# OUTSTANDING DRIVING PERFORMANCE

Enjoy electric performance with Toyota bZ4X. Highly responsive, it offers you speed and torque when you need it. Benefitting from a low centre of gravity, excellent front and rear weight balance and rigid body, Toyota bZ4X offers incredible stability and handling.

The Toyota bZ4X also benefits from fantastic all-wheel-drive capabilities. With the touch of the XMODE button, click through the different modes to tackle any terrain. Ready for every condition including snow and mud, as well as grip control for tougher off-road driving. Incredibly easy to use, you can enjoy all-weather reassurance whatever your adventure.

# SUPERB BATTERY EFFICIENCY

Drawing on almost 25 years' experience in battery technology, Toyota bZ4X can deliver up to 286 miles\* on a single full charge. Thanks to innovative research into battery performance, the Toyota bZ4X battery offers reliability and range in all weather conditions. Three charging options offer drivers flexibility – use rapid public charging to reach 150 kW charge in an estimated 23 minutes\*, or plug into a home socket or a wall box at home. Toyota quality provides total peace of mind for battery reliability. Even after 10 years, the battery is expected to still operate at 90%<sup>§</sup> of its original performance.

\* Electric range figures are provided for comparability purposes, and can vary significantly depending on factors such as, accessories fitted (post registration), driving style, weather conditions, speed or vehicle load. It is best to only compare electric range figures with other cars tested to the same technical procedures. These figures may not reflect your real life driving results.

# YOUR ELECTRIC BATTERY RANGE

With Toyota bZ4X, great range comes as standard. It's outstanding battery performance can deliver up to 286 miles\* of worry-free driving, wherever you go.

UK specifications will vary.

# YOUR CHARGING OPTIONS

## Your charging time

Whether at home, the office or on the go, recharging is simple and convenient. Fuelled by battery power alone, benefit from zero tailpipe emissions and lower running costs in comparison with a conventionally powered vehicle.

## Home wall box

These dedicated units are much quicker to charge than a domestic socket. With Toyota bZ4X, you can reach full recharge in 10 hours.

## Public charging

For rapid charging, you can easily find fast charging stations in a number of public locations. Perfectly compatible with these highly efficient units thanks to 150 kW fast-charging capability, you are able to recharge 80% of your Toyota bZ4X battery in as little as around 23 minutes.

\* Electric range figures are provided for comparability purposes, and can vary significantly depending on factors such as, accessories fitted (post registration), driving style, weather conditions, speed or vehicle load. It is best to only compare electric range figures with other cars tested to the same technical procedures. These figures may not reflect your real life driving results.

## UNIQUE STYLE AND PRESENCE

Toyota bZ4X combines the sleek and advanced look of an electric vehicle with the confident SUV design. The result is an innovative electric vehicle that performs on all roads, turning heads wherever it goes.

# SPACIOUS AND AIRY CABIN

Designed to enhance the driving experience for all passengers, Toyota bZ4X offers a refined interior providing legroom for all passengers, thanks to superior comfort and an unrivalled sense of space.

UK specifications will vary.

# INTELLIGENT CONNECTED CABIN

Explore a world of multimedia and connectivity. With an extra-large 12.3" touchscreen, advanced voice recognition and seamless smartphone integration, Toyota Smart Connect+ offers an intuitive experience, always kept up to date via over-the-air technology. The MyT App on your smartphone helps you to check your battery level\*, schedule charging, check trip data or even remotely control your vehicle – from climate control to unlocking and locking the doors.

- \* When using the remote control services please ensure that:
- This service is only used on the owner's/registered keeper's drive. You must not leave a parked vehicle unattended with the engine running whilst stationary on a public road.
- The vehicle is fully immobilised, and you check the safety of the vehicle's surroundings. Make sure that there are no people or animals inside the vehicle.
- You do not operate the system if the hood is open or when the vehicle is parked indoors without ventilation.
- Please be respectful of the environment and minimise any excessive noise or air pollution.

UK specifications will vary.

## SAFETY YOU CAN TRUST

Toyota bZ4X offers comprehensive safety features wherever you choose to travel. You'll enjoy a host of safety features including the latest Toyota Safety Sense technology with Driver Emergency Stop Assist and Over the Air Updates.

# WHY CHOOSE TOYOTA BATTERY ELECTRIC?

With over 25 years' experience, Toyota is leading the way to an all-electric future. With more than 18 million electrified vehicles on the road globally, and 15 electrified models to choose from in the UK, Toyota continues to deliver exceptional innovation. Thanks to extensive experience developing battery technology and managing energy flows efficiently, Toyota battery electric vehicles offer reliable, lasting performance.

## Up to 10 Years (100,000 miles) Toyota warranty

Every new Toyota is eligible to be covered by up to 10 years' manufacturer warranty through Toyota Relax. This is provided through an initial 3 years manufacturer warranty that can be extended with regular servicing at a Toyota dealer. 12 months warranty is included with every Toyota Service, up to 100,000 miles or 10 years, whichever comes first, giving you a chance to relax in the knowledge that you and your vehicle are in safe hands. Terms and conditions apply. For full details, please ask your official Toyota Centre or visit [toyota.co.uk/relax](https://toyota.co.uk/relax)

# FREQUENTLY ASKED QUESTIONS

## How far can I go on full charge?

With Toyota bZ4X, travel for up to 286 miles\* without worrying about charge.

## Where can I charge?

Recharge via a dedicated wall box, domestic socket or rapid public charging points in a variety of locations.

## How do I charge my Toyota bZ4X?

Charging is simple, convenient and perfectly safe using the cable provided with the vehicle whether via a domestic socket, wall box or rapid public charger.

## How long does a charge take?

Vehicle charging time depends on the power supply. At public stations, enjoy rapid charging in around 23 minutes. Wall box charging at home takes 10 hours.

## Are the running costs low?

Battery electric vehicles can save you money over their lifetime. The dedicated Wall box charging offers a quick and cost-effective solution to recharging at home.

## What's the difference between a hybrid and electric car?

Hybrids and electric cars have a key difference. A Hybrid switches between petrol and, petrol and electric motors, they are self-charging, whereas a battery electric vehicle runs on battery power alone.

## What's the lifespan of the battery?

Our battery electric vehicles boast the same reliability as any other Toyota. As long as annual services are in place, Toyota is confident that even after 10 years of driving, your Toyota bZ4X battery will still operate at 90% of its original performance level.

\* Electric range figures are provided for comparability purposes, and can vary significantly depending on factors such as, accessories fitted (post registration), driving style, weather conditions, speed or vehicle load. It is best to only compare electric range figures with other cars tested to the same technical procedures. These figures may not reflect your real life driving results.
