth, intuitive driving from standstill up to motorway speeds.

To make driving in demanding traffic less stressful, we created Pilot Assist and Adaptive Cruise Control. This means your Volvo automatically helps you maintain a safe distance from the car in front of you by adapting your speed while helping to keep you centred in the lane by automatically making small steering adjustments. It's intelligent too: using map data from the car's navigation system, the car identifies hills and curves ahead and adapts the speed to help optimise your comfort and safety. When the system deactivates, you are notified by a discreet vibration in the steering wheel.

This technology also makes driving in stop-and-go traffic more effortless. Maintaining the set distance, your car follows the car ahead of you and can brake automatically to full stop when needed. And if the car in front just makes a short stop, your car starts following it as it takes off again.

This is driving made safer and easier safe and easy, with the aim to optimise your control, comfort and convenience.

Please note: The driver is always responsible for how the car is controlled, the functions described here are only supportive.

CITY SAFETY TECHNOLOGY. YOUR PRO-ACTIVE PARTNER ON THE ROAD.

With advanced pro-active safety technology we add extra power to your senses and enhance the confident feeling of being in control.

At the heart of our safety technologies is City Safety. By helping you to keep a lookout and brake if necessary, it makes driving more enjoyable while helping to prevent accidents.

City Safety can identify other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you if needed and can brake automatically to help you avoid a collision or reduce the impact. And our advanced Oncoming Mitigation by Braking technology – a Volvo safety world first – can detect if there's another vehicle driving towards you and can brake automatically to help mitigate the impact.

Your Volvo can also support if you're forced into evasive action at speeds between 31 and 62 mph. As you begin to steer away, City Safety can help you doing it as effectively and safely as possible by braking the inner wheels individually and reinforcing your steering input.

City Safety is simply your perfect partner: pro-active when it's needed, and staying discreetly in the background the rest of the time.

Connected Safety

This safety innovation can help you to foresee potentially hazardous traffic situations, for example if there's another connected car ahead with activated hazard lights. And using actual weather and infrastructure information, Connected Safety can also alert you if there is a risk for slippery road. This information can also be shared with other connected cars.

Oncoming Mitigation by Braking

A Volvo Cars safety world first, this innovation can detect vehicles heading towards you on the wrong side of the road. If a collision can't be avoided, it can brake your car automatically and tighten the optional prepared front safety belts in order to help reduce the effect of a collision.

Oncoming Lane Mitigation

Using automatic steering assistance, this system helps you avoid collisions with oncoming vehicles. If you drift across the lane markings in the way of an oncoming vehicle, your car can alert you and gently help steer you back into the correct path.

Lane Keeping Aid

If you're about to cross a lane marking unintentionally, the Lane Keeping Aid can gently help steer your car back into its lane. If this is not enough or you keep steering across the lane markings, you'll be alerted with vibrations in the steering wheel.

Run-off road Mitigation

Stay safely on the road with this Volvo Cars safety innovation. If Run-off road Mitigation detects you're about to leave the road unintentionally, it can provide steering input and, if necessary, brake support to help guide you back on track.

BLIS™ with Steer Assist

BLIS™ can alert you when a vehicle enters your blind spot or approaches fast from behind. If you nonetheless drift into the path of another vehicle, BLIS™ can gently help steer you back into your lane.

PERFECT PARKING, EVERY TIME.

In a Volvo, you can enjoy smooth parking.

Our navigation system gives you access to an in-car app that helps you find the nearest free parking space and even pay for it. When parking, you're supported by front and rear park assist functions that alert you if there are obstacles in your way. And by adding our 360° camera, you get a detailed bird's eye view of the area surrounding your Volvo – a great help when you reverse or manoeuvre in confined areas with impaired visibility.

If you want, our Park Assist Pilot can help park the car for you. It measures the parking space, and if the space is at least 1.2 times the length of your car it can park by taking over the steering – you just control the brakes and gears. Park Assist Pilot handles both parallel and perpendicular parking, and can also assist when leaving a tight parallel parking space.

And to make it easier when you reverse out of a parking space, Cross Traffic Alert with Autobrake helps you keep a lookout on approaching vehicles in your blind sectors. It can even brake for you if it detects an imminent collision.

360° camera

The 360° camera uses images from discreetly mounted cameras to create a bird's eye view of your car and its closest surroundings. In the centre display, you can see obstacles all around you, which makes it easier to park and manoeuvre in tight spaces.

DESIGNED TO PROTECT.

Protecting you and your passengers has always been at the heart of every car we make, and the advanced safety features in your Volvo are the result of decades of passionate innovation.

In a Volvo, it's the interaction between all the safety features that determines how efficiently the car will protect you and your passengers in a collision. Everything, from the design of the seats to the surrounding safety cage and the safety belts and airbags, works together to help minimise the strain on all occupants and maximise protection.

The front seats not only provide world-class comfort. They are also designed to protect you in the event of an impact. Our unique whiplash injury protection helps protect your back and neck if your car is hit from behind. And in a Run-off road

scenario, the energy-absorbing front seat structure will help protect your spine in a hard landing, should the car become airborne.

Your Volvo can even sense and prepare for impact. The optional prepared front safety belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur. And in the event of an accident, your Volvo can automatically contact emergency services using Volvo On Call and communicate the car's location so that you can get help as quickly as possible.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

Crash-absorbing front seats

The sculpted front seats in your Volvo are more than just beautiful to look at. Their unique structure helps to absorb vertical impacts, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

Volvo safety cage

The passenger compartment uses a high percentage of ultra high-strength boron steel to create a protective cage around everyone inside the car, while front and rear deformation zones help dissipate the crash energy. The safety belts and airbags work together to cushion you and your passengers in a controlled fashion.

Child safety

At Volvo Cars we've spent decades continually researching and improving child safety. Our unique approach includes creating and carrying out tests based on real-life traffic situations, as well as testing our child seats alongside our cars. With our latest range of child seats, we offer unparalleled protection.

ENJOYING MORE, USING LESS.

With the perfect balance between performance and efficiency, every Volvo powertrain gives you a great drive with low fuel consumption and reduced emissions.

The combination of lightweight, low-friction engine design and advanced boosting technology allows you to enjoy outstanding performance and a smooth, agile driving experience. Smaller engines lose less energy through friction so they can make every drop of fuel work harder to minimise emissions. We've used low-friction components to make them run smoother and more efficiently. Reduced size and weight also frees up interior space and contributes to the car's dynamic handling.

This innovative approach also makes driving fun. Choosing the 235hp D5 diesel powertrain, you can enjoy PowerPulse. At lower speeds and from standstill, it activates the turbo-charger as soon as you press the accelerator to give an instant boost of acceleration. And if you go for our 310hp T6 petrol powertrain, a combined supercharger and turbo give you instant power at all revs. It's Volvo technologies like this that allow you to experience the power of a much larger engine from a compact four-cylinder, so you get the perfect mix of power and efficiency.

All our powertrains are quiet and smooth to give you a relaxing journey. In our diesel engines, for example, the i-ART injection technology precisely meters exactly the right amount of fuel for each cylinder to make the engine run more smoothly while using less fuel. And to help minimise health-impairing emissions, the latest generation emission control with Selective Catalytic Reduction reduces emissions of nitrogen oxides (NO_x) by up to 90%.

Precise manual transmissions and our eight-speed Geartronic™ automatic gearbox make the most of each engine's potential. Designed to minimise power loss and maximise performance, Geartronic™ will always select the right gear for whatever is coming next, or you can choose to change gear yourself in manual mode.

The powertrain can also adapt to the mood you're in. Select Comfort, Eco, Dynamic or Individual mode with our drive mode control, and the powertrain, steering and optional active chassis adapt instantly to your preferences.

Whichever powertrain you choose for your Volvo, you will enjoy the benefits of responsive power and uncompromised efficiency – simply a great drive.

POWER WITHOUT COMPROMISE.

With advanced powertrain technologies, such as electrification, we aim to provide you with an unrivalled driving experience. The high-performance T8 Twin Engine AWD with plug-in hybrid technology allows you to enjoy an involving drive as well as as reduced CO₂ emissions.

The combination of a high-performance four-cylinder petrol engine and a powerful electric motor offers the power and performance of a much larger engine, but use much less fuel. The 303hp petrol engine drives the front wheels and the 87hp electric motor powers the rear, giving instantaneous acceleration and on-demand all-wheel drive.

With just the electric motor powering the car in Pure mode, you can benefit from silent, emissions-free driving and an electric-only range up to 31 mph which is ideally suited to daily commuting.

Four different drive modes offer precise control over the car's powertrain. Hybrid mode uses petrol and electric power for the best balance of power and efficiency while Pure mainly uses the electric motor to enable zero-emission driving. Power combines

the full output of the petrol engine and the electric motor for the best performance, while AWD switches to full-time all-wheel drive. Blend your favourite elements of each mode and create a mode that's tailored to your needs by selecting Individual.

Controlling this technology is intuitive and straightforward. A beautiful machined-alloy roller switch allows you to flick easily between modes. The latest shift-by-wire technology allows effortless operation of the gear selector. And when braking, you can enjoy the smooth control provided by our new, efficient brake-by-wire system.

Charging the 11.6 kWh lithium-ion battery is quick and easy. Drive the car and the battery charges itself, thanks to regenerative braking. If you need to top it up, just plug it into the mains supply or at a charging station. Adding to your convenience, the Volvo On Call app shows battery and charge status. It also allows you to remotely schedule battery charging using a timer function.

The T8 Twin Engine AWD gives you the best of both worlds. Power without compromise.

Made from Orrefors® crystal glass, the gear selector in the T8 Twin Engine Inscription blends traditional Swedish materials with advanced design and technology. The latest shift-by-wire technology allows even smoother operation of the gear selector.

The combined power of a turbocharged petrol engine and a responsive electric motor makes the S90 T8 a true performance saloon.

T8 Twin Engine AWD | Inscription
707 Crystal White pearl | 20" 10-spoke
Silver Diamond Cut alloy wheels, 1030

The way we've designed the T8 Twin Engine gives you more than just efficiency – you will notice how well balanced and responsive the car feels on the road, and how quickly it reacts to changes of direction. By mounting the electric motor over the rear axle and fitting the battery along the car's centreline, we've given the S90 with near-perfect weight distribution, a key element in creating agile handling.

The battery's location helps give the S90 a low centre of gravity, so it is stable, sure-footed and comfortable. And because the battery is not in the boot, you get the same luggage capacity in the T8 Twin Engine as you do in all other S90 models. Our cars are designed from the outset to use plug-in hybrid technology, so your experience with them is never compromised.

T5 | Inscription

721 Mussel Blue metallic | 20" 8-spoke
Silver Diamond Cut alloy wheels, 214

DRIVEN TO PERFECTION.

We designed the S90 from the ground up for precision and comfort. That's why the sophisticated suspension gives you the best of both worlds. Accuracy and precision when you want it, backed up by comfort and technology to make every drive enjoyable.

Double wishbone front suspension works in harmony with Integral link rear suspension to give you precise control over the car. With our active chassis with rear air suspension, your S90 will compensate for loads while adapting the chassis to the road and driving conditions for an even better ride. Advanced driver aids such as stability control and understeer control logic keep the S90 stable, improving the way it handles corners. All-wheel drive models provide even greater reassurance on demanding roads.

As an option, you can choose between four drive modes that allow you to tailor the car's behaviour to your mood and find the perfect setting for the road you're on. Altering the engine, gearbox, accelerator and steering response changes the way the car behaves and, with the optional active chassis with rear air suspension, how it rides and handles. Gearshift paddles increase your control further.

And when you come to a stop, the S90 helps you to get going again. Hill Start Assist makes pulling away on an incline effortless by holding the car on the brake until you press the accelerator. Auto Hold keeps the brakes on after you've released the pedal, so you can let the car do all the work in stationary traffic.

Discover superior comfort and handling with our optional active chassis with rear air suspension. It soaks up poor road surfaces and keeps the ride height constant so the car responds how you want it to. Active chassis technology allows you to change the way the S90 rides and handles.

CARE BY VOLVO – YOUR COMPLETE MOBILITY SOLUTION

Today, our concept of ownership is changing. Leases and subscription services have never been more popular. Well, why should you have to own something to enjoy it? This is the thinking behind Care by Volvo: a new service, designed to let you enjoy all the benefits that come with having a new Volvo without actually owning one. For a fixed monthly amount Care by Volvo not only gives you a brand-new Volvo for a fixed time period of two or three years, it also covers all regular service and maintenance costs and provides you with comprehensive insurance and breakdown cover. All you have to do is select which vehicle you would like and Care by Volvo will take care of the rest, leaving you free to enjoy life on the road.

Care by Volvo Includes:

Insurance

Care by Volvo comes with the option of a comprehensive insurance policy for you and up to two additional drivers

Service and Repair

Care by Volvo covers all regular service and maintenance costs plus the costs of any unexpected repairs

Pick-up and Delivery

When it's time to service your car, we will pick it up, drive it to your Volvo retailer and deliver it back to you fully serviced

Tyre Replacement

If the tyres on your Volvo begin to wear out we will replace them for you - quickly and conveniently

Connected Services

Care by Volvo includes connected services like Volvo On Call

Breakdown Cover

Care by Volvo includes Roadside Assistance, 24 hours a day, 7 days a week, 365 days a year

Insurance is underwritten by ABC Insurance, a trading style of Liverpool Victoria Insurance Company Limited. Subject to eligibility and underwriting criteria.

**Inscription****A HIGHER GRADE OF LUXURY.**

We created the exclusive Volvo S90 Inscription to meet your highest expectations on Swedish luxury. It's a highly personal expression that evokes a strong sense of elegant refinement. Each detail is carefully selected to give you and your passengers a sophisticated and invigorating experience. Distinguished exterior design cues enhance the luxurious look and feel of the S90, while the meticulously crafted interior gives you ample room for a relaxed driving experience. The Volvo S90 Inscription epitomizes our proud heritage of human-centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the S90 Inscription is in a class of its own – just like you.

The highly sophisticated Volvo S90 Inscription with its subtle jewellery touches and beautifully crafted wheels proudly expresses the essence of contemporary Swedish luxury. On the inside, you are surrounded by genuine materials and fine craftsmanship. It's a sensory experience, further enhanced by the Comfort seats in Fine Nappa leather, our Tailored dashboard and Linear Walnut decor – all to make the Volvo S90 Inscription your own personal statement of luxury.

Dual integrated end pipes and bright decor trim add to an elegant and powerful impression.

Inscription front grille in elegant chrome finish and the signature headlights with LED illumination.

Small details make Inscription, such as the high gloss chrome frames around the door handles.

The lower door bright deco moulding with Inscription logotype.

Our Tailored dashboard with contrasting stitching and exclusive Linear Walnut wood decor enhance the luxurious interior ambience, while the intuitive 12-inch driver display with four graphic modes and the 9-inch centre display with touch screen puts you in the centre of action.

The power-operated Comfort seats with Fine Nappa Leather upholstery and front seat cushion extensions and the exclusive Linear Walnut genuine wood decor add to the sensory experience of contemporary luxury.

The exclusive Inscription remote control is clad in the same Fine Nappa Leather as the seat upholstery in your Volvo S90 Inscription – an excellent example of thoughtful Scandinavian craftsmanship and clean design.

Drive mode scroll wheel in diamond patterned metal finish and the Linear Walnut decor.

Matt Black Diamond Cut alloy wheels

**R**DESIGN

INSPIRED BY SPORT.

If you love to drive, the Volvo S90 R-Design is for you. With athletic styling and precise control, R-Design captures the thrill of a sporty driving experience. A wealth of distinctive design details raises the dynamic soul of your Volvo and gives it a sportier, more powerful road presence. It's a design expression that catches the eye from every angle and hints at the promise of an amazing drive, every time. And you can rest assured that the Volvo S90 R-Design will deliver. You can feel it right from the moment you take your position in the sculpted R-Design driver seat – everything is there to inspire and support your driving.

The Volvo S90 R-Design is characterised by distinctive styling and a powerful road presence. Sporty exterior R-Design details and the glossy black colour theme leave no doubts about the intention of your S90 R-Design. On the inside, sculpted R-Design seats, Metal Mesh decor, Charcoal headlining and our exclusive Tailored dashboard give the cabin a sporty, cockpit-like feel. A lowered sport chassis helps ensure you're in control without compromising ride comfort.

Enjoy the ultimate R-Design experience with our 21-inch Matt Black/ Diamond Cut aluminium wheels (optional) and the lowered sport chassis with adjusted anti-roll bars, stiffer springs and mono-tube design rear dampers for sportier handling and less roll when cornering.

The R-Design door mirror caps and window trim in glossy black highlight the sporty look of your S90 R-Design.

The glossy black R-Design grill with frame in Silk Metal finish and unique glossy black lower outer grilles add to the sporty character of your S90 R-Design.

Dual integrated end pipes for a distinctive road presence.

The Carbon Fibre decor add to the sporty, hi-tech ambience inside your S90 R-Design (optional).

The R-Design steering wheel with gear shift paddles and the 12-inch driver display with four graphic modes.

The R-Design interior featuring the R-Design steering wheel, gear shifter and gaiter with contrasting stitching, Tailored dashboard with light Amber stitching, Contour seats with exclusive Fine Nappa Leather upholstery (optional), Carbon Fibre decor (optional).

VOLVO S90 MOMENTUM. THE PREMIUM TOUCH.

The Volvo S90 Momentum is a confident expression of sophisticated style, a car where progressive design and intuitive technology create a premium experience. Designed to be your premium Swedish sedan, the S90 Momentum will meet your demands on style, comfort and design.

The S90 Momentum is twisted towards a distinctive, contemporary approach. Our signature design LED headlights, bright exterior details and elegant wheels contribute to the car's premium appearance. And on the inside, you and your passengers can enjoy fine materials, elegant design and a host of comfort-enhancing amenities.

Turbine Tinted Silver Diamond Cut alloy wheels |
Exterior styling with chrome inserts

The Volvo S90 Momentum embodies the essence of confident Scandinavian design. Bright exterior design cues add to the car's premium look, while the LED headlights highlight the distinct presence of your Volvo. Inside the S90 Momentum, you and your passengers are surrounded by thoughtful comfort. The interior ambience is further enhanced by Iron Ore aluminium decor and aluminium tread plates.

Park Assist supports you when reversing and the chrome dual end pipes add a dynamic finish.

S90 Momentum with 18-inch 10-spoke Turbine Silver Bright alloy wheels and dual visible chrome end pipes.

Signature LED illumination, the high gloss black grille and bright bright deco exterior details contribute to a both powerful and elegant appearance.

Sensus Connect includes the large 9-inch centre display with touch screen, voice control, USB/AUX inputs, internet maps and our 330W High Performance audio system with 10 excellent speakers and Bluetooth® audio streaming.

The standard 12,3-inch driver display allows you to choose between different visual appearances. To provide optimum visibility, the display's brightness automatically adapts to exterior light conditions.

The Comfort seats provide excellent body support and are available in Leather for a premium look and feel.

EXTERIOR COLOURS.

Our wide range of exterior colours allows you to create the Volvo S90 that best reflects your style and preferences.

Available in different variations, each colour imbues your Volvo with a sense of luxury and presence.

INTERIORS.

The interior of the Volvo S90 is crafted with you at the centre of attention. Every detail, every line, every shape is testimony to our designers' pursuit to create a space in which you feel relaxed and in complete control. Choose between two seat variants: the lavish Comfort seats or the sportier Contour seats. The interior is available in many colour, upholstery and decor trim combinations – including Blond or Charcoal headlining – to suit your preferences.

ACCESSORIES. YOUR VOLVO S90, YOUR WAY.

Make the S90 your own with Volvo styling accessories; the perfect addition to your new car. Choose the exterior styling package with chrome inserts for an even more elegant look. Or enhance the dynamic character of your S90 with our exterior styling package with body-coloured inserts. And especially for

your S90 R-Design, we've created an exterior styling kit with glossy black inserts that adds to the car's exclusive appearance. You can also select individual components as separate accessories.

T5 | R-Design
720 Bursting Blue metallic | Exterior styling package with glossy black inserts |
21" 5-double spoke Matt Black Diamond Cut alloy wheels

R-Design exterior styling package with glossy black inserts. Designed to perfectly complement your S90 R-Design, this exterior styling package with high-gloss black inserts allows you to create an exclusive, individual look. The lower front spoiler combines with the sill mouldings to emphasise the car's low-slung profile, while the split end pipes create an even more powerful appearance. A boot lid spoiler maximises high-speed stability and makes your S90 R-Design look even more dynamic. This exterior styling kit is also available with body-coloured inserts. The optional 21-inch 5-double spoke alloy wheels in Matt Black Diamond Cut add to a superior road presence.

T5 | Momentum

714 Osmium Grey metallic | Exterior styling package with chrome inserts |
21" 10-spoke Turbine Tinted Silver Diamond Cut alloy wheels

Exterior styling package with body-coloured inserts. A front spoiler and sculpted side sill mouldings with body-coloured inserts accentuate the car's low stance, while a boot lid spoiler hints at the potential performance. Integrated dual split end pipes and a body-coloured rear diffuser create an even more purposeful appearance. The optional 21-inch 5-spoke Fan wheels give the S90 even more presence, whether it's moving or standing still.

Exterior styling package with chrome inserts. The front spoiler lip adds definition to the front end, while the chrome insert highlights the car's width. A boot lid spoiler makes the S90 look even more dynamic, and the sill mouldings emphasise the car's sporty, low-slung profile. At the rear, a body-coloured rear diffuser and integrated dual split end pipes give the car a powerful presence. The optional 21-inch 10-open spoke Turbine wheels add to the car's elegance and a more powerful visual statement.

DESIGNED FOR YOUR LIFE.

Create a Volvo S90 that's perfect for your life, with Volvo accessories that are designed around you and your car.

Our smart iPad® holder makes journeys more fun for rear-seat passengers. It can be angled to the most comfortable viewing position and is colour-coordinated with the interior.

For children up to 10 years, our child seats combine comfort with state of the art safety and are designed to fit perfectly into your Volvo. We apply the same stringent standards to our child seats as we do building our cars, so you know your children are well protected.

BUILT TO WORK.

Make the Volvo S90 work for you with our range of load and exterior accessories, designed to look good and work flawlessly. Our illuminated sill mouldings add an exclusive touch every time you enter your S90, and a boot lid spoiler enhances the car's dynamic look. For your more practical needs, our load carriers make it easy to fit a roof box or our load-carrying accessories for your gear. And if you sometimes need to carry dirty or wet cargo, a plastic or reversible textile luggage compartment mat will come handy.

MAKE YOUR POWERFUL CHOICE.

We created the Volvo S90 with one single purpose: to provide you with a car that perfectly fits you and your lifestyle. A car that meets your expectations of a dynamic drive with refined comfort and sophisticated design – built with care for people and the world we share. A car that's intuitive to use and makes life less complicated, and is a pleasure to live with every day.

At the heart of your Volvo S90 is a dynamic, efficient powertrain. Whichever you choose, you will enjoy our latest Drive-E technology that gives you instant response and a smooth ride. Fuel consumption and CO₂ emissions are kept low, and our powertrains comply with strict exhaust emission requirements.

Our Drive-E powertrain range includes advanced diesel and petrol engines mated to our smooth eight-speed automatic gearbox or a distinct six-speed manual gearbox, available with responsive AWD all-wheel drive technology or front-wheel drive. And for the ultimate combination of performance and efficiency in your Volvo S90, there's the option of our T8 Twin Engine AWD with plug-in hybrid technology.

Make your choice, and enjoy the journey wherever it takes you.

T8 Twin Engine AWD

Our T8 Twin Engine with plug-in hybrid technology delivers an exhilarating drive with uncompromised efficiency. Combining a high-performance petrol engine and an electric motor, this 303hp+87hp/400Nm+240Nm powertrain allows outstanding highway performance and zero emission commuting – with all-wheel drive capability when needed.

T5

The 250hp/350Nm T5 petrol powertrain is as responsive on the highway as in the city. This superb all-rounder delivers generous power just where you need it, ensuring excellent driveability in combination with our smooth 8-speed automatic gearbox.

T4

With the T4 190hp/300Nm petrol powertrain you can enjoy a smooth, responsive and highly efficient driving experience. Optimised turbocharging with full torque from low to medium revs and our smooth 8-speed automatic gearbox puts you in control of your drive.

D5 AWD

Our most powerful 235hp/480Nm diesel powertrain D5 AWD allows you to experience performance and refinement without compromises. Twin-turbo engine technology, our 8-speed automatic gearbox and all-wheel drive add to instant control.

D4

Our sophisticated 190hp/400Nm D4 diesel powertrain allows you to enjoy more while using less. Available with our responsive 8-speed automatic gearbox, the D4 is designed to give you the most efficient and confident driving experience.

WELCOME TO VOLVO CAR LIFESTYLE COLLECTION.

Our Lifestyle Collection includes a wide range of lifestyle accessories – from Swedish crystal and crafted leather bags, to clothing, watches and more selected items. To view the complete collection, please visit collection.volvocars.co.uk

V O L V O

Fuel consumption and CO₂* figures for the Volvo S90 range, in MPG (l/100km): WLTP Combined 33.2 (8.5) - 166.1 (1.7). NEDC CO₂ emissions 157 - 40g/km. Twin Engine WLTP electric energy consumption 3.1 - 3.6 miles/kWh. Twin Engine WLTP all electric range 29.2 - 35.4 miles.

Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. *There is a new test used for fuel consumption and CO₂ figures. The CO₂ figures shown however, are based on the outgoing test cycle and will be used to calculate vehicle tax on first registration.

N.B: Some information may have been updated since this brochure was printed. Some of the equipment described or shown is only available at extra cost. Before ordering, please ask your Volvo retailer for the latest information. The manufacturer reserves the right to make changes at any time, without notice to prices, colour, materials, specifications and models.
