

CHRYSLER SPECIFICATIONS  
**SEBRING**

Limited's appeal runs from roof down to road, with standard 18-inch aluminium wheels completing a suspension system that complements Sebring's style with refined engineering. Sebring features interior touches such as heated front leather trimmed seats, artfully designed automatic temperature controls, and a 60/40 split-folding rear and fold-flat front-passenger seatback. The power sunroof expands Sebring's interior skyward with the touch of a button\*.

\*Standard on Limited & available on Touring.

High technology abounds with every inch of the uniquely designed Tortoise Shell-accented cabin on Limited. The available Navigation System combines GPS\* with a 20Gb hard drive, DVD/CD player and radio, filling the cockpit with concert-quality sound. The heated/cooled cup holder is exceptionally brilliant. A European-tuned independent suspension provides superior control, while front-wheel drive contributes to stability and traction when inclement conditions are encountered.

\*Late availability.

S = Standard, O = Optional.

Chrysler's engineers have meticulously designed and fine-tuned the 125kW 2.4L DOHC Variable Valve Timing (VVT) petrol engine to suit Sebring's enhanced driving dynamics. Excellent fuel economy also features, thanks (in part) to the use of electronic throttle control.

Genuine Chrysler Accessories can benefit that which Sebring's owners see and hear. The available iPod® Interface Module allows Sebring's drivers to access their personal music collection while on the road. The plug also charges the iPod battery.

Genuine Chrysler Accessories suit Sebring's active lifestyle. The available REQ AM/FM stereo with six-disc CD player is MP3 and hands-free compatible (not available on Limited). Door Sill Guards are equally bright and protective. The Rear Park Assist System\* ingeniously alerts drivers to objects while backing up. Moulded Splash Guards combine protection with style. Overhead, a Six-Pair Ski and Snowboard Carrier is perfectly suited for winter adventures.

\*Always check entire surroundings before backing up.

When your Chrysler vehicle has reached the end of its long and stylish life, we will take it back and dispose of it in an environmentally friendly manner in accordance with the EU Directive on End-of-Life Vehicles\* — but there's a lot of love to be shared before then.

\*Applies in accordance with the respective national statutory provisions for vehicles of up to 3.5t max. GVW. Chrysler vehicles have fulfilled legal requirements for recyclable design for some years now. A network of collection points and disassembly workshops is available to receive end-of-life vehicles where your vehicle can be recycled in an environmentally friendly manner. At the same time, the possibilities for the recycling of vehicles and vehicle parts are continually being developed and improved, which means that Chrysler vehicles will also continue to fulfill increased statutory recycling quotas in the future. Further information can be obtained by calling 00800 1 777 7777.
