The spoiler on your Sedici adds aerodynamics to the line and personality to the style of the vehicle.

The deflector. It is not just a style detail, but a convenient accessory that shields you from the air coming from an open window.

You don't ever have to give up on the pleasure of making it even more beautiful and aggressive with 16" alloy wheels.

Show the Sedici that you love how much you care. Just a clever small detail like the luggage restrainer in order to be able to load and unload the boot, without fear of scratching it.

In order to accentuate this aggressive personality still further: sports pedal covers. Because sportiness has its own fascination.

Shut yourself in a car to communicate with the world. There's nothing simpler thanks to the Bluetooth system for your Sedici.

A firm and safe grip for a sensation of pleasure and control. With the steering wheel and gear lever knob in leather the aggressive feeling of your Sedici increases.

Personal solutions

Safety

WFS alarm*

Modular alarm managed completely by remote control fitted in the factory. The product is constantly connected to the vehicle CAN BUS network and includes anti-intrusion protection in the doors, the bonnet and the boot. It is also equipped with ultrasound for the volumetric protection of the passenger compartment, a sensor in the panel and a self-supplied wfs siren . The connection of the alarm to the vehicle's electrical system is facilitated by the modular structure and the presence of very few wires to be connected and by the wfs system which involves the connection between the control unit and the siren without having to route additional wires from the engine compartment to the passenger compartment. 3 year warranty. For vehicles with remote control fitted in the factory. No. 71803345

Reversing sensor fitted on the no. plate*

Rear parking sensor equipped with 2 capsules designed for securing to the no. plate holder supplied in the kit that warn of a nearby obstacle through a buzzer. No. 71802634
