

Falcon

At Ford, with such a long and successful motoring heritage behind us, we understand that everyone's lifestyle is different. What you look for in a vehicle will be different from the next person. It could be a vehicle that allows you to fit in all the family and hit the open road for the weekend, a zippy urban car that's perfect for tackling city traffic, or maybe you need a vehicle that allows you to play as hard as you work. We'd like to think that our family of vehicles is proof that Ford never stops looking forward, designing and engineering vehicles that catch your eye, are technologically advanced, consider the environment and help keep you safe. In short, no matter what your lifestyle, you're sure to find a Ford that can help you live more of your life.

Irresistible Design:

Because everyone's idea of the perfect car is different, Ford has designed and engineered a family of exciting, athletic and sleek vehicles that look great inside and out.

Great to sit in, great to drive:

There's nothing quite like driving a Ford. That's because every Ford is built from the ground up to be exhilarating to drive, with high levels of interior comfort along with the very latest safety systems that help keep you in control and protect you and your passengers.

Sustainability:

Ford recognises that climate change is a significant global challenge. We have an ongoing commitment to caring for the environment in every facet of our business, including delivering alternative fuel solutions such as diesel and LPG.

Innovation and Technology:

Thinking smarter means a comfortable, safe and enjoyable drive every time you turn the key. Our innovative solutions to everyday tasks using the latest technology save you time and connect you to the digital world.

Built to Last:

Every Ford is built not just for today but for tomorrow as well. So, when you buy a Ford you enjoy the type of quality that you can rely on, day in day out. Not just the look and feel, but the way it performs and the way it lasts.

There's never been a Falcon quite like the remarkable Ford G Series. Our designers and engineers have created a vehicle that perfectly blends a spirited driving experience with levels of luxury and comfort you'd expect to find in expensive European marques. From engines and transmissions that deliver true sports performance and exceptional fuel efficiency, to an interior that redefines family comfort, it's a vehicle that's perfectly designed for your next getaway, wherever that may be.

G

Series

INTERIOR

Spacious luxury.

With so much room and luxury for every occupant, the Falcon interior means everyone travels first class.

You can comfortably seat five adults in the Falcon, while the driver can luxuriate in a dynamic cockpit that boasts improved ergonomics for even greater driving pleasure. Passengers can sit back and experience elegant luxury, including leather trim options on the G6E models. Also, if the kids aren't on board, the Falcon's smart and flexible cabin layout can adapt to your needs, like being able to fold part or all of the rear seats down to create a generous cargo space.

Class-leading towing capacity.

Whether you're hooking up a boat or a camper trailer you've all the power and torque you need to tow up to 2300kg.*

Flexibility of a folding second row seat.

A 60/40 split fold rear seat gives you added cargo space and a more flexible interior.

Class-leading boot capacity.

Pack all the family's bags and still have room enough for the golf clubs and a few boogie boards.

Class-leading interior space.

The Falcon leads its competitors with the best headroom, hip room and shoulder room, in the front and rear.

*When fitted with an automatic transmission and Genuine Ford heavy duty towbar and load levelling kit. Subject to state and territory regulations. Towball download and rear axle limits must not be exceeded. Please refer to your Ford Dealer for advice.

G6E Turbo shown with no cost optional Cashmere Leather seat inserts.

Technology & comfort.

Falcon's athletic exterior holds much promise, and once behind the wheel that promise is well and truly kept.

All of the innovative comforts and interior finishes in the Falcon have been created with the driver in mind. The interior is an environment where technology and comfort combine to deliver an exhilarating yet sublime driving experience. And it's an experience that is as stress-free as possible, thanks to all of your creature comforts and controls being within easy reach.

Child night lighting.

Adjustable interior lighting means you can keep an eye on the little ones while they're snoozing without disturbing a moment's rest.

G6E Turbo shown.

Automatic climate control.

When you can set the interior temperature to suit, the family travels in complete comfort regardless of what mother nature has in store.

G6E Turbo shown.

Easy-to-use technology.

The Ford Falcon has a long list of technological features that provide you with greater control and more comfort.

There are a number of the latest technological features that all come standard on the Falcon, such as full iPod integration*, enabling you to take your music wherever you go. Helping you stay connected is the hands-free convenience of Bluetooth® mobile phone integration* with steering wheel control, while the optional satellite navigation system will enable you to get to your destination quickly and easily. Not only does the on-board technology help make every journey more enjoyable and comfortable, but all of the vehicle's controls and functions are easily navigated using the Human Machine Interface.

Multi-function Display.

The easy-to-read Multi-function Display allows you to check everything at a glance, from speed and journey distance to vehicle warnings and more.

G6E Turbo shown.

Satellite navigation system with Suna™ Traffic Channel!

Guides you to your destination via a map on the large 7" colour screen and voice commands integrated within the vehicle's audio system. Suna Traffic Channel provides dynamic road traffic information, keeping you informed to help avoid congestion and re-route around traffic incidents.

Bluetooth® mobile phone integration:

iPod Integration:

Human Machine Interface (HMI).

Incorporating the Interior Command Centre (ICC), Multi-function Display and steering wheel controls, the HMI, via two display screens, allows simple navigation of menus and operation of vehicle functions. This greatly increases safety, because you can easily see information such as speed, overspeed, audio information, trip computer, average fuel economy, average speed, travel time and more, minimising the time that your eyes are off the road. The control dial makes it simple to navigate through all of the vehicle settings and make adjustments to features such as automatic climate control and audio settings.

Bluetooth® mobile phone integration.*

Integrated into your vehicle's audio system, Bluetooth® allows you to enjoy safe, hands free communication while you are driving.

iPod Integration:

Allows you to access and play your favourite playlists, albums and podcasts on your iPod through the vehicle's audio system, with everything controlled through the control dial or steering wheel buttons.

iPod docking location.

Because your iPod sits snugly within the centre console bin there's no clutter. Control via the control dial or steering wheel buttons improves safety. Plus your iPod charges whilst connected.

*Bluetooth® is a registered trademark of Bluetooth SIG Inc., and is used under licence. Customers should consult their Ford Dealer on the ability of their mobile phone handset to integrate with the Bluetooth® system prior to making a purchase decision. Standard from June 2010 production. #Not available on Falcon XT, XR6 or G6. Ford has an arrangement to provide the Suna Traffic Channel broadcast for a minimum of 5 years from the time of vehicle manufacture. Coverage includes Melbourne, Sydney, Brisbane, Canberra, Adelaide, Perth and Gold Coast metropolitan areas. Refer to www.sunatrafic.com.au for full details. ~iPod is a trademark of Apple Inc. Please refer to ford.com.au for iPod compatibility. Standard from June 2010 production.

Safety comes first.

Falcon's most innovative and important features are those that make every journey a safer one.

A clear view of what surrounds you, along with cleverly located features that minimise the time that your eyes are off the road help you to avoid an accident before it can happen. In the Falcon, safety starts before you even leave your driveway with a reverse camera* available that alerts you to things you can't see. You also have peace of mind with features like the availability of a range of airbags (including curtain airbags*), Dynamic Stability Control™ and a driver fatigue warning system. In the event of an accident, the Intelligent Safety System can determine which airbags to deploy in an instant.

The first Australian built vehicle to be awarded ANCAP's 5 star rating.

It's a first. The first time an Australian built vehicle has ever received all five safety stars from ANCAP. The petrol Falcon Sedan proved itself through numerous internationally recognised crash tests and was awarded the highest safety rating possible. It's not the easiest rating to get, but when it comes to your safety and that of your family, it's the most important. Plus, if you are looking for even greater fuel cost savings you'll be glad to know the 5-star ANCAP rating also applies to the ultra-economical Falcon E-Gas. What's more, Falcon's high levels of safety, quality and performance have also impressed Australia's motoring critics, with both the Falcon XT and the G6E Turbo picking up major automotive awards in recent years.

Follow-me-home lighting.

Front headlights temporarily stay on once the vehicle is locked, providing lighting to guide you home.

Intelligent Safety System.

In the event of an accident occurring, information is fed to the Advanced Restraints Module which instantly deploys the appropriate safety technologies.

Airbags.

A range of up to 6 airbags, including curtain airbags*, are designed to enhance your protection in the event of a crash.

Reverse sensing system.

Automatically activates and provides a warning tone to assist the driver to reverse with greater accuracy.

DSC.

Dynamic Stability Control (DSC)™ strengthens your connection to the road and helps you avoid the problems of oversteer and understeer. DSC tracks the vehicle's movement and then works in tandem with Traction Control and ABS to help keep the vehicle under control.

Reverse camera:

Activates automatically when the car is engaged in reverse gear. With a fisheye lens capable of providing a 130° wide angle view up to 10 metres behind the car.

Driver fatigue warning.

Warns the driver to rest after driving for a continuous period.

Passenger safety cell.

Incorporating ultra-high strength steel for greater all round strength and protection, the safety cell greatly reduces intrusion into the passenger space, minimising the likelihood of occupant injuries.

*Standard on G6E and G6E Turbo. Not available on Falcon XT, XR6 and G6. Falcon XR6 Turbo must be specified with optional reverse sensing system. #Curtain airbags are standard on G6E and G6E Turbo and optional on all other models. ™DSC also known as Electronic Stability Control.

ENGINE

A truly exhilarating drive.

With a range of powerful and fuel-efficient engines, and smooth precise transmissions, the Falcon allows you to customise the driving experience you desire.

Falcon's high-tech, state-of-the-art engines deliver an exhilarating blend of power and fuel efficiency. The 4.0 litre I6 engine produces a stunning 195kW of power and 391 Nm of torque while its performance at the fuel pump is just as impressive. Stepping up, the 4.0 litre I6 Turbo, with its turbocharger and air induction system, puts out 270kW of power and a whopping 533Nm of torque. Then there's the E-Gas 4.0 litre I6 engine, which in addition to being fully integrated with the Falcon's engine management system, delivers substantial fuel cost savings.

Falcon XR6 shown with optional XR Luxury Pack.

Transmission.

The range of sophisticated transmissions, with a low first gear ratio and higher top gear ratio deliver a truly spirited driving experience. The greater dynamic range means livelier, energetic performance as well as more relaxed cruising and ultra-smooth gear shifts.

Falcon XR6 Turbo shown in Lightning Strike.

4.0L E-Gas I6 engine.

The E-Gas engine can provide incredible fuel cost savings. With petrol prices rising, it's a good time to look at the alternatives. The powerful and ultra-efficient optional E-Gas engine will save you money with every kilometre you travel compared to a petrol engine.

Virtual Pivot Control Link front suspension.

Designed specifically to suit Australian conditions and roads, the Virtual Pivot Control Link front suspension combines precise steering control and manoeuvrability with excellent levels of comfort.

Monotube shock absorbers.

Improves the vehicle's connection to the road as well as providing better handling.

Performance brakes.

Standard on G6E Turbo and XR6 Turbo, the larger diameter front brakes feature vented discs and deliver outstanding stopping performance.

A range of stylish wheels.

Contemporary designed wheels including the optional 19" XR 5-spoke and 19" G Series 10-spoke alloy wheels.

Control Blade Independent Rear Suspension (IRS).

One of the most advanced suspension systems on any Australian built car, for greater handling ability and ride comfort.

If you love the type of spirited performance that sends a tingle down the spine, the Falcon XR is your dream getaway car. With distinctive muscular looks and its sublime combination of breathtaking power and precise control, the XR range delivers a driving experience that can best be described as 'seriously fun'.

XR

XR luxury pack.

The XR luxury pack lets you experience exciting levels of performance, driving pleasures and true comfort.

When you look over the long list of features, there's a very convincing argument for the XR luxury pack* option. Sports leather seat inserts and dual zone automatic climate control take comfort to a new level, while features such as the 6-disc in-dash CD player with 8 speakers, 150 watt amplifier and sub-woofer and the 7" colour display make every journey more pleasurable. And the unique 19" x 8" XR 5-spoke alloy wheels are the icing on the cake.

*Not available on XR6 with optional E-Gas.

Falcon XR6 Turbo shown in Viper.

RANGE

From true sports performance to family luxury that lets you getaway in real comfort, the Falcon range offers you so much choice.

The Falcon really does spoil you for choice. First of all, there is a range of engines and transmissions that deliver true sports performance along with exceptional fuel efficiency, while there are remarkable levels of luxury and comfort right across the range. So whether you happen to be after a truly spirited driving experience, or a vehicle that's perfectly designed for your next family getaway, the Falcon range has just the car you're looking for.

Making your ownership experience even more rewarding.

A great car is just the beginning. We support you with a wide range of services that aim to make you one of the most satisfied vehicle owners in Australia. Speak to your Ford Dealer today about how we can help you make the most out of your vehicle ownership experience.

myFord Roadside Assistance

Our commitment to your complete satisfaction plays a major role in everything we do. That is why we provide myFord Roadside Assistance for all Ford Falcon models. Wherever and whenever you need emergency roadside assistance, help is available 24 hours a day, 365 days a year. If your vehicle breaks down and cannot be repaired, we will organise to transport your vehicle to the nearest Ford Dealer or approved service centre for repair. myFord Roadside Assistance is valid for 1 year from the vehicle's first registration.

3 year/100,000km new car warranty#

For three years or 100,000km, whichever comes first, your Ford is covered against any defects in factory materials or workmanship. This also applies to Genuine Ford Accessories you may have had fitted before you took delivery.

5 year warranty against perforation corrosion#

It's reassuring to know that the original body of your gleaming new Ford is guaranteed against perforation corrosion for the first five years of its life. If perforation corrosion occurs, we'll fix it for free.

myFord Warranties & Insurance

When you first turn the key of your brand new Falcon you want to do so without a care in the world. Our range of myFord products gives you that extra peace of mind. For more information about myFord Warranties and Insurance, visit your participating Ford Dealer for further details on the plans that best suit your needs. Terms, conditions and eligibility criteria apply.
