DODGE JOURNEY

DISCOVERIES ARE UNCOVERED WITH EVERY TURN OF THE KEY. NEW PLACES ARE FOUND. FRIENDS ARE MADE. NEW HORIZONS SET. GET READY: A JOURNEY AWAITS. The Dodge Journey crossover jets onto the scene with a sporty, chiselled profile and signature Dodge crosshair grille. Both Dodge Journey's engines – a 2.7-litre V6 petrol with Flex Fuel capability and the 2.0-litre CRD turbo diesel – are designed to deliver. When it's all said and done, this crossover is ready for absolutely anything.

Journey R/T shown in Inferno Red with standard 19-inch machined alloy wheels.

Journey's chiselled wheel arch flares, integrated rear spoiler and jewelled wraparound taillamps set it apart at any angle. Journey SXT shown in Silver Steel.

Journey has the power to move you, whether you choose the V6 petrol or CRD turbo diesel.

Journey's impressive **2.7-litre V6 petrol** yields 136 kW and 256 N.m and is coupled with a 6-speed automatic transmission. This engine's Flex Fuel capability can use up to E85 ethanol-blended fuel, regular petrol or a combination of both.

The **2.0-litre CRD I-4 turbo diesel** will inspire you with 103 kW and 310 N.m and is matched with the 6-speed dual clutch Getrag automatic transmission that delivers amazing performance and fuel efficiency with quieter operation.

SEATING OPTIONS

SEVEN-PASSENGER CAPABILITY WITH THREE-ROW STADIUM SEATING. Journey's flexible nature is never more evident than in the clever design of the available seven-passenger seating configuration, featuring a six-way power driver's seat, fold-flat passenger seat, 60/40 split fold flat second row seats with fore/aft adjustment and 50/50 split fold-flat third row. All seats, even the second and third rows recline for optimum passenger comfort.

Journey's rear doors open a convenient 90 degrees, making passenger entry a breeze. On seven seat models, the unique second-row Tilt 'n Slide™ stadium-style seats move easily to accommodate third-row passengers.

Leather-trimmed seats are standard on R/T models while SXT models sport Stain Repel^[1] stain resistant, odour resistant, anti-static seat fabric that employs a dual-action technology to help resist stains by beading spills for easier cleaning.

UCONNECT™ MULTIMEDIA

ENTERTAINMENT AND TECHNOLOGY AT YOUR FINGERTIPS. The R/T model comes equipped with the Uconnect Media Centre 435, a CD/DVD/30GB HDD multimedia audio system that allows you to store photos, playlists and songs, as well as rip, stash, organise and shuffle thousands of digital music files from CDs or via the integrated USB port. The 16.5 cm touch-screen and reversing camera combine to provide excellent rear vision when in reverse and extra peace of mind.

Upgrade to the Uconnect Media Centre 831N to combine all the features listed above with state-of-the-art navigation.

Go high-tech with Uconnect Phone^[2], a hands free communication system that allows you to talk on your Bluetooth® compatible phone virtually hands-free thanks to the programmable address book and voice-activated operation.

^[1] Not compatible with aftermarket fabric-protecting coatings.

^[2] See your dealer for a current list of compatible mobile phones and any limitations your phone may have.

OVERHEAD CONSOLE. The overhead console features swivelling LED map/reading lights for dynamic directional lighting. There's also a sunglasses bin for easy access to your eyewear while driving.

CONVERSATION MIRROR. Easily retracted from the overhead front console, the conversation mirror offers in-vehicle monitoring of young travellers.

LED FLASHLIGHT. A handy LED flashlight is stored and recharged in the side of the cargo area, so it is always ready to help when you need extra light.

REAR DVD. The available DVD Rear Seat Video™ System with CD/MP3 capability and wireless headphones is a virtual multiplex entertainment venue. Auxiliary-input jacks on the console allow video camera, video-game console and portable MP3 player connectivity.

REAR TEMPERATURE CONTROLS. Dials located overhead allow rear-seat passengers control the rear air-conditioning unit for the perfect climate-controlled environment on seven-seat models.

FINGER-TIP OPERATION. The available multi-function steering wheel offers finger-tip operation of the audio system, cruise control and user-programmable Electronic Vehicle Information Centre (EVIC).

R/T interior shown with Dark Slate Grey leather-trimmed interior.

INTERIOR

- 1. INSTRUMENT PANEL STORAGE.** A small built-in bin is the perfect compartment for small items that need a home.
- 2. DUAL GLOVE BOX.** This two-tiered glove box surpasses its utilitarian roots. Level one is a compartment aptly named Chill Zone® that can maintain the cool temperature of two 375ml cans with the help of Journey's air conditioning. Level two features 5.7-litres of space to hold the Owners Manual plus other essential items.
- 3. FLOOR CONSOLE.** Easily accessible, the centre floor console offers illuminated cup holders and storage that keeps larger items like a purse or portable electronics out of site.
- 4. FLIP 'N STOW.™** The hinged cushion on the fold-flat front-passenger seat flips forward to reveal a large bin perfect for stowing a laptop or handbag.
- 5. MAP POCKETS.** Found on all four passenger doors, moulded map pockets give you even more places to stash items like maps, books, 600ml drink containers and more. The location is always within easy reach.
- 6. IN-FLOOR STORAGE.** The second-row floor provides even more clever storage. Two in-floor storage bins with latching lids can each hold up to a dozen 375ml cans or other items. For added convenience, these bins have removable, washable liners for easy cleaning.
- 7. REAR CUP HOLDERS.** Clever cup holders conveniently located in the rear quarter panel trim accommodate up to 600ml drinks or juice containers. Two more cup holders can be found in the second-row fold-down console.
- 8. CARGO AREA.** A standard hidden storage bin and access door to the tool and jack compartment is located behind the rear seat. When hauling gear is the priority, simply fold down the second- and third-row seats for up to 1,562 litres of cargo capacity.

Above right: Journey SXT shown with Brilliant Black exterior.

SAFETY & SECURITY

SOPHISTICATED ENGINEERING. Complex systems – like crush zones and safety cage construction – all work together to absorb or direct impact energy away from the passenger compartment in the unfortunate event of an accident.

AIR BAGS^[1]. Next generation driver and front-passenger air bags, supplemental side-curtain air bags for all three rows and driver and front-passenger supplemental seat-mounted side air bags are all standard on Journey. Which means that in the event of a collision, there's an extra level of protection that deploys at just the right time with the right amount of force to match the incident's severity.

ACTIVE HEAD RESTRAINTS. Standard on Journey, the front seat active head restraint system moves the head rest forward and upward in the event of a rear end collision to reduce the chance of head injuries.

ELECTRONIC STABILITY CONTROL (ESC)^[2]. Including All-speed Traction Control (ASTC), Brake Assist, Electronic Roll Mitigation (ERM) and Trailer Sway Control. ESC assists drivers in maintaining control of their vehicles during extreme steering manoeuvres. ESC works to correct the vehicle's course by automatically controlling the throttle and applying the brakes at individual wheels.

All-speed Traction Control (ASTC) reduces engine power, applies the brakes to spinning wheels and transfers torque to the appropriate wheel when slippage is detected. Brake Assist automatically increases braking pressure to its maximum force during emergency braking situations. Electronic Roll Mitigation (ERM) senses when a rollover may occur and applies braking force to the correct wheels to reduce the likelihood of such an event.

Trailer Sway Control (TSC) detects "sway" unique to trailer-towing and then engages Journey's brakes to slow the vehicle and trailer down, reduces engine throttle and then increases the brake force to only one side of the vehicle to help counteract the sway from the trailer.

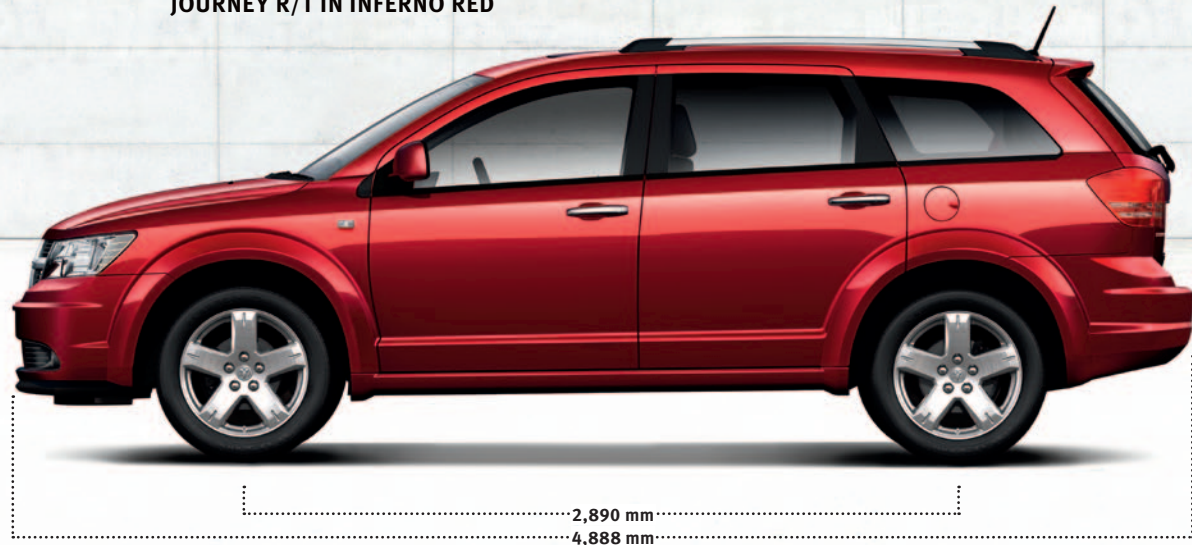

ANTI-LOCK BRAKE SYSTEM (ABS). Standard four-wheel disc brakes use state-of-the-art electronics to help prevent wheel lockup for improved steering under extreme braking or slippery conditions.

TYRE PRESSURE MONITORING. Keep an eye on safe and proper tyre pressure for improved safety and fuel economy. A warning light illuminates when low tyre pressure is detected.

INTEGRATED CHILD BOOSTER SEAT^[3]. Journey offers the option of second-row integrated child booster seats for children who have outgrown child safety seats (7 seater only).

^[1] Always use seat belts. Children 12 and under should always be in a backseat correctly using an infant or child restraint system, or the seat belt positioned correctly for the child's age and size. ^[2] No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning light in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always wear your seat belt. ^[3] Accommodating children up to 22-39kg up to 145 cm.

JOURNEY R/T IN INFERNO RED

JOURNEY SXT

Journey SXT comes loaded with all the comfort and flexibility that a busy lifestyle demands, without sacrificing stunning good looks that will set you apart.

Five seats with a cavernous cargo area is the standard layout, but you can set the car up to your own requirements with the optional seven-seat configuration.

A smooth 2.7-litre V6 petrol engine is coupled to a slick-shifting six speed automatic transmission, offering a perfect blend of performance and economy.

Some of the many features everyone can enjoy include dual-zone climate control and six-disc CD/DVD audio system, but the driver isn't forgotten with a six-way electric driver's seat, tilting and telescopic steering wheel and cruise control.

JOURNEY R/T

When you opt for the Journey R/T, you'll experience a new level of luxury and convenience.

Some of the exclusive features on R/T include striking 19" wheels and exterior enhancements, leather-trimmed seating for seven, and the innovative Uconnect™ Media Centre 435 which features CD/DVD playback, a 30GB hard drive that can store thousands of digital files and a reversing camera that offers enhanced rear view on the 16.5 cm touchscreen.

[1] Not compatible with aftermarket fabric-protecting coatings. [2] Always use seat belts. Children 12 and under should always be in a backseat correctly using an infant or child restraint system or the seat belt positioned correctly for the child's age and size. [3] No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning light in the speedometer flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. [4] Always check entire surroundings before reversing. [5] Requires Bluetooth® enabled phone. See your dealer for a current list of compatible mobile phones and any limitations your phone may have. [6] Requires Uconnect Phone.

ACCESSORIES BY MOPAR

DVD REAR SEAT VIDEO

Includes second-row overhead 8-inch video screen, wireless headphones, remote control and auxiliary video input jacks.

REAR PARK ASSIST SYSTEM⁽¹⁾

Uses sound waves to detect nearby obstacles and helps you manoeuvre in reverse at low speeds. Audio indicators alert you to the proximity of most larger, stationary objects that might be outside your line of sight.

ROOF-MOUNT BIKE CARRIERS

The Fork-Mount style carries one bike securely by the front fork and rear wheel. The Upright style carries one bike locked by the frame with both wheels secured. Carrying clamps feature extra-large rubber inserts to help protect bike surfaces. Carriers attach to Sport Utility Bars (sold separately).

TOW BAR KIT⁽²⁾

Your Journey will really haul when it's equipped with this towing solution. Kit includes tow bar, tongue, tow ball and wiring harness.

⁽¹⁾Always check entire surroundings before reversing. ⁽²⁾Check Owner's Manual for load capacity and heavy-duty equipment required. Do not exceed rated tow capacity of the vehicle as equipped. Towing may require some items not supplied by Dodge.
