

CHRYSLER SPECIFICATIONS

# VOYAGER

**CHRYSLER**

Grand Voyager SE, LX and Limited each come nicely equipped with full Stow 'n Go® capabilities, including two rows of fold-in-floor seats. When the seats are in their upright position, convenient storage bins in the second and third rows contribute 340 litres of storage space. The overhead rail system offers movable/removable storage bins. Clearly, Voyager was designed to elevate your driving experience from the mundane to the marvellous, and that is exactly what it does.

Chrysler Voyager provides comfortable seven-passenger seating with available plush leather-trimmed seats featuring Preferred Suede® Microfibre accents. Drivers will enjoy Voyager's many standard features, such as power door locks, heated foldaway exterior mirrors, and three zone air conditioning. Multiple front and rear auxiliary power outlets placed throughout the cabin allow you to recharge a laptop, mobile phone, or children's video games. To put it plainly, Voyager offers everything you need and an abundance of what you want.

Voyager Limited			S

S = Standard.

Not only is Chrysler Voyager a comfortable and luxurious people mover, it is a powerful one as well. Voyager models come equipped with standard 16-inch tyres and wheels. Behind the wheel, drivers experience a precise and controlled steering feel, provided by Voyager's power-assisted rack-and-pinion steering. Under the bonnet, the 3.3L V6 automatic gets you everywhere you need to be.

Genuine Chrysler Accessories can further season Voyager to your individual taste. Available accessories such as a six-pair Ski and Snowboard Carrier and the Roof-Mount Bike Carrier make it easy to explore different environments. Voyager-specific Premium Carpet Floor Mats prevent the adventures from soiling your carpet.

Voyager has an AM/FM stereo radio with a six disc CD/DVD changer that fits neatly in the dash, plus a 2nd row DVD screen with wireless headphones. A navigation radio CD based GPS navigation/stereo system is also available for your convenience. The ParkSense® Rear Park Assist system sounds a warning if it detects nearby obstacles in reverse at low speeds.
