EXPLORE THE MINI ELECTRIC.

An icon reimaged – the first fully electric MINI is here. The MINI Electric is the best of both worlds, giving you the iconic character of MINI with all the benefits of going electric.

Following its ground-breaking launch in 1959, MINI established itself as the definitive go to small car and the MINI 3-door Hatch is now the first available with a fully electric powertrain. Emitting zero emissions, the MINI Electric is the perfect combination of sustainable driving, thrilling driving performance and iconic MINI design. The MINI Electric is reinventing urban life.

Putting the smart into sporty, every inch of this car has been specially developed to improve performance. The perfectly streamlined design balances weight and agility, resulting in optimised aerodynamics. This is head turning efficiency. This is the electric car that gets people talking.

STANDARD EQUIPMENT HIGHLIGHTS.

EXTERIOR:

- LED lights (front and rear)
- Choice of solid or metallic exterior paint colours
- Choice of 16" or 17" alloy wheels
- MINI e-badge
- Unique aerodynamically enhanced front and rear bumpers
- Front grille with unique MINI Electric design and tailgate handle in Vigorous Grey

INTERIOR:

- Design highlights in Energetic Yellow
- Carbon Black Colour Line

INFOTAINMENT:

- MINI Navigation System
- MINI Connected
- Real Time Traffic Information (RTTI)
- Apple CarPlay
- Remote Services

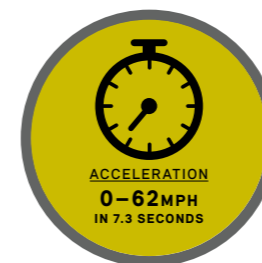

- ConnectedDrive Services (including Online Search and Weather Information)
- Intelligent emergency calling (E-call)
- MINI Teleservices
- e-Drive services (ability to initiate charging, monitor charging status and locate public charging stations)

FUNCTIONAL EQUIPMENT:

- Fully digital display cockpit (5" digital instrument cluster integrated into a larger display set behind the steering wheel)
- Automatic dual zone air conditioning
- AC and DC charging
- AC home (occasional 3-pin plug) charging cable (type 2 – 2.3 kW)
- AC public charging cable (type 2 – 11 kW)
- Electric parking brake
- Automatic transmission
- MINI Driving Modes (centre toggle switch to control driving mode settings: Sport, Mid, Green, Green+; allows adaption to different driving situations and ensures a high driving efficiency and the optimal driving range)

- Two levels of power regeneration (energy recovery toggle which allows the driver to alter the severity of automatic braking when releasing the throttle by changing the amount of energy being regenerated when coasting)
- Heat pump (allows excess heat from motor to be utilised for heating cabin space when required, rather than utilising battery power to maximise efficiency)
- Pre-conditioning (remotely heat or cool the vehicle prior to departure through the MINI Connected app)
- Acoustic protection
- Cruise control with brake function
- Front and rear ISOFIX child seat attachment
- Rain sensor and automatic headlight activation

The MINI Electric is available with different levels of equipment, for more information about the equipment available with each level please click here.

¹ These figures were obtained after the battery had been fully charged. The MINI Electric is a battery electric vehicle requiring mains electricity for charging. There is a new test for fuel consumption, CO₂ and electric range figures. The electric range shown was achieved using the new test procedure. Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures.
² These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.
³ The CO₂ figures have been determined according to the WLTP test. WLTP has been used as the applicable CO₂ figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO₂ figures were previously based on the NEDC equivalent.
⁴ Charging time corresponds to an 80% charge. Charging times are approximate and may vary depending on various factors such as the type and condition of the charger and the temperature of the battery at the point of use.
⁵ A 100% charge is achieved in 1 hour 24 minutes.
⁶ Charging time applies to any 7.4 kW Wallbox.

PRICING.

PRICES AND SPECIFICATIONS

MINI UK reserves the right to alter prices and specifications without notice. MINI UK has made every effort to ensure the accuracy of information but does not accept liability for any errors or omissions.

ON THE ROAD PRICE

The recommended On The Road price is based on the Recommended Retail Price (RRP) and On The Road charges. OTR charges include:

| | |
|--------------------------------|-----------|
| Delivery and Emergency Service | £500 |
| Number plates | £25 |
| Vehicle first registration fee | £55 |
| Vehicle Excise Duty | See below |

VED RATES

VED rates for brand new cars are determined by their CO₂ emissions figures. First year VED applies to the first year of ownership. Annual VED rates apply thereafter. The MINI Electric models fall into the category listed below:

| Electric | |
|----------------------------------|----|
| CO ₂ emissions (g/km) | 0 |
| First year VED | £0 |
| Annual VED (second year onwards) | £0 |

To find out more about the benefits of owning an ultra low emission vehicle, visit www.GoUltraLow.com

HOW MUCH DOES IT COST TO OWN A MINI ELECTRIC?

FINANCIAL PERKS.

The government currently offers £3,000*** towards your MINI Electric as it's classed as a low-emission vehicle. Plus, if you're considering the MINI Electric as your company car, it will have a BIK tax rate of 0% for the year 2020/21.

CHARGING COSTS.

The cost per mile for the MINI Electric is only 4p, which is **2.5 to 6 times cheaper** than cars with a petrol or a diesel engine.¹

| | |
|----------------------|--------|
| Cost per kWh (VCA) | £0.163 |
| Cost for full charge | £5.31 |
| Cost per mile | £0.037 |

SERVICING MADE SIMPLE.

With the MINI Electric Pay Monthly Service Plan² you can remove the uncertainty often associated with servicing costs by spreading them monthly.

| Levels of Service offering | Price per month ³ |
|---|------------------------------|
|  Servicing | £10 |
|  Servicing + Tyres (four) | £20 |
|  Servicing + Brakes (pads and sensors) | £20 |
|  Servicing + Brakes + Tyres | £30 |

Our flexible Service Plan is designed specifically for MINI Electric, can be transferred to another MINI and can also be purchased online.

As part of the plan you will also receive a number of added extras including fluid top ups, one MOT, a Wash & Vac each time you visit for a service, seasonal health checks and Sat Nav Map updates.

For more information please contact your preferred MINI Centre.

MINI TRACKSTAR.

Locate and recover your vehicle if it is stolen with MINI Trackstar or MINI Trackstar Advance.

Benefits include:

- 24/7 Trackstar Monitoring Centre
- Integrated motion sensor
- Thatcham accredited
- Pan-European protection

| MINI Trackstar product offering | Price |
|---------------------------------|-------------------|
| MINI Trackstar S7 | £410 [^] |
| MINI Trackstar S5 | £549 [^] |
| MINI Trackstar S5 Advance | £649 [^] |

*These figures were obtained after the battery had been fully charged. The MINI Electric is a battery electric vehicle requiring mains electricity for charging. There is a new test for fuel consumption, CO₂ and electric range figures. The electric range shown was achieved using the new test procedure. Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. The CO₂ figures have been determined according to the WLTP test. WLTP has been used as the applicable CO₂ figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO₂ figures were previously based on the NEDC equivalent. **The price shown includes the HM Government Plug-In Car Grant of up to a maximum of £3,000. The receipt of this grant is subject to the eligibility of the vehicle for the Plug-In Car Grant scheme at the point of the vehicle's first registration in the UK. The grant amount and vehicle eligibility may change from time to time following Government policy or regulation.

***The receipt of this grant is subject to the eligibility of the vehicle for the Plug-In Car Grant scheme at the point of the vehicle's first registration in the UK. The grant amount and vehicle eligibility may change from time to time following Government policy or regulation. ¹Cost per mile for cars with a petrol or a diesel engine varies between 9.6p and 21p. Source: UK Government website (29 August 2019). ²Terms and Conditions Apply. Participating MINI Retailers only. We use a third party partner, EMaC, to administer the MINI Electric Service Plan. ³48-month example. ⁴The Warranty on the battery is 8 years or 100,000 miles, whichever is reached first. ⁵Price excludes subscription, please consult your local MINI Centre for further details. ⁶Tax rate for company cars only.

CHARGING SOLUTIONS.

EASY HOME CHARGING OR CHARGING ON THE GO.

The MINI Electric includes AC for easy home and public charging and DC for rapid public charging.

CHARGING CABLES.

The MINI Electric comes with both an AC occasional home charging cable (3-pin plug) and an AC public charging cable (type 2 – 11 kW) as standard.

PUBLIC CHARGING.

You can use both AC public charging and DC rapid chargers (with their own cables ready to use). There are over 12,000[†] public charging locations.

HOME CHARGING.

You can charge your car at home using the occasional 3-pin plug home charging cable or your Wallbox.^{††}

CHARGING TIME.¹

Home charging (AC)

| | | |
|--|--------|---------------------------------|
| With occasional home charging cable (3-pin plug) | 2.3 kW | 12 hours |
| With Wallbox ^{††} | 7.4 kW | 3 hours 12 minutes ² |

Public charging (AC/DC)

| | | |
|-------------------------|-------|---------------------------------|
| With AC public charging | 11 kW | 2 hours 30 minutes ³ |
| With DC rapid charger | 50 kW | 36 minutes ⁴ |

[†]Source: Zap-Map. ^{††}The Wallbox is not included in the price of the car, it has to be purchased separately. For more information please check mini.co.uk or speak to your MINI Retailer. ¹Charging time corresponds to an 80% charge. Charging times are approximate and may vary depending on various factors such as the type and condition of the charger and the temperature of the battery at the point of use. ²Charging time applies to any 7.4 kW Wallbox. ³A 100% charge is achieved in 3 hours 30 minutes. ⁴A 100% charge is achieved in 1 hour 24 minutes.

PARTNERSHIP WITH BP CHARGEMASTER.

Thanks to the BP Chagemaster Polar Plus network with over 7,000 charging points, you will be able to easily charge up your car at Public Charging points using both AC and DC chargers. For home charging feel free to choose a MINI Wallbox or the BP Chagemaster homecharge unit.

MINI UK, a trading name of BMW (UK) Limited, is a credit broker not a lender.

The representative example and the finance examples are for 48-month MINI Select (PCP) agreements for the MINI Electric models stated above, with a contract mileage of 40,000 miles and excess mileage charge ranging from 6.59p per mile for the MINI Electric Level 1 to 7.88p per mile for the MINI Electric Level 3. Applies to new vehicles ordered between 1 November 2020 and 31 December 2020 and registered by 31 March 2021 (subject to availability) at participating MINI Retailers. Retail customers only. †The prices shown incorporate the HM Government Plug-In Car Grant of up to £3,000. The receipt of this grant is subject to the eligibility of the vehicle for the Plug-In Car Grant scheme at the point of the vehicle's first registration in the UK. The grant amount and vehicle eligibility may change from time to time following Government policy or regulation. OTR price is based on the Recommended Retail Price (including VAT) and On The Road charges (including delivery and emergency service, vehicle first registration fee and VED costs), after deduction of the Plug-In Car Grant.

*On the road cash price is based on manufacturer's recommended retail price and includes 3-year MINI Retailer Warranty, MINI Emergency Service, 12-month road fund licence, vehicle first registration fee, delivery, number plates and VAT. †Optional final payment not payable if you opt to return the vehicle at the end of the agreement (vehicle condition, excess mileage and other charges may be payable). † Finance available subject to credit acceptance to UK residents aged 18 or over. Guarantees and indemnities may be required. Terms and conditions apply. Offer may be varied, withdrawn or extended at any time. Finance provided by MINI Financial Services, a trading name of BMW Financial Services (GB) Ltd, Summit ONE, Summit Avenue, Farnborough, Hampshire, GU14 0FB. You will have a 14 day statutory right to withdraw from the agreement. MINI UK, a trading name of BMW (UK) Limited, introduces customers to MINI Financial Services only. MINI UK does not receive commission or other payment for the introduction. †The personalisation options listed are available at no additional cost.

| RANGE AND CONSUMPTION* | | | |
| Electric range (miles) ¹ | 144-145 | 142-144 | 140-141 |
| Electric energy consumption – weighted (miles/kWh) | 4.0-4.1 | 4.0 | 3.9-4.0 |
| Electric energy consumption – weighted (kWh/100 km) | 15.4-15.2 | 15.6-15.4 | 15.9-15.7 |
| CO ₂ emissions (g/km) | 0 | 0 | 0 |
| DIMENSIONS | | | |
| Length (mm) | 3845 | 3845 | 3845 |
| Width incl. door mirrors (mm) | 1928 | 1928 | 1928 |
| Vehicle height (mm) | 1432 | 1432 | 1432 |
| Luggage capacity ² (litres) | 211-731 | 211-731 | 211-731 |

*These figures were obtained after the battery had been fully charged. The MINI Electric is a battery electric vehicle requiring mains electricity for charging. There is a new test for fuel consumption, CO₂ and electric range figures. The electric range shown was achieved using the new test procedure. Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. The CO₂ figures have been determined according to the WLTP test. WLTP has been used as the applicable CO₂ figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO₂ figures were previously based on the NEDC equivalent.

¹These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

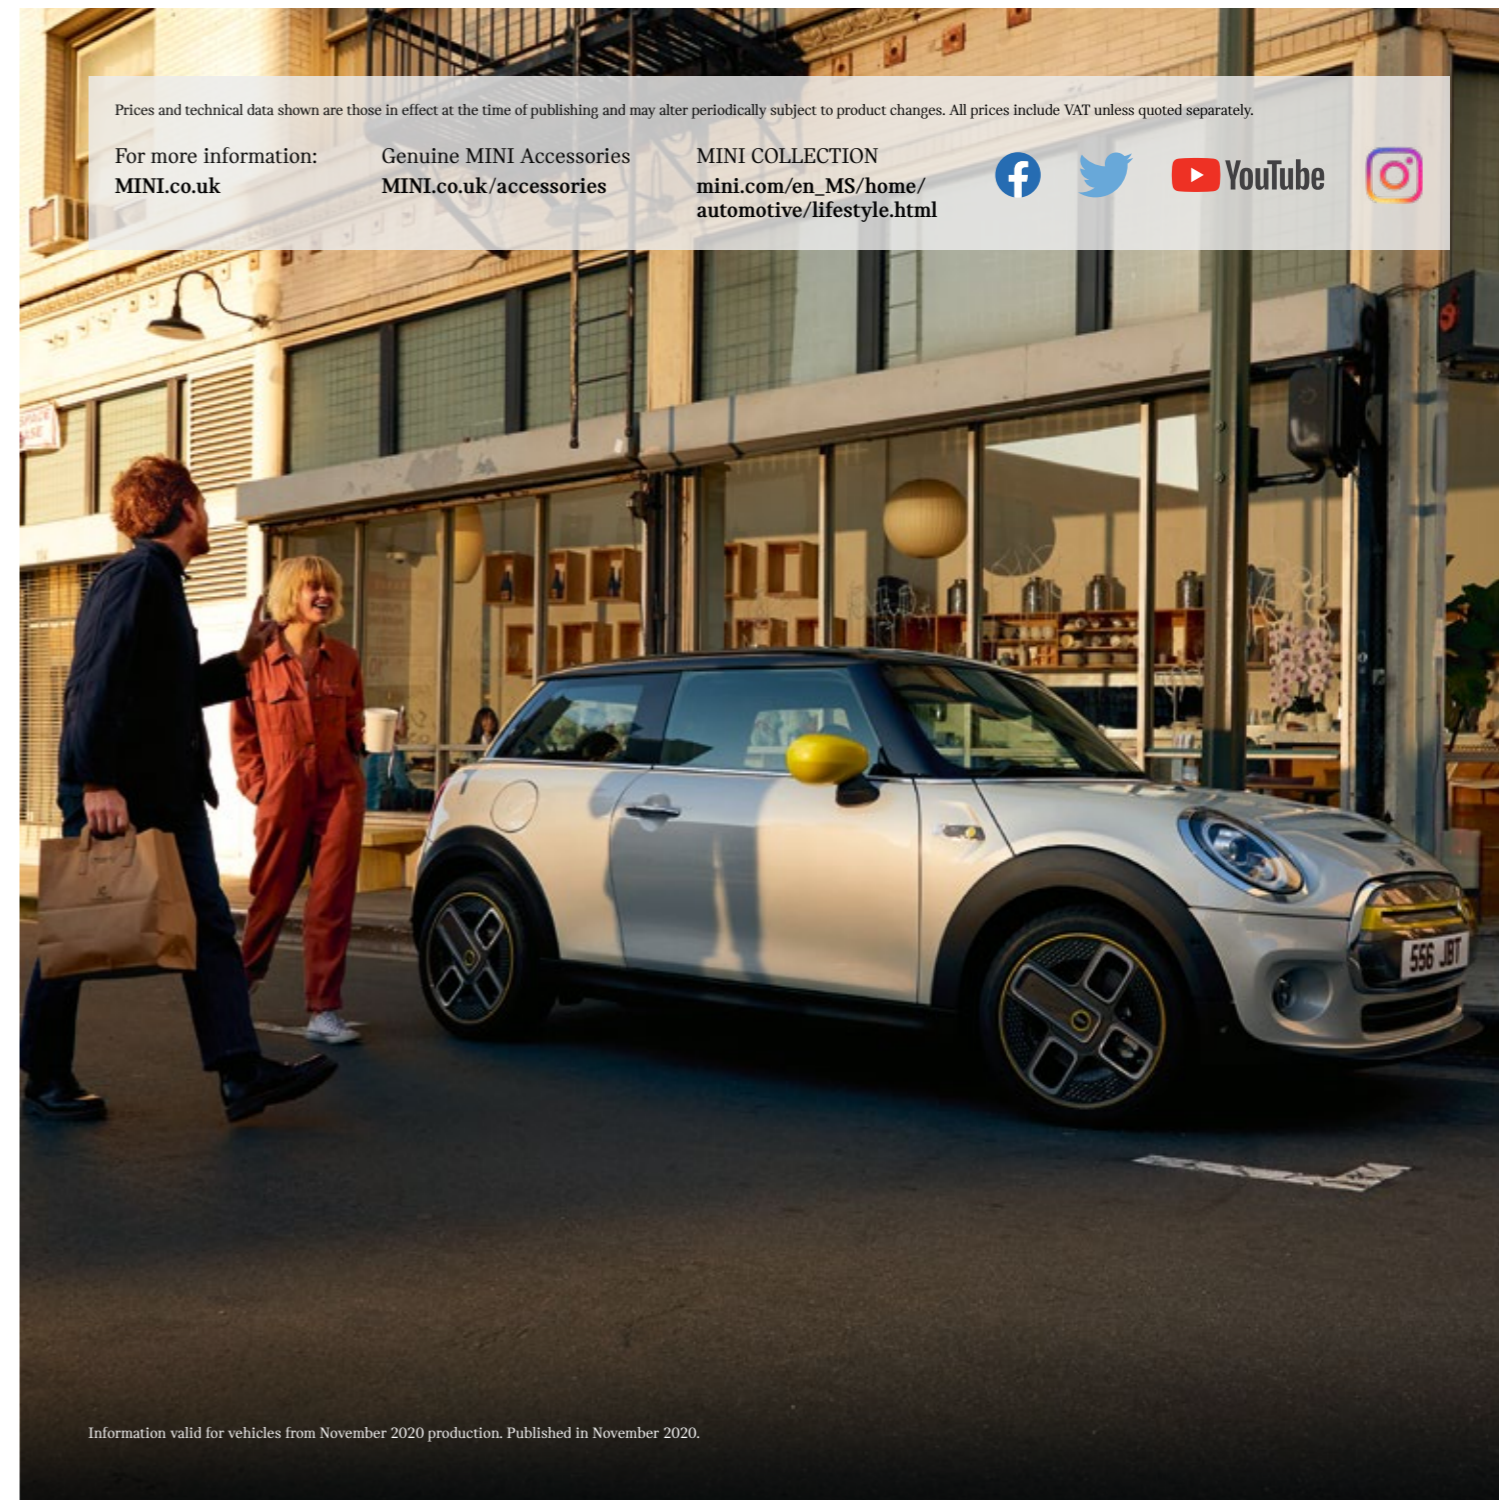

²Luggage capacity varies depending on whether the rear seats are up or folded down.

Prices and technical data shown are those in effect at the time of publishing and may alter periodically subject to product changes. All prices include VAT unless quoted separately.
