Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice, touch or gesture (where fitted) input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Multi-gesture touchpad control

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

Personalisation

- Turn the new EQC into your very own Mercedes-Benz by personalising driving modes, radio stations, ambient lighting and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the touchpad on the centre console, as well as touch control buttons on the steering wheel
- The touchpad recognises your handwriting should you wish to enter addresses or phone numbers silently

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a charging station? Just ask your MBUX – it will tell you the answer

¹LINGUATRONIC off-board functions are currently only available for three years

Mercedes me connect Stay connected any time, anywhere.

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

Safety and Service – Mercedes me connect helps to keep you and your car safe

Check your car's washer fluid level, tyre pressure and battery level from your phone so you'll be ready for every journey.

Infotainment – Online and Entertainment services from Mercedes me connect

Love music? Get a 3-month free subscription to Tidal when you connect your car.

Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect

Forgot where you've parked? Parked Vehicle Locator¹ will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Retailer or visit the Mercedes me connect store at shop.mercedes-benz.com/en-gb/connect

Comfort – connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock² you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

EQ-specific Services

Check your charging status on the go and programme your pre-entry climate control and charging settings remotely. The EQ-specific navigation considers electrical range, topography and charging stations.

¹Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

²Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model

Benefits of driving EQ

The EQC. A 4x4 that's 100% electric. It combines the style and practicality of an SUV with all the benefits of electric driving.

Lower running costs

Did you know that electric cars could cost up to a third less than a diesel or petrol car to run, as well as being cheaper to maintain? We've partnered with Go Ultra Low, a joint Government and car industry campaign, to give you unbiased advice on making the switch to an electric car. Use Go Ultra Low's cost saving calculator to see how much you can save.

[Discover more](#)

No road fund licence

EQ vehicles have no local emissions – this means you pay no road tax.

Cleaner vehicle discount

EQ battery electric vehicles are congestion charge and ultra low emission zone charge exempt in London.

Business benefits

With 100% first-year capital allowances¹ and 0% BIK tax, electric cars offer significant benefits to businesses and employees.

Performance

Instant torque provides a whole new dimension to driving performance.

Refinement

Acoustically optimised glass and a near-silent powertrain means that driving EQ provides a sensory experience of luxurious refinement.

¹100% first-year capital allowances only apply to vehicles less than 50 g CO₂/km

EQC

EQ Electric Intelligence

Vehement power immediately from standstill: An electric motor each at the front axle and rear axle convert electrical into mechanical energy, and deliver impressive forward thrust. The intelligent operating strategy of the powertrain components supplies the power always wherever it is needed at the moment – efficiently and nearly silently.

EQC 400 4MATIC

Battery electric vehicle, 408 hp/300 kW
Electric range 241-252 miles – WLTP

OTR from **£65,720¹**

Standard equipment

Acoustic ambient protection – the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 30 km/h, the system is basically deactivated since wind and tyre noise tend to dominate at higher speeds

Charging system – AC charging system rated at 11 kW; DC rated at 110 kW

Charging socket

Charging cable for wall box and public charging stations, 5 m

Mode 3 cable, enables you to charge the vehicle battery via the wall box or at public charging stations at up to 11 kW

Suspension – comfort suspension

Pre-entry climate control

Radar-based recuperation

Technical details

Electric range ²	241-252 miles
Charging time	
AC outlet (230 V/13 A) 10-100% ^{3,4}	40 hrs 45 min
Wall box (400 V/16 A) 10-100% ³	11 hrs
Public rapid charging (110 kW) 10-80% ⁵	40 min
Range power consumption, combined ^{2,5}	238-224 Wh/km
Battery type (capacity)	lithium-ion high-voltage
Capacity on-board charger	11 kW AC 110 DC

Attention

 Please be aware that external factors such as weather, gradient and ambient temperature amongst others can significantly impact range.

 Please also note that internal factors such as driving style and climate control settings etc. can also significantly impact range.

 Using the pre-entry climate control when plugged into a charge point will ensure the perfect ambience and ensure that your car is just how you like it, as well as making sure that your battery isn't used unnecessarily to heat/cool the vehicle (maximising range).

¹The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£715.00 incl. VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20% ²Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ³Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wall box (three-phase) or standard socket (single-phase) ⁴If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord) ⁵Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using public rapid charging at 110 kW

Mercedes me Charge

One registration, one contract, one billing.

Mercedes *me*

Mercedes me Charge provides access to a multitude of public charging stations located in shopping centers, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK. Customers also get six months free bp pulse membership which reduces the electricity price when charging.

Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes me app
- RFID card
- EQ Vehicle Head unit

Transparent and easy billing

One invoice charging processes for payment.

Easy access

Charging stations are displayed in Mercedes me app and in MBUX multimedia system.

No fees

Mercedes me Charge is standard for three years with EQC.

bp pulse home charger Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a bp pulse home charger. The 7 kW bp pulse home charger delivers a full charge in around 11 hours – that’s up to three times faster than using a 13 A three-pin domestic plug.¹

bp pulse home charger 7 kW: £499* incl. VAT & installation

Key benefits of the 7 kW bp pulse home charger:

Robust and weatherproof, for indoor or outdoor use, and comes with a three year warranty

Installed in as little as two weeks

The cost for a fully-installed charge point at your home includes the £350 OZEV (EVHS) grant²

As a Mercedes-Benz driver, when you install a bp pulse home charger you will automatically receive three months FREE membership to bp pulse, the UK’s largest public charging network with over 7,000 charge points

Questions?

Simply email hcenquiries@bp.com

Call their dedicated Homecharge team 01582 399 412

Warning!

If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

*Price includes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change

¹Based on 7 kW power output for plug-in hybrid vehicles ²The bp pulse home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV) and is provided and installed by bp pulse home charger plc. For full details and eligibility criteria for the OZEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>. For full bp pulse home charger Terms & Conditions visit https://chargemasterplc.com/terms_conditions

¹The indicated values were determined according to the prescribed measurement method - Worldwide Harmonised Light Vehicle Test Procedure (WLTP). Figures shown may include options which are not available in the UK. Battery Electric Vehicles (BEV) require mains electricity for charging, range figures determined with the battery fully charged. ²Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ³A different first year rate of Vehicle Excise Duty (Road Fund Licence) applies for new cars. Please refer to 43 for the relevant rate for the second and subsequent years ³The recommended on-the-road price includes the Road Fund Licence applicable to the standard model plus delivery charge (£715.00 incl. VAT), new vehicle registration fee (£55.00) and number plates (£25.00 incl. VAT). VAT is calculated at the standard rate of 20%

Driving Assistance package

The Driving Assistance package contains a range of highly intelligent features to help you stay safe on the road - by making the drive more effortless, by warning of danger, and by taking steps to protect you in an emergency.

Driving Assistance Plus package (code 23P) - designed and priced as a package

Available on all models, except Sport

Total incl. VAT £1,695.00

Active Distance Assist DISTRONIC

- Active Speed Limit Assist
- Extended automatic re-start on motorways
- Route-based speed adaptation with end of traffic jam function

Active Blind Spot Assist with Exit warning function can warn the driver of vehicles in the blind spot when driving or when opening the door to exit the vehicle

Active Steering Assist

- Active Emergency Stop Assist with SOS function - immediate emergency braking if evasion is impossible
- Active Steering Assist prevents unintentional drifting out of lane through targeted steering intervention

Active Brake Assist with turning manoeuvre function, cross-traffic function and congestion emergency braking function

Evasive Steering Assist can support the driver in making evasive manoeuvres if, in a dangerous situation, he/she moves to avoid any pedestrian detected by the system

Active Lane Keeping Assist

Pedestrian warning function near pedestrian crossings

PRE-SAFE PLUS when a rear-end collision threatens, PRE-SAFE PLUS can initiate preventative measures

Trailer coupling with ESP® trailer stabilisation

Trailer coupling with ESP trailer stabilisation¹ (code 550)

Available on all models

Total incl. VAT £750.00

Expand your transport options: with this practical equipment you can hitch up both trailers or caravans and also mount cycle racks. The trailer coupling is ready for use in no time at all – and can be folded in again behind the rear bumper just as quickly when it is no longer needed.

Operating safety is the top priority: to fold out the trailer coupling, you must first unlock it via the control button in the boot. As soon as the button light goes out, the trailer coupling is correctly engaged and is therefore ready for use.

Even when driving you can benefit from a comprehensive safety concept: the ESP® trailer stabilisation is able to intervene automatically in critical situations when driving with a trailer. The associated sensor system detects the trailer independently as soon as the electric plug is connected to your vehicle.

The ESP® stabilisation functions are automatically active from a speed of 40 mph. When undesired oscillating motions are detected, the Trailer Stability Assist actively dampens these with the aid of alternate brake actuation of each individual wheel. In most cases this is already sufficient to reduce dangerous oscillations. If necessary, the system additionally reduces the speed: for this, the engine torque is reduced and the vehicle is braked via all four wheels.

¹Please be aware fitment of this option will impact expected range

Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your EQC.

DUO plus child seat, with ISOFIX

Safe and secure: children between the ages of 9 months and 4 years (age group I, weight 9 to 18 kg) will enjoy travelling in the 'DUO plus' child seat from Mercedes-Benz. (A0009704302)

Kidfix XP child seat

Safe and secure: children between the ages of 3.5 and 12 years (weight 15 to 36 kg) will enjoy travelling in the 'Kidfix XP' child seat from Mercedes-Benz. (A0009704902)

AMG Kidfix XP child seat

For children aged from 3.5 to 12 years (15 to 36 kg). Adjustable head restraint allows the seat to match the child's growth. The cover, in an exclusive AMG design with original AMG DINAMICA seat cover material, can be removed and washed. (A0009703302)

Luggage net

Mercedes-Benz luggage nets – for a tidy and uncluttered interior. Versatile and, once fitted, indispensable. (A2478680000)

All Season Floor Mats, Classic

Floor mats have to undergo rigorous testing before they are deemed worthy of the star logo: durability, a fade-resistant colour and a neutral odour. The mats are precision-tailored to your Mercedes-Benz. (Front – A25368044019G33; Rear – A25368038039G33)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Retailer for more information. Images shown are for illustration purposes only.

Basic carrier bars for roof rails

Aluminium carrier bars, precision-tailored to the body of your Mercedes-Benz – the perfect basis for a range of Mercedes-Benz transport solutions: ski and snowboard rack, bicycle rack or roof boxes. (A2938900000)

Concertina load sill protector

Designed to prevent the bumper from being scratched. Can be secured to boot tub or reversible mat. Helps prevent scratches when loading the load compartment or when loading the Mercedes-Benz roof box. (A2536932000)

Mercedes-Benz roof box 450

An aerodynamic design, tailored to your Mercedes-Benz. In extremely durable material. Designed for quick, optimised attachment to the basic carrier bars. Particularly convenient loading and unloading thanks to the option of double-sided opening. Lockable from both sides. (A0008401200)

Bicycle rack

Easy to use, convenient and lightweight. Bicycles can be attached at ground level before the rack is fitted. Up to three bicycle carriers can be fitted at one time. The alustyle cycle carrier is designed for the new alustyle basic carrier bars, making your life easier, with know-how from Mercedes-Benz. (A000890029364)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Retailer for more information Images shown are for illustration purposes only

¹Figures according to Regulation (EC) No. 595/2009 in the currently applicable version ²Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–100% charge using a wall box (three-phase) or standard socket (single-phase) ³If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord ⁴Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ⁵Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–80% charge using public rapid charging at 110 kW ⁶Mass of the vehicle in running order with at least 90% full fuel tank, plus the mass of the driver (estimated by law at 75 kg), fuel and fluids, equipped with the standard equipment as specified by the manufacturer as well as, where applicable, the mass of the body, cab, trailer coupling and spare wheel(s) as well as tools. Optional extras, additional equipment and accessories can influence the weight, residual payload, rolling resistance, aerodynamics, etc., and therefore also affect the consumption/CO₂ values

[Book a test drive](#)[Buy your EQC](#)[Find a Retailer](#)

Services and insurance

Mercedes-Benz ServiceCare

We believe that servicing costs should be as flexible and affordable as possible for your EQC, which is why we offer ServiceCare, an easy way to budget for all your servicing costs. It spreads your bills into manageable payments based on whether you have a new or used Mercedes-Benz.

With ServiceCare we guarantee the price of parts and labour for up to four services and safeguard against any further inflation.

You can choose either to add your servicing costs into your monthly spend or pay the full amount in a one-off payment, giving you peace of mind that they are taken care of for the period of the plan.

[Click here for more information](#)

Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects¹ and up to 30 years warranty against perforation due to corrosion from the inside out.² What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.²

Battery Warranty

The battery comes with an eight-year 100,000-mile warranty.

Motor Insurance

Superb cover comes as standard. When reviewed by an independent research company, Defaqto, Mercedes-Benz Motor Insurance received a five-star rating, the highest rating available. We design our Motor Insurance specifically for Mercedes-Benz drivers.
